The legislature may properly provide that lands which by reason of artificial irrigation contribute by seepage and saturation to the swampy condition of lowlands shall contribute their just proportion of the cost of construction of drainage works for the reclamation of such lower lands,<sup>96</sup> and the highlands are benefited in that the irrigation of the highlands contributes water which must be carried off from the lowland of the district.<sup>97</sup> Where the assessment is for the drainage project, it must be based on the benefits derived from such project and not on the benefits derived from irrigation, according to certain authorities,<sup>98</sup> although there is authority holding that the cost of drainage to protect particular land should be charged against all lands benefited by the irrigation system,<sup>99</sup> and not against the protected land alone.<sup>1</sup> In any event the drainage assessment must be based on benefits in accordance with the controlling provisions of the irrigation law.<sup>2</sup> The benefit on which the drainage assessment is based should be an actual benefit,<sup>3</sup> although there may be an actual benefit without increase in the value of the land,<sup>4</sup> and the benefits should be such as immediately accrue, or clearly will accrue, from construction of the drainage system.<sup>5</sup>

## § 334. — Levy and Assessment

- a By whom made or authorized
- b Time
- c Mode
- d Determination of benefits
- e Rate and amount of assessments
- f Assessment rolls and records, and form and contents of assessment
- g Notice and opportunity for hearing
- h Drainage assessments of irrigation district

## a. By Whom Made or Authorized

- (1) In general
- (2) Authorization by electors of district

## (1) In General

A levy or assessment is to be made by the authority designated by statute.

Irrigation taxes and assessments should be levied by the authorities designated by statute, and, in accordance with statutory provisions, it has been held that if the district board neglects to levy a tax for costs of organization and payment of outstanding bonds the county board may levy such tax on the general assessment,<sup>6</sup> although the district board alone can levy a tax for the general purposes of the district and a tax levied by the county board for such general purposes would be void.<sup>7</sup> Statutory provisions granting irrigation district directors general power to do such acts as may be necessary to carry out the provisions of the statute under which the district is organized do not give them authority

to make an assessment not otherwise authorized,<sup>8</sup> and provisions of an irrigation district act have been held not to apply to an improvement district within the irrigation district.<sup>9</sup>

## (2) Authorization by Electors of District

When so required by statute a levy or assessment must be authorized by the electors of the district.

Where the governing statutes require an election to authorize a special assessment,<sup>10</sup> such as a special assessment for the construction of an irrigation system,<sup>11</sup> or a general tax on all tangible property in the district,<sup>12</sup> such an assessment made without an election is invalid, and an assessment made partly for construction and partly for other purposes for which assessment is permitted without prior authorization by election is invalid in whole if there is no way of segregating the proper from the improper charges.<sup>13</sup> The fact that the statute provides that under certain circumstances a special assessment shall not be levied without an election relating thereto does not of itself cast on the directors the duty of calling an election if there is no assessment made.<sup>14</sup> Assessments which are not taxes within a statute requiring authorization by property taxpaying voters have been held valid, although not authorized by such voters.<sup>15</sup>

## b. Time

Statutory provisions generally regulate the time for making a levy and assessment.

Generally speaking, the time for making an irrigation levy and assessment is regulated by statute, and

6. Mont—State ex rel Blenkner v Stillwater County, 66 P 2d 788, 104 Mont 387

67 C J p 1344 note 24.

7. Neb—Wight v McGuigan, 143 N W 232, 94 Neb 358

**Assessment to pay judgment**

County board of equalization had no authority under statute to assess and levy taxes against landowners and school land leasehold owners within an irrigation district to pay judgments obtained against such public corporation and such taxes were void and not a lien on land or leasehold interests in the district. Neb—Loup County v Rumbaugh, 38 NW 2d 745, 151 Neb 563

8. Wash—Laycock v Lake Chelan Reclamation Dist, 214 P 1054, 124 Wash 544

Wash—Beecher v Peshastin Irr Dist, 234 P 4, 133 Wash 561.

Opportunity of improvement district to have drainage canal constructed by civilian conservation corps through Federal Reclamation Bureau did not either by itself or taken in connection with waterlogged condition of land in improvement district, create a legal "emergency" justifying assessment of all land in the improvement district without first holding a special election, even though part of the assessment was for operation and maintenance for which no election was necessary

Nev—Penrose v Whitacre, 132 P 2d 609, 61 Nev 440, opinion adhered to 147 P 2d 887, 62 Nev 239

14. Cal—Imperial Land Co v Imperial Irr Dist, 147 P 593, 26 Cal App 529

67 C J p 1345 note 31

15. Tex—Moore v Maverick County Water Control and Improvement Dist No 1, Civ App, 162 SW 2d 1009, error refused, certiorari denied 63 S Ct 993, 318 US 790, 87 L Ed 1156

statutes providing that whenever bonds shall have been voted the directors of the district shall levy a tax sufficient to pay them do not authorize a levy before the bonds have been voted,<sup>16</sup> and, where other provisions of the statutes provide that all expenses of organization shall be paid out of the proceeds of the sale of the bonds, there is no implication that a tax may be levied in advance of the voting of the bonds to pay such expenses<sup>17</sup>

*Costs of operation and maintenance* may be levied in advance of the time for payment<sup>18</sup>

### c. Mode

- (1) In general
- (2) Resolution or motion
- (3) Credit for outstanding water rights
- (4) Methods of apportionment

#### (1) In General

The mode of assessment is generally prescribed by statute.

Statutory sections regulating the mode of assessment should be construed in the light of the whole act governing irrigation districts,<sup>19</sup> and where the legislature has prescribed the method and manner of levying assessments no other manner or method may be used,<sup>20</sup> and, where the evident purpose of the whole act is to authorize levying of assessments on all lands of the district supplied with water considered as a whole, the courts will deny the contention that assessments should be apportioned locally within the district<sup>21</sup> While a slight omission of land from assessment will not invalidate the assessment unless the omission results in sub-

stantial injury,<sup>22</sup> an owner of land in the district has the right to assume that all irrigable land not exempt by law is assessed for the same amount as every acre of irrigable land owned by him in the district<sup>23</sup> An irrigation district is an indivisible unit in the sense that the burden of constructing and maintaining it should be apportioned ratably to all lands receiving water therefrom,<sup>24</sup> and a water user may not divide a system into its component parts and decline to pay his share of the cost of constructing, maintaining, or operating those portions from which he receives no direct benefit<sup>25</sup> Thus, the district's bond obligation is so far general in character that a landowner may not segregate his share thereof<sup>26</sup>

*Contiguous lots owned by one person and used together*, and on which there is a building covering a part of each lot, are properly assessed together as one parcel<sup>27</sup>

*Plan and estimate.* Apportionment of irrigation taxes or assessments should be based on the plan and estimates finally adopted.<sup>28</sup>

*What law governs* The law in force when an assessment was levied ordinarily governs as to the method of levying taxes for the payment of irrigation district bonds.<sup>29</sup>

#### (2) Resolution or Motion

Unless required by statute, a resolution is not required to authorize the levy of an assessment.

Where the statute does not expressly require that the levying of an assessment be by, or in the form of, a resolution, an assessment is not invalid because

16. Tex—Creager v Hidalgo County Water Improvement Dist No 4, Com App, 283 SW 151.

67 C J p 1345 note 35

19. Idaho—Colburn v Wilson, 132 P 579, 24 Idaho 94

#### Intention of legislature

The legislature in enacting irrigation district laws did not intend to create two methods of raising money for maintenance and operation of the completed irrigation system in an irrigation district, one by assessment required to be uniform according to benefits received and the other by tolls, not required to be uniform or based on benefits received, but based only on cost of delivery of water

Idaho—Gedney v Snake River Irr Dist, 104 P 2d 909, 61 Idaho 605

20. Or—Payette-Oregon Slope Irr Dist v Coughanour, 91 P 2d 526, 162 Or 458

26. Wash—Roberts v. Richland Irr Dist, 13 P 2d 437, 439, 169 Wash 156, affirmed 53 S Ct. 519, 289 US. 71, 77 L Ed 1038

27. Cal—Cooper v. Miller, 45 P 325, 113 Cal 238

28. Cal—Reclamation Dist. No 108 v. Ash, 208 P 394, 58 Cal App 238

29. Wash—State v Columbia Irr Dist of Stevens County, 208 P. 27, 121 Wash. 79.

the board did not previously pass a resolution authorizing it,<sup>30</sup> and it is immaterial whether the board proceeded by resolution or by mere motion, as long as the levying of the assessment constituted the action of the board<sup>31</sup> and was duly preserved in its records as required by statute<sup>32</sup>

### (3) Credit for Outstanding Water Rights

Where statutes so require, in making an assessment, credit must be given lands for any partial or full water rights which they may already possess.

Under statutes requiring that any lands in an irrigation district shall be given "equitable credit" for any partial or full water rights they may already have, an assessment made without giving such credit is erroneous,<sup>33</sup> even though the owner of the land signed the petition inducing the inclusion of his land in the district,<sup>34</sup> although landowners who have previously conveyed their water rights to the district without any provision or limitation are not entitled to credit<sup>35</sup>

Where irrigation district has bought system of existing irrigation company, subject to the outstanding contracts of the latter, the district may not assess lands of one having a contractual water right from such company and receiving no benefit, in addition to that guaranteed by such contract, in a sum in excess of that which the holder of the water right agreed to pay such company as water rental<sup>36</sup> until the district either purchases or condemns his water rights under his contract,<sup>37</sup> but may assess him a sum not in excess of such agreed water

rental,<sup>38</sup> although if the holder of the water rights receives some benefit in addition to that conferred by the water right, his land is subject to assessment,<sup>39</sup> and, where the board of directors has determined that such owner's land was benefited, and where he or his predecessor in interest has failed to raise timely objection, he may not thereafter attack the validity of the assessment in a collateral proceeding,<sup>40</sup> it being conclusively presumed that he did receive a distinct benefit sufficient to support an assessment in excess of the agreed water rental<sup>41</sup>

### (4) Methods of Apportionment

- (a) In general
- (b) According to benefits
- (c) Value of property
- (d) Area and frontage

#### (a) In General

Subject to constitutional provisions the method of apportionment of irrigation taxes and assessments rests in the discretion of the legislature

If the fact of benefit to all lands sufficiently appears, the method of apportionment of irrigation taxes and assessments rests in the discretion of the legislature<sup>42</sup> Under a constitutional provision that taxes must be equitably distributed, either a tax on an ad valorem basis or a special assessment on a benefit basis is permissible<sup>43</sup> State laws control with respect to assessment of land according to benefits, although the land in the irrigation district is also included in a federal reclamation project.<sup>44</sup>

67 C J p 1346 note 59

Internal affair of district

Apportionment of assessments to pay cost of construction of irrigation works under contract, approved by district court between irrigation district and United States pursuant to federal reclamation laws, among various tracts of land in district is matter of district's internal affairs and cannot be settled finally at trial on landowners' petition to confirm or approve contract, in view of fed-

## (b) According to Benefits

Where required by statute, apportionment must be according to benefits received.

Where the irrigation statute in terms provides for apportionment according to benefits, such provision is mandatory,<sup>45</sup> and an assessment made on any other basis is invalid,<sup>46</sup> although it is sufficient if the apportionment is substantially in accordance with benefits.<sup>47</sup> It has been held that the directors of a district may properly levy assessment for maintenance and operation not according to the original benefits, but according to the benefit received from maintenance and operation during each year.<sup>48</sup> Where examination of the statute shows that a contention that it authorizes assessment in excess of benefits,<sup>49</sup> or that it exempts benefited lands,<sup>50</sup> is unfounded, the statute will, of course, be held valid as far as such contention is concerned.

*Factors considered.* Broadly speaking, the word "benefits," as used in a statutory provision requiring assessments to be proportionate to benefits received, will be construed as meaning such benefits as promote the prosperity of the district and add to property values.<sup>51</sup> Generally speaking, the theory of assessment for benefits is that the landowner has received by reason of the irrigation system an increase in the market value of his property,<sup>52</sup> and that increase marks the extent of the benefit,<sup>53</sup> although there is authority holding that the market value of

lands within an irrigation district is not conclusive on the question of benefits equaling assessments,<sup>54</sup> and that there may be an actual benefit without proof of a corresponding increase in market value.<sup>55</sup> The distance of the main irrigating canal from the lands assessed,<sup>56</sup> or the relative heights of lands,<sup>57</sup> is not alone determinative of relative benefits.

While the supply of needed water is one of the benefits for consideration,<sup>58</sup> it is not necessarily the exclusive benefit,<sup>59</sup> and there may be other benefits that accrue.<sup>60</sup> It has been held that an assessment apportioned solely on the basis of the amount of water furnished or made available, and without regard to enhancement of market value, is invalid.<sup>61</sup>

In determining enhancement in market value all factors bearing thereon should be considered.<sup>62</sup>

*Assessment of subdivision.* An assessment may be laid against a legal subdivision so as to include fractional parts thereof where all parts are benefited equally,<sup>63</sup> but not otherwise.<sup>64</sup>

Cost of improvements in a local assessment irrigation district should be apportioned in some just mode,<sup>65</sup> according to the benefits received by the several portions of the district.<sup>66</sup>

## (c) Value of Property

Under statutes so providing, assessment may be on an ad valorem basis.

A statute providing for assessment on an ad

eral statutory provisions, embodied in contract, for reclassification of lands within district on request, and contract provision for apportionment of estimated cost of construction among lands  
*Kan—Mizer v Kansas Bostwick Irr Dist No 2, 239 P 2d 370, 172 Kan 157, appeal dismissed 72 S Ct 1053, 343 US 954, 96 L Ed 1355*

64. *Idaho—Oregon Short Line R Co v Pioneer Irr Dist, supra*

65. *US—Norris v Montezuma Valley Irr Dist, Colo, 248 F 369, 160 CCA 379, certiorari denied 39 S Ct 10, 248 US 569, 63 L Ed 425*

66. *US—Norris v Montezuma Valley Irr. Dist., supra.*

valorem basis has been held valid,<sup>67</sup> and, unless resulting in manifest injustice or inequality, the fact that assessments are made according to value will not disprove consideration of benefits.<sup>68</sup>

Whether assessments are out of proportion to value of the land assessed should be determined as of the time of assessment,<sup>69</sup> and not after the assessments have become delinquent.<sup>70</sup>

#### (d) Area and Frontage

Where the statutes so provide or permit, assessment may be on the basis of acreage or frontage.

Statutes providing for assessment according to area,<sup>71</sup> as on the basis of the irrigable acre,<sup>72</sup> or on the basis of the proportion of irrigable land in each tract of a stated acreage to the total irrigable area in the district,<sup>73</sup> are valid. While it has been said that if the legislature prescribes an assessment in proportion to benefits it is not within the power of the assessing body to assess according to area<sup>74</sup> or frontage,<sup>75</sup> other authority is to the effect that, in the absence of manifest injustice or inequality, an assessment does not show failure to consider benefits because it is made according to area<sup>76</sup> or frontage.<sup>77</sup>

Change from acre to lot as basis of assessments for maintenance and operation has been held proper.<sup>78</sup>

#### d. Determination of Benefits

The determination of benefits is generally a matter for the district officials.

Subject to the taxpayer's right to a judicial review, discussed *infra* § 335, the directors of an irrigation district are empowered to determine the benefits received by particular property,<sup>79</sup> and their determination as to the fact of benefit is not subject to collateral attack.<sup>80</sup> In other words, the question of benefits is one of fact to be determined in the first place by district officials,<sup>81</sup> and finally by the trial court.<sup>82</sup> It will be conclusively presumed from a due adjudication of the organization of an irrigation district that the total benefits to lands therein were then finally adjudicated.<sup>83</sup> From a finding that all lands within an irrigation district can be irrigated and made productive by application of the water that will be obtained from a system built with the proceeds of irrigation bonds, it will be assumed that the lands will be benefited at least to the extent of the assessment.<sup>84</sup>

#### e. Rate and Amount of Assessments

- (1) In general
- (2) Constitutional or statutory limitations on amount
- (3) Computation and estimate
- (4) Assessing amount sufficient to cover delinquencies of others

##### (1) In General

The amount of a levy or assessment is generally a matter for the discretion of the district officials, subject to statutory limitations.

#### Questions for court

Where contract between irrigation district and United States provided that benefits from irrigation be assessed by dividing land into three classes, according to size, topography, etc., and varying charges accordingly, and exhibit attached to petition for confirmation of contract gave number of acres in each class belonging to each affected landowner, court was required to determine whether such formula was manifestly disproportionate as to any tract with respect to which a question had been properly raised, and, if not, to approve schedule of proposed assessments; and such inquiry would be limited to a consideration of whether the formula was followed. Kan.—Kansas-Bostwick Irr. Dist. No. 2 v. Mizer, 270 P.2d 261, 176 Kan. 354

83. Wash.—Roberts v. Richland Irr. Dist., 13 P.2d 437, 169 Wash. 156, affirmed 53 S.Ct. 519, 289 U.S. 71, 77 L.Ed. 1033—State v. Hartung, 274 P. 181, 150 Wash. 590

84. Utah—Stevens v. Melville, 175 P. 602, 52 Utah 524

Within statutory limitations the amount of a levy or assessment to be made for irrigation rests in the discretion of the district's board of directors.<sup>85</sup> As to the annual assessment, the directors cannot lawfully levy a sum in excess of what is required for the specified purposes;<sup>86</sup> but they have a reasonable discretion in determining the amount required, and will not be interfered with by the courts unless this discretion is shown to have been abused, and even then the courts will not undertake to decide what amount should be raised.<sup>87</sup> Where the benefits are the same the rate should be the same,<sup>88</sup> but where they differ a flat rate is not justified.<sup>89</sup>

Irrigation district's exercise of its statutory power to issue bonds imposes on the district the obligation to levy a tax sufficient to pay such bonds as they fall due,<sup>90</sup> unless the constitution or statutes of the state forbid.<sup>91</sup> Where uncollected taxes are sufficient to pay district bonds it has been held that the irrigation district may not be compelled to levy taxes for the full amount of matured bonds,<sup>92</sup> and it has been held that a bondholder compelling a levy by an irrigation district which does not produce sufficient cash is not entitled to enforce another levy where the levy did produce sale of lands of delinquent taxpayers sufficient to satisfy claims.<sup>93</sup>

*Cash turned over to irrigation district for improvement of a river may not be deemed a source of revenue in preparing an item of the budget for current and miscellaneous expenses.*<sup>94</sup>

## (2) Constitutional or Statutory Limitations on Amount

The amount which may be levied is limited to that fixed by constitutional or statutory provisions

Statutes empowering the directors of an irrigation district to levy as an annual assessment for payment of principal and interest on district bonds only such amount as, in the judgment of a commission, it will be possible for the landowners of the district to pay have been construed as applying only to such districts as have been declared insolvent,<sup>95</sup> and as inapplicable to bonds issued under a different statutory provision.<sup>96</sup> Under statutes limiting the amount of indebtedness that an irrigation district may incur for preliminary expenses, the mere issuance of warrants for payment of illegal claims does not invalidate proceedings instituted for the tax levy,<sup>97</sup> and the tax levy made after issuance of such illegal warrants is valid and binding.<sup>98</sup>

Constitutional restrictions on rate or amount of revenue to be raised by general taxation for the support of the government are not applicable to irrigation district assessments.<sup>99</sup>

## (3) Computation and Estimate

Computation or estimate of the amount of assessments must be in accordance with existing law.

The law in force at the time of final determination governs computation as to annual assessments.<sup>1</sup> Statutes requiring the board of directors of irrigation districts, at the time of making the annual levy, to estimate the amount of assessments to be made against lands owned by the district, including local improvement assessments, and to levy an amount sufficient to pay said assessments, are valid<sup>2</sup> and mandatory.<sup>3</sup> Under a statute permitting, but not requiring, the directors of an irrigation district to make their estimate of the amount of tax necessary with the advice of a competent engineer, an estimate

### Additional levies

Under statutes governing issuance of bonds and interest coupons by irrigation districts and providing for method of their payment by annual levies on lands in district to be benefited, after annual levy has been regularly made and completed for payment of bonds and coupons maturing in year of levy, no authority exists for the making of additional or cumulative levies for that purpose

3. Wash—State v. Hartung, supra

made in good faith without the advice of an engineer is valid <sup>4</sup>

#### (4) Assessing Amount Sufficient to Cover Delinquencies of Others

Under some statutory provisions, landowners may be assessed in amounts sufficient to cover the delinquencies arising from nonpayment of assessments by other owners

The courts have upheld the validity of statutes authorizing assessment of the property of paying landholders in amounts sufficient to cover anticipated deficiencies arising by reason of nonpayment of assessments on the property of others,<sup>5</sup> and a re-assessment to cover past delinquencies does not violate requirements of uniformity.<sup>6</sup> Where the statute so permits, an irrigation district may levy assessments to meet deficiencies,<sup>7</sup> and the annual assessment should be large enough to take care of actual and contemplated delinquencies in prior assessments,<sup>8</sup> nor may landowners question the validity of assessments to cover deficiencies on the theory that they have already paid assessments equaling the amount of their benefits,<sup>9</sup> or that to make them pay for delinquencies of others would be to make them pay for benefits to others,<sup>10</sup> although landowners may not be assessed for delinquencies of others in excess of the amount, if any, limited by statute.

*Particular statutory provisions* A statute authorizing the levy of "such additional amounts as may be necessary to meet any deficiency in the payment of said expenses theretofore incurred" has been construed as referring only to prior general expenses,<sup>11</sup> and as not conferring on the district power to levy a cumulative tax for this purpose.<sup>12</sup> Under a statute making it the duty of irrigation au-

thorities to fix the rate of levy necessary to meet the maintenance, operating, and current expenses for the ensuing year, and the rate necessary to pay interest and principal of maturing coupons and bonds, and the rate necessary for any other purposes provided in the act, and then directing that the rate of levy necessary to raise the required amount of money on the assessed valuation of the property of the district shall be increased fifteen per cent to cover delinquencies, and other statutory provisions permitting a landowner to pay his taxes with bonds and coupons at par, it has been held that there may be a delinquency assessment to cover delinquencies as to maintenance, operating, current, and other expenses of the district,<sup>13</sup> but not to cover delinquencies as to bonds <sup>14</sup>

#### f. Assessment Rolls and Records, and Form and Contents of Assessment

- (1) In general
- (2) Listing and description of property

##### (1) In General

Assessment rolls and records must be made and kept in substantial compliance with statutory provisions.

It is sufficient if an assessment roll is made up in substantial compliance with statutory provisions.<sup>15</sup> A statutory provision that the total valuation as finally equalized by the board shall be extended into columns and added by the secretary within a specified time does not require the assessment book to show that such extension and addition were made within the specified time.<sup>16</sup> In the absence of specific statutory requirement a special assessment need not be separately entered and segregated on the assessment roll.<sup>17</sup> Statutes requiring an as-

#### Cumulative levy invalid

Where annual levies were made for purpose of producing money with which to pay the principal on bonds of irrigation district at maturity, and like levies were made for the purpose of satisfying in full at maturity the interest coupons, and money arising from such levies would have been sufficient in amount for respective purposes if all taxes had been paid, failure in payment

of taxes was not enough to warrant imposition of cumulative levies for the purpose of paying the deficit in revenues thus brought about

essor to enter on his assessment roll the amount of special benefits assessed against each tract of land within any local improvement district situate in the irrigation district, as the same is shown on the equalized benefit assessment roll of said improvement district, have been construed as applicable to assessments for local improvement districts within an irrigation district<sup>18</sup> and as inapplicable to assessments for the general purposes of an irrigation district as a whole.<sup>19</sup>

*Recital of amount in directors' resolution* is sufficient to show that the directors passed on and determined the amount required<sup>20</sup>

*Certification of assessment roll* In the absence of statutory provision so requiring, it is not necessary to the validity of the assessment, and a subsequent sale of the land for failure to pay the same, that the assessment roll<sup>21</sup> and delinquent list<sup>22</sup> be certified.

## (2) Listing and Description of Property

Property assessed must be listed and described as required by statute.

The description of the property assessed must be such as to afford the owner means of identification<sup>23</sup> A description of property on the assessment books and delinquent assessment books is sufficient if it is in substantial compliance with statutory requirements and is sufficiently clear and definite to permit ready identification and location of the land by means of the tax deed,<sup>24</sup> and is therefore sufficient to apprise the owner that an assessment lien subsists on the property and so enable him to discharge such lien<sup>25</sup> The designation of benefits

by the district board need not include a specific description of each particular tract according to ownership where the benefits accruing to all tracts within the legal subdivision are the same,<sup>26</sup> although any particular tract benefited differently from the rest should be particularly designated<sup>27</sup> Failure of a district board to list lands according to each separate ownership does not show lack of intention to assess benefits to all lands within a subdivision<sup>28</sup>

Railroad right of way is sufficiently designated by reference to the legal subdivisions across which it runs,<sup>29</sup> at least as far as necessary to preserve the description from collateral attack<sup>30</sup>

## g. Notice and Opportunity for Hearing

Depending on the terms of the statute, landowners may be entitled to notice and an opportunity to be heard before assessments against their property become fixed.

Where the irrigation statute itself defines the boundaries of the district and declares what properties are deemed to be benefited, it is not invalid because providing for the levying of assessments without giving the property holders an opportunity to be heard on such questions<sup>31</sup> When the determination of the benefits, if any, to lands within a proposed irrigation district, or any question involving an assessment against property for benefits, is intrusted to a court or board, the inquiry is judicial in character,<sup>32</sup> and owners are entitled to reasonable notice<sup>33</sup> and an opportunity to be heard,<sup>34</sup> before a charge against their property for such benefits becomes irrevocably fixed Where the statute provides for a regular board of equalization affording taxpayers an opportunity to have their as-

34. Or—In re Harper Irr. Dist, 216 P 1020, 108 Or 598.  
67 C J. p 1352 note 59.

assessments equalized, it is not open to attack on the ground that there is no provision affording a taxpayer opportunity to be heard as to the apportionment of the tax levied<sup>35</sup>

Where the statute provides for a general tax, as distinguished from a special assessment based on benefits, it is not necessary to provide for a hearing on the benefits to be derived by the taxpayer<sup>36</sup>

#### **h. Drainage Assessments of Irrigation District**

Assessments for drainage of an irrigation district must be made in accordance with statutory provisions

Where the assessment for drainage of an irrigation district is based on a flat rate, and not on actual benefits accruing to the land, it is invalid,<sup>37</sup> although where the benefits derived by drainage are equal the assessments may be the same<sup>38</sup> In the case of an assessment for construction of the drainage system the benefits from drainage are ordinarily different, and therefore a flat rate per acre will generally be improper,<sup>39</sup> although in the case of maintenance and operation the benefits are ordinarily equal and a flat rate justified<sup>40</sup>

### **§ 335. — Objections to Assessments, and Review**

- a Grounds of objection
- b. Review by board
- c Review by court

#### **a. Grounds of Objection**

Substantial defects affecting the jurisdiction of the proceedings will invalidate irrigation district assessments

Where there has been a substantial compliance

with the law, an irrigation district levy and assessment will not be set aside or its enforcement refused for slight errors or mere irregularities in the proceedings on which the assessment is based,<sup>41</sup> but substantial defects affecting the jurisdiction of the proceedings will invalidate the assessment,<sup>42</sup> as in the case of an attempted assessment of exempt property,<sup>43</sup> or where the description of the property has been insufficient to permit identification,<sup>44</sup> or where there has been an arbitrary and gross overvaluation of property by an equalization board.<sup>45</sup>

Where notice of the meeting of the board of equalization has been duly published, but it is not shown that there was due filing of proof of publication with the board, the latter defect is not jurisdictional in character,<sup>46</sup> nor is the assessment subject to collateral attack for such defect.<sup>47</sup>

Under provision of Federal Reclamation Law to the effect that water shall not be furnished to any one landowner in excess of an amount sufficient to irrigate a stated number of acres, an assessment levied for an amount of water in excess of that permitted is so far invalid as to prevent foreclosure of a delinquency certificate in equity if defendant landowner did not in fact receive and use the excess water,<sup>48</sup> although if defendant did use the excess water he may not escape liability to pay therefor<sup>49</sup>

*Waiver and estoppel.* Landowners may, by acts indicating acquiescence in irrigation assessments, estop themselves to object thereto on the ground of irregularities,<sup>50</sup> or may waive the right to object by failure to present their objections at the time and in the manner required by law,<sup>51</sup> or by affirmative

conduct inconsistent with the right to claim invalidity of the assessments,<sup>52</sup> although the doctrine of waiver does not apply if the defect complained of was jurisdictional in character<sup>53</sup>

Where the statutes provide that a landowner feeling himself aggrieved by an assessment may appeal to the board of equalization, a landowner failing to take such appeal may not thereafter attack his assessment on the ground that his land received no benefit<sup>54</sup>

### b. Review by Board

As provided by statutes, assessments may be corrected on review by a board authorized to do so

The board of correction of an irrigation district is analogous to the board of equalization of a county as far as correcting assessments is concerned,<sup>55</sup> and one failing to present objections to assessments to the board will be deemed to have waived such objections<sup>56</sup> In hearing appeals from irrigation assessments a board of correction or review acts in a judicial or quasi-judicial capacity,<sup>57</sup> and, in the absence of a showing that it disregarded benefits<sup>58</sup> or proof of fraud,<sup>59</sup> or of intentional and systematic discrimination,<sup>60</sup> its determination as to the method of assessment is final and conclusive The actions and conclusions of a board of directors of an irrigation district, sitting as a board of equalization, in equalizing property values may not be reviewed by the courts in the absence of fraud or manifest abuse of its powers.<sup>61</sup>

*Proceedings* In the absence of statute so requiring, a board of directors of an irrigation district, meeting as a board of equalization and vested with broad statutory powers to hear objections and to change valuations of property as may be just, may proceed without filing or presentation before it of formal complaints in writing,<sup>62</sup> and may exercise its equalizing powers and functions without presentation of the testimony of sworn witnesses<sup>63</sup>

### c. Review by Court

- (1) In general
- (2) Review by board as affecting review by court
- (3) Proceedings to confirm assessment
- (4) Proceedings to cancel, set aside, or enjoin levy or enforcement of assessment

#### (1) In General

A landowner may, in a proper case, apply to the courts for relief against an irrigation district assessment.

In a proper case, and by timely proceedings, an aggrieved landowner may apply to the courts for relief against an irrigation district assessment<sup>64</sup> A landowner's action to quiet title as against the lien of an irrigation district for an assessment is a collateral attack on the validity of such assessment.<sup>65</sup>

Curative statutes may preclude judicial attack on an assessment for irregularities other than in the

#### Bond on appeal

Section of the Reclamation Act requiring a party appealing to file a cross-bond with clerk of district court in an amount not to exceed a specified amount, and imposing liability on such party for costs if finding of court is not more favorable to him than finding of board, does not violate due process

Neb—*Nebraska Mid-State Reclamation Dist v Hall County*, 41 N W 2d 397, 152 Neb 410

#### Power limited

The statutory provisions for challenging assessments on particular lands in irrigation district, organized under statute authorizing contract between district and United States pursuant to federal reclamation laws, as too high, erroneously computed, or not uniform in proportion to other tracts district, must be construed in connection with provision that district court shall hear evidence concerning correctness and uniformity of assessments and may modify schedule of assessments proposed by district board of directors, but court's power is limited by further provision that it shall not disturb board's findings and assessments, unless assessments are manifestly disproportionate

Kan—*Mizer v Kansas Bostwick Irr Dist No 2*, 239 P 2d 370, 172 Kan 157, appeal dismissed 72 S Ct 1053, 343 US 954, 96 L Ed. 1355

65. Cal—*Miller & Lux v Secara*, 227 P. 171, 193 Cal. 755.

way and at the time specified by the statute,<sup>66</sup> although such statutes do not preclude subsequent attack on an assessment for violation of a landowner's constitutional rights<sup>67</sup>

A statute prescribing a limitation on actions attacking the validity of irrigation district assessments is invalid if it does not allow a reasonable time<sup>68</sup>

## (2) Review by Board as Affecting Review by Court

Under some statutes relief may not be sought in the courts before application for relief has been made to a reviewing board.

Where the statutes make no provision for correction of an error with respect to assessment by a board or officers of an irrigation district, an aggrieved landowner may secure relief from the courts<sup>69</sup> Where the statutes provide for the hearing of objections to assessments by a board of review or correction, and the taxpayer fails to make due and timely application for relief to such board, and where the objection is not jurisdictional in character, he may not thereafter secure relief from the courts,<sup>70</sup> although where the objection to the assessment is jurisdictional in character the taxpayer's failure to apply to the board will not preclude his subsequent resort to the courts<sup>71</sup> Where a taxpayer has obtained relief through the board, he may not thereafter complain as to such matters on appeal from a judgment denying him injunctive relief.<sup>72</sup>

## (3) Proceedings to Confirm Assessment

Statutory provisions determine the necessity for, and the operation and effect of, confirmation by the courts of irrigation assessments.

Under some statutes provision is made for judicial confirmation of the apportionment of benefits,<sup>73</sup> and ordinarily an apportionment of benefits duly made by an irrigation district board becomes final on confirmation by the court<sup>74</sup> An assessment of benefits by the board of directors of an irrigation district, duly confirmed by the court, is not subject to collateral attack where the board and court had jurisdiction,<sup>75</sup> and in all collateral proceedings benefits assessed against land are conclusively presumed to have been received<sup>76</sup> Confirmation of the apportionment of benefits is essential to the levy and assessment of irrigation district assessments where made so by statute,<sup>77</sup> but not otherwise<sup>78</sup>

The legality of prior proceedings is open to review on petition to confirm an irrigation assessment.<sup>79</sup> An appeal is timely taken when perfected within the time prescribed by statute.<sup>80</sup>

## (4) Proceedings to Cancel, Set Aside, or Enjoin Levy or Enforcement of Assessment

In a proper case a taxpayer may resort to the courts to cancel or set aside an assessment, or enjoin the levy or enforcement of the assessment.

If the levy is shown to be illegal, the assessment or collection of the tax may be enjoined by the courts,<sup>81</sup> as where an injunction is granted against

### Proper remedy

Where owners of land in improvement district sought to prevent enforcement of assessment which board of directors was without any authority to levy, "injunction" was the proper remedy since statute providing for correction of special assessment and statute providing for payment of assessment under protest and authorizing suit to recover money so paid did not provide "adequate remedies," and owners of lands are entitled to invoke aid of equity without first applying for relief to board of correction, which has no power under statute to decide whether assessment is void

Nev—Penrose v Whitacre, 147 P 2d 887, 62 Nev 239

It must appear that enforcement of tax or assessment would lead to multiplicity of suits, produce irreparable injury or throw cloud on title to realty, or fraud must be alleged, before equity court's aid can

sale to collect an assessment,<sup>82</sup> or a proper person may sue to have the assessment canceled and declared void,<sup>83</sup> although an injunction will be denied where there is no adequate ground therefor<sup>84</sup>

Holders of water rights entitled to equitable credit therefor, under statute, in the apportionment of assessments, are not entitled to an injunction restraining the levy of irrigation district assessments unless and until there has been a violation, or threatened violation, of the statute entitling them to equitable credit for their water rights<sup>85</sup>

**Prerequisites to suit** Before bringing a suit to enjoin collection of illegal or excessive irrigation assessments, the landowner should exhaust his remedies before the board of review or correction,<sup>86</sup> unless the relief sought could not be obtained by appeal to such board,<sup>87</sup> and should pay so much of the assessment as may be legal and valid.<sup>88</sup> A taxpayer seeking to reduce assessments, but not tendering that which may be lawfully due from him, is not entitled to relief.<sup>89</sup> A suit to enjoin the levy of a special assessment is premature when brought before the election on the assessment is held, where the board could not levy the assessment until authorized by the electors<sup>90</sup>

**Limitations.** In determining whether a suit for injunction against the enforcement and levy of assessments is barred by limitations it has been held

that the cause of action accrued as of the date of threatened enforcement and levy<sup>91</sup> and not as of the date of the issuance and sale of bonds to raise money for which the assessment was made<sup>92</sup>

**Parties** Where a suit for cancellation is based on the theory that the water district assessing the same has not been legally incorporated, the district is a necessary party to the suit<sup>93</sup> In a suit to enjoin enforcement of an irrigation tax on the ground that it has been illegally levied, it has been held that holders of irrigation district bonds are entitled to intervene<sup>94</sup>

**Pleading.** A complaint seeking to enjoin or restrain the collection of an irrigation district tax or assessment should set forth facts showing a cause of action of equitable cognizance<sup>95</sup> and the invalidity of the tax or assessment levied<sup>96</sup> On demurrer to a complaint seeking to enjoin the levy and collection of irrigation district assessments, it will be presumed that the proceedings for organization of the district were regular except as to defects alleged in the complaint<sup>97</sup> Word "description," as used in a complaint seeking to enjoin the levy and enforcement of an irrigation district assessment for failure to include plaintiff's land in the district because of defective description, will be construed in its ordinary sense<sup>98</sup>

be invoked to enjoin collection of tax or assessment  
Nev—Penrose v Whitacre, supra

#### No adequate remedy at law

Injunction will lie to prevent collection of illegal irrigation district assessments on lands in improvement district, in absence of adequate remedy at law, though cloud on titles to such lands would not justify injunctive relief  
Nev—Penrose v Whitacre, supra.

67 C J p 1355 note 15

#### Where damages are sought

A suit by owners of land within irrigation district to enjoin district from assessing further charges against their land, and to cancel unpaid charges, because of district's failure to supply water to land, was based upon an equitable cause of suit, and fact that landowners also sought recovery of damages from district did not preclude them from maintaining suit  
Or—Smith v. Enterprise Irr Dist., supra

#### Measure of damages

In suit by owners of land within irrigation district to cancel unpaid assessments against land and to recover damages from district because of its failure to furnish water for land, measure of damages was the difference between value of use of land without irrigation thereon and value of use if it had been irrigated, to be computed under restriction that equity will not consider stale claims and for period ending at date of earliest assessment canceled

67 C J p 1356 note 29.

*Evidence* In a suit to cancel or enjoin the levy or enforcement of an irrigation district tax or assessment, in the absence of contrary evidence it will be presumed that the district was legally organized,<sup>99</sup> and, where there has been a substantial compliance with statutory provisions relative to assessment by an irrigation district assessor and the district board has reviewed the assessment and a levy has been made, it will be presumed that the district board made the levy<sup>1</sup> and that the proceedings were regular.<sup>2</sup> The burden is on plaintiff to prove that the assessment was illegal.<sup>3</sup> Where a complaint seeking to enjoin the collection of a special irrigation district tax does not point out any irregularity, evidence will not be admitted to show that the tax was illegal because irregularly assessed.<sup>4</sup>

*Trial.* The right of land to exemption from an irrigation district assessment or tax has been held a question of mixed law and fact.<sup>5</sup>

Where petition for exclusion of lands from irrigation district was filed before issuance of district's bonds, such lands were not subject to any lien of any assessment levied to pay such bonds

U.S.—Pueblo Trading Co v Baxter Creek Irr Dist, D C Cal, 61 F Supp 586.

#### Future assessments

Statutory provisions making assessments levied to pay principal and interest of irrigation district bonds a lien on lands within the district should not be liberally construed so as to give a lien for future assessments particularly where statute clearly provides that lien shall cover only annual assessments.

US—People of Puerto Rico, on Be-

### a. In General

Generally, a valid irrigation assessment constitutes a lien on the lands within the district

Generally speaking, a valid irrigation assessment on lands within the district constitutes a lien on such lands,<sup>6</sup> and it has been held that the lien is created although a commissioners' notice preceding such assessment and relative to the formation of the district and the allotment of water stated that no water had been allotted to such land.<sup>7</sup> No lien arises until a valid assessment has been made and the amount of taxes declared,<sup>8</sup> and, under a provision of law creating a lien for water districts to cover taxes of delinquents, no lien is created until the taxes become delinquent.<sup>9</sup>

A constitutional provision making annual assessments on landed property a lien does not by the term "annual assessment" refer to special taxes levied by a water district.<sup>10</sup> Under some constitutional provisions only an indebtedness against the district, and not an indebtedness to it, is protected by a lien.<sup>11</sup> Where the lien of assessments has become irrevocably fixed, subsequent statutes providing for reapportionment of assessments will not affect the lien so fixed for assessments levied prior

half of Isabela Irr Service v. U S, CCA Puerto Rico, 134 F 2d 267, certiorari denied 64 S Ct 59, 320 U. S 753, 88 L Ed 448.

9. Tex.—Hoge v. Garcia, Civ App, 296 S W. 982

10. Tex—Hoge v. Garcia, *supra*.

11. US—Hidalgo and Cameron Counties Water Control and Improvement Dist No 9 v American Rio Grande Land & Irrigation Co, CCA Tex, 103 F 2d 509, certiorari denied American Rio Grande Land & Irrigation Co v Hidalgo & Cameron County Water Control & Improvement Dist No 9, 60 S Ct 88, 308 US 573, 84 L Ed 481

Charges and assessments which reclamation district lays on landowners and lands within it do not have a lien or escape limitation as "taxes" within tax statutes, and operation charges for water furnished and service rendered and assessments against lands are not given a lien on lands assessed

US—Hidalgo and Cameron Counties Water Control and Improvement Dist No 9 v American Rio Grande Land & Irrigation Co, CCA Tex, 103 F 2d 509, certiorari denied American Rio Grande Land & Irrigation Co v Hidalgo & Cameron County Water Control & Improvement Dist No 9, 60 S Ct. 88, 308 U S. 573, 84 L Ed 481.

to the passage of such subsequent statutes<sup>12</sup> A water improvement district, carrying each separately rendered lot in acreage tracts on tax rolls for its own taxes, has been held not entitled to blanket liens on all lots in each tract.<sup>13</sup> An irrigation district assessment levied on land outside the district creates no lien thereon<sup>14</sup>

The legislature may legislate out of existence assessment liens for delinquent assessments.<sup>15</sup>

#### b. Priorities

The priority of a lien for irrigation assessments depends on statutory provisions, and the time of creation of the lien.

The validity of a statute given priority to irrigation assessments over prior mortgages and other liens has been upheld<sup>16</sup> Irrigation district assessments are taxes within the contemplation of a statute making general taxes a first lien on land,<sup>17</sup> and have been held prior to an existing mortgage lien<sup>18</sup> It has been held that an irrigation district tax lien is not entitled to priority over a mortgage, securing payment of common school funds, which was executed and recorded prior to organization of the irrigation district,<sup>19</sup> but the lien is superior to a subsequent mortgage<sup>20</sup>

#### c. Foreclosure

Foreclosure of a lien for irrigation assessments may be had in accordance with statutory provisions.

The legislature may authorize an irrigation district to enforce liens given to it to protect the dis-

trict in the collection of its taxes, assessments, tolls, and charges,<sup>21</sup> and under the practice prevailing in some jurisdictions irrigation taxes and assessments may be collected by judgment for the amount due and foreclosure of the tax lien<sup>22</sup> Under a statute providing for foreclosure of delinquent tax liens, and also expressly to the effect that it shall be inapplicable to taxes levied and collectable for the year preceding its enactment, a suit to foreclose the liens of delinquent assessments for irrigation district purposes for such excluded year may not be maintained.<sup>23</sup> Under a statute providing for the publication of the delinquent tax record, it has been held that proof of such publication is prerequisite to the right of a water district to foreclose its tax lien.<sup>24</sup>

*Judgment.* Under constitutional provisions permitting, but not requiring, the rendition of a personal judgment against a landowner, the lien for taxes may be foreclosed without rendition of any personal judgment against the landowner,<sup>25</sup> and it is not necessary for the judgment to find the amount due and impose a lien on each separate lot of subdivided tracts owned by the same person<sup>26</sup> The judgment is open to attack for jurisdictional errors<sup>27</sup>

## d Collection and enforcement of assessments

## e Disposition of taxes and assessments

## a. In General

Payment of taxes and assessments must be made in the manner and at the time prescribed by statutory provisions.

Except as otherwise provided by statute, as a general rule, irrigation taxes and assessments are payable in money only<sup>28</sup> Under particular statutory provisions, as applied to the facts involved, it has been held that irrigation district taxes and assessments may<sup>29</sup> or may not<sup>30</sup> be paid in district bonds or coupons, or may<sup>31</sup> or may not<sup>32</sup> be paid by tax anticipation warrants, or may not be paid by shares of stock in an irrigation company<sup>33</sup>

Where the statute permits an irrigation district treasurer to accept warrants of any year left unpaid only in payment of the tax levied to meet the deficiency of that year, he is justified in refusing a tender of warrants of one year in payment of assessments for a different year,<sup>34</sup> and may properly refuse tender of warrants for different years made in a lump and including payments which could not lawfully be made by the warrants tendered,<sup>35</sup> and it has also been held that a taxpayer may not use coupons clipped from one issue of bonds to pay such portions of his taxes as were levied to pay interest on other issues<sup>36</sup> It has been held that a statutory right to pay taxes with coupons or warrants is not confined to one owing a tax in the technical sense,<sup>37</sup> but includes the holder of a tax

sale certificate<sup>38</sup>

*Time of payment or tender.* A tender of irrigation district taxes may, it has been held, properly be made in money<sup>39</sup> or in interest coupons<sup>40</sup> at any time before the land is sold for taxes, payment of such taxes in either medium being permissible before sale

## b Interest and Penalties

Whether interest and penalties may be collected on delinquent assessments and, if so, the rate and amount thereof are determined by statutory provisions, which may also govern the disposition of such interest or penalty.

In the absence of statutory provision authorizing collection of interest on delinquent irrigation district assessments prior to sale, none may be collected<sup>41</sup> Where an irrigation statute provides that if any assessment becomes delinquent the treasurer shall collect it with the penalties added, "as provided for delinquent county and state taxes," the intent of the irrigation statute is to adopt the general law on penalties as provided in the then existing statute, and all subsequent amendments thereof,<sup>42</sup> and the rate or amount of penalties due on subsequent delinquencies will be controlled by the general statute<sup>43</sup> A statute authorizing waiver or reduction in the discretion of a board of penalties and interest due an irrigation district has been held valid,<sup>44</sup> and, under a statute authorizing waiver or reduction of penalties and interest on delinquent taxes by a county board, it has been held that such board may waive or reduce penalties and interest accruing on a portion of taxes due an irrigation district.<sup>45</sup>

28. Ariz.—Roe v Roosevelt Water Conservation Dist, 16 P 2d 967, 41 Ariz 197  
67 C J p 1358 note 56

29. Cal.—Copeland v Raub, 97 P 2d 859, 36 Cal App 441

67 C J p 1358 note 63

## Interest coupons

Where landowner of reclamation district was entitled under the statute to apply interest coupons in payment of an assessment fact that county treasurer might erroneously credit, on assessment, interest on coupons presented which had not accrued at time of tender, did not preclude landowner from applying coupons on assessment

Cal.—Copeland v Raub, 97 P 2d 859, 36 Cal App 2d 441

## Matured bonds and coupons

Amendment to Irrigation District Act limiting provision for payment of bond fund taxes in district bonds

to matured interest coupons and bonds and to proper proportion of each bond issue would not be invalid though original act provided for payment merely with bonds or interest coupons "maturing within the year," which included coupons or bonds which had matured or which should have matured within year in which taxes were payable

44. Or.—Livesay v De Armond, 284 P 166, 131 Or 563, 68 A L R 422.

45. Or.—Livesay v De Armond, supra

Where no penalty or interest has been fixed by an irrigation district, none may be collected on foreclosure of delinquent tax certificates,<sup>46</sup> and a decree therein erroneously granting penalties and interest may be corrected on appeal.<sup>47</sup>

**Disposition of penalties** Under local statutory provisions it has been held that an irrigation district is entitled to penalties collected on delinquent assessments,<sup>48</sup> and that the county is not entitled thereto.<sup>49</sup>

### c. Recovery of Assessments Paid

One who pays an invalid assessment may recover it back on compliance with statutory provisions governing the right of recovery.

One required to pay an invalid irrigation assessment may recover it.<sup>50</sup> A cumulative statutory remedy providing for refund of taxes paid under protest is not excluded by other statutory provisions providing for the exclusion of lands from an irrigation district.<sup>51</sup>

**Necessity of protest** One paying irrigation taxes or assessments without protest may be denied the right to recover them.<sup>52</sup>

**Term "subirrigation,"** as used in a statute providing for a refund of taxes levied by an irrigation district, if paid under protest, where it is shown that the lands cannot be benefited by irrigation, by reason of "subirrigation," should be interpreted as referring to all lands not capable of benefit from irrigation<sup>53</sup> and is not confined to lands subirrigated to the extent that they become unfit for cultivation.<sup>54</sup>

### d. Collection and Enforcement of Assessments

- (1) In general
- (2) Officer authorized or obligated to collect
- (3) Suit for delinquent taxes or assessments
- (4) Certificate of delinquency and foreclosure
- (5) Sale of property
- (6) Redemption
- (7) Tax titles and deeds

#### (1) In General

Assessments for irrigation may be collected in the manner provided by statute.

Under local statutory provisions irrigation district taxes and assessments may be collected by judgment for the amount due and foreclosure of the lien, as discussed supra section 336 c, or by sale to enforce the lien, as discussed infra subdivision d (5), of this section. Ordinarily, reclamation or irrigation district assessments do not have the character of a tax so as to be collectable by execution or levy on the general property of the owner of the land against which the assessment is made,<sup>55</sup> and the district lacks the power to collect a delinquent assessment by an ordinary action for the recovery of a personal judgment for money,<sup>56</sup> although where the tax assessed by a water improvement district was general in character judgment for the district has been sustained in a suit to foreclose a lien against the personal properties of a delinquent,<sup>57</sup> and a contest of the validity of the taxes and the collection thereof may not be sustained unless the tax as levied is void.<sup>58</sup>

47. Or—Klamath County v Colonial Realty Co, supra

48. Ariz—Maricopa County Municipal Water Conservation Dist No 1 v Ward, 281 P 465, 35 Ariz 541

49. Ariz—Maricopa County Municipal Water Conservation Dist No 1 v Ward, supra  
67 C J p 1358 note 81

50. Wash—Northern Pac R Co v. Walla Walla County, 200 P. 585, 116 Wash 684  
67 C J p 1359 note 82

#### Petition

Where, there was no allegation in petition as to when or how petitioner became successor in interest to one whose land had been decreed to be excluded from irrigation district or as to who had paid assessments wrongfully levied on such land and collected by irrigation district, the petition was insufficient in not stat-

ing a cause of action for recovery of assessments

Idaho—Nielson v Board of Directors of Big Lost River Irr Dist, 117 P 2d 472, 63 Idaho 108

#### Evidence

Evidence held insufficient to show that land was not subject to irrigation taxes as nonirrigable because of natural causes

Neb—Birdwood Irr Dist v Brodbeck, 29 NW 2d 621, 148 Neb 824

51. Neb—Morrow v Farmers' Irr Dist, 220 NW 680, 117 Neb 424

52. Idaho—Lundy v Pioneer Irr Dist, 19 P 2d 624, 52 Idaho 683  
67 C J p 1359 note 84

#### Proof of protest essential

In action to foreclose tax sale certificate issued for delinquent irrigation taxes, defendants' cross-petition for refund of irrigation taxes paid on their land in adjoining section on ground that land could not be irrigated because of natural causes, was properly dismissed, in absence of evi-

dence that defendants had filed affidavit required by law showing why tax paid under protest should be refunded

Neb—Birdwood Irr Dist v Brodbeck, 29 NW 2d 621, 148 Neb 824

53. Neb—Morrow v Farmers' Irr Dist, 220 NW 680, 117 Neb 424  
67 C J p 1359 note 86

54. Neb—Morrow v Farmers' Irr Dist, supra

55. Cal—Atchison, T & S F Ry Co v. Reclamation Dist No 404, 159 P 430, 173 Cal 91

56. Cal—Atchison, T & S F. Ry Co v Reclamation Dist No 404, supra

57. Tex—Western Union Telegraph Co v Wichita County Water Improvement Dist No 1, Civ App, 19 SW 2d 186, affirmed, Com App, 30 SW 2d 301

58. Tex—Western Union Telegraph Co. v Wichita County Water Improvement District No. 1, supra.

Special assessments should be collected in the manner provided for the collection of assessments for district bonds where no other method is specified by statute<sup>59</sup>

## (2) Officer Authorized or Obligated to Collect

Assessments are to be collected by the officer authorized or obligated by statute to collect them

Irrigation district assessments should be collected by the officers designated by statute; but the distinction between irrigation district taxes and general taxes for county and state purposes does not constitute such an inherent difference between the two as to prevent the collection of both in the same manner when directed by statute,<sup>60</sup> and, under a statutory provision requiring irrigation district taxes to be collected in the same manner and at the same time and on the same receipt as is required in the collection of taxes on real estate for county purposes, a county assessor must collect irrigation district taxes together with the general taxes<sup>61</sup>

In the absence of statutory authorization, a receiver may not be appointed for the collection of irrigation taxes or assessments<sup>62</sup>

## (3) Suit for Delinquent Taxes or Assessments

Suits for collection of delinquent taxes and assessments are governed by the general rules of procedure subject to particular statutory regulations.

The general rules of procedure control, subject to particular statutory regulations, with respect to suits to collect delinquent irrigation taxes and assessments<sup>63</sup> A judgment rendered in favor of a water improvement district against a nonresident for assessments is void if the citation does not comply with statutory provisions as to service on non-residents in such cases<sup>64</sup>

**Limitations** Where a statute providing that no period of limitation shall apply to water improvement taxes accruing after the formation of a water improvement district takes effect after such a tax has become delinquent, but before its collec-

59. Idaho—Holland v Avondale Irr Dist, 166 P 259, 30 Idaho 479

67 C J p 1359 note 1.

63. Tex—Wheat v Ward County Improvement Dist No 2, Civ App, 217 SW 713  
67 C J p 1359 note 2

### Notice of pendency of suit

County water control and improvement district suing to recover taxes against land, in absence of impleading the other taxing units in which land was situated, and to which taxes were due, was obligated by mandatory provisions of statute to notify such other taxing units of pendency of suit and hence suit was properly abated for district's failure to so notify

Tex—Willacy County Water Control and Improvement Dist No 1 v Lewis, Civ App, 119 SW 2d 159

### Burden of proof

Burden was on water improvement district, suing for delinquent taxes, to establish its right of recovery as to taxes, penalties, interest, and attorney's fees, as well as liens securing them

Tex—Holt v Wichita County Water Improvement Dist. No. 2, Com App, 63 SW 2d 369.

### Presumptions

A court must presume that board of directors of irrigation district gave notice of meeting for determination of lands subject to assessments and levies in conformity with statutory requirements, where the only evidence concerning notice was that public notice was given

US—Atchison, T & S F Ry Co v. Elephant Butte Irr Dist of New Mexico, CCANM, 110 F 2d 767

### Venue

Where main office and principal place of business of irrigation district was, at time of filing suit for flat rate water assessments, located in Hidalgo county, district's suit, made in conformity with provisions of statute, could be maintained in Hidalgo county

Tex—Dallas Joint Stock Land Bank of Dallas v Willacy County Water Control and Improvement Dist No 1, Civ App, 162 SW 2d 149, error dismissed

### Questions considered

Where taxpayer was not denied due process of law in arriving at judgment in water district's suit to collect taxes and in foreclosure of lien, supreme court was without power to inquire into question of benefits

Tex—Anchor v. Wichita County Water Imp Dist No 2, 103 SW 2d 135, 129 Tex 385, 112 ALR 70.

### Method of arriving at judgment

In water district's suit to collect taxes, judgment arrived at by calculating tax on irrigable acres of tract at one sum per acre and adding thereto amount accrued against nonirrigable acres at another sum per acre and

foreclosing lien against entire tract as a unit held not fundamentally erroneous, where only one tract was involved, and taxpayer had due notice of proposed classification at time it was made and did not protest  
Tex—Anchor v Wichita County Water Imp Dist No 2, supra

### Items recoverable

Water improvement district which sued for three items of taxes was entitled, there having been no legal tender of the taxes, to interest, penalties, and attorney's fees on two items admitted to be valid, notwithstanding one item was found to be illegal

Tex—Austin Mill & Grain Co v Brown County Water Improvement Dist No 1, Civ App, 128 SW 2d 829, affirmed Brown County Water Improvement Dist. No 1 v Austin Mill & Grain Co, 138 SW 2d 523, 135 Tex 140

### Review

Defendant filing general demurrer and general denial in water improvement district's suit for delinquent taxes, excepting to judgment for plaintiff and filing assignment of error in foreclosing blanket liens on acreage tracts for each lot therein, did not waive right to assign such error in application for writ of error to review judgment affirming that of trial court

Tex—Holt v Wichita County Water Improvement Dist. No 2, Com App, 63 SW 2d 369.

64. Tex—Lepp v Ward County Water Improvement Dist No. 2, Civ App, 257 SW 916.  
67 C J p 1360 note 3.

tion has been barred by limitations, limitations do not apply <sup>65</sup>

*Default judgment* is void if not based on evidence as required by statute.<sup>66</sup>

*Attorney's fees.* The judgment in favor of a district suing for irrigation taxes or assessments may properly tax attorney's fees in a reasonable amount <sup>67</sup>

#### (4) Certificate of Delinquency and Foreclosure

Under some statutes delinquent taxes and assessments may be collected by issuance of a certificate of delinquency and foreclosure thereof.

The purpose of statutes providing for the issuance of delinquency certificates<sup>68</sup> and foreclosure thereof<sup>69</sup> is to empower an irrigation district to enforce payment of taxes and assessments levied on property within the district. Under statutes of this character an individual is not entitled to a delin-

quency certificate unless he first pays the taxes due the district,<sup>70</sup> but the district is entitled to such certificate without prior payment of the taxes due itself <sup>71</sup> Where a sheriff is under a statutory duty to issue a delinquency certificate to a district the burden rests on him to show why he is justified in refusing to issue it in the particular case involved.<sup>72</sup> Where defendant seeks affirmative relief for alleged failure of the district to furnish him irrigation he must show a demand on the district for irrigation and a failure to comply therewith after a reasonable time <sup>73</sup>

If assessments were illegal the landowner should set up such illegality and have his title quieted in an irrigation district's suit to foreclose a delinquent tax certificate<sup>74</sup> Foreclosure of delinquent water tax certificates will not be refused on the ground of indefinite description of the property in the assessment roll and certificates where the descriptions are sufficient to identify the property.<sup>75</sup>

<sup>65.</sup> Tex.—Western Union Telegraph Co v Wichita County Water Improvement Dist No 1, Civ App, 19 S W 2d 186, 190, affirmed, Com App, 30 S W 2d 301

<sup>66.</sup> Tex.—Lepp v Ward County Water Improvement Dist No 2, Civ App, 257 S W 916  
<sup>67</sup> C J p 1360 note 5

<sup>67.</sup> Tex.—Austin Mill & Grain Co v Brown County Water Improvement Dist No 1, Civ App, 128 S W 2d 829, affirmed Brown County Water Improvement Dist No 1 v Austin Mill & Grain Co, 138 S W 2d 523, 135 Tex 140  
<sup>67</sup> C J p 1360 note 6

<sup>68.</sup> Or.—Horsefly Irr Dist v Hawkins, 254 P 825, 121 Or 366

<sup>69.</sup> Or.—Horsefly Irr Dist v Hawkins, supra.

#### Defenses

The owner of land in the Payette-Oregon Slope Irrigation District was not precluded from resisting foreclosure of certificates of delinquency representing invalid assessments, by fact that he had not tendered either amount of delinquent taxes admittedly due or amount of irrigation assessments payable had lands improperly omitted been included, or by his failure to institute mandamus proceeding to compel inclusion of land omitted by district from assessment Or—Payette-Oregon Slope Irr Dist v Coughanour, 91 P 2d 526, 162 Or 458.

Where irrigation assessments could be segregated from taxes included in delinquency certificates, the certificates could be foreclosed as to the tax liens, though the assessment liens were invalid and amounts stat-

ed in the certificates of delinquency were in a lump sum

Or—Payette-Oregon Slope Irr. Dist v Coughanour, supra

<sup>70.</sup> Or.—Horsefly Irr Dist v Hawkins, 254 P 825, 121 Or 366

<sup>71.</sup> Or.—Klamath County v Colonial Realty Co, 7 P 2d 976, 139 Or 311  
—Horsefly Irr Dist v Hawkins, 254 P 825, 121 Or 366

#### Option

Whether irrigation district acts under statute providing for certificate of delinquency for taxes on property within irrigation districts by paying general taxes, and takes certificate of delinquency for all taxes assessed or proceeds under statute providing for such certificates and foreclosure thereof, without paying general taxes levied by district, is optional Or—Daly v. Horsefly Irr Dist, 21 P 2d 787, 143 Or 441

<sup>72.</sup> Or.—Horsefly Irr Dist v Hawkins, 254 P 825, 121 Or 366

<sup>73.</sup> Or.—Klamath Irr Dist v Carlson, 157 P 2d 514, 176 Or 336

#### Negligence not imputed

Where alleged negligence of federal government, while in control of maintenance and operation of irrigation system, could not be imputed to irrigation district, defendant in suit by district to foreclose land for delinquent assessments could not maintain a claim for affirmative relief against district by way of recoupment, set-off or counterclaim based on such negligence Or—Klamath Irr. Dist v Carlson, supra

#### Necessity for demand not excused

The existence of a government con-

structed drain obstructing delivery of irrigation waters to owner's land within irrigation district did not excuse necessity for a demand by owner upon district for irrigation service and a showing of failure by district to comply with demand in order to authorize relief to owner for district's failure to furnish irrigation by way of recoupment, set-off or counterclaim in district's suit to foreclose delinquent irrigation taxes and assessments

Or—Klamath Irr. Dist. v. Carlson, supra

#### Evidence

In suit by irrigation district to foreclose for delinquent taxes and assessments, evidence adduced by defendant under claim for affirmative relief by way of recoupment, set-off or counterclaim was insufficient to sustain allegation that alleged federal control, which would defeat defendant's right to affirmative relief against district, was a subterfuge and fraud, in that district had paid major portion of cost of project, and irrigation district was not estopped to meet defendant's allegations by proof that aggregate payments were not sufficient to entitle plaintiff to take control of irrigation project, and that no subterfuge or fraud had been practiced

Or—Klamath Irr. Dist. v. Carlson, supra

<sup>74.</sup> Or.—Enterprise Irr Dist v. Enterprise Land & Investment Co., 300 P 507, 137 Or 468

<sup>75.</sup> Or.—Klamath County v. Colonial Realty Co, 7 P 2d 976, 139 Or 311.  
<sup>67</sup> C J p 1360 note 13.

In a suit to foreclose a lien, an answer attacking the delinquency certificates on the ground that by contract the landowner had "perpetual" water rights so that the land was not subject to assessments, has been held a direct rather than a collateral attack on the certificates.<sup>76</sup>

Payment of all state and county taxes by a landowner is no defense to a suit by the county to foreclose an irrigation district's delinquency certificates<sup>77</sup> and does not destroy its right to the issuance of a delinquency certificate.<sup>78</sup> An irrigation district not a party to proceedings in which land was foreclosed for county taxes is not barred from thereafter asserting its own tax or assessment claims,<sup>79</sup> and subsequent purchase of the property from the county by the original owner and issuance of a deed to him do not free the land from the claim of the irrigation district for its assessments,<sup>80</sup> the irrigation district may thereafter compel issuance of a delinquency certificate to it,<sup>81</sup> and irregularities in the foreclosure proceedings to which the district was not a party will not adversely affect its rights.<sup>82</sup>

#### (5) Sale of Property

Under some statutes land may be sold to collect delinquent irrigation taxes or assessments.

Under some statutory provisions land may be sold to collect delinquent irrigation taxes or assessments,<sup>83</sup> and where the steps taken in levying irrigation assessments are regular the right of sale follows a failure to pay the assessment,<sup>84</sup> and the proper authorities are under a duty to sell.<sup>85</sup> Al-

though the legislature may fail to provide any method of procedure under which irrigation districts may sell or otherwise dispose of property acquired by reason of delinquent taxes, there is no implied power vested in county commissioners to make such sale,<sup>86</sup> and, where the statutes expressly vest in the board of directors of an irrigation district authority to sell property acquired by it for delinquent taxes and not needed for the use of the district, the county clearly has no implied power to sell such property,<sup>87</sup> and its statutory functions with respect to delinquent irrigation district taxes have been held to terminate with the assignment to the district of the certificate of sale made before acquisition of title by the district.<sup>88</sup>

Generally speaking, the only property subject to sale for delinquent irrigation assessments is the land against which such assessments were levied.<sup>89</sup> Failure to sell for a delinquent assessment does not extinguish the assessment, but the sale thereunder is merely postponed and the assessment still exists until legally foreclosed and paid.<sup>90</sup>

**Publication of delinquent tax list** Under statutes providing for publication of the delinquent tax list and that sale must take place within a prescribed period after completion of publication, and limiting the right of redemption to a certain time after sale, it has been held that delay in such publication does not invalidate the sale<sup>91</sup> and deed based thereon.<sup>92</sup>

**Restraint sale** A landowner who does not offer to pay the amount legally due has no standing in court to restrain sale of his property because

76. Or—Jordan Valley Irr. Dist. v. Title & Trust Co., 58 P.2d 606, 154 Or 76.

77. Or—Klamath County v. Colonial Realty Co., 7 P.2d 976, 139 Or 311.

78. Or—Horsefly Irr. Dist. v. Hawkins, 271 P. 194, 127 Or 176.

79. Or—Horsefly Irr. Dist. v. Hawkins, supra.

80. Or—Horsefly Irr. Dist. v. Hawkins, supra.

81. Or—Horsefly Irr. Dist. v. Hawkins, supra.

82. Or—Horsefly Irr. Dist. v. Hawkins, supra.

83. Wash—Washington Nat. Inv. Co. v. Grandview Irr. Dist., 28 P.2d 114, 175 Wash 644.  
67 C.J. p. 1360 note 20.

**Statutes liberally construed**

Statute, providing for sale of land on foreclosure of liens for delinquent irrigation assessments and issuance of deeds to purchasers, should be lib-

erally construed as are tax sale statutes.

Wash—Lindsay Irr. Dist. v. Clallam County, 56 P.2d 996, 186 Wash 65.

87. Utah—News Advocate Pub. Co. v. Carbon County, supra.

88. Utah—News Advocate Pub. Co. v. Carbon County, supra.

89. Mont—State v. Nicholson, 240 P. 837, 74 Mont 346.  
67 C.J. p. 1361 note 26.

90. Cal—McKaig v. Moutrey, 90 P. 2d 108, 32 Cal App 2d 537.

91. Cal—Adams v. Slee, 268 P. 959, 92 Cal App 708.

**Publication held effective**

Irrigation district's "publication" of delinquent list and notice of sale of land for nonpayment of assessments once each week for three successive weeks, the last time being on August 3d, was effective "publication" within statute requiring that "publication" shall not be before 1st of July but must be made on or before 1st of August; and a statutory amendment requiring that the first publication of delinquent list by irrigation district must be made on or before the 1st day of August did not change meaning of prior provision that publication shall not be made before 1st of July but must be made on or before 1st of August, but was merely intended to remove any uncertainty due to obscurity in language.

Cal—Provident Land Corp. v. Provident Irr. Dist., App., 90 P.2d 133, reheard 94 P.2d 83.

92. Cal—Provident Land Corp. v. Provident Irr. Dist., supra—Adams v. Slee, 268 P. 959, 92 Cal App 708.

of irregularities;<sup>93</sup> where he has waived irregularities evidence thereof is inadmissible,<sup>94</sup> and exclusion of evidence as to the sufficiency of description of the property on the assessment book may not be raised for the first time on appeal<sup>95</sup>

*Mode of sale; price; payment* Where the statute governing the sale of land for delinquent assessments contains no requirement or authority for sale at public auction or to any purchaser other than the county, but specifically provides for sale to the county, a sale is not illegal or a tax deed given thereunder void because the county was a competitive bidder and voluntary purchaser at the sale,<sup>96</sup> and prior statutes requiring sale at public auction to the highest bidder are inapplicable,<sup>97</sup> although if the sale was in accordance with the statute, recitals in the certificate of sale as to proceedings based on the inapplicable statute will not invalidate the sale<sup>98</sup> In accordance with general rules, land should not be sold for less than the amount due for irrigation assessments<sup>99</sup> The land may be sold for an amount equal to the assessments foreclosed on and all other assessments chargeable to the land<sup>1</sup> Under statutes providing that any landowner of a reclamation district may deliver to the treasurer for cancellation any bonds payable out of an assessment covering his land and receive credit against such assessment to the amount of the principal and accrued interest of such bonds, and further providing that payment for lands sold to meet delinquent assessments may be made either in cash or in matured bonds and coupons issued on such assessment, or bonds to mature within a specified period, payment for the land sold may not be made in unmatured bonds which will not mature within the prescribed period<sup>2</sup>

*Certificate of sale.* A certificate of sale of land for delinquent irrigation assessments may not be issued unless there has been a sale<sup>3</sup> It is imperative that the certificate of sale set forth correctly the name of the owner of the property sold,<sup>4</sup> and that it contain an accurate description of the property sold,<sup>5</sup> although the certificate will not be invalidated by mere irregularities as to date,<sup>6</sup> and statutory provisions that a certificate of sale shall be dated on the day of sale have been construed as directory,<sup>7</sup> but not mandatory,<sup>8</sup> since the object of the statute is satisfied if the actual date of sale is recited so as to enable those concerned to know when the time for redemption expires<sup>9</sup>

Recitals in the certificate will not invalidate a sale where it sufficiently appears therefrom that the property was sold in accordance with law<sup>10</sup>

*Duplicate certificate.* A statute requiring bidders to pay a fixed fee for a duplicate certificate of sale, and redemptioners to repay the same, and excusing such payment when the district is the purchaser, has been held valid,<sup>11</sup> and, even if such statute were invalid, one who has neither redeemed nor attempted to redeem his property would not be affected thereby<sup>12</sup>

*Filing and recording* Statutory provisions requiring the recording of a certificate of sale are intended to give notice of its contents to the owner of the property sold and to subsequent purchasers<sup>13</sup> Statutory requirements that the treasurer of a county who, as ex officio treasurer of an irrigation district, makes a sale of district property located in another county shall file a duplicate certificate of sale with the auditor of the county in which the land is situated, have for their purpose the imparting of actual notice to the owner that

his property has been sold and a certificate issued,<sup>14</sup> and failure to file the duplicate certificate as prescribed by statute invalidates the sale<sup>15</sup>

*Transfer of certificates* Statutory provisions for assignment or sale of tax sale certificates by irrigation districts are intended to simplify the procedure to be followed to the end that land sold for taxes might again be placed on the tax roll by making it less difficult to dispose of the tax certificates<sup>16</sup>

### (6) Redemption

The right of redemption from a sale for delinquent irrigation assessments exists only by virtue of constitutional or statutory provisions, and can be exercised only in the manner prescribed.

The right to redeem does not exist without being especially granted by statute or constitution,<sup>17</sup> and, where there is an express provision in the statutes governing irrigation taxes and assessments relative to the right of redemption, such right is controlled by such provisions<sup>18</sup> and provisions of law relative to redemption from tax sales generally are inapplicable<sup>19</sup> The right of redemption is fixed and controlled by the law in force at the time of the tax sale.<sup>20</sup> Under statutes providing that when land has been sold to an irrigation district for delinquent assessments, and the district has received a deed from the county treasurer, if, in the judgment of the board of directors of the district, the sale has resulted from unavoidable accident, inad-

vertency, or misfortune, and without intent on the part of the owner or person entitled to redeem to permit such assessments to become delinquent and the land to be sold, the board of directors "may" cause such land to be reconveyed to such person within a prescribed period after issuance of the deed to the district and on payment of all sums due, the right to redeem is not discretionary with the board<sup>21</sup> and, if it arbitrarily refuses to permit redemption on a proper showing, such refusal is subject to review by the courts<sup>22</sup>

The general rule that a mere stranger may not redeem property from a tax sale is not applicable to redemption from an irrigation district assessment by an association of landowners acting for the benefit of the owner of the particular property redeemed,<sup>23</sup> and where the owner subsequently ratifies the redemption by the association it is valid and effectual<sup>24</sup> Redemption of lands by irrigation district bondholders does not give them title to the land<sup>25</sup>

Where the law requires lawful money as the medium of payment an attempt to redeem property sold with matured bonds and coupons of the irrigation district does not constitute a valid redemption<sup>26</sup>

*Time for redemption.* Land sold for delinquent assessments may be redeemed within the period prescribed by statute on compliance with the provisions thereof,<sup>27</sup> and the right of redemption

#### Effect of attempted redemption

Where two directors of irrigation district and secretary, assessor, and collector thereof made purported re-

demptions of property sold for nonpayment of irrigation district's assessments with matured bonds and coupons of the district after statutes permitting such redemption was held unconstitutional but while the matter was pending upon rehearing, district's officers did not act in good faith as respects right of purchaser to collector's deed

Cal—Provident Land Corp v Provident Irr Dist, App, 94 P 2d 83

27. Cal—Pacific Coast Joint Stock Land Bank of San Francisco v Roberts, 108 P 2d 439, 16 Cal 2d 800

*Act extending time for redemption* of land conveyed to irrigation district for nonpayment of district assessments extended right of redemption to owner of land conveyed to district prior to effective date of act, since district stood in same position as state or municipality

Wash—Horse Heaven Irr Dist v Jenkins, 48 P 2d 591, 183 Wash 49

#### Conflicting statutes

Fact that statute giving irrigation district holding county treasurer's irrigation assessment deed right to quiet title to lands by summary pro-

is lost by failure to redeem within the time prescribed by statute<sup>28</sup> A mortgagee of land sold to an irrigation district for delinquent assessments is not an "owner" within special emergency statutes enacted to defer dispossession of land-owners by extending the time for redemption<sup>29</sup>

*Redemption before issuance of deed* may be permitted on substantial compliance with applicable statutory provisions<sup>30</sup>

(7) Tax Titles and Deeds

- (a) In general
- (b) Tax deed
- (c) District or county as purchaser; resale
- (d) Actions concerning tax title

(a) In General

Tax deeds must be issued in conformity with statutes pertinent thereto.

Where there has been no sale of land for delinquent irrigation assessments pursuant to statute, tax deeds issued to the purchaser of a delinquency certificate are invalid.<sup>31</sup> Failure to comply with statutory regulations relative to sale, entry thereof, and timely issuance and filing of certificates of sale of delinquent property prejudices the owner thereof<sup>32</sup> and renders invalid tax deeds issued without compliance with such statutory requirements<sup>33</sup>

Failure to serve personal notice of purchase on occupant of land purchased for delinquent irrigation assessments, as required by statute, vitiates the tax deed<sup>34</sup>

(b) Tax Deed

There must be compliance with statutory provisions governing the form and contents of tax deeds The effect of a tax deed as evidence depends on statutory provisions.

While the making of a deed to the purchaser of land, sold on foreclosure of irrigation assessment liens, after expiration of the redemption period has been held a purely ministerial act,<sup>35</sup> delivery of a valid deed after expiration of the period of redemption finally terminates such period<sup>36</sup> If a defective deed is issued, the issuing officer should, ordinarily, deliver a correct deed<sup>37</sup>

Under some statutory provisions the deed must recite substantially the matters contained in the sale certificate,<sup>38</sup> but such a deed may be sufficient although it does not include all of such matters<sup>39</sup> The property sold and deeded should be properly described in the tax deed<sup>40</sup> It has been held that a tax deed is invalid where it fails to set forth correctly the name of the party assessed and whose property is sold,<sup>41</sup> although a minor error in the name as recited does not invalidate the deed<sup>42</sup> Under some provisions a deed has been held sufficient although not including the name of the person to whom the land was assessed, and the amount and year of the assessment, as recited in the sale certificate<sup>43</sup>

Statutory provisions making a tax deed conclusive evidence of the regularity of prior proceedings do not cure defects in the deed itself,<sup>44</sup> and extend only to such matters as are not covered by other statutory provisions declaring the effect of the deed as prima facie evidence<sup>45</sup> Statutory provisions

ceeding provided that owner could redeem land up to time of judgment in conflict with provision of earlier statute which gave owner one year from issuance of such deed to redeem, did not affect validity of latter statute, since conflicting provision of earlier statute was repealed by implication

**Statutes construed together**

Statute requiring county treasurer to make deed, reciting substantially matters contained in sale certificate, to purchaser of land sold on foreclosure of liens for irrigation assessments, if property is not redeemed within year after sale, and earlier statute declaring such deed, duly acknowledged or proved, prima facie evidence of certain things, must be construed together and later act giv-

en greater weight so far as two acts are in conflict

Wash—Lindsay Irr Dist v Clallam County, supra

39. Wash—Lindsay Irr. Dist v Clallam County, supra

67 C J p 1363 note 69.

making a tax deed conclusive evidence of the regularity of prior proceedings, when construed in connection with other provisions making the deed prima facie evidence that the property was sold as prescribed by law, do not preclude one from showing that a duplicate sale certificate was not filed as required by statute<sup>46</sup> Under such statutes, however, formal irregularities in the prior proceedings are cured by issuance of the deed<sup>47</sup>

**Proof of sale** While tax deeds are prima facie evidence that the land represented thereby has been duly sold,<sup>48</sup> positive and undisputed evidence may properly be admitted to show that there was no sale<sup>49</sup>

**Filing in Land Office.** Rules and regulations of the federal secretary of the interior requiring the filing of deeds in the United States Land Office are intended for the benefit of the United States and its land officer,<sup>50</sup> and the failure to comply with such regulations may not be used by another as the basis of a collateral attack on the tax title<sup>51</sup>

### (c) District or County as Purchaser, Resale

The district or county may become the purchaser, and the effect of such purchase may be to extinguish other tax liens Lands so purchased may, and should, be resold where possible.

Where a statute authorizing issuance of a certificate of delinquency is valid, personal service

of summons in a foreclosure suit on the certificate was had, and the court had jurisdiction of the parties and the subject matter, a purchase by the irrigation district on foreclosure is valid<sup>52</sup> The deeding of land to an irrigation district for delinquent assessments, following a tax sale, does not necessarily destroy existing tax liens in favor of other state agencies,<sup>53</sup> or merge them into the tax deed,<sup>54</sup> and such other liens are extinguished or merged only when necessary to protect property impressed with a public use,<sup>55</sup> or when the statute so provides<sup>56</sup> The deeding of land to the district does not extinguish the lien of bonds issued pursuant to a statute making them a lien on the land<sup>57</sup> Under some statutes, however, the striking off of land to the district for lack of bidders at the tax sale extinguishes the lien of the bonds<sup>58</sup> Where property was assessed before machinery and equipment were placed thereon, and proceedings foreclosing the lien did not purport to convey to the district title to such machinery and equipment, the district did not become the owner, entitled to possession, by its purchase at the foreclosure sale<sup>59</sup>

**Lands taken in trust** Under a statute providing that property acquired by the district shall be held in trust for the uses and purposes of the statute, land taken for delinquent assessments is impressed with a public use and trust<sup>60</sup> Under statutory provisions authorizing the lease or sale of land by the

West Coast Life Ins Co v Glenn-Colusa Irr Dist, 122 P 2d 595, 50 Cal App 2d 204

#### Land and proceeds therefrom

Land acquired by irrigation district because of delinquencies in assessments is trust property, held for the uses and purposes of the statute governing irrigation districts, and proceeds of lease thereof have the same character

Cal—Provident Land Corp v Zumwalt, 85 P 2d 116, 12 Cal 2d 365, followed in Provident Land Corp v Provident Irr Dist, 85 P 2d 122, 12 Cal 2d 791 and Provident Land Corp v Benoit, 85 P 2d 122, 12 Cal 2d 790

**Repayment of irrigation district's bondholders** is only one among several purposes of the statute governing irrigation districts, for which the proceeds of land acquired by district because of delinquency in assessments are held in trust

Cal—Provident Land Corp v Zumwalt, 85 P 2d 116, 12 Cal 2d 365, followed in Provident Land Corp

district, land may be leased for oil and gas purposes<sup>61</sup> A county acquiring lands through tax sale for irrigation district assessments holds title as trustee<sup>62</sup> Under a statute requiring the issuance of debentures for an irrigation district's assessments to the district by the county when it becomes the purchaser of the district's land, the district or its vendee owns an interest in the land which is never divested until the land is redeemed or sold<sup>63</sup>

**Resale of land** Land coming into possession of the county or district because of delinquency in assessments should be sold again, if possible<sup>64</sup> When an offer to sell land to which the district has acquired tax title is made to a class, one not within the class has no right to purchase<sup>65</sup> Where an offer of sale is conditionally made and requires an acceptance approved by the district trustees, no

contract is created where plaintiff's application to purchase is rejected by the trustees<sup>66</sup> Unless required by statute, directors of an irrigation district need not give notice of a proposed sale of land acquired by the district because of delinquency in assessments<sup>67</sup>

A contract for the sale of land will not be set aside where the consideration therefor was fair, reasonable, and adequate<sup>68</sup> Where lands in an irrigation district have been deeded to the county and the county board of commissioners has fixed their market value on an erroneous basis, the board may be required to redetermine the market value on a correct basis<sup>69</sup> Where land, having been sold to the district for delinquent assessments, is sold by it, the deed does not vest an absolute title free and clear of all encumbrances, as provided by statute, if actual fraud is present.<sup>70</sup>

v Provident Irr Dist, 85 P 2d 122, 12 Cal 2d 791 and Provident Land Corp v Benoit, 85 P 2d 122, 12 Cal 2d 790

**Benefit of landowners paying assessments**

Where owner of land in district refuses to pay assessment and land goes to district or where owner of land in district pays one or more assessments and then abandons land to district, the district accumulates what would be termed in the case of an ordinary corporation an undivided surplus, and that surplus is held by the district for the benefit of those landowners who have continued to pay their assessments and in addition to their own assessments have paid the assessment which should have been paid by the abandoned land, and the benefit can be realized when the land is sold or leased or in any manner produces district revenue

Wash.—In re Horse Heaven Irr Dist, 118 P 2d 972, 11 Wash 2d 218

61. Cal.—Reclamation Dist No 108 v Gibson, 147 P 2d 80, 63 Cal App 2d 311—Reclamation Dist No 1500 v Raub, 137 P 2d 45, 58 Cal App 2d 491

62. Mont.—State v Board of Com'rs of Cascade County, 296 P 1, 19, 89 Mont 37

**Assignment by county treasurer**

Where county treasurer without authority pretended to assign county's right to irrigation district lands, it was county's duty to return money received to assignee

Mont.—State ex rel Malott v Cascade County, 22 P 2d 811, 94 Mont 394

63. Mont.—State ex rel Malott v Cascade County, supra.

**After county issues debenture certificates** to irrigation district for amount of such irrigation district assessment, county can only receive money paid upon redemption and distribute same, or obtain deed and sell same and distribute money received upon sale

Mont.—State ex rel Malott v Cascade County, supra.

**It was duty of county commissioners** to apply for tax deeds to irrigation district lands to enable county to sell lands and apply proceeds as directed by law

Mont.—State ex rel Malott v Cascade County, supra

64. Cal.—Provident Land Corp v Zumwalt, 85 P 2d 116, 12 Cal 2d 365, followed in Provident Land Corp v Provident Irr Dist, 85 P 2d 122, 12 Cal 2d 791, and Provident Land Corp v Benoit, 85 P 2d 122, 12 Cal 2d 790

**Bonds of irrigation district constituted encumbrance** against lands within district which was extinguished by issuance of tax deed to the county which created new title in nature of independent grant from sovereignty extinguishing all former titles and liens not expressly exempted from its operation, so that purchaser of land in irrigation district on sale by the county was not liable for taxes or assessments for interest on district's bonds issued prior to tax sale

Mont.—Rosebud Land & Improvement Co v Carterville Irr Dist, 58 P 2d 765, 102 Mont 465

35. Cal.—Plummer v Ehlers, 122 P 2d 939, 50 Cal App 2d 352

**Former owner or his assigns**

Where offer by an irrigation district to sell land to which district had acquired tax title because of

delinquent district assessments was made to the former owner or his assigns, and rehabilitation plan under which land was offered for sale defined "former owner" as meaning owner of land when it was deeded to district, and plaintiff obtained a quitclaim deed from predecessor of one who owned land when it was conveyed to district, plaintiff was not an "assignee of the former owner" within meaning of plan and could not purchase land

Cal.—Plummer v Ehlers, supra.

66. Cal.—Plummer v Ehlers, supra.

67. Cal.—West Coast Life Ins Co v Glenn-Colusa Irr Dist, 122 P 2d 595, 50 Cal App 2d 204

68. Cal.—West Coast Life Ins Co v Glenn-Colusa Irr Dist, supra

**Consideration held sufficient**

Cal.—Baber v. Compton-Delevan Irr Dist, 156 P 2d 35, 68 Cal App 2d 131

69. U.S.—Judith Basin Irr Dist v Malott, CCA Mont, 73 F 2d 142, 97 A L R 504

70. Cal.—Dowd v Glenn, 129 P 2d 964, 54 Cal App 2d 748

**Fraud as to beneficiary of trust deed**

Owner of realty may not sever rights of a beneficiary under a trust deed by allowing irrigation assessments to become delinquent and then, through connivance of a third person, reacquire title to the detriment of the beneficiary under the trust deed, since a beneficiary under a trust deed and trustees had no duty to pay delinquent assessment by irrigation district on realty covered by the trust deed and failure to do so was not a "waiver" by the trustees and the beneficiary of his interest as against purchaser of property on sale for delinquent assessments.

Cal.—Dowd v. Glenn, supra.

## (d) Actions Concerning Tax Title

Actions concerning tax titles, such as suits to quiet title, or to cancel and set aside a tax deed, are subject to the general rules applicable in other actions of the same character.

Where plaintiff, suing to quiet his title, supports his claim of ownership by proof of a tax deed containing all matters recited in the certificate of sale, as required by statute, and duly acknowledged, he thereby presents a *prima facie* case,<sup>71</sup> and the burden devolves on defendant to establish his title to the property by a preponderance of the evidence.<sup>72</sup> In the absence of a contrary showing by pleading or proof, in an action to quiet a tax title, it will be presumed that plaintiff is a qualified assignee of the certificates of sale.<sup>73</sup> It has been held that a landowner may not, in an action brought by the holder of the tax title to quiet the same, raise the objection that all the land sold for delinquent irrigation taxes was not included in the deed.<sup>74</sup> The owner of land improperly assessed, and sold for nonpayment of the assessments, may maintain an action to quiet title against the holder of the tax deed.<sup>75</sup> An action to quiet title also may be maintained against the holder of the tax deed where the land had been redeemed before the sale.<sup>76</sup>

In a suit to quiet a tax title, an allegation of as-

essment is a sufficient allegation of the regularity thereof.<sup>77</sup>

**Cancellation of tax deed** The general rules of evidence apply in suits to set aside a deed issued pursuant to a sale of property for delinquent irrigation district assessments.<sup>78</sup> The owner of land within federal irrigation district may bring an action under the state law and in the state courts for cancellation of a tax deed.<sup>79</sup>

## e. Disposition of Taxes and Assessments

Constitutional and statutory provisions govern the disposition of funds raised by irrigation taxes and assessments.

The disposition to be made of funds raised by irrigation taxes and assessments is governed by constitutional and statutory provisions, and, in accordance with such provisions, it has been held that collections made on account of assessments for operation and maintenance should be paid to the irrigation district treasurer,<sup>80</sup> and that collections made on account of assessments for interest or principal of bonds,<sup>81</sup> or contracts with the United States,<sup>82</sup> must be paid to the state treasurer, who acts as custodian for district funds, and that moneys derived from the sale of such lands are trust funds.<sup>83</sup> Where a district was reorganized, and land not benefited was eliminated and bene-

71. Cal—Corson v Crocker, 161 P 287, 31 Cal App 626

72. Cal—Corson v. Crocker, supra 67 C J p 1364 note 82

73. Utah—Hatch v Edwards, 269 P 138, 72 Utah 113

74. Utah—Hatch v Edwards, supra

75. Cal—Woody v. Security Trust & Savings Bank, 29 P 2d 898, 137 Cal App 29

**Statute providing for cancellation of assessments on public lands** was held not applicable, so that failure to remove assessment by statutory method did not preclude attack upon assessment and sale thereunder Cal—Woody v Security Trust & Savings Bank, supra.

**Repayment of assessment**

Statute providing for repayment of amount of assessment in event of judgment quieting title against tax deed was limited to tax sales had under Political Code sections, and not applicable as respects proceedings under Wright Act and Irrigation District Act governing proceedings in irrigation districts, and in an action, by successors of patentee of land not forming part of irrigation district, to quiet title against purchaser at sale under district assessment, plaintiffs were not required to repay purchaser's expenditure,

where land was never liable for district assessment

Cal—Woody v Security Trust & Savings Bank, supra

**76. Presumption of sufficiency of payment**

Cal—Laist v Nichols, 33 P 2d 866, 139 Cal App 202

**Prima facie evidence**

In action to quiet title to land sold for nonpayment of irrigation district assessment, production of redemption receipt, under presumption that regular course of business had been followed, was *prima facie* showing that application had been made to collector to redeem property and that collector had furnished figure on basis of which payment was made Cal—Laist v Nichols, supra

77. Utah—Hatch v Edwards, 269 P 138, 72 Utah 113

**78. Burden of proof**

Plaintiff has the burden of proving fraudulent conspiracy as alleged Wash—Federal Land Bank of Spokane v McMinimee, 75 P 2d 138, 193 Wash 321

**Weight and sufficiency of evidence**

Evidence relating to son's purchase, at delinquent irrigation assessment sale, of property previously purchased by his father under land purchase contract, was insufficient to justify setting aside deed

issued to son on ground that son and his father had entered into fraudulent conspiracy to deprive vendor under land purchase contract of its title, where it appeared that son furnished money to pay for delinquent certificates, that he attended sale and that father did not, and that neither knew that land covered by contract had been included in son's purchases at delinquent assessment sale until after deed had been issued. Wash—Federal Land Bank of Spokane v McMinimee, supra

79. Wyo—Clinton v Elder, 277 P 968, 280 P 839, 40 Wyo 350

80. Idaho—Hurlebaus v American Falls Reservoir Dist, 286 P 598, 49 Idaho 158

**Public funds**

Assessments collected by an irrigation district are public funds and not private property of the district Cal—Allen v Hussey, 225 P 2d 674, 101 Cal App 3d 457.

81. Idaho—Hurlebaus v American Falls Reservoir Dist, 286 P 598, 49 Idaho 158

82. Idaho—Hurlebaus v American Falls Reservoir Dist, supra

83. Mont—State v Board of Com'rs of Cascade County, 296 P. 1, 19, 89 Mont 37

67 C J p 1364 note 91.

fits were reassessed, refunding of assessments within the diminished district to reimburse owners of the eliminated lands for bond interest paid by them was authorized, as against the contention that assessments were not assessments to meet general indebtedness.<sup>84</sup>

Constitutional provisions prohibiting the state or any subdivision thereof from becoming stockholder in any corporation have been construed as not prohibiting an irrigation district from using its taxes or assessments to purchase stock in a water reservoir company.<sup>85</sup>

### § 338. Dissolution or Other Termination of District

- a. In general
- b. Payment of indebtedness
- c. Abandonment and nonuser of franchise
- d. Proceedings for dissolution
- e. Effect of dissolution and disposition of property

#### a. In General

An irrigation district generally may be dissolved only in accordance with statutory provisions

Dissolution of an irrigation district can be made only in accordance with statutory provisions.<sup>86</sup> In the absence of statutory authorization to the contrary, an irrigation district may not be dis-

solved at the suit of an individual,<sup>87</sup> or by the appointment of a receiver,<sup>88</sup> but may be dissolved only at the suit of the state from which it derived its powers,<sup>89</sup> and the directors of an irrigation district may not make a valid contract for dissolution of the district.<sup>90</sup> Publication by the attorney general of notice of intention to commence action to dissolve a district places the district in process of dissolution.<sup>91</sup>

*De facto dissolution.* Condemnation of all lands in an irrigation district by the United States in the exercise of its war powers for military purposes dissolves the district de facto.<sup>92</sup>

#### b. Payment of Indebtedness

Payment of debts may not be avoided by dissolution, and where statutes so provide, a district may not validly be dissolved prior to payment of its debts

An irrigation or reclamation district may not avoid payment of its debts by dissolution,<sup>93</sup> and where the statutes require payment of indebtedness prior to dissolution, or adequate provision therefor, there can be no valid dissolution without a precedent payment of all just indebtedness of the district,<sup>94</sup> or the furnishing of adequate security,<sup>95</sup> although an owner of irrigation bonds who has been tendered the full face value of his bonds with interest thereon to maturity is not in a position to question the validity of a dissolution decree in which all other creditors of the dis-

84. Wash—Lesamiz v Whitestone Reclamation Dist., 61 P 2d 1305, 188 Wash 145

85. Mont—Thaanum v Bynum Irr Dist., 232 P 528, 72 Mont 221 67 C J p 1364 note 92

86. Cal—Bottoms v Madera Irr Dist., 242 P 100, 74 Cal App 681 67 C J p 1364 note 93

**Statutory notice of proceedings** for dissolution of irrigation district by publication for thirty days in designated newspaper was sufficient to give court jurisdiction of lands therein so as to authorize decree confirming proceedings and imposing charges for water delivered after date thereof

Cal—Happy Valley Water Co v Thornton, 34 P 2d 991, 1 Cal 2d 325

#### Effect to be given statute

The statute providing for the dissolution of irrigation district should have effect according to the purpose and intent of the lawmakers

Wash—In re Horse Heaven Irr Dist., 118 P 2d 972, 11 Wash 3d 218

#### Where litigation pending

Where water control and improve-

ment district desires to effect its dissolution as speedily as possible under statute prohibiting it from doing so until all litigation pending against it on effective date of statute is disposed of by final judgment, it is duty of court of civil appeals, in exercise of sound judicial discretion, to relieve state, district, and directors thereof from burden of unauthorized litigation pending against them when statute became effective

Tex—State v. Miller, Civ App., 183 S W 2d 278

87. Tex—Barnhart v Hidalgo County Water Improvement Dist No 4, Civ App., 278 S W 499

94. Colo—In re Green City Irr Dist., 13 P 2d 1113, 91 Colo 202. 67 C J p 1365 note 99

#### Composition of debts in bankruptcy

Where irrigation district had no authority under law to make additional or cumulative levies to pay past due bonds, interest coupons and warrants unpaid because of failure to collect taxes assessed against certain land in district, a composition of its debts under Bankruptcy Act was necessary before district could be dissolved in view of statute making payment or security of all debts of district a prerequisite to dissolution

US—Kiles v Trinchera Irr Dist., CCA Colo., 136 F 2d 894

95. Colo—Michigan Trust Co. v. Otero Irr Dist., 232 P. 919, 76 Colo 441

67 C J p 1365 note 1.

trict who were parties to the proceeding have acquiesced <sup>96</sup>

### c. Abandonment and Nonuser of Franchise

Unless so provided by statute, abandonment or nonuser of its franchise does not dissolve a district

In the absence of statutory provision therefor, an irrigation district will not automatically lose its legal existence by reason of nonuser of its powers,<sup>97</sup> nor may the courts dissolve an irrigation district on the ground of nonuser of its franchises<sup>98</sup>

Under a statute providing for automatic dissolution of a district if it does not begin to function within a prescribed period after formation, where the facts show that the district proceeded with due diligence to carry out the purposes of its organization it does not forfeit its legal existence<sup>99</sup>

### d. Proceedings for Dissolution

The nature of proceedings for dissolution of a district is determined by the statutes providing therefor.

Under a statute providing for the dissolution of irrigation districts, and specifically designating the proceeding for dissolution as one in rem but not contemplating any seizure of the property of the district, the proceeding for dissolution is not one in rem despite its statutory designation as such,<sup>1</sup> but in its final analysis the whole proceeding is merely one to determine the indebtedness of a quasi-public irrigation district having substantially the same status as a municipality and then authorizing the representatives of the district to sell

or exchange its property,<sup>2</sup> and the statute authorizes the court to grant a sale or exchange of district assets when the proposed transfer provides adequate security for the ultimate payment or complete liquidation of all the indebtedness of the district,<sup>3</sup> and a judgment rendered in such a proceeding without custody of the property does not bar unpaid bondholders who were not parties to the dissolution proceeding from thereafter securing relief.<sup>4</sup>

*Petition for dissolution.* Under some statutory provisions, two types of petitions are provided, the one being for use where the district is a going concern with assets and liabilities, and the other for use when the district has no assets or liabilities and has ceased to be a going concern<sup>5</sup> In order to establish regularity of a proceeding for voluntary dissolution it is essential that there be a sufficient petition<sup>6</sup>

*Setting aside default of creditor in dissolution proceeding* Where the trial court abuses its discretion in refusing to set aside the default of a creditor in a dissolution proceeding, its action is subject to review<sup>7</sup>

### e. Effect of Dissolution and Disposition of Property

The effect of dissolution of a district and the disposition thereafter of its property depend on statutory provisions and the circumstances of the particular case.

A judgment dissolving an irrigation district as a

3. U.S.—Beck v Otero Irr Dist, supra

4. U.S.—Beck v Otero Irr Dist, supra

5. Cal.—In re Shafter-Wasco Irr Dist, 134 P2d 46, 57 Cal App2d 90

#### Form and contents of petition

The section of the act relating to voluntary dissolution of irrigation districts which waives necessity of any plan of dissolution being set forth in petition for dissolution or being adopted by board of direc-

tors of district applies only to a petition filed pursuant to section of the act relating to proceedings when district has no assets or liabilities and has ceased to be a going concern

Cal.—In re Shafter-Wasco Irr Dist, supra

#### Petition held invalid

Petition for voluntary dissolution of irrigation district was invalid under section of the act relating to dissolution of irrigation district when district has no assets or liabilities and has ceased to be a going concern, where petition failed to contain signatures of two-thirds of qualified voters residing in district as required by the act, and especially where petitions showed that there were assets to be distributed

Cal.—In re Shafter-Wasco Irr Dist, supra

6. Cal.—In re Shafter-Wasco Irr Dist, supra

#### Substantial compliance necessary

Trial court did not abuse its discretion in determining that there was not a substantial compliance

with the act relating to voluntary dissolution of an irrigation district when district is a going concern with assets and liabilities, where it appeared that petition for dissolution failed to comply with the act in several respects, and that such errors and omissions were in violation of substantial rights of electors and landowners of the district

Cal.—In re Shafter-Wasco Irr. Dist, supra

**The burden of establishing regularity of proceedings** for voluntary dissolution of irrigation district and proper performance of all various requirements laid down in the act was upon party asserting regularity of the proceedings and relying upon them as basis for a request for affirmative relief, since proceeding was "in rem" and jurisdiction of all persons affected was obtained by publication of a notice.

Cal.—In re Shafter-Wasco Irr Dist, supra

7. Colo.—Dalton v Otero Irr Dist, 232 P 922, 76 Colo 438.

67 C.J. p 1365 note 11

de jure corporation does not preclude its subsequent existence as a de facto district exercising the same powers.<sup>8</sup> On dissolution of a de facto irrigation district its property, paid for during its existence as a de facto public corporation, does not revert to the original owner,<sup>9</sup> and its dissolution does not bring to life any rights in favor of third parties which could not have been asserted against its property during the period of its existence.<sup>10</sup> Where the United States, on de facto dissolution of an irrigation district by condemnation of all the lands therein, did not acquire the interests of the land-

owners in nonirrigation properties of the district, it acquired no exclusive right to the district's net assets consisting of money paid for such properties.<sup>11</sup> Under a statute so providing, when the district is in the process of dissolution the directors may dispose of its property at a private sale,<sup>12</sup> and the legislature may by statute ratify a private sale.<sup>13</sup>

Disposition of assets must be in accordance with the provisions of the statutes,<sup>14</sup> and may be by contract between the district bondholders and the landowners of the district.<sup>15</sup>

## C. IRRIGATION AND DITCH COMPANIES

### § 339. In General

Irrigation and ditch companies include private corporations, either quasi-public in their nature, or restricting their service to their own stockholders, in proportion to their respective stock interests.

Irrigation and ditch companies include private corporations, either quasi-public in their nature,<sup>16</sup>

or restricting their service to their own stockholders,<sup>17</sup> in proportion to their respective stock interests.<sup>18</sup> In some cases, the water rights may be owned by the corporation,<sup>19</sup> in others, by the stockholders,<sup>20</sup> the corporation owning the canal or ditch,<sup>21</sup> and the corporation being under con-

Water users' association does not own the water which it furnishes to the lands of its shareholders for irrigation purposes, but is merely the carrier of water for its shareholders  
Ariz—Adams v. Salt River Valley Water Users' Ass'n, 89 P 2d 1060, 53 Ariz. 374.

tractual obligation to carry,<sup>22</sup> or to supply,<sup>23</sup> water to the stockholders, as the case may be, although in some cases where water rights and the canal or ditch are owned by the corporation, the stockholders are said to be equitable owners entitled to proportionate distribution of such waters as the corporation acquires by appropriation<sup>24</sup>

A *community irrigation ditch* being only a carrier, the rights of ownership in the ditch are rights separate and apart from the rights of ownership of water that the ditch conveys<sup>25</sup> A property right in a community irrigation ditch may be obtained by initial joinder in construction of the ditch by contribution of cash or labor, or by consent of the owners of shares in a ditch company and payment to the ditch company of a price proportionate to the primary cost of the ditch, based on the amount of water to be carried<sup>26</sup>

### § 340. Unincorporated Mutual Associations and Joint Stock Companies

Mutual ditch companies are unincorporated associations, the property of which is held by the members as tenants in common, and each is entitled to sell his interest without the consent of the others, his certificate of membership being considered as constituting a muniment of title to an interest in the property of the association

Mutual ditch companies are unincorporated associations, the property of which is held by the members as tenants in common, and each is entitled to sell his interest without the consent of the others,<sup>27</sup> his certificate of membership being considered as constituting a muniment of title to an interest in the property of the association,<sup>28</sup> and as evidencing the amount and extent of the appropriation of water which each holder possessed,

where the evidence shows that the certificates were so regarded by the members<sup>29</sup> A change in the location of the ditch which will be injurious to some of the members cannot be made by the others, although they constitute a majority, at their mere will or without the consent of those who will be affected, and they may be enjoined if they attempt it,<sup>30</sup> and the rule is still effective after the original community ditch has been succeeded by a corporation with limited powers which do not include a power in the majority to change at will the main ditch<sup>31</sup> There is, however, an implied agreement between members of the original community association, and under the corporation which succeeded it, that if a change in the original course of the ditch should become necessary to the continued existence of the enterprise, a change to the extent sufficient to avoid the insuperable obstacle may be made<sup>32</sup> In some states, if the persons interested in a partnership ditch cannot agree on the distribution of the water, either of them may apply to the court to appoint a suitable person to make the distribution<sup>33</sup> Where the owners of a ditch form a joint stock company for the specific purpose of maintaining a ditch for a fixed period of years, the individual members cannot withdraw from such association before the expiration of that period without an amendment of the by-laws<sup>34</sup>

Under statute giving the power to fix maintenance charges, and declaring the duties of the water master or manager, but omitting provision as to his salary, the members of an unincorporated water-users' association may fix the charges for maintenance,<sup>35</sup> and, under an implied power, may fix the manager's salary,<sup>36</sup> and a member is liable for

his share thereof on ground of his membership,<sup>37</sup> and also in quantum meruit where he accepted the service and acquiesced in action of members fixing the manager's salary<sup>38</sup> Nor can he set up by way of counterclaim the damage and expenses incurred resulting from a failure in the service, where the claim had been liquidated in another suit.<sup>39</sup>

### § 341. Private Corporations in General

Irrigation corporations owned and controlled by private persons are private corporations, and a mutual irrigation corporation has the usual rights pertaining to corporations with reference to handling of its affairs and in dealing with its stockholders.

Irrigation corporations owned and controlled by private persons are private corporations,<sup>40</sup> existing at the will of the legislature<sup>41</sup> Although a stockholder in a mutual irrigation corporation has a right peculiar to such corporations, in that he may have distributed to him and use his proportionate share of the waters belonging to, or distributed by, the corporation, as is discussed infra § 353, such a corporation has the usual rights pertaining to corporations with reference to handling of its affairs and in dealing with its stockholders<sup>42</sup>

### § 342. — Incorporation and Organization

Irrigation companies may be incorporated under an act providing for corporations generally, where a statute enacted subsequently to the general law expressly so provides, and a general law relating to corporations for construction of canals and supplying water is not repealed by a general law with respect to corporations generally.

The general rule stated in Corporations § 41, that a corporation cannot be formed under a general law except as expressly authorized thereby, applies to irrigation companies, and permits the incorporation of irrigation companies under an act providing for corporations generally, where a statute enacted subsequently to the general law expressly so provides<sup>43</sup> Following the general rule stated

in Statutes § 288, that repeal of statutes by implication is not favored, a general law relating to corporations for construction of canals and supplying water is not repealed by a general law with respect to corporations generally,<sup>44</sup> or to corporations organized primarily for purposes other than irrigation<sup>45</sup> Where the general law incorporates every community ditch in the state then or thereafter existing, and regulates elections of their officers, every community ditch is a corporation by virtue of its existence, and without initiating any procedure to become such, but inasmuch as it cannot act, or sue or be sued, except through its officers, and as the law regulates their election, an election of officers, in conformity to statutory requirements, must be had before the corporation may act as such<sup>46</sup> The statutory requirement of a sworn statement, properly recorded, showing the purpose of the irrigation company, and the number of acres to be irrigated, is met by an affidavit to the required facts made by the president of the company, and recorded<sup>47</sup> If there is a law under which an irrigation company may be incorporated, a bona fide attempt to organize thereunder, and an actual use of corporate powers, the legality of its existence cannot be attacked collaterally<sup>48</sup> as, for example, in a contest between rival corporations involving priority of water rights<sup>49</sup>

*Water-users' association of laterals* A statute may provide for the organization of a water-users' association by parties who take water from the same canal, at the same point, to be conveyed to their respective premises for any distance through a lateral or distributing ditch<sup>50</sup>

*What law governs* When a mutual irrigation company, receives from the state an extension of its corporate life, which would have otherwise expired, it in effect obtains a new charter, and hence the laws in force at the time of such extension form

50. Idaho—Hale v. McCammon Ditch Co, 244 P.2d 151, 72 Idaho 478

#### Intention to organize disclosed

Unilateral agreement providing that stockholders of ditch company who received water from ditch company's main canal into certain lateral owned by stockholders do authorize board of directors of ditch company as managers of lateral with all power to do each and everything necessary and requisite for orderly distribution of water through lateral and for maintenance and repair of lateral, agreeing to pay pro rata share for work and labor done and materials, was an agreement for management of lateral, upkeep, and distribution of water and attempt to organize as water users  
Idaho—Hale v. McCammon Ditch Co, supra

part of the contract between the corporation and its stockholders<sup>51</sup>

**Amendment of charters** Where a proposed amendment to the articles of incorporation does not constitute a fundamental change, but is merely an extension of corporate activity, a unanimous consent of all outstanding stock is not necessary<sup>52</sup> Where the original charter itself provides that statutes altering the charter powers may be accepted by a designated number of stockholders voting at a general or special election, statutory amendments are effective if the required number of stockholders act thereunder, even though the amendment has not been formally accepted.<sup>53</sup>

**Bylaws**, where properly acted on by the stockholders, and not in violation of law, charter, or vested rights, are binding as between corporation and stockholders and as between the stockholders themselves<sup>54</sup> An irrigation corporation may adopt bylaws providing that stock shall be issued only to landowners entitled to water and should be transferable only with land,<sup>55</sup> or regulating the use of the water by its stockholders in turn, requiring each to contribute his proportionate share to a maintenance fund, and making payment a condition of the right of the stockholder to receive water,<sup>56</sup> or restricting the levy of assessments for revenue against

shares of stock appurtenant to land for which water is available,<sup>57</sup> or prohibiting transfer of water from one tract to another except on orders of board of directors<sup>58</sup>

### § 343. — Capital, Stock, and Members or Stockholders

- a. Stock and stock certificates
- b. Stock subscriptions and purchase of stock from corporation
- c. Sale and transfer of stock
- d. Members and stockholders

#### a. Stock and Stock Certificates

Generally, shares of stock in a mutual irrigation company are considered as being mere muniments of title to rights in available water and to proportionate interests in the irrigation system operated by the company as agent of the shareholders

Although the shares of stock in a mutual non-profit irrigation company have been held to constitute vested property rights,<sup>59</sup> the view has been taken that they are mere muniments of title to rights in available water and to proportionate interests in the irrigation system operated by the company as agent of the shareholders,<sup>60</sup> and if appurtenant to land any shares of stock remaining after all water appropriated has been applied to beneficial

59. NM—Holmberg v Bradford, 244 P 2d 785, 56 NM 401.

#### Readjustment of shares

Where plaintiff shareholders in community irrigation ditch owned 38.87 percent of irrigated acreage, but only 30 percent of shares in ditch company, plaintiffs were not entitled to have their shares in ditch company readjusted to be in proportion to their shares of water rights or of irrigated acreage, since doing so would constitute destruction of vested property rights and creation of new property rights  
NM—Holmberg v Bradford, supra.

60. US—Pacific States Savings & Loan Corp v Schmitt, CCA Nev, 103 F 2d 1002

Twin Falls Land & Water Co. v. Twin Falls Canal Co, D C Idaho, 7 F Supp 238, affirmed, CCA, 79 F 2d 431, certiorari denied 56 S Ct 381, 296 US 654, 80 L Ed 466

Utah—East River Bottom Water Co v Boyce, 128 P 2d 277, 102 Utah 149—Genola Town v Santaquin City, 80 P 2d 930, 96 Utah 88, rehearing denied 85 P 2d 790, 96 Utah 104.

use have no value, actual or potential, except for nuisance purposes.<sup>61</sup>

In arid states, shares of stock are usually deemed appurtenant to the land of the shareholder irrigated through the system.<sup>62</sup> The shares of stock of an irrigation company issued in place of a vested water right for lands in an irrigation district are appurtenant unless they have been transferred and put to beneficial use on other lands.<sup>63</sup> Under a statute so providing, no stock is appurtenant to land unless the corporation adopts and records in the county recorder's office a bylaw declaring it to be appurtenant to land.<sup>64</sup> A bylaw declaring that stock shall be located only on land of the purchaser and that water shall be distributed only on lands on which stock is located, does not make such stock appurtenant to the land,<sup>65</sup> but a bylaw providing that the stockholder shall be entitled to water only for land described in the certificate makes the stock appurtenant,<sup>66</sup> and the stock is also appurtenant to the land where a bylaw provides that the stock is transferable only with land,<sup>67</sup> or where the articles of incorporation, bylaws, and certificate of stock so provide.<sup>68</sup>

Stock, not appurtenant to land, is personal property,<sup>69</sup> and shares of stock in irrigation corporations organized for profit are personal property,<sup>70</sup>

but stock appurtenant to land constitutes a species of real property.<sup>71</sup>

The provisions of the articles of incorporation must be strictly complied with in the issue of certificates of stock,<sup>72</sup> and where a water company was organized to maintain an irrigation system on the basis of one share of stock to each acre of land irrigated, capital stock, issued in excess of one share to one acre, must be reduced to the charter basis.<sup>73</sup> Any duplicate shares of stock issued inadvertently is without consideration and of no effect in conferring any additional water rights.<sup>74</sup> A holder of a certificate of stock in a mutual irrigation company, regular on its face, and issued by officers having an apparent authority to do so, is not burdened with a duty of inquiry with respect to the regularity of its issuance merely because the certificate may have been issued to one of the officers of the company who signed the certificate,<sup>75</sup> and the fact that one may have learned of such irregularity prior to obtaining an assignment of the certificate does not preclude him under the doctrine of merger from maintaining an action to recover from the company for any loss sustained, on the ground that the certificate, although regular on its face, was void because it represented an overissue procured through fraud.<sup>76</sup>

**Recovery for loss sustained through overissue held not barred:**

(1) On ground that water represented by the certificate was not used for more than five years and hence was abandoned by such nonuser, since holder was never entitled to any water rights

Utah—Commercial Bank of Spanish Fork v Spanish Fork South Irr Co, supra

### b. Stock Subscriptions and Purchase of Stock from Corporation

Although the subscription for stock in a reclamation project has been closed, it may be reopened in a proper case, provided the rights of existing shareholders are not impaired; but where stock is sold on the theory that water users buying such rights are to have a reasonably dependable supply of water, the company may not dilute such rights by selling more shares of stock when water actually available is barely sufficient for present holders of water rights.

The fact that a reclamation project had been completed and the area to which water might lawfully be supplied had been fixed, and the subscription for stock closed, does not prevent a subsequent reopening of the subscription, where the system has been substantially enlarged, provided the company is able to fulfill its contract with the new subscribers, and the rights of existing shareholders are not impaired.<sup>77</sup> Where stock with water rights in a canal is sold on the theory that water users buying such rights are to have a reasonably dependable supply of water, the company may not dilute such rights by selling more shares of stock when water actually available is barely sufficient for present holders of water rights.<sup>78</sup> Water users by subscribing for stock in an irrigation company and signing a non-interference agreement are not estopped to object to change in point of diversion of water by the company, where the subscription for stock is made and the agreement signed with the understanding that prior appropriations by water users will not be jeopardized by a change in diversion or transfer of water rights purchased by the irrigation company.<sup>79</sup>

In suit to foreclose lien given in connection with subscription to capital stock of plaintiff corporation, the complaint must show authority, in powers granted, to maintain the suit, and the defendant's ownership of land against which the lien is being enforced.<sup>80</sup> The amount paid under a contract of sale of all the stock of a canal company is the purchase price fixed by the contract minus the credits allowed the purchaser under its terms.<sup>81</sup> Where the corporation assigns a contract for sale of its shares,

with consent of the purchaser who agrees to pay the assignee for the shares, the right to sue on the purchase money notes is in the assignee, not in the corporation,<sup>82</sup> nor can the purchaser escape liability to the assignee thereon on grounds applicable only to the superseded contract between himself and the corporation.<sup>83</sup>

A purchaser may rescind a fraudulent sale of stock to him,<sup>84</sup> and his right to rescind is not affected by his payment of an assessment for maintenance charges after giving notice of rescission, made to prevent foreclosure of the assessment lien.<sup>85</sup> A stock subscription contract although not properly signed by an agent on behalf of the company may, under circumstances showing ratification by the company, be valid and not subject to repudiation by the subscriber.<sup>86</sup>

*Contribution and accounting.* Where purchasers of water rights from the state organized an irrigation company to which they assigned their shares of water in exchange for corporate stock, and thereafter the state assigned its right to collect money on such water contracts to the corporation in exchange for corporate bonds, thereby releasing the individual purchasers from liability to the state on their water purchase contracts and leaving them only with the obligation of paying for their stock subscriptions, a subscriber who has paid his subscription in full and received his corporate stock has no right to an accounting from the corporation or contribution from individual stockholders who did not complete payment of stock subscriptions.<sup>87</sup>

### c. Sale and Transfer of Stock

Stock not appurtenant to the land does not pass with the land on a conveyance of the land, but where the stock is appurtenant to the land, the stock will usually pass with the land, although the owner is entitled to convey part of the land without the stock as long as he retains land to which the stock can be appurtenant.

Since shares of stock in an irrigation corporation, which shares have not been made appurtenant to land, are personal property,<sup>88</sup> a deed conveying

(2) By laches although action was not commenced until more than fourteen years after certificate had been issued, where there was no showing that delay was due to any fault of plaintiff, or that it prejudiced defendant's rights. *Utah—Commercial Bank of Spanish Fork v Spanish Fork South Irr Co*, supra.

*Smith v Hallwood Irr. Co*, 228 P 373, 67 Cal App 777.  
Transfer of stock as effecting transfer of right to supply of water see *infra* § 357 a.

land,<sup>89</sup> or land and water rights pertaining thereto,<sup>90</sup> will not operate to transfer stock which is not appurtenant to the land conveyed. Where the stock is appurtenant to the land, however, the stock passes with a conveyance of the land,<sup>91</sup> regardless of the transfer of the stock on the books of the company,<sup>92</sup> at least in the absence of reservation of water rights or stock,<sup>93</sup> or unless the intention of the grantor is otherwise.<sup>94</sup>

Although stock is appurtenant to the land, an owner is entitled to convey part of the land without the stock as long as he retains land to which the stock can be appurtenant.<sup>95</sup> In the absence of evidence that shares of stock in a water company represented water rights appurtenant to lands, or that the corporation was a mutual company, a purchaser at an execution sale in good faith and without notice that the outstanding certificate belongs to some one other than the judgment debtor is entitled to a transfer of the stock to himself on the books of the company,<sup>96</sup> and the record of a deed by the debtor conveying his land and capital stock appurtenant thereto is not constructive notice of a transfer of his stock in the water company.<sup>97</sup> A transfer of a riparian water right by an owner of land to which it is appurtenant to a mutual irrigation company, organized to take over the distribution of water, and the issuance of stock by the company representing the quantum of right is nothing more than a change

in the formal evidence of title, since water rights and stock are one and the same, the latter being merely the representation of the former.<sup>98</sup> A contract to convey land with an appurtenant water right does not convey any additional shares of water right other than those which are appurtenant to the land.<sup>99</sup> One intending to buy land and only appurtenant water rights is not an innocent purchaser of a designated number of shares of stock represented by a certificate which has been issued by mistake, and such purchaser has no greater rights than his vendor.<sup>1</sup>

*Duty of inquiry.* Purchasers of water stock may rely on the stock record unless they have actual knowledge that stock has been mortgaged, pledged, or disposed of, or unless there is some other circumstance which would charge them with notice other than mere knowledge that some previous owner declared water to be appurtenant.<sup>2</sup> If one buying water stock actually knows that a former certificate stated that water represented by the certificate belonged to a certain tract of land, and knows that no water is being used on that land, it does not charge him with the duty of searching the chain of title to the land to see whether instruments on the county recorder's record dealt with such water.<sup>3</sup>

*A pledgee of stock in a ditch company as security for payment of a note can be made to account, if to his profit he obtained use of the water to which*

the shares entitled the holder thereof<sup>4</sup> Where shares of stock in a canal company are conditionally delivered to a bank as security for a note, but the bargain falls through because of the refusal of the wife of the maker to sign the note, the bank should return the stock<sup>5</sup>

*An action to set aside an assignment of water stock certificates may be maintained on grounds of mental incapacity of the grantor at the time of the transfer.*<sup>6</sup>

#### d Members and Stockholders

- (1) In general
- (2) Meetings
- (3) Assessments for construction and maintenance

##### (1) In General

Membership in an irrigation corporation depends on the provisions of the statute, and where a statute makes all community ditches in existence corporations and restricts membership to water users, but makes no provisions as to the nature of their rights in the ditch and in the water, their rights are the same after incorporation as before.

Membership in an irrigation corporation depends on the provisions of the statute,<sup>7</sup> and where a statute makes all community ditches in existence corporations and restricts membership to water users, but makes no provision as to the nature of their rights in the ditch and in the water, their rights are the same after incorporation as before<sup>8</sup> Where a water user joins with other water users to form an irrigation company and acts as one of the incorporators, but continues thereafter to use the water as prior to the formation of the company, he is not estopped to contend that he did not convey his water rights to the irrigation company<sup>9</sup>

Members are chargeable with notice of the provisions of the articles of incorporation,<sup>10</sup> and are bound by action of the corporation,<sup>11</sup> or of the stockholders and directors in accordance therewith,<sup>12</sup> even though the terms of a contract between the member and organizer of the corporation are thereby violated<sup>13</sup> A constitutional provision that if there has been a sale, rental, or distribution of water for use on lands there is a dedication of water to the lands, and the owner or distributor of waters cannot thereafter refuse to distribute water to the lands on tender of proper charges therefor, does not give to the owner of stock in a mutual irrigation corporation the right to make a wrongful diversion of water at an unauthorized place, even though the stockholder has paid maintenance charges to the corporation, where the wrongful diversion is made without the consent of the corporation<sup>14</sup>

*Ownership of controlling stock by a river company of a canal company and election of the directors of the river company as directors of the canal company do not make the river company liable for the acts or obligations of the directors of the canal company*<sup>15</sup>

*Withdrawal of membership.* Where a statute authorizes a company to purchase its own stock on a requisite number of votes of the outstanding stock exclusive of the stock to be purchased, a member may be permitted to withdraw as the result of such a purchase of its stock, and the company may not thereafter collect charges on account of the stock from the withdrawing owner<sup>16</sup>

*An action by minority stockholders of a canal company, to compel the company to exact higher charges for carriage of water through its canal so that profits will be earned and dividends paid, cannot*

be maintained in the absence of any fraud on the part of the majority stockholders and officers of the company<sup>17</sup>

## (2) Meetings

The common-law rule as to what constitutes a quorum at a stockholders' meeting sufficient for the transaction of business is applicable, unless abrogated by statute, and a notice which clearly states the nature of the propositions to be voted is sufficient. Statutory and charter provisions governing stockholders' meetings apply, as with respect to who may vote.

The rule of the common law that any number of stockholders present at a meeting properly called constitute a quorum sufficient for transaction of business may, as shown in Corporations § 546, be abrogated by statutes requiring a designated proportion of members or representation of a designated amount of stock, and where a statute applicable to water users' associations requires a majority of stock to be represented at stockholders' meetings, but further provides that if the association actually owns or controls an irrigation system, members present shall constitute a quorum, ownership, or control of an irrigation system must be established before the benefit of the common-law rule can be claimed<sup>18</sup> In the absence of statutory requirements, a notice of a stockholders' meeting which states clearly the nature of each proposition to be voted and that a copy of the proposition could be seen at the office of the secretary, is sufficient.<sup>19</sup>

In giving notice of an election to be held on a stated proposition, the election is in effect a meeting of the stockholders, and requirements governing stockholders' meetings apply<sup>20</sup> A charter provision that voting shall be by ballot cast "at the polls in person," has been construed as excluding corporations, and persons holding lands in a fiduciary

capacity,<sup>21</sup> nor may owners of land, disqualified from voting, convey their land and shares to dummy owners solely for the purpose of voting for officers<sup>22</sup> Where assessments which are levied by a mutual water company are void because the special meetings at which the assessments are levied are not duly convened, an attempt of corporate officers to sell or cancel shares under the purported assessments is void, and a stockholders' meeting which is subsequently held for the purpose of electing directors without advance notice having been given to the holders of shares which the officers had attempted to sell or cancel is not duly assembled<sup>23</sup>

*Action to determine directors.* In an action brought to determine the duly elected directors, the court may determine the person entitled to the office of director or may order a new election and direct such other relief as may be just and proper<sup>24</sup>

## (3) Assessments for Construction and Maintenance

- (a) In general
- (b) Liens and priority
- (c) Payment and enforcement of lien

### (a) In General

Stockholders must contribute, as required by statute, either by their labor, or by money payments assessed against them, toward the cost of construction and maintenance of the company's irrigation system, properly incurred, and toward the mortgage and other indebtedness of the company, when necessary, even though their shares are fully paid up. The amount and manner of the levy of an assessment or the liability to be assessed, may, however, be controlled by agreement or statute.

Stockholders must contribute, as required by statute, either by their labor,<sup>25</sup> or by money payments

17. US—Robbins v. Winters Creek Canal Co, CCA Neb, 109 F 2d 849

**Evidence sustained finding** that failure of the canal company to earn profits for payment of dividends was not caused by fraud in conduct of the company affairs

US—Robbins v Winters Creek Canal Co, supra

### **Evidence held insufficient**

(1) To sustain contention that majority stockholders who elected the officers of the company had interests as landowners which were opposed to the interests of the company

US—Robbins v. Winters Creek Canal Co, supra

(2) To sustain contention of minority stockholders that sugar company which was parent company of one of the majority stockholders who elected the officers of the com-

pany, was interested adversely to the canal company

US—Robbins v Winters Creek Canal Co, supra

Power of directors to levy assessments see infra § 344

Power to make by-laws authorizing see supra § 342.

assessed against them,<sup>26</sup> towards the cost of construction and maintenance of the company's irrigation system, properly incurred,<sup>27</sup> and, when necessary, towards the mortgage<sup>28</sup> and other indebtedness of the company,<sup>29</sup> even though their shares are fully paid up, the statutory exemption from assessment on such stock referring to assessments on account of purchase price<sup>30</sup> Owners or purchasers of water shares are charged with knowledge that the water corporation, unless prohibited by its articles or bylaws, may levy assessment on the shares, either to pay costs of operation and maintenance directly or to repay money borrowed for such purposes<sup>31</sup>

Stockholders are exempt from assessment if, and to the extent that, it is so provided by the terms of their agreement made at the time they purchased the stock<sup>32</sup> or as consideration for the sale of property rights in the canal,<sup>33</sup> and owners of water rights are under obligation to contribute only their proportionate share of maintenance cost which would have been necessary had the canal not been enlarged beyond the limits contemplated at the time their water rights were purchased,<sup>34</sup> and may recover back any excess unjustly exacted under the compulsion of extreme and immediate necessity of water to save their crops<sup>35</sup> Where they voluntarily pay the assessments, however, they cannot later object to their validity<sup>36</sup> Where a part owner of a ditch with contract rights to the service at a guaranteed maximum charge refuses to become a stockholder in the ditch company organized to take over the ditch and operate it, and the company ratifies the owner's contract, and delivers water thereunder

for a number of years, it is bound thereby and may not recover for the service at the rate charged to strangers,<sup>37</sup> and where landowners constructed a ditch, and by custom, prior to incorporation, contributed to cost of maintenance above, but not below the point of diversion, the corporation cannot compel a coowner of the ditch, who refuses to join the corporation, to contribute on any other basis<sup>38</sup> Owners of water rights agreeing to become shareholders on a stated contingency may not be assessed where the contingency has not happened,<sup>39</sup> and they are not estopped to deny the happening of the contingency by attending a meeting, not as stockholders but as protesting owners of water rights<sup>40</sup> Assessments for maintenance of an irrigation system may be made on unsold water rights which, under its contract with the state, the construction company elected to retain when it turned over the property to the settlers' operating company.<sup>41</sup>

The statutory requirements as to amount and manner of the levy of an assessment must be complied with<sup>42</sup> Where stockholders of a water users' association continue to enjoy benefits of stock subscription contracts for years after formation of irrigation districts, they are not entitled to assert that such formation and other circumstances discharge them from liability for assessments subsequently levied by the court for payment of the association's debts<sup>43</sup> Under contracts whereby an irrigation company subscribes to a water users' association stock and mortgages property to the association and the United States, pursuant to an agreement between the association and the United States whereunder the United States builds an irrigation project, the

43. Idaho—Michaelson v Miller, 26 P 2d 378, 53 Idaho 617.

stock held by the company is properly assessed at the same rate as stock held by others, irrespective of whether the company receives equal benefits from the project<sup>44</sup> Where the controlling shares of a river company in a canal company have no water rights annexed thereto, and only the holders of stock with water rights receive benefits of assessments for maintenance of the canal, the river company cannot be required to pay such assessments, as a requirement to the contrary would be the equivalent of cancelling the river company's shares of stock which may have some potential value<sup>45</sup> Where an irrigation ditch company's stock is divided into different classes, entitled to different uses, and hence varying in benefits from ditch maintenance, a statutory mandate that assessments thereon be levied pro rata requires only equitable apportionment of cost between classes and the same assessment on each share in a given class<sup>46</sup>

The test of the validity of acts of a mutual water company directors in levying assessments is whether the levy was authorized by law and was necessary for the maintenance of the company, which decision as to the need for an assessment is to be made only by the directors<sup>47</sup> Where a statute forbids a distinction between classes of shares, and the articles of a mutual water company provide for assessability of its stock, a promise by the company to the stock purchaser that the stock will be nonassessable does not constitute an actionable fraud<sup>48</sup> Purchasers

of mutual water company's stock, claiming that representations were made that stock would be non-assessable, cannot rescind part of the contract and retain the benefits,<sup>49</sup> nor may a claim of fraud be made where there has been a ratification of the purchase contract<sup>50</sup> Where some stockholders in a ditch company which owns the main canal authorize the company to maintain and repair lateral canals owned by the stockholders, and agree to pay for work, labor, and materials, assessments made against the stockholders using water from the lateral canals in an amount greater than other stockholders and not prorated among all stockholders are illegal,<sup>51</sup> and assessments against the stockholders in pro rata proportion for the number of shares owned can be made only for the maintenance of the irrigation system, owned by the company, and may not include special benefits conferred on the lateral water users for extra work done because of the agreement<sup>52</sup> The conformance by a mutual water company with a statute relating to contents of certificates for shares is irrelevant in determining the liability of a shareholder for an assessment, who is not a transferee<sup>53</sup>

An assignee of a water right on which past assessments are due is not personally liable for such past assessments, unless expressly assumed,<sup>54</sup> and is under no duty to collect delinquent assessments so as to become personally liable<sup>55</sup> A river company obtaining an assignment of stock in a canal company

45. Wyo—Laramie Rivers Co v Watson, 241 P 2d 1080, 69 Wyo 333

46. Colo—Robinson v Booth-Orchard Grove Ditch Co, 31 P 2d 187, 94 Colo 515

**Method of assessment held proper**

Amendment of irrigation ditch company's articles of incorporation to permit assessment of three classes of stock based on water priority dates, according to benefits, was not violation of statute requiring pro rata assessments

Colo—Robinson v. Booth-Orchard Grove Ditch Co, supra

47. Cal—Watson v Santa Carmelita Mut Water Co, 137 P 2d 757, 58 Cal App 2d 709

**Intent to advance selfish interest irrelevant**

In determining validity of assessment it is irrelevant that the persons causing such levy might have intended to advance their selfish interests, where the assessments are

levied in accordance with statute and for a proper purpose

Cal—Watson v Santa Carmelita Mut Water Co, supra

48. Cal—Watson v Santa Carmelita Mut Water Co, supra

49. Cal—Watson v Santa Carmelita Mut Water Co, supra

50. Cal—Watson v Santa Carmelita Mut Water Co, supra

**Contract held ratified**

The reimbursement by purchasers of mutual water company's stock of assessments paid by the irrigation company, after knowledge of an alleged fraud, constitutes a ratification of the purchase contract, as against a contention that the reimbursement was an involuntary payment, because of threat of suit by the irrigation company

Cal—Watson v Santa Carmelita Mut Water Co, supra

51. Idaho—Hale v McCammon Ditch Co, 244 P 2d 151, 72 Idaho 478

**Proof of ownership of lateral canals**

(1) In action by some stockholders of ditch company to enjoin sale of stock for failure to pay unequal as-

sessments against them as lateral canal water users, wherein issue presented was ownership of laterals by which water was distributed to lands of stockholders, and corresponding duty of upkeep, stockholders had burden to prove company's ownership of laterals

Idaho—Hale v. McCammon Ditch Co, supra

(2) Documentary evidence including minutes of a stockholders' meeting, mortgages, a deed, and other documents did not support finding that lateral canal owners had transferred title to the lateral canals to the ditch company

Idaho—Hale v McCammon Ditch Co, supra

52. Idaho—Hale v. McCammon Ditch Co, supra

53. Cal—Watson v Santa Carmelita Mut Water Co, 137 P 2d 757, 58 Cal App 2d 709

55. Wyo—Laramie Rivers Co. v. Watson, supra

is not estopped to question the validity of a prior assessment on the stock by the fact that the holders of water rights paid such assessment, in so far as its duties are concerned <sup>56</sup>

*Refund of assessment* A provision in the articles of incorporation of a water users' association that every transfer of title to lands, to which shares of association's stock are appurtenant, shall operate as a transfer of all rights incident to ownership of such stock, does not affect the right of a stockholder, selling portions of land held thereby, to a refund of the amount of stock assessment previously paid by the holder <sup>57</sup>

*Water right applications to federal government* Where the federal government undertakes to provide irrigation works for the settlers on lands in an arid region, and establishes a reclamation project, and a water users' association is incorporated by the settlers to provide a centralized agency to represent them, a refusal of some stockholders of the association to execute water right applications to the federal government as required by a court decree entered by stipulation of the association and the United States does not release such stockholders from liability, under stock subscriptions and bylaws, to pay the association's debts, <sup>58</sup> nor does it terminate the stockholders' relation as stockholders, with respect to the right to make and enforce assessments against them <sup>59</sup> The government's release of obligations of, and liens against, stockholders of water users' association, created under water right applications, does not affect the stockholders' obligations to the association for payment of the association's debts other than those to the government <sup>60</sup>

*Enjoining collection of assessments.* A representative suit to enjoin collection of assessments by a mutual water company, for fraudulent misrepresentations made separately to plaintiff and other investors is not maintainable where there is lack of

privity of estate and no common ground between the parties <sup>61</sup> A complaint to enjoin collection of assessments by a mutual water company, on the ground of misrepresentations that the water stock would pay large dividends and would be nonassessable, fails to allege an actionable fraud, in the absence of a declaration that defendants had no intention of performing their promises. <sup>62</sup>

#### (b) Liens and Priority

Assessments do not become liens on anything until the assessments are actually made, and when made they become liens on the water stock itself rather than on the land, but an assessment for maintenance has been held to be a lien on the land where the stock is appurtenant to the land.

Assessments do not become liens on anything until the assessments are actually made, <sup>63</sup> and when made it has been held that the assessments become liens on the water stock itself rather than on the land, <sup>64</sup> although there is authority for the view that an assessment for maintenance is a lien on the land where stock is appurtenant to the land, <sup>65</sup> and is superior to the lien of a mortgage on the land. <sup>66</sup> The fact that, at the time a stock subscription contract for stock of a water users' association is signed by the stockholder, he holds land under a state land sale certificate and title is in the state, does not prevent the stockholder from providing for an assessment lien in such contract <sup>67</sup> A lien for the debts of a water users' association provided for in a stock subscription contract in favor of the association is not dependent on the validity of a lien created by such contract in favor of the federal government, or on the lien created by water right applications to the federal government <sup>68</sup>

*Community property.* Where wives of stockholders of a water users' association fail to join in the execution and acknowledgment of stock subscription contracts, it does not prevent community prop-

66. Idaho—Federal Land Bank of Spokane v Bissonnette, 4 P 2d 364, 51 Idaho 219

67. Idaho—Michaelson v Miller, 26 P 2d 378, 53 Idaho 617

68. Idaho—Michaelson v. Miller, *supra*

erty from being impressed with a lien for assessments to pay the association's debts <sup>69</sup>

*Priority as between construction and maintenance liens.* Under the terms of some statutes, it has been held that the construction lien held by the construction company on the water right and on the land on which the water is used is superior to a maintenance lien of the operating company <sup>70</sup>

### (c) Payment and Enforcement of Lien

A corporation may sue a stockholder to recover the amount of unpaid assessments, but under the terms of some statutes, foreclosure of the assessment lien has been held to be an exclusive remedy, and the existence of unpaid prior assessments, unenforced, a bar to the recovery of subsequent assessments against others.

A corporation may sue a stockholder to recover the amount of unpaid assessments,<sup>71</sup> but under the terms of some statutes, foreclosure of the assessment lien has been held to be an exclusive remedy,<sup>72</sup> and the existence of unpaid prior assessments, unenforced, a bar to the recovery of subsequent assessments against others <sup>73</sup> Where the liability to contribute is contractual, a stockholder in default is not entitled to demand and receive water until he has paid his share in full.<sup>74</sup> Where the construction costs incurred by a construction company are met by the sale of water rights, the company, to enforce the lien for payments due thereon, must show that its work conforms to statutory requirements.<sup>75</sup> An agreement by the company not to enforce payment of assessments on plaintiff's stock and a sale in breach of the agreement is ground for an action by the stockholder against the company,<sup>76</sup> and a stockholder may enjoin the company's enforcement of an assessment lien on the ground of nonperform-

ance of a condition on which the liability rested <sup>77</sup> Where the consumer assents to the terms of the contract between the state and the company, he cannot later question the cost of constructing the irrigation works as estimated in the state's contract.<sup>78</sup> An innocent purchaser from a water company of stock in a canal company without knowledge of the indebtedness due from the water company to the canal company on past assessments on stock would be free from any lien on his stock, and the majority of directors of the canal company which are elected by the purchaser who owns the controlling stock in the canal company would not be required to attempt collection of the assessment <sup>79</sup>

### § 344. — Officers and Agents

The offices, nature of duties, and manner of election thereto, must follow statutory requirements, and where the statute places the management of the corporation in the board of directors, and the articles and bylaws give the requisite authority, the board of directors may borrow money, execute mortgages, and perform other corporate functions without the vote of the stockholders, nor will the court substitute its judgment for that of the directors.

The offices, nature of duties, and manner of election thereto, must follow statutory requirements <sup>80</sup> Where the statute places the management of the corporation in the board of directors, and the articles and bylaws give the requisite authority, the board of directors may borrow money and execute mortgages without vote of the stockholders,<sup>81</sup> accept transfer of the irrigation system,<sup>82</sup> prohibit transfer of water from one tract to another,<sup>83</sup> vote stock held by the company in another irrigation company,<sup>84</sup> and levy assessments for maintenance of the irrigation system <sup>85</sup> A court will not sub-

85. Or.—Sears v Orchards Water Co, 236 P 502, 115 Or 291

Assessments for construction and maintenance see supra § 343 d (3)

stitute its judgment for that of the directors, but will interfere only where directors act without authority or fraudulently.<sup>86</sup> Under statutes granting power to directors to sell the entire property of the company if authorized by majority of stockholders in general or special meeting, a stockholders' meeting has been held not necessary where the majority have granted authority as a matter of fact.<sup>87</sup> Directors may not sell water rights on terms unfair to the corporation,<sup>88</sup> but their action may be ratified by the stockholders.<sup>89</sup> Nor may they change the ancient course of a canal against the consent of owners who would be injuriously affected thereby,<sup>90</sup> or construct a reservoir out of corporate funds for the exclusive use of a few stockholders only.<sup>91</sup>

Officers in charge of a canal company which is required to render its services to all holders of water rights at the same rate have the duty in fixing rates to seek to obtain profit for the company's services to the full extent compatible with the company's best interests.<sup>92</sup>

*Issuance of certificates.* An officer of a ditch company handling the transaction for issuance and reissuance of a certificate representing stock in the ditch company, is not required to take notice of writings contained on the certificate extraneous to the contents of certificates, which are necessary for him to know in order to perform his duties.<sup>93</sup> The issuance of a certificate by an officer lacking authority to sign such certificate, although it may constitute a defect, is cured by a subsequent reissuance by the proper officer to the purchaser's vendee.<sup>94</sup>

*Ratification.* Failure of the company's board of directors to question its president's authority to enter into a contract which is necessary for the proper maintenance and protection of the company's lands, when such contract is brought to its attention, constitutes an affirmation of the president's action.<sup>95</sup>

*Repudiation.* A water users' association, wishing to take advantage of its agent's lack of authority to

make a stipulation for the refund of cash, received by him in payment of a special stock assessment, must return the amount of the assessment to the one paying such assessment.<sup>96</sup>

*Resignation.* Resignation as secretary and treasurer of a mutual water company is not tantamount to or effective as a resignation as director where the resignation is never accepted and the officer actually continues to serve as director thereafter.<sup>97</sup>

*Meetings.* A valid special meeting of mutual water company's board of directors cannot be held unless a notice of the proposed meeting is given to each director or his waiver of notice is obtained and thereafter attached to the minutes of the meeting,<sup>98</sup> and in the absence of such notice to an absent director, a special meeting is not duly assembled, and its acts, including the levy of assessments, is not valid.<sup>99</sup>

*Disclosure of ballot.* In an action involving the question who was elected to an office, witnesses may be required to disclose for whom they voted, notwithstanding the charter requires a secret ballot.<sup>1</sup>

## § 345. — Corporate Powers and Liabilities

- a. In general
- b. Implied powers
- c. Ultra vires
- d. Contracts
- e. Conveyances
- f. Mortgages and bonds

### a. In General

Irrigation or ditch companies possess such powers as are conferred on them by statute, and may engage in such enterprises, and such only, as are set forth in the certificate of incorporation, and all other powers beyond those given are by implication excluded.

Irrigation or ditch companies possess such powers as are conferred on them by statute,<sup>2</sup> and may engage in such enterprises, and such only, as are

1. Ariz—Saylor v. Gray, 20 P 2d 441, 41 Ariz 558

2. Neb—Thirty Mile Canal Co. v Carskadon, 70 N W 2d 432, 160 Neb. 496.

set forth in the certificate of incorporation,<sup>3</sup> and all other powers beyond those given are by implication excluded.<sup>4</sup> They may acquire land,<sup>5</sup> subject to rights of others therein,<sup>6</sup> and sell land,<sup>7</sup> or a part interest in a dam.<sup>8</sup> They may sell and transfer the irrigation system as a whole, provided the rights of users of water are recognized and protected in the transfer;<sup>9</sup> the proviso having no application to a case where the users have exchanged their water rights for stock in the grantee corporation, thereby surrendering all claim against the corporation under their original rights,<sup>10</sup> or to a case where the users base their rights on their stockholdings in the grantor corporation, alleged to be a mutual company with interests of stockholders in the nature of an easement appurtenant to the land, where it appears that the grantor corporation was formed to supply water to the public, and that its capital stock was commercially valued.<sup>11</sup> A corporation owning a water supply, not dedicated to a public use, and distributing it among users who have easement rights to the water, may, with consent of all having water rights, dedicate it to a public use in order to make the service and terms of delivery subject to regulations and control by public authority.<sup>12</sup>

An irrigation company may not, however, act to the prejudice of the water rights of any one of its stockholders,<sup>13</sup> and it may not control running water except by legal appropriation thereof,<sup>14</sup> nor has it a right to connect with the ditches of another, or

take water therefrom, without statutory authority or the consent of the proprietor,<sup>15</sup> or to transfer its property to individuals without charter authority.<sup>16</sup> It may not contract with a subordinate company for surrender of its capital stock to it without consideration.<sup>17</sup>

A mutual water corporation, with articles of incorporation broad enough to include a right to have a system of distribution of its culinary waters, is empowered to handle the system in accordance with prevailing custom, and if in its management, the stockholders are treated fairly and equitably and their water rights, under such system, are neither damaged or impaired, there is no justification for complaint.<sup>18</sup> Giving to a mutual irrigation corporation the power to control, manage, and distribute water does not constitute a conveyance separating a water right appurtenant to land from the land and does not vest title or right of use in the corporation.<sup>19</sup>

Although a water users' association may not own the water which it furnishes to the lands of the shareholders for irrigation purposes, but may be merely the carrier of water for its shareholders, as is discussed *supra* § 339, the power to determine the source from which each shareholder shall be entitled to have his irrigation water may be delegated to the company by the shareholders.<sup>20</sup> A water users' association, having a right to furnish member landowners with irrigation water consisting of

**Means of regulation held proper**

Corporation was authorized by proper action at stockholders' and directors' meeting to require its stockholders to pay for excess water at the cost to corporation and to compel stockholders to install meters at their own expense in order to check on water used by individual stockholder

Utah—Big Cottonwood Tanner Ditch Co v Kay, *supra*

19. Utah—East River Bottom Water Co v Boyce, 128 P 2d 277, 102 Utah 149

20. Ariz—Adams v Salt River Valley Water Users' Ass'n, 89 P 2d 1060, 53 Ariz 374.

commingled water appropriated from normal flow of stream, stored water, and pump water, may not be required to cease giving certain landowners pump water containing harmful salt where they are given pump water because of location of their lands, and use of larger amounts of pump water than river water would render salt harmless.<sup>21</sup> In the case of inequalities resulting from furnishing pump water to certain landowners, the courts should not interfere by suggesting steps to be taken or appointing a water commissioner to supervise delivery of water under supervision of the court, where the association is better qualified for the task and can deliver water more economically and efficiently.<sup>22</sup>

*Refusal to deliver* An irrigation company's articles of incorporation providing for the construction and maintenance of a canal for the conducting of water from a certain stream to a named town, and for the distribution of water to stockholders in proportion to stock ownership does not warrant a refusal to deliver to a stockholder his proportionate share of water on land along the canal system on the ground that the articles of incorporation limit delivery to land in the vicinity of the town,<sup>23</sup> especially where the water rights were conveyed to the corporation in return for stock certificates and there is a uniform conduct on the part of the corporation in distributing water to stockholders in accordance with such ownership.<sup>24</sup>

*Representation by officers and agents* An irrigation corporation is liable for acts of its officers and agents within the scope of their authority.<sup>25</sup>

*Right to petition for changing point of diversion* Under a statute authorizing a petition for changing the point of diversion to be brought by the person or corporation having the right to use the water, an incorporated mutual ditch company may petition, acting as trustee for its stockholders, where the right to use the water is in the stockholders and not in the corporation.<sup>26</sup>

### b. Implied Powers

In the absence of express restrictions, incorporated irrigation companies have the implied power to do acts that may be necessary to enable them to exercise the powers expressly conferred and to accomplish the objects for which they were created.

In accordance with the general rule, stated in Corporations § 945, that, in the absence of express restrictions, corporations have the implied power to do all acts that may be necessary to enable them to exercise the powers expressly conferred and to accomplish the objects for which they were created, irrigation companies, subject to charter restrictions, may borrow money to finance an authorized project,<sup>27</sup> or may guarantee bonds issued therefor.<sup>28</sup> A power to sell water rights is implied from an express power to construct and operate a ditch and to acquire and own water rights,<sup>29</sup> a power to carry water is implied from the power to construct canals,<sup>30</sup> a power to construct dams, from the power to construct power houses and transmission lines,<sup>31</sup> and a power to contract with another corporation for drainage of waste water and use outside of its own territory, from a power to make contracts that are necessary and proper to carry on the business.<sup>32</sup>

### c. Ultra Vires

The claim that an irrigation company has acted outside its powers can be set up only by the state and only in a direct proceeding for that purpose, and stockholders who may have received benefits from expenditures by the company with knowledge of the circumstances under which they were made, are estopped to contend that they were ultra vires. Whether or not a contract is ultra vires depends on whether in entering the contract the company acted within the reasonable scope of its powers.

The claim that an irrigation company has acted outside its powers can be set up only by the state and only in a direct proceeding for that purpose,<sup>33</sup> and stockholders who received benefits from expenditures by the company with knowledge of the circumstances under which they were made, are estopped to contend that they were ultra vires.<sup>34</sup>

34. Idaho—Hansen v Woods, 290 P. 379, 49 Idaho 656.

Whether or not a contract entered into by an irrigation company is ultra vires depends on whether in entering the contract it acted within the reasonable scope of its powers,<sup>35</sup> irrespective of the question of excessive indebtedness of the company at the time of entering into its contractual obligation.<sup>36</sup> An irrigation company's contract, made by its president, who has the sole management of its affairs, with the consent of its board of directors, for the protection and proper maintenance of the company's

lands, is not an ultra vires action on the part of the president.<sup>37</sup>

#### d. Contracts

A mutual irrigation corporation may properly enter into contracts which are reasonable and not beyond its corporate powers, and which are necessary or expedient in the protection, care, and management of its property.

A mutual irrigation corporation may properly enter into contracts which are reasonable and not beyond its corporate powers,<sup>38</sup> and which are necessary or expedient in the protection, care, and man-

#### Benefits received by irrigation company

Where protective association fully performed contract with reservoir company by withdrawing its protest, and reservoir company accepted the fruits thereof in that it was relieved from hazard of not obtaining approval of use of particular lake and secured approval without necessity of a hearing, reservoir company was estopped to set up any claim of ultra vires or invalidity of contract which restricted its use of lake for the protection of littoral owners. Idaho—Payette Lakes Protective Ass'n v Lake Reservoir Co, 189 P 2d 1009, 68 Idaho 111.

35. Colo—Kurtz v Reorganized Catlin Canal Co, 41 P 2d 239, 96 Colo 227.

Contract held not ultra vires, in view of broad purposes of company as set forth in its articles. Colo—Kurtz v Reorganized Catlin Canal Co, supra.

#### Contract held ultra vires

Utah—Zion's Sav Bank & Trust Co v Tropic & East Fork Irr Co, 126 P 2d 1053, 102 Utah 101.

#### Estoppel

Where irrigation company entered into ultra vires contract for purchase of water rights and executed note therefor, and vendor executed quitclaim deed conveying his interest in the water, the company was estopped to set up defense of ultra vires in an action on purchase money note if the vendor had any interest in the water that he could convey, and the company by the conveyance received right to use the water, and was not so estopped if the vendor had no such interest. Utah—Zion's Sav Bank & Trust Co v Tropic & East Fork Irr Co, supra.

36. Neb—Drainage Dist No 2 of Dawson County v Dawson County Irr Co, 2 NW 2d 321, 140 Neb 866.

37. Neb—Drainage Dist No 2 of Dawson County v Dawson County Irr Co, supra.

38. Utah—Fower v. Provo Bench Canal & Irrigation Co, 101 P 2d

375, 99 Utah 267, certiorari denied 61 S Ct 841, 313 US 564, 85 L Ed 1523.

Contracts with users for supply of water see infra § 361.

Liabilities on contracts for supply of water see infra § 366.

Ultra vires contracts see supra subdivision c of this section.

#### Contract held reasonable

(1) A contract whereby mutual irrigation company agreed to buy stock in water users' association, to pay assessments on its stock to cover operation, maintenance, and any deficiency caused by other subscribers' defaults, and to deliver mortgage as security to guaranty performance. Utah—Fower v Provo Bench Canal & Irrigation Co, supra.

(2) Amendatory contract between water users association and United States, which provided that repayment of cost of irrigation project could be extended and which reduced assessments on water users association stock, the contract being authorized by stockholders and being ratified by directors after their qualification. Utah—South Cache Water Users Ass'n v. Stockholders of South Cache Water Users Ass'n, 272 P 2d 591, 2 Utah 2d 300.

(3) Contract between reservoir company and protective association relating to its restrictive use of a lake as a reservoir, particularly with reference to water levels. Idaho—Payette Lakes Protective Ass'n v Lake Reservoir Co, 189 P 2d 1009, 68 Idaho 111.

#### Contract for merger

(1) A contract for merger entered into by two canal companies calling for diversion of water at source of first company because of prior destruction of diversion facilities of second, and expressly providing that the new stockholders in the first company, consisting of former stockholders in the second, should be given the same amount of water per acre in a given year as old stockholders, is not at variance with a prior decree of a federal court allotting annually to all parties not

to exceed six acre feet per acre, even though the new stockholders are charged with water loss because of extension of the canal, when the federal decree provides that a user should be charged with conveyance loss from the point of diversion. Ariz—Skinner v Graham Canal Co, 266 P 2d 392, 77 Ariz 5, 267 P 2d 1074, 77 Ariz 137.

(2) Where the contract expressly provides that the new stockholders shall be given the same amount of water per acre in a given year as the old stockholders, and expressly governs the distribution of water when water is on turns, it is binding on the parties if, when properly construed and enforced, it will accomplish reasonable equality, as intended by the parties. Ariz—Skinner v Graham Canal Co, supra.

(3) Such contract did not result in unequal distribution when construed as contemplating delivery to new stockholders after depletion by transmission loss a stream of equal size as that delivered to old stockholders before depletion but for one-minute less length of time. Ariz—Skinner v Graham Canal Co, supra.

#### Maintenance and repair of lateral canals

(1) Where some stockholders of a ditch company authorize the company by written agreement to maintain and repair their lateral canals connected with the company's main canal and agree to pay a pro rata share for work, labor, and materials, the company may recover on the contract. Idaho—Hale v McCammon Ditch Co, 244 P 2d 151, 72 Idaho 478.

(2) Such a contract would impose a duty on the company to turn into each of the laterals the total quantity of water to which the stockholders using water from that particular lateral are entitled, and although seepage and evaporation losses from the main canal owned by the ditch company is borne proportionately by all the stockholders, any seepage and loss of water by evaporation from the point at which

agement of its property,<sup>39</sup> and the fact that contracts of the corporation extend beyond the present legally authorized period of its existence in no way affects their validity<sup>40</sup> No liability attaches to an irrigation company under a contract making liability dependent on a contingency which never happened,<sup>41</sup> nor does an agreement by a construction company to turn over its property to a mutual company of settlers on a certain date operate as a transfer of title on that date where the mutual company had not then been formed<sup>42</sup>

A construction company, under contract with an irrigation district to construct a canal, may assign the contract to another without consent of the district, where the contract calls simply for a completed system and it is immaterial by whom it is completed.<sup>43</sup> Sufficiency of performance of a construction contract by an irrigation company is proved, where a substantial compliance,<sup>44</sup> or offer to comply,<sup>45</sup> with its terms is shown, and no liability attaches to the company for failure to carry the construction beyond the point stipulated in the contract,<sup>46</sup> or for failure to discharge a burden not assumed.<sup>47</sup>

Although the terms of a contract for the construction of a drainage canal are to be given effect,<sup>48</sup>

the making and approval for payment by the irrigation company's engineer of monthly estimates of work done in construction of the canal after terminus fixed by the contract is reached constitutes an approval and acceptance of the work done up to such terminus, notwithstanding a failure of the engineer to issue a final certificate of completion of the work as provided by the contract<sup>49</sup> An irrigation company, paying without question its engineer's monthly estimates for excavating a drainage canal beyond the terminus fixed by a written construction contract is estopped to deny its ratification of the engineer's oral contract for continuance of the work,<sup>50</sup> and in the absence of any specific limit as to where the work should stop, where the company informs the workmen employed by the contractor, that it would pay him no more money and that they continue the work at their risk, it is equivalent, in legal effect, to a notification to the contractor to stop work, so as to entitle him to recover for work theretofore done,<sup>51</sup> provided that he produces an engineer's certificate of completion of the additional work in accordance with the terms of the original written contract, or shows a capricious or arbitrary refusal thereof.<sup>52</sup> Failure of the one constructing the canal to furnish vouchers showing payment for all work and materials, as provided by the contract,

the water is turned into the laterals would have to be borne only by the individual users of the various laterals

Idaho—Hale v. McCammon Ditch Co, supra

39. Neb.—Drainage Dist No 2 of Dawson County v. Dawson County Irr Co, 2 NW 2d 321, 140 Neb 866

#### Contract held proper

(1) An irrigation company, authorized by its articles of incorporation to construct, use, operate, and maintain one or more ditches or canals, had power to enter into contract with drainage district for placing of pipe under company's main canal and drainage of its lands by district in order to remove accumulation of flood and seepage waters caused by company's ditch and avoid damage to its property and liability to others

Neb.—Drainage Dist No 2 of Dawson County v Dawson County Irr Co, supra

(2) Where water users association caused irrigation district to be organized under statute as its alter ego to issue bonds, turn proceeds over to association, and levy necessary taxes to pay bonds, so that association could pay off outstanding debt, and association agreed to collect from its members sum sufficient

to reimburse district for amount of taxes required to be levied, refinancing of association's debt was sufficient consideration for contract Ariz—Reichenberger v Salt River Project Agr Improvement and Power Dist, 70 P 2d 452, 50 Ariz 144

(3) Under statute providing for a hearing on water appropriator's application to make final proof and enjoining protests, forbearance by protective association, the membership of which was composed largely of littoral owners, by the withdrawal of association's protest was a good and valid consideration for contract by which reservoir company agreed to maintain lake to be used as reservoir between fixed levels and not to interfere with seasonal uses of lake by littoral owners

67 C J p 1373 note 86

48. Ariz—Gillespie Land & Irrigation Co. v Hamilton, 29 P 2d 158, 43 Ariz 102

49. Ariz—Gillespie Land & Irrigation Co. v Hamilton, supra

50. Ariz—Gillespie Land & Irrigation Co v Hamilton, supra

**Evidence held sufficient to justify finding of oral contract**  
Ariz—Gillespie Land & Irrigation Co. v Hamilton, supra

51. Ariz—Gillespie Land & Irrigation Co. v Hamilton, supra

52. Ariz—Gillespie Land & Irrigation Co. v. Hamilton, supra

does not defeat his cause of action for the balance due him, where no liens therefor existed and the time for filing liens is past<sup>53</sup> One completing construction of a drainage canal, approved by an engineer as required by the contract, before flood partially filled canal with silt, leaving much of the bottom above grade, cannot be held responsible for such condition,<sup>54</sup> and one contracting to construct one cross section of a drainage canal and accepting partial payment on the basis of the engineer's estimates of the amount of excavation required therefor without objection until the work is finally terminated is not entitled to recover for any additional excavation exceeding that required by the contract.<sup>55</sup>

An incorporated water users' association, acting for its members, may contract with the United States for a supply of water to the district,<sup>56</sup> or one community ditch corporation may contract to enlarge the ditch of another community corporation, the two corporations to exercise a joint control and management of the enlarged portion thereafter<sup>57</sup> A contract between irrigation companies relating to distribution of water, after a decree of a court has been entered, does not lack consideration or rest on an illegal consideration, where the parties were engaged in litigation and made mutual concessions, and there is no showing that the companies disregarded the interest of their stockholders, and the contract is not attended with a public interest<sup>58</sup> Under a contract reserving to landowners becoming members of a mutual water users' association all of their vested rights to the use of water for irrigation, the source of supply of the water is immaterial as long as the water is fit and suitable for irrigation, and the landowners have no right to delivery of water from the same source or at the original point of diversion,<sup>59</sup> and the association has the right to furnish irrigation water consisting of commingled water appropriated from the normal

flow of the stream, stored water, and pump water.<sup>60</sup> Where a contract between a mutual water users' association and landowners becoming members thereof gives the association a right in its sound discretion, to pump underground water for irrigation and drainage purposes, the association may pump water from land without limiting itself to the quantity necessary for drainage, as long as no more water is pumped than is needed for irrigation purposes<sup>61</sup>

The terms of an irrigation company's agreement as to priority of water rights shall be given effect, and will not be modified by any recitals in the contract which would have the effect of nullifying the agreement,<sup>62</sup> nor will any distinction be made between seepage water and other water of a natural stream in determining the irrigation companies' rights under the contract<sup>63</sup> A contract reserving to landowners becoming members of a mutual water users association all of their vested right to the use of water for irrigation means the use of water which is equivalent to the river flow.<sup>64</sup> The right of a mutual water users' association to furnish its members irrigation water consisting of commingled water appropriated from normal flow of stream, stored water, and pump water, cannot be interfered with, where the association and its members had so construed the contract between them, for a long period of time as authorizing the commingling,<sup>65</sup> even though the contract requires the association to give them service equal to the like service furnished the lands of other members, where such water is uniformly furnished the other members<sup>66</sup>

*Approval by stockholders* Stockholders of an irrigation company cannot attack a contract entered into by the company with respect to distribution of water, where after execution of the contract attacked, they approve a contract which provides for the protection of rights under the original contract,<sup>67</sup> and where no action is taken for a long

61. Ariz—Adams v Salt River Valley Water Users' Ass'n, *supra*.

62. Colo—Las Animas Consol Canal Co v Hinderlider, 68 P 2d 564, 100 Colo 508

#### Normal high water level

Where contract between protective association composed primarily of littoral owners, and reservoir company permitted reservoir company to maintain waters in lake to normal high water level the contract did not mean the highest level to which water naturally raised prior to contract for a sufficient length of time to make a mark but to the normal or

average height water reached at its highest stages during the years Idaho—Payette Lakes Protective Ass'n v Lake Reservoir Co, 189 P 2d 1009, 68 Idaho 111

63. Colo—Las Animas Consol Canal Co v Hinderlider, 68 P 2d 564, 100 Colo 508

66. Ariz—Adams v Salt River Valley Water Users' Ass'n, *supra*

67. Colo—Kurtz v Reorganized Catlin Canal Co, 41 P 2d 239, 96 Colo 227.

period of time after execution of the contract attacked they may be barred by laches <sup>68</sup>

### e. Conveyances

A purchaser of a water company with notice, actual or constructive, of prior contracts to furnish water is bound by such contracts, but an unacknowledged contract to furnish water is not record notice to the purchaser, although lateral ditches that can be seen constitute constructive notice.

A purchaser of a water company with notice, actual or constructive, of prior contracts to furnish water is bound by such contracts <sup>69</sup> An unacknowledged contract to furnish water is not record notice to the purchaser of its existence, even though filed in the registry, <sup>70</sup> but lateral ditches that can be seen constitute constructive notice, <sup>71</sup> and a corporation organized for the purpose of taking over an irrigation system is chargeable with knowledge of contracts for supply of water made by its predecessor <sup>72</sup> A deed from the construction company to the operating company, under the Carey Act, conveys title to the operating company, <sup>73</sup> and where the works as soon as completed had been turned over to the operating company prior to the conveyance by deed, the operating company was the equitable owner of the system as trustee for the settlers and landowners within the project <sup>74</sup>

### f. Mortgages and Bonds

An irrigation company may generally mortgage its property, but a construction company, under contract to deliver its property to purchasers of water rights after completion, can mortgage only subject to the contract, and the mortgagee takes no greater rights than the mortgagor can transfer.

An irrigation company may generally mortgage its property, <sup>75</sup> but a construction company, under contract to deliver its property to purchasers of

water rights after completion, can mortgage only subject to the contract, <sup>76</sup> and the mortgagee takes no greater rights than the mortgagor can transfer <sup>77</sup> The mortgagee takes title subject to declarations of trust therein by the mortgagor in favor of subsequent vendees of water rights, <sup>78</sup> and subject to existing contracts with owners of water rights, <sup>79</sup> but he does not thereby guarantee their performance <sup>80</sup> The mortgage, by its terms covering after-acquired property, covers lands sold by mortgagor and subsequently repurchased at foreclosure sale under the purchase money mortgage <sup>81</sup> A purchaser at foreclosure of a mortgage on property of an incorporated irrigation company acquires title to the property, subject to statutory reservations that the water still remains appurtenant to the lands of owners who had paid the water rates <sup>82</sup>

The fact that bonds of the corporation extend beyond the present legally authorized period of its existence in no way affects their validity <sup>83</sup> An irrigation district may not set up as a defense to liability on its bonds the nonperformance by the purchaser of the conditions on which they were bought where it appears that the district, with knowledge of facts, waived performance <sup>84</sup>

## § 346. — Insolvency and Receivers, Reorganization, and Dissolution

Irrigation and ditch companies may, when the circumstances of the case warrant, be subject to receivership, reorganization, and dissolution

It is not mismanagement justifying appointment of receiver for the managing officer of a corporation operating an irrigation system to fail to keep canals clean, where corporate funds for the purpose were not available and the canals, even in their present condition, were adequate, <sup>85</sup> or for him

68. Colo—Kurtz v. Reorganized Catlin Canal Co, *supra*

to fail to develop acreage in a time of severe agricultural depression,<sup>86</sup> or for him to fail to re-finance the project, in the absence of evidence of bad faith or unreasonableness in management<sup>87</sup> Title to water flowing in the canals, constituting real property of the canal company, vests in the receiver of such company<sup>88</sup> The receiver has no right to repudiate a contract which has been executed and under which rights have vested<sup>89</sup>

A water right appurtenant to land is not a claim against an insolvent irrigation company, within the meaning of a receivership statute requiring presentation of claims after published notice to all claimants,<sup>90</sup> or within the meaning of a notice, in a receivership proceeding ancillary to the foreclosure of a mortgage on an irrigation system, to all persons having claims of any character and ordering them to intervene<sup>91</sup> Nor will the owner of a water right, who is not a party to proceedings foreclosing a mortgage of the irrigation company's property and placing the same in hands of a receiver, for sale, be affected by the receiver's sale free of encumbrances and water rights<sup>92</sup> A petitioner for receivership of an irrigation company in the interest of minority stockholders, who alleges that a receivership would remedy the depreciation of his property, cannot in the same proceedings claim damages for a permanent depreciation of his land due to the company's failure to supply water<sup>93</sup>

*Reorganization.* Under laws allowing reorganization by purchasers at foreclosure sale of property of the old corporation, a foreclosure sale of property of an irrigation corporation, which conforms to statutory requirements, will not be set aside on charges of fraud, where the facts alleged are consistent with there being an entire absence of fraud,<sup>94</sup> it not being sufficient to allege inadequacy of price paid at the sale, in absence of allegations of facts showing the price paid to have been the result of fraud,<sup>95</sup> or

to allege that stockholders refusing to pay assessments, thereby causing foreclosure, were themselves bondholders requesting foreclosure and stockholders in the new corporation purchasing at foreclosure sale, in the absence of allegations denying that foreclosure was the act of a majority of bondholders acting in good faith<sup>96</sup>

*Dissolution* An irrigation company organized as a private corporation may, under a statute, be declared to be dissolved for failure to comply with statutory requirements as to filing of annual reports<sup>97</sup> On dissolution of a water company in which ownership of stock follows ownership of land, one who fails in suit to quiet title to the land has no right to the liquidating dividend paid on account of the stock<sup>98</sup>

## § 347. Quasi-Public Corporations

- a. Definition and status of corporation as quasi-public

### a. Definition and Status of Corporation as Quasi-Public

For purposes of exercising its regulatory powers, the state may restrict the definition of quasi-public corporations to corporations organized for enumerated purposes, in which case an irrigation company, if outside the enumeration, is not a quasi-public corporation subject to regulation by public authority On the other hand, under various circumstances, irrigation companies have been held to be quasi-public corporations.

For purposes of exercising its regulatory powers, the state may restrict the definition of quasi-public corporations to corporations organized for enumerated purposes in which case an irrigation company, if outside the enumeration, is not a quasi-public corporation subject to regulation by public authority<sup>99</sup> A corporate status as quasi-public has been held to attach to a corporation which furnishes water to the public generally,<sup>1</sup> even though it

**Possession of secondary franchise** by irrigation company to be corporation and to conduct business requiring no franchise from state does not make possessor a "public utility," or "public service corporation" or "quasi public corporation"  
La.—State ex rel Coco v Riverside Irr Co, supra

1. Cal.—Samuel Edwards Associates v. Railroad Commission of California, 235 P 647, 196 Cal 62  
67 C J p 1375 note 34

offers for public use only the surplus water in its ditches after supplying the needs of its stockholders,<sup>2</sup> or even though it limits the territory reached by its service,<sup>3</sup> and to corporations for promotion and construction of an irrigation system to be turned over to purchasers of water rights after its completion,<sup>4</sup> even though its primary object is to make profits for its organizers.<sup>5</sup> A canal company organized to carry and distribute irrigation water is of the nature of a public service corporation,<sup>6</sup> and a corporation organized to deliver water from a public stream to all landowners within a designated territory applying and paying therefor, but which does not own, by appropriation or otherwise, the water it carries, is regarded as a quasi-public corporation under public duty to carry and deliver water to users who have the water rights by appropriation,<sup>7</sup> regardless of the ownership of stock in the company,<sup>8</sup> and no liability on its part can exist on the theory that it is under the same obligation as a common carrier in respect to the water it undertakes to supply.<sup>9</sup> An irrigation company may be within the statutory definition of a public utility, even though it is privately owned,<sup>10</sup> and managed for profit,<sup>11</sup> has charged different rates to users,<sup>12</sup> and has never been regulated by the county boards,<sup>13</sup> or itself uses for its own pur-

poses most of the water which it furnishes,<sup>14</sup> or has never intended to hold itself out as a public utility, provided the nature of the business carried on is that of a public utility.<sup>15</sup> Nor does its status as a public utility depend on the validity of the title under which it holds its property.<sup>16</sup>

The fact that the irrigation company had purchased water rights from a private riparian owner does not exempt the company from regulation as a quasi-public corporation, where it had been organized under the irrigation statutes, and given the right of eminent domain.<sup>17</sup> Some courts hold that where the power of eminent domain is granted to the corporation, its status as a quasi-public corporation is fixed, regardless of whether it exercises the power or not.<sup>18</sup> In other jurisdictions it is held that the status of an irrigation corporation as quasi-public is not fixed by declarations of the original appropriators of the water as to the purposes of the appropriation,<sup>19</sup> or by the mere posting of notices of appropriation by the company,<sup>20</sup> or by the statement of purposes in the articles of incorporation of the corporation formed by them,<sup>21</sup> or by the mere grant of its chartered powers,<sup>22</sup> but that such status is established by organizing the corporation and proceeding to exercise the powers thus declared,<sup>23</sup> and not until then,<sup>24</sup> since, al-

though incorporated under the general laws as a public corporation, the stockholders of an irrigation ditch corporation may so limit operative policy as to convert their corporation into a private or mutual company.<sup>25</sup>

### b. Rights, Powers, and Duties

A quasi-public irrigation company is charged with certain duties to the public by reason of the powers and privileges conferred on it, and it must exercise its rights and privileges fairly, equitably, and impartially as between its patrons.

A quasi-public irrigation company is charged with certain duties to the public by reason of the powers and privileges conferred on it, and it must exercise its rights and privileges, fairly, equitably, and impartially as between its patrons.<sup>26</sup> Where a corporation serves the general public indiscriminately instead of confining its service to its own stockholders its property cannot be taken and sold on execution,<sup>27</sup> nor may the company transfer its property without the approval of the public authority designated by statute applicable thereto.<sup>28</sup> The rights and duties of a canal company of the nature of a public service corporation are modified by the nature of its functions, although it cannot serve the public generally, but only the occupiers of land lying under its ditch.<sup>29</sup>

*Conveyance of a particular tract of land* within a district of an improvement company organized to supply mutual water service vests in the purchaser, not only the title to the land, but also the right to use water appurtenant thereto, and to have it delivered to him by the company.<sup>30</sup>

*Issuance of bonds* Negotiable bonds, executed by a quasi-public district improvement company formed to supply mutual water service by landowners who unanimously adopt a resolution authoriz-

ing issuance of bonds, are not invalid because the landowners may have failed to employ an engineer to investigate the advisability and cost of the proposed construction as required by statute, prior to adoption of the resolution, since the landowners by their unanimous action waive any right to such protection,<sup>31</sup> and are estopped to deny the validity of the bonds which are purchased in good faith and without knowledge of any irregularity.<sup>32</sup> Negotiable bonds issued with a recital that the statutory provisions authorizing their issuance have been fully complied with renders them valid in the hands of a holder in due course, even though there may have been some irregularity in compliance with the statute.<sup>33</sup> Where the statute under which the company is organized, confers a right to a lien for any indebtedness of the company, even though a negotiable bond may be invalid due to an irregularity in its issuance, the lien of the holder of the negotiable bond would be affected only to the extent of the difference between what the holder paid for the bond and its face value.<sup>34</sup> Negotiable bonds of the company have priority over a subsequent mortgage, since the mortgagee takes with constructive notice of the records of the county wherein the land is located, which discloses the lien created by the bonds.<sup>35</sup> A tax sale of land within a district of an improvement company does not discharge the lands from liens of prior negotiable bonds issued by the company.<sup>36</sup>

### c. Forfeiture of Charter

Where a quasi-public water company has forfeited its charter, those who continue its management as trustees are trustees to continue the public use to which the waters had been dedicated, in the absence of evidence showing a revocation of the dedication with consent of all the beneficiaries of such use. A public service commis-

sion may cancel the franchise of a corporation of a public or quasi-public nature

Where a quasi-public water company has forfeited its charter, those who continue its management as trustees are trustees to continue the public use to which the waters had been dedicated, in the absence of evidence showing a revocation of the dedication with consent of all the beneficia-

ries of such use.<sup>37</sup> A public service commission having jurisdiction to cancel a franchise may do so where the franchise is terminable for breach of condition, notwithstanding that the franchise owner is not a public service corporation, where in the exercise of its functions it acts in a public or quasi-public nature<sup>38</sup>

#### D. IRRIGATION WORKS, AND RIGHTS APPURTENANT THERETO

##### § 348. Acquisition of Water Rights

- a By legislative grant
- b By appropriation
- c. By prescription, contract, or purchase

###### a. By Legislative Grant

A company or irrigation district may acquire water rights by legislative grant, but the rights acquired are subject to statutory provisions with respect to prior appropriations, and to the rights of riparian owners

Water or water rights required for the maintenance of an irrigation project may be acquired by the irrigation district or company by legislative grant;<sup>39</sup> but, under the act of congress recognizing and protecting prior appropriators under state laws, the grant, to be effective as against subsequent appropriators of the same water, must be followed by an actual appropriation and application of the waters to a beneficial use prior to the other appropriations.<sup>40</sup> Such grant, although operative to convey rights in streams on public lands, does not operate as a conveyance to the grantee of a right to control or manage waters anywhere within the jurisdiction in disregard of the rights of individual claimants,<sup>41</sup> and it does not, of itself, con-

vey any privately owned rights,<sup>42</sup> but such rights must still be acquired from the riparian proprietors by purchase or condemnation.<sup>43</sup>

###### b. By Appropriation

An irrigation district or company may acquire a water supply by appropriation under the same rules which govern appropriation by private persons, and may, under statutes, have rights appurtenant to particular land transferred to other lands, subject to constitutional and statutory limitations and outstanding rights.

An irrigation district or company may acquire a water supply for its purposes by a lawful appropriation of streams on the public domain, under the rules which govern appropriations by private persons,<sup>44</sup> and may, under the statute, have rights appurtenant to particular land transferred to other lands,<sup>45</sup> subject to constitutional and statutory limitations,<sup>46</sup> and to the existing rights of prior appropriators,<sup>47</sup> or other rights outstanding<sup>48</sup>

*Seepage waters from constructed works* Under a statute seepage water from "constructed works," for which public waters have been appropriated, is also subject to appropriation, in the first instance, by the owner of the works if he appropriates with-

in one year after completion of the works,<sup>49</sup> and, if not, then by anyone desiring to appropriate, on payment of charges for storage and carriage, provided the seepage water can be traced to the owner's works,<sup>50</sup> and reservoirs and ditches are "constructed works" within the meaning of this statutory rule.<sup>51</sup>

*Return waters* In accord with general principles with respect to return waters discussed supra § 185, and abandonment, discussed supra § 193, the owner of an irrigation project has an interest in appropriative rights to the extent of obtaining the fullest use for the project and may retain control over the water until abandonment,<sup>52</sup> but when return flows are abandoned, they become subject to appropriation downstream and are no longer subject to control for further use in the project.<sup>53</sup>

*Storage and direct irrigation, priorities* An appropriation may be for water storage or for direct irrigation,<sup>54</sup> statutes in some states providing for primary reservoir permits which do not include the right to divert and use the stored water,<sup>55</sup> and secondary permits for its use in direct irrigation.<sup>56</sup> Where the owners of the reservoir site are themselves the appropriators and utilize the site for the purpose of effecting the appropriation, they have dedicated it to that purpose and it be-

comes an integral part of the water right, and is included in a deed conveying land and water rights appurtenant thereto.<sup>57</sup> Rights as between conflicting claimants are determined by priority of appropriation,<sup>58</sup> and the appropriation of water by an irrigation corporation follows the same general rule as to the priority of right, as though the appropriation was made by an individual.<sup>59</sup> An owner who establishes an appropriation for direct irrigation prior in time to an appropriation for storage is entitled to direct irrigation to the extent of his appropriation without diversion for storage,<sup>60</sup> and one who seeks to enforce an alleged right to have the waters diverted to storage as against an appropriator for direct irrigation must establish the priority of his appropriation.<sup>61</sup> He cannot do so by showing a custom dividing the year into direct irrigation and storage seasons in conflict with statutory provisions,<sup>62</sup> or by proving an agreement of other appropriators for a division of the year in accordance with such alleged custom.<sup>63</sup> A subsequent appropriator may, however, store waters not used by the prior appropriator for direct irrigation.<sup>64</sup>

When the owners of upper and lower reservoirs are entitled to particular shares of the water of a stream, they may determine by agreement the methods of diversion to be used.<sup>65</sup>

Idaho—Knutson v Huggins, supra

65. Utah—Watson v Deseret Irr Co, 169 P2d 793, 110 Utah 78

**Agreement construed**

Where agreement provided that river commissioners should after January 1st of each year release from upper storage reservoir for

When water has been diverted from a stream and stored in a reservoir it is no longer "public water" but is the property of the appropriator, impressed with a public trust to apply it to beneficial use.<sup>66</sup> If the reservoir owner owns land subject to irrigation from the reservoir, he may apply it to his own land, or sell it to others, or both, according to the priority of their applications,<sup>67</sup> but he may not waste water, or withhold it from persons who make application to rent it.<sup>68</sup>

*Proceedings to effect appropriation.* Under a statute providing for primary permits for storage of water in reservoirs and secondary permits for use of specified portions of the stored water of applicant's land, the use of water on particular lands, not its promiscuous sale, is the ultimate purpose,<sup>69</sup> and an appropriation of water for irrigation purposes cannot be made except under a permit for which application must be made.<sup>70</sup> A reservoir company may supply water to lands not originally included in the reservoir project provided the total of lands to be supplied does not exceed the total permitted by its permits.<sup>71</sup> Jurisdiction of the application and proceedings thereunder are regulated by statute, and must conform thereto.<sup>72</sup> The issue under such an application involves the public interest, and not merely the private interests of applicant.<sup>73</sup> The power of the governmental en-

gineer to reject an application as being contrary to the public interest is not limited to cases in which the project is shown to be a menace to the public health,<sup>74</sup> but consideration may and should be given to such questions as the soundness of the enterprise, the availability of unappropriated water and its sufficiency in volume to serve adequately the proposed district, the proposed cost of the service per acre, and the uses to which the water is to be put.<sup>75</sup> As between rival groups of applicants, the decision is therefore based, not on priority in the filing of applications, but on their comparative merit in view of these questions of public interest involved.<sup>76</sup> The fact that one group consists of the settlers who are to use the water should be given consideration, but it is not controlling if other circumstances favoring the public interest, exist,<sup>77</sup> the question being, where the application is for a primary reservoir permit, which group is the better able to carry out plans for the reclamation of desert lands, both public and private.<sup>78</sup>

### c. By Prescription, Contract, or Purchase

An irrigation company may acquire water rights by prescription, contract, or purchase

An irrigation district or company may acquire

transmission to lower reservoir so much of water accumulated from storage flings as was necessary to satisfy priority of lower reservoir awarded under prior decree without jeopardizing water allocated to upper reservoir under such decree, and that if more water reached lower reservoir than had been awarded it under decree, upper reservoir should receive credit therefor the following year, upper reservoir could not get credit for any of water which was stored in lower reservoir because upper reservoir was filled up to its allowable storage capacity at time of storage in lower reservoir

### Notice of lapse of applications

Where no assignments or trans-

fers of irrigation district's applications to state engineer for appropriation of water from creek were filed in his office and district did not follow statutory procedure for its dissolution after its directors decided to discontinue business, state engineer properly mailed to district notices of time for filing proof of construction work and of lapse of applications for failure to file such proof, though county had notified him that county owned most of lands for which applications were made by virtue of tax sales and hence trial court erred in finding that engineer had failed to give legal notice of final proof and lapsing of applications

water rights by prescription,<sup>79</sup> in which case a taking under claim of right, not merely a taking, must be proved;<sup>80</sup> or it may acquire such rights by contract<sup>81</sup> or by purchase,<sup>82</sup> subject to constitutional or statutory limitations on the authority to purchase,<sup>83</sup> and to the terms of the deed,<sup>84</sup> and to rights already existing in others than the grantor or grantors.<sup>85</sup>

### § 349. Rights of Way

- a. Acquisition
- b. Title and rights acquired
- c. Forfeiture

#### a. Acquisition

- (1) Over public lands of the United States
- (2) Over lands of state and county
- (3) Over private lands

#### (1) Over Public Lands of the United States

Under an act of congress a right of way over public lands of the United States may be acquired for irrigation purposes, and the grant is operative against the United States and persons acquiring rights in, or title to, the land after a right of way has been taken.

Under an act of congress, and for uses enumerated in the act, irrigation and ditch companies may acquire a right of way through the public lands and reservations of the United States,<sup>86</sup> including Indian reservations, as considered in Indians § 33. This grant is operative against the United States

and persons acquiring rights in, or title to, land after a right of way has been taken,<sup>87</sup> especially in the case of a homestead entry made subject to such rights of way,<sup>88</sup> but a right of way cannot be acquired over land formerly a part of the public domain but which had passed into private ownership at the time of locating the proposed ditch, canal, or reservoir, and of the approval of the map therefor,<sup>89</sup> unless the act of congress under which private ownership was acquired reserved a right of way for ditches or canals constructed by the authority of the United States without reference to the time of such construction,<sup>90</sup> or unless the privately owned land is subsequently forfeited to the United States.<sup>91</sup> A right of way cannot be acquired under the act for a purpose not enumerated<sup>92</sup> or implied,<sup>93</sup> or for a purpose enumerated in the statute but fraudulently omitted from the application therefor,<sup>94</sup> nor is a person, under the law, entitled to an easement over any public lands for a reservoir, ditch, or canal, used in connection with water rights until he has first acquired a vested and accrued water right.<sup>95</sup>

*Statutory proceedings to acquire.* Proceedings before the land office to acquire a right of way for irrigation purposes must follow strictly the requirements of the act of congress,<sup>96</sup> although a canal company may acquire a right of way by complying with the statutory procedure after the actual construction of its canal.<sup>97</sup> An application must be made and filed,<sup>98</sup> and in his application applicant

98. U.S.—U S v. Kern River Co, CCA Cal, 264 F 412, modified on

must truthfully declare the purpose for which the right of way is to be used,<sup>99</sup> and, within twelve months after government survey of the land, must file maps of his location for the approval of the secretary of the interior.<sup>1</sup> However, the act contemplates the granting of rights of way over land not yet surveyed and for which maps, although filed, cannot be approved until after survey. The grant becomes fixed, so far as the right of way is concerned, on the construction of the ditch or canal, the approval of the secretary afterward being in the nature of a confirmation of the grant and a completion of the record title,<sup>2</sup> but the construction must be completed before title to the right of way vests,<sup>3</sup> and, where applicant is a corporation, the acts taken under the statute to conform therewith must be the acts of the corporation, not of the sole stockholder therein.<sup>4</sup> On approval by the secretary, the maps relate back, as against intervening claims, to the date of filing in the local land office.<sup>5</sup> The claim to right of way is defeated by withdrawal of land from entry before filing of application, or, in the case of unsurveyed lands, before construction is completed,<sup>6</sup> or, in the case of surveyed lands, by refusal of the secretary of the interior to approve.<sup>7</sup> Under other sections of the acts of congress, prior appropriators of water whose water rights have vested under local customs, laws, and decisions of court, and who have constructed ditches and canals to carry the water, are protected, and their right of way is acknowledged and confirmed,<sup>8</sup> even though their map on file at the land office has not been approved,<sup>9</sup> their title in such case being based, not on a grant from the federal government, but on recognition of a right vested and accrued under state laws,<sup>10</sup> but canals and

ditches must have been constructed and in use to give the owner protection under those sections of the act against a subsequent entryman.<sup>11</sup> The United States may maintain a suit to set aside a grantee's title on the ground of fraud in its procurement.<sup>12</sup>

*Effect of abandonment of proceedings.* Proceedings to acquire such right of way abandoned before final action taken by the land office thereon give applicant no rights enforceable against a homestead entryman who subsequently enters and occupies,<sup>13</sup> nor may such applicant claim a right under a grant by earlier homestead claimants who have since abandoned their entries, the land reverting to the United States;<sup>14</sup> but, if applicant, although failing to prosecute, actually appropriates and uses the water under a permit granted by the state, his interest in the right of way, confirmed under those circumstances by another provision of the act of congress, is paramount, and the rights of the homesteader under an entry subsequently made are junior and inferior.<sup>15</sup>

## (2) Over Lands of State and County

A right of way over state or county lands may be acquired by legislative grant.

A right of way for irrigation purposes may be acquired over public land belonging to, and granted by, a state, and such grant is operative as against the state and persons claiming rights subsequently acquired from the state,<sup>16</sup> and such grant may provide for rights of way for service ditches to lands of individual water users.<sup>17</sup> A right of way over county lands may be acquired by legislative grant where the legislature in giving the lands to the county reserved the right to regulate their sale.<sup>18</sup> Where irrigation ditches are constructed

over state land without securing the right to do so, only the state may complain <sup>19</sup>

**Statutory grant to United States** It has been held that, under a state statute granting rights of way over all state lands for ditches constructed by and under the authority of the United States and providing for reservation of such rights in all conveyances by the state, the United States has a right of way across lands granted to private persons by the state by patents containing such a reservation, although the ditches are to be constructed subsequent to the conveyance to the private person.<sup>20</sup> It has been held, however, that in the absence of acceptance of the grant to the United States by act of congress or by construction of a ditch, prior to a conveyance by the state without reservation to a private person, the rights of the private person are not subject to a right of way of the United States <sup>21</sup> A statute granting such a right of way over the lands of a territory does not grant a right of way over lands which never belonged to the territory but which were granted directly to the state <sup>22</sup>

### (3) Over Private Lands

A right of way over private lands may be acquired by consent, by purchase, by prescription, or by eminent domain

Generally a right of way over private lands can be acquired only by the consent of the owner, by eminent domain, or by prescription <sup>23</sup> Such a right of way may be acquired by purchase,<sup>24</sup> subject to rights reserved to regulate the manner of its enjoyment,<sup>25</sup> and subject, in case of purchase from a consumer of the water, to the terms and conditions imposed in the deed as to the furnishing of water, as considered *infra* § 360 A right of way for irrigation purposes may be acquired by prescription, provided the essentials of a prescriptive title are proved,<sup>26</sup> or by long continued use under claim of right and expenditure of money with the acquiescence of the owner of land and other affirmative acts and conduct on the part of the owner amounting to estoppel,<sup>27</sup> or merely by taking possession without interference by the owner of the land where the one who takes possession has a right to take it by condemnation,<sup>28</sup> the fact that

19. Idaho—Swan v Sproat, 209 P 1070, 36 Idaho 75

20. US—U S v Ide, CCA Wyo., 277 F 373, affirmed Ide v. U S, 44 S Ct 182, 263 US 497, 68 L Ed 407

22. US—U S v Pruden, *supra*

23. Utah—Nielson v Sandburg, 141 P 2d 696, 105 Utah 93

#### Arbitrary seizure

Generally, no one can arbitrarily seize and use another's ditch or interest in a ditch

Utah—Nielson v Sandberg, *supra*

24. Wash—Hayward v Mason, 104 P 139, 54 Wash 649.  
67 C J p 1380 note 39

#### Instrument insufficient as conveyance

Where alleged contract of sale of an easement was executed in name of landowner by his son who was his attorney and no power of attorney authorizing the son to bind landowner was shown and son was representing landowner only in capacity of an attorney at law and not as an attorney in fact with power to execute instruments of conveyance, instrument allegedly conveying easement to construct irrigation works to water district did not rise to dignity of a conveyance

Tex—Armstrong v Gaddis, 144 S W. 2d 539, 135 Tex 580

25. Idaho—City of Nampa v Nampa & Meridian Irr Dist, 115 P 979, 19 Idaho 779.

26. Cal—Board of Directors of Tur-

lock Irr Dist v Fair, 276 P 2d 109, 128 Cal App 2d 833—Board of Directors of Turlock Irr Dist v City of Ceres, 254 P 2d 907, 116 Cal App 2d 824

67 C J p 1380 note 42

#### Interruption of possession

Landowner's adverse possession of right of way over adjoining land for irrigation ditch was not interrupted by mere verbal protest of adjoining landowner, especially in view of statutory definitions of peaceable possession and adverse possession

Ariz—Conness v Pacific Coast Joint Stock Land Bank of San Francisco, 50 P 2d 888, 46 Ariz 338

#### Adverse user not shown

Where county widened, deepened and cleaned drainage ditches without asserting right to ditches or water therein or acting adversely to original owners of such ditches, county did not establish easement by prescription to such ditches

Tex—Guelker v Hidalgo County Water Imp Dist No 6, Civ App, 269 S W 2d 551, error refused no reversible error

#### Deviation in course of lateral ditch

Slight temporary deviations from year to year, in course of a lateral irrigation ditch across a field, do not affect an easement therein, where lateral has followed substantially the same course for more than statutory period of ten years

Neb—Clark v Meeker Ditch Co, 268 N W 344, 131 Neb 506

#### No right to prescription in drains appropriated to public use

Where irrigation district had

adapted natural drains to provide land within its boundaries with irrigation water and to maintain sufficient drainage channels to protect the land from injury from irrigation water, the drains had been appropriated to public use and upstream property owners whose irrigation waters were being discharged into drainage facilities could not, through the use of those facilities, obtain a prescriptive right to discharge irrigation waters into the drain without limitation—Provident Irr Dist v Cecil, 271 P 2d 157, 126 Cal App 2d 13

#### Surplus or waste irrigation waters

(1) An easement for drainage of waste waters from an irrigation ditch into a creek flowing through the land of another so as greatly to raise the natural level of such creek cannot be acquired until it has been freely exercised without material change under a claim of right for ten years

Neb—Hagadone v Dawson County Irr Co, 285 N W 600, 136 Neb 258

(2) Plaintiffs' right to right of way by prescription across defendant's land for carrying off surplus or waste irrigation water was held not established under evidence in particular case

Idaho—Loosli v Heseman, 162 P.2d 393, 66 Idaho 469

27. Ariz—Wedgworth v Wedgworth, 181 P 952, 20 Ariz 518

28. Tex—Guelker v Hidalgo County Water Imp Dist. No 6, Civ App., 269 S W 2d 551

67 C J p 1380 note 44.

the use of the irrigation works was intermittent not defeating the easement right in such cases<sup>29</sup> Further, such a right of way may be acquired by a partition decree, subject to a public easement existing on the land of the servient estate,<sup>30</sup> or by condemnation under the power of eminent domain, if that procedure is authorized by the statute, subject only to constitutional limitations that the taking shall be for a public use, and to statutory limitation existing in some states that no improved or occupied land shall, without the written consent of the owner, be subjected to the burden of two or more irrigating ditches where the same object can be practically attained by uniting them and conveying all the water in one ditch<sup>31</sup> A right of way may not be acquired by implication as a way of necessity if obtainable under the statute of eminent domain,<sup>32</sup> and the purchaser of part of a tract of land does not acquire an implied easement to maintain a ditch on the part purchased by another, when the ditch is not necessary to irrigate his land, other ditches being sufficient<sup>33</sup>

Use of another's land for irrigation purposes without his consent and without condemnation proceedings taken against him subjects the trespasser to liability in damages for the loss suffered,<sup>34</sup> but an injunction restraining the trespass does not prevent the trespasser from obtaining the right of way in the regular manner<sup>35</sup> Proceedings, under a statute, to acquire a right of way for a water ditch are special proceedings, and the statute must be strictly pursued,<sup>36</sup> and, where the evidence as to location of the right of way between defined termini is conflicting, the court may determine the location.<sup>37</sup>

A right of way for irrigation purposes consti-

tuting an easement on another's land is not lost on the ground of intermittent use where the right of eminent domain can be successfully invoked by the owner of the dominant estate,<sup>38</sup> the easement is not destroyed by destruction of the ditches by the owner of the servient estate,<sup>39</sup> and it is not revocable after construction of the ditch without compensation therefor, in the absence of agreement to the contrary<sup>40</sup> The owner of a right of way for an irrigation ditch cannot be compelled to surrender it because the owners of the servient tenement believe he can obtain water from another source with less burden to the servient tenement<sup>41</sup>

*Establishment of public ways.* Dedication for a public way of land burdened with an easement for an irrigation ditch does not destroy the easement,<sup>42</sup> but owners of property subject to a right of way for irrigation may establish streets or highways,<sup>43</sup> and the city<sup>44</sup> or county<sup>45</sup> may construct and maintain such public ways, as long as they do not interfere with the use of the easement Dedication of land subject to a right of way for a ditch makes the ditch subject to the easement of the public,<sup>46</sup> and a municipality may require the use of the easement to be changed by enclosing the ditch, where its charter authorizes it to regulate ditches in the streets<sup>47</sup>

#### b. Title and Rights Acquired

- (1) Way over public lands
- (2) Way over private lands

##### (1) Way over Public Lands

The statutory grant of a right of way over public lands of the United States gives the grantee a limited fee on an implied condition of reverter on failure to use the land for irrigation purposes. Under state laws a right of way over public land is an easement.

Regulation as nuisance see *infra* § 350 f

Duty to build bridges see *infra* § 350 b.

Under the terms of acts of congress providing rights of way over public lands for irrigation purposes, the right of way granted vests in the grantee neither a mere easement nor a fee simple absolute, but a limited fee on an implied condition of reverter on failure to use the land for irrigation purposes,<sup>48</sup> nor is the title of the grantee in any way affected by a statute, subsequently enacted, referring solely to the granting of licenses to construct telegraph lines or canals over the public domain revocable at any time.<sup>49</sup> Under state laws, the right of way over public land is held to be an easement.<sup>50</sup> A state grant of an easement for a reservoir on school lands does not convey title but leaves the fee simple in the state,<sup>51</sup> nor can the rights of the grantee under the statute be enlarged by the phrasing of the document under which the irrigation company takes possession.<sup>52</sup>

One who has acquired a right of way with a defined location over public lands for a ditch has no right, as against one acquiring the land from the government subject to the easement, to change the location of the ditch onto other land of the same owner,<sup>53</sup> even though such other land be of

little or no value,<sup>54</sup> and he may not use the right of way for other purposes than those enumerated in the irrigation statute,<sup>55</sup> or change the mode of enjoyment or increase the burden of the easement without the consent of the patentees or their successors.<sup>56</sup> The owner of the land may enforce the restriction to statutory purposes and use the lands not occupied by water for agricultural purposes if such use does not interfere with the use of the right of way,<sup>57</sup> but where a limited fee to the irrigation company for a reservoir right of way was granted, he may not question the company's right to exclusive and continuous possession of the ground occupied by the reservoir.<sup>58</sup>

## (2) Way over Private Lands

The rights of the owner of an irrigation right of way over private lands depend on the terms of the grant, or, when the right of way was acquired by prescription, on what is reasonably necessary to the exercise of the right acquired, and the landowner may make any proper use of the ditch which would not unreasonably interfere with its use for the designated purpose.

The title and rights of the grantee of a right of way over private lands are fixed by the terms of the deed<sup>59</sup> or by conditions and provisions of

48. US—Kern River Co v U S. Cal., 42 S Ct. 60, 257 US 147, 66 L Ed 175

Verde River Irr & Power Dist v Salt River Valley Water Users' Ass'n, CCA Ariz., 94 F 2d 936

### Limited fee plus easement

(1) Statute authorizing grant of reservoir right of way through public lands to extent of ground occupied by water of reservoir and fifty feet on marginal limits thereof for use when necessary in construction or repair intended that grant of right of way should be of limited fee with easement in fifty-foot strip

Wyo—Johnson Irr Co v Ivory, 24 P 2d 1053, 46 Wyo 221

(2) Statute intended that boundary of right of way should be shore line where marginal limit of reservoir was natural ground shore, and not the surveyed meander line

Wyo—Johnson Irr Co. v Ivory, supra

49. US—U S v Portneuf-Marsh Valley Irr Co, Idaho, 213 F 601, 130 CCA 181

52. Tex—Rio Grande & E P R Co. v. Kinkal, Civ App., 158 S W. 214.

53. Cal—Vestal v. Young, 82 P 383, 147 Cal 721

54. Cal—Vestal v. Young, supra.

55. Utah—Whitmore v Pleasant Valley Coal Co, 75 P 748, 27 Utah 284

67 C J p 1381 note 65

"Canal or ditch" as used in statute providing that irrigation company should not occupy right of way through public lands except for purpose of "canal or ditch" meant whole project including reservoir, but irrigation company could not occupy right of way through public lands except for purpose of its reservoir and other purposes subsidiary to irrigation

Wyo—Johnson Irr Co v Ivory, 24 P 2d 1053, 46 Wyo 221.

56. Mont—Hansen v. Galiger, 208 P 2d 1049, 123 Mont 101

### Secondary easement

Secondary easement which accompanied principal easement in the form of right to maintain water ditch was no more than the right to make repairs and to do such things as were necessary to exercise of the primary right and to do them only when necessary and in such reasonable manner as not to increase the burden on the servient estate needlessly or to enlarge it by alteration in mode of operation

Cal—Smith v. Rock Creek Water Corp., 208 P 2d 705, 93 Cal App.2d 49.

57. Wyo—Johnson Irr Co v Ivory, 24 P 2d 1053, 46 Wyo 221

58. Wyo—Johnson Irr Co v Ivory, supra

59. Wash—Hayward v. Mason, 104 P 139, 54 Wash 649

### Effect of particular grants

(1) Original grant of right of way for irrigation canal giving irrigation district right to flow water over plaintiff's land by construction of canal without a north bank across draws and ravines did not give right to flood land beyond draws and ravines

Neb—Webb v Platte Val Public Power & Irr Dist, 18 NW 2d 563, 146 Neb 61

(2) Where water control district had easement for drainage ditch but did not have an easement for maintenance of suction pipe across and into drainage ditch, plaintiff, deriving rights from such district, was not entitled to an easement for maintenance of a suction pipe for irrigation purposes

US—Vahlsing v Harrell, CA Tex., 178 F 2d 622, certiorari denied 71 S Ct 39, 340 US 812, 95 L Ed 597

(3) Other particular grants 67 C J p 1381 note 66 [a].

### Effect of grantor's right in ditch

Acquisition by defendants of a right in part of ditch maintained by irrigation district outside of defendants' land could not limit written grant by defendants to district of

contract between the parties,<sup>60</sup> but, if the right of way, and not the land itself, is the subject of the grant, the grantee has only an easement notwithstanding the contract or deed refers to the right conveyed as a right of "ownership."<sup>61</sup> No greater title or right to possession passes than is reasonably necessary to enable the grantee adequately and conveniently to make the intended use of his way if the right of way is acquired by prescription,<sup>62</sup> or if the grant is in general terms,<sup>63</sup> and the right cannot be extended beyond what is reasonably necessary in the absence of evidence constituting an estoppel.<sup>64</sup> If no definite bound is set as to width and location of the right of way, the practical construction placed on the grant by the parties to it fixes the limits of the burden imposed,<sup>65</sup> and the grantee's rights are measured by the initial use.<sup>66</sup>

Where an easement only is granted, the grantor may make any proper use of the ditch which would not materially impair or unreasonably interfere with its use by the grantee for the designated purposes,<sup>67</sup> but, as shown *infra* § 351, he cannot de-

stroy or make changes in the canal to the injury of the grantee without compensating him therefor. In accordance with the rule relating to easements generally, discussed in Easements § 84, it is held that in the absence of permissive statute the owner of the servient estate has no right to move a ditch.<sup>68</sup> Even in the absence of statute, however, the owner of the servient estate is sometimes permitted to change the location<sup>69</sup> or construction<sup>70</sup> of the ditch in a manner which does not interfere with the exercise of the easement; and where permitted by statute he may change the location of a lateral irrigation ditch on his land if the change does not impede the flow of water or injure the persons interested in or using the ditch.<sup>71</sup> When an irrigation district has improved natural drains crossing private lands, thus appropriating them to a public use, the property owner has no right to interfere with the drains by changing their location.<sup>72</sup> Landowners who consented to establishment of a drainage ditch across their land by an irrigation district have no right to use water from the ditch.<sup>73</sup>

easement to flow water through ditch to be constructed by district across defendants' land

Idaho—Reynolds Irr Dist v. Sproat, 206 P 2d 774, 69 Idaho 315

60. Idaho—Crane Falls Power & Irrigation Co v Snake River Irrigation Co, 133 P 655, 24 Idaho 63  
67 C J p 1381 note 67

**Compromise agreement** between plaintiffs and defendants giving plaintiffs right to flow drainage water down ditch, but providing that at no time should flow of drainage water exceed four cubic feet per second, and that no part of bottom of drainage ditches or structures therein should be raised or allowed to fill to greater height than that existing at, or previous to date of agreement, did not authorize defendants to maintain obstructions in ditch, though they may have existed at date of agreement, to prevent water from drainage through ditch

Cal—Morris v George, 135 P 2d 195, 57 Cal App 2d 665

63. Idaho—Coulson v Aberdeen-Springfield Canal Co., 277 P 542, 47 Idaho 619  
67 C J p 1382 note 70.

64. Cal—Orange Cove Water Co v Sampson, 248 P. 526, 78 Cal App 334.

#### Efficient use

In Utah where an easement to convey irrigation water in ditches is obtained by prescription based on a lost grant, the presumption is that the parties contemplated more efficient use of limited water supply in the arid country by means of improved ditches which owner of easement was free to make in a reasonable manner and without unnecessarily burdening the servient estate, and in no event could the servient estate retain an interest in seepage water

Utah—Big Cottonwood Tanner Ditch Co v Moyle, 174 P 2d 148, 109 Utah 213, 172 A L R 175

65. Idaho—Reynolds Irr Dist v Sproat, 206 P 2d 774, 69 Idaho 315  
—Coulson v Aberdeen-Springfield Canal Co, 277 P 542, 47 Idaho 619

66. Idaho—Coulson v Aberdeen-Springfield Canal Co, *supra*.

67. Idaho—Reynolds Irr Dist v Sproat, 206 P 2d 774, 69 Idaho 315  
67 C J p 1382 note 74

68. Idaho—Simonson v. Moon, 237 P 2d 93, 72 Idaho 39

69. Colo—Brown v Bradbury, 135 P 2d 1013, 110 Colo 537

#### Maintenance of new ditch

Where an easement had been reserved for a ditch which ran through the middle of the servient tract the owner could close the old ditch and construct a new ditch of equal efficiency, but was required to maintain the new ditch

Colo.—Brown v. Bradbury, *supra*.

70. Ariz—Stamatis v Johnson, 231 P 2d 956, 72 Ariz 158

#### Covering ditch

Where plaintiffs owned prescriptive easement for open irrigation ditch on defendants' land, and to permit defendants to install covered tile installation would not unduly impinge on plaintiffs' easement or inconvenience plaintiffs in full enjoyment of use for which easement existed, and covered tile installation would benefit plaintiffs and the public, defendants would be permitted to tile ditch, and on completion of installation would be relieved of all obligation in connection therewith

Ariz—Stamatis v Johnson, *supra*.

71. Idaho—Simonson v. Moon, 237 P 2d 93, 72 Idaho 39  
67 C J p 1382 note 75

#### Compliance with statute

The change must comply fully with the statutory requirements and where owners of servient estate had changed location of water ditch so that it would more readily tend to clog with sediment, moss and weeds, and so that owners of dominant estates were required to rotate use of ditch, the change was such as to "impede the flow of water" and did "injure" the owners of the dominant estates within statute relating to the removal of location of water ditches

Idaho—Simonson v Moon, *supra*.

72. Cal—Provident Irr Dist v Cecil, 271 P 2d 157, 126 Cal App 2d 13.

73. Tex—Guelker v Hidalgo County Water Imp Dist, No. 6, Civ.App. 269 S W 2d 551.

The grantee's rights include the rights of repair, ingress, and egress,<sup>74</sup> occupying no more land along the banks of the canal than is necessary for its proper maintenance,<sup>75</sup> and it is his duty, not the grantor's to protect the ditch.<sup>76</sup> It has been held that the easement includes the right to make improvements in the interest of water conservation, and the right of entry to effect such improvements.<sup>77</sup> The grantee must use his easement, however, so as not materially to interfere with ordinary use of the land by the owner of the servient estate,<sup>78</sup> not imposing an additional burden on the servient estate without the grantor's consent,<sup>79</sup> as, for example, by admitting water into the ditch from new sources,<sup>80</sup> or by relocating canals and ditches,<sup>81</sup> but an additional burden may be imposed with the grantor's consent.<sup>82</sup>

### c. Forfeiture

A grant of a right of way over public lands of the United States may be declared forfeited for failure to use the land for irrigation purposes, for failure to complete works, or for abandonment

Since, as shown supra subdivision b (1) of this section, a grant of a right of way over public lands under act of congress on condition that it be used solely or primarily for irrigation purposes vests in the grantee a limited fee on an implied condition of reverter on failure to use the land for these purposes, a forfeiture may be declared on proof of failure to use for the stated purposes, in a suit in equity brought by the attorney-general in the name of the United States, even in the absence of a forfeiture clause in the statute, or of a forfeiture declared by congress.<sup>83</sup> A fortiori, a forfeiture may be declared where expressly provided for in a forfeiture clause in the statute under which the right of way was granted.<sup>84</sup> Where the ground for forfeiture is breach of a condition subsequent, the breach does not operate ipso facto to divest the grantee of title, but to be effectual must be followed by a declaration of forfeiture by some competent authority, either by act of congress or by the United States, in an action brought for the purpose.<sup>85</sup> The court has jurisdiction under the statute without further action by congress,<sup>86</sup> an act of congress

74. Colo—Neville v Loudon Irrigating Canal & Reservoir Co, 242 P 1002, 78 Colo 548  
67 C J p 1382 note 77

75. Idaho—Gorrie v Weiser Irr Dist, 153 P 561, 23 Idaho 248

76. Idaho—Pioneer Irr Dist v Smith, 285 P 474, 48 Idaho 734

77. Utah—Big Cottonwood Tanner Ditch Co v Moyle, 174 P 2d 148, 109 Utah 213, 172 A L R 175

#### Reasonableness of improvements

(1) What is a reasonable manner of improving ditch is a question of fact to be decided from a consideration of the location of the ditch, the type and use of the servient property, the amount of water ditch carries, the relative cost of the possible methods of improving, and other circumstances bearing on the question, but the company may not take more or different land from the servient estate than that used during the prescriptive period

Utah—Big Cottonwood Tanner Ditch Co v Moyle, supra

(2) The fact that the improvement would make the ditches more hazardous to children and would depreciate the value of the servient estates may be considered in determining the reasonableness of the improvements, but is not conclusive of the matter

Utah—Big Cottonwood Tanner Ditch Co v Moyle, supra

78. Idaho—Pioneer Irr Dist v Smith, 235 P 474, 48 Idaho 734

Utah—Nielson v Sandberg, 141 P 2d 696, 105 Utah 93.

#### Cutting trees

Owner of easement for irrigation canal was liable for cutting down peach trees which did not obstruct the flow of water

Cal—Paul A. Mosesian & Sons v Danielian, 126 P 2d 363, 52 Cal App 2d 387

79. Idaho—Coulson v Aberdeen-Springfield Canal Co, 277 P 542, 47 Idaho 619

Wash—Little-Wetzel Co v Lincoln, 172 P 746, 101 Wash 435

#### Changing use of easement

Owner of a prescriptive right to conduct water in an open ditch may not change location of the ditch, or lay a pipe line along the course of the ditch nor construct aprons for the passage of storm waters over ditch

Cal—Smith v Rock Creek Water Corp, 208 P 2d 705, 93 Cal App 2d 49

#### Extension of ditch

Owners of easement for maintenance of dam and ditch had no right to extend ditch by excavating in dry land of servient owner, whether regarded as dry bed of river or dry bank

Cal—Hannah v Pogue, 147 P 2d 572, 23 Cal 2d 849

#### Removal of incidental benefit

Where a previous irrigation ditch incidentally benefited land of the servient estate because seepage water therefrom enabled trees and plants to grow along the banks of the ditch, cutting off the seepage water by waterproofing ditch added no ad-

ditional burden to the servient estate, but merely took away an incidental benefit

Utah—Big Cottonwood Tanner Ditch Co v Moyle, 174 P 2d 148, 109 Utah 213, 172 A L R 175

80. Wash—Little-Wetzel Co v Lincoln, 172 P 746, 101 Wash 435

81. Cal—Woods Irr Co v Klein, 233 P 2d 48, 105 Cal App 2d 266

82. Cal—Board of Directors of Turlock Irr Dist v Fair, 276 P 2d 109, 128 Cal App 2d 833

67 C J p 1382 note 83

#### Pipeline

Where irrigation district had acquired right of way for ditch by prescription, and without objection replaced ditch by pipeline, district had easement for pipeline

Cal—Board of Directors of Turlock Irr Dist v Fair, supra—Board of Directors of Turlock Irr Dist v City of Ceres, 254 P 2d 907, 116 Cal App 2d 824

83. US—Kern River Co v U S, Cal, 42 S Ct 60, 257 US 147, 66 L Ed 175.

84. US—U S v. Whitney, CC Idaho, 176 F 593

67 C J p 1382 note 87

85. US—Verde River Irr & Power Dist v Salt River Valley Water Users' Ass'n, CCA Ariz, 94 F 2d 936

67 C J p 1382 note 88

86. US—U S v. Parsons, CCA Utah, 22 F 2d 978

67 C J p 1382 note 89.

containing a special grant to a specific grantee and construed to require that congress declare the forfeiture or give express authority to institute suit to recover the land having no application to jurisdiction of the court under a general law to declare a forfeiture<sup>87</sup> The general land office of the United States, the tribunal designated by congress to pass on questions arising out of the disposition of public lands, recognizes the jurisdiction of state courts to hear and determine questions of forfeiture of grants under act of congress, and the final decision of the state courts is equivalent to a declaration of forfeiture of all rights under the act<sup>88</sup>

When public land is granted by the United States subject to the right of way under the acts of congress, the right to have a forfeiture declared on statutory grounds vests in the patentee,<sup>89</sup> but, where the patentee takes title subject to a right of way after the completed works have been approved by the secretary of the interior, he cannot claim a forfeiture on grounds existing before approval where no fraud or imposition is charged<sup>90</sup> The patentee may not assert an abandonment where the grantee again took possession of the right of way before the patentee initiated any claim<sup>91</sup>

*Grounds of forfeiture.* Under acts of congress a forfeiture of right of way over public lands may be declared for failure to use solely or primarily for irrigation purposes,<sup>92</sup> for failure to complete works within five years,<sup>93</sup> or for abandonment<sup>94</sup> In determining whether the evidence of failure to complete works is sufficient to justify a forfeiture, the submission of a map by applicant and approval of details thereon by the secretary of the interior must be regarded as creating a binding contract with the map details as specifications, a material breach of which constitutes ground for forfeiture,<sup>95</sup> but the approval of a new application by the secretary of the interior operates as an extension of time in

which to complete the work under the original grant, where it is so regarded by the parties and no other rights have attached<sup>96</sup> An assignment by a canal company to a water district of rights appurtenant to its irrigation system, under statutes providing for such conveyances, does not constitute abandonment or ground for forfeiture<sup>97</sup>

*Extent of forfeiture.* A forfeiture for failure to complete within the stated period extends only to the uncompleted section or sections of the work,<sup>98</sup> a reservoir being considered as a section in a grant of right of way for reservoir and ditch<sup>99</sup> Where the project for which the right of way was granted included a natural lake as the reservoir site and artificial works raising the level of the lake, a failure to complete the artificial works within the statutory period is ground for forfeiture of the reservoir site.<sup>1</sup>

### § 350. Irrigation Works

- a In general
- b Bridges, conduits and flumes
- c Enlargement and extension
- d Costs of construction and maintenance
- e Easement and contract rights in canal or ditch
- f Irrigation works as nuisance

#### a. In General

An irrigation district or company may construct ditches or reservoirs or utilize natural channels. An irrigation ditch is property in the nature of real estate, and when constructed, repaired, and controlled by an individual or private company, it is private property.

An irrigation company or district may construct a dam and reservoir for irrigation purposes when authorized by statute,<sup>2</sup> and it may avail itself of the use of a natural channel or gulch as a portion of its system of ditches for conveyance of water<sup>3</sup> An irrigation ditch is property in the nature

Easement in public lands for reservoir see supra § 349

3. Or—Barker v. Sonner, 294 P. 1053, 135 Or 75

67 C J p 1383 note 3.

of real estate,<sup>4</sup> which can be transferred only by contract or deed of the owners, by adverse possession, by condemnation, or by operation of law,<sup>5</sup> and, where constructed, repaired, and controlled by an individual or by a private company, it is private, and not public, property.<sup>6</sup> It is the duty of an irrigation company, or of a district, or of a person diverting water to irrigate arid lands, so to construct the ditches that there will be the least possible waste,<sup>7</sup> and to enlarge and strengthen embankments to withstand floods, even though users are deprived thereby of waters for irrigation which otherwise they would have had.<sup>8</sup>

**Fencing.** The owner of an irrigation ditch has no duty to fence it under the common law unless an exceptionally dangerous condition exists,<sup>9</sup> and a statute requiring fencing of shafts, excavations, and holes does not apply to irrigation ditches.<sup>10</sup> The grant of a right of way for an irrigation canal may, however, impose on the grantee an obligation to maintain fences.<sup>11</sup>

#### b. Bridges, Conduits, and Flumes

- (1) Canals or ditches crossing highways
- (2) Canals or ditches across private lands

##### (1) Canals or Ditches Crossing Highways

Where a canal is constructed across an existing highway, the canal owner must build the necessary bridges;

but, in the absence of a statute to the contrary, where a highway is laid out over a canal already existing the public must build the bridge.

Where an irrigating canal or ditch crosses public highways, the highways must be restored to a condition of usefulness and safety equal to that existing before the construction of the ditch, and to that end the owners of the ditch will be required to build all necessary bridges,<sup>12</sup> removing them when the system is abandoned,<sup>13</sup> and, where a city grants to a canal company a right to run its canals in the city streets, it may subsequently, in the exercise of its power to change the grade of streets, order the company to run its canals through pipes underground.<sup>14</sup> In the absence of a statute to the contrary applying to irrigation ditches, the public and not the ditch company must build the bridge where a highway is laid out over a ditch or canal already existing,<sup>15</sup> or where a city or town is located and built on both sides of an already existing canal,<sup>16</sup> and ditches crossing public lands under authority of the Carey Act are governed by this rule,<sup>17</sup> but statutes governing railroads crossing highways on public lands,<sup>18</sup> or water companies furnishing water to cities and towns,<sup>19</sup> do not apply in such cases.

##### (2) Canals or Ditches Across Private Lands

An irrigation company may be required to construct bridges across its canals for the benefit of private land-

4. Cal—Cate v Sanford, 54 Cal 24 67 C J p 1383 note 9

Canals or ditches as property, in general see supra § 129

5. Idaho—Hale v McCammon Ditch Co, 244 P 2d 151, 72 Idaho 478

6. Cal—Cate v Sanford, 54 Cal 24

Right to require payment for use

Owner of irrigation ditch could deny to another its use until paid amount demanded as share of maintenance cost or until other party entered the ditch under eminent domain, and payment made to obtain delivery of water needed for crops, though made under protest, was not recoverable back as money paid under duress

Utah—Peterson v. Sevier Valley Canal Co, 151 P 2d 477, 107 Utah 45

**Interference with use**

Where use of water for irrigation, which gave rise to construction of irrigation ditch over plaintiffs' land and on to defendants' land, had been so long continued as to show that it was permanent, where ditch was in use when common owner caused separation of title by sale of different parts of land to predecessors of defendants, where easement was essential to beneficial enjoyment of land

by defendants, and where use of ditch had been uninterrupted since construction, plaintiffs' land was burdened with easement and plaintiffs could not eliminate or close ditch, and were estopped from depriving defendants from use of ditch over plaintiffs' land, even though a burden on plaintiffs' property

11. La—Dufilho v Bordelon, 92 So 744, 152 La 88.

**Extinguishment of obligation**

(1) Under statute the obligation to fence a right of way for an irrigation canal and bridge the canal, created by the deed conveying the right of way, was extinguished, where the owner of the right of way afterwards bought the farm through which it extended

La—Dufilho v. Bordelon, supra.

(2) The obligation was not revived by the subsequent conveyance of the farm subject to a vendor's lien existing before the grant of the right of way

La—Dufilho v. Bordelon, supra.

19. Idaho—MacCammelly v Pioneer Irr. Dist, supra.

owners. The owner of a ditch constructed across the existing ditch of another must construct a flume.

The grant of a right of way for an irrigation canal may impose on the grantee an obligation to maintain bridges,<sup>20</sup> and a state statute, laying the duty on irrigation corporations, to which it granted the power of eminent domain, to construct bridges over its canals for the benefit of adjacent landowners, does not violate the Fourteenth Amendment of the federal Constitution,<sup>21</sup> nor does it make any difference that the corporation was not obliged to exercise the power of eminent domain to obtain the particular right of way.<sup>22</sup> The purpose of such a statute is to restore in part the use of the land which the owner formerly had and to compensate him in part for the damage caused by the construction of the ditch.<sup>23</sup> An owner, who otherwise having no right to a bridge secures the irrigation company's consent and builds one, may keep it until the court has determined that it interferes with the flow of water in the ditch.<sup>24</sup> Where a ditch is constructed across an existing ditch, it is the duty of the owner of the new ditch to build and maintain a flume to carry the waters of the old ditch, in the absence of agreement to the contrary.<sup>25</sup>

### c. Enlargement and Extension

Rights relating to enlargement or extension of canals and ditches depend on the contract under which the enlargement or extension is made.

The rights of the parties growing out of the enlargement or extension of canals and ditches are fixed by the terms of the contract under which the enlargement was made,<sup>26</sup> and so is their liability to contribute to the cost of maintenance of enlarged canals and ditches and of the new portions,<sup>27</sup> the owners of the original ditch not being liable for the cost of maintaining the new portion, in the absence of agreement to the contrary.<sup>28</sup> Where, as considered supra § 349, the laws provide that no improved or occupied land shall, without the written consent of the owner, be subjected to the burden of two or more irrigating ditches where the same object can be practically attained by uniting and conveying all the water in one ditch, an irrigation company desiring to use a private ditch already in existence has the right to enlarge or extend and use it on payment of a reasonable proportion of the cost of construction,<sup>29</sup> the rule permitting enlargement or extension being applicable only to private ditches,<sup>30</sup> and only to ditches passing through the owner's land for the benefit of other landowners, and constituting a burden thereon.<sup>31</sup> A private ditch constructed by the owner of land to water his own land exclusively cannot be enlarged and extended by an irrigation company if there are other practicable routes for its own canals.<sup>32</sup> A petitioner in proceedings to enlarge an existing private ditch through the land of another must prove

20. La.—*Duflho v Bordelon*, 92 So 744, 152 La 88.

Obligation held extinguished and not revived where owner of right of way afterwards bought the farm through which it passed and subsequently conveyed the farm subject to a vendor's lien existing before the grant of the right of way

27. Utah.—*Peterson v. Sevier Canal Co*, 151 P 2d 477, 107 Utah 45 67 C J p 1384 note 27.

#### Particular contracts construed

(1) Contract between irrigation

companies for sharing cost of maintaining, operating, and enlarging canal which they owned jointly, applied only to main canal, and, though it provided that no further charge should be made against stockholders for turning out water, etc., it did not preclude assessment of maintenance charges against stockholders of one company for use of laterals owned exclusively by the other company  
Utah.—*Peterson v Sevier Valley Canal Co*, supra

(2) Where contract provided that mutual irrigation company should pay specified sum annually for maintenance of flume to be placed in canal "so long as" land company maintained flume and such part of canal in good repair, the phrase "so long as" were words of limitation which fixed the duration of irrigation company's obligation and such obligation ceased on the removal of the flume  
Utah.—*Hodges Irr Co v Swan Creek Canal Co*, 181 P 2d 217, 111 Utah 405.

#### Effect of statutes

(1) Where owner of irrigation ditch and user agreed on the amount to be paid for such use, such contract controls, though statute gives right to such use upon compensating own-

er by paying equitable proportion of cost of maintenance

Utah.—*Peterson v Sevier Valley Canal Co*, 151 P 2d 477, 107 Utah 45

(2) Where contract between mutual irrigation companies concerning the upkeep of canal was no longer in effect, the statute providing for contribution between joint owners of ditches or reservoirs applied

Utah.—*Hodges Irr Co v Swan Creek Canal Co*, 181 P 2d 217, 111 Utah 405

28. Colo.—*Patterson v Brown, etc, Ditch Co*, 34 P 769, 3 Colo App 511

Idaho.—*Nampa & Meridian Irr Dist v Manville*, 173 P 113, 31 Idaho 397.

29. Colo.—*Junction Creek, etc, Domestic, etc, Ditch Co v Durango*, 40 P. 356, 21 Colo 194 67 C J. p 1384 note 30

30. Colo.—*Junction Creek, etc, Domestic, etc, Ditch Co v Durango*, supra. 67 C J p 1384 note 31.

31. Colo.—*Downing v More*, 20 P. 766, 12 Colo. 316, 319.

32. Colo.—*Downing v. More*, supra.

his right to the water for which he seeks an enlargement of the ditch,<sup>33</sup> but proof of a pending application for appropriation is sufficient if it appears that the water may be applied to a beneficial use when it is diverted into, and conveyed through, the enlarged ditch<sup>34</sup>

#### d. Cost of Construction and Maintenance

Except as provided by contract the owner of irrigation works must bear the cost of construction or maintenance.

The owner of the property, whether individual, company, or district, must bear the cost of construction and maintenance,<sup>35</sup> except in so far as contracts with users of the water require them to contribute,<sup>36</sup> nor may he shift this obligation to the landowner through whose land the ditch runs, when the landowner in the exercise of his right changes the location of the ditch to another part of his land<sup>37</sup> If the reservoir,<sup>38</sup> or canals and ditches,<sup>39</sup> are owned in common, liability to contribute toward the initial cost and maintenance rests on all in proportion to the amount of water used or diverted by each Under authorizing statutes, cities and villages may care for and control laterals furnishing water to their inhabitants,<sup>40</sup> and, under a statute making it the duty of an irrigation district to furnish water to residents, it is the duty of the district to keep the laterals in repair, even though the landowners grant the right of way and, themselves, construct the laterals<sup>41</sup> So, also, wherever it is the duty of an irrigation company or district to construct bridges, it must pay the cost of their construction and repair<sup>42</sup> Where the public highway is built through land paralleling and

adjacent to a canal, and a natural surface channel to the canal is cut off, a flume built by the county and accepted by the landowner in place of the channel must be kept in repair by the landowner in performance of his duty to the owner of the canal, whatever may be the duty of repair as between landowner and county<sup>43</sup>

#### e. Easement and Contract Rights in Canal or Ditch

One may have an easement right in a ditch without owning the water right, and vice versa.

One may own a ditch right without owning the water right, and vice versa<sup>44</sup> Such an easement is created by a contract for the carriage of a stated amount of water perpetually in another's canal, the owner of the canal agreeing to maintain the canal and the flow of water therein permanently.<sup>45</sup> A grant to the equitable owner of a canal of a right to the water therein does not create an easement in the canal<sup>46</sup> Where owners of parallel ditches agree that for a consideration the water of both shall be carried in a single ditch and one ditch is abandoned in reliance thereon, the owner of the ditch not abandoned may not refuse to carry the water because of the other's breach of the agreement,<sup>47</sup> although he may refuse to carry without charges where the terms of the broken agreement provided for payment<sup>48</sup> A statute prescribing the ratio in which the interests of persons claiming an interest in a ditch shall be established, where no record of their relative ownership has been made, does not apply where the record has been made in an action in equity to quiet title to a fractional interest in the ditch.<sup>49</sup>

A mutual water company may have the right to conduct its water through a public utility's ditch without affecting the public use of the ditch by the utility<sup>50</sup>

#### f. Irrigation Works as Nuisance

An irrigation canal is not a nuisance per se, but it may become a nuisance by reason of the manner in which it is maintained. An irrigation work which is a nuisance may be abated.

An irrigation canal has been held not to be a nuisance per se,<sup>51</sup> so an irrigation canal or ditch in or crossing a public highway, if it is constructed and operated in accordance with law, is not a nuisance, and can become such only by reason of the manner in which it is maintained,<sup>52</sup> as where a ditch has widened so as to occupy the sidewalk space in front of plaintiff's property, and where the water in it has overflowed onto plaintiff's property,<sup>53</sup> or where it appears that a reservoir dam and lack of diversion headgates constitute a source of imminent and great danger to the general public.<sup>54</sup> Where the nuisance is proved, and is of such character as to constitute a public menace, the conditions making it so are properly abated by order of court,<sup>55</sup> but, where the nuisance may be abated without ordering the discontinuance or destruction of the property, the court should order the

abatement in those terms.<sup>56</sup> When a ditch at the side of a highway has become a nuisance through the growth and development of the municipality, the municipality has the right under its police power to require that it be enclosed.<sup>57</sup>

### § 351. Injuries to Owners of Irrigation Works, and Actions Therefor

- a. Affecting water rights
- b. Affecting rights of way
- c. Affecting irrigation works

#### a. Affecting Water Rights

An action lies by an owner of irrigation works to recover damages for, or enjoin, unlawful diversion of water from its works.

The owner of irrigation works may bring an action to recover damages for the diversion of water from its works,<sup>58</sup> and an action lies to establish and protect the company's water rights or enjoin the unlawful diversion of its supply of water.<sup>59</sup> Such a suit may be brought by the company without joining its stockholders or consumers as parties.<sup>60</sup> In an action by an irrigation company to enjoin diversion of water from its ditch, it is not necessary that plaintiff should allege damage, or the amount thereof.<sup>61</sup>

50. Cal—Stratford Irr Dist v Empire Water Co., 137 P 2d 867, 58 Cal App 2d 616

51. Tex—Wichita County Water Improvement Dist No 1 v Pearce, Civ App., 59 S W 2d 183

52. Neb—City of Scottsbluff v Winters Creek Canal Co., 53 N.W 2d 543, 155 Neb 723  
67 C J p 1386 note 57

#### Reasons for rule

The users of water from either a natural or an artificial stream within a municipality have the right to have water kept within its banks, if they appropriated the water before the municipality was laid out, and therefore when a canal company keeps its canal in proper repair, the municipality has no more right to complain than if it were a natural watercourse. Neb—City of Scottsbluff v. Winters Creek Canal Co., supra.

#### Ordinance held invalid

A city ordinance, declaring open ditches and canals exceeding specified width and depth through city public nuisances and requiring owners thereof to fill them or construct pipes therein of sufficient size to carry all water permitted to flow through them was invalid as applied to irrigation corporation's ditch or canal constructed under statutory authority before organization of

city with territory including part of canal and its laterals  
Neb—City of Scottsbluff v. Winters Creek Canal Co., supra

53. Tex—Barstow Town Co v Carr, Civ App., 234 S W. 555

54. Colo—Seven Lakes Water Users' Ass'n v Fort Lyon Canal Co., 4 P 2d 1112, 89 Colo 515.

55. Colo—Seven Lakes Water Users' Ass'n v Fort Lyon Canal Co., supra

56. Cal—Fresno v Fresno Canal, etc., Co., 32 P 943, 98 Cal 179.

58. Idaho—Washington County Irr Dist v Talboy, 43 P 2d 943, 55 Idaho 382

#### Defenses

Irrigation district was not precluded from recovering damages for diversion of stored water from reservoir on ground that district abandoned its water right, where water was actually diverted from natural stream and impounded in reservoir, and no other appropriator was contesting right of reservoir owners to divert and impound water.

Idaho—Washington County Irr Dist v Talboy, supra.

59. Neb—Corpus Juris quoted in

Robinson v Dawson County Irr Co., 8 N.W 2d 179, 183, 142 Neb 811.

67 C J p 1386 note 62.

Actions to establish and protect irrigation rights see supra § 317.

#### Ruling on demurrer

In suit to quiet title to and enjoin the use of water distribution system where it was alleged that consumers entered property contrary to the terms of their lease, broke gate and used water for mining purposes and threatened by forceful means to continue to do so unless restrained, and complaint showed that plaintiff owned dam and reservoir and that water was being taken from them forcibly by defendants, trial court had right to assume on demurrer that water contained in the reservoir and which was being wrongfully used was "real property" appurtenant to the reservoir subject to disposition under lease.

Cal—San Juan Gold Co v San Juan Ridge Mut Water Ass'n, 93 P 2d 582, 34 Cal App 2d 159

60. Neb—Corpus Juris quoted in Robinson v Dawson County Irr Co., 8 N.W 2d 179, 183, 142 Neb 811.

67 C J. p 1386 note 63

61. Cal—Last Chance Water Ditch Co v Emigrant Ditch Co., 61 P. 960, 129 Cal 277.

### b. Affecting Rights of Way

The owner of an easement for irrigation works may sue to prevent, or recover damages for, interference with his easement.

A suit for injunction on petition of an irrigation company lies against a defendant to prevent the disposal of waste waters into its canal, regardless of damage,<sup>62</sup> or to enjoin him from interfering with the making of improvements designed to conserve water.<sup>63</sup> Furthermore, an action lies by the owner of a right of way for an irrigation ditch across public lands to recover damages against a trespasser who willfully herds his animals thereon,<sup>64</sup> and a judgment for plaintiff will be sustained where pleadings and proof establish his ownership and possession of the ditch and the right of way, and the wrongful acts of defendant done without plaintiff's consent.<sup>65</sup> No action lies, however, where there is no willful herding of animals on the right of way, but merely a use of the land in the ordinary course of husbandry for grazing purposes.<sup>66</sup> Where the grantor of land reserved an easement for a ditch and the grantee closed the ditch, but constructed a new one of equal efficiency, an equity court may in its discretion approve the moving of the ditch and place on the grantee the burden of maintaining it.<sup>67</sup>

### c. Affecting Irrigation Works

The owner of irrigation works or an easement there-in may bring an action for injuries to the works

An action lies on behalf of the owner for any destruction of, or injury to, the physical structure of its canal or other works,<sup>68</sup> including injury to plaintiff's works resulting from negligent operation by another of other irrigation works belonging to him,<sup>69</sup> or for destruction of plaintiff's easement rights therein,<sup>70</sup> or to restrain a threatened destruction or injury thereto which would result in irreparable damage,<sup>71</sup> as, for example, the wrongful removal of a headgate,<sup>72</sup> or the choking or filling up of the canal with mining debris.<sup>73</sup> A city or county which constructs or maintains a highway across an easement for irrigation waters, although not required to maintain the existing works of the easement owner, is liable in damages for injuries to the works caused by improper construction and maintenance of its highway.<sup>74</sup>

**Defenses.** Abandonment of a ditch by its owner is a defense to his action brought to recover damages for its destruction.<sup>75</sup> It is a defense in an action to enjoin a city constructing its storm sewers to empty into plaintiff's ditch located within the city that the ditch was a natural drainage way into which the surface waters in the city natural-

Neb.—*Corpus Juris* cited in *Gering Irr Dist v Mitchell Irr. Dist*, 3 NW 2d 566, 571, 141 Neb 344

62. Idaho—*Farmers' Co-op Irr Co v Alsager*, 277 P 430, 431, 47 Idaho 555

67 C J p 1386 note 66

63. Utah—*Big Cottonwood Tanner Ditch Co v Moyle*, 174 P 2d 148, 109 Utah 213, 172 A L R 175.

#### Evidence held sufficient

(1) To show that improvement would render ditches more hazardous to children

Utah—*Big Cottonwood Tanner Ditch Co v Moyle*, supra.

(2) To show that only practicable method of improvement was used  
Utah—*Big Cottonwood Tanner Ditch Co v Moyle*, supra.

#### Evidence held insufficient

To show that proposed method of improvement was unreasonable or would unnecessarily damage owners of servient estates

Utah—*Big Cottonwood Tanner Ditch Co v Moyle*, supra.

#### Relief held improper

Where trial court erred in holding that irrigation company's proposal to improve its ditches would extend beyond its easement rights, the court also erred in restraining the company from improving its ditches as proposed and in retaining jurisdiction in

order to pass upon and approve plan for improving the ditches before the plan should be put into effect

Utah—*Big Cottonwood Tanner Ditch Co v Moyle*, supra.

64. Wyo—*Harmony Ditch Co v Sweeney*, 222 P 577, 31 Wyo 1

65. Wyo—*Harmony Ditch Co. v Sweeney*, supra.

69. Utah—*West Union Canal Co v Provo Bench Canal & Irr Co*, 208 P 2d 1119, 116 Utah 128

#### Allowing water to flow into ditch

Where defendant, with notice that excess water escaping from his ditch in the past had damaged plaintiff's canal, allowed water to flow into his ditch after unusually heavy rainfall, with result that water entered plaintiff's canal, filled it with debris, and caused a break in plaintiff's pipe line, plaintiff could recover damages for defendant's negligence

Utah—*West Union Canal Co v Provo Bench Canal & Irr Co*, supra.

70. Ariz—*Beville v. Allen*, 237 P 184, 28 Ariz 397.

Colo—*Stuart v Davis*, 139 P 577, 25 Colo App 568

#### Mandatory injunction

Where plaintiffs acquired prescriptive easement in irrigation ditch running through defendants' land, and defendants admitted existence of such easement, and without plaintiffs' consent constructed new enclosed ditch, defendants were guilty of arbitrary violation of property rights of plaintiffs and would be required to restore rights of plaintiffs

Ariz—*Stamatis v Johnson*, 224 P 2d 201, 71 Ariz 134, modified on other grounds 231 P 2d 956, 72 Ariz 158.

71. Ariz—*Beville v. Allen*, 237 P 184, 28 Ariz 397  
67 C J. p 1386 note 72.

72. Idaho—*Austin v Wilson Irr Co*, 199 P 375, 34 Idaho 87

73. Idaho—*Stocker v Kirtley*, 59 P 891, 6 Idaho 795

74. Cal—*Board of Directors of Turlock Irr Dist v Fair*, 276 P 2d 109, 128 Cal App 2d 833—*Board of Directors of Turlock Irr Dist v City of Ceres*, 254 P 2d 907, 116 Cal App 2d 824

75. Neb—*Dawson County Irr Co v Dawson County*, 183 NW. 655, 106 Neb. 367.

ly drained.<sup>76</sup> Failure of plaintiff to observe the terms of an agreement designed to prevent the damage complained of is a defense to his suit for an injunction.<sup>77</sup> It is no defense in an action for destruction of an irrigation ditch that its owner has failed to file a statement and a map of the ditch as required by statute,<sup>78</sup> nor in an action for destruction of easement rights in a ditch that another had offered plaintiff an option of securing water from another ditch.<sup>79</sup>

**Parties.** Where several companies are using a ditch, all must be made parties to a suit brought by one to enjoin its use by a city.<sup>80</sup>

**Pleadings.** The pleadings must be sufficient as to special damages.<sup>81</sup> In an action for destruction of the dam and headworks, in which defendant pleads the general issue, plaintiff must prove ownership of the property,<sup>82</sup> but, in an action for damages for wrongfully interfering with plaintiff's ditch, it is sufficient for plaintiff to show priority of possession and right to use the water where defendant claims no title.<sup>83</sup>

**Evidence.** Evidence of the cost of restoring a ditch wrongfully destroyed by defendant is admissible in an action to recover damages for the destruction, notwithstanding plaintiff was not entitled to all the waters he claimed.<sup>84</sup> General rules

have been applied in determining the weight and sufficiency of the evidence in actions based on injuries to irrigation works.<sup>85</sup> Thus, in an action to recover damages for destruction of a ditch, evidence of its permanent nature and of its continued use by plaintiff for a long period of years is sufficient to disprove allegations of the defense that the canal destroyed was not a part of plaintiff's irrigating system,<sup>86</sup> but evidence of the loss of two trees out of an orchard proved otherwise to be in good condition is not sufficient to establish a substantial loss from alleged destruction of a ditch.<sup>87</sup> In an action to enjoin destruction of an embankment by the owner of land through which plaintiff's ditch runs, evidence of ownership of the land is not of itself sufficient to support the defense of the right to use the water.<sup>88</sup>

**Trial and judgment.** Where there is sufficient evidence to take the case to the jury on an issue of compensatory damages, the court should not direct a verdict for nominal damages.<sup>89</sup> Instructions must be proper,<sup>90</sup> and the judgment must conform to the pleadings<sup>91</sup> and the evidence.<sup>92</sup>

**Damages.** The measure of damages for the permanent destruction of an irrigation ditch is the difference in the value of the land irrigated, with and without the ditch,<sup>93</sup> from which should be

Colo—City & County of Denver v Noble, 237 P 2d 637, 124 Colo 392.

deducted the reasonable market value of the water stock owned by plaintiff.<sup>94</sup> For temporary damage to his irrigation ditch, the owner may recover the reasonable expense of restoration plus his loss of income for a reasonable time,<sup>95</sup> including the difference in rental value of the property with and without water for the period the ditch was not in operation,<sup>96</sup> loss of crops, measured by market value less expenses,<sup>97</sup> and the cost of replanting a field,<sup>98</sup> but the rental value of land used for growing crops the loss of which has been compensated by special damages should not be considered in computing the damages.<sup>99</sup> Special damages may include actual expenditures for seed for the year of destruction,<sup>1</sup> preparation of the land for cultivation,<sup>2</sup> loss of crops already in existence and not included in the value of the land before destruction of the ditch,<sup>3</sup> the cost of digging a well, if the wa-

ter in the ditch was usable for culinary purposes,<sup>4</sup> and interest on the amount awarded at the legal rate from the date of destruction,<sup>5</sup> but no damages should be awarded for the loss of profits on future crops which were not planted.<sup>6</sup> The damages recoverable for wrongful removal of an irrigation company's bridge is the value of the bridge, not the cost of erecting a new one, plus the reasonable cost of dirt removal necessitated thereby.<sup>7</sup> In proceedings for an injunction, defendants who had destroyed an old ditch and constructed a new one were properly required to pay the cost of a new headgate in the new ditch for plaintiff's use, where a headgate already constructed was not an adequate substitute for the original headgate used to divert water to plaintiff's land.<sup>8</sup>

Punitive damages may be awarded only if defendant acted in a willful or malicious manner.<sup>9</sup>

## E. DISTRIBUTION AND SUPPLY OF WATER FOR IRRIGATION

### § 352. Right to Supply of Water

- a. In general
- b. Nature of right
- c. Conditions precedent to right to supply
- d. Amount of water to which consumer entitled

#### a. In General

A distributor must supply water for irrigation to all

who are entitled thereto, within the ability of the distributor to do so in the exercise of reasonable diligence, and as long as it has any supply of water to distribute, and consumers cannot complain of any use which does not interfere with their rights.

It is the duty of a distributor of water for irrigation purposes to supply water to all persons who may be entitled thereto,<sup>10</sup> within the ability of the distributor to do so in the exercise of reasonable diligence,<sup>11</sup> and as long as it has any supply of water to distribute,<sup>12</sup> and, on the other hand, consum-

**Duty to use all available water**

All available water supply should be used as far as possible under irrigation law

Wyo—In re Greybull Valley Irr. Dist., 76 P 2d 339, 52 Wyo 479, followed in Brewer v. Greybull Valley

ers of water for irrigation purposes cannot complain of any use of the irrigation system or canal granted by its owner, or acquired by operation of law, which does not interfere with their rights<sup>13</sup> A consumer cannot acquire a right to a supply of water for irrigation in excess of the capacity of the canal or system supplying him<sup>14</sup>

Although not required to receive water for which he has no further use or pay therefor without using it,<sup>15</sup> one who has been receiving a supply of water from a distributor and applying it to the irrigation of his lands has a right to its continued use,<sup>16</sup> which right may be secured by statute,<sup>17</sup> and which exists unless the supply is diminished by a shortage of water for which the distributor is not responsible,<sup>18</sup> or by a shortage by reason of the increased demand of added consumers,<sup>19</sup> in which cases the duty of the distributor is to supply such water as it has, fairly apportioned among its consumers<sup>20</sup> A consumer cannot lawfully be deprived of any part of the supply of water to which he is entitled in order that the distributor may sell it to later comers<sup>21</sup> Where a consumer has a right to a supply of water from certain sources, the fact that he acquiesces in being supplied from one source will not amount to a waiver or abandonment of his right to be supplied from another source should the source used prove inadequate<sup>22</sup> Where a formal application and deposit of charge is required in order to entitle a landowner to demand water for irrigation, his right to demand water is controlled by conditions existing at the time of the filing of

such application and deposit of the required charge<sup>23</sup>

*From irrigation district* An irrigation district is created for the equal benefit and general welfare of all persons owning lands therein, and such district owes a duty to deliver water for each tract of irrigable land within its boundaries.<sup>24</sup> It holds the title to the waters and irrigation works in trust for the various water users who are entitled to share proportionately in the entire water supply available for irrigation purposes,<sup>25</sup> and such district cannot charge a landowner for maintenance of the irrigation system and arbitrarily refuse to deliver his proportionate share of water.<sup>26</sup> An irrigation district owes no duty to furnish water to a consumer until its system and facilities have been constructed, or until, by the use of ordinary care, it can extend its completed facilities to the consumer's land and have sufficient water in its canals to supply the consumer's legal demands in accordance with the statutes and the reasonable rules and regulations of the district<sup>27</sup> A water user in a particular irrigation district may look to officials of other districts to see that his rights are not interfered with, and he need not make a demand on any particular user therein for water<sup>28</sup>

*From irrigation or ditch company.* An irrigation company, the business of which is affected with a public interest, and which is not organized merely to furnish water to its own stockholders, has the duty of furnishing water, in the absence of contract, to the extent that the available supply has not already been contracted to other consumers,<sup>29</sup>

29. Ariz—Whiting v Lyman Water Co, 124 P 2d 316, 59 Ariz 121, affirmed 129 P 2d 995, 59 Ariz. 458.

provided the service which the consumer demands is the kind of service which the company was organized to render.<sup>30</sup> An irrigation company supplying water to the public may not arbitrarily discontinue its service in whole or in part.<sup>31</sup> A mutual irrigation company which receives its supply of water from another irrigation company supplying water to the public for irrigation purposes is a consumer of water with the same rights and subject to the same obligations as other consumers.<sup>32</sup>

**Necessity of application to beneficial use** A consumer has a right to a supply of water for irrigation only where he actually applies the water to a beneficial use,<sup>33</sup> without waste.<sup>34</sup> One who owns a water right but no land on which water can be put to a beneficial use has no right to a supply of water.<sup>35</sup>

**Abandonment of rights** Where the owners of water rights have abandoned such rights, another consumer may acquire the right to the use of the water so abandoned, either by appropriation or application to a beneficial use, or under contract with a distributor owning the paramount appropriations and water rights.<sup>36</sup> The fact that the owner of a water right represented by shares of stock in an irrigation company does not use the full quantity of water to which his shares entitle him, without an intention to waive any right, his cotenants and les-

sees using all the excess, does not work an abandonment of his rights.<sup>37</sup> A water right constituting an easement in a ditch cannot be lost by nonuser alone, short of the period for the limitation of actions to recover real property.<sup>38</sup>

**In absence of contract.** The right of a consumer to water exists, in the absence of contract, where the supplying of water for irrigation is a public use and water has been dedicated to certain lands.<sup>39</sup> Water may not be dedicated to land within a certain area in the absence of any contract between the water company and its stockholders to that effect and without compliance with any statutory provision.<sup>40</sup>

**Place of delivery.** Under a statute providing that it is the duty of a distributor of water for irrigation to deliver it at a point convenient to the consumer, it has been held that it must also be turned out at the point that will cause the least waste by seepage and evaporation.<sup>41</sup>

**Waste water.** The fact that water primarily belonging to one consumer becomes drain or waste water and is used by another consumer in turn does not establish a dedication of such water directly from the canal to the lands of the second user,<sup>42</sup> and the user cannot compel the distributor to maintain such waste water, although a rental is charged

therefor, for his right depends entirely on the water wasted from the lands of the first consumer<sup>43</sup>

**Offenses.** A statute making it a misdemeanor for a distributor of water for irrigation purposes to refuse to furnish and deliver water to a consumer after proper demand and tender of the lawful rate of compensation, when it can lawfully furnish water without infringement of prior rights, has been held to apply only to persons owning or possessing land under the ditch needing water.<sup>44</sup>

### b. Nature of Right

The right to a supply of water for irrigation is a right in real property and may be appurtenant to land.

The right to a supply of water for irrigation purposes is held to be a right in real property,<sup>45</sup> and has been said to be an incorporeal hereditament<sup>46</sup> and a covenant running with the land,<sup>47</sup> and may be a property right<sup>48</sup> or easement<sup>49</sup> appurtenant to land,<sup>50</sup> although subject to regulation<sup>51</sup> The right to a supply of water may be a servitude on the irrigation system,<sup>52</sup> binding on a successor in title of the irrigation system who has notice of the servitude, either actual or constructive<sup>53</sup> The fact that such an appurtenance may be transferred to other

lands does not render it less a complement to the land or make it an independent entity or chattel<sup>54</sup> On the other hand, it has been held that the exercise and enjoyment of a right to irrigation water does not create an easement in the property of the irrigation corporation or the consumer, but is simply a right of service,<sup>55</sup> and where the right to use water for irrigation is dependent on the ownership of shares of stock in an irrigation corporation, which shares do not represent rights to irrigate any particular land, such rights are not appurtenant to the land.<sup>56</sup>

Where water for irrigation has been dedicated to public use, the right of an individual to a supply is in the nature of a public right possessed by reason of his status as a person of the class for whose benefit the water is appropriated or dedicated, and all who enter the class may demand the use of the water, regardless of whether they have previously enjoyed it,<sup>57</sup> or whether they own stock in the distributing system<sup>58</sup> The actual delivery of water for irrigation purposes is an incident of the relation of distributor and consumer, which relation arises as soon as the distributor becomes ob-

ligated to furnish water and the consumer becomes obligated to take it.<sup>59</sup>

*Distributor or Consumer as Appropriator* It is the rule in some jurisdictions that the irrigation company or district distributing water to its consumers is the appropriator of the water from the source of supply, the consumer having merely a right, contractual or otherwise, to a supply of water for irrigation purposes,<sup>60</sup> and it is not necessary that the irrigation company or district own or possess land in connection with its system in order to be such an appropriator.<sup>61</sup> In other jurisdictions, however, the rule has been established that an irrigation company or district which does not itself own or possess arable and irrigable land cannot be an appropriator of water from its source of supply, but the appropriation is completed only by the application of the water to a beneficial use by the consumer,<sup>62</sup> and, while the consumer under this rule is in a sense an appropriator, he does not occupy the exact status of an independent appropriator directly from a stream, since his rights are limited by the terms of his contract with the distributor, as well as by limitations imposed by law on the relations between distributor and consumer.<sup>63</sup> Under this rule, the distributor has the status of a carrier or agency, public or private, depending on whether its purpose or practice is to supply owners or possessors of land who are not stock or water right holders and to whom it has assumed no contractual obligation, or is merely to supply those owners or possessors of land with whom it has fixed contractual relations.<sup>64</sup> Where the right

to water of an appropriator thereof is merely inchoate, no water having yet been applied by him to a beneficial use, an irrigation district or landowners therein desiring a supply of the water so appropriated but not used are under no obligation to purchase from the appropriator, but may secure water independently of him from such sources as they choose.<sup>65</sup>

### c. Conditions Precedent to Right to Supply

A consumer must make application or demand for water for irrigation and tender payment therefor.

In order that a consumer may have a right to a supply of water for irrigation purposes, he must make such seasonable and proper application or demand therefor as may be required by statute or otherwise,<sup>66</sup> and pay or tender payment at the established rates or on a proper basis of compensation,<sup>67</sup> and the distributor may require the charges to be paid or secured in advance.<sup>68</sup> The tendering of maintenance fees is not a condition precedent to a right to water where no maintenance fees have been assessed by the distributor.<sup>69</sup> Where a distributor refuses to furnish water except at a higher rate than that at which a consumer is entitled to receive it, the distributor is not excused from its obligation to furnish water by the fact that the consumer did not make a demand for a specific amount and did not tender payment in advance at the contract rate.<sup>70</sup> Under provisions of constitution and statute securing to everyone who has rented water from an irrigation company the right to rent from year to year and making such rental a dedication, and providing for the tendering of rea-

70. Cal—Henrick v South Feather Land & Water Co, 170 P. 1135, 177 Cal 442.

sonable compensation, or reasonable security for payment, the right of a user to water depends on his complying with the statute as to payment of compensation, or tender of security therefor.<sup>71</sup> Where an irrigation district has adopted a rule requiring landowners to keep their ditches and facilities for distributing water in good condition so that it can be used without undue loss or waste, a landowner cannot compel an irrigation district to furnish him the share to which he is entitled without showing that he is prepared to use the same.<sup>72</sup> where the irrigation company is organized to furnish water only to its own stockholders, a person is not entitled to a supply of water from such company until he acquires or establishes title to a water right.<sup>73</sup> While compliance by a consumer with conditions precedent to a right to a supply imposed by statute places a duty on the distributor to furnish water,<sup>74</sup> the compliance with such conditions has been held to be unnecessary where the distributor has expressly assumed the obligation of furnishing water.<sup>75</sup>

#### d. Amount of Water to Which Consumer Entitled

The amount of water to which a consumer is entitled is limited to that quantity which can be put to a beneficial use, and his right to any quantity of water to which he may be otherwise entitled depends on his necessities and ceases with them.

A consumer, claiming a right to water for irrigation under contract or otherwise, is entitled only to that quantity of water which he can reasonably and economically put to a beneficial use,<sup>76</sup> and his right to any quantity of water to which he may

be otherwise entitled depends on his necessities and ceases with them.<sup>77</sup> An irrigation company or district may not knowingly furnish water to a consumer in excess of his needs and beneficial use.<sup>78</sup> The fact that a consumer has a rental right for a fixed amount of water does not of itself entitle him to that amount of water, unless he can and will apply it to a beneficial use, and whenever he ceases to apply any part of it to such use, his right to have that amount turned out to him ceases for the time being, and the extra quantity becomes at once available for another user and consumer.<sup>79</sup>

The volume of water to which a consumer is entitled may be validly limited by contract,<sup>80</sup> or deed.<sup>81</sup> Where the right of a consumer to a certain quantity of water has been established by contract and usage, he may continue to have a right to the same amount in the absence of contract.<sup>82</sup> One who voluntarily transfers water rights to an irrigation company in return for its contract to furnish water in certain quantities cannot claim a greater quantity to which he was entitled under his former water rights.<sup>83</sup> Where a contract for the sale of water specifies the exact amount to which the consumer is entitled under the contract, he cannot claim a larger amount to the extent of the capacity of the pipes connecting the system with the consumer's land.<sup>84</sup> Under a statute providing that a consumer who has contracted for, and beneficially used, a specific volume of water for any particular year, without valid limitation as to future use, will be entitled to the same volume in succeeding years

67 C J. p 1393 note 71.

when needed for irrigation, on tender of lawful rates and compliance with reasonable rules of the distributor, it has been held that the amount of water to which the consumer may become entitled is limited by his contract, and he is not entitled to the amount which may have been actually applied to his land in preceding years, when in excess of the amount contracted for <sup>85</sup>

A person entitled to receive a certain amount of water for irrigation purposes may lose a part of such right by prescription by accepting for the statutory period a lesser quantity of water than that to which he was originally entitled <sup>86</sup> Where a consumer has the right to only so much water as is necessary to irrigate a certain tract of land, he cannot use water to irrigate such tract and an additional tract also <sup>87</sup> Where the quantity of water to which a user is entitled has been determined by court decree, such determination is controlling in later collateral proceedings <sup>88</sup>

The proper place of measurement of irrigation water is at the place of diversion from the main canals of the irrigation system. <sup>89</sup>

### § 353. — Rights of Particular Persons to Supply

- a. Stockholders or members of company or association
- b. Consumers not stockholders or members of company or association
- c. Consumers within area of irrigation system or district
- d. Consumers outside area of irrigation system or district

### a. Stockholders or Members of Company or Association

A stockholder in an irrigation company generally has the right to a share in the whole volume of water in proportion to his holdings therein, except as his right may be fixed by contract or the company may have resorted to another plan of distribution, but a stockholder has no right to receive the amount of water to which his share entitles him in any manner other than through the system of the irrigation company.

Where the service of an irrigation company, instead of being public or general, is limited to its own stockholders or members, each of them has the right to a share of the whole volume of water in proportion to his shares of stock or holdings in the company, <sup>90</sup> except as his right may be fixed by contract, <sup>91</sup> or the company may have resorted to another plan of distribution <sup>92</sup> A stockholder in an irrigation construction company under a reclamation project has also been held to have a contract right to the amount of water evidenced by his certificates of stock <sup>93</sup> Under some statutes, the rights of stockholders in mutual irrigation companies have been treated as analogous to those of tenants in common, <sup>94</sup> but there is authority holding that such stockholders are not tenants in common, but have a contract relation with the company <sup>95</sup> A stockholder has no right to receive the amount of water to which his shares entitle him in any manner other than through the system of the irrigation company. <sup>96</sup> The rights of a stockholder to the continued use of water may depend on the paying of assessments duly levied <sup>97</sup>

It is the duty of an irrigation company organized for the purpose of supplying water to its stockholders to exercise reasonable care and diligence in procuring and distributing water to its stockholders, <sup>98</sup> and where a stockholder's land

is so situated that it can be irrigated from certain reservoirs only, it is the duty of the company, if practicable, by the exercise of reasonable care and diligence, and without prejudice to the other stockholders, to retain a sufficient amount of water in such reservoirs to irrigate that land<sup>99</sup>

Stockholders in an irrigation company who are supplied with water from one source of supply, which supply fails, are not estopped by their acquiescence in being supplied from the first source to claim their proportionate share from another source of supply,<sup>1</sup> and it has been held that a shareholder in a mutual water company is not prohibited from acquiring shares in a different water company,<sup>2</sup> at least, where the right of the company to serve its stockholders is considered not an exclusive one.<sup>3</sup> Persons becoming stockholders in an association and thereby agreeing to be bound by rules and regulations for the use of water prescribed by governmental authority are estopped to use water contrary to such rules and regulations.<sup>4</sup>

*Irrigation district as stockholder.* Articles of incorporation of an irrigation company restricting the use of water to land owned or possessed by stockholders do not exclude owners of land in an irrigation district which district is a stockholder in the company.<sup>5</sup>

*Municipality as stockholder.* Where a municipality becomes a stockholder in a mutual irrigation company, the company does not assume the duty of supplying the city in accordance with its needs,<sup>6</sup> the city having the right only to that amount of water to which its stock entitles it,<sup>7</sup> and if the acquisition of such stock by the city was ultra vires and void, the company is under no compulsion to furnish the city with any water.<sup>8</sup>

*Directors* of an irrigation corporation, formed for the benefit, principally, of its promoters, cannot buy water rights from the corporation at a price

so low as to injure the interests of stockholders of the corporation.<sup>9</sup>

*Property in water.* Water delivered by an irrigation company into a stockholder's private pipe line becomes his personal property with complete right of disposal as long as the rights of others are not injured.<sup>10</sup>

*Waste water.* Any stockholder who needs waste water in the company's ditch has an equitable right to the use thereof, although it may exceed his technical allowance measured by his shares of stock.<sup>11</sup>

*Stockholder's right as appurtenant to land.* While a stockholder's right to water from an irrigation system becomes appurtenant to the land under some statutes,<sup>12</sup> it has been held that it is not essential to recognition of the right that it be appurtenant to any particular land.<sup>13</sup>

#### b. Consumers Not Stockholders or Members of Company or Association

An irrigation company need not furnish water acquired for its stockholders to users with no vested right therein, but a stockholder may not object to a sale of water if he is not prejudiced thereby.

In the absence of contractual liability, an irrigation company is not required to furnish to other users any of its own water acquired for its stockholders or for sale in case of a surplus over the amount required by its stockholders,<sup>14</sup> but a stockholder may not object to the sale of water outside the territorial limits for such sale provided in the charter of the irrigation company, where the stockholder is not prejudiced by the sale.<sup>15</sup> An irrigation company which has not issued all the shares of its authorized stock may reopen its subscription for shares and contract to sell additional water rights if it does not thereby impair the rights of its present stockholders.<sup>16</sup> Where an irrigation company, not being itself an appropriator of the water carried, supplies water to others than its

water right holders, a nonwater right holder, on payment of the charge for similar service made to other nonwater right holders, is entitled to receive water sufficient for irrigation purposes in preference to other nonwater right holders whose appropriations are subsequent in time, although they claim under orders or leases from water right holders<sup>17</sup>

**c. Consumers Within Area of Irrigation System or District**

An irrigation district may be prevented from supplying water for use within the district to others than the persons under contract therefor

Owners of water rights within an irrigation district may prevent the district from supplying water to consumers for use on lands within the district other than those for which the water was contracted to be furnished, when the result of such action would be to deprive other lands within the district of water necessary for the proper irrigation thereof, even though the right to transfer the supply is given by statute enacted subsequent to the contract creating the right to a supply<sup>18</sup>

**d. Consumers Outside Area of Irrigation System or District**

A distributor supplying water is under no obligation to supply water to land outside the territory to be served, and the rights of consumers outside the area of the system or district are subordinate to the rights of consumers within such area; but a consumer entitled to water within the area may use the water outside the area if the rights of other consumers within the area are not injuriously affected thereby.

When there is no surplus of water over the amount required for the irrigation of lands within such territory, a distributor supplying water to the public and possessing a limited amount of water need supply no water to lands outside the territory to which the water has been dedicated,<sup>19</sup> or outside

the fixed limits of the territory to be served,<sup>20</sup> except as the right thereto may be gained in the manner provided by statute,<sup>21</sup> and the rights of consumers outside the area of the system or district must be subordinate to the rights of consumers within such area<sup>22</sup> Accordingly, an irrigation district is not required to furnish water to persons outside the district who have not acquired a vested right to the use of such water, when the water is required for the irrigation of lands within the district<sup>23</sup> A consumer entitled to water within the area of the system or district may use such water outside the area, however, if the rights of other consumers within the area are not injuriously affected by the change in place of use<sup>24</sup> Where water has become dedicated to the use of an outside community, it cannot later be treated as surplus water which an irrigation district may sell at its pleasure<sup>25</sup>

Where an irrigation district has in fact agreed to furnish water to a landowner outside the district, the district will not be relieved from liability for failure to furnish such water by the fact that the land was outside the district<sup>26</sup> A consumer within an irrigation district cannot complain of the unauthorized sale of water by the district for use on lands lying outside the district unless he is thereby deprived of water to which he was entitled<sup>27</sup> A reclamation district acquiring property by purchase in order to obtain a supply of water for its needs, and agreeing as a part of the consideration to furnish water to the vendors, cannot refuse to comply with the agreement, although the lands to be so furnished are outside the district.<sup>28</sup>

**§ 354. — Priority of Rights**

In the absence of statutes or contracts affecting priorities, consumers applying water to a beneficial use who are prior in time are generally superior in right.

28. Wash.—Talbot v Whitestone Reclamation Dist, 281 P. 11, 154 Wash 102

In the absence of statutes determining priorities, or of contracts providing for prorating in times of shortage of supply, or for other methods of distribution, it is the general rule in determining relative rights between consumers that users applying water to a beneficial use who are prior in time are superior in right,<sup>29</sup> and priorities between consumers are not based on the dates of their respective contracts<sup>30</sup> The retention by a consumer of a priority once acquired depends on his application of the water to a beneficial use<sup>31</sup> When all the waters of an irrigation canal have been applied to a beneficial use under a sale or rental, and, when not needed by the users entitled thereto, are furnished to a subsequent applicant, the applicant has only the right to use such water as is not required by the prior users,<sup>32</sup> and by using the water the subsequent applicant does not become vested with a right interfering with the rights of the prior users<sup>33</sup>

Already existent consumers are entitled to water in preference to the distributor itself, or its proprietary successors in interest,<sup>34</sup> and a distributor cannot make appurtenant to its own land water which it has already sold to consumers<sup>35</sup>

It has been held that the right to priority in the use of water for irrigation purposes must be determined as though all the provisions of the stat-

utes of the jurisdiction regulating the use of state waters had been written into the contract, and the rights of the parties must be determined by construction of the statutes rather than of the contract<sup>36</sup> Under some statutes, a landowner has no preferential rights<sup>37</sup> Thus, under statutes denying the right of priority as among the owners of lands adjoining or contiguous to the canals and laterals of an irrigation company, it has been held that all land so situated has equal right to the available water supply in case of a water shortage, without regard to when particular land was first put in cultivation or was first supplied with water from the canals of the irrigation company.<sup>38</sup> Under a statute giving effect to the customs of persons participating in the distribution of water for irrigation purposes, subject to prior vested rights, and prescribing the order of priority of right to distribution of water from an irrigation ditch or canal, portions of a canal have been held to be severable in determining the relative rights of consumers.<sup>39</sup>

*Priority of right to supply as affected by priority of appropriation.* Decrees determining the priorities and the amount of appropriations to the several ditches in an irrigation district are not intended to designate the persons entitled to the use of water thus appropriated to a particular ditch, or to de-

**Statutory provision against interference with vested rights**

Proposed restriction on Colorado's uses of water of North Platte River for irrigation purposes did not violate act which appropriated funds for federal reclamation project which provided that project should not interfere with present vested rights for all beneficial purposes in Colorado, since the act does not limit or restrict Nebraska's or Wyoming's claim for apportionment against Colorado, and the project under existing conditions could store no water without violating other priorities

US—State of Nebraska v State of Wyoming, 65 S Ct 1332, 325 US 589, 89 L Ed 1815

**Disputes as to priorities under Reclamation Act**

Under Reclamation Act, secretary of interior has no concern in disputes between various entrymen which concern their respective priorities, other than as a stakeholder

39. Neb—Fenton v Tri-State Land Co., 131 NW. 1038, 89 Neb 479

termine the relative rights or priorities of consumers from any particular ditch, as between themselves<sup>40</sup> Where priorities of appropriation have been decreed in favor of a ditch through which a number of consumers are supplied, it has been held that all consumers taking water from the ditch have the right to be supplied from all the priorities decreed to the ditch through which they are supplied, when the rights of the consumers by virtue of prior use aggregate the volume of such decreed priorities, and in such circumstances stand on an equal plane.<sup>41</sup> It has been said, however, that in a case where the first appropriation decreed a ditch was designed for some particular purpose or enterprise, and later priorities awarded were to supply a different class or group of consumers from the first, the rights of the different classes of consumers would be distinct and would attach only to the respective priorities awarded for their respective use.<sup>42</sup> In jurisdictions where it is the rule that the appropriation of water for irrigation is not complete until it has been applied to a beneficial use by the consumer, it is also held that the appropriations of water by consumers who receive the same through an irrigation system do not necessarily relate back to the same time, but such consumers may have different priorities in respect of the water<sup>43</sup> An irrigation company cannot, by any provision of its bylaws, rules, or regulations, exempt itself or its stockholders from the operation of the laws in respect of priority of appropriation<sup>44</sup>

§ 355. — Discrimination

A distributor of water for irrigation purposes may not ordinarily discriminate between consumers, although a public service company may give a preference to its regular consumers as against consumers which the company has undertaken to serve only when it has a surplus of water over the needs of its regular consumers.

It is the general rule that neither an irrigation district<sup>45</sup> nor an irrigation company supplying water to the public,<sup>46</sup> or a municipality distributing water for irrigation,<sup>47</sup> may discriminate between consumers or give any consumer a preference over another. A public service company may, however, give a preference to its regular consumers as against consumers which the company has undertaken to serve only when it has a surplus of water over and above the needs of its regular consumers<sup>48</sup> An irrigation company which furnishes water to its stockholders only may not make arbitrary discriminations between different stockholders<sup>49</sup> Where water has been appropriated to a public use by a distributor for purposes of irrigation, it cannot later be converted lawfully into a private use so as to create a private preferential right there-to for the benefit of a specific parcel of land,<sup>50</sup> and such an appropriator cannot, on sale of the irrigation system, reserve any part of the waters so appropriated for the irrigation of its private land, unless a private appropriation has been made through the same system, in which case the reservation must be limited to such private appropriation<sup>51</sup>

40. Wyo.—Corpus Juris quoted in State v Laramie Rivers Co, 136 P 2d 487, 495, 59 Wyo 9. 67 C J p 1397 note 28

Effect of decree

(1) While water rights adjudication, mentioning appropriation of water as being carried through a ditch, may be prima facie evidence of right to divert water through such ditch, it is not binding when question of existence of the right comes directly in issue

Wyo.—State v Laramie Rivers Co, supra

(2) In decree apportioning rights in water of river and in reservoir created by United States government dam, provision that use by upper owners might disregard priority rights of United States below the dam merely meant that, to the extent that upper users were using the equivalent of water already impounded and thus available for use of the United States below the dam, such storage should be relied on by the United States to satisfy its priority rights to divert water from the natural flow before diversion by upper owners, and did not entirely subordi-

nate government's rights to rights of upper owners

US—Gila Valley Irr Dist v. U S, CCA Ariz, 118 F 2d 507

(3) Under decree apportioning rights in waters of river and in reservoir created by United States government dam, providing for annual apportionment to upper users of an amount from the "natural flow" of the river equal to that "stored" in the reservoir, the amount "stored" was not the entire amount of water flowing into the reservoir, notwithstanding that as a physical fact all water reaching the reservoir must be temporarily stored therein

### § 356. — Change in Manner or Place of Delivery

Where rights of a consumer, distributor, or third party may be injuriously affected, the manner or place of delivery of water for irrigation may not be changed

The manner or place of delivery of water to a consumer for irrigation may not be changed by the distributor if by such change the rights of the consumer or of third parties will be injuriously affected<sup>52</sup> Where a distributor of water has for a considerable time furnished a consumer with water and has allowed him to convey it to his lands in a certain manner for purposes of irrigation, the distributor is not justified in demanding that the consumer lower the level of his land at his own expense in order to permit the water to be furnished at a point other than where it has previously been delivered<sup>53</sup> Under a statute providing that an appropriator of water from a stream can change the point of diversion of water from the stream only after proper application to the state engineer, and after due notice and the hearing of such application, it is held that the transfer of the delivery of water from one ditch to another within an irrigation system is not a change in point of diversion within the provisions of the statute<sup>54</sup> In determining whether an irrigation company may change the manner or place of delivery of water to a stockholder, due consideration must be had both for the property rights of the user and the necessities of the company, since the company should be allowed to conduct its business in such a way as efficiently to serve all its stockholders, as far as this can be done without interfering with the user's legal rights.<sup>55</sup> Where a consumer has a right to a continued supply of water, a distributor may not deprive him

of his means of supply without making provision to supply him by other means without expense to the consumer.<sup>56</sup>

*Right of consumer to change.* In the absence of statutory prohibition,<sup>57</sup> a consumer of water for irrigation purposes has the right to a change in the manner or place of delivery of water to him by the distributor, where such change will not injuriously affect the rights of others.<sup>58</sup> A distributor which agrees to such a change may, in a proper case, be estopped to question it where the consumer has expended money and made improvements in reliance thereon.<sup>59</sup> A sale by a stockholder in an irrigation company of a part of his right to water will not work an abandonment of such right so as to preclude a change in the point of diversion of water from the irrigation system.<sup>60</sup>

*Change of supply to other land* A consumer may apply the water to which he is entitled for the irrigation of land other than that for which it was originally supplied, if such change of use will not injuriously affect the rights of others.<sup>61</sup> Where it is provided by statute that a change in the use of water must be approved by the state water board, it has been held that water made appurtenant to one tract of land cannot be lawfully used on a detached tract, even though owned by the same person, without the approval of such board.<sup>62</sup>

#### **Change of "place of diversion or**

**use"** within statute requiring approval of state engineer therefor does not take place where a stockholder in an irrigation company seeks to change the point of delivery of the water to which he is entitled from the company's canal or lateral where no other independent appropriators than the irrigation company have an interest in the canal or water  
Utah—Syrett v Tropic & East Fork Irr Co, 89 P 2d 474, 97 Utah 56.

#### **On theory of assignment**

Plaintiff owning land both within and outside of district could not, as against other landowners within district, claim a right to use water on plaintiff's land outside of district on theory that plaintiff could assign any water apportioned to him and not required for use on land within district, since plaintiff had nothing to assign.  
Mont—Koch v Colvin, 105 P 2d 334, 110 Mont. 594.

**a. Transfer of Stock in Irrigation Company**

The rights to a supply of water of a stockholder in an irrigation company organized to supply water to its stockholders only will be lost to the stockholder on his legal transfer of such stock to another, and will pass with the transfer of the stock to the transferee thereof

The rights to a supply of water of a stockholder in an irrigation company organized to supply water to only its stockholders are dependent on, and evidenced by, his shares of stock in the company,<sup>63</sup> and will be lost to the stockholder on his legal transfer of such stock to another,<sup>64</sup> and will pass with the transfer of the stock to the transferee thereof,<sup>65</sup> but the transferee can acquire no greater or different right to water than his transferor had<sup>66</sup>

There is authority to the effect that a transfer of a certificate separate from the land described therein transfers the water right for use on other land,<sup>67</sup> and it has also been held that the resale by an irrigation company of stock already issued, for nonpayment of assessments, severs the connection between the stock and the land to which it was originally ascribed, so that a purchaser of such stock may be entitled to water for use on other land,<sup>68</sup> and if such purchaser shows that he is the owner of land of the quantity, location, and character prescribed in the charter or bylaws of the company, he is entitled to be furnished that amount of water represented by his stock<sup>69</sup>. On the other hand, it has been held that as long as a water right represented by shares of stock in an irrigation company is attached to a particular piece of land, it cannot be made to do duty to other land not owned or possessed by the water right holder by the assignment of such right to another,<sup>70</sup> and that a corporation, succeeding to the proprietary rights of an irrigation company, cannot issue stock of a company organized to hold title to the irriga-

tion system and distribute water, to other than actual bona fide purchasers of land under the project to which the water would become appurtenant<sup>71</sup>

*Rights not dependent on ownership of stock*  
Where the rights of a water user are not dependent on ownership of stock in the water company, he does not forfeit his rights because of the loss of his shares of stock to the state.<sup>72</sup>

**b. Severance from Land of Right to Supply**

Rights to water for irrigation are generally severable from the land and may be transferred apart therefrom, as long as such transfer does not interfere with the rights of others.

Rights to water for irrigation purposes, although they may be appurtenant to land, and pass therewith on conveyance of the land, are not inseparably annexed thereto unless it is so provided by statute, but are severable from the land, and may be transferred separate and apart therefrom, as long as such transfer does not interfere with the rights of others<sup>73</sup>. When the original owner of a water right appurtenant to land conveys the right to an irrigation company in which he receives stock, the conveyance does not sever such water right from the land but merely changes its form.<sup>74</sup>

**c. Conveyance or Lease of Land Entitled to Supply**

A conveyance of land operates to pass rights to water for irrigation which are appurtenant thereto, unless such rights are reserved or are not intended to be included in the conveyance; and water rights may also be transferred with a lease of land.

Water rights which are appurtenant to land will pass therewith on a conveyance of the land,<sup>75</sup> and a grantee of the land together with the water rights will succeed to the rights which the grantor had to water for irrigation<sup>76</sup>. A deed conveying land

together with appurtenances will transfer all water rights appurtenant thereto at the time of its execution,<sup>77</sup> unless it appears by the terms of the conveyance that the rights were reserved or unless it is clearly shown that both parties intended not to include such water rights in the conveyance.<sup>78</sup> Where a severance of the water rights from the land has taken place, as by a legal transfer of stock in an irrigation company apart from the land, a subsequent sale and conveyance of the land to which the water rights formerly attached will not pass the title to such water rights.<sup>79</sup> Water rights may be transferred with a lease of land.<sup>80</sup>

A division of a tract of land to which the right to water for irrigation is appurtenant, without segregating or reserving the water right, will work a division of the water right in proportion as the land is divided.<sup>81</sup> An owner of a water right who conveys his land and retains his water right has no right to a supply of water when he has no land on which the water can be put to a beneficial use.<sup>82</sup> Where a consumer sells his land and water right stock to another and later repurchases the land without the stock, and irrigates the land by renting other water rights, or shares of stock representing them, he has been held to have abandoned his original water rights.<sup>83</sup> Where an irrigation company contracts for the sale of a tract of

land with a water right appurtenant thereto, it cannot claim to be the owner of the tract or of the quantity of water appurtenant thereto as long as the purchaser is not in default under the contract, and cannot apply water to its own land before the purchasers are supplied with the quantity purchased.<sup>84</sup>

### § 358 — Conveyance or Transfer of Irrigation System

A purchaser or lessee of an irrigation system must ordinarily supply prior consumers in the same manner as did its transferor, and rules governing conveyances in general apply to such transfers.

In the absence of statutory provisions to the contrary, a purchaser<sup>85</sup> or lessee<sup>86</sup> of an irrigation system, succeeding to the rights of its transferor and claiming the benefits attendant on such rights, is under an obligation to serve consumers previously receiving water from the system in the same manner as did its transferor. A transferee of a distributor of water for irrigation can acquire no greater interest in the irrigation project or in the water right contracts connected therewith than the transferor had.<sup>87</sup> Rules governing conveyances in general apply to transfers of an irrigation system with reference to their construction,<sup>88</sup> validity,<sup>89</sup> and operation.<sup>90</sup> Where a consumer hav-

Cal—San Juan Gold Co v San Juan Ridge Mut Water Ass'n, 93 P2d 582, 34 Cal App 2d 159

(2) Where consumers in such case signed by-laws which constituted at least among themselves a contract for the operation of the property and recognized membership roll and owner recognized members of association as parties beneficially interested under the lease and permitted them to gain control and operate system, consumers were estopped to deny that they had no legal rights as members of association

Cal—San Juan Gold Co. v. San Juan Ridge Mut Water Ass'n, supra.

(3) Where owner leased water distribution system consumers were not estopped, however, to deny owner's title

Cal—San Juan Gold Co. v San Juan Ridge Mut Water Ass'n, supra.

ing a right to a supply of water is made a party to an action wherein the irrigation system is sold at judicial sale free from all easements or rights, a purchaser at the sale takes free from such consumer's right to water.<sup>91</sup> The owners of an irrigation canal may convey the canal to others, retaining in themselves perpetual rights to water.<sup>92</sup>

### § 359. Regulation of Supply and Use

A distributor may make reasonable rules and regulations with respect to the supply, control, and distribution of water, and contracts pursuant thereto are subject to regulation by public authority.

A distributor of water for irrigation purposes may make reasonable rules and regulations with respect to the supply, control, and distribution of water,<sup>93</sup> and may protect the supply against unfair invasion by individual users,<sup>94</sup> but it cannot impose arbitrary restrictions on the supply of water under the guise of regulations.<sup>95</sup> The rules and regulations adopted must conform to existing contracts<sup>96</sup> and court decrees.<sup>97</sup> Where the right to the use of a supply of water is held by tenants in common of such right, a majority of the tenants in

common who form a coöperative corporation have no right to control and regulate the distribution of the water without the consent of the tenants in common who do not become stockholders in the corporation.<sup>98</sup> Where it is provided by statute that users of water for irrigation shall be classified as to their respective rights to the use of water according to priorities in the ditch, canal, or reservoir delivering or distributing the water, under which priorities their lands were reclaimed, it is held that the owner of an irrigation system must make such a classification of its consumers, on such information as it may be able to obtain and in fairness and in accordance with the terms of the statute,<sup>99</sup> and it may not make a classification of its own which is not in accordance with the statute,<sup>1</sup> the ultimate determination of classification, however, remaining with the courts.<sup>2</sup>

*Regulation by public authority.* Contracts between distributor and consumer regulating the supply and use of water for irrigation are subject to the right of the state to control such supply and use under its police power.<sup>3</sup> Where supported by

67 C J p 1403 note 1

#### Statute held not unconstitutional

Kan—State ex rel Emery v Knapp, 207 P 2d 440, 167 Kan 546

#### Factors considered in determining jurisdiction

The purpose for which water company was organized was a factor which might be considered in determining the character of the use to which water appropriated by the company was to be put, and whether commission had jurisdiction over rates and service

Cal—Lamb v California Water & Telephone Co., 129 P 2d 371, 21 Cal. 2d 33.

#### Reservation of private interest

Where water of river was appropriated by water company and dedicated to a public use, the company no longer had the right to reserve from its water supply any private interest so as to exclude the exercise of the public's regulatory power

Cal.—Lamb v California Water & Telephone Co, *supra*.

#### Determination of authority

With respect to whether appropriators of water rights were a public utility and hence subject to jurisdiction of public service commission, property may be shown to have been devoted to a public use without regard to statutory provisions.

Mont—Sherlock v Greaves, 76 P.2d 87, 106 Mont. 206.

substantial evidence, the findings of a public body will not be disturbed by the court.<sup>4</sup> In jurisdictions in which statutes place the control of water used for irrigation in a public board or commission, or in a state water engineer, it has been held that such public authority has the power to determine the amount of water necessary for the irrigation of specific lands,<sup>5</sup> but it has no control over irrigation waters which are privately owned and which have not been declared by statute to be public property.<sup>6</sup> Where a state water engineer is authorized by statute to enforce the rights of all water users, whenever and howsoever those rights may have been determined or adjudicated, such engineer has the power and authority to enforce rights which have been determined by court decree not as an enforcement of the decree, but as enforcing a right which the court has determined to exist.<sup>7</sup> It has been held, in the absence of statute to the contrary, where its supply of water justifies such action and no shortage of supply is anticipated, a public service irrigation company may take on new consumers on an equal basis with old consumers without, although not

against, an order of the commission or board regulating public utilities within the state.<sup>8</sup>

*Prorating of supply.* Subject to the general rule that consumers prior in time are superior in right, which rule applies in the absence of statute or contract to the contrary, as considered supra § 354, and in the absence of statutes providing other methods of distribution, a distributor of water for irrigation purposes may compel its consumers to prorate in times of drought or unusual shortage of supply,<sup>9</sup> either where a provision for prorating in times of drought or shortage of supply is included in the consumer's contract for water,<sup>10</sup> or where prorating is provided for by statute,<sup>11</sup> and where the distributor has followed the custom of prorating in times of shortage of supply, it may not deprive certain users on the basis of an arbitrary classification of consumers.<sup>12</sup> Where users who, under statute, have a prior right to the use of water for irrigation in times of scarcity have long acquiesced in the prorating of the supply at such times, and other users have made large expenditures relying on the belief that they have equal rights, such

users are estopped to claim their right of priority<sup>13</sup> A provision for prorating cannot be construed so as to authorize a distributor to sell water in excess of its supply,<sup>14</sup> and, since users are entitled to water in preference to the distributor or its successors in interest, as discussed supra § 354, it has been held that, in case of a shortage of supply, successors to the proprietary rights of a distributor are not entitled to prorate with purchasers of water from the distributor<sup>15</sup> Consumers contracting with an irrigation company or district after the enactment of a statute providing for the prorating of water in case of shortage of supply can have no greater right than permitted under the statute, and must prorate with subsequent contracting consumers<sup>16</sup>

### § 360. Sale of Water for Irrigation

Sale of water for irrigation is discussed infra §§ 361-363

Examine Pocket Parts for later cases

### § 361. — Contracts with Consumers

- a. In general
- b. Validity and legality

- c. Construction and operation
- d. Performance or breach

#### a. In General

Except in so far as limited by statute or considerations of public policy, the right to water for irrigation may be made the subject of contract.

Except in so far as limited by statute or considerations of public policy, the right to water for purposes of irrigation may be made the subject of contract,<sup>17</sup> and such contracts are governed by the ordinary rules applicable to contracts in general<sup>18</sup> A distributor may contract to deliver water to the limit of the supply of the system under its control,<sup>19</sup> and it cannot be compelled to furnish water to persons having no contract therefor when all available water, or the means of distributing the water, is necessary to meet the demands of those who have previously contracted for it,<sup>20</sup> although the distributor may have furnished water to noncontracting consumers as an accommodation when its contracting consumers did not require its entire supply<sup>21</sup>

The distributor and consumer may contract with respect to the volume, quantity, or measure of the water to be supplied,<sup>22</sup> the nature of the supply,<sup>23</sup> the manner or place of delivery,<sup>24</sup> the times or

22. US—Twin Falls Land & Water Co v Twin Falls Canal Co, D C Idaho, 7 F Supp 238, affirmed, C C A, 79 F 2d 431, certiorari denied 56 S Ct 381, 296 US 654, 80 L Ed 466  
67 C J p 1405 note 25

23. Cal—Chrisman v Southern California Edison Co, 256 P 618, 83 Cal App 249

24. US—People of Puerto Rico v Russell & Co, Puerto Rico, 62 S Ct 784, 315 US 610, 86 L Ed

seasons when it shall be furnished,<sup>25</sup> the necessity of a previous demand or notice that it is wanted,<sup>26</sup> the lands on which it shall be used for irrigation,<sup>27</sup> reasonable limitations and regulations in the use thereof,<sup>28</sup> and, as discussed *infra* § 363, the price or rate to be paid for its use. A distributor cannot require a consumer, in order to obtain a supply of water, to enter into a contract which is unreasonable<sup>29</sup> or which binds him to do things not required by law,<sup>30</sup> nor may it impose on a consumer any conditions not authorized by law.<sup>31</sup>

The right of a distributor to contract to supply consumers with water is subject to statutory restrictions designed to secure equal distribution in time of drought,<sup>32</sup> and to subordinate rights of owners of lands not adjoining or contiguous to rights of owners of adjoining or contiguous lands to receive an adequate supply of water.<sup>33</sup> The rights of a contracting consumer to a supply of water are fixed by the terms of his contract,<sup>34</sup> and the court cannot grant such a consumer relief although his contract stipulates for a supply which proves inadequate.<sup>35</sup> The rights of consumers to receive water under a contract cannot be affected by an agreement between other users to which they were not parties.<sup>36</sup> Consumers of water under contract with a distributor cannot complain of any use of the irrigation canal or system granted by its owner or acquired by operation of law, not interfering with their rights.<sup>37</sup> A contract consumer

from a public service irrigation company who has elected to avail himself of the status of a noncontract consumer may not return to his former status if the distributor protests.<sup>38</sup> The right to contract for a supply of water for irrigation is not confined to the owner of the land, but tenants may also contract therefor.<sup>39</sup>

*Implied contract based on continued use.* Where a consumer has obtained for several years a specified quantity of water from an irrigation company for irrigation for a reasonable compensation, there has been held to be an implied contract that the company will continue to deliver the water.<sup>40</sup>

*Limitation of contracts to capacity of system.* Contracts for the sale of rights to a supply of water for irrigation should be restricted to that amount of land which the system of the distributor can reasonably supply,<sup>41</sup> and where the applications for water exceed the capacity of the distributor's canal to furnish it, it is the duty of the distributor to limit the contracts to its capacity and to those users possessing the older rights of appropriation.<sup>42</sup>

Where, due to a mistake in estimating the available supply, contracts have been made to supply water in excess of such available supply, persons already receiving water under contract will not be deprived in order to supply later comers contracting with knowledge of the insufficiency of supply.<sup>43</sup> Where water rights in excess of the capacity of the system or canal are sold, the grants as to the

excess may be canceled<sup>44</sup> or the distributor must relinquish to the purchasers water which it had retained for itself;<sup>45</sup> but when all the contracting consumers are not before the court, it can neither decree that all contracts executed after the full capacity of the system had been sold be canceled, nor can it scale down all the contracts proportionately both in the amount of the water right and the consideration to be paid therefor.<sup>46</sup>

Where an irrigation company has sold water rights in excess of the capacity of an irrigation ditch, and the irrigation system is later transferred to another company, the transferee company is not responsible for the obligations of the transferor which has sold such excess rights, where such obligations have not been assumed by the transferee, and the transferee is not estopped to deny the authority of the transferor to make such sales.<sup>47</sup>

### b. Validity and Legality

The validity and legality of contracts for the sale of water for irrigation are governed by general rules of contract, and contracts providing for the furnishing of a specified quantity of water regardless of its beneficial use are invalid, but an invalid provision will not render the entire contract void where the illegal part can be separated from the body of the agreement.

The rules governing the validity and legality of contracts in general are applicable to contracts for the sale of water for irrigation purposes.<sup>48</sup> Contracts providing for the furnishing of a specified quantity of water regardless of its beneficial use have been declared to be invalid.<sup>49</sup> Where the directors of an irrigation district are authorized by statute to fix rates for toll charges for water, a provision of a contract with a consumer waiving the right of the district to exact tolls is void.<sup>50</sup> An invalid provision will not render the entire contract void where the illegal clauses can be separated from the body of the agreement.<sup>51</sup>

### c. Construction and Operation

Contracts for the sale of water for irrigation are governed by general rules of construction, the measure of the rights and liabilities of the parties being found in the contract and applicable statutes.

Contracts for the sale of water for irrigation are to be construed according to the rules applicable to the construction of contracts in general.<sup>52</sup> The measure of the rights and liabilities of the distributor and consumer is to be found in the contract for water and in the applicable statutes, if any, and not in the rules of the irrigation company or district,<sup>53</sup> and, where there is a conflict between the

Wyo—Anderson v Wyoming Development Co, 154 P 2d 318, 60 Wyo 417

67 C J p 1407 note 58.

#### Substitution of distributor

The substitution of water company in place of electric water power company as direct seller to irrigation district of water taken from river by electric water power company, did not relieve electric water power company from the responsibility incumbent on it to see that water for irrigation district was supplied to irrigation district through the water company

Cal—Thermalito Irr Dist v California Water Service Co, 239 P 2d 109, 108 Cal App 2d 329

#### Temporary suspension of delivery

Where contracts provided that company should have the right to "suspend temporarily" the delivery of water, and that the making of repairs by company should be prosecuted as rapidly as may be practicable, and over period of years, company did not take canal out of service for repairs, company was not authorized to suspend delivery of water for four months while it made repairs

Cal—Thermalito Irr Dist v California Water Service Co, supra

53. Wyo—State v Laramie Rivers Co, 136 P 2d 487, 59 Wyo 9.  
67 C J p 1409 note 59

Statute construed not to authorize state supervisor to determine rights of parties to contract without both parties' consent.

terms of the contract and the applicable statutes, the rights of the parties must be determined by a construction of the statutes, rather than of the contract, the contract being treated as if all the provisions of the applicable statutes were written into it.<sup>54</sup> The subsequent purchase of an irrigation corporation by a public irrigation district does not of itself, without appropriate legislative action or consent of the consumer, make the statutes and laws under which it was authorized to organize and operate a part of the original contract made with the irrigation company.<sup>55</sup>

A distributor of water for irrigation in making a contract to furnish water to a consumer must be presumed to have known all the physical facts affecting the agreement and to have contracted accordingly.<sup>56</sup> When the contract gives the distributor the sole right to say when water shall be furnished, that does not give it the right to refuse to furnish any water at all.<sup>57</sup> A stipulation in a contract that water for irrigation is to be delivered in such quantities and at such times as the condition of the crops and the weather may determine has been held to pertain not to the measure of the consumer's water right, but to the method of giving such right its greatest efficiency.<sup>58</sup> A contract by an irrigation company conveying water rights is not executory simply because it provides that the grantee shall receive the water during the irrigation season in each year thereafter, but such contract passes a property right.<sup>59</sup> A consumer's long acquiescence in a practical construction of a contract for a supply of water for irrigation will estop such consumer to claim another construction, when a change would result in loss to parties relying on the original construction.<sup>60</sup>

#### d. Performance or Breach

The failure to perform a contract to furnish water

for irrigation purposes constitutes a breach of such contract.

The failure of a distributor of water for irrigation purposes to perform a contract to furnish water constitutes a breach of such contract,<sup>61</sup> and not a wrong independent of it.<sup>62</sup> The United States has no interest in the performance of contracts for water rights on federal lands, to which contracts it is not a party, the contracts being made between an irrigation company and settlers on such lands.<sup>63</sup>

Where a consumer has a right to water only on payment of the contract rate therefor, his refusal to pay for water and his insistence on his right to take and use it without charge amount to a breach and repudiation of his contract,<sup>64</sup> entitling the distributor to treat the contract as terminated,<sup>65</sup> and to sue for the legally established rate, or, where none has been established, for the reasonable value of the services rendered, as discussed *infra* § 363. A consumer's failure to execute period contracts provided for in the permanent contract has been held not to constitute a termination of the main contract.<sup>66</sup> A purchase by the consumer from a source other than the distributor is not a breach of contract with the latter where the contract is not exclusive,<sup>67</sup> but such a purchase is a breach of an exclusive contract.<sup>68</sup> A consumer's use of water to irrigate land other than that stipulated in his contract for water or deed of a water right constitutes a breach of contract.<sup>69</sup>

Where, by the terms of the contract, the distributor has the right to make regulations as to the consumer's place of taking water and as to the time and manner of its use, the failure of the distributor to furnish water on a reasonable demand therefor constitutes a breach of the contract in the absence of a showing that rules had been

promulgated by the distributor.<sup>70</sup> Where the duty is imposed by statute on a distributor to notify a consumer when water is ready for delivery, and the distributor gives such notice but fails to deliver water, such failure amounts to a breach of the contract to furnish water.<sup>71</sup> A contract binding a distributor to furnish water for the irrigation of land binds it to furnish the water whether the other party is cultivating the land himself or by tenants.<sup>72</sup>

*Excuse for nonperformance.* The rules governing excuses for nonperformance of contracts in general are applicable to contracts for the sale of water for irrigation.<sup>73</sup>

### § 362. — Conveyance of Water Rights

The right to a supply of water may be the subject of conveyance by a distributor, and a purchaser, successor, or mortgagee of the irrigation system with knowledge of the previous grant will be bound by the grantor's covenants.

A distributor of water for irrigation purposes may sell and convey to a consumer a water right, entitling him to receive a certain quantity of water from its system,<sup>74</sup> and a purchaser<sup>75</sup> successor,<sup>76</sup>

or mortgagee<sup>77</sup> of the irrigation system, or of the part thereof from which such consumer has the right to water, with knowledge of the previous grant, will be bound by the grantor's covenants. A conveyance of a permanent right to receive a certain quantity of water for irrigation may be made,<sup>78</sup> which conveyance amounts to the conveyance of an easement in the ditch or system furnishing the water,<sup>79</sup> and such water right becomes appurtenant to, and a part of, the land.<sup>80</sup>

*Assignment of deed conveying water rights.* An assignment of an irrigation company's deed conveying water rights does not constitute a transfer of the interest conveyed by the deed.<sup>81</sup>

### § 363. — Rates and Charges

- a Contracts
- b Regulation
- c Payment and collection

#### a. Contracts

Except in so far as limited or controlled by statute or public authority, a distributor may generally make its own contract with consumers in respect of rates and

80. Wyo—Corpus Juris quoted in State v Laramie Rivers Co, 136 P 2d 487, 499, 59 Wyo 9  
67 C J p 1411 note 86

#### Covenants running with the land

Where irrigation company created water reservoir and conveyed to trustee a permanent water right in lake to extent of two thousand acre feet of water per annum for irrigation purposes, and obligated itself to pass water through canal to be distributed upon lands by laterals and ditches, such permanent rights, privileges and easements were covenants that went with the land  
Tex—City of Wichita Falls v Bruner, Civ App, 191 S W 2d 912

81. Colo—Blakely v Ft Lyon Canal Co, 73 P 249, 31 Colo 224.

charges for a supply of water for irrigation, but the distributor may charge only for the water actually supplied.

Except in so far as limited or controlled by statute or public authority,<sup>82</sup> a distributor of water for irrigation purposes may make its own contracts with consumers in respect of rates and charges for a supply of water.<sup>83</sup> The distributor is generally permitted to charge only for the water actually supplied,<sup>84</sup> and it cannot exact a bonus or separate charge for the mere privilege of connecting with its system.<sup>85</sup> Where the rate to be charged by a public utility for water furnished for irrigation has not been fixed by public authority, it may be fixed by agreement between the parties on a basis which is reasonable and not prohibitive,<sup>86</sup> and such an agreement is valid and enforceable between the parties so long as not abrogated or modified by the body vested with the power of regulating the service,<sup>87</sup> but it is subject to the right of the state in the exercise of its police power to regulate and fix reasonable rates.<sup>88</sup> An irrigation company which becomes a public utility as to part of its service may, however, retain a part of its water supply for private sale, and the submission of the company to the jurisdiction of the public rate fixing body in such case will not affect the

rights of private contract holders which have already vested.<sup>89</sup>

A statute authorizing the distributor and consumer to fix by contract the amount to be paid for water furnished for irrigation has been held to authorize the parties to fix by contract an annual maintenance charge for the use of water.<sup>90</sup> Where a consumer receives more water during the irrigation season than he is entitled to receive for the irrigation of the lands described in his contract for water or deed of a water right, there is an implied contract that he will pay the reasonable value of the use of such excess water.<sup>91</sup> In jurisdictions where covenants will not run with land unless contained in a grant of the land or of some estate therein, it has been held that covenants to pay a specified charge for water for the irrigation of specific land are not covenants running with the land.<sup>92</sup> The position has been taken in other jurisdictions, however, that covenants to pay for a supply of water or for water rights appurtenant to specific land are covenants running with such land.<sup>93</sup>

- (3) Reasonableness of rates
- (4) Discrimination
- (5) Proceedings for relief against unreasonable rates

(1) In General

Unless restricted by contract or withdrawn or superseded by statute, the right to set up and regulate rates for the sale and distribution of water for irrigation belongs primarily to the distributor thereof.

Unless restricted by contract, or withdrawn or superseded by statute placing regulation and control of rates under public authority in the case of a business affected with a public interest,<sup>94</sup> the right to prescribe and regulate rates for the sale and distribution of water for irrigation purposes belongs primarily to the distributor thereof.<sup>95</sup> Where there is a duty imposed on a distributor to supply water for irrigation, such supply must be given on reasonable terms.<sup>96</sup> Although a court has no power to establish rates for the use of water for irrigation, since it has the power to prescribe conditions on which injunctive relief will be granted, it may prescribe the rate to be paid during the pendency of a suit involving the rates to be paid for irrigation water.<sup>97</sup>

(2) Determination and Regulation by Public Authority

The state has authority to regulate rates made for water supplied for the purpose of irrigation where affected with a public interest.

In pursuance of its general power to regulate the rates charged by public utilities, the state has authority to regulate the rates and charges made for water furnished for irrigation purposes where such service is affected with a public interest,<sup>98</sup> but rates for the sale and distribution of water under the sale of a private water right,<sup>99</sup> or to stockholders in an irrigation company organized for the purpose of supplying its stockholders only,<sup>1</sup> are not subject to regulation by public authority. The submission by a distributor to the authority of the public regulating body for the establishment of rates makes its service subject to regulation and control by public authority,<sup>2</sup> although as shown supra subdivision a of this section, such submission will not affect the rights of private contract holders which have already vested. The payment under compulsion by a contract consumer of increased rates as prescribed by the public rate fixing body does not amount to an acquiescence by the consumer in the claim of the distributor that it is a public utility.<sup>3</sup>

Where rates for the sale and distribution of water for irrigation are subject to regulation by public authority, the power to establish and regulate rates may be vested in any public body the legislature may designate, such as the public utilities commission,<sup>4</sup> the railroad commission,<sup>5</sup> the county commissioners,<sup>6</sup> a board of water commissioners

**Power held not divisible**

Colo—Northern Colorado Irr. Co v Board of Com'rs of Arapahoe County, 38 P2d 889, 95 Colo 555.

**Condition precedent to invocation of authority**

A disagreement between board of directors of water conservancy dis-

or supervisors,<sup>7</sup> or in the board of directors of an irrigation district.<sup>8</sup>

The power of the public rate fixing body to make rules and regulations governing rates is discretionary, and a court cannot interfere with its refusal to make such rules and regulations in the absence of a showing of abuse of discretion.<sup>9</sup> Where landowners, intervening in a receivership proceeding against a public service irrigation company after a sale of the company's system by order of court, claim rights to water under contract with the former owner, such question cannot be passed on where the claimants have never applied to the public rate fixing body for the determination of rates for their use of water.<sup>10</sup>

### (3) Reasonableness of Rates

The rates for water furnished for irrigation must be reasonable as to distributor and consumer

The rates and charges for the sale of water for irrigation purposes by a distributor furnishing water to the public must be reasonable both as to the distributor and as to consumers.<sup>11</sup> In prescribing and regulating rates and charges for the sale and

distribution of water for irrigation where such service is affected with a public interest, there are to be applied the general principles applicable in the cases of other public utilities, as to the rate base, and the determination of the elements thereof,<sup>12</sup> so as to allow the distributor a fair return.<sup>13</sup> Where a rate which has been fixed for the supplying of water for irrigation has been vacated by the court as unreasonably low, the irrigation company must again go before the rate fixing body and have a reasonable rate established,<sup>14</sup> the old rate remaining in effect until a new rate is determined by the rate fixing body,<sup>15</sup> and the distributing company cannot charge a higher rate before such new rate has been determined.<sup>16</sup>

### (4) Discrimination

A discrimination in fixing rates based on reason and justice can properly exist, but the rate fixing body may act so as to remove any unfair discrimination.

While it is the general rule, as considered supra § 355, that a distributor of water for irrigation supplying water to the public may not discriminate against individual users of its water, a discrimination in fixing rates for water for irrigation based

trict and water users regarding charge to be made for sale or leasing of water is a condition precedent to invoking power of county commissioners to establish water rates, and the commissioners can act only on petition of an interested party, even if constitution giving county commissioners authority to establish rates is applicable to water conservancy district

#### Rate held confiscatory

U.S.—Kern Island Canal Co v Railroad Commission of California, D C Cal., 12 F Supp. 848

#### Matters considered in determining reasonable return

In determining reasonable return on rate base for carrying charge for water conveyed to consumers by ditch company, the effect of the use of the water on the land and the value of the water rights was proper for the court's consideration, since ditch company was entitled to a rate of return that would make its securities valuable and as desirable to the investor in securities as the land is desirable for one who intends to engage in agricultural pursuits

Colo—Board of Com'rs of Jefferson County v Rocky Mountain Water Co., 79 P 2d 373, 102 Colo 351

15. Idaho—Green v Jones, supra.

16. Idaho—Green v Jones, supra.

on reason and justice can properly exist.<sup>17</sup> In fixing rates to be charged for water furnished for irrigation the public rate fixing body may act so as to remove any unfair discrimination which may exist as between contracting consumers and noncontracting consumers<sup>18</sup>

(5) Proceedings for Relief against Unreasonable Rates

An action may be maintained by either a consumer or a distributor to obtain relief from unreasonable rates or charges.

An action to obtain relief from unreasonable rates or charges may be brought by either a distributor or consumer of water supplied for irrigation, who is affected by such rate.<sup>19</sup> Under the rule obtaining in some jurisdictions that a party claiming rates fixed by a public rate fixing body to be unreasonable may apply to such body for a re-examination of such rates, it has been held that resort must be had to such means of securing relief from the enforcement of such rates before any determination as to their reasonableness can be made by a court.<sup>20</sup> A court may set aside such rates and order the regulatory body to fix rates which are reasonable and are allowed by law when a regulatory board or commission has arbitrarily and without the exercise of judgment fixed rates to be charged for water for irrigation,<sup>21</sup> or has fixed rates which are found to be unreasonable,<sup>22</sup> the court having the power to determine the reasonableness and justness of rates according to its own

independent judgment as to both law and facts,<sup>23</sup> but the court has no power to fix other rates itself.<sup>24</sup> The established rate is binding on all persons affected by it until annulled by some proper court on direct attack in an appropriate proceeding,<sup>25</sup> and it is not subject to collateral attack.<sup>26</sup> Failure of a distributor to offer evidence as to the value of its water rights before the public rate fixing body does not estop it to assert that the value of such rights was not taken into account in fixing the rate.<sup>27</sup>

The enforcement of unreasonable rates may be enjoined,<sup>28</sup> and a temporary injunction may be issued to restrain the enforcement of the established rates pending determination of the suit.<sup>29</sup> In an action by a consumer for a determination of the rate which he shall pay for water for irrigation, he is not entitled to an injunction pendente lite to restrain the shutting off of his water supply pending determination of the action, where the distributor is willing to furnish water at the rate established for service to the public generally, and the consumer's damage, if any, can be accurately measured by any overcharge which he may pay for water.<sup>30</sup>

Where a court has adjudged a rate fixed by a public rate fixing body to be unreasonable and void, such body cannot repudiate the order of the court by again establishing an identical rate, based on the same evidence,<sup>31</sup> but the rate fixing body may take into consideration in determining a rate evidence taken at former hearings before such body.<sup>32</sup>

*Review of orders of rate fixing body.* A court will not set aside orders of a public rate fixing body in matters over which it has jurisdiction because of errors in the admission or rejection of evidence, where the error does not amount to the entire exclusion of evidence otherwise admissible, touching a matter in issue<sup>33</sup> In a jurisdiction where the scope of the writ of certiorari extends only to review the judicial action of an inferior tribunal, board, or officer, done in excess of its jurisdiction, it has been held not to extend to review an order of a rate fixing body establishing a rate for water furnished for irrigation<sup>34</sup> Under some statutes the court has no authority to receive evidence on any issue but is required to hear the cause on the record of the commission as certified to it,<sup>35</sup> and where no claim is made that an implied finding of the commission is not supported by the record, the court must conclude that the commission regularly pursued its authority<sup>36</sup>

### c. Payment and Collection

- (1) In general
- (2) Right of distributor to refuse supply for nonpayment
- (3) Lien for rates and charges on land or crops
- (4) Actions to recover charges
- (5) Actions to recover excess charges paid

#### (1) In General

An owner or appropriator of an irrigation system may collect from a consumer for the supply of water and fees for the maintenance of the system as provided by statute or contract, and where no rate or charge has been determined, the distributor is entitled to be paid the reasonable value of the services rendered.

Generally, a consumer is not required to pay for water rights for lands not susceptible of irrigation from the distributor's system,<sup>37</sup> but where a consumer has contracted to pay a minimum sum for each acre of land owned by him, he cannot avoid payment in part because some of his land is not capable of being irrigated<sup>38</sup> An owner or operator of an irrigation system may collect maintenance fees from the consumers for the construction and maintenance of the irrigation system, as provided by statute<sup>39</sup> or contract between the parties<sup>40</sup> Where a distributor has accepted payment in advance for water to be furnished a consumer, the consumer has a right to receive the amount of water for which he has paid<sup>41</sup> It is generally held that a consumer is not liable to pay for irrigation water which he does not receive,<sup>42</sup> even though the contract for water provides that the distributor shall not be responsible for a deficiency of water due to specified causes<sup>43</sup> Where a contract for water rights provides for deferred payments on the fulfillment by the distributor of certain conditions, a receiver of the distributor cannot collect such deferred payments which have been paid into court until the terms of the contract are complied with,<sup>44</sup> and a contract holder who has paid any part of such deferred payments to a receiver of the distributor under order of court is entitled to a credit on his contract for the amount so paid<sup>45</sup>

A consumer cannot avoid liability to pay for water which has been supplied to him under contract by a sale of his land,<sup>46</sup> or by a failure to construct a ditch agreed to be constructed by him,<sup>47</sup> or by showing that the distributor's ditch has been negligently and unskillfully constructed<sup>48</sup> or that the land failed to produce as much revenue as the amount of the rate fixed by the contract,<sup>49</sup> nor

49. Tex—Combs v United Irr Co. Civ App, 110 S W 2d 1157, error dismissed

does breach of the distributor's covenant to furnish water excuse nonpayment for water received by the consumer.<sup>50</sup> Where no rate or charge has been determined for water supplied for irrigation purposes, either by public authority or by private contract, the distributor is entitled to be paid the reasonable value of the services rendered.<sup>51</sup> Where there is no contract for a supply of water, a landowner is not liable for water furnished without his knowledge or consent.<sup>52</sup> One who receives no supply of water for irrigation directly from a distributor, but who uses for the irrigation of his lands waste water flowing onto his lands from the lands of adjacent consumers, cannot be made to pay the distributor for the use of such water.<sup>53</sup> Landowners who are consumers of water furnished by an irrigation company and who are beneficiaries under a trust deed executed by the company do not abandon their rights by nonpayment of water charges.<sup>54</sup>

*Subsequent purchaser of land* A covenant in a contract for a supply of water or in a deed of a water right that the consumer will pay a stipulated contract price or rental for the use of such water, and which may provide that such agreement to pay shall bind the land, does not make a subsequent purchaser of the land personally liable for such payment,<sup>55</sup> although as shown infra subdivision c (3) of this section the rates or charges for water furnished may be made a lien on the land for the irrigation of which the water is furnished when so

provided in the contract for water.

## (2) Right of Distributor to Refuse Supply for Nonpayment

A consumer's supply of water may be withheld by the distributor for default in payment of current rates or charges, but the mere failure to pay in the amount and at the times stipulated does not work an abandonment of the consumer's water right.

A distributor may withhold a supply of water from a consumer until payment of current rates or charges has been made in accordance with the provisions of statute or contract,<sup>56</sup> or until reasonable security has been given for such payment,<sup>57</sup> and a consumer may be enjoined from using water until such payment is made,<sup>58</sup> but the mere failure to pay rates or charges in the amount and at the times stipulated has been held not to work an abandonment or forfeiture of a consumer's water right,<sup>59</sup> and where the covenants of the distributor to furnish water and of the consumer to pay for it are separate and independent, the breach by the consumer of his covenant does not excuse the distributor for a failure to furnish water.<sup>60</sup> So where a good faith controversy and protracted litigation existed as to the interpretation of the contract, it would be inequitable to require payment of past-due maintenance charges as a condition precedent to the delivery of water.<sup>61</sup> A distributor may withhold the delivery of water for nonpayment of charges past due, after giving due notice that the supply will be shut off unless arrears are paid up.<sup>62</sup> Where the

62. Pa—Pennsylvania Water Co v McDonald, 179 A 874, 119 Pa. Super 99  
67 C J p 1419 note 78

### Notice showing intent not to cancel contract

Notice sent out by water company to customer advising that water bill was past due, that thirty-day credit period had expired, but that credit period had been extended forty-eight hours after which water would be turned off and charge of one dollar made for turning it on again, indicated on its face that water company did not intend to cancel contract to furnish water.

consumer claims an absolute right to take water beyond the control of the distributor, and without making payment therefor, the distributor may cut off the supply.<sup>63</sup> A distributor may shut off the water for nonpayment even though he has another remedy to enforce payment,<sup>64</sup> but it has been held that, where a remedy is specifically provided by statute for the enforcement of payment, a distributor may not refuse to furnish water as a method of enforcement,<sup>65</sup> nor may he declare a forfeiture of the water contract and all payments theretofore made.<sup>66</sup> Under a statute imposing a criminal penalty for the taking of water by a consumer in default of payment and contrary to the orders of the distributor, it has been held that the distributor is confined to the remedy given by the statute.<sup>67</sup> Where a consumer has defaulted in payment of rental for water for irrigation, and the distributor delivers water and accepts payment for years subsequent to those during which the defaults occurred, such acts operate as a waiver of the distributor's right to insist on a forfeiture of the consumer's right to receive water.<sup>68</sup>

### (3) Lien for Rates and Charges on Land or Crops

Pursuant to contract or statute, rates for water may be made a lien on the land for the irrigation of which

such water is supplied which may be enforced against subsequent purchasers of the land with notice.

The rates or charges for water furnished by a distributor to a consumer for irrigation purposes may be made a lien on the land for the irrigation of which the water is furnished and delivered, or on the crops grown on such land, when so provided in the contract for water,<sup>69</sup> or under the provisions of statutes,<sup>70</sup> which lien may be enforced against subsequent purchasers of the land with notice thereof, either actual or constructive,<sup>71</sup> and, where the distributor has complied with its part of the contract, a lien may be enforced against such subsequent purchaser even though he does not use the water.<sup>72</sup> It has been held that a lien for rental of a water right of limited duration may be enforced against a tenant of the land supplied, who has contracted for such water right.<sup>73</sup>

Where it is provided by statute that a distributor shall have a preference lien on the crops for which the water is furnished, such lien has been held to be superior to the lien of a landlord for unpaid rent,<sup>74</sup> or to a mortgage lien on a crop.<sup>75</sup>

Where there is a contract for water, a lien for rates or charges cannot be enforced where water has not been delivered under the terms of the contract.<sup>76</sup> Where a statute allowing a lien is held to contemplate a contract, it has been held that no lien

can be enforced where no such contract exists<sup>77</sup> Where the distributor has failed to perform its contract to furnish a specified quantity of water, but has furnished a substantial quantity of water, which has been accepted and used by the consumer, although such quantity was insufficient for the proper irrigation of the land, a lien may be enforced for the fraction of the contract price represented by the water furnished,<sup>78</sup> and where a foreclosure of a lien for less than the full contract price is allowed, the amount for which a lien is allowed will bear interest at the rate specified in the contract<sup>79</sup> It has been held, however, that a court of equity will not enforce a lien for water furnished for irrigating purposes, where the water furnished was of no benefit to the land, because the supply was inadequate<sup>80</sup>

*Lien under Carey Act Reclamation Project.* Where liens against land or water rights are authorized by federal statute to be created by a state for the actual cost of reclamation under an irrigation project, and are provided for by state statutes enacted in conjunction therewith, any company which has constructed an irrigation system and sold water rights,<sup>81</sup> or which is furnishing water for the irrigation of land, in accordance with the statutes,<sup>82</sup> has a lien on the land or water rights for the charges fixed for such service, it being for the state to determine the amounts for which such liens

will attach<sup>83</sup> Where it is provided by statute that the lien of the distributor of water for irrigation shall be prior to any other liens on the land, it has been held that the lien of an irrigation construction company for the expense of constructing the system is superior to a lien for assessments made by an operating company for the expense of maintaining and operating the system<sup>84</sup> Where deferred payments for water to be furnished through an irrigation system not completed at the time of the contract are made a lien on the land to be supplied, the lien does not attach until the water has been made permanently available for the irrigation of the land<sup>85</sup>

*Foreclosure of lien.* Actions to foreclose liens for rates or charges for water furnished for irrigation are governed by the usual rules applicable to other civil actions<sup>86</sup> Where a lien for rates and charges is provided by statute, it is held that the remedy provided by the statute for foreclosure of the lien for the payment of such charges is exclusive<sup>87</sup> In an action to foreclose a lien for water furnished a tract of land, plaintiff has a right to rely on the record title to the land<sup>88</sup>

#### (4) Actions to Recover Charges

A distributor may recover rents or charges for water either by common-law remedy or as provided by statute

Distributors of water for irrigation purposes may recover the rents or charges therefor either under an appropriate common-law remedy,<sup>89</sup> or under such

77 La—Haas v Ardoin, App, 145 So 388  
67 C J p 1420 note 95

#### Intent of contract

Where water service contract revealed intent that lien could only be imposed upon water-stocked land, and stock purchase contract which was only basis for water-stocking the land was void, lien for payment of irrigation water was properly denied Cal—Western Canal Co v McRae, 97 P 2d 1031, 36 Cal App 2d 419

78. US—Twin Falls Oakley Land & Water Co v Martens, CCA Idaho, 271 F 428, certiorari denied 42 S Ct 49, 257 US 637, 66 L Ed 410

83. Idaho—Idaho Irr Co v Pew, 141 P 1099, 26 Idaho 272

84 US—Brown v. Portneuf-Marsh Valley Irr Co, CCA Idaho, 5 F 2d 895, certiorari denied 46 S Ct 204, 270 US 637, 70 L Ed 773, affirmed 47 S Ct 692, 274 US 630, 71 L Ed 1243

85 Idaho—Childs v Neitzel, 141 P 77, 26 Idaho 116

86. Cal—Consolidated Irr Dist v Crawshaw, 20 P 2d 119, 130 Cal App 455, followed in 20 P 2d 122, 130 Cal App 463  
67 C J p 1420 note 8

#### Jurisdiction

Court in which water company brought suit for delinquent water charges and foreclosure of liens therefor against landowners, not protesting against nor repudiating or disputing bills for such charges or seeking relief from railroad commission, acquired jurisdiction of defendants' persons

Cal—Happy Valley Water Co v Thornton, 34 P 2d 991, 1 Cal 2d 325

#### Evidence held sufficient

To establish that land was no longer subject to lien

Or—Cabell v Federal Land Bank of Spokane, 144 P 2d 297, 173 Or 11

#### Judgment

Declaration in judgment that lien

was prior to rights and interests of all defendants and that purchaser would acquire all rights and interests of defendants meant only that defendants had no right or interest in the land subject to the lien that was being foreclosed

Wyo—Ohio Oil Co v Wyoming Agency, 179 P 2d 773, 63 Wyo 187

87. Idaho—Rogers v. Thomas, 226 P 165, 38 Idaho 802  
67 C J p 1421 note 9

88. Tex—Ball v Rio Grande Canal Co, Civ App, 256 SW 678  
67 C J p 1421 note 10

89. Tex—South Tex Water Co v Bieri, Civ App, 247 SW 2d 268, error refused no reversible error  
67 C J p 1421 note 12

#### Waiver

A ditch company's waiver, if any, of rights under earlier orders of the railroad commission, was not controlling in action to recover from consumer for services rendered in diverting water on basis of a later order fixing rates to be charged by company

Cal—Foothill Ditch Co v Wallace Ranch Water Co, 78 P 2d 215, 25 Cal App 2d 555, appeal dismissed

Wallace Ranch Water Co. v. Foot-

remedy as may be provided by statute<sup>90</sup> A distributor of water for irrigation purposes, in order to recover the contract rental for such water, must show that the consumer entered into the contract sued on,<sup>91</sup> and that the distributor rendered the services under the contract for which it demands compensation,<sup>92</sup> and a pro tanto recovery cannot be had for a partial performance by the distributor, where the benefit of such performance to the consumer cannot be determined,<sup>93</sup> or where the contract to furnish a supply of water was entire and not severable,<sup>94</sup> but a pro tanto recovery can be had where the distributor has furnished a substantial quantity of water, which the consumer has accepted, although the amount furnished was less than the amount specified in the contract<sup>95</sup> The fact that a distributor has disabled itself from performing its

contract to furnish water by a sale of its irrigation system does not prevent a recovery pro tanto in equity for services performed up to the time of the sale<sup>96</sup>

*Defenses* to actions to recover rates and charges for water furnished for irrigation are governed by the usual rules applicable to other civil actions<sup>97</sup>

#### (5) Actions to Recover Excess Charges Paid

A consumer may recover excess charges paid in a proper case

A consumer of water for irrigation purposes who pays excess charges under duress,<sup>98</sup> or under protest or other circumstances not amounting to acquiescence,<sup>99</sup> may recover such payments to the extent that they exceed the amount rightfully due the distributor.

### F LIABILITIES AND INJURIES INCIDENT TO SUPPLY AND USE

#### § 364. Civil Liability

In the absence of a statute imposing liability on them, distributors are not liable for injuries resulting from the negligent acts of their officers or agents, but they are not exempt from liability for their torts com-

mitted while performing the functions for which they have been organized.

On the theory that incorporated distributors of waters for irrigation purposes are public corpora-

hill Ditch Co., 59 S Ct 54, 305 U S 664, 83 L Ed 431

#### Burden of proof

Irrigation company asserting indebtedness of farmer for water furnished on theory either of quantum meruit or conversion had the burden of showing that it supplied the water in question, that farmer used such water, and the value of the water used.

Tex—South Tex Water Co v Bieri, Civ App, 247 S W 2d 268, error refused no reversible error

#### Evidence held sufficient

(1) To sustain judgment for plaintiff

Utah—Big Cottonwood Tanner Ditch Co v Kay, 157 P 2d 795, 108 Utah 110

(2) To show failure of consideration

Neb—Elmcreek Ditch Co v St John, 255 N W 16, 127 Neb 253.

#### Evidence held insufficient

(1) To present issue for jury  
Tex—South Tex Water Co v Bieri, Civ App, 247 S W 2d 268, error refused no reversible error

(2) To defeat judgment for plaintiff

Pa—Pennsylvania Water Co v McDonald, 179 A 874, 119 Pa Super 99

#### Finding held not in error

Utah—Big Cottonwood Tanner Ditch

Co v Kay, 157 P 2d 795, 108 Utah 110

90. Idaho—Blaine County Canal Co v Hansen, 292 P 240, 49 Idaho 649

67 C J p 1421 note 13

#### Parties

In action involving power of Secretary of Interior to charge plaintiff water users for such water as they might be entitled to receive without violating rights of other water users, issue of priority of water users with respect to each other could not be decided because other users were indispensable parties

D C—Fox v Ickes, 137 F 2d 30, 78 U S App D C 84, certiorari denied 64 S Ct 204, 320 U S 792, 88 L Ed 477, Ickes v Park, 64 S Ct 204, 320 U S 792, 88 L Ed 477, and Ickes v Eder, 64 S Ct 204, 320 U S 792, 88 L Ed 477

#### Effect of user's contract with third person

Grantor of water and water rights to grantee with reservation of first preference to use of seven thousand five hundred acre feet of water impounded in grantee's reservoir was liable to state engineer for assessments on water reserved, irrespective of any contract between grantor and grantee that grantee should pay assessments

99. Ariz—Salt River Valley Canal Co v Nelssen, 85 P. 117, 10 Ariz 9, 12 L R A, N S, 711, 16 Ann Cas. 796.

tions and in supplying waters for irrigation are performing a governmental function, it has been held that, in the absence of a statute specifically imposing liability on them, they are not liable for injuries resulting from the negligent acts of their officers or agents<sup>1</sup> On the other hand, there is authority to the effect that distributors are not exempt from liability for their torts committed while performing the functions for which they have been organized.<sup>2</sup> In any event such distributors may be liable for the torts of their agents committed while the distributors are engaged in a proprietary, rather than an irrigation, enterprise<sup>3</sup>

*Effect of statutes authorizing suits by or against distributor* Although liability for their negligence has been imposed on distributors of water for irrigation under a statute authorizing such distributors to sue or be sued,<sup>4</sup> there is authority for the proposition that such provisions in a statute do not affect the liability of the distributors.<sup>5</sup>

§ 365. — Liability for Injuries from Construction, Operation, and Maintenance of Works

- a. In general
- b. Exemption
- c. Proximate cause
- d. Persons liable

a. In General

The owner of an irrigating ditch or canal, being bound to exercise reasonable care and prudence in the construction and management thereof, is ordinarily liable in damages for injuries resulting from the breaking, leakage, or overflow of such canal or ditch when caused by the want of the required care.

The owner of an irrigating ditch or canal, being bound to exercise reasonable care and prudence in the construction and management thereof,<sup>6</sup> is ordinarily liable in damages for injuries resulting from the breaking, leakage, or overflow of such canal or ditch when caused by the want of the required care<sup>7</sup> What that duty may require, how-

67 C J p 1423 note 33.

**Seepage**

A cause of action against irrigation district for damages caused by seepage of water arises where lands are visibly affected by the seepage

Neb—Smith v Platte Valley Public Power & Irrigation Dist, 36 NW 2d 478, 151 Neb 49

**No prescriptive right to be negligent** In action for damages resulting from flooding of premises by irrigation district, the district could not escape liability by reason of claimed prescriptive right

Neb—Webb v Platte Val Public Power & Irr Dist, 13 NW.2d 563, 146 Neb 61.

**Right to divert and appropriate water**

An irrigation ditch owner's constitutional right to divert and appropri-

ever, depends entirely on the circumstances of each particular case, as what would be reasonable care under one set of circumstances might be actionable negligence under another.<sup>8</sup> If it becomes apparent to those operating an irrigation canal that a dangerous condition has developed in its operation which is liable to cause injury, where a warning would be effective to prevent that injury, there is a duty to warn.<sup>9</sup> While there is authority to the effect that the canal or ditch owner may be liable for such injuries even in the absence of negligence,<sup>10</sup> generally the owner of an irrigation system is not liable as an insurer to persons suffering injury caused by the construction, operation, or maintenance of such system.<sup>11</sup> An irrigation district being under no legal duty to fence its irrigation canal,<sup>12</sup> there is no negligence in failing to fence it.<sup>13</sup> Nevertheless, a statute declaring that owners of reservoirs shall be liable for all damages arising from the leakage or overflow of the waters therefrom, or by flood caused by breaking of the embankments of such reservoirs has been held to place an absolute liability on the owners of irrigation reservoirs for injuries resulting from the escape of water therefrom.<sup>14</sup> An irrigation company's duty and liability ceases at the headgate where water is delivered from the main canal, owned and

controlled by the company, into a lateral ditch which is owned and controlled by the landowners receiving water from the lateral.<sup>15</sup>

The owner of an irrigation ditch or canal cannot escape liability for injuries resulting from such owner's negligence in the construction, operation, or maintenance of its ditch or canal, on the ground that the injured person should have gone on the property of the canal or ditch owner and should have performed thereon such acts as were necessary to prevent injury,<sup>16</sup> or that the injured person might at slight expense have prevented damage by digging a ditch on his own land,<sup>17</sup> or by enlarging an existing ditch thereon,<sup>18</sup> so as to carry off the water causing the injury.

An injured person may waive his right to damages,<sup>19</sup> although he is not estopped to assert a claim therefor simply because he was a director of an irrigation company at the time the damage occurred.<sup>20</sup>

*Right of way* A distributor of water for irrigation may be liable for damage to land resulting from the negligent operation of the irrigation system irrespective of any right of way across the injured land,<sup>21</sup> but, if damages for seepage could be re-

ate water does not free such owner from liability for damages resulting from negligence in constructing or maintaining ditch.

**Idaho**—Albrethson v Carey Val Reservoir Co, 186 P 2d 853, 67 Idaho 529.

**8** Ariz—Salt River Valley Water Users' Ass'n v Arthur, 74 P 2d 582, 51 Ariz 101.

#### Debris

Duty of a water users' association engaged in supplying irrigation water to exercise reasonable care to see that its irrigation ditches are kept free from debris consists in refraining from causing any debris to fall into the ditches and to remain there, to inspect ditches at reasonable intervals to see that none has gotten therein through fortuitous causes, and if it has notice that an undue amount has accumulated, to remove it promptly.

**Ariz**—Salt River Valley Water Users' Ass'n v Blake, 90 P 2d 1004, 53 Ariz 498.

**Standard of ordinary care** and freedom from negligence is predicated on construction and maintenance of water systems capable of handling more water than is produced by ordinary rain storm.

**Utah**—Charvoz v Bonneville Irr Dist, 235 P 2d 780, 120 Utah 480.

**Carrying water in open ditch** for farming purposes does not constitute negligence.

**Ariz**—City of Glendale v Sutter, 95 P 2d 569, 54 Ariz 326.

**Irrigation company held not negligent** in delivering water with knowledge that user of lateral ditch had permitted weeds and vegetation to grow in lateral and that water would back up and flood plaintiff's land. **Ariz**—Salt River Valley Water Users' Ass'n v Delaney, 39 P 2d 625, 44 Ariz 544.

#### Storm

Where break in canal causing damage to adjoining land occurs during storm of such magnitude and severity as to be beyond realm of reasonable foreseeability and therefore be-

yond ken of traditional reasonably prudent man, negligence is nonexistent and no liability attaches.

**Utah**—Charvoz v Bonneville Irr Dist, 235 P 2d 780, 120 Utah 480.

**21.** Cal—Smith v Rock Creek Water Corp, 208 P 2d 705, 93 Cal App 2d 49.

covered in condemnation proceedings to acquire land for irrigation purposes, the owner of such land and of land contiguous thereto, having conveyed the right of way for such purposes, may not thereafter be entitled to recover damages for seepage resulting from the irrigation system<sup>22</sup> The granting of a right of way for an irrigation canal does not constitute a right on the part of the landowner to recover damages for mere harmless departures from the contemplated plan<sup>23</sup> A mere grant of right of way for a canal to an adjoining landowner does not give the adjoining landowner or his successors the right to flood their lands to the extent that seepage therefrom will cause irreparable injury to lands of the grantor of the easement or his successors<sup>24</sup>

*Trap.* Where due to the act or conduct of the owner of an irrigation system there exists a condition which constitutes a trap, such owner will be liable for personal injuries resulting from the concealed danger.<sup>25</sup>

*Instrumentalities not constituting part of irrigation works.* A distributor of water for irrigation purposes may be liable for injuries resulting from the construction and operation of structures which do not constitute an essential part of the irrigation works as such.<sup>26</sup>

*Deliberate trespass.* A distributor of water for irrigation may be liable for its deliberate trespasses<sup>27</sup> The act of furnishing water to a stockholder in a different company, at his request, is not a trespass where the other company had no exclusive right to furnish water to its stockholders.<sup>28</sup>

*Injuries to lands adjoining irrigated tract* The owner of land who irrigates it may be liable to adjoining owners for injuries to their lands which result as an incident to such irrigation,<sup>29</sup> and this is particularly so where the irrigation is performed in a negligent manner<sup>30</sup> A person who, by artificial means, raises the volume of water above its natural level and by percolation and overflow injures neighboring lands without license, prescription, or grant, when injury can be prevented by reasonable and not too expensive means, is liable for any injury<sup>31</sup> In directing and regulating irrigation of semi-arid lands, reasonable rules should be enforced and policy of live and let live should be applied, with respect to a landowner's liability for permitting irrigation waters to percolate and seep onto adjoining land,<sup>32</sup> and his failure to take reasonable care to prevent waste water from seeping and percolating onto the adjoining land is negligence, as much as though the application of water to the land had been made in a negligent manner<sup>33</sup> On the other hand, the owner of land is not ordinarily liable in damages for injuries incidentally resulting from his irrigating his own land in a lawful manner.<sup>34</sup> Where the owner of land after irrigating the same has the right to discharge waste water into a ditch over adjoining land, he is liable for injuries resulting from the overflow of such ditch when it is caused by the discharge of "live" water commingled with waste water.<sup>35</sup> Where a person in irrigating his own land floods land of a lower adjoining landowner, the irrigating owner cannot escape liability on the ground that the injured landowner might have gone on the irrigating owner's land and closed an opening in an

67 C J p 1427 note 49

31. Or—Kaylor v Recla, supra.

32. Or—Kaylor v Recla, supra

33. Or—Kaylor v Recla, supra

*Soil naturally incapable of retaining water*

(1) The act of constructing irriga-

tion ditches through soil naturally incapable of retaining water without employing any means to prevent seepage or percolation onto adjoining lands is negligence  
Or—Kaylor v Recla, supra

(2) Where the ground traversed by an irrigation ditch is porous in character, it is the duty of owners of such ditch to adopt the common method of sealing it with concrete or some similar material which will prevent the seepage of water, and on failure to do so there is an assumption of the risk of damage to a neighboring landowner  
Cal—Nelson v Robinson, 118 P 2d 350, 47 Cal App 2d 520

34. Cal—Gibson v Puchta, 33 Cal 310

35. Idaho—Crawford v Inglin, 258 P 541, 44 Idaho 663.  
67 C.J p 1427 note 51.

irrigating ditch opening from which the water flowed<sup>36</sup>

*Injuries to land adjoining natural stream.* An owner of land bordering a natural stream is subject only to natural, not man-made, hazards,<sup>37</sup> and although a natural stream may be used under certain conditions to conduct irrigation water,<sup>38</sup> any floods resulting by excessive amount of water forced into the natural stream by an irrigation company's reservoir will subject the company to liability for negligence<sup>39</sup>

*Nuisance* An irrigation ditch maintained in such manner as to infringe in an unwarranted manner on the use and enjoyment of the property of adjoining owners or occupants may constitute a nuisance,<sup>40</sup> subject to abatement,<sup>41</sup> but where because of the excessive slope of his ground it is necessary for an appropriator to divert for irrigation more water than the soil will absorb, such excess which flows off onto the land of another is not waste which may be abated as a public nuisance within the meaning of a statute.<sup>42</sup> Furthermore, it has been held that an improvement district is not liable under the theory of nuisance for the death of a child who drowned in an irrigation ditch<sup>43</sup>

*Contributory negligence* The owner of land through which an irrigation ditch runs has ordinarily the right to make any lawful use of his land that

he desires, and is not thereby guilty of contributory negligence so as to be barred from recovering for injuries sustained in such use because of the negligence of the ditch owner<sup>44</sup>

### b. Exemption

Although there is authority to the contrary, it has been held that distributors cannot exempt themselves from liability for their own negligence

Notwithstanding their public or quasi-public status, distributors of water for irrigation are not thereby exempt from liability for injuries resulting from the negligent construction, operation, or maintenance of the irrigation works.<sup>45</sup> Although there is authority to the contrary,<sup>46</sup> it has been held that such distributors cannot exempt themselves from liability for their own negligence<sup>47</sup>

### c. Proximate Cause

Where negligence is relied on to impose liability for injuries resulting from the operation of an irrigation system, such negligence must be the proximate cause of the injuries

Where negligence is relied on to impose liability for injuries resulting from the operation of an irrigation system, such negligence must be the proximate cause of the injuries<sup>48</sup> Hence, an irrigation canal or ditch owner is not liable for any damage which was caused by the injured person's

38. Neb—Hagadone v Dawson County Irr Co, 285 NW 600, 136 Neb 258

39. Neb—Hagadone v. Dawson County Irr Co, supra.

#### Reservoir defined

A mutual water storage and canal company's dam, ditches, canals, and tunnel could be considered as a "reservoir" within statute authorizing owners of a reservoir to conduct water into natural streams, where company admitted dam was used for purpose of producing pressure to force water through a tunnel into a natural stream causing stream to flood lands of adjoining landowner  
Colo—Twin Lakes Reservoir & Canal Co v. Sill, 89 P 2d 1012, 104 Colo 215

#### Inlets to reservoir

Statutes concerning right of owners of a reservoir to conduct waters stored therein into natural streams were to be so construed as to include inlets to, as well as outlets from, reservoirs in connection with natural

streams whereby streams were used to carry abnormal amounts due to delivery therein of privately owned water

48. Neb—Spurrier v Mitchell Irr Dist, 229 NW 273, 119 Neb 401, 74 A L R 884, appeal dismissed and certiorari denied 51 S Ct 484, 283 US 796, 75 L Ed 1420.

67 C J p 1428 note 59.

own act,<sup>49</sup> but if the negligence of the ditch owner contributes to the situation which causes the injury, the owner may be liable,<sup>50</sup> and, if the acts of several distributors concur in causing an injury, they may be jointly liable.<sup>51</sup> No recovery can be had for any seepage damage caused by water from another source and not from defendant's canal and reservoir.<sup>52</sup>

Although a rainfall may be more than ordinary, if it is such as has occasionally occurred at irregular intervals, it is to be foreseen that it may occur again,<sup>53</sup> and therefore is not in law an act of God relieving an irrigation company from liability for subsequent damages to crops from impounded flood waters.<sup>54</sup> Where an extraordinary flood concurred with the negligent act of an irrigation canal or ditch owner to produce the injury complained of, it has been held that such owner is not excused from liability for such injury,<sup>55</sup> although the view has been taken that it can be held liable only for that part of the damage which resulted from its negligence.<sup>56</sup> On the other hand, where the injury complained of results from such flood without any concurrent negligence of a canal owner, it is not liable for the injury.<sup>57</sup>

#### d. Persons Liable

An irrigation district is liable for the negligent acts of its own officers and agents in the construction, operation, and maintenance of the system, although, in the absence of special circumstances whereby the act of one other than the owner of the irrigation works becomes its act, the owner is not liable for the injurious consequences of such act.

An irrigation district is ordinarily liable for the negligent acts of its own officers and agents in the construction, operation, and maintenance of

the system.<sup>58</sup> Otherwise, in the absence of special circumstances whereby the act of one other than the owner of the irrigation works becomes its act, the owner is not liable for the injurious consequences of such act.<sup>59</sup> Under particular circumstances, however, the owner of the irrigation system may be liable for the acts of persons other than its own officers.<sup>60</sup> An irrigation district is not liable for injuries resulting from a landowner's application of irrigation water to his own land.<sup>61</sup> Where he does not act maliciously and does not act on his own account, an officer of an irrigation district is not personally liable for damages resulting from the negligent maintenance and operation of the irrigation system.<sup>62</sup>

*Joint and several liability.* Liability may be joint or several, even though defendants may have acted independently in flooding plaintiff's land.<sup>63</sup> Where all the overflow and flooding of plaintiff's land comes directly through the overflow from the ditch of one irrigation company, but part of the water is furnished by another company for a few days out of the total number of days during which the overflow continues, the cause of action against both companies is joint and several, and liability may be imposed for the entire sum on the company through whose ditch the overflow came.<sup>64</sup> An irrigation company is not liable as a joint tortfeasor with a lower lateral user whose action in permitting weeds to obstruct the lateral caused flooding of plaintiff's land, where the company owns and controls only the main canal, and plaintiff and others whose lands receive water from the lateral ditch own and control the lateral.<sup>65</sup> Where there is a common plan among ditch companies

for the disposal of excess and waste water by the use of a common waste basin, although separate waste ditches are used, there is a common duty not to dump an amount of water into a basin which will cause an overflow into adjacent lands, so that a failure of such duty subjects the companies to liability as joint tort-feasors <sup>66</sup>

*Directors of an irrigation district* are not liable for damages suffered by landowners by seepage and raising of a river level, where the evidence does not show that the damages were due to the directors' misfeasance or negligence, as they are not liable for nonfeasance <sup>67</sup>

### § 366. — Liability for Failure to Supply Water

- a. In general
- b. Exemption, limitation, and extent of liability
- c. Excuses for failure to supply
- d. Persons liable and to whom liable

#### a. In General

A distributor who is under a legal duty to furnish to a customer a given quantity or supply of water for irrigation may be answerable in damages for the loss or injury caused by its failure to do so

A distributor who is under a legal duty to furnish to a customer a given quantity or supply of water for irrigation may be answerable in damages for the loss or injury caused by its failure to do so,<sup>68</sup> and it is no defense that the customer had not joined in, or contributed to, the expense of litigation resorted to by the irrigation company against an irrigation district to maintain the irrigation company's appropriation rights.<sup>69</sup> Under statutes authorizing irrigation companies to distribute water, however, it has been held that, if they exercise ordinary care in operating the system, they are not liable for a mere failure to deliver water to the consumer without more.<sup>70</sup> In the exercise of ordinary care a distributor is not required to anticipate a break in the canal,<sup>71</sup> and in

the absence of any defects showing up in the canal over a long period of time, a charge of negligence for operation of the system cannot be based solely on defective construction, with respect to liability for failure to deliver water called for by water rights.<sup>72</sup>

*Anticipatory breach.* A conveyance by an irrigation company of water rights without protecting the interest of plaintiff under contract to furnish plaintiff with water for irrigation purposes constitutes an anticipatory breach, so as to authorize a suit for damages, where the conveyance renders the furnishing of water practically impossible.<sup>73</sup>

*Subsequent interference with supply.* Where a contempt proceeding based on an injunction previously obtained against interference with water rights is available, it does not preclude an action for damages based on a new injury caused by a subsequent interference.<sup>74</sup>

*Contributory negligence.* Although the rule is otherwise where the consumer's negligence does not contribute as a proximate cause to his loss,<sup>75</sup> the distributor may be excused from liability where the consumer's own negligence or mismanagement contributed to the injury to such an extent that the furnishing of water as agreed would not have saved him from loss.<sup>76</sup>

*Proximate cause.* A member of an irrigation district is not entitled to a recovery for damages for loss of crops, where the proximate cause of damage is his failure to construct a lateral from the canal for the reception of water, and not a failure of the district to perform any duty owing to him.<sup>77</sup>

#### b. Exemption, Limitation, and Extent of Liability

A distributor cannot completely exempt himself by contract from all liability for damages for a breach of his contract to furnish water, nor may a distributor furnishing water to the public limit its liability in that manner, but a distributor which is not undertaking the discharge of a public duty may so limit its liability.

<sup>77</sup> Mont—*Blaser v Clinton Irr Dist.*, 53 P 2d 1141, 100 Mont 459

Although it has been held that a distributor of water for irrigation is exempt from liability for failure to supply water, on the ground that the distributor is a governmental agency,<sup>78</sup> exemption of the distributor on this ground has been denied.<sup>79</sup> A distributor cannot completely exempt himself by contract from all liability for damages for a breach of his contract to furnish water,<sup>80</sup> nor may a distributor furnishing water to the public limit its liability in that manner,<sup>81</sup> but a distributor which is not undertaking the discharge of a public duty may so limit its liability.<sup>82</sup> A contract provision that the distributor shall not be liable for failure to furnish water during a reasonable period of repair and construction of the irrigation system may operate to exempt the distributor from liability during that period.<sup>83</sup> For a statute exempting a distributor to be applicable the conditions contemplated by the statute must actually exist.<sup>84</sup> At all events a distributor cannot release itself of liability to furnish water by simply notifying the consumer that no more water will be supplied.<sup>85</sup>

Where an irrigation company leases land to a consumer and agrees to furnish water for the irrigation thereof, the liability of the company for a failure to furnish water as agreed is measured by the terms of the contract.<sup>86</sup> A distributor's liability for failure to supply water by failing to extend its system to the consumer's land may be measured by the care exercised by the distributor so to extend its system.<sup>87</sup> Under particular circumstances a contract limiting the liability of a distributor for failure to furnish water may not be available to another distributor who assumes the obligation of supplying the water.<sup>88</sup> Where

there is a provision in the rules of an irrigation district that a purchaser of water acquires no proprietary right therein and no right to use water for a purpose other than that for which the purchaser applies for water, it limits the risk assumed by an irrigation district to those flowing from a failure to supply water for the purpose stated in the application for water.<sup>89</sup>

### c. Excuses for Failure to Supply

Where the failure to deliver an adequate supply of water is due primarily to the act of the distributor, it may be held liable in damages for injuries resulting from such failure, however, it may be excused from responsibility where the failure to supply water is due to an inevitable accident or to causes beyond its control, and which could not have been foreseen and prevented by the exercise of due and proper care.

Where a consumer is under a duty to construct his own ditch before he is entitled to a supply of water, the distributor is not liable for damages resulting from a failure to supply water prior to the time the consumer constructs such ditch,<sup>90</sup> and the distributor may not be liable for damages for failing to complete the construction of its system so as to supply a consumer, where, by the terms of a contract existing between the parties, on the distributor's failure in this respect it was merely to refund the money and interest which had been paid by the proposed consumer,<sup>91</sup> but a distributor cannot avoid liability for a failure to furnish water on the theory that a consumer might have avoided the injury by performing an obligation of the contract which the contract places on the distributor.<sup>92</sup> Similarly, where the consumer is not obligated to pay for water until some time subsequent to its delivery, on failure to furnish water

89. Cal.—Gelhaus v Nevada Irr Dist, 278 P 2d 689, 43 Cal 2d 779

### Liability limited to specific use

Where written application requested water for purpose of irrigating land, irrigation district was under no duty to supply water for other than irrigation purposes and could not be held liable for damages resulting from failure to supply water necessary for operation of a fish hatchery, although district knew that applicant and others used water supplied by district primarily for such purpose  
Cal.—Gelhaus v. Nevada Irr. Dist, *supra*

90. Idaho—Collins v Twin Falls North Side Land & Water Co, 152 P 200, 28 Idaho 1

91. Wyo.—Hanover Canal Co v Wilson, 143 P 345, 22 Wyo 427.

92. Tex.—Cameron County Water Improvement Dist No 1 v Gregory, Civ App, 291 SW. 938 67 C J. p 1431 note 89.

the distributor cannot avoid liability on the ground that the water has not been paid for,<sup>93</sup> and an irrigation company which is bound by contract to furnish a sufficient supply of water cannot, on failing to furnish such supply, avail itself of the failure of injured consumers to appoint a water master as required by a statute requiring such appointment where two or more parties take water from an irrigation canal or ditch at the same point to be conveyed through the same lateral.<sup>94</sup> Although a refusal of a consumer to pay charges for water already delivered may justify a refusal to furnish more water,<sup>95</sup> the landowners' rights are not affected, where it is not shown that water was denied them on that account.<sup>96</sup>

Notwithstanding the occurrence of somewhat abnormal conditions, which affect the natural source of supply, where the failure to deliver an adequate supply of water is due primarily to the act of the distributor, it may be held liable in damages for injuries resulting from such failure.<sup>97</sup> The distributor, however, may be excused from responsibility where the failure to supply water was due to inevitable accident or to causes beyond its control and which could not have been foreseen and prevented by the exercise of due and proper care.<sup>98</sup> Thus, under a statute providing that in the event of a shortage of water from drought, accident, or other cause, the water to be distributed shall be divided among all consumers pro rata, a distributor does not become an insurer of consumers' right

to their pro rata share of water, but is only required to use due diligence to see that they receive such share of all available water,<sup>99</sup> and a failure by an irrigation company to furnish a consumer sufficient water to raise a full crop will not subject the company to damages when, due to a drought, to furnish the particular consumer with such a quantity of water would deprive other consumers of their right to a pro rata distribution.<sup>1</sup> There is authority, however, to the effect that, where an irrigation company enters into an unequalled contract to deliver a specified quantity of water to a consumer, the supervention of unusual conditions making it impossible to deliver the quantity contracted for does not excuse the company from liability,<sup>2</sup> and, even under a contract absolving the distributor from liability for failure to supply water when due to something over which the distributor has no control, it is not released from liability where it might have but failed to exercise indirect control.<sup>3</sup>

A mistaken belief on the part of the distributor as to the terms of a contract existing between the distributor and the consumer does not excuse a failure to deliver water.<sup>4</sup> A sale of more land than it has capacity to supply is no justification for a failure to supply water to a consumer having a contractual right thereto,<sup>5</sup> although a sale of other land capable of irrigation by the distributor is proper, even though at times it might produce a reduction of actual available water which

67 C J p 1432 note 1.

owners having contractual rights are entitled to<sup>6</sup> The fact that a consumer's ditch for the taking of water from the ditch of the distributor may have been in part on its right of way constitutes no justification for a failure to supply water if the ditch was there with the distributor's consent and if its failure to furnish water is not based on that ground<sup>7</sup>

*Discretion of distributor* Notwithstanding that the manner of supplying water is left to the discretion of the distributor, it may be liable in damages for a failure to supply the required amount of water<sup>8</sup>

*Demand* Although a consumer's failure to make a required demand for water may limit the liability of the distributor,<sup>9</sup> failure to make a demand for water within a specified time as required by a rule of an irrigation company may not relieve it from liability for failure to deliver water where it appears that the company would not be able to deliver the water even though a seasonable demand were made<sup>10</sup>

#### d. Persons Liable and to Whom Liable

A distributor which is, consistently with an obligation to supply all of its consumers equitably, under a legal duty to supply water for irrigation on proper application therefor may not be liable for a failure to furnish water in exact compliance with promises made by its officers and employees Generally, the company under a duty to supply the water is liable for failure to do so

A distributor which is, consistently with an obligation to supply all of its consumers equitably, under a legal duty to supply water for irrigation on proper application therefor may not be liable for a failure to furnish water in exact compliance with promises made by its officers and employees<sup>11</sup> Where a company which constructs an irrigation system is also authorized to operate the system

prior to its being turned over to an operating company, it is the construction company rather than the operating company which is liable for injuries resulting from a failure to supply water prior to the time the system is transferred<sup>12</sup> On the other hand, one who acquires title to an irrigation system rather than the original owner is liable for injuries resulting from a failure to supply a sufficient quantity of water under a contract made between the consumer and the original owner, when such failure occurs subsequent to the transfer<sup>13</sup>

A ditch company is not, however, liable for injuries resulting from a failure to supply water directly to a landowner when the company is under no duty to supply water to him in that manner<sup>14</sup> Thus, where a carrying company is organized to distribute to various landowners water supplied by a ditch and reservoir company, the latter company is not liable for injuries resulting from a failure of the carrying company to supply such water<sup>15</sup> One contracting to furnish water to make a crop is not, however, liable for damages resulting from a destructive quality of the water when such quality is not attributable to the person who furnishes the water<sup>16</sup> A vendor of land may not be liable to purchasers for the failure of a distributor to furnish water<sup>17</sup>

*To whom liable* Under a statute requiring distributors to furnish water to a specified class of persons, the distributor is liable to a member of that class who is injured by a failure so to supply him<sup>18</sup> A contract to furnish water to irrigate certain land, between a distributor of water and the landowner, may by appropriate provisions in a contract for the leasing of such land be made to inure to the benefit of the lessee who may sue on the contract for failure to furnish a sufficient amount of water<sup>19</sup> Where a distributor recognizes the rights

of a purchaser of land to a supply of water, the distributor is liable to the lessee of the purchaser for a failure to supply water<sup>20</sup> A mutual irrigation company is liable to a stockholder injured by the company's neglect or failure properly to maintain the distribution system<sup>21</sup>

## § 367. — Remedies

- a. In general
- b. Who may sue or be sued; parties
- c Pleading
- d Evidence
- e Trial
- f Judgment
- g Damages

### a. In General

Where an injury results from the construction, operation, or maintenance of an irrigation system, the owner of such system may, in a proper case, be enjoined from permitting the situation causing the injury to continue, and similarly, the consumer of water for irrigation purposes may be enjoined from injuring adjoining land

Where injury results from the construction, operation, or maintenance of an irrigation system, the owner of such system may, in a proper case, be enjoined from permitting the situation causing the injury to continue,<sup>22</sup> and the owner of the system may be enjoined from deliberately destroying the equipment of a consumer<sup>23</sup> Similarly, the consumer of water for irrigation purposes may be enjoined from injuring adjoining land<sup>24</sup> An injunction against the owner of an irrigation system may be refused, however, where the owner of the works has done and is doing all that is legally required of it to prevent the injury complained of<sup>25</sup> An owner of land claiming a right to a ditch carrying

irrigation waste water from his land may, in a proper case, be entitled to an injunction to prevent another landowner from discharging his waste water into the same ditch.<sup>26</sup>

*Failure to supply water.* On failure or refusal to supply water for irrigation, the consumer should pursue the remedy which is most appropriate to the relief sought<sup>27</sup> Not only may a consumer be entitled to recover damages for a failure to furnish water, as discussed supra § 366, but the distributor may be constrained to supply it by a writ of mandamus, as shown in Mandamus § 231 g In a proper case an injunction may issue to compel a distributor to supply water for irrigation to a consumer,<sup>28</sup> to prevent the obstruction or diversion of water which is being supplied to the consumer,<sup>29</sup> or to restrain the supply of such water to other consumers<sup>30</sup> Injunctive relief is not available to a consumer who does not show that it is necessary to prevent injury,<sup>31</sup> and a consumer may not be entitled to compel the delivery of a greater quantity of water than is necessary for his actual needs.<sup>32</sup>

*Interference with waste waters* An irrigating landowner having title to certain waste waters may be entitled to an injunction to prevent unauthorized persons from interfering with a proper disposition of such waters<sup>33</sup>

*Conditions precedent.* In the absence of a statutory requirement, presentation of a claim need not be made prior to commencement of an action against an irrigation district,<sup>34</sup> however, where the provisions of a statute require the filing of a verified claim against the irrigation district for damages resulting from a defective condition of property thereof, within a certain period after the accident or injury has occurred prior to com-

67 C J p 1435 note 36

34. Mont—Newman v Bitter Root Irr Dist, 28 P 2d 195, 95 Mont 521

**Notice requirement held inapplicable**  
The statutory requirement for written notice to irrigation district of claim for damages for negligence in delivering, or failure to deliver, water to an irrigator entitled thereto, does not apply to damages caused by district's intentional invasion of irrigator's vested contract right to specific quantity of natural flow of water in river

Neb—Ledingham v Farmers Irr Dist, 281 NW 20, 135 Neb 276.

mencement of the action, compliance thereof is mandatory,<sup>35</sup> and may not be waived <sup>36</sup>

*Limitations* General rules govern questions as to the limitation of actions for injuries resulting from the construction, operation, or maintenance of an irrigation system,<sup>37</sup> as well as in actions for failure to deliver water,<sup>38</sup> and in actions to compel the delivery of water <sup>39</sup>

#### b. Who May Sue or Be Sued; Parties

Stockholders in a mutual irrigation company and persons holding under them may, in a proper case, sue for damages for the company's failure to supply water, and a grantee in a deed of land may sue a distributor so as to enforce the grantee's right to have the conveyed land irrigated

Stockholders in a mutual irrigation company and persons holding under such stockholders may, in a proper case, sue for damages for the company's failure to supply water <sup>40</sup> Moreover, the grantee in a deed of land may, in a proper case, sue a distributor so as to enforce the grantee's right to have the conveyed land irrigated <sup>41</sup> An irrigation district may be sued for its failure to furnish water <sup>42</sup>

*Parties* In a suit for an injunction against one of several owners of an irrigation system, to prevent the flooding of complainant's land, where defendant has sole control of the instrumentality causing the damage, the other owners are not necessary parties defendant <sup>43</sup> An action against a distributor for a failure to supply water may be maintained by the owner of the irrigated land, without joining a tenant to whom he has contracted to furnish water,<sup>44</sup> or by one holding a mortgage on the crops to be grown on the land <sup>45</sup> On the other hand, a landlord and a tenant may join as plaintiffs in an action for damages for a

failure to supply water <sup>46</sup> Under a statutory provision permitting tenants in common to sue together, there is not a misjoinder of parties plaintiff where tenants in common of land are joined as complainants in a suit to enjoin interference with their supply of water for irrigation,<sup>47</sup> but, under a statute providing that any person may be made a party who has or claims an interest adverse to plaintiff or is necessary to a complete determination of the question involved, landowners claiming a right to the prorating of water in times of scarcity are necessary parties to a suit by a landowner to restrain a diversion of waters to such persons <sup>48</sup> Landowners who obtained a judgment in a prior action against an irrigation district entitling them to have delivered waters of a certain lake for irrigation purposes are necessary parties to a suit to enjoin the district from using flumes, canals, and laterals under or on plaintiff's property for irrigation or other purposes, when grant of such injunctive relief would diminish or eliminate the irrigation water of the landowners <sup>49</sup>

#### c. Pleading

In an action for damages resulting from the negligent construction, operation, or maintenance of an irrigation system, the complaint must show that the plaintiff has suffered an actionable injury for which the owner of the system is responsible, and the answer must allege all facts necessary to establish the defense General rules govern questions of pleading in actions involving the supply of water, and questions of issue, proof, and variance.

In an action for damages resulting from the negligent construction, operation, or maintenance of an irrigation system, the complaint must show that plaintiff has suffered an actionable injury for which the owner of the system is responsible,<sup>50</sup>

35 Cal—Bradshaw v Glenn-Colusa Irr Dist, 198 P 2d 106, 87 Cal App 2d 882

*Filing of unverified claim* as in letter to district superintendent, is not substantial compliance with statutory requirement that verified claim for damages be filed to lay foundation for action therefor

67 C J p 1436 note 52

#### Complaint held sufficient

(1) To state cause of action for damages

and whether there is a sufficient charge of negligence must be determined from the facts alleged rather than from the conclusions of the pleader.<sup>51</sup> Moreover, in an action for injury to land, it must be adequately described.<sup>52</sup> The answer must allege all facts necessary to establish the defense.<sup>53</sup>

General rules govern questions of pleading in actions involving the supply of water for irrigation.<sup>54</sup>

*Issues, proof, and variance.* In actions for injuries incident to the supply and use of water for irrigation, general rules are applicable to questions of issues,<sup>55</sup> proof,<sup>56</sup> and variance.<sup>57</sup>

#### d. Evidence

- (1) Presumptions and burden of proof
- (2) Admissibility
- (3) Weight and sufficiency

##### (1) Presumptions and Burden of Proof

In actions involving injuries resulting from the construction, operation, and maintenance of an irrigation system, the plaintiff has the burden of showing that the injury complained of was attributable to the defendant's negligence, it being ordinarily presumed that the irrigation system has been properly constructed.

In actions involving injuries resulting from the construction, operation, and maintenance of an irrigation system, plaintiff has the burden of show-

55 Colo—Pettit v Waline, 36 P2d 163, 95 Colo 360  
67 CJ p 1437 note 58

##### Points of discharge of waste water

Where plaintiff claimed ownership of lateral ditch, and alleged that lateral was sufficient to carry his water only and that defendants wrongfully discharged waste water from their land into lateral, and sought injunction restraining defendants from discharging waste water into lateral, determination of points of discharge

of waste water from defendants' land into lateral was within issues  
Colo—Pettit v Waline, supra.

56 Neb—Scherz v Platte Valley Public Power & Irr Dist, 37 NW 2d 721, 151 Neb 415  
67 CJ p 1437 note 59

##### Negligent construction, operation, or maintenance of system

(1) In action against irrigation district for damages to lands and crops caused by seepage waters from reservoir and canal, there must be proof establishing a causal connection between waters of district and the seeped condition of plaintiffs' lands

Neb—McKain v Platte Valley Public Power & Irrigation Dist, 37 NW 2d 923, 151 Neb 497—Scherz v Platte Valley Public Power & Irr Dist, 37 NW 2d 721, 151 Neb 415

(2) Other cases see 67 CJ p 1437 note 59 [a]

##### For failure to supply water

(1) In action by landowner to compel ditch corporation to deliver water without charge statutes expressly limited to coowners of unincorporated ditches are inapplicable to determine proof necessary under corporation's allegation that owner was liable for pro rata share of upkeep, where ditch in question was incorporated, and landowner was not shown to be coowner

Colo—Johnston v Wanamaker Ditch Co, 38 P2d 907, 95 Colo 551

(2) Other cases see 67 CJ p 1437 note 59 [b]

57 Ariz—Salt River Valley Water Users' Ass'n v Stewart, 34 P2d 400, 44 Ariz 119  
67 CJ p 1438 note 60

##### Variance held immaterial

Ariz—Salt River Valley Water Users' Ass'n v Stewart, supra.

##### Variance not shown

Neb—McKain v Platte Valley Public Power & Irrigation Dist, 37 NW 2d 923, 151 Neb 497—Scherz v Platte Valley Public Power & Irr Dist, 37 NW 2d 721, 151 Neb 415.

ing that the injury complained of was attributable to defendant's negligence,<sup>58</sup> and to no fault on the part of plaintiff,<sup>59</sup> it being ordinarily presumed that the irrigation system has been properly constructed.<sup>60</sup> The doctrine of *res ipsa loquitur* has, however, been held to apply to actions involving the breaking of an irrigation ditch.<sup>61</sup> Defendant has the burden of proving matters of defense.<sup>62</sup>

*In actions involving failure to supply water, and interference with supply*, the burden of proving a cause of action is on the party bringing the action,<sup>63</sup> and the burden of proving matters of defense is on defendant.<sup>64</sup> It has been held that the doctrine of *res ipsa loquitur* does not apply in an action by a landowner for failure to deliver water, due to the nature of the duty involved.<sup>65</sup> A landowner to maintain an action for breach of agree-

ment between the distributor and others to furnish water for irrigation is required to show that he was in privity with the agreement,<sup>66</sup> and if he fails to do so, no recovery can be had.<sup>67</sup> Since a district is a public corporation and agency of the state, as is discussed *supra* § 318, in the absence of allegations to the contrary, it is presumed that an irrigation district in furnishing water acts within its ordinary governmental capacity,<sup>68</sup> and its officers as public officers are presumed to have regularly performed their duties.<sup>69</sup> There is also an assumption in the absence of other allegations that water furnished by an irrigation district, whether it contains salt or otherwise, had been determined to be suitable for irrigation and beneficial to lands using it.<sup>70</sup>

58. Ariz.—Salt River Valley Water Users' Ass'n v Blake, 90 P 2d 1004, 53 Ariz 498

Idaho—City of Payette v Jacobsen, 66 P 2d 1013, 57 Idaho 524

Nev.—Montesa v Gelmstedt, 270 P 2d 688, 70 Nev 418

67 C J p 1438 note 62

#### Causal connection

(1) Where water from irrigation district's canal and reservoirs combine with water from another source, and combined water causes damage to land, landowner, in order to recover from district, must prove either that damage would have been done by water from canal and reservoirs without water from other source, or he must establish amount of damage done by water of district.

Neb.—McKain v Platte Valley Public Power & Irrigation Dist., 37 NW 2d 923, 151 Neb 497—Faught v Platte Val Public Power & Irr Dist., 25 NW 2d 889, 147 Neb 1032—Faught v Dawson County Irr Co., 19 NW 2d 358, 146 Neb 274

(2) In an action against irrigation district for damages to land as result of seepage of water from district's reservoir and canal, it is necessary to establish a causal relationship between the water in the canal and reservoir and the water causing the seeped condition on the damaged lands.

Neb.—Smith v Platte Valley Public Power & Irrigation Dist., 36 NW 2d 478, 151 Neb 49—Lincoln Joint Stock Land Bank v. Platte Valley Public Power & Irrigation Dist., 299 NW 485, 140 Neb 316

59. Cal.—Osborne v Imperial Irr Dist., 47 P 2d 798, 8 Cal App 2d 622

#### Due care on part of deceased

In action against officers of irrigation district for damages for death of plaintiffs' minor daughter alleged

to have been caused by dangerous condition of structure across canal, fact that the danger was not as obvious to child as to adult does not relieve plaintiffs of statutory burden to prove due care on part of deceased.

Cal.—Osborne v Imperial Irr Dist., *supra*.

*Prima facie* case held established by proving company's failure to deliver the quantity of water required by contract and the extent of the

damage to crops and land from the failure to receive such a supply.

Neb.—Preston v Farmers Irr Dist., 293 NW 343, 138 Neb 504

64. Neb.—*Corpus Juris* cited in Preston v Farmers Irr Dist., 293 NW 343, 138 Neb 504

67 C J p 1438 note 67

#### Supervening impossibility

An irrigation company which seeks, on ground of supervening impossibility, to excuse its failure to deliver water pursuant to the terms of its contract obligation has the burden of proving such supervening impossibility.

Neb.—Preston v Farmers Irr Dist., 293 NW. 343, 138 Neb 504

65. US—Ure v U S, D C Or., 93 F Supp 779, affirmed, C A., White v U. S., 193 F 2d 505, and reversed on other grounds U S v Ure, 225 F 2d 709

66. Utah—Cortella v Salt Lake City, 72 P 2d 630, 93 Utah 236

67. Utah—Cortella v. Salt Lake City, *supra*

68. Cal.—Jackson & Perkins Co v Byron-Bethany Irr Dist., 29 P 2d 217, 136 Cal App 375, hearing denied 30 P 2d 516, 136 Cal App 375.

69. Cal.—Jackson & Perkins Co v. Byron-Bethany Irr Dist., *supra*

70. Cal.—Jackson & Perkins Co v. Byron-Bethany Irr Dist., *supra*

#### Order of board of supervisors held conclusive

Order of board of supervisors authorizing formation of irrigation district, that water was suitable for irrigation, is conclusive in collateral attack by action against district for damage from furnishing of salt water for irrigation.

Cal.—Jackson & Perkins Co v Byron-Bethany Irr Dist., *supra*.

*Establishment of a prima facie case* does not require plaintiff to adapt his proof of damages to the factors of excuse or mitigation which may be relied on by the irrigation company, where the acceptance and effect of those factors are wholly matters for the jury's determination.<sup>71</sup>

### (2) Admissibility

The usual rules govern as to the admissibility of evidence in actions involving damages from the construction, operation, or maintenance of an irrigation system, as well as in actions for damages due to failure to supply water.

The usual rules on the subject govern as to the admissibility of evidence in actions involving damages from the construction, operation, or maintenance of an irrigation system,<sup>72</sup> as well as in actions for damages due to a failure to supply water,<sup>73</sup> and in actions for damages against third persons for interfering with a consumer's supply of water.<sup>74</sup> Thus, evidence as to the feasibility and cost of

averting the injury by the injured person is admissible on the question of damages in an action for injuries resulting from the construction, operation, or maintenance of irrigation works.<sup>75</sup> Evidence as to acts or conduct of other persons is inadmissible on the issue of negligence in an action to recover for injuries resulting from the negligent construction, operation, or maintenance of irrigation works.<sup>76</sup>

### (3) Weight and Sufficiency

General rules govern questions of the weight and sufficiency of evidence in actions based on the negligent construction, operation, and maintenance of irrigation works, and in actions for failure to supply water for irrigation, as well as in actions against third persons for interfering with a consumer's supply.

General rules govern questions of the weight and sufficiency of evidence in actions based on the negligent construction, operation, and maintenance of irrigation works,<sup>77</sup> and in actions for failure

to supply water for irrigation,<sup>78</sup> as well as in actions against third persons for interfering with a consumer's supply.<sup>79</sup>

### e. Trial

In actions relating to injuries incident to the supply and use of water for irrigation, instructions must correctly state the law applicable to the case under consideration, and the verdict and findings must be sup-

ported by the evidence and be in conformity with the issues

Rules governing the trial of civil actions generally are applicable to actions relating to injuries incident to the supply and use of water for irrigation.<sup>80</sup> Thus, if the evidence is conflicting, questions of fact are for the jury,<sup>81</sup> instructions must correctly state the law applicable to the case

Neb—Webb v Platte Val Public Power & Irr Dist, 18 NW 2d 563, 146 Neb 61

87. Wash—Huxtable v. Berg, 168 P. 187, 98 Wash 616.  
67 C.J. p 1443 note 87.

practical difficulties in the way of expense or inconvenience does not affect its validity<sup>88</sup>

**g. Damages**

- (1) Injuries resulting from construction, operation, and maintenance
- (2) Failure to supply water

**(1) Injuries Resulting from Construction, Operation, and Maintenance**

All the injuries and expenditures proximately resulting from the negligence of a distributor in its construction, operation, and maintenance of the irrigation works are compensable in damages, and the measure of damages for such injuries is usually the difference in the value of the injured property immediately before and immediately after the injury complained of, taking into consideration all uses to which the land was put and for which it was reasonably adaptable.

All the injuries and expenditures, proximately resulting from the negligence of a distributor in its construction, operation, and maintenance of the irrigation works, are compensable in damages,<sup>89</sup> but the injured person cannot recover damages for the distributor's delay in doing an act which would only aggravate the injury complained of<sup>90</sup> Where an irrigation district constructs a reservoir from which seepage appears on plaintiff's land, and no new act of the district is required to produce the

continuance of the injury except the use of its reservoir for the purpose for which it was constructed, the cause of damage to plaintiff's land is permanent<sup>91</sup>

**Measure of damages** The measure of damages for injuries resulting from the negligent construction, operation, and maintenance of an irrigation system is usually the difference in the value of the injured property immediately before and immediately after the injury complained of,<sup>92</sup> and not the cost of repairing or restoring the injured property to such a state or condition as existed immediately before the injury,<sup>93</sup> although it has been held that, where the injured property can be restored to its original condition, the difference in the value of the property immediately before and immediately after the injury is not the proper measure of damages<sup>94</sup> All uses to which the land was put and for which it was reasonably adaptable may be taken into consideration<sup>95</sup> The measure of damages has also been said to be the amount which will compensate for all the detriment proximately caused by the distributor's acts, and as in other tort actions in fixing such damages considerable discretion rests with the court or jury<sup>96</sup> In any event the amount of recovery should not exceed the loss

88 Colo—Twin Lakes Reservoir & Canal Co v Sill, 89 P 2d 1012, 104 Colo 215

**Decree held proper**

Decree enjoining company from emptying water into stream so as to flood lands of an adjoining landowner and containing provision that decree was stayed thirty days to permit company to institute eminent domain proceedings to acquire a right to flow water across plaintiff's land was not invalid as compelling company to condemn a right of way in a public stream for purpose of transporting its appropriated water where decree permitted alternative of dredging stream or institution of eminent domain proceedings, if company was so advised

Colo—Twin Lakes Reservoir & Canal Co v Sill, *supra*.

96. Cal—Skupen v. Imperial Irr. Dist, 91 P 2d 910, 33 Cal.App.2d 392.

actually sustained,<sup>97</sup> nor should the damages be in such an amount as to represent compensation for injuries which are not properly attributable to the distributor<sup>98</sup>

Recovery may be had for damages to any annual crops growing on the damaged land,<sup>99</sup> and in such case the amount of damages may be measured by a comparison of the net value of the probable yield with the value of the crops if they had not been damaged.<sup>1</sup> The value of the loss of the use of land as to unmaturing annual crops can be based on the value of the crop which could have been raised on the land except for the flooding, provided the evidence discloses sufficient data to determine that question with reasonable certainty.<sup>2</sup>

## (2) Failure to Supply Water

The measure of damages for failure to supply water for irrigation purposes has been variously fixed at the value of the water for irrigation purposes, the difference in the market value of the land immediately before and immediately after the injury, the difference between the rental value of the land with and without the supply of water contracted for, and the legal rate of interest on the consumer's investment.

When, in breach of a legal duty to furnish water

to a consumer for irrigation, a distributor fails or refuses to do so, he is liable for whatever damage may be sustained as a consequence of such failure or refusal.<sup>3</sup> The measure of damages for failure to supply water for irrigation purposes has been variously fixed at the value of the water for irrigation purposes,<sup>4</sup> the difference in the market value of the land immediately before and immediately after the injury,<sup>5</sup> the difference between the rental value of the land with and without the supply of water contracted for,<sup>6</sup> and the legal rate of interest on the consumer's investment.<sup>7</sup> The consumer's right to damages cannot be based on the cost to him of a more valuable right to water.<sup>8</sup>

Where the failure to supply water results in loss of, or injury to, a growing crop, the value of the yield at maturity is the usual basis for measuring the damage sustained.<sup>9</sup> Accordingly, on failure to supply, damages may be awarded to the amount of the net value of the crop, when harvested, which would have been produced if the water had been supplied,<sup>10</sup> or, if there was not a total failure of the crop, the difference in value between the crop as actually marketed and as it would have been if

<sup>67</sup> C J p 1445 note 6.

the water had been furnished as agreed<sup>11</sup> On the other hand, it has been held that the measure of damages for the entire loss of growing crops due to a failure to supply water is the value of the crops at the time and place of destruction<sup>12</sup> Thus, where the loss occurs before the maturity of the crop, damages are to be fixed as of that time rather than the time of maturity<sup>13</sup> Similarly, it has been held that the measure of damages for injury to growing fruit trees is the difference in the value of the trees immediately before and immediately after the injury<sup>14</sup> Where the injury to crops is due to the withholding of water over a period of time, damages cannot be measured by the difference in the value of the crops immediately before and immediately after the period during which the water is withheld,<sup>15</sup> nor may a tenant recover the value of that part of a crop which on maturity would have been payable as rent<sup>16</sup>

*Interference with consumer's supply of water*  
In an action for damages for interference with a consumer's supply of water, the damages must be computed on a satisfactory basis and the amount awarded should not be speculative<sup>17</sup>

*Exemplary damages* may, in a proper case, be awarded where the water company has been guilty of malice or oppression in failing or refusing to supply water for irrigation<sup>18</sup>

### § 368. Criminal Responsibility

By certain specified acts relating to the supply and use of water for irrigation are criminal offenses under the express provisions of some statutes

Certain specified acts relating to the supply and use of water for irrigation are criminal offenses under the express provisions of some statutes<sup>19</sup> Under a statute making it a criminal offense to open,

break, or tap any pipe, flume, ditch, or reservoir and remove therefrom or allow to be taken, removed, or to flow any water, the mere opening, breaking into, tapping, or connecting with an irrigation ditch does not constitute the offense condemned, since the taking or removing therefrom of water belonging to another or allowing the same to be taken is an essential element of the crime<sup>20</sup> It is no defense in a prosecution for interference with the head gate of an irrigation ditch, in violation of a statute condemning such act, that some other person had interfered with the head gate,<sup>21</sup> nor is it any defense, for one claiming to act in the exercise of a right to water, that he could not wait to exercise his right through the slow process of the law<sup>22</sup> Where a statute is, according to its title, enacted for the purpose of protecting persons using water for irrigation from contamination of such water and making it a misdemeanor to contaminate the water, a provision, requiring the owners and operators of certain reservoirs and tanks to indicate by posting to whom such reservoirs or tanks belong, has been held not to make the omission so to post a misdemeanor<sup>23</sup> An ordinance requiring an irrigation ditch to be covered is invalid when applied to a ditch which was lawfully constructed but thereafter became included in a city by the extension of its limits so that one of the city streets was so plotted as to include the ditch<sup>24</sup>

In prosecutions for offenses incident to the supply and use of water for irrigation, general rules govern questions relating to indictments and informations,<sup>25</sup> and evidence<sup>26</sup> In a prosecution for interference with the head gates of an irrigation ditch or canal, questions as to the right to divert water are not proper matters of consideration.<sup>27</sup>

Moreover, the ownership of an irrigation system with reference to which an act is committed may be immaterial in a prosecution therefor.<sup>28</sup>

## XI. USE OF WATER FOR MECHANICAL AND MANUFACTURING PURPOSES

### A. RIGHT TO USE OF WATER

#### § 369. Natural Waters

The acquisition of water rights to natural water for mechanical and manufacturing purposes, the nature of such rights, and the extent of, and the restrictions on, the use thereof, are considered infra §§ 370-372.

Examine Pocket Parts for later cases.

#### § 370. — Acquisition of Water Rights

The right to use water of a stream for mechanical purposes may be acquired by contract, grant or patent, eminent domain proceedings, or prescription

The right to use the waters of a stream for mechanical purposes is sometimes conferred by contract,<sup>29</sup> or by special grant or patent,<sup>30</sup> or it may be obtained by eminent domain proceedings<sup>31</sup> or prescription<sup>32</sup>. In some instances the right to use water of a stream has been granted by act of the legislature,<sup>33</sup> but a legislative grant is not essential to permit the use of waters for the operation of machinery<sup>34</sup>. Grants of water rights by implication are not favored by the law,<sup>35</sup> but implied grants of water rights may arise from the necessity of the situation when granted property cannot be used without such rights<sup>36</sup>.

#### § 371. — Nature of Right in General

As a general rule, a riparian owner has the right to use the water of a stream or the power which it is capable of generating for mechanical and manufacturing purposes.

Although under the doctrine of natural flow, a riparian owner cannot withdraw water for the operation of a factory,<sup>37</sup> it is generally held that a riparian proprietor has the right to use the water of the stream or the power which it is capable of generating for mechanical and manufacturing purposes<sup>38</sup>. Such use is subject to the restriction that the water of the stream be not essentially diminished<sup>39</sup>. Ordinarily the water power to which a riparian owner is entitled consists of the fall in the stream when in its natural state as it passes through his land<sup>40</sup>. To make use of the water for the purposes aforesaid, the riparian owner may divert the water from its natural channel into an artificial channel with provision for the water's return to the stream, provided such diversion does not unduly injure others who have rights in the water<sup>41</sup>. A riparian owner, whose lands border on a stream, the bed of which is owned by the state, has no right to use the water power of the river at that point, where the only practicable method for using that power requires the construction of a

dike or dam extending into the river on the state-owned lands.<sup>42</sup>

§ 372. — Extent of, and Restrictions on, Use

- a. In general
- b. As affected by rights of others
- c. Reasonableness
- d. Effect of prior appropriation

a. In General

The extent of the right to use water for mechanical and manufacturing purposes is determined by the terms of the instrument conferring such right where the right is conferred by grant or contract, and by the extent of the use which conferred the title where acquired by prescription.

Where the right to the use of water for manufacturing purposes has been obtained by legislative grant, the statute determines its extent.<sup>43</sup> Likewise, where the right to use the waters of a stream for mechanical purposes is conferred by contract, the extent of the use is regulated by the terms of the contract.<sup>44</sup> Where a riparian owner uses water for a nonriparian purpose, the prescriptive right acquired thereby is limited by the extent of the use which conferred the title and cannot be extended beyond such actual use.<sup>45</sup>

*Primary and secondary uses.* Since the right to use the waters of a stream for mechanical purposes is secondary to the right to use them for domestic purposes,<sup>46</sup> the use of the waters for artificial purposes is subject to the prior call on the waters of a stream for the satisfaction of the natural or primary needs of other owners on the

stream.<sup>47</sup> Hence, when the stream is small and does not supply more water than is sufficient to answer the natural wants of the different proprietors living on it, none of the proprietors can use the waters of the stream for artificial or secondary purposes.<sup>48</sup>

b. As Affected by Rights of Others

All the riparian proprietors on a stream have equal rights to use the waters of the stream for mechanical purposes, and each is restricted to such a use of the water as shall be reasonable, having regard to the relative rights of the others.

All the riparian proprietors on a stream have equal rights to use the water of the stream for mechanical purposes, and each is restricted to such a use of the water as shall be reasonable, having regard to the relative rights of the others.<sup>49</sup> The uses so made of the waters by riparian owners as among themselves must be, as nearly as possible, equal ones.<sup>50</sup> Hence, a riparian owner has no right to consume the entire stream or so great a proportion of its volume as to inflict material injury on lower owners,<sup>51</sup> and he must restore to the channel all the water which he does not actually consume.<sup>52</sup>

No one is entitled to use the water to such an extent as to destroy or materially impair the operation or utility of the other plants,<sup>53</sup> and if the stream is insufficient to give all the mills or factories as much water or power as they require, it is to be fairly and equitably divided among them.<sup>54</sup> While a reasonable use of a stream for manufacturing purposes is not an unlawful diversion,<sup>55</sup> the riparian owner is limited to the diversion of so much of

55. N.Y.—Bullard v. Saratoga Victory Mfg. Co., 77 N.Y. 525.

the water for this purpose as will not materially or sensibly diminish the volume of the stream as it flows down to the lower proprietors<sup>56</sup>

A riparian owner, having equipped a plant with machinery within the reasonable capacity of the stream, has a right to have the water flow continuously in its natural course and quantity without obstruction by an upstream owner<sup>57</sup> Where a riparian owner has constructed a plant which does not require a quantity of water beyond the normal flow of the stream, he is entitled to draw down his pond in periods of drought to operate his plant, and to close his water gates for such reasonable periods as is necessary to restore the requisite head<sup>58</sup> Such use of the stream must not be wanton, however, and must be for his needs and without unnecessary prejudice to the rights of other riparian owners<sup>59</sup>

Where the right to use a certain quantity of water exists, a change in the mode and objects of the use, without increasing the quantity of water used, is no violation of the rights of others,<sup>60</sup> nor is the removal of the plant being operated by the water such a violation if no greater quantity of the water is used than theretofore<sup>61</sup> Since the United States has no right as a riparian owner different from, or superior to, that of any private riparian owner,<sup>62</sup> subject to the right of condemnation, as considered in Eminent Domain § 71, it may not itself<sup>63</sup> or through a licensee<sup>64</sup> use the waters of a stream for power purposes in a manner declared by the law of the state in which the stream runs to be an improper use with respect to other riparian owners.

### c. Reasonableness

The right of a riparian owner to use the waters of a stream for mechanical and manufacturing purposes is subject to the restriction that it be a reasonable use, that is, a use adapted to the character and capacity of the stream.

The right of a riparian owner to use the waters of a stream for mechanical and manufacturing purposes is subject to the restriction that it be a reasonable use<sup>65</sup> What is a reasonable share of water for each riparian owner is a question of fact to be decided in each case according to its circumstances<sup>66</sup> A reasonable use of the waters of a stream for mechanical purposes is one adapted to the character and capacity of the stream,<sup>67</sup> and in determining the capacity of the stream its condition throughout the year is to be considered<sup>68</sup> The use of the waters of the stream not in excess of the ordinary flow is not an unreasonable use<sup>69</sup>

The fact that defendant had steam power, while not affecting his right to the use of the water, should properly be considered in determining whether he should be restrained from making an unreasonable and injurious use of it, when it appears that, by using the water in connection with the steam power, he could avoid the injuries complained of without serious inconvenience to himself<sup>70</sup>

### d. Effect of Prior Appropriation

Mere prior appropriation of the waters of a stream gives no rights superior to those of another riparian owner, except in those regions where priority of title can be acquired by prior appropriation of streams flowing through the public domain and not held in private ownership.

70. Conn—Mason v Hoyle, 14 A. 786, 56 Conn 255

67 C J. p 1450 note 76

Mere prior appropriation of the waters of a stream for mechanical or manufacturing purposes gives no rights superior to those of another riparian owner,<sup>71</sup> unless continued for such a length of time and under such circumstances as to found a title by prescription, as discussed supra §§ 158-166, and except in those regions where priority of title can be acquired by prior appropriation of streams flowing through the public domain and not held in private ownership,<sup>72</sup> and a person or corporation desiring to use more than his or its proportionate share of the stream for such purposes, or to use a stream on which he or it has no riparian rights, must proceed by purchase or by condemnation under the power of eminent domain.<sup>73</sup> In some jurisdictions, however, a riparian proprietor who is the first to appropriate and use the water power of the stream for the purpose of a mill or factory has the right to maintain his dam as against owners above and below, although it may prevent them from making a similar use of the stream, except as to any excess of power it may furnish over that actually appropriated by the first taker.<sup>74</sup> Where a riparian owner has appropriated water from a stream for power purposes prior to the time the legislature declared the waters in the streams of the state to be the property of the public, the water right so acquired by such riparian owner is by virtue of the common law.<sup>75</sup>

### § 373. Artificial Waters

The owners of land along an artificial watercourse privately owned by another have no right to use the waters of such a stream for mechanical or manufacturing purposes merely because of such ownership, but the right to use the water may be acquired by contract, deed, conveyance, or adverse user.

The owners of land along an artificial watercourse privately owned by another have no right to use the waters of the stream for mechanical or manufacturing purposes merely because of such ownership.<sup>76</sup> The right to the use of the water may be obtained by contract,<sup>77</sup> or by adverse user,<sup>78</sup> in which event the extent of the use is controlled by the contract,<sup>79</sup> or the extent of the adverse user.<sup>80</sup> The owners of property on a natural waterway mutually agreeing to change the course thereof over their lands and agreeing that each was entitled to a just and reasonable participation in the water power of the resulting artificial stream, have the same rights to the use of the water on their respective properties as between themselves as would exist if the artificial were the natural channel of the stream.<sup>81</sup>

On the severance of title to land which has enjoyed the use of a canal and the water therein for mechanical purposes, an easement of water rights for the benefit of the dominant estate may arise by implication.<sup>82</sup> In such a case, where a cheap supply of water is reasonably necessary

**Preventing acquisition of easement**  
A prescriptive right to take water from artificial canal, maintained by

water power company on its own land, is easement therein within statute authorizing landowner to prevent acquisition of easement by giving public notice of such intention and causing service of copy thereof on person claiming easement, wrongful appropriation of water in water power company's canal would not lay foundation for prescriptive right, if such water is regarded as something supplied from moment to moment by such company's industry  
US—Holyoke Water Power Co v American Writing Paper Co, C C.A. Mass, 90 F2d 509

79. Ind—Elkhart Paper Co v Fulkerson, 75 NE 283, 36 Ind App 219

82. Mass—Jasper v Worcester Spinning & Finishing Co, 64 NE 2d 89, 318 Mass 752

**Factors to be considered**

(1) In determining whether im-

plied easement was created when bankruptcy trustee sold two mills to separate purchasers, statements and plan contained in catalogue furnished to bidders as far as they pertained to physical characteristics of property and announcement made by auctioneer based on those statements were to be considered, and purchasers of mill seeking to establish implied easement were required to prove that purchasers of other lot at auction knew or were chargeable with knowledge of all pertinent facts relative to existence of canal and its necessity for use and enjoyment of the mill, since implied easement could not be created in absence of knowledge

Mass—Jasper v Worcester Spinning & Finishing Co, supra.

(2) Whether deed from trustee to dominant lot carried with it by implication an easement over servient lot did not depend entirely on construction of deed, but deed was to be construed with reference to all facts within knowledge of parties in reference to subject matter of grant to determine and effectuate the presumed intention of parties

Mass—Jasper v Worcester Spinning & Finishing Co, supra.

for the practical operation of the mill on the dominant lot, the easement to secure water does not cease merely because the water might be obtained from a street main of a water company.<sup>83</sup>

### § 374. Particular Uses

- a. Electricity
- b. Railroad uses
- c. Mills
- d. Mines

#### a. Electricity

The generation of hydroelectric power is a purpose for which the water of a stream may lawfully be used by a riparian owner, and the electrical energy may be conveyed for use on nonriparian lands

The generation of hydroelectric power is a purpose for which the water of a stream may be lawfully used by a riparian owner,<sup>84</sup> and the electrical energy may be conveyed for use on nonriparian lands<sup>85</sup> Where two companies have been authorized to acquire lands and water rights for the generating of electric power, in the absence of special statutory regulations to the contrary, the first to define and mark the location has the prior right of appropriation of the water rights<sup>86</sup> Where the diversion of the waters of a stream for the purpose of generating hydroelectric power has developed into a public use, lower riparian owners may not enjoin or otherwise prevent such diversion<sup>87</sup>

The use of water as a source of power to lift water to be used for irrigation purposes is a beneficial use so that the appropriator may be entitled to the amount necessary for that purpose,<sup>88</sup> but an appropriation for such power purpose must be reason-

able in amount as compared with the amount of water for irrigation for which the power is needed,<sup>89</sup> and the appropriator cannot properly claim five or six times the amount of water used for irrigation for the purpose of raising the water for irrigation from the stream onto the land of the appropriator<sup>90</sup>

#### b. Railroad Uses

A railroad company as a riparian owner may make a reasonable use of a stream for the operation of its railroad.

A railroad company as a riparian owner may make a reasonable use of a stream for the operation of its railroad,<sup>91</sup> as for the use of its locomotives,<sup>92</sup> provided such use does not materially reduce the volume of water in the stream<sup>93</sup> to the detriment of other riparian owners<sup>94</sup> In some jurisdictions it is held that the water must be used for purposes incident to the land itself<sup>95</sup>

#### c. Mills

The right to use the water of a stream for mill purposes is well established, but the use made by mill owners of a stream must, in its relation to others on the stream, be a reasonable one, and an appropriator for mill purposes is limited to the quantity of water reasonably necessary and actually used to operate the mill.

The right to the use of the waters of a stream for mill purposes is well established,<sup>96</sup> but the use made by mill owners of a stream must, in its relation to others on the stream, be a reasonable one<sup>97</sup> The use must be consistent with a like reasonable use by others above and below<sup>98</sup> The use of the waters of a stream for mill purposes not in excess of the ordinary flow is not an unreasonable use<sup>99</sup> Where the owner of a senior water power right of a stated force constructed his mill

<sup>96</sup> Conn—Mason v. Hoyle, 14 A 786, 56 Conn 255

<sup>97</sup> Conn—Mason v. Hoyle, supra

<sup>98</sup> Mass—Pitts v. Lancaster Mills, 13 Metc 156

<sup>99</sup> NY—Henderson Estate Co v. Carroll Electric Co, 99 NYS 365, 113 AppDiv 775, affirmed 82 N.E. 1127, 189 NY 531.

with a view to the amount of water to which he was entitled, the owner of a junior power right appropriating so much of the water as to force the other's mill to close cannot defend an action for such appropriation on the ground that the mill could be reconstructed so as to enable it to run with a lesser water supply<sup>1</sup>

An appropriator for mill purposes is limited to the quantity of water reasonably necessary and actually used to operate the mill<sup>2</sup> If the mill has been run at different capacities during different seasons so that the amount used during one season is less than that used during other seasons the appropriator is limited during such season to the amount actually used during that time<sup>3</sup> As against intervening rights the appropriator is limited to the amount necessary to run the mill at its original capacity and he can claim no right to a larger amount because of a subsequent increase in the capacity of the mill<sup>4</sup> An owner of a mill may draw a larger quantity of water through his gates than he has been accustomed to use, if he has lawfully provided the surplus by means of a reservoir above and causes no injury thereby to others having rights in the waters of the stream<sup>5</sup> The mere nonuser of the water right alone does not show an abandonment thereof,<sup>6</sup> facts and circumstances showing an intention to abandon must appear<sup>7</sup>

A statutory right to the use of the waters of a stream for mill purposes, even to the extent of injury to other owners on the stream, may be lost by nonuser for an unreasonable length of time<sup>8</sup> or voluntary abandonment<sup>9</sup> Where mills lawfully existing are specially protected by statute from flowage, the mill, if existing, must be a bona fide mill to entitle the owner to the benefit of the act,<sup>10</sup> but a mill site, bought for the purpose of erecting a mill, is protected, although the mill is not yet built.<sup>11</sup> The statute does not provide a remedy

for damage to an unoccupied mill site<sup>12</sup>

#### d. Mines

The operator of a mine or quarry has the right to use water of a stream on the property in the operation of the mine

The locator of a placer mining claim and his grantees have the right to use the waters of a stream flowing through the claim in their operation of the claim<sup>13</sup> Such right is appurtenant to, and will pass with, a conveyance of the claim<sup>14</sup> On the other hand, when the waters of a stream have been diverted from their natural course, and carried through ditches or by other means and beneficially used in another place, the appropriator of the waters becomes the owner of property of a separate and specific kind<sup>15</sup> which is not necessarily appurtenant either to the mining claim on which the water is used<sup>16</sup> or through which the water runs<sup>17</sup> The right belongs to the owner of the ditch to the extent of the appropriation.<sup>18</sup>

An appropriator for mining purposes who has continuously used the water for the purpose of cleaning up and saving gold, which has been separated from the gravel in the process of placer mining, is entitled to all the water that is necessary for this purpose,<sup>19</sup> as well as the preservation of his flumes during the dry season of the year.<sup>20</sup> The owner of a mining claim, comprising the bed of a canyon, may, pursuant to a local custom, erect dams across the bed of the stream to enable him to work it,<sup>21</sup> and any damage to mining claims on the banks of a canyon belonging to others, which is caused by the flooding, is *damnum absque injuria*, if his is the oldest location<sup>22</sup> Under a statute giving a mine operator with an easement on adjoining land the right to maintain a flume, the mine operator has the right to change the location of the flume and the use to which the water was being put<sup>23</sup>

An upper riparian owner has the right to pump such water out of his quarries into a stream as is absolutely necessary for their beneficial use, provided he can do so without substantially injuring lower riparian owners<sup>24</sup>

### § 375. Injuries

One using the waters of a stream for mechanical or mining purposes in such a manner as to interfere with, or cause damage to, another's rights in the waters or property is liable therefor; and the improper use of the water may be enjoined.

One using the waters of a stream for mechanical<sup>25</sup> or mining<sup>26</sup> purposes in such manner as to interfere with, or cause damage to, another's rights in the waters or property is liable in damages therefor, unless the use of the waters in such manner has ripened into a prescriptive right,<sup>27</sup> and the improper use of the water may be enjoined<sup>28</sup>. The fact that a purchaser of a stated amount of water from a stream wastes a large part thereof does not justify the interference with use by another user of water from the stream

whose use is subject to the rights of the other.<sup>29</sup> The owner of a mill privilege, on which a mill has formerly stood, but on which no mill is actually standing, is entitled to an action against one, who, by erecting a dam below, renders the site useless for the purpose of erecting a mill,<sup>30</sup> unless the owner has abandoned it evidently with an intent to leave it unoccupied, in accordance with the principles, considered supra § 374 c. The right to such action, by a mortgagee, commences at the time he takes actual possession of the mortgaged premises.<sup>31</sup>

**Actions** General rules have been applied in the determination of questions relating to actions arising out of improper use of the waters of a stream for mechanical purposes,<sup>32</sup> such as questions relating to pleading,<sup>33</sup> evidence,<sup>34</sup> trial,<sup>35</sup> verdict, findings, judgment,<sup>36</sup> and damages.<sup>37</sup> If plaintiff is damaged in his use of the water power of the stream for running a mill or other machinery, the damages may be measured by the decreased capacity of the mill,<sup>38</sup> by the cost of supplying steam

## B. WATER POWER COMPANIES

### § 376. Organization and Nature

Corporations formed for the purpose of distributing water power or electrical energy generated thereby may be organized under general or special laws, or the franchise may be granted by a particular board or commission, and in its organization, the company must comply with the statutory prerequisites.

Corporations formed for the purpose of controlling natural water powers and distributing them to customers, either in their original form or after conversion into electrical power, may be organized under the general laws of the state or under laws specially applicable to them,<sup>41</sup> in some jurisdictions the power to grant the franchise being vested in a particular board or commission.<sup>42</sup> In its organization the company must comply with the statutory prerequisites.<sup>43</sup> Such corporations have been regarded as quasi-public companies.<sup>44</sup>

*Consolidation.* Power companies, by accepting the statutory privilege of consolidating with one another and of improving their works, assume reciprocal statutory burdens.<sup>45</sup>

### § 377. Charges by State for Diversion of Water

Statutes may provide for a charge against companies diverting water for power in excess of a stated maximum.

Statutes authorizing water power companies to withdraw waters from a stream may provide for a charge against companies diverting waters in excess of a stated maximum.<sup>46</sup>

### § 378. Rights and Powers

Public power companies possess only such powers as are set forth in their basic organization documents, or are implied therefrom.

Public power companies possess only such powers as are set forth in the statutes or their certificate of incorporation<sup>47</sup> or are to be implied therefrom.<sup>48</sup> The right of a power company to manipulate the waters of a river for power purposes is not absolute but is qualified by the rights of other riparian owners.<sup>49</sup> The reasonableness of its

#### Membership in dam corporation

(1) Conditions fixed by legislature for entrance into membership, or a loss of, or exit from, membership of dam corporation, could not be altered or abridged by bylaws, although bylaws might provide reasonable regulations of membership NH—Sunapee Dam Corporation v Alexander, 181 A 120, 87 NH 397

(2) Under terms of corporation's charter providing that original incorporators accepted memberships in corporation for themselves and for their successors, successor owners of power in river served by dam acquired membership by virtue of their succession as incident of their

ownership, so that membership was voluntary burden running with ownership of power

NH—Sunapee Dam Corporation v Alexander, supra

(3) Under such charter, owner of power in river which dams served, which was not a member because its predecessors in title had not been members and which had taken no action of its own to become member, are not liable for maintenance assessment

NH—Sunapee Dam Corporation v Alexander, supra

(4) In bill to determine assessment liability for maintenance of dam, finding of master that former owner of one of a company's mill privileges on river served by dam was probably member of dam corporation is a finding that he was a member

49. Mich—Merkel v Consumers' Power Co, 189 N W 997, 220 Mich 128

acts is not measured alone by the demand for power from its customers<sup>50</sup>

*Issuance and sale of stock* Statutes may regulate the issuance and sale of shares of stock of water power companies<sup>51</sup>

### § 379. Construction of Plant

Boards or commissions are frequently given jurisdiction over the construction of plants and structures of water power companies, and there must be compliance with statutory or regulatory conditions imposed on the company in connection therewith.

Boards or commissions are frequently given jurisdiction over the construction of plants and structures of water power companies,<sup>52</sup> and there must be compliance with any statutory or regulatory conditions imposed on the company in connection with the construction of its plant.<sup>53</sup>

### § 380. Sale or Lease of Water or Power and Supply to Consumers

The company supplying water power and the customer may make their own terms as to the quantity of water or power to be delivered, and their contract in this respect will be controlling

The supplying company and the consumer may make their own terms as to the quantity of water

or power to be delivered, and their contract in this respect will be controlling<sup>54</sup> Although they may, if they see fit, restrict its use to a particular purpose,<sup>55</sup> the water power may be supplied without restrictions as to purpose<sup>56</sup> The owner of a power canal must have it of such size as to supply the amount of power therefrom which it has leased to various persons<sup>57</sup> The company is generally under the obligation to complete the delivery, and it is not incumbent on the consumer to put himself in a position to receive it<sup>58</sup> In the event of a failure of supply, the customer may be entitled to damages or to an abatement of rent, unless special circumstances excuse the default of the company<sup>59</sup>

On the other hand, a repudiation of the contract by the purchaser of water power gives the company a right to treat the contract as at an end and sue for damages<sup>60</sup> The company may recover, in such case, damages for water contracted for up to the date of trial, without showing its ability to furnish the water called for under the contract thereafter,<sup>61</sup> but there can be no recovery for damages on water to be furnished during the remainder of the contract period without such a showing<sup>62</sup>

50 Mich—Merkel v. Consumers' Power Co., *supra*

51. Neb—In re Southern Nebraska Power Co., 192 NW 317, 109 Neb 683

67 C J p 1457 note 66

52. Pa—Pennsylvania Power Co v Public Service Commission, 104 A. 605, 261 Pa 211

67 C J p 1457 note 67

#### Permit held valid

Under statutes relating to conservation commission powers, permit issued by conservation commission to corporation to develop water power was valid notwithstanding that judicial decree, determining rights of parties along stream to use of waters formerly required as a prerequisite to a permit issued by state engineer had not been entered.

Okl—Grand Hydro v Grand River Dam Authority, 139 P 2d 798, 192 Okl 693

53. Ark—State v. Railroad Commission of Arkansas, 158 S W. 1076, 109 Ark 100

67 C J p 1457 note 68.

#### Effect and construction of license

Where license issued by conservation commission to private corporation for development of water power limited time for completion of dam and appropriation of waters to beneficial use to total period of

eight years but contained nothing to indicate when license should terminate, purpose of license was to provide for a public service within eight years and amounted to a franchise for that purpose, and where corporation was, at time of creation of dam authority, behind construction schedule but still had four years to appropriate waters to beneficial use and was continuing work, license was not abandoned and had not expired

Okl—Grand Hydro v Grand River Dam Authority, 139 P 2d 798, 192 Okl 693, certiorari denied Grand River Dam Authority v Grand-Hydro, 68 S Ct 263, 332 US 841, 92 L Ed 413, vacated 68 S Ct 729, 333 US 852, 92 L Ed 1133

#### Limitation on amount of property

Legislature, in limiting in dam corporation's charter and amendment thereto amount of property which might be acquired and held by corporation, did not indicate any purpose to control expense of dam either in its erection or in its maintenance

NH—Sunapee Dam Corporation v Alexander, 181 A 120, 87 NH 397

54. US—South Utah Mines & Smelters v Utah Leasing Co., Utah, 260 F 149, 171 CCA 185

67 C J p 1457 note 69

58. Cal—Sierra Union Water, etc., Co v Baker, 8 P 305, 11 P 654, 70 Cal 572

59. NY—Witherbee v. Meyer, 50 N E. 53, 155 NY 446

67 C J p 1458 note 73

60. Tex—Reilly v Birmingham, Civ App, 53 SW 2d 825

61. Tex—Reilly v. Birmingham, *supra*.

62. Tex—Reilly v. Birmingham, *supra*.

An agreement by a water power company to supply the owner of mills with water for a specified period, at a certain annual rate, will not subject the owner to a personal liability for such supply after he has sold the mills<sup>63</sup> Where a water power company owes no duty to one as an individual distinct from the general public, such individual is not entitled to injunctive relief for the company's failure to recognize and protect equities existing between these dependent on it for their water supply<sup>64</sup> The use by the consumer of water power in excess of that fixed in the lease does not give rise to a prescriptive right to the excess where the water power company has no knowledge of the quantity actually being used, being obliged to rely on the integrity of the user<sup>65</sup>

*Assignment of lease of water power.* The rules governing assignments generally are applicable to involving assignments of water power leases.<sup>66</sup>

### § 381. Tolls and Other Charges

The consumer of water power is liable for payments, in the nature of rents or other charges, stipulated for in the contract, but the consumer may resist payment of an excessive charge

The consumer is liable for the payments, in the nature of rent or other charges, stipulated for in the contract,<sup>67</sup> and the parties may stipulate for a lien on the premises supplied to secure payment of the rents or charges,<sup>68</sup> but the consumer may resist the payment of an excessive charge and enjoin the company from cutting off his supply for its nonpayment<sup>69</sup> A municipality furnishing water power to a consumer at a specified rate, but under circumstances not amounting to a contract, will not be enjoined from raising the rate by ordinance<sup>70</sup>

*Regulation of rates.* In some jurisdictions the rates and charges of a water power company are subject to regulation by a board or commission<sup>71</sup> When rates have been fixed and filed with the commission the company has no right to grant rates to particular users below the fixed rates<sup>72</sup> One complaining to such commission about the unreasonableness of rates must have a substantial interest therein<sup>73</sup> Statutory authority to the officers of a county to fix the rates for water distributed by a water company to the general public for profit gives them no power to fix the rates for a company furnishing

64. Pa—Spink v Philadelphia Hydro-Electric Co, 91 A 609, 245 Pa 143

65. N.Y.—Kavanaugh v Cohoes Power & Light Corporation, 187 N.Y.S. 216, 114 Misc 590

66. N.Y.—Kavanaugh v Cohoes Power & Light Corporation, supra 67 C.J. p 1458 note 81

67. Del—Consolidated Solubles Co v Consolidated Fisheries Co, Ch. 107 A.2d 639, affirmed in part and reversed in part on other grounds Consolidated Fisheries Co v Consolidated Solubles Co, 112 A.2d 30, reargument denied and opinion supplemented 113 A.2d 576 67 C.J. p 1458 note 82

#### Maintenance assessment on members

(1) Under provisions of dam corporation's charter, owner of developed power on river served by dam was liable for maintenance assessment where owner was also member of dam corporation, notwithstanding that power, although developed, was not used, since, while power remained developed, dam corporation furnished owner benefit by enhancing value of its property NH—Sunapee Dam Corporation v Alexander, 181 A 120, 87 NH 397

(2) Maintenance assessment voted to be apportioned according to

assessment schedule adopted by dam corporation, and paid, cannot be recovered even though schedule was illegal, because list of power owners assessed was not in correct conformity with membership

NH—Sunapee Dam Corporation v Alexander, supra

(3) Vote to assess for maintenance of dam corporation must adopt equitable and fairly proportionate basis of benefit received, but where rights of others are not impaired, members of corporation may provide for adjustment of assessment in special instances, and an assessment liability in dispute may be settled by ordinary process of negotiation and compromise

NH—Sunapee Dam Corporation v Alexander, supra

(4) Contributions to dam corporation in lieu of payment of assessments are to be credited as their equivalent where condition attached to them that claim of right to assess should be waived

NH—Sunapee Dam Corporation v Alexander, supra

#### Medium of payment

Perpetual lease of water power privilege requiring yearly rent of 260 ounces of silver of standard value and fineness of 1859 silver coinage, or its equivalent in gold, does not contemplate payment of rentals in silver coin, and rentals are

payable in silver bullion of fineness of coinage of 1859

water for hydraulic purposes to its stockholders only<sup>74</sup>

### § 382. Injuries Incident to Supply or Use, and Remedies Therefor

A water power company may be held responsible for injuries caused by the construction or operation of its works.

A water power company may be held responsible for injuries caused by the construction or operation of its works, as where it deprives another owner of the water or power to which he is entitled or materially injures him in respect to his use of the stream,<sup>75</sup> or where it diverts or abstracts a

greater portion of the stream than it is entitled to,<sup>76</sup> or causes the lands of adjoining owners to be flooded;<sup>77</sup> and, there being a plain, adequate, and speedy remedy at law, it has been held that injunctive relief is not available.<sup>78</sup> Conversely, the company may protect its property by actions against those who obstruct its canals or other works or divert or pollute the water.<sup>79</sup>

General rules have been applied in the determination of questions arising in actions to recover damages for injuries,<sup>80</sup> such as questions relating to the pleadings and proof,<sup>81</sup> evidence,<sup>82</sup> and trial.<sup>83</sup> The measure of damages to land from

78 Neb—Halligan v Elander, 25 NW 2d 13, 147 Neb 709

79 Mont—Power v Klein, 27 P 513, 11 Mont 159  
67 C J p 1459 note 93

80 Neb—McKain v Platte Valley Public Power & Irrigation Dist, 37 NW 2d 923, 151 Neb 497

**81. Allegation or proof of negligence held not required in action for loss of crops and permanent damage to plaintiff's farm because of seepage from defendant power district's reservoir, where defendant's liability for damages from seepage is absolute under statute**

Neb—Asche v Loup River Public Power Dist, 296 NW 439, 138 Neb 890

#### Causal connection

(1) In action against power district for damages to land as alleged result of seepage of water from district's reservoirs and canal, proof of causal connection between loss of water from district's canal or reservoirs and waterlogged condition of plaintiff's land was indispensable to recovery.

Neb—McKain v. Platte Valley Public Power & Irrigation Dist, 37 NW 2d 923, 151 Neb. 497—Scherz v. Platte Valley Public Power &

Irr Dist, 37 NW 2d 721, 151 Neb 415—Smith v Platte Valley Public Power & Irrigation Dist, 36 NW 2d 478, 151 Neb 49

(2) Where a substantial amount of water from another source or sources has been added to the water for which defendant is liable and the combined waters have caused the damage complained of, plaintiff must establish that his damages would have occurred from the waters for which the defendant is liable or the amount of damage that was caused by the waters for which the defendant is liable

Neb—Faught v Platte Val Public Power & Irr Dist, 25 NW 2d 889, 147 Neb 1032

#### Variance held not shown

(1) In action for damages to lands and crops allegedly caused by seepage waters from reservoir and canal of public power district, issue was whether water escaping from defendant's reservoir and canal caused damage, or whether it was result of abnormally high rainfall and other natural causes, and contention that there was a fatal variance between pleading which alleged that waters escaping from defendant's reservoir and canal found their way to, and resulted in, waterlogging of plaintiff's lands and that evidence tended to show that escaped waters created a hydrostatic pressure which caused underground waters to rise and seep plaintiff's lands, could not be sustained

Neb—Scherz v Platte Valley Public Power & Irr Dist, 37 NW 2d 721, 151 Neb 415.

(2) There was no variance between allegation of petition alleging that use by district of its power works caused water to seep from canal and reservoirs and damage plaintiff's lands and that waters had seeped from canal and reservoirs and had traveled through subsoil and alkali deposits and allegation in reply that damage to land was caused by land becoming saturated with water

pushed in and under topsoil by leakage of water from power works  
Neb—McKain v Platte Valley Public Power & Irrigation Dist, 37 NW 2d 923, 151 Neb 497

#### 82. Evidence held admissible

(1) To show difference between market value of land taken before and after taking

Neb—Asche v Loup River Public Power Dist, 296 NW 439, 138 Neb 890

(2) To show manner and extent to which lands have been affected, and quantity and quality of crops produced thereon both before and after the seepage, up to the time of trial  
Neb—Smith v Platte Valley Public Power & Irrigation Dist, 36 NW 2d 478, 151 Neb 49

#### Evidence held sufficient

(1) To warrant recovery

Neb—Faught v Platte Val. Public Power & Irr Dist, 25 NW 2d 889, 147 Neb 1032

Utah—Knight v Utah Power & Light Co, 209 P 2d 221, 116 Utah 195.

(2) To show amount of plaintiff's damage

Neb—Faught v Platte Val Public Power & Irr Dist, supra

**Evidence held insufficient to sustain jury's verdict**

Neb—Asche v Loup River Public Power Dist, 296 NW 439, 138 Neb 890

#### 83. Held question of fact for jury

(1) Whether damage was caused by combined water from district's canal and reservoirs and water from another source, and would not have occurred from water of district's canal and reservoirs alone

Neb—McKain v Platte Valley Public Power & Irrigation Dist, 37 NW 2d 923, 151 Neb 497—Smith v Platte Valley Public Power & Irrigation Dist, 36 NW 2d 478, 151 Neb 49

(2) Whether damage was caused by water seeping from district's canal and reservoirs, or whether it

water which has seeped from a public power company's reservoir and canal is the difference in the fair market value of the land immediately before and immediately after the seepage, taking into consideration all uses to which the land was put and for which it was reasonably adaptable,<sup>84</sup> and in addition thereto recovery may be had for dam-

ages to any annual crops growing thereon at the time<sup>85</sup> The value of the loss of the use of the land as to unmatured annual crops can be based on the value of the crop which could have been raised on the land except for the flooding, provided the evidence discloses sufficient data to determine that question with reasonable certainty.<sup>86</sup>

## XII. ICE

### § 383. In General

- a. Ownership and property in ice
- b. Ice companies

#### a. Ownership and Property in Ice

Ice forming on water belongs to the owner of the soil beneath the water

Ice forming on water belongs to the owner of the soil beneath the water.<sup>87</sup> So, ice forming on one's land by reason of flowage caused by a mill dam belongs to the landowner and not to the owner of the mill dam<sup>88</sup> Ice forming on a state canal or the basins connected with it, constructed on and entirely surrounded by state land, belongs to the state<sup>89</sup>

*As between trespassers* The act of a trespasser in cleaning ice on a mill pond and otherwise preparing it for cutting is not such a legal appropriation of it as will entitle him to recover from another trespasser for its conversion.<sup>90</sup>

*Ice skating* Any member of the public may exercise a common-law right to skate on the public waters of the state<sup>91</sup>

#### b. Ice Companies

In so far as concerns its manufacture and sale, ice is considered a public utility, but an ice company is a private corporation, not a public or quasi-public corporation.

It has been said that, in so far as concerns its manufacture and sale, ice is considered a public utility<sup>92</sup> An ice company is a private corporation, not a public or quasi-public corporation,<sup>93</sup> in which the public has no regulatory interest<sup>94</sup>

### § 384. Right to Cut and Remove Ice

A riparian owner or the owner of land on which an artificial pond is raised has the right to cut and sell ice which forms over that portion of the bed of the stream or the land which he owns, provided he does not interfere with the rights of others

was caused by natural conditions resulting from unusual precipitation, evaporation, and transpiration  
Neb—McKain v Platte Valley Public Power & Irrigation Dist, supra

(3) Whether waters escaping from district's reservoir and canal caused seeped condition on damaged lands  
Neb—Smith v Platte Valley Public Power & Irrigation Dist, supra

#### Instruction held proper

Instruction that jury could not allow damages for seepage caused by rainfall or surface water accumulating in ponds on surface of plaintiff's lands or lands in vicinity, and that district could only be held liable for damages that would not have occurred except on account of leakage from its reservoir and canal

Neb—Smith v Platte Valley Public Power & Irrigation Dist, supra

#### Instruction held improper as permitting double recovery

Neb—Asche v Loup River Public Power Dist, 296 NW 439, 138 Neb 890

#### Failure to instruct on issue held error

Neb—McKain v Platte Valley Pub-

lic Power & Irrigation Dist, 37 N W 2d 923, 151 Neb 497

84. Neb—Smith v Platte Valley Public Power & Irrigation Dist, 36 NW 2d 478, 151 Neb 49

#### Separate items constituting part of permanent damages

In action for permanent damage to farm because of seepage from defendant power district's reservoir, where jury is instructed that plaintiff may recover difference between reasonable market value of land not taken before and after taking of other land, his claims of damage to poultry and cowyards, basement of residence, driveway thereto, and pasture, cornstalks, and stubble land may not be submitted as separate items of damage, if they all constitute part of permanent damages, as such submission would permit double recovery on such items

Neb—Asche v Loup River Public Power Dist, 296 NW 439, 138 Neb 890

85. Neb—Smith v Platte Valley Public Power & Irrigation Dist, 36 NW 2d 478, 151 Neb 49—Asche v Loup River Public Power Dist, 296 NW 439, 138 Neb 890.

Damages for overflowing lands generally see supra § 38

86. Neb—Faught v Platte Val Public Power & Irr Dist, 25 NW 2d 889, 147 Neb 1032

87. Iowa—Marsh v McNider, 55 N W 469, 88 Iowa 390, 45 AmSR 240, 20 LRA 333  
67 CJ p 1459 note 94

88. Mass—Taft v Bridgeton Worsted Co, 130 NE 48, 237 Mass 385, 13 ALR 928  
67 CJ p 1459 note 96

89. NY—Green Island Ice Co v Norton, 82 NE 1126, 189 NY 529

90. Wis—Abbott v Cremer, 95 N W 387, 118 Wis 377

91. NH—Whitcher v. State, 181 A 549, 87 NH 405

92. Tex—City of Denton v. Denton Home Ice Co, Com App, 18 SW 2d 606.

93. Tex—Van Valkenburgh v Ford, Civ App, 207 SW 405, affirmed, Ford v Van Valkenburgh, Com App, 228 SW 194

94. Tex—Van Valkenburgh v Ford, Civ App, 207 SW 405, affirmed, Ford v Van Valkenburgh, Com App, 228 SW 194.

A riparian proprietor as the owner of the ice which forms over that portion of the bed of the stream which he owns, has the right to cut and sell it,<sup>95</sup> provided he does not interfere with the rights of a lower proprietor.<sup>96</sup> As against an upper owner, however, his right to cut and remove the ice is exclusive.<sup>97</sup> Such riparian owner may also make a pond for ice on his own land and divert into it a reasonable quantity of the water of the stream and detain it until it freezes and take the ice, provided his operations are reasonable in extent and do not materially interfere with the beneficial enjoyment of the stream by lower proprietors.<sup>98</sup> This will not constitute an unlawful diversion of the stream.<sup>99</sup>

Since ice formed on an artificial pond raised by a mill owner on another's land belongs to the owner of the land, the latter may cut and remove it,<sup>1</sup> as he would have the right to sell or dispose of trees growing on the land,<sup>2</sup> provided he does not thereby appreciably diminish the head of water at the dam or otherwise interfere with the proper and legitimate use of water as power for the mill.<sup>3</sup> This is true, even though the mill dam owner who caused the water to flow on the land of the other has the right to flowage.<sup>4</sup>

**Public waters.** In at least one jurisdiction, any member of the public may exercise a common-law right to cut ice in and on public waters.<sup>5</sup> Since ice forming on a state canal or the basins connected with it, which is constructed on, and entirely surrounded by, state land, belongs to the state, an adjoining owner has no right to interfere with the operations of one who has obtained from the state a license to cut ice on such a basin.<sup>6</sup> A ri-

parian proprietor on a "great pond" in New England has, however, no exclusive right to cut the ice, but that right is free to all persons who either own lands adjacent to the pond or can obtain access to it without trespass, the only limitation being that the ice-cutting operations must not interfere with the reasonable use of the pond by others or with the public right.<sup>7</sup> The right to cut ice from a stream which is a public highway is conditioned on compliance with a statute amounting to an act of public safety.<sup>8</sup>

**Municipality** The legislature may not empower a municipality to take ice, even for domestic purposes, without paying just compensation therefor.<sup>9</sup>

### § 385. Conveyances, Licenses, and Contracts

The right to take ice from specified waters may be the subject of a grant, license, or contract, or may pass as an appurtenance to the grantee or lessee of the land over which the ice forms.

The right to take ice from specified waters may be the subject of a grant,<sup>10</sup> license,<sup>11</sup> or contract,<sup>12</sup> or may pass as an appurtenance to the grantee or lessee of the land over which the ice forms.<sup>13</sup> A provision of a lease, granting the exclusive right to cut ice, that the grant did not exclude the grantor from cutting ice, is a mere personal privilege<sup>14</sup> which does not pass as an appurtenance to the land of the lessor on a sale thereof.<sup>15</sup> The lessee of a right to cut ice from a pond is entitled to drain and repair an outlet dam when reasonably necessary to prevent the ultimate escape of water, although the purchasers of a farm prior to the lease were given the right to use all the water a pipe of a stated size would convey.<sup>16</sup> Such lessee, in re-

pairing the outlet dam, is under a duty to do so with reasonable skill and promptness, so as not to prolong the interruption of the other's use<sup>17</sup>

### § 386. Injuries and Remedies

The owner of land under a stream or pond may maintain an action for damages against one who wrongfully drains off the water, and thus destroys the ice or prevents its formation, and in a proper case injunctive relief may be had, and one who is entitled to cut or remove ice may maintain an action against another who obstructs his exercise of such right.

The owner of land under a stream or pond may maintain an action for damages against one who wrongfully drains off the water, and thus destroys the ice or prevents its formation,<sup>18</sup> and in a proper case injunctive relief may be had<sup>19</sup> Likewise, one who is entitled to cut or remove ice may maintain an action against another who obstructs his exercise of such right,<sup>20</sup> cuts and carries away the ice,<sup>21</sup> or wantonly or maliciously destroys it,<sup>22</sup> or pollutes the ice or the pond on which it forms<sup>23</sup> An injunction may sometimes be granted to restrain interference with the exercise of a right to take ice;<sup>24</sup> but as a general rule such relief

is refused because the injured party can be adequately compensated in an action at law<sup>25</sup>

Where the right to the ice is founded on a revocable license without consideration the licensee cannot maintain an action for injury to the ice,<sup>26</sup> damage to such a license not being recognized in law<sup>27</sup> As long as the dam of one having flowage rights on another's land is maintained it must be so controlled as not to interfere with the ice of the servient estate,<sup>28</sup> and he may not do anything capriciously or maliciously which will injure such ice rights of the owner of the servient estate<sup>29</sup>

The right to use the waters of a stream in such manner as to cause injury to the ice of another may be acquired by prescription,<sup>30</sup> but for such right to exist all the elements needed to give rise to a prescriptive right must be present<sup>31</sup> The lessee of a mill with water power and rights of flowage appurtenant thereto, not being a riparian owner on the mill pond, cannot sue for the removal of ice therefrom<sup>32</sup> For negligence in the manner of cutting and removing ice resulting in injury to others, the one cutting and removing the ice will be held liable<sup>33</sup>

**WATERSHED.** The whole region or area contributing to the supply of a river or lake; drainage area, catchment area or basin.<sup>1</sup>

**WATERSTONES.** A division of the Keuper in England<sup>2</sup>

It is stated in 14 C.J.S. p 1303 note 85 that there

is nothing in the dictionaries to indicate that "cobblestone" and "waterstone" are synonymous or interchangeable.

**WATERWAY.** A channel for water, either natural or artificial;<sup>4</sup> a well-defined channel which the force of a body of water sufficiently large, necessarily collected in a natural conformation after heavy rain or the melting of large bodies of snow, as to require an outlet to some common reservoir, has made for itself, and which is the accustomed channel through which it flows or has ever flowed,<sup>5</sup> a channel through which water flows.<sup>6</sup> It has been held to be synonymous with "watercourse" see 93 C.J.S. p 582 note 41.

**WATERWORKS.** A term which includes streams, springs, wells, pumps, engines and all machinery, lands, buildings, and things for supplying or used for supplying water;<sup>7</sup> the grounds, waters, and structures necessary to prepare water for domestic uses and carry and distribute it.<sup>8</sup>

Waterworks of municipalities are treated in various places throughout the title Municipal Corporations, and for specific references see the index to that title sub verbis Water and water supply.

**WATT.** Defined see Electricity § 1 b.

**WAVE RESPONSE DEVICE.** A term applied to a device used in wireless telegraphy, also called a

"detector," see Telegraphs, Telephones, Radio, and Television § 290

**WAX.** A general<sup>9</sup> and comprehensive<sup>10</sup> term, used to denote any substance capable of receiving and retaining an impression;<sup>11</sup> originally a fatty substance of animal origin, especially that secreted by bees; now, by extension, any one of various similar substances of animal, mineral, or vegetable origin;<sup>12</sup> one of the various substances and products resembling beeswax in appearance, consistency, plasticity, and the like, or used for like purposes.<sup>13</sup>

**WAY.** The word "way," which is derived from the Saxon,<sup>14</sup> is a broad and generic term,<sup>15</sup> and in one sense it means a right;<sup>16</sup> a right of use for passengers which may be private or public;<sup>17</sup> a right of passing over another man's ground,<sup>18</sup> a right of one person, or of the community at large, to pass over the land of another;<sup>19</sup> a privilege of going over another's land,<sup>20</sup> a right of way.<sup>21</sup> The word "way" imports, ex vi termini, the right of passage over the land of another along a particular line,<sup>22</sup> not the right to vary it at pleasure, and go in different directions.<sup>23</sup>

In a strictly legal sense,<sup>24</sup> a "way" is an easement,<sup>25</sup> a servitude imposed upon corporeal prop-

erty;<sup>26</sup> and it is not a part of the corporeal property.<sup>27</sup>

However, the term "way" is sometimes used in the same sense as "road,"<sup>28</sup> and, when so used, "way" means a path, course, or track leading from one place to another or along which one goes; a road, street, passage, or channel;<sup>29</sup> and it has been said that technically and strictly a "way" is the passage over the land of another,<sup>30</sup> the right of use of such passage being known as a "right of way" as stated in 77 C J S. p 393 note 20.

Since a "way" is a means of passage from some place to some other place,<sup>31</sup> a roadway or path which leads to no place or object to which a person has an interest or right to go is not a "way."<sup>32</sup>

"Way" has been held to be synonymous with, or equivalent to, "lane" see 52 C J S. p 771 note 16, and "passageway" see 69 C J S. p 45 note 17, and has been compared with, or distinguished from, "boulevard" see 11 C J S. p 533 note 99, and "highway" see Highways § 1 a. It is also stated in Highways § 1 c that in its broadest sense "road" and "way" are deemed to be synonymous, although, strictly speaking, the terms are not synonymous.

The duty of a master to use ordinary care to furnish the servant with a reasonably safe place for his work extends to the exercise of ordinary care to see that the ways customarily used by the servant in passing from one part of the premises to another

in the course of his employment are reasonably safe, as stated in Master and Servant § 219 b.

*Phrases* employing the word "way" are set out in the note <sup>33</sup>

**WAYBILL.** See Carriers §§ 119, 122.

**WAYFARER.** A traveler; a guest; a transient comer to an inn for lodging or entertainment.<sup>34</sup>

**WAYGOING CROP.** See Landlord and Tenant § 349

**WAYLAY.** To lie in wait for in the way; to take steps to meet or encounter in the way, especially with a view of taking by surprise, seizing, robbing, or killing, to beset in ambush <sup>35</sup>

**WAYLEAVE.** An English term,<sup>36</sup> meaning a right of way <sup>37</sup> It is stated in 39 C J S. p 780 note 65 that in the United States the equivalent expression is "haulage royalty."

**W. D.** As an abbreviation for "western district" and "warranty deed" see 1 C J S. p 276 note 5.

**WE.** A pronoun,<sup>38</sup> the plural of "I,"<sup>39</sup> although it may be used in an editorial sense<sup>40</sup> for the first person singular <sup>41</sup>

Since there is no personal pronoun which is properly adapted for use by a corporation, "we" is fre-

### I. IN GENERAL

#### § 1. Definitions

A weapon is an instrument of offensive or defensive combat, and the word "arms" is especially applied to those things which are designed for fighting and recognized as such. Terms such as "firearm", "gun", "pistol", "revolver", "repeater", "rifle", "slungshot", "lethal weapon", "deadly weapon", and "bludgeon" have been defined by the courts

A weapon is an instrument of offensive or defensive combat,<sup>1</sup> or anything used, or designed to be used, in destroying, defeating, or injuring an enemy.<sup>2</sup> With respect to the particular offenses hereinafter dealt with such as the carrying, possessing, selling, or exhibiting, of weapons, or, in the case of firearms, the pointing, or shooting thereof, the word "weapon" is ordinarily used in a more restricted sense, by reason of the fact that statutes creating such offenses usually specifically name weapons intended to be brought within their scope, and hence are limited to the weapons named, or to others of a similar nature.<sup>3</sup>

*Arms* While in a loose sense, the term "arms" may be employed as including objects of any kind that may be used as weapons,<sup>4</sup> nevertheless as distinguished from "weapon," which, as already pointed out, may properly designate anything that can be wielded in fight, the word "arms" is especially applied to those things which are designed for fighting and recognized as such, and it includes means of defense as well as of offense,<sup>5</sup> but it does not include an imitation weapon incapable of such use.<sup>6</sup>

*Small arms* In military usage, all portable firearms are called "small arms" as distinguished from "guns," the latter term being reserved for pieces of ordnance.<sup>7</sup>

*Firearms* A "firearm" may be defined as a weapon which acts by the force of gunpowder,<sup>8</sup> or as any weapon from which a shot is discharged by force of an explosive.<sup>9</sup> The term is usually applied, however, only to small arms.<sup>10</sup> A revolver

#### Commonly accepted usage

A "firearm", by commonly accepted usage, necessarily connotes the action of a chemical explosive such as gunpowder, which action is in the nature of combustion of some sort in a weapon

DC—Tendler v District of Columbia, Mun App, 50 A 2d 263

10. Webster New Int D.

so out of repair that it cannot be fired is not a firearm<sup>11</sup>

**Gun** "Gun" is a generic term,<sup>12</sup> and in popular usage denotes any portable firearm,<sup>13</sup> or weapon that throws a projectile or missile to a distance,<sup>14</sup> but usually does not include a pistol,<sup>15</sup> although "pistol" and "gun" are sometimes used interchangeably<sup>16</sup> In military usage, however, only cannon or pieces of ordnance are called guns<sup>17</sup>

**Pistol.** A "pistol" has been defined as a gun,<sup>18</sup> a small firearm having a curved stock or butt to fit the hand and a short barrel or barrels,<sup>19</sup> a short,<sup>20</sup> small, light<sup>21</sup> firearm, and intended to be

aimed<sup>22</sup> and fired<sup>23</sup> from one hand Pistols are now usually either revolvers, or automatic, or semi-automatic, magazine pistols<sup>24</sup> The pistol is frequently the subject of statutory regulation<sup>25</sup>

A "pocket pistol" is such a pistol as a man ordinarily carries, or may conveniently carry, or actually carries on his person, in his pocket<sup>26</sup> A "belt pistol" is such a pistol as a man usually carries, or that may be conveniently carried, or that is actually carried on the person in a belt<sup>27</sup>

**Revolver** A revolver is a firearm<sup>28</sup> or gun,<sup>29</sup> especially a pistol,<sup>30</sup> having a breechloading chambered cylinder so arranged that the cocking of the

Neb—Bright v State, 252 N.W 386, 387, 125 Neb 817.

hammer or movement of the trigger in its return motion revolves it and brings the next cartridge in line for firing<sup>31</sup> Although the terms "pistol" and "revolver" are used in common parlance indiscriminately as applying to either class of weapons,<sup>32</sup> strictly speaking, a revolver must have a revolving cylinder, chambered for cartridges<sup>33</sup>

**Repeater** A repeater is a magazine gun,<sup>34</sup> a type of pistol which has been held to be a soldier's weapon,<sup>35</sup> a well-known army weapon<sup>36</sup>

**Rifle.** As a noun, the word "rifle" has a well defined meaning;<sup>37</sup> it is a firearm, of whatever size, having on the surface of its bore spiral grooves, called rifling, to impart rotary motion to the projectile, insuring greater accuracy of fire<sup>38</sup> A "gun" when it is mounted on a stock requiring the use of both hands is commonly called a rifle, musket, carbine, or fowling piece<sup>39</sup> A pistol differs from a

musket chiefly in size.<sup>40</sup>

**Bludgeon** A bludgeon is a short stick, with one end loaded, used as an offensive weapon<sup>41</sup>

**Slungshot.** A slungshot is a ball of shot or metal covered with leather, and a band of elastic or leather, attached to such ball, and made so that it can be attached to the wrist or arm of a person;<sup>42</sup> a metal ball of small size with a string attached, used for striking,<sup>43</sup> a small mass of metal or stone fixed on a flexible handle, strap, or the like, used as a weapon<sup>44</sup> The general term "sap" includes a "slungshot"<sup>45</sup> A "slungshot" is not to be confused with a "sling-shot," the latter being a boy's toy or catapult<sup>46</sup>

A "dangerous" or "deadly" weapon may be defined as one likely to produce death or great bodily harm by the use made of it,<sup>47</sup> but a weapon capable of

### a. Nature of Right

The right to keep and bear arms is safeguarded by the federal and state constitutions, and such right is a great general right.

While the right to keep and bear arms is not a right conferred on the people by the federal Constitution,<sup>51</sup> such right is safeguarded from infringement, by the federal Constitution,<sup>52</sup> and by state constitutions<sup>53</sup> This right is a great general right,<sup>54</sup> and is sometimes said, occasionally in the constitution itself, to be an inherent and inalienable right,<sup>55</sup>

ment denied 63 NYS 2d 840, 270 App Div 1046, affirmed 73 NE 2d 41, 296 N Y 926

**Right antedated federal Constitution**  
Second Amendment to United States Constitution created no right to bear arms, which right long antedated the adoption of the federal Constitution.

NY—Moore v Gallup, 45 NYS 2d 63, 267 App Div 64, affirmed 59 NE 2d 439, 293 NY 846, motion granted 60 NE 2d 847, 294 N.Y. 699

68 C J. p 5 note 29.

existing independently of the various constitutional guaranties thereof<sup>56</sup> It has been said that the keeping and bearing of arms intended to be protected as a popular right, was not such as the common law condemned, but such a keeping and bearing as the public liberty and its preservation commended as lawful, and worthy of protection<sup>57</sup>

The right guaranteed is not to bear arms on all occasions and in all places,<sup>58</sup> but to use them in a way that is usual, or to keep them for the ordinary purposes to which they are adapted,<sup>59</sup> as for the defense of a person, his property, and the state<sup>60</sup> Even at the early common law, the right to bear arms was not absolute, for the act of riding or going armed with dangerous or unusual weapons to the terror of the people was an indictable offense<sup>61</sup>

### b. "Arms" Defined

As used in constitutional guaranties relating to the bearing of arms, the word "arms" means the ordinary arms or military equipment needed and used by the militia, or those arms which are usually employed in warfare

As used in constitutional guaranties with respect

to the bearing of arms, the word "arms" means such weapons as are adapted to the efficiency of the citizen as a soldier,<sup>62</sup> and are carried openly,<sup>63</sup> the ordinary arms or military equipment needed and used by the militia, or those arms which are usually employed in warfare<sup>64</sup> or which were so employed when the constitutional provisions were adopted,<sup>65</sup> such as rifles, shotguns, or muskets,<sup>66</sup> and swords<sup>67</sup> except, it has been held, swords concealed in canes.<sup>68</sup> Such definitions have been formulated by courts which have been impressed with the historical background,<sup>69</sup> and have been influenced by references in a number of the constitutions to the necessity of a well regulated militia<sup>70</sup> or to the dangers inherent in the maintenance of standing armies.<sup>71</sup>

While it has been held that the word "arms," as used in the constitution, does not include pistols or revolvers,<sup>72</sup> especially where the pistol is a mere belt or pocket pistol, and not such as is used as a weapon of war,<sup>73</sup> it also has been held that a pistol may be included, if it be a large sized pistol of the kind used in the military or naval service,<sup>74</sup>

56. NY—Moore v Gallup, 45 NYS 2d 63, 267 App Div 64, affirmed 59 NE2d 439, 293 NY 846, motion granted 60 NE2d 847, 294 NY 699

such as a holster pistol<sup>75</sup> or a repeater,<sup>76</sup> and there is some authority for the view that a pistol of any kind is included,<sup>77</sup> at least where it is not adapted to being carried concealed,<sup>78</sup> or where the purpose of its possessor is the legitimate defense of himself and his property.<sup>79</sup> It has been held, further, that a provision in a bill of rights declaring that the people have the right to bear arms for their defense and security refers to the people as a collective body, and applies only to the right to bear arms as a member of the state militia, or some other military organization provided for by law,<sup>80</sup> but, on the other hand, it has been held that the meaning of the term "arms," especially when found in constitutional provisions guaranteeing to every person the right to bear arms for the defense of himself and the state, cannot properly be confined within the limits fixed by the historical and military test,<sup>81</sup> but must be deemed to include arms customarily kept by law-abiding citizens for their protection.<sup>82</sup>

### c. Power to Regulate

The provision of the federal Constitution guaranteeing the right of the people to keep and bear arms constitutes a limitation on the federal government alone, so that a state legislature in the absence of similar provisions in the organic law, is free to regulate the manner of bearing arms, although it may lack the power entirely to destroy the right.

While it is provided in general terms in the federal Constitution that the right of the people to keep and bear arms shall not be infringed, it has

long been held by the United States supreme court that these provisions of the Second Amendment, like those of the rest of the first ten amendments, constitute a limitation on the power of federal government alone,<sup>83</sup> and not that of the states,<sup>84</sup> although at one time a number of the state courts were of a contrary opinion.<sup>85</sup> Furthermore, it has been stated that the Second Amendment was not adopted with individual rights in mind, but as a protection for the states in the maintenance of their militia organizations against possible encroachment by the federal power.<sup>86</sup> A state or territorial legislature, therefore, in the absence of similar provisions in the organic law, is free to regulate the manner of bearing arms,<sup>87</sup> although it may lack the power entirely to destroy the right,<sup>88</sup> and must respect the power lodged in congress to provide for organizing, arming, and disciplining the militia and for calling forth the militia for certain purposes,<sup>89</sup> and to give or withhold its consent for a state to keep troops.<sup>90</sup>

Almost all the state constitutions, however, with variations in phraseology, contain a guaranty similar in substance or effect to that found in the United States Constitution, and legislation in such a state may not infringe the particular guaranty of its constitution.<sup>91</sup> Whatever may be the source or nature of the right to bear arms, or the precise character of those "arms" in connection with which the right is to be exercised, the manner of bearing arms is subject to regulation by the states or ter-

#### Statutes held not invalid

(1) Statute providing that no person shall carry a pistol without a license in any vehicle or conceal it about his person except in his place of abode or fixed place of business held not invalid

Wash—*State v Tully*, 89 P.2d 517, 198 Wash 605

(2) The provision of Dangerous Weapons' Control Law making possession of firearm whose marks of identification have been tampered with prima facie evidence that tampering was done by possessor is within police power of state and is not unconstitutional as violative of "due process of law"

Cal—*People v Scott*, 151 P 2d 517, 24 Cal 2d 774

#### In New York

(1) It is generally held that a statute providing that presence in automobile of certain weapons shall be presumptive evidence of illegal possession of such weapons by all persons found in the automobile at the time the weapon is found is constitutional

N Y—*People v Russo*, 103 N Y S 2d 603, 278 App Div 98, affirmed 102 N E 2d 834, 303 N Y 673—*People v Burt*, 16 N Y S 2d 211, 258 App Div 896, affirmed 28 N E 2d 968, 283 N Y 740

*People v Crenshaw*, 117 N Y S 2d 202, 202 Misc 179

(2) There is, however, some authority to the contrary

N Y—*People ex rel Dixon v Lewis*, 293 N Y S 191, 249 App Div 464, affirmed 12 N E 2d 603, 276 N Y 613

(3) Statute making presence of machine gun in any room presumptive evidence of its illegal possession by all persons occupying place where machine gun is found, has been held reasonable and valid

N Y—*People v Terra*, 102 N E 2d 576, 303 N Y 332, appeal dismissed 72 S Ct 561, 342 U.S. 938, 96 L Ed 698

*People v Woods*, 114 N Y S 2d 611, 202 Misc 562

(4) According to some authority, however, such statute violates the due process clause of the federal Constitution.

the legislature may consider degrees of evil.<sup>2</sup> A fortiori, such legislation is valid where the constitution declares that the practice of wearing or carrying concealed weapons may be prohibited, or that nothing contained therein is intended to justify such a practice.<sup>3</sup>

Constitutional guaranties of due process of law and equal protection of the laws, as discussed in Constitutional Law §§ 502-707, do not require the legislature to extend the statute to all cases which might possibly be brought within its scope,<sup>4</sup> but in determining on what basis a distinction may be made for the purpose of legislative classification between objects having resemblance, the legislature cannot exercise its power arbitrarily, and the distinction must have a reasonable basis.<sup>5</sup> Thus, statutes denouncing the carrying of concealed weapons, although they may be applicable even to peace officers, as discussed infra § 9, are not unconstitutional merely because they may be made inapplicable to police officers,<sup>6</sup> and to watchmen and special agents and policemen employed by railroads or by express companies while engaged in the discharge of the duties of their employment.<sup>7</sup> Nor are the statutes invalid because they may exempt other persons so engaged,<sup>8</sup> such as conductors, baggagemen, messengers, and drivers in the employ of railroads or express companies.<sup>9</sup>

Although statutes forbidding entirely the carrying or possession of certain weapons, whether openly or concealed, have occasionally been held to amount

to a deprivation of the right to keep and bear arms,<sup>10</sup> except in so far as the statutes may be deemed to apply to concealed weapons,<sup>11</sup> the modern tendency is to affirm the constitutionality of such statutes.<sup>12</sup>

*Arms or instruments.* A statute making it unlawful to carry any arm, or any instrument with which bodily injury may be caused has been held not to be unconstitutional as being vague, indefinite, and uncertain,<sup>13</sup> in view of the meaning to be given the words "arm" and "instrument," as discussed infra § 6.

*Pistols.* In some cases, depending largely on the meaning which the courts ascribe to the word "arms" within the purview of the constitutional guaranties, as discussed supra subdivision b of this section, the validity of statutes or ordinances making it unlawful to carry a pistol or revolver openly has been denied,<sup>14</sup> and in other cases upheld,<sup>15</sup> while in still other cases such statutes or ordinances are deemed valid only as to concealable, belt, or pocket pistols,<sup>16</sup> being held invalid as to pistols such as are used in the army or navy.<sup>17</sup>

*Weapons used unlawfully.* Some weapons are so commonly and notoriously used for criminal purposes that the mere unlicensed possession thereof may be made illegal, irrespective of any intent to use the weapons unlawfully.<sup>18</sup> This rule has been applied to a concealable pistol or revolver,<sup>19</sup> a black-jack<sup>20</sup> or sap,<sup>21</sup> a bludgeon,<sup>22</sup> a slungshot,<sup>23</sup> and

to metal knuckles <sup>24</sup>

*Licenses or permits* As a condition precedent to the purchase, carrying, or possession of a weapon, the lawmaking body may properly require the obtaining of a license or permit<sup>25</sup> as well as the posting of a bond,<sup>26</sup> provided the regulation is reasonable and not prohibitive,<sup>27</sup> and such requirement may be made applicable to particular classes of persons as considered *infra* subdivision d(2) of this section. However, a statute requiring that applicants for permits to carry pistols be fingerprinted and photographed has been held invalid as an unreasonable exercise of the police power<sup>28</sup>. An unrevoked pistol permit, unlimited as to time, is not destroyed by the enactment of an invalid statute<sup>29</sup>.

*Drilling or parading with arms.* At least within the confines of a city or town, the act of drilling or

parading with arms may be forbidden without thereby infringing the right to keep and bear arms,<sup>30</sup> or violating other constitutional provisions.<sup>31</sup>

*The Federal Firearms Act*, regulating the transporting, shipping, or receiving of firearms in interstate or foreign commerce, and prohibiting such acts by unlicensed persons generally, is valid<sup>32</sup>. The statute may be made applicable only to those who fall within a particular class, including among others, those convicted of certain crimes of violence in any state or territory, or fugitives from justice,<sup>33</sup> but a provision of the act that possession of a firearm by any person who has been convicted of a crime of violence or as a fugitive from justice shall be presumptive evidence of the shipment or transportation in interstate or foreign commerce prohibited by the act is void as lacking logical connection between the possession of such firearm and

SCt 1010, 324 US 889, 89 LEd 1437—*U S v Tot*, CCANJ, 131 F2d 261, reversed on other grounds 63 SCt 1241, 319 US 463, 87 LEd 1519

*U S v Platt*, DCTex, 31 F Supp 788

Validity of National Firearms Act regulating sale of firearms and imposing tax thereon see *infra* subdivision e of this section

#### **Rights not affected**

The act does not affect either the rights of the states to maintain their militia or the rights of the people to keep and bear arms in a lawful manner within the states  
US—*U S v Tot*, DCNJ, 28 F Supp 900

#### **Application in Puerto Rico**

(1) The Federal Firearms Act applies in Puerto Rico

US—*Quinones v U S, CCA Puerto Rico*, 161 F2d 79, certiorari denied 67 SCt 1513, 331 US 833, 91 LEd 1846—*Velazquez v Hunter*, CCA Kan, 159 F2d 606, certiorari denied 67 SCt 1084, 330 US 846, 91 LEd 1291

(2) Defendant could be convicted of transporting pistol and ammunition in Puerto Rico in violation of Federal Firearms Act, regardless whether pistol and ammunition were brought into Puerto Rico in interstate commerce after the act became effective

US—*Rivera v U S, CCA Puerto Rico*, 151 F2d 47.

33. US—*U S v. Tot*, DCNJ, 28 F Supp 900

#### **Intent**

Under the act making it unlawful for any person convicted of a crime of violence or a fugitive from justice to receive any firearm or ammunition which has been shipped or

transported in interstate or foreign commerce, congress did not intend to infringe upon the constitutional right of people to bear arms, but intended to control interstate traffic in firearms upon the part of criminals and, in such respect, congress acted entirely within scope of its powers

US—*U S v Tot*, *supra*.

#### **Prior conviction**

The act is not unconstitutional as an "ex post facto law," as applied to one who had been convicted of aggravated assault and battery before the passage of the act, on ground that it imposed on him an additional penalty for such crime, since congress sought by the act to protect the public by preventing the transportation and possession of firearms and ammunition by those who, by their past conduct, had demonstrated their unfitness to be trusted with such dangerous instrumentalities

US—*Cases v U S, CCA Puerto Rico*, 131 F2d 916, certiorari denied *Cases Velazquez v U S*, 63 SCt 1431, 319 US 770, 87 LEd 1718, rehearing denied 65 SCt 1010, 324 US 889, 89 LEd 1437

"Indictment" within provision of the act prohibiting the receipt and transportation of firearms and ammunition by persons under "indictment" for a crime of violence includes an information, and act applied to one charged in Puerto Rico by information only, particularly in view of fact that all charges of crime in the Insular Courts are by information filed by prosecuting attorney only

US—*Quinones v U S, CCA Puerto Rico*, 161 F2d 79, certiorari denied 67 SCt 1513, 331 US 833, 91 LEd 1846

presumption of shipment or transportation in interstate commerce.<sup>34</sup>

### (2) By Particular Classes of Persons

The legislature may license or prohibit the carrying or possession of weapons by particular classes of persons, such as aliens or felons.

The legislature may prohibit the carrying or possession of weapons by particular classes of persons,<sup>35</sup> including free negroes,<sup>36</sup> intoxicated persons,<sup>37</sup> minors,<sup>38</sup> slaves,<sup>39</sup> and tramps,<sup>40</sup> or it may impose the requirement of a license or permit for the carrying of arms by free negroes<sup>41</sup> or persons of color.<sup>42</sup>

*Aliens* The legislature may not only compel an alien to obtain a license or permit as a prerequisite to the rightful possession of firearms,<sup>43</sup> but may go further and prohibit entirely the ownership or possession of designated firearms by unnaturalized foreign-born persons, under its police power<sup>44</sup> Prohibitory legislation of this character has been upheld as applied to pistols<sup>45</sup> and other firearms capable of being concealed on the person.<sup>46</sup> On the ground that the legislature has power to prohibit the use of firearms by unnaturalized foreign-born residents for the

purpose of hunting, capturing, or killing any wild bird or animal, except in defense of person or property, the legislature may forbid the ownership or possession of shotguns, rifles, and similar firearms<sup>47</sup> On the other hand, while it is a valid exercise of the police power for a legislature to prohibit unnaturalized foreign-born residents from hunting or killing the wild game of the state, the legislature may not deny the right of unnaturalized foreign-born residents, as guaranteed by the state constitution, to keep and bear arms that may be used in defense of person or property<sup>48</sup>

*Felons* It is within the legislative power to interdict the ownership or possession of firearms by persons convicted of a felony,<sup>49</sup> or of a crime of violence<sup>50</sup> This classification is a reasonable one,<sup>51</sup> and a statute making such a classification may properly ignore the element of criminal intent as an ingredient of the offense<sup>52</sup>

### e. Regulating Manufacture, Sale, Gift, Loan, or Use

The constitutional guaranty of the right to bear arms does not operate to prevent the enactment of legislation regulating the manufacture, sale, gift, loan, or use of weapons

34. US—Tot v U S, Mich & N.J., 63 S Ct 1241, 319 US 463, 87 L Ed 1519—U S v Delia, Mich & N.J., 63 S Ct 1241, 319 US 463, 87 L Ed 1519, certiorari denied U S v Minski, 63 S Ct 1431, 319 US 775, 87 L Ed 1722

#### Statutes held not unconstitutional

(1) Statutes making it a misdemeanor for any person previously convicted of enumerated crimes to purchase, own, possess or control any of the enumerated weapons are not unconstitutional

N.J.—State v Wyckoff, 99 A.2d 365, 27 NJ Super 322

(2) The code provision prohibiting prisoners in state prisons from possessing or carrying designated weapons is a valid police regulation and is not violative of constitutional provisions guaranteeing right to acquire and possess property and prohibiting infringement of right of people to keep and bear arms

Cal—People v Wells, 156 P 2d 979, 68 Cal App 2d 476

50. Wash—Pettus v Cranor, 250 P 2d 542, 41 Wash 2d 567

Wash—State v Krantz, 164 P 2d 453, 24 Wash 2d 350—State v Tully, 89 P 2d 517, 198 Wash 605 Application of Federal Firearms Act to persons convicted of crimes of violence or fugitives from justice see supra subdivision d (1) of this section

#### Crimes within statute

(1) The classification of crimes of violence as contained in statute is reasonable, in that it includes crimes of violence commonly characterized as such at common law

Wash—State v Krantz, 164 P 2d 453, 24 Wash 2d 350

(2) Designating larceny as crime of violence within statute prohibiting one who has been convicted of such a crime from having possession, ownership, or control of pistol did not so violate requirement of reasonableness in classifications required of legislation enacted under police power as to invalidate the statute

Ala—Jackson v State, 68 So 2d 850, 37 Ala App 335, certiorari denied 68 So 2d 853, 260 Ala 698

51. Cal—People v Camperlingo, 231 P 601, 69 Cal App 466, 68 CJ p 13 note 30

52. Cal—People v Gonzales, 237 P. 812, 72 Cal App 626.

The constitutional guaranty of the right to bear arms does not operate to prevent the enactment of legislation regulating the manufacture, sale, gift, loan, or use of weapons<sup>53</sup> Under its police power, the state or a municipality has not only the power to regulate,<sup>54</sup> which includes the power to impose license fees and taxes,<sup>55</sup> but also the power, completely to prohibit the sale of ammunition, weapons, or toy pistols and the like,<sup>56</sup> without thereby infringing the right to keep or bear arms. The state or a municipality may likewise prohibit the public exhibiting and advertising of revolvers and other weapons for sale,<sup>57</sup> and may prohibit the sale thereof to any person who has not obtained a permit or complied with the statutory requirements<sup>58</sup> A statute making it unlawful to sell certain weapons does not abridge the constitutional right of citizens to keep and bear arms for the common defense,<sup>59</sup> nor does it contravene a provision in the state bill of rights declaring that no person shall be dispossessed of his estate, liberties, or privileges,<sup>60</sup> or be deprived

of his property except by the judgment of his peers or the law of the land.<sup>61</sup> A city ordinance regulating the sale of weapons must not be unreasonable, arbitrary, or discriminatory either in effect<sup>62</sup> or classification<sup>63</sup> The fact that a weapon cannot be lawfully sold or otherwise disposed of does not prevent it from being property susceptible of lawful ownership<sup>64</sup> An ordinance making the discharge of firearms unlawful is not violative of the constitutional guaranty of the right of the people to bear arms for their defense<sup>65</sup>

#### f. Purpose and Construction of Statutes

Statutes making it unlawful to have or carry weapons are designed to suppress the act or practice of going armed and to outlaw instruments ordinarily used for criminal and improper purposes; and such statutes should receive a reasonable construction.

Statutes making it unlawful to have or carry weapons are designed to suppress the act or practice of going armed and being ready for offense or defense in case of conflict with another,<sup>66</sup> and to out-

**53. National Firearms Act**, regulating the sale of firearms, and imposing a tax thereon, is not invalid, as being in excess of the powers of congress

U S—U S v Miller, Ark, 59 S Ct 816, 307 US 174, 83 L Ed 1206  
U S v Fleish, D C Mich, 90 F Supp 273—U S v Adams, D C Fla, 11 F Supp 216

**Validity of Federal Firearms Act** regulating the transporting, shipping, or receiving firearms in interstate or foreign commerce see supra subdivision d of this section

**55. La—State v Winehill & Rosenthal**, 86 So 181, 184, 147 La 781

68 CJ p 14 note 52—37 CJ p 224 note 62

#### Pawnbroker as dealer

(1) Pawnbroker, who receives pistols in pledge, purchases pistols at pawnbroker's sale, and resells them, was not "dealer in pistols" within license statute

Ala—State v Levy Loan Co, 149 So 714, 25 Ala App 514  
Miss—Graham v State, 71 Miss 208, 210, 13 So 883

(2) Where a pawnbroker's license has been taken out by a pawnbroker who sells or offers for sale no pistols other than those which have been pledged with him and not redeemed, he need not procure also a license to engage in or carry on the business of a dealer in pistols  
Ala—Morningstar v. State, 33 So. 485, 135 Ala. 66

#### Reputable applicant

Under the Uniform Firearms Act, any reputable applicant for a li-

cense to sell firearms is entitled to receive it providing he complies with the terms of the act

Pa—Uptown Sales, Inc, v Oliver, 66 Pa Dist & Co 51

**56. Ill—Biffer v City of Chicago**, 116 NE 182, 278 Ill 562  
68 CJ p 15 note 53

#### Shipment to other states

Section of the Penal Law dealing with the making and disposing of dangerous weapons was applicable to dealer in firearms, who allegedly kept blackjacks and metal knuckles for shipment directly to dealers in other states

N Y—People v Mogul, 128 NYS 2d 667, 204 Misc 995

**57. Ill—Biffer v City of Chicago**, 116 NE 182, 278 Ill 562

**58. Ill—Biffer v City of Chicago**, supra

Iowa—State v Cochran, 162 NW 755, 179 Iowa 1304

#### Sale to minor

The statute prohibiting sale of firearms or ammunition to a child under fifteen years without written consent of parents strongly indicates that, in judgment of legislators, sale of firearms or ammunition to a minor should not be forbidden if minor is over fifteen years of age, or if his parent or guardian has consented

R I—Corey v Kaufman & Chernick, 36 A 2d 103, 70 R I 27

**59. Ark—Dabbs v. State**, 39 Ark 353, 43 Am R 275.  
68 CJ p 15 note 56.

**60. Ark—Dabbs v. State**, supra.

**61. Ark—Dabbs v. State**, supra.  
68 CJ p 15 note 58.

**62. Ill—Biffer v City of Chicago**, 116 NE 182, 278 Ill 562  
68 CJ p 15 note 60

**63. Ill—Biffer v. City of Chicago** supra  
68 CJ p 15 note 61

**64. Tenn—Heaton v State**, 169 S W 750, 130 Tenn 163

**65. Ohio—McCollum v City of Cincinnati**, 199 NE 603, 51 Ohio App 67

Criminal responsibility for shooting firearms see infra § 19

#### Intentional or negligent shooting

Statute authorizing action in tort by person injured by discharge of a firearm intentionally pointed toward such person did not apply to negligent acts of two boys, who while shooting rifle within city limits shot plaintiff's decedent, since such statute was repealed as to negligent shooting by a later statute  
Vt—Giguere v. Rosselot, 3 A 2d 538 110 Vt 173.

**66. Pa—Henry v Pechin**, 31 Pa Dist & Co 484, 27 Del Co 421  
68 CJ p 15 note 63

"The object of this statute is to prevent the carrying of concealed deadly weapons about the person, because persons becoming suddenly angered, and having such a weapon in their pocket, would be likely to use it, which in their sober moments they would not have done, and which could not have been done had not the weapon been upon their person"  
Del—State v. Chippey, 33 A. 438, 14 Del 583  
Ky—Corpus Juris quoted in Williams v Commonwealth, 261 S W 2d 807, 808.

law instruments ordinarily used for criminal and improper purposes<sup>67</sup> In other words, the statutes are designed to minimize the danger to public safety arising from free access to firearms that can be used for crimes of violence,<sup>68</sup> and also to minimize accidental casualties<sup>69</sup> The statutes should receive a reasonable construction<sup>70</sup> in accord with the purpose of the legislature<sup>71</sup> and in the light of the evil to be remedied,<sup>72</sup> and they should be construed with the thought in mind that they are aimed at persons of criminal instincts and for the prevention of crime and not against the use of weapons in the protection of person or property<sup>73</sup>

The evil sought to be reached by statutes denouncing the offense of carrying weapons concealed is a serious one,<sup>74</sup> and they should be liberal-

ly construed,<sup>75</sup> in such manner as to effectuate their obvious and wholesome purpose,<sup>76</sup> so long as no injustice results,<sup>77</sup> and they should not be so liberally interpreted as to render ineffective the legislative intent<sup>78</sup> Nevertheless, from a somewhat different point of view, the right to bear arms is essential, and its exercise should not be frustrated by technicalities<sup>79</sup> Furthermore, applying the general rule discussed in Statutes § 389, penal statutes must be construed strictly against the state and favorably to the liberty of the citizen,<sup>80</sup> being construed not according to the letter, but according to their spirit<sup>81</sup> Manifestly, the rule of strict construction is satisfied where the thing in question falls within both the letter and the spirit of the prohibition<sup>82</sup>

## II. CRIMINAL RESPONSIBILITY

### § 3. Carrying or Possession of Weapons

The carrying or possession of a weapon is not in itself an offense against the law, and it becomes an offense only where it is prohibited by statute; the offense is continuous and transitory in nature.

The carrying or possession of a weapon is not in itself an offense against the law,<sup>83</sup> and it does not constitute a breach of the peace<sup>84</sup> It becomes an offense only because it is prohibited by statute,<sup>85</sup> and such statutes apply to all persons within their terms except those expressly excepted therefrom, as discussed infra § 9 The offense of carrying a weapon is continuous,<sup>86</sup> and transitory<sup>87</sup> in its nature.

If the prohibited act is the carrying of a concealed weapon, a second offense does not arise until the continuity of the first act is broken,<sup>88</sup> and the weapon, having been exposed to view elsewhere than on the person, is again concealed.<sup>89</sup>

Whether the offense of carrying or possessing concealed weapons constitutes a felony or misdemeanor depends on the terms of the statute,<sup>90</sup> and the offense has been held to be a felony where punishable by imprisonment in a penitentiary, although a lesser penalty could be imposed<sup>91</sup> Under some provisions, the offense is a mere misdemeanor,<sup>92</sup> and in such case, the carrying of a weapon is

90. Possession by felon

Offense of unlawful possession of firearms by a felon held a felony, notwithstanding that offense was punishable either by imprisonment in state prison or in county jail, and that statute made possession of firearms by ordinary individual a misdemeanor

Cal—Ex parte Rogers, 66 P 2d 1237, 20 Cal App 2d 397.

91. Neb—Bright v. State, 252 N W 386, 125 Neb 817

92. Wis—Anderson v State, 114 N. W 112, 133 Wis 601.

Mere possession

If tenant resisted unlawful entry on premises by exhibiting loaded re-

not an infamous crime<sup>93</sup> A conviction, therefore, imputes neither moral turpitude,<sup>94</sup> nor a lack of veracity,<sup>95</sup> and is not a bar on one's credibility as a witness<sup>96</sup>

*Federal Firearms Act.* Where a firearm is transported, shipped, or received in interstate commerce in violation of the Federal Firearms Act, the person who receives the firearm is not guilty of violating the act unless his reception is in some way connected with interstate commerce<sup>97</sup> Since a firearm unlawfully shipped in interstate commerce in violation of the Federal Firearms Act is contraband, a person who receives the firearm knowing it is contraband or under circumstances charging him with knowledge that it is contraband is guilty of unlawfully receiving the firearm, even though he does not directly receive it in interstate commerce.<sup>98</sup>

#### § 4. — Elements of Offenses in General

In order to constitute a violation of statutes denouncing the having or carrying of weapons, it is necessary that there exist all the elements prescribed by the statutes.

In order to constitute a violation of statutes denouncing the having or carrying of weapons, it is of course necessary that there exist all the elements

prescribed by the statutes,<sup>99</sup> as properly construed,<sup>1</sup> including the carrying or possession of a weapon<sup>2</sup> of the description contemplated by the statute, as discussed *infra* § 6, with the requisite intent, *infra* § 5, by a person not a member of a class specially privileged by the statute, *infra* § 9, at a place and in the manner prohibited, *infra* §§ 7, 8 So, where the statute prohibits the carrying of a weapon by a person convicted of a felony, it must appear that the accused was previously convicted of a felony, and not of a misdemeanor<sup>3</sup>

*A constructive carrying* rather than an actual carrying of a weapon may be sufficient to constitute the offense.<sup>4</sup>

*Concealment* is an essential element of the crime of carrying concealed weapons,<sup>5</sup> but not of other distinct crimes,<sup>6</sup> such as the carrying or possessing of weapons,<sup>7</sup> or having possession of a weapon while intoxicated<sup>8</sup>

*Any length of time*, no matter how short, is sufficient, broadly speaking, for an act of carrying<sup>9</sup> or of concealment<sup>10</sup> In order to constitute the offense of carrying weapons without a license, however, it seems that the possession of the weapon must continue for at least some appreciable time<sup>11</sup>

volver, not in necessary self-defense, without pointing it or attempting to shoot any one, offense at most was misdemeanor

#### Knowledge

Under statute providing that any one who sells, offers for sale, possesses, or knowingly transports any firearms of the kind known as machine gun is guilty of public offense, knowledge of fact that weapon is machine gun is not an essential element of offense of possession but knowledge of such fact is an essential ingredient only of offense of transporting

Cal—People v Daniels, 257 P 2d 1038, 118 Cal App 2d 340

#### Possession by alien

The essential elements of the offense of unlawful possession of a revolver by an alien, are, first, the ownership, or possession, or custody, or control of the weapon of the prohibited type, and the fact of foreign birth and unnaturalization of accused

Cal—People v Quarez, 238 P. 363, 196 Cal 404, followed in People v Garcia, 238 P 367, 196 Cal 784

10. Ga—Morton v State, 46 Ga. 292 68 CJ p 17 note 7

11. Ga—Jackson v State, 77 SE. 371, 12 Ga App 427.

*Ownership* of a weapon illegally carried is immaterial,<sup>12</sup> except in so far as the circumstances of ownership may tend to establish the guilt or innocence of the accused<sup>13</sup> Similarly, under statutes prohibiting the carrying of weapons by certain persons, such as a person who is in charge of, or a passenger in, a vehicle in which intoxicating liquor is being transported, ownership of the vehicle is immaterial<sup>14</sup>

*Wrongful use* of the weapon is not an element of the crime of carrying a concealed deadly weapon, although such use may be of evidentiary significance under certain circumstances<sup>15</sup>

*Federal Firearms Act.* Under the Federal Firearms Act in order to render the transportation of a firearm in interstate commerce unlawful, it is necessary that the person transporting the firearm have been convicted of a crime of violence as defined under the act<sup>16</sup> The enumeration in the act of the crimes, the conviction of which renders subsequent transportation of a firearm by the convicted person unlawful, is intended to be exclusive so that unless included therein, a crime may not be regarded as a crime of violence within the meaning of the act<sup>17</sup>

## § 5. — Intent, Purpose, or Motive

- a. In general
- b. Purpose or motive considered as material

### a. In General

While intent is an indispensable element of the crime of carrying or possessing a weapon, the intent deemed indispensable is merely the intent to do the prohibited act, rather than the intent to violate the law.

While intent is an indispensable element of the crime of carrying a weapon,<sup>18</sup> and of unlawful possession,<sup>19</sup> under some statutes, or in connection with particular weapons mentioned therein, the intent deemed indispensable is merely the intent to do the prohibited act, rather than the intent to violate the law,<sup>20</sup> with the result that it has been held that the intentional doing of the prohibited act constitutes in itself a complete criminal offense, irrespective of the purpose or motive of accused,<sup>21</sup> unless the purpose is of a kind permitted by the statute<sup>22</sup> This view finds expression in cases holding that it is an offense to have or carry a concealed or other prohibited weapon, even though the purpose in doing so was merely to exhibit it as a curiosity,<sup>23</sup> or with the hope of selling it,<sup>24</sup> to convey it to the buyer,<sup>25</sup> or to one's

home<sup>26</sup> to procure cartridges for it<sup>27</sup> for another's accommodation,<sup>28</sup> or to return the weapon to the owner after making repairs.<sup>29</sup> It may also constitute an offense to have or use the weapon in conducting a shooting gallery,<sup>30</sup> in hunting or butchering,<sup>31</sup> or in aiding a peace officer,<sup>32</sup> or to have it for the protection of property,<sup>33</sup> or of one's person,<sup>34</sup> in consequence of threats of violence. Persons exempted from the statutes cannot be prosecuted for exercising their legal right to have or carry weapons, whatever may have been their purpose or intent<sup>35</sup>

*Carrying concealed weapons* Where the prohibited act consists of carrying a weapon concealed, it is generally held that the weapon must not only be intentionally carried,<sup>36</sup> but also that it be intentionally concealed.<sup>37</sup> It has also been held, however, that the law is violated even when the weapon is carried concealed indifferently, carelessly, or thoughtlessly<sup>38</sup>

#### b. Purpose or Motive Considered as Material

- (1) In general
- (2) Carrying to owner or one entitled to possession
- (3) Carrying to public authorities
- (4) Other purposes or motives

##### (1) In General

Under some statutes prohibiting the carrying, or having possession, of weapons, the purpose or motive for doing the act may be material, and it is not unlawful

to have or carry a prohibited weapon with a harmless or legitimate purpose or motive.

The view taken by some courts in construing statutes prohibiting the carrying, or having possession, of weapons or certain kinds of weapons, is that the purpose or motive for doing the act may be material, and that it is not unlawful to have or carry a prohibited weapon with a harmless or legitimate purpose or motive.<sup>39</sup> It has been said that in applying the rule it would be difficult to enumerate all the instances in which a weapon might be carried innocently and without criminality.<sup>40</sup> The purpose being an innocent one, the carrying of a prohibited weapon as a mere incident of its transportation from one place to another is not an offense.<sup>41</sup> This rule of course does not apply if the purpose is one which the courts refuse to sanction,<sup>42</sup> as in cases where the weapon is carried with an unlawful purpose or intent to use it against another person.<sup>43</sup> Moreover, where the statute expressly requires a specific intent to use the weapon as such, the specific statutory intent becomes an essential ingredient of the offense.<sup>44</sup> If the conditions which sustain the right to carry a weapon cease, the right also ceases,<sup>45</sup> since, however innocent an intent might be originally, the intent may be changed instantly into an unlawful intent.<sup>46</sup> Although an unexplained possession of a weapon may constitute a violation, mere possession should not be considered a criminal act where there is a proper and convincing explanation of possession.<sup>47</sup>

47. NY—People v Quintana, 20 N YS 2d 806, 260 App Div 13.

*Momentary possession.* Possession of a firearm or dangerous weapon, resulting temporarily and incidentally from the performance of some lawful act, is not forbidden by statute,<sup>48</sup> particularly when the act is designed to meet the social policy of the law.<sup>49</sup> Statutes directed against the possessing or carrying of weapons are said not to be violated where one has possession or control of a weapon only casually<sup>50</sup> or momentarily,<sup>51</sup> without any intention of violating the law,<sup>52</sup> or controlling the use of the weapon.<sup>53</sup> One reason for this rule is that the dominion of the real owner is not lost.<sup>54</sup> A temporary and incidental possession of this nature may occur when one person disarms another,<sup>55</sup> or seizes a weapon not owned by him for a moment's use in combat.<sup>56</sup> Some statutes, however, are held to forbid the use of a weapon in fight, even though it is used for only a moment and discarded immediately afterward.<sup>57</sup> A harmless temporary possession may also occur when a person picks up a weapon,<sup>58</sup> or hands it to another to examine,<sup>59</sup> or hold for a moment,<sup>60</sup> or to shoot<sup>61</sup> at some object.<sup>62</sup>

*Route of transportation, loitering and delay.* While the route taken for an innocent transportation of weapons within the rule should be a practicable route,<sup>63</sup> it is not necessary that it be the shortest or most practicable route.<sup>64</sup> There being a legitimate reason for taking a particular route,<sup>65</sup> the transportation must proceed without undue

delay or interruption,<sup>66</sup> or unnecessary or unreasonable deviation.<sup>67</sup> There should be no diversion of one's course or a turning aside, stopping by the wayside, or loitering for the pursuit of pleasure or other matters,<sup>68</sup> or to display<sup>69</sup> or fire<sup>70</sup> the weapon on the public street,<sup>71</sup> or on the premises of another person,<sup>72</sup> but a deviation, or a stopping, or turning aside for reasonable or necessary purposes may be permissible.<sup>73</sup>

*Possession* as used in connection with the penal provisions relating to weapons is a knowing and voluntary possession which places the weapon within the immediate control and reach of the accused, and where it is available for unlawful use if he so desires.<sup>74</sup>

## (2) Carrying to Owner or One Entitled to Possession

The mere act of carrying a weapon to its owner, or to any other person entitled to its possession, is not an offense, and an owner who finds himself in the possession of a weapon when away from home may properly carry it to his home if he acts in good faith or for a legitimate purpose.

Under the general rule stated, *supra* subdivision b(1) of this section, that it is not unlawful to carry or possess a prohibited weapon for a harmless or legitimate purpose or motive, it has been held that the mere act of carrying a weapon to its owner,<sup>75</sup> or to any other person entitled to its possession,

sion,<sup>76</sup> is not an offense. On the same principle, the owner of a weapon who changes his place of abode has a right to take the weapon to his new residence,<sup>77</sup> or to his permanent residence from a temporary one.<sup>78</sup> Also, an owner who finds himself in the possession of a weapon when away from home may properly carry it to his home,<sup>79</sup> if he acts in good faith,<sup>80</sup> or for a legitimate purpose.<sup>81</sup> Moreover a person having a right to keep or leave a weapon at a particular place, such as his place of business,<sup>82</sup> may carry<sup>83</sup> or send<sup>84</sup> the weapon to that place from some other place, as for example, from his home,<sup>85</sup> or place of business.<sup>86</sup> The carrying of a weapon between such places should not be habitual,<sup>87</sup> and must be bona fide.<sup>88</sup>

*Borrowers and lenders.* One who has borrowed a weapon may properly carry it to his residence,<sup>89</sup> and he may carry or send it back to the lender<sup>90</sup> or to the lender's home.<sup>91</sup> The lender himself, whether or not the loan of the weapon was bona fide,<sup>92</sup> may send for it,<sup>93</sup> or go to get the weapon<sup>94</sup> and carry it to his home<sup>95</sup> or elsewhere.<sup>96</sup>

*Buyers or donees.* A prohibited weapon, having been made the subject of sale,<sup>97</sup> barter,<sup>98</sup> or gift,<sup>99</sup> or having been surrendered in payment of a debt,<sup>1</sup> may, in good faith,<sup>2</sup> be carried from the place of purchase to the new owner or to his home.<sup>3</sup>

*Finder of a weapon* likewise may pick it up<sup>4</sup> and carry it with him to his home,<sup>5</sup> even though, before taking it home, he proceeds to the place to which he was going at the time of the finding.<sup>6</sup>

*Pledgee* commits no offense by simply carrying the pledged weapon to his home.<sup>7</sup>

### (3) Carrying to Public Authorities

One who is carrying or in possession of a prohibited weapon with no other object than to surrender it to the police or other authorities does not offend against statutes dealing with the carrying or possession of weapons, if, within a reasonable time, he surrenders the weapon, or complies with the statutes licensing or regulating its possession.

One who is carrying or in possession of a prohibited weapon with no other object than to surrender it to the police or other authorities does not offend against statutes dealing with the carrying or possession of weapons, if, within a reasonable time, he surrenders the weapon,<sup>8</sup> or complies with the statutes licensing or regulating its possession.<sup>9</sup> The legislative intent of a statute pertaining to the surrender to the police of certain firearms, and other deadly weapons, is to effect a voluntary surrender of unlicensed weapons and to grant immunity to those who turn them in if surrender is made under circumstances not suspicious, peculiar, or involving the commission of any crime.<sup>10</sup>

**Immunity not established**

Surrender of unlicensed weapons to police under circumstances indi-

(4) Other Purposes or Motives

A weapon may be lawfully transported as an article of merchandise for delivery to a person entitled to its possession, or to a place where possession thereof is lawful

Applying the rule, discussed supra subdivision b (1) of this section, that it is not an offense to carry or possess a prohibited weapon for a harmless or legitimate purpose or motive, a weapon may be lawfully transported as an article of merchandise for delivery to a person entitled to its possession, or at a place where the possession thereof is lawful<sup>11</sup> So, a weapon may be carried in good faith for uses of honest work or for purposes of legitimate sport or recreation<sup>12</sup>

*Carrying to have repairs made* It has been held that statutes denouncing the carrying of weapons are not violated by taking a weapon to a particular place with the intention of having it repaired,<sup>13</sup> or by subsequently taking the weapon away and returning home with it<sup>14</sup>

*Carrying to pledge or sell* According to some authority, a pledgor, having redeemed or repossessed a pledged weapon, is permitted to carry it from the place where it was pawned or redeemed to his home, whether the home is a temporary or a permanent one.<sup>15</sup> No offense is committed by carrying a weapon to one's home for the purpose of sale,<sup>16</sup> or by taking the weapon to a specified place with the expectation of selling it,<sup>17</sup> or delivering it to the buyer<sup>18</sup> If the sale<sup>19</sup> or delivery<sup>20</sup> is not consummated, the seller or prospective seller may return with the weapon to his home or elsewhere, such as his place of employment

*Carrying to procure ammunition.* It has been

held that it is not a violation of the law to carry a firearm to a store or other place for the purpose of obtaining ammunition for it, or to carry it from such place to one's home<sup>21</sup>

*Possession and carrying by workmen* Some decisions held that a person whose work necessitates the use of a tool or implement of such a nature that it may constitute a weapon is not guilty of violating a statute forbidding the carrying or possession thereof,<sup>22</sup> unless he possesses or uses the implement outside of his employment<sup>23</sup> when he is not engaged in working<sup>24</sup>

*Possession and carrying for hunting or butchering* It has been held by some courts that a prohibited weapon may be lawfully carried for the purpose of hunting<sup>25</sup> or killing an animal.<sup>26</sup>

*Possession by pawnbrokers.* Statutes making it unlawful for any person to have in his possession designated weapons under certain conditions have been interpreted as being inapplicable to such weapons in the possession of a pawnbroker as unredeemed pledges on the date when the statutes went into effect.<sup>27</sup>

*Disarming another.* When the act of carrying or possessing a weapon is merely the incidental result of having disarmed another person, the weapon being retained to prevent injury, the statutes are not violated<sup>28</sup>

*Protecting life or property.* Where a person is confronted with sudden and imminent danger, and is threatened with felonious assault, or his property is about to be taken under circumstances amounting to a felony, it is not unlawful to have a prohibited weapon for the protection of life<sup>29</sup> or property<sup>30</sup>

cating that possessor was fearful that his possession might be revealed to police in course of an uncompleted investigation established that surrender was made under "peculiar" and "suspicious circumstances" so that possessor was not entitled to statutory immunity from arrest for unlicensed possession of a concealed weapon, the word "peculiar" meaning unusual, strange, odd

68 C.J. p 26 note 31.

However, if his property has already been taken, his right to procure and carry a weapon with a view to arresting the wrongdoer depends on the facts of each case<sup>31</sup> No such right exists if he knows that an officer of the law is within calling distance, or may be obtained as readily as a weapon<sup>32</sup>

## § 6. — Weapons Prohibited

- a. In general
- b. Pistols
- c. Dangerous or deadly weapons

### a. In General

In order to constitute the offense of carrying or possessing a weapon, the weapon involved must answer the description of one of the prohibited instruments or weapons, and numerous weapons have been held to be prohibited within the meaning of the terms "arms," "fire-

arms," "instruments," or "weapons" generally, as employed by the statutes.

The carrying or possession of a particular weapon is unlawful when, and only when, such weapon is of the kind prohibited by the statute, that is, the weapon must come within the meaning of the terms employed in the statutes to designate forbidden weapons<sup>33</sup> In this connection, the courts have construed the meaning of such general designations as "arms,"<sup>34</sup> "firearms,"<sup>35</sup> "instruments,"<sup>36</sup> "contraband,"<sup>37</sup> or "weapons" generally.<sup>38</sup> The lawmaking body not infrequently designates by name the weapons or instruments which may not be possessed or carried, such as billies,<sup>39</sup> blackjacks,<sup>40</sup> bludgeons,<sup>41</sup> bowie knives,<sup>42</sup> brass knuckles,<sup>43</sup> daggers,<sup>44</sup> dangerous knives,<sup>45</sup> dirks,<sup>46</sup> razors,<sup>47</sup> slung shots,<sup>48</sup> and other particular instruments, including, in more recent times, machine guns,<sup>49</sup> and sawed off shot-

35. US—U S v Freeman, CA Ind., 203 F2d 387  
68 CJ p 26 note 35

### Weapons held to constitute firearms

(1) An automatic pistol, irrespective of whether it was equipped with a silencer or whether it could be so equipped

US—U S v Tot, CCANJ, 131 F2d 261, reversed on other grounds  
63 S Ct 1241, 319 US 463, 87 L Ed 1519

(2) A Very pistol, designed to fire warning flares

NY—People, on Complaint of Altomari, v Evergood, 74 NYS 2d 12

### Federal Firearms Act

(1) The Federal Firearms Act of 1938 making it unlawful for any person who has been convicted of crime of violence to receive any firearm which has been shipped in interstate commerce was intended to apply to existing guns

US—U S v. Tot, DCNJ, 42 F Supp 252, affirmed, CCA, 131 F 2d 261, reversed on other grounds  
63 S Ct 1241, 319 US 463, 87 L Ed 1519

(2) An air gun and possibly a tear gas gun were the only ones intended to be excluded from operation of Federal Firearms Act, and they are presumably excluded because air is not an explosive and tear gas is not a projectile

U.S.—U. S. v. Tot, supra.

36. Puerto Rico—People v Acevedo,

34 Puerto Rico 439

68 CJ p 26 note 36

### 37. Sawed-off shot gun

Sawed-off twelve gauge shot gun with eight and one-half inch single barrel was "contraband" within purview of statute making it unlawful to transport, conceal, or possess any contraband in a motor vehicle

46. Cal—People v Ruiz, 263 P 836, 88 Cal App 582

### Two-edged weapon

"Dirk," as referred to in statute prohibiting the carrying of knives on the person, has ordinary meaning of a poniard or two-edged weapon, and does not include a single-edged knife in scabbard, with blade about five inches long, slightly curved at the point, with a guard and bone handle

Tex—Bivens v State, 113 SW 2d 921, 133 Tex Cr 604

47. W Va—Claiborne v Chesapeake & O Ry Co, 33 SE 262, 264, 46 W Va 363

68 CJ p 28 note 48

48. Tex—Vargas v State, 79 SW. 2d 860, 128 Tex Cr 139.

68 CJ p 28 note 50

### 49. Saddle piece

A gun, which was minus a saddle piece and saddle type drum, without which no more than one shot could be fired therefrom at a time, was not a "machine gun" within statute defining offense of illegal possession of such a gun, in view of statutory definition of machine gun as weapon from which a number of shots or bullets may be rapidly or automatically discharged with one continuous pull of trigger.

guns<sup>50</sup> Where, as is usually the case, the statutes specifically name certain prohibited weapons, and conclude with a general prohibition against other unnamed instruments or weapons, the courts, in ascertaining the scope of such a general prohibition, frequently invoke the doctrine of ejusdem generis.<sup>51</sup>

### b. Pistols

Under some statutes, the carrying or possession of pistols or revolvers is specifically prohibited, and no particular form or shape is necessary to constitute a pistol within the purview of such provisions

Some statutes specifically prohibit the carrying or possession of pistols or revolvers, or of pistols and other dangerous or deadly weapons, or of pistols and other firearms, or prohibit the carrying, as a weapon, of any pistol except the army or navy pistol, which must be carried openly or uncovered and in the hand<sup>52</sup> Statutory language of such nature constitutes a legislative declaration that a pistol is at least prima facie<sup>53</sup> or presumptively<sup>54</sup> a dangerous weapon; in other words, it is a dangerous weapon per se<sup>55</sup> The normally foreseeable use of a pistol is not decisive of the issue as to whether it is a weapon, and hence, a firearm within the statutory prohibition<sup>56</sup> No particular form or

shape is necessary to constitute a pistol within the purview of such statutes<sup>57</sup> A revolver is a pistol,<sup>58</sup> and a shotgun is an arm of the same nature as a revolver<sup>59</sup>

*Unloaded or defective pistols.* Under statutes dealing specifically with pistols, a conviction may be had for unlawfully having or carrying a pistol, even though the pistol is unloaded,<sup>60</sup> or is loaded with ammunition which cannot be fired therein,<sup>61</sup> or is disassembled,<sup>62</sup> unless, it has been held, it cannot be readily assembled or fired<sup>63</sup> Similarly, it may be an offense to carry even a broken or defective pistol,<sup>64</sup> at least if it is susceptible of being fired in some manner,<sup>65</sup> as by striking the hammer with a knife or other instrument<sup>66</sup> It has been held, however, that it is not unlawful to have or carry a pistol which cannot be discharged by any method,<sup>67</sup> for in that event it has ceased to be a pistol<sup>68</sup> or firearm.<sup>69</sup>

### c. Dangerous or Deadly Weapons

Statutes prohibiting the carrying or possessing of dangerous or deadly weapons apply to weapons which in their intended or readily adaptable use are likely to produce death or serious bodily injury.

Under some statutes, the weapons which may not be carried or possessed are broadly designated

NY—People v Woods, 114 NYS 2d 611, 202 Misc 562

50. Tenn—Bucks v State, 36 SW 2d 892, 162 Tenn 406

68. NY—People v. Simons, 207 N. YS 56, 124 Misc. 28.

69. NY—People v. Simons, supra

as dangerous or deadly weapons,<sup>70</sup> and with respect to such provisions a dangerous or deadly weapon is one which in its intended or readily adaptable use is likely to produce death or serious bodily injury.<sup>71</sup> Under these statutes, it is unlawful to have or carry brass or metal knucks,<sup>72</sup> a black-jack,<sup>73</sup> a billy,<sup>74</sup> a razor,<sup>75</sup> a pistol,<sup>76</sup> or other firearm,<sup>77</sup> even though unloaded<sup>78</sup> or so defective that it cannot be fired.<sup>79</sup> A deadly weapon does not cease to be such by becoming temporarily inefficient,<sup>80</sup> nor is its essential character changed by dismemberment if the parts, with reasonable preparation, may be easily assembled so as to be effective.<sup>81</sup> What constitutes "reasonable preparation," within this rule, depends on the time required, changes to be made, parts to be inserted, and all other attendant factors.<sup>82</sup> A weapon designed for firing projectiles may be so defective or damaged that

it loses its initial character as a firearm, but that character is not lost when a relatively slight repair, replacement, or adjustment will make it an effective weapon.<sup>83</sup>

*Other dangerous or deadly weapons.* When a statute, having enumerated certain weapons, concludes with phraseology which in substance or effect constitutes a prohibition against other dangerous or deadly weapons, the legislative intention should be given effect.<sup>84</sup> Such intention is frequently but not invariably determined in the light of the doctrine of ejusdem generis,<sup>85</sup> and the term "other dangerous weapons" has been held to include firearms,<sup>86</sup> a butcher's knife,<sup>87</sup> a hunting knife,<sup>88</sup> a bayonet,<sup>89</sup> a kind of dagger or sharp-pointed knife with a blade about eight inches long,<sup>90</sup> an iron bar,<sup>91</sup> brass knuckles,<sup>92</sup> a piece of rubber hose,<sup>93</sup> and other instruments or weapons.<sup>94</sup> On the oth-

#### Instruments carried for use as weapons

Pocket knives, razors, hammers, hatchets, wrenches, cutting tools, and other articles would constitute dangerous weapons within the concealed weapons statute if used or carried for use as weapons Mich—People v Vaines, 17 N W 2d 729, 310 Mich 500

#### Dangerous weapons per se

Daggers, dirks, stilettos, metallic knuckles, slung shots, pistols, and similar articles, designed for the purpose of bodily assault or defense, are generally recognized as "dangerous weapons per se" within the concealed weapons statute Mich.—People v. Vaines, supra.

er hand, it has been held that similar phraseology in other statutes was not intended to include pistols, or revolvers,<sup>95</sup> shotguns,<sup>96</sup> or other firearms,<sup>97</sup> penknives,<sup>98</sup> pocketknives,<sup>99</sup> or razors.<sup>1</sup> It is said by some authorities that when a statute, after naming certain weapons, forbids other dangerous or deadly weapons of like kind, it means like in kind in the respect of being dangerous or deadly,<sup>2</sup> and, if the statute is directed against concealed weapons, then in the further respect of being readily concealable on or about the person.<sup>3</sup> By other authorities, however, such statutory language is given a narrower meaning pursuant to the rule of ejusdem generis.<sup>4</sup>

### § 7. — Places Prohibited

Where a statute prohibits carrying or having possession of a weapon making no exception as to locality, it is unlawful to carry or possess such prohibited weapon anywhere, but where a statute merely prohibits the carrying only at certain places, the weapon may be carried anywhere except at the place or places prohibited.

Where a statute prohibits carrying or having

possession of a weapon or a designated kind of weapon making no exception as to locality, it is unlawful to carry or possess such prohibited weapon anywhere,<sup>5</sup> even on one's own premises.<sup>6</sup> Under statutes prohibiting the carrying only at certain places, as within the limits of a municipality, only on premises not one's own or under his control, or at any place other than one's own premises or place of business, the weapon may be carried anywhere except at the place or places prohibited,<sup>7</sup> but not at the place expressly prohibited.<sup>8</sup>

*Public places or assemblies.* Under some statutes it is a distinct offense to carry a weapon to or in certain public places, assemblies, gatherings, or the like,<sup>9</sup> unless permitted under proper authorization,<sup>10</sup> but under such provisions, a public place does not include a home or other private place.<sup>11</sup> A public assembly may include a justice's court in session and engaged in trying a cause,<sup>12</sup> or a parade marching through town.<sup>13</sup> A public barbecue may constitute a public gathering.<sup>14</sup> Under the rule of strict construction, a

14. Ga.—Wynne v. State, 51 S.E. 636, 123 Ga. 566.

statute making it an offense to carry a weapon "to" a public gathering is not violated by one who lawfully or unlawfully, innocently or designedly comes into the possession of a weapon after reaching the place of the gathering and mingling with the persons there assembled,<sup>15</sup> and in view of this fact, and of the fact that the law seeks to protect the gathering itself rather than the precise spot at which the services or proceedings for which it has assembled may be conducted, it has been held that where the people composing the gathering have dispersed themselves about the grounds during an intermission or a mere temporary cessation of the proceedings, a person violates the statute by carrying a weapon so near the place where the proceedings are conducted that he will come into contact with a considerable number of the persons constituting the assemblage.<sup>16</sup>

In order to constitute the offense, there must be people assembled at a gathering of the kind contemplated by the statutes,<sup>17</sup> and the weapon must be carried at the time<sup>18</sup> and place<sup>19</sup> of the gathering, and if so carried, it is immaterial that the place of the assembly or gathering was on premises owned or controlled by the accused himself.<sup>20</sup> It has been held, however, that a statute penalizing any person who, while having or carrying a weapon, goes into a gathering or place where people are assembled, contemplates no special emphasis on the words "goes into" or similar words,<sup>21</sup> and that it is a violation of the statute to have or carry a prohibited weapon at and in such gathering or place.<sup>22</sup>

- b. On the person
- c. On or about the person
- d. In a vehicle
- e. Carrying concealed

### a. In General

The word "carry" in statutes denouncing the carrying of weapons may mean to convey or transport, and it imports the idea of having the weapon on or about the person, and not necessarily the idea of locomotion.

The word "carry" in ordinary usage means to convey or transport, and thus also may be its meaning in statutes denouncing the carrying of weapons.<sup>23</sup> The "carrying" of a weapon suggests the thought of going armed<sup>24</sup> and of having the weapon readily accessible and available for use.<sup>25</sup> The word "carry" within the purview of such statutes usually means simply to bear,<sup>26</sup> or to have on or about the person,<sup>27</sup> and does not necessarily import the idea of locomotion.<sup>28</sup> The offense of carrying weapons without a license, however, may well be deemed to require at least an intention to convey the weapon from one place to another.<sup>29</sup>

"On" and "about" In statutes penalizing the carrying of weapons on the person, "on" has its ordinary everyday meaning of being connected<sup>30</sup> or in contact with,<sup>31</sup> or attached to.<sup>32</sup> The word "on" signifies closer contact than the word "about,"<sup>33</sup> and is not to be construed in the sense of "adjacent."<sup>34</sup>

The word "about" is a comprehensive term having a broader meaning than "on"<sup>35</sup> and including everything that is included in the latter word.<sup>36</sup> In statutes interdicting the carrying of weapons about the person, the term "about," although sometimes given a meaning synonymous or nearly synonymous with that of "on,"<sup>37</sup> is also defined as meaning near,<sup>38</sup> near-by,<sup>39</sup> close at hand,<sup>40</sup> or in close

proximity<sup>41</sup> so as to be readily<sup>42</sup> or conveniently<sup>43</sup> accessible<sup>44</sup> or within easy,<sup>45</sup> immediate,<sup>46</sup> physical<sup>47</sup> reach<sup>48</sup> or convenient<sup>49</sup> control<sup>50</sup> without materially<sup>51</sup> altering one's position<sup>52</sup>

*Manner of possessing.* In order to establish the unlawful possession of a weapon, actual physical hold thereof is not necessary,<sup>53</sup> constructive possession may be sufficient<sup>54</sup> It has been suggested, however, that statutes penalizing the possession of weapons should not be construed to mean such a theoretical and technical possession as would follow from the legal ownership of a weapon in a collection of curious and interesting objects<sup>55</sup> It is not a violation of a statute prohibiting the manual possession of a weapon to have it in a dashboard compartment of a moving automobile<sup>56</sup>

### b. On the Person

One is said to have a weapon on his person when it is either in contact with his person or is carried in his clothing.

In common parlance,<sup>57</sup> and hence within the meaning of statutes prohibiting the carrying of weapons "on" the person, as distinguished from statutes using the words "on or about" the person, when it is said that some one has an article such as a weapon on his person, it means that it is either in contact with his person or is carried in his clothing,<sup>58</sup> including a garment such as a coat

which is being carried on the arm<sup>59</sup> Consequently, a weapon lying in a vehicle, for example, under one of the seats, is not being carried on the person of any of the passengers, not even those who are occupying the seat under which the weapon has been placed<sup>60</sup>

### c. On or About the Person

- (1) In general
- (2) In vehicles

#### (1) In General

A weapon is carried "on or about the person" in violation of statute when it is carried in such proximity to the person as to be convenient of access and within immediate physical reach, as where it is in the hand, or in clothing worn or carried by the accused.

The words "on or about the person" in a statute prohibiting the carrying of concealed weapons mean carrying on the person, or in such proximity to the person, as to be convenient of access and within immediate physical reach<sup>61</sup> A weapon is carried "about," or "on or about" the person, when it is in the accused's hand,<sup>62</sup> or is in clothing worn by the accused,<sup>63</sup> or in clothing, for example a coat, which he may be carrying on his arm<sup>64</sup>

*In receptacles carried.* A weapon is generally held to be carried on or about the person when it is in a receptacle attached to, or carried by, the accused as he moves,<sup>65</sup> such as a basket,<sup>66</sup> or when

the weapon is in a small bag or satchel,<sup>67</sup> valise,<sup>68</sup> hand bag,<sup>69</sup> sack,<sup>70</sup> bundle,<sup>71</sup> or knapsack<sup>72</sup> carried in the hand<sup>73</sup> or on the arm,<sup>74</sup> or a sack carried under the arm,<sup>75</sup> or a container suspended from the shoulder,<sup>76</sup> as well as a scabbard hung to the saddle<sup>77</sup> It has been held to the contrary, however, where a weapon was in a satchel<sup>78</sup> or suitcase,<sup>79</sup> or in saddlebags.<sup>80</sup> In any event, a weapon carried in a receptacle must be concealed if the statute so requires<sup>81</sup>

## (2) In Vehicles

As a general rule, carrying a weapon in a vehicle in which the accused is riding is within the statutory prohibition against carrying a weapon on or about the person, provided the weapon is owned by accused, or is to some extent within his possession or control.

According to some authorities, when a weapon is merely in a vehicle in which the accused is riding, and is not attached to his person, it cannot be said to be carried on or about the person,<sup>82</sup> but in other cases the court refused to recognize this rule where the weapon was on<sup>83</sup> or under<sup>84</sup> the seat of the vehicle, or was accessible, even though

not on or under the seat.<sup>85</sup>

*In motor vehicles* The advent of the automobile has had some influence in connection with the rules as to the carrying of weapons in vehicles, it being quite generally held that a weapon is carried on or about the person when it is in a motor vehicle in which the accused is riding,<sup>86</sup> provided that the weapon is owned by him, or is to some extent within his possession or control<sup>87</sup> This rule, although not without occasional dissent, is appropriately applied where a weapon is on,<sup>88</sup> under<sup>89</sup> or behind<sup>90</sup> the seat or cushion, or is between the seat and the cushion,<sup>91</sup> or is on the floor,<sup>92</sup> or in a pocket<sup>93</sup> of the door,<sup>94</sup> or even in a receptacle on the running board<sup>95</sup>

In some jurisdictions, however, or under certain circumstances, a different rule prevails, it having been held that a weapon was not carried on or about the person when it was under the seat<sup>96</sup> or on the floor of an automobile,<sup>97</sup> or in a pocket of the door,<sup>98</sup> or in a dashboard compartment<sup>99</sup> Where the statute requires concealment as an element of the offense, it is no offense to carry

a weapon in a vehicle if the weapon is not concealed<sup>1</sup>

#### d. In a Vehicle

Under a statute rendering it an offense to carry an unlicensed firearm in a motor vehicle, the presence of a firearm in the vehicle while accused was inside constitutes a violation, without regard to his moving of the car

Where the offense denounced by the statute is the carrying of an unlicensed firearm in a motor vehicle, the presence of the firearm in the vehicle while accused was inside constitutes a violation, and it is not necessary to show that accused moved the car, with the firearm inside, from one place to another<sup>2</sup> The automobile need not be physically operated by the person charged with carrying the weapon therein<sup>3</sup> An automobile is a vehicle within the contemplation of a statute prohibiting the carrying of a weapon concealed in a vehicle.<sup>4</sup>

#### e. Carrying Concealed

Under statutes directed against the carrying of concealed weapons, "conceal" means to hide, secrete, screen, or cover, and concealment does not necessarily presuppose complete invisibility.

Within the purport of statutes directed against the carrying of concealed weapons, "conceal" has its common, ordinary, and well understood signification, meaning to hide, secrete, screen, or cover<sup>5</sup> Concealment does not necessarily presuppose complete invisibility<sup>6</sup> Conversely, the fact that a weapon is not concealed does not necessarily mean that it is completely visible, for ordinarily a weapon carried in the hand is not unlawfully concealed,<sup>7</sup> and yet whenever a weapon is carried on the person, some part of the weapon is unavoidably hidden from view<sup>8</sup>

*What constitutes concealment.* If a weapon is hidden from ordinary observation, it is concealed<sup>9</sup> Stated more fully, the test is whether or not the weapon is hidden from general view,<sup>10</sup> or from the ordinary observation<sup>11</sup> of persons who are in full view of accused and near enough to see the weapon if it were not concealed,<sup>12</sup> and who come into contact with accused in the usual associations of life<sup>13</sup> The test is not whether the weapon is invisible to one having only a partial view of the accused's person<sup>14</sup>

*Partial concealment of a weapon*, even though prohibited by some statutes,<sup>15</sup> is not an offense under others,<sup>16</sup> unless carried in such a manner that it cannot be easily recognized as a weapon<sup>17</sup>

*If the surface of a weapon is covered*, the mere fact that its outlines are distinguishable, and that the object is recognizable as a weapon, will not prevent it from being unlawfully concealed<sup>18</sup>

case are not embraced within an exception found in the statute.

Statutes creating offenses relating to the carrying or possession of weapons are applicable to all persons, places, and occasions provided the circumstances of the case are not embraced within an exception found in the statute.<sup>19</sup> Since courts have nothing to do with the wisdom and policy of the legislature as set forth in its enactments, they will not introduce exceptions or extend by construction those specifically mentioned.<sup>20</sup> However, under the rules governing the construction of penal statutes, provisions setting up an exemption should be liberally construed.<sup>21</sup> In any event, the law has no force or effect as against persons included within an exception in the statute,<sup>22</sup> although of course the exceptions cannot be used as a cloak for violating the statute.<sup>23</sup> Persons protected by an exception do not lose such protection merely because they may use the weapon unlawfully.<sup>24</sup>

*Engagement in federal service* does not alone confer any immunity from the operation of state laws regulating the carrying of weapons.<sup>25</sup>

#### b. Peace Officers and Persons Aiding Them

- (1) In general
- (2) Discharge of official duty
- (3) Valid appointment or authorization
- (4) Territorial jurisdiction

##### (1) In General

Officers and persons aiding them, if excepted by the statute, are not subject to provisions prohibiting the carrying or possession of weapons.

As a general rule, officers and persons aiding them, unless excepted by the statute, are subject like other persons to statutes prohibiting the carrying or possession of weapons.<sup>26</sup> The exception must

be found in the statute itself, and cannot be imported from the common law in derogation of the statute.<sup>27</sup> Thus, in the absence of an exception in the statute, a prohibition against the carrying of concealed weapons applies to peace officers<sup>28</sup> as well as to persons summoned to their aid.<sup>29</sup>

*Scope of exceptions.* Under some provisions, peace officers are generally excepted from the operation of statutes prohibiting the carrying or possession of weapons,<sup>30</sup> and such a general exception extends to conservators of the peace,<sup>31</sup> and likewise to persons summoned to an officer's aid.<sup>32</sup> When, however, the statute specifically names the persons excepted, the exception includes only those persons, or others of the same class or status, named in that statute,<sup>33</sup> and if the statute itself purports to except other persons in addition to the class or classes of persons definitely named, the identity of the others is to be ascertained with reference to the identity of those named.<sup>34</sup> Under statutes excepting certain peace officers and others such as civil officers, ministerial officers, or officers charged with the execution of the state laws, "ministerial officer" has been held to include a game warden<sup>35</sup> or a special bailiff appointed by a sheriff to execute a warrant of arrest,<sup>36</sup> and a town sergeant may be an officer charged with the execution of state laws.<sup>37</sup>

*Special officers and appointees.* An exception is frequently made in order to permit the carrying of weapons by persons deputized, appointed, or employed for a special purpose, such as the execution of process or the maintenance of the peace, and likewise by persons aiding or summoned to aid an officer in the discharge of his duties.<sup>38</sup> Persons thus specially appointed or summoned, however, are not entitled to the benefit of the exception unless they are acting lawfully<sup>39</sup> and in good faith<sup>40</sup> during the

68 C J p 37 note 54.

limited time<sup>41</sup> and for the particular purpose<sup>42</sup> for which they have been appointed or summoned. Nevertheless, the cessation of the occasion or attainment of the purpose for which a person was aiding an officer does not immediately terminate the right to carry a weapon<sup>43</sup>. A reasonable time for such person to return home with the weapon should be allowed<sup>44</sup>.

### (2) Discharge of Official Duty

An officer is exempt from statutes prohibiting the carrying or possession of weapons only when he is engaged in the discharge of his official duty.

For an officer to be exempt from statutes prohibiting the carrying or possession of weapons, he must be engaged in the discharge of his official duty<sup>45</sup>. The duty in question may be either general<sup>46</sup> or specific<sup>47</sup>. The statute may be so phrased or construed as to require some officers, but not others, to be acting in the discharge of their duties when carrying weapons<sup>48</sup>. An officer who is entitled to carry a weapon in the performance of his duties, and who complies in other respects with the statutory requirements, has a right to carry the weapon in going to,<sup>49</sup> and returning from,<sup>50</sup> the place of such performance.

### (3) Valid Appointment or Authorization

In order for an officer to be immune from a statute prohibiting the carrying or possession of a weapon, his appointment must be valid and in accordance with the statutory formalities, but a person who carries a weapon

under the erroneous belief that he is a legally constituted officer is not guilty of any offense, provided his mistake is one of fact and is entertained in good faith.

In order to bring a person as an officer within immunity from the statute relating to the carrying or possession of weapons, his appointment must be valid and subsisting and in compliance with the statutory formalities<sup>51</sup>. The appointment is sometimes explicitly required to be made pursuant to the statutes<sup>52</sup>. In the absence, however, of such an explicit requirement, it has been held that a person who carries a weapon under the erroneous belief that he is a legally constituted officer is not guilty of any offense,<sup>53</sup> but the belief, although erroneous, must be a reasonable<sup>54</sup> or honest<sup>55</sup> belief entertained in good faith<sup>56</sup>. This class of cases is supported on the ground that the alleged officer acted under a mistake of fact,<sup>57</sup> and committed no offense because he had no intention of violating the law<sup>58</sup>. Consequently, he will not be protected if his mistake was one of law,<sup>59</sup> or if he knew or should have known that he was acting without legal authority<sup>60</sup>.

*Person aiding officer.* It has been held that if one who purports to be an officer has not been duly authorized or appointed, a person aiding him cannot claim exemption from statutes forbidding the carrying of weapons.<sup>61</sup>

### (4) Territorial Jurisdiction

An officer is entitled to carry a weapon outside of his immediate territorial jurisdiction only when he is performing some official duty authorized by law.

68 CJ p 40 note 74

61. Mo.—State v. Julian, 25 Mo App 133  
68 CJ p 40 note 75.

Under some statutes it has been held that an officer, although he may lawfully have or carry a weapon within his territorial jurisdiction whether or not on official business, is entitled to carry a weapon outside of his immediate jurisdiction only when he is performing some official duty authorized by law.<sup>62</sup> So, also, a person aiding an officer acting outside of his territorial jurisdiction cannot claim exemption from statutes forbidding the carrying of weapons.<sup>63</sup>

### c. Travelers

- (1) In general
- (2) Meaning and construction of exemption
- (3) Commencement and termination of journey

#### (1) In General

Under some statutes, persons traveling or on a journey are excepted from prohibitions against the carrying of weapons.

Where so provided by the statute, persons traveling or on a journey are excepted from prohibitions against the carrying of weapons.<sup>64</sup> The purpose of the exception is to enable travelers to protect themselves on the highways<sup>65</sup> against such potential or unknown dangers<sup>66</sup> as are not supposed to exist among their own neighbors,<sup>67</sup> and in defining its scope, the exception should be as broad as the reason for it,<sup>68</sup> but not broader.<sup>69</sup> The evil intended to be remedied by the prohibitory statutes is the carrying of weapons on the streets, in society, in the community, or among one's habitual associates.<sup>70</sup>

*Manner of carrying weapon* If the statute authorizes travelers to carry weapons in a particular manner or place, as with their baggage, there must be at least substantial compliance with the statute,<sup>71</sup> as by placing their weapons in the vehicles

in which they are riding,<sup>72</sup> and a traveler who violates such a statute by carrying a weapon on his person is not protected merely by his status as a traveler.<sup>73</sup>

*Time of carrying weapon* If the statute allows travelers to carry weapons only at specified times, as at night, a carrying at a different time is unlawful.<sup>74</sup>

*Use of weapon* The exception allows the privileged individual to carry a prohibited weapon irrespective of any necessity for its use.<sup>75</sup> Moreover, the use of the weapon, even though unlawful, does not make him amenable to the statute forbidding the carrying of weapons,<sup>76</sup> although the particular use made of the weapon may become relevant on the question of good faith in claiming the exemption,<sup>77</sup> and may constitute a violation of some other provision of the law.<sup>78</sup>

#### (2) Meaning and Construction of Exemption

- (a) In general
- (b) What constitutes traveling or being on a journey

##### (a) In General

The circumstances of each case are controlling in determining whether or not a person is a traveler or is on a journey within the meaning of the exemption from the statutory prohibition against the carrying or possession of a weapon.

In determining whether or not a person is a traveler or is on a journey within the meaning of the exemption from the statutory prohibition against the carrying or possession of a weapon, no unbending rule can be formulated,<sup>79</sup> and much must depend on the circumstances of each case.<sup>80</sup> The statutes use such words as "traveler," "traveling," and "journey" merely in their popular sense,<sup>81</sup> and consequently the meaning of the words is indefinite.<sup>82</sup> In view of the uncertainty with respect to

the import of statutes exempting travelers,<sup>83</sup> the lawmaking body, if it does not see fit to repeal<sup>84</sup> this possibly antiquated exemption,<sup>85</sup> should, it has been said, define the terms used,<sup>86</sup> and not leave it to the courts to interpret the statutory language in the light of good sense, and with respect to the spirit and intent of the statute itself,<sup>87</sup> thus making it difficult to decide what persons are travelers within the contemplation of the law,<sup>88</sup> and decisions even in the same jurisdiction are not harmonious.<sup>89</sup>

(b) What Constitutes Traveling or Being on a Journey

A person cannot be deemed to be traveling or on a journey, within the meaning of the exception in the statute prohibiting the carrying of weapons, unless he passes beyond the circle of his friends and immediate acquaintances, and is no longer within the routine of his daily business, or his ordinary habits, duties, or pleasures.

While the lexicographers' general definition of a traveler as one who makes a journey or who goes from place to place has been applied in some cases in determining a claim to exemption from the weapons statute as a traveler,<sup>90</sup> it is generally agreed that such definition is not to be followed in construing the statutory language,<sup>91</sup> because it is so broad that it would include almost every person who goes from one place to another<sup>92</sup> and consequently would emasculate the salutary legislation in question.<sup>93</sup>

As a general rule, a person cannot be deemed

to be traveling or on a journey within the meaning of the exception unless he passes beyond the circle of his neighbors, friends, and immediate acquaintances,<sup>94</sup> so that he finds himself at a distance from his home<sup>95</sup> or place of business<sup>96</sup> and is no longer within the routine of his daily business<sup>97</sup> or his ordinary habits, duties,<sup>98</sup> or pleasures.<sup>99</sup> The routine of one's daily business is in most cases a proper test,<sup>1</sup> but it fails as a test where a person, in the ordinary routine of his daily business, passes hurriedly along, is not brought into contact with the people, and has no general acquaintance among them.<sup>2</sup>

*Distance, time, and mode of conveyance.* In order to come within the exception, a person need not travel any prescribed distance,<sup>3</sup> or by any particular conveyance.<sup>4</sup> Persons going short distances, in some cases, ridiculously short distances, may still be travelers.<sup>5</sup> A tendency is apparent, at least in a number of the earlier cases,<sup>6</sup> to hold that a person who goes outside of his own county is a traveler within the meaning of the exception,<sup>7</sup> unless the distance traveled is comparatively slight.<sup>8</sup> As a practical matter in each case, the ultimate question is whether or not the person is on a real journey,<sup>9</sup> and the mere fact of crossing the boundary and passing back and forth from one county or state into another is not decisive.<sup>10</sup>

The present inclination of the courts is to lengthen the requisite distances as a result of improved

means of transportation<sup>11</sup> The emphasis thus falls more heavily now than formerly on the element of time required for the journey<sup>12</sup> It follows that in determining whether persons are travelers, it is not the distance alone,<sup>13</sup> but the mode of travel,<sup>14</sup> as modified by the prevalence of good roads<sup>15</sup> and the use of automobiles,<sup>16</sup> which is to be taken into account The fact that a person is unaware of his destination does not necessarily prevent him from being on a journey within the meaning of the statute<sup>17</sup> Similarly, the fact that a traveler does not go as far as he originally intended,<sup>18</sup> or that he is on his return trip,<sup>19</sup> does not make him any the less a traveler, but this rule, does not entitle a traveler, no matter how far he has been,<sup>20</sup> to begin carrying a prohibited weapon when he is on his return trip and only a few miles from home<sup>21</sup>

*A fugitive from justice* is not a person traveling so as to be exempt from statutes denouncing the carrying of weapons<sup>22</sup>

### (3) Commencement and Termination of Journey

The exemption for travelers from the operation of statutes prohibiting the carrying of weapons becomes operative when a person sets out on a journey, and continues until the journey terminates.

The exemption for a traveler, from the application of a statute prohibiting the carrying of weapons,

becomes operative when a person sets out on a journey,<sup>23</sup> as when he enters a vehicle<sup>24</sup> or when, contemplating a journey,<sup>25</sup> he is about to enter the conveyance<sup>26</sup> or is waiting for its arrival,<sup>27</sup> and the exemption continues until the journey terminates<sup>28</sup>

*Breaking continuity of journey* The exemption continues as long as the journey is being pursued<sup>29</sup> in good faith<sup>30</sup> The law does not require that a person who is otherwise a traveler must proceed hurriedly to his destination,<sup>31</sup> and it would be difficult to say precisely what delay on the trip would deprive him of the exemption while he was still in pursuit of his journey<sup>32</sup> A cessation of the journey on some legitimate business, incidental to the journey, does not terminate the protection afforded by this exemption<sup>33</sup> A rule to the contrary applies, however, where a traveler deflects or turns aside from his journey on pleasure<sup>34</sup> or some business or pursuit not connected with the journey,<sup>35</sup> especially if he visits saloons and engages in carousing and disturbing the peace<sup>36</sup>

*While stopping in towns, villages, or cities*, travelers do not need weapons any more than citizens do,<sup>37</sup> and consequently should lay them aside<sup>38</sup> or change the manner of carrying them so as not to offend against the statute,<sup>39</sup> unless the delay be slight, and the journey soon resumed<sup>40</sup> During a merely temporary cessation of the journey a trav-

eler may carry a weapon with him while he is engaged in procuring a conveyance<sup>41</sup> or while engaged in, or transacting other legitimate business connected with, the prosecution of his journey<sup>42</sup>

After arriving in a city, a traveler should be given a reasonable opportunity to dispose of his weapons and comply with the law,<sup>43</sup> and if he takes lodging in a hotel or elsewhere he may be deemed a traveler until he reaches his room,<sup>44</sup> but he has no right to carry weapons during the remainder of his stay in the city<sup>45</sup> Even though the cessation of the journey is only temporary, a traveler is not entitled to carry a prohibited weapon while he strolls idly through the streets or public places of the community,<sup>46</sup> or visits places devoted to gambling<sup>47</sup> or the sale of intoxicating liquor,<sup>48</sup> and mingles generally with the citizens either for business or pleasure.<sup>49</sup>

*Substituting one vehicle or means of conveyance for another* after the journey has begun,<sup>50</sup> as by changing from an automobile to a train,<sup>51</sup> or from a horse to a team and buggy,<sup>52</sup> is not such an interruption of the journey as will deprive the traveler of the benefit of the exemption.

#### d. Persons Fearing Attack

Under some statutes, persons fearing attack or harm, or against whom threats have been made, are specially privileged to have or carry the proscribed weapons for purposes of defense

Under some statutes prohibiting the carrying or possession of weapons, persons fearing attack or harm, or against whom threats have been made, are specially privileged to have or carry the proscribed

weapons for purposes of defense<sup>53</sup> This privilege is restricted by some provisions to persons engaged in a lawful business, calling, or employment<sup>54</sup> Under statutes allowing a person who apprehends an attack to carry a weapon, it has been held that in order to justify him in carrying the weapon, the danger must be more than an indefinite or conditional threat, unaccompanied by any act indicating a design to execute the threat,<sup>55</sup> and that such person have no other means of defending himself, it being required, under some statutes, that the danger be so imminent and threatening as not to admit of the arrest of his adversary on legal process<sup>56</sup>

The apprehension must exist when the person arms himself,<sup>57</sup> and he is not entitled to the privilege if he is himself the aggressor,<sup>58</sup> or is in a place to which he has no right to go with a forbidden weapon on or about his person,<sup>59</sup> or, under some circumstances, if he is not engaged in a lawful business<sup>60</sup> The privilege ceases when the condition that sanctions the carrying ceases<sup>61</sup>

*Concealed weapons.* Under statutes allowing a person to carry a concealed weapon when he has been threatened with great bodily harm or has good grounds to apprehend an attack, the person so carrying a weapon must actually believe, and have good grounds for believing, that he is in danger of an attack or of great bodily harm<sup>62</sup> at the time and place when the weapon is carried,<sup>63</sup> although actual danger need not exist provided there are good reasons for believing that it does exist<sup>64</sup> The apprehended attack must be from a specific source or

68 C J p 46 note 80.

64. Miss.—Hurst v. State, 53 So. 206, 101 Miss 402.  
68 C J p 46 note 81.

person,<sup>65</sup> and does not relate to ordinary perils incident to the discharge of one's duty.<sup>66</sup> Impending threats are the only ones which may be considered,<sup>67</sup> and while mere idle rumors are not enough,<sup>68</sup> it is sufficient if the threats have been communicated to accused,<sup>69</sup> even by a person who did not himself hear the threats made.<sup>70</sup> These statutes do not authorize one to carry a concealed weapon for purposes of offense.<sup>71</sup>

*Weapons of self-defense*, which may be lawfully carried under such statutes, have been held not to include brass knuckles, slung shots, or weapons of like kind or description;<sup>72</sup> but a person who fears that he is in danger and who is doing all he reasonably can to prepare himself against attack is protected by the statutory privilege, even though a firearm carried by him is unloaded<sup>73</sup> and unusable at the time.<sup>74</sup>

#### e. Postmasters and Mail Carriers

Statutes prohibiting the carrying or possession of weapons apply to postmasters and mail carriers unless excepted by the provisions thereof.

Statutes prohibiting the carrying or possession of weapons apply to postmasters<sup>75</sup> and mail carriers,<sup>76</sup> unless excepted by the statutes.<sup>77</sup> Within the meaning of statutory exceptions, postmasters may be civil officers,<sup>78</sup> but mail carriers are not exempt as civil officers of the United States,<sup>79</sup> or as revenue officers, or officers of the same or a similar kind as revenue officers,<sup>80</sup> or as officers charged with the execution of the state laws.<sup>81</sup>

#### f. Soldiers

United States soldiers are outside the purview of statutes making it unlawful to have or carry weapons, provided they are in the active discharge of their duties.

Statutes making it a criminal offense to drill or parade with firearms may exempt regularly organized militia or troops, or other military bodies, with-

out becoming vulnerable to criticism as class legislation.<sup>82</sup> It has been held that United States soldiers, although not expressly excepted, are nevertheless outside of the purview of statutes making it unlawful to have or carry weapons, provided they are in the active discharge of their duties.<sup>83</sup>

#### g. Common Carriers

Under statutes prohibiting the carrying of weapons, but exempting therefrom persons engaged in the business of common carriers, the exemption is not restricted to persons directly engaged in the transportation of freight or passengers, but extends to those employed to guard the property of carriers.

Within the meaning of a statute making it unlawful to have, carry, or wear certain weapons concealed on the person, an exemption of persons acting or engaged in the business of common carriers means something more than persons engaged in common carrying,<sup>84</sup> and includes persons acting or engaged in the business of common carriers other than the actual transportation of freight or passengers,<sup>85</sup> such as watchmen or others employed in guarding the trains, depots, or other property of common carriers.<sup>86</sup>

#### h. One's Own Premises or Place of Business

- (1) In general
- (2) What constitutes one's own premises
- (3) What constitutes place of business

##### (1) In General

Under some statutes the carrying or possession of a forbidden weapon is lawful if at one's home, premises, or place of business, and unlawful if off of such property.

Under some provisions, one's home or premises and place of business are expressly excepted from the operation of statutes making it unlawful to carry or possess weapons, and, of course, under such statutes the carrying or possession of a forbidden weapon is lawful if at one's home,<sup>87</sup> premises,<sup>88</sup> or place

of business,<sup>89</sup> and unlawful if off of one's premises<sup>90</sup> or place of business,<sup>91</sup> it being immaterial that accused at the time of the offense was in close proximity thereto<sup>92</sup> This does not mean, however, that the exception confers any right to have or carry weapons on one's premises in violation of some other provision of the law.<sup>93</sup>

(2) What Constitutes One's Own Premises

- (a) In general
- (b) Husband and wife; parent and child
- (c) Landlord and tenant; licensees
- (d) Master and servant

(a) In General

A person is at his home or on his own premises, so as to be exempt from a statutory prohibition against the carrying or possession of weapons, if he lives on the premises and has exclusive possession, without respect to whether he has legal title thereto.

As used in statutes allowing the carrying or possession of weapons when on one's own premises, the word "premises" is synonymous with land<sup>94</sup> For a person to be at his home or on his own premises, it is not necessary that he have the legal title thereto<sup>95</sup> In essence it is sometimes more a question of the fact of possession than it is of the right of possession or the ownership of the fee<sup>96</sup> The exception is ordinarily satisfied if the person lives on the premises<sup>97</sup> and has exclusive possession<sup>98</sup> or some degree of actual dominion or control<sup>99</sup> of that part of the premises on which the alleged offense was committed The act of living or being on the premises must normally be with the permission or without the rightful interference of a person entitled to interfere or to terminate the occupancy<sup>1</sup> Continuous residence on the premises is not required, if a person regards such premises as his home, and

stays there when not engaged elsewhere.<sup>2</sup> Moreover, a place of temporary residence may comprise the premises contemplated by the exception<sup>3</sup> In other words, a person may have more than one place of residence<sup>4</sup>

*Public roads* Although there is authority to the contrary,<sup>5</sup> it is generally held that public roads, including those adjoining or dividing one's home or one's premises, do not comprise a part thereof within the purview of the statutory exception,<sup>6</sup> and this rule is applicable, even though the person claiming the benefit of the exception owns the freehold on which the road is located<sup>7</sup>

(b) Husband and Wife; Parent and Child

Under an exemption for the carrying of weapons on one's own premises, the place of residence of one of two married persons, who have only temporarily separated, may be deemed the premises of the other while the latter is staying there Where a parent and child make their home together, the premises of the one may be regarded as the premises of the other.

Within the meaning of the exception for the carrying of weapons on one's own premises, the place of residence of one of two married persons who have only temporarily separated, and have not been divorced,<sup>8</sup> may be deemed the premises of the other while the latter is staying there,<sup>9</sup> but premises owned by one of such persons in common with others, and occupied by a third person, are not the premises of the other spouse<sup>10</sup>

*Parent and child* Where a parent and a child make their home together, the premises of the one may be regarded as the premises of the other<sup>11</sup> within the limits of the curtilage,<sup>12</sup> and also outside of such limits, if there exists the requisite element of control over the outlying premises<sup>13</sup>

## (c) Landlord and Tenant; Licensees

Under a statutory exception permitting the carrying of weapons on one's own premises, a tenant may carry or possess weapons on the leased premises; but a licensee having merely the privilege of entering on lands for a special purpose cannot claim that such lands are his own premises for the purpose of the exemption.

Under a statutory exception permitting the carrying or possession of weapons on one's own premises, a tenant may carry or possess weapons on the leased premises,<sup>14</sup> and also on the landlord's adjacent premises comprising in effect a part of the property demised<sup>15</sup> This rule applies even though the lease has expired,<sup>16</sup> but it is subject to the qualification that the tenant must be in occupation of the premises<sup>17</sup> During such time as the tenant has actual possession, the premises belong, not to the landlord, but to the tenant<sup>18</sup> In the absence of any reservation of a right of entry, the landlord, during the term, has ordinarily no right to enter on the premises with a weapon<sup>19</sup>

*Licensees.* A licensee having merely the privilege of entering on lands for a special purpose, as to turn his horses into a pasture,<sup>20</sup> or to obtain wood for fuel<sup>21</sup> or timber for fence rails,<sup>22</sup> cannot properly claim that such lands are his premises for the purposes of the exception.

## (d) Master and Servant

The premises of another, where a person is employed, cannot be said to be the employee's premises within the statutory exemption for the carrying of weapons on one's own premises, even though he lives on the premises, unless he is in or near his lodgings.

Where a person is employed on the premises of another, such premises, although deemed under proper circumstances to be the employee's place of

business, as discussed *infra* subdivision h (3) of this section, cannot be said to be the employee's own premises within the statutory exemption for the carrying of weapons on one's own premises,<sup>23</sup> even though, it has been held, he lives on the premises,<sup>24</sup> unless, it has been held, he is in or near his lodgings<sup>25</sup> Since the reason for this rule is that a nonresident servant or laborer has no interest in the employer's land and no dominion over it, the rule may not apply where the employee is an overseer<sup>26</sup> or watchman,<sup>27</sup> especially a night watchman,<sup>28</sup> or other person vested with the right of dominion or superintendence over the premises<sup>29</sup> In any event, it is clear that the employee is not entitled to carry a weapon from his own premises to those of his employer<sup>30</sup>

## (3) What Constitutes Place of Business

Under statutes excepting one's place of business from a prohibition against the carrying or possession of weapons, "place of business" may be described broadly as the place where a person earns his livelihood.

Within the import of statutes excepting one's place of business from a prohibition against the carrying or possession of weapons, "place of business" may be described broadly as the place where a person earns his livelihood<sup>31</sup> This place, however, may not extend indefinitely or illimitably,<sup>32</sup> it may not embrace the open woods<sup>33</sup> or prairie,<sup>34</sup> or the public roads,<sup>35</sup> or other place in connection with which the person invoking the exception has no right of exclusive appropriation<sup>36</sup> The place of business contemplated by the exception has reference to a particular locality appropriated to a business,<sup>37</sup> and includes not only the store<sup>38</sup> or shop,<sup>39</sup> but also the factory<sup>40</sup> and the farm<sup>41</sup> As

to persons engaged in transportation, it includes the conveyances on which they ride in the performance of their duties.<sup>42</sup>

## § 10. — Defenses in General

Advice to the accused by another person that it would be well for him to arm himself, or that he has a legal right to carry a prohibited weapon, is not a defense.

As in other prosecutions, the absence of an essential element of the crime is of course a valid defense, as considered supra §§ 4-9. On the other hand, advice to the accused by another person that it would be well for him to arm himself,<sup>43</sup> or that he has a legal right to carry a prohibited weapon,<sup>44</sup> is not a defense. Also, since the mere fact that a wrong has been done to a person does not ordinarily entitle him to take the law into his own hands, it does not excuse his carrying a weapon contrary to a prohibitory statute,<sup>45</sup> and permission by another person to carry arms on his premises in violation of law does not excuse the offense.<sup>46</sup>

*Subsequent discovery of weapons* The claim that a person has discovered himself in possession of a weapon after he left his home or office is not a defense when later such a person is found in possession of the weapon.<sup>47</sup>

## § 11. — Licenses or Permits

Under statutes prohibiting the carrying of certain weapons without obtaining a license or permit, the carrying of the weapon is the corpus delicti, and the authority conferred by the license is a matter of defense.

Under some statutes, the carrying or possessing of certain weapons is prohibited and unlawful only where a license or permit has not been obtained therefor,<sup>48</sup> and a bond posted.<sup>49</sup> Under such provisions, the carrying of the weapon is the corpus delicti,<sup>50</sup> and the authority conferred by the license is a matter of defense.<sup>51</sup> In order to constitute a valid defense, a license or permit must be in compliance with the statute,<sup>52</sup> and if the statute so requires, the permit must be recorded,<sup>53</sup> and must contain a statement of the appropriate facts,<sup>54</sup> but need not contain more information than is called for by the statute.<sup>55</sup> Although a statute dealing with licenses to have and carry a concealed weapon does not expressly require that the application therefor be verified, an affidavit may be required as proof of good moral character in order to ascertain if the applicant has been convicted of a crime.<sup>56</sup> Where the statute provides for an investigation of statements in the application for a license, the officer responsible for determining whether to issue the license is entitled to consider the facts stated in the application, as well as the facts developed by outside investigation.<sup>57</sup>

A license is not required to be issued as of course on compliance with the conditions prescribed in the statute, but the determination as to issuance of licenses lies within the sound discretion of the appropriate officials,<sup>58</sup> and each application is to be decided on its individual merits.<sup>59</sup> While the courts ordinarily will not interfere with a deter-

59 Pa.—Lovering v Dettre, 41 Pa Dist & Co 716, 57 Montg Co 307, 55 York Leg Rec 142.

### "Proper cause"

A person desiring to carry a pistol concealed did not show "proper cause" under the statute for issuance of a license therefor by showing good moral character, honorable discharges from the Armed Forces, and a desire to use pistol for target practice

NY.—Moore v Gallup, 45 NYS 2d 63, 267 App Div 64, affirmed 59 NE 2d 439, 293 NY 846, motion.

mination fairly reached,<sup>60</sup> the refusal of an official to grant such a license, on grounds not stated in the statute, will be held to be improper.<sup>61</sup> Possession of a dangerous weapon under a permit issued by constituted authority is a privilege and not a right,<sup>62</sup> and a person seeking a license to have and carry a weapon does not have a vested right thereto through the granting of earlier licenses.<sup>63</sup>

A license to carry a particular weapon does not authorize the licensee to carry a different weapon,<sup>64</sup> nor does it necessarily justify him in carrying a weapon either in a manner<sup>65</sup> or to a place<sup>66</sup> specifically prohibited by statute, or in using the weapon indiscriminately, or at will, for any and every purpose.<sup>67</sup> In the absence of a provision in the statute to the contrary, a person carrying a licensed weapon need not have the license with him,<sup>68</sup> and it has been held that a person who merely carries a gun in obedience to an order from the owner, who holds a proper license for the weapon, is not guilty of violating the statute.<sup>69</sup> A person may have a right to carry an unlicensed weapon under certain circumstances, as for a harmless or legitimate purpose or motive, as considered *supra* § 5, and it has been held that such circumstances exist when a person carries the weapon in anticipation of the commission of adultery by his spouse,<sup>70</sup> but it has also been held that no such right exists if he has sufficient time to procure a license to carry the weapon but neglects to do so.<sup>71</sup>

**Territorial limits.** Under some statutes it has

been held that within a particular territorial jurisdiction, the right to issue a license or permit to a person residing therein is confided exclusively to a designated licensing authority,<sup>72</sup> and hence, a permit issued to a resident of such jurisdiction or indeed to any other person by a magistrate or official who lacks the requisite authority within the jurisdiction is not a defense.<sup>73</sup> It has also been held that the grant of a license to carry or possess a weapon may be limited to a particular area,<sup>74</sup> such as the licensee's land,<sup>75</sup> and that the license does not excuse the carrying of an interdicted weapon outside of the licensed area.<sup>76</sup> However, where a license confers the right to carry a weapon, but limits the time or place, and the licensee finds it necessary to proceed to and from that place to another, which, if not his home, at least provides him with accommodations for eating or resting, the license must be deemed to protect him while thus carrying the weapon back and forth.<sup>77</sup> Under other statutes a local official, such as the chief police officer of a city, a police magistrate, a justice of the peace, or a sheriff, is authorized to issue a license or permit not only to a local resident but to any citizen of the state, and the validity of the permit is continuous with the state itself.<sup>78</sup>

**Revocation.** As in the case of other licenses, as discussed in Licenses § 2, a license or permit to carry a weapon creates no vested right,<sup>79</sup> and may cease to constitute a defense by reason of its having been revoked or terminated<sup>80</sup> as by the re-

(2) Evidence required revocation of licenses to carry pistol on ground that continuance of permits would be for the disadvantage, insecurity,

peal of the law authorizing the granting of the permit.<sup>81</sup>

## § 12. — Indictment and Information

- a. In general
- b. Statement of offense
- c. Issues, proof, and variance

### a. In General

An indictment in a prosecution for carrying or possessing weapons must be valid in its incipency

General rules governing indictments and informations are applicable in prosecutions for carrying or possessing weapons<sup>82</sup> The indictment must be valid in its incipency,<sup>83</sup> and on a motion to quash, a question involving any essential ingredient of the indictment,<sup>84</sup> including whether or not the instrument named is a weapon,<sup>85</sup> is a matter to be decided by the trial judge

### b. Statement of Offense

In a prosecution for carrying or possessing a weapon, the offense must be charged with precision and certainty, and all the substantial elements of the offense as defined by the statute must be alleged.

In a prosecution for carrying or possessing a weapon, the offense must be charged with precision and certainty,<sup>86</sup> in language which is at least as descriptive of the offense as is the language of the statute,<sup>87</sup> insufficiency in this respect cannot be supplied by proof<sup>88</sup> or eked out by inference<sup>89</sup> It is necessary to allege all the substantial elements of the offense as defined by the statute,<sup>90</sup> and although it is competent to charge more than one means or method of committing the same offense,<sup>91</sup> this should ordinarily be done conjunctively and not disjunctively<sup>92</sup> Under some statutes, it must be averred that the act was done unlawfully<sup>93</sup> or was in violation of law,<sup>94</sup> under others, this averment is unnecessary<sup>95</sup> It has been held that the indictment need not negative statutory exemptions,<sup>96</sup> but it has also been held that such allegations are required,<sup>97</sup> and that where the statute prohibits the carrying of a pistol without a license, the state must allege affirmatively that accused did not have a license<sup>98</sup> An indictment or information which falls short of charging a particular offense may be upheld as adequately setting out the commission of another offense<sup>99</sup>

and detriment of the one possessing the licenses

68 CJ p 53 note 26.

*Carrying and concealment.* In a prosecution for carrying weapons, the fact of carrying must be alleged,<sup>1</sup> and if the offense consists of the carrying of concealed weapons on or about the person, the fact of concealment must also be alleged.<sup>2</sup>

*Intent* In some jurisdictions, the mental element of the crime, or the intent of the accused in doing the prohibited act, must be alleged,<sup>3</sup> and a statute creating a presumption of intent to use certain weapons in violation of the statute does not obviate the necessity of alleging such intent in the information,<sup>4</sup> in other jurisdictions, the intent need not be alleged.<sup>5</sup>

*Description of weapon* The state has some latitude in describing the weapon involved,<sup>6</sup> but the description must suffice to bring the weapon within the prohibition of the statute.<sup>7</sup> A firearm is presumptively a dangerous and deadly weapon, and hence it is ordinarily unnecessary to allege either that it is a dangerous weapon<sup>8</sup> or that it was loaded at the time of the offense.<sup>9</sup> Under some statutes, in order to prevent evasions of the law, the state may properly charge in the disjunctive that accused carried a named weapon or other weapon of like kind or description,<sup>10</sup> a charge of this nature being

sufficiently definite to authorize a conviction for carrying any weapon which may be proved to fall within the prohibited class,<sup>11</sup> or a weapon of like kind or description.<sup>12</sup>

*Time* Although the time of the commission of the offense should be alleged,<sup>13</sup> time is not of the essence.<sup>14</sup>

*Allegations as to persons* An indictment for carrying weapons with intent to use against another person need not give the name of such other person.<sup>15</sup> Similarly, one may be indicted for carrying a weapon to the fear and terror of certain persons, without naming them.<sup>16</sup>

*Language of statute.* An indictment or information, charging the unlawful carrying or possession of weapons, is usually,<sup>17</sup> but not always,<sup>18</sup> sufficient when it follows the language of the statute. A charge in language less detailed or precise than that of the statute may be inadequate.<sup>19</sup>

### c. Issues, Proof, and Variance

The material elements of the offense of carrying or possessing a weapon, as charged in the indictment, must be proved by evidence which is not at variance with the allegations.

#### Rebuttable presumption

(1) Statutory presumption that certain weapons are carried with unlawful intent is subject to rebuttal

NY—People v Adamkiewicz, supra

(2) Evidence negated presump-

### a. Presumptions and Burden of Proof

When a person has a weapon elsewhere than at a place allowed by the statute, the presumption is that the weapon is carried with the intent to conceal it, and the state has the burden of proving the essential elements of the offense

The general rules as to presumptions and burden of proof in criminal prosecutions apply in prosecutions for carrying and possession of weapons<sup>27</sup> Under some statutes, when a person has a weapon elsewhere than at a place where the carrying or possession of weapons is allowed by the statute, the presumption is that the weapon is carried with intent to conceal it,<sup>28</sup> and, when carried concealed, the presumption is that it is loaded and worn as a weapon,<sup>29</sup> having the effect of casting on the accused the burden of rebutting the presumption,<sup>30</sup> although the burden of the evidence remains with the state notwithstanding such presumptions<sup>31</sup> Under other statutes, the mere possession of a dangerous weapon is presumptive evidence of the intent to use the same unlawfully,<sup>32</sup> and the pres-

tion that possession of blackjack by accused implied an intention to use it

NY—People v Quintana, 20 NYS 2d 806, 260 App Div 13

#### Ejusdem generis and proof of intent

(1) Under statute providing that possession of any of weapons specified in another provision of statute is presumptive evidence of carrying, concealing, or possessing with intent to use such weapons, unlawfully, presumption is limited to possession of the weapons specified and such others as naturally fall into the same grouping, but as to items falling within the general provision of "any other dangerous or deadly instrument, or weapon", there must be proof of an intent to use unlawfully against another

NY—People v Adamkiewicz, supra

(2) It has been held, however, that a bayonet is within class of weapons designated as "any other dangerous or deadly instrument or weapon" in statute declaring person possessing a dagger, dirk, dangerous knife, razor, stiletto, "or any other dangerous or deadly weapon" guilty of misdemeanor, so that possession thereof is presumptive evidence of intent to use it unlawfully, although not specifically named in such statute

NY—People v Panitz, 296 NYS 80, 251 App Div 276

(3) Defendant's knowledge of his guilty possession of dangerous or deadly weapon may be inferred by jury from his false statements when arrested that he had no knowledge thereof

NY—People v. Panitz, supra.

ence of certain weapons in a room, structure, or vehicle is presumptive evidence of its illegal possession by all persons occupying the place or vehicle where the weapon is found,<sup>33</sup> which a person must negative by explanation or other proof.<sup>34</sup> It has been held, however, that a statute is invalid which provides that the possession of a firearm or ammunition by any person convicted of a crime is presumptive evidence that he received it in interstate commerce, since such a presumption is inconsistent with any argument drawn from experience.<sup>35</sup>

The state has the burden of the evidence to establish the essential elements of the offense,<sup>36</sup> including the nature of the weapon,<sup>37</sup> the carrying or manual possession of the weapon,<sup>38</sup> the fact of concealment,<sup>39</sup> the existence of such specific intent as the statute may require,<sup>40</sup> and the lack of a license.<sup>41</sup> The prosecution, however, need not prove that the weapon was carried openly or was concealed, where it is an offense to carry a weapon without a license irrespective of whether the weapon was carried openly or concealed.<sup>42</sup>

**33** NY—People v Terra, 102 NE 2d 576, 303 NY 332, appeal dismissed 72 S Ct 561, 342 US 938, 96 LEd 698.

#### Purpose of statute

By enacting statute providing that presence in an automobile of a revolver constitutes presumptive evidence of illegal possession of revolver by all persons in automobile, legislature intended merely to supply a procedure for the more efficient enforcement of statute interdicting the possession of weapons  
NY—People v. Logan, 94 NYS 2d 681

#### When to be invoked

The presumption created by statute by presence in an automobile of a revolver is to be invoked only if there is an absence of satisfactory evidence as to which occupant possessed revolver, and if undisputed facts established that revolver is actually possessed by particular individuals occupying automobile, there is no burden imposed on remaining occupants to go forward with proof tending to refute presumption which would otherwise attach by virtue of occupancy  
NY—People v Logan, supra

#### "Occupying"

(1) Word "occupying" used in statutory provision that presence of machine gun in any room, dwelling, structure, or vehicle shall be presumptive evidence of its illegal possession by all persons occupying place where machine gun is found, refers to persons, who either reside in room or use it in conduct and operation of business or other venture

NY—People v Terra, 102 NE 2d 576, 303 NY 332, appeal dismissed 72 S Ct 561, 342 US 938, 96 LEd 698

(2) Where occupants of automobile were interrogated in police office for about forty minutes, during which time automobile was left unattended and unlocked, occupants were not chargeable with occupancy of automobile during such period, and, therefore, were not chargeable

with presumption of possession of revolver found in the automobile after interrogation

NY—People v Crenshaw, 117 NY S 2d 202, 202 Misc 179

#### Presumption held rebuttable

NY—People v Russo, 103 NYS 2d 603, 278 App Div 98, affirmed 102 NE 2d 834, 303 NY 673

**34.** NY—People v Logan, 94 NY S 2d 681

**40.** Minn—State v Nyhus, 222 N W 925, 176 Minn 238

Mont—State v Hodge, 273 P 1049, 84 Mont 24

#### Nature of cartridge

In order to establish crime of possessing cartridge containing and capable of emitting tear gas, state must prove by competent evidence defendant's knowledge that cartridges in his possession contained and were capable of emitting such gas, such knowledge not being presumed from contents of cartridges

Cal—People v Taylor, 40 P 2d 895, 4 Cal App 2d 220

**41.** DC—Bussie v U S, Mun App, 81 A 2d 247—Brown v U S, Mun. App, 66 A 2d 491

#### Quantum of evidence

In prosecution for carrying gun without license, prosecution was required only to prove that accused carried gun and had no license to carry it, and was not required to prove all contents of original record of all licenses for carrying guns issued by superintendent of police  
DC—Bussie v U S, Mun App, 81 A 2d 247

**42.** DC—U S v Waters, DC, 73 F Supp 72, appeal dismissed 69 S Ct 168, 335 US 869, 92 LEd 413, and cause certified 175 F 2d 340, 84 US App DC 127

While in some instances the state has the burden of proving the negative of a statutory exception, as discussed in Criminal Law § 572, the general rule is that the accused has the burden of excusing or justifying his act,<sup>43</sup> and hence the burden may be on him to bring himself within an exception in the statute,<sup>44</sup> or to prove the issuance of a license or permit.<sup>45</sup> On the same principle, it is held that a statute making it unlawful for an unnaturalized foreign-born person to possess certain firearms is not in violation of the organic law of the state or nation merely because it casts on the accused the burden of proving that he is a citizen of the United States.<sup>46</sup> It is nevertheless true, however, that the state continues to have the burden of proving the crime,<sup>47</sup> or, as is sometimes said, the burden

of establishing the allegations of the indictment<sup>48</sup> or of overcoming the presumption of innocence.<sup>49</sup>

#### b. Admissibility

Any legal evidence calculated to throw light on the unlawful act of carrying or possessing a weapon as charged is admissible, although to some extent the admission or exclusion of evidence is within the discretion of the trial court.

In a prosecution for carrying or possessing a weapon, any legal evidence calculated to throw light on the unlawful act as charged is admissible,<sup>50</sup> although to some extent the admission or exclusion of evidence is within the discretion of the trial court.<sup>51</sup> Evidence having a legitimate tendency to establish a valid defense in point of law is admissible,<sup>52</sup> but in the absence of such a tendency the

Wash—State v Krantz, 164 P 2d 453, 24 Wash 2d 350  
68 C J p 55 note 69

#### Going forward with evidence

The presumption created by a statute making possession of a firearm whose marks of identification have been tampered with prima facie evidence that tampering was done by possessor does not impose on possessor the burden of proving who committed the crime, or require him to persuade jury of his innocence, but it merely requires possessor to go forward with evidence to extent of raising a reasonable doubt that he tampered with the identification marks

Cal—People v Scott, 151 P 2d 517, 24 Cal 2d 774

#### Affirmative defense

If weapon was in such defective condition that it could not be fired that is an affirmative defense which defendant is called on to prove

51. NM—State v Nieto, 280 P 248, 34 NM 232  
68 C J p 56 note 81

#### Discretion not abused

In prosecution for violating the Federal Firearms Act, refusal to allow defendant to introduce evidence of lack of prosecution by authorities of Puerto Rico for the affair which resulted in prosecution of defendant for violation of the Federal Firearms Act was not an abuse of discretion

US—Cases v U S, CCA Puerto Rico, 131 F 2d 916, certiorari denied Cases Velazquez v U S, 63 S Ct 1431, 319 US 770, 87 L Ed 1718, rehearing denied 65 S Ct 1010, 324 US 889, 89 L Ed 1437

52. Ala—Nelson v State, 65 So 844, 11 Ala App 221.  
68 C J. p 56 note 82.

evidence is not admissible<sup>53</sup> The accused is sometimes allowed to prove the circumstances of the carrying in mitigation of the punishment<sup>54</sup> When kept within reasonable limits, it is proper to admit evidence in explanation, rebuttal, or contradiction of that already given,<sup>55</sup> and to allow an inquiry into a witness' means of knowledge<sup>56</sup>

*Intent and motive* Evidence bearing on the intent of the accused in having a weapon on or about his person is admissible,<sup>57</sup> but where criminal intent or motive is immaterial, evidence tending to show a lack of criminal intent should be rejected<sup>58</sup> Where a person has carried and made use of a forbidden weapon, or has showed a disposition to make use of it the particular use to which the weapon has been put, or the disposition to use it, may become relevant in determining his intent,<sup>59</sup> or the good faith of his claim that he is protected by an exemption in the statute<sup>60</sup> Since it is a mental state or condition of the accused which is in question, persons other than the accused cannot give direct testimony concerning his motive<sup>61</sup>

*Time and place.* In general, the evidence should be confined to the time and place charged,<sup>62</sup> but since the offense of carrying a weapon is both continuous and transitory in its nature, some liberality must be exercised in the admission of evidence,<sup>63</sup> subject to the statute of limitations, and to the filing date of the indictment or information.<sup>64</sup> Relevant and material evidence of the ac-

cused's acts, appearance, and the like within a reasonable time before or after the commission of the offense is admissible,<sup>65</sup> and this is equally true of evidence showing that the offense was committed either prior<sup>66</sup> or subsequent<sup>67</sup> to the time alleged.

### c. Weight and Sufficiency

- (1) In general
- (2) Circumstantial evidence
- (3) Defenses

#### (1) In General

In order to justify a conviction for unlawfully carrying or possessing a weapon, the proof of guilt must be clear and certain beyond a reasonable doubt, but absolute certainty is not required.

In order to justify a conviction for carrying or possessing a weapon, the proof of guilt should be clear and certain<sup>68</sup> beyond a reasonable doubt,<sup>69</sup> but on the other hand, absolute certainty may not be required<sup>70</sup> The use of a weapon in a fight, although only for a moment, is evidence that it was carried as a weapon within the prohibition of the statute<sup>71</sup> It has been held that in order to establish a prima facie case, it is not incumbent on the state to prove that a firearm unlawfully carried or possessed was loaded,<sup>72</sup> nor is it necessary that the weapon be offered in evidence,<sup>73</sup> although no doubt this should be done whenever possible<sup>74</sup>

Proof of the carrying of a prohibited weapon,<sup>75</sup>

in prosecutions for carrying or possessing weapons in any unlawful manner,<sup>81</sup> or for violating the Federal Firearms Act <sup>82</sup>

## (2) Circumstantial Evidence

The offense of carrying or possessing a weapon may be established by circumstantial evidence, and this is usually the only way to prove intent

The offense of carrying or possessing a weapon may be established by circumstantial evidence,<sup>83</sup> however, such evidence must exclude every reasonable hypothesis other than that of guilt.<sup>84</sup>

**Intent.** Circumstantial evidence is usually the only means of proving intent and it has accordingly been held that proof of the carrying or possession of a prohibited weapon, especially in a concealed or surreptitious manner, is evidence from which it is permissible to infer not only the intent to conceal the weapon,<sup>85</sup> but also the intent to wear it as a weapon, or the intent to injure or to use the weapon unlawfully against another <sup>86</sup> The mere fact, however, of having a weapon on or about one's person is not necessarily sufficient evidence of a specific intent.<sup>87</sup>

## (3) Defenses

In order to justify acquittal on a charge of carrying or possessing a weapon, there must be substantial evidence that accused, when having a prohibited weapon in his possession, was a person within the meaning of a statutory exception.

In order to justify acquittal, there must be substantial evidence that accused, when having a prohibited weapon in his possession, was a person within the meaning of an exception in the statute, as that he was a traveler,<sup>88</sup> or that for any other reason he did not violate the law, as considered supra § 9, a mere possibility of innocence will not suffice.<sup>89</sup> Nevertheless, it is not incumbent on accused to prove his defense beyond a reasonable doubt,<sup>90</sup> a preponderance of the evidence being sufficient,<sup>91</sup> and his innocence may be inferred not only from evidence adduced on his own behalf but also from that introduced by the state.<sup>92</sup>

weapons, questions of fact on which the evidence is conflicting are for the determination of the jury, such as with respect to intent or motive, or concealment, but questions of law are for determination by the court

General rules as to questions of law and fact apply in prosecutions for the carrying or possession of weapons.<sup>93</sup> Questions of fact on which the evidence is conflicting are for the determination of the jury,<sup>94</sup> while questions of law are for determination by the court.<sup>95</sup>

*Intent or motive*, when material in a prosecution for the carrying or possession of a weapon, must usually be inferred from words or acts, and is a question of fact to be determined by the jury<sup>96</sup> or by the court sitting without a jury,<sup>97</sup> although where the evidence is insufficient to warrant submission to the jury, the court may direct a verdict of acquittal.<sup>98</sup> The fact that a firearm, when carried or possessed by accused, was unloaded does not demonstrate his innocence as a matter of law,<sup>99</sup> but may be considered by the jury, with the other facts and circumstances in the case, in determining the intention of accused.<sup>1</sup>

*Concealment*, as an indispensable element of the offense of carrying concealed weapons, is a fact to be determined by the jury<sup>2</sup> where the evidence is conflicting,<sup>3</sup> and whether or not the weapon was carried or concealed on or about the person may also be for the jury.<sup>4</sup>

*Unlawful nature of the weapon* is often a question which is properly submitted to the jury.<sup>5</sup> Whether or not a firearm is in such a condition that it cannot be fired may likewise be a question for the jury or arbiter of the facts.<sup>6</sup> The court, however, may determine in the first instance whether the instrument in evidence is within the statute prohibiting possession of certain weapons.<sup>7</sup>

*Defenses* Where a defense has been interposed to an indictment or information for the carrying or possession of a weapon, the question of the guilt or innocence of accused is a matter for the jury, on conflicting evidence.<sup>8</sup> It is ordinarily the province and duty of the jury, under the instructions of the court, to weigh the evidence before it and de-

Ky—Witt v Commonwealth, 215 S W 2d 949, 309 Ky 18

termine its sufficiency to bring the accused within an exception in the statute.<sup>9</sup> Whether accused when traveling deviated from his route is ordinarily a question of fact for the jury.<sup>10</sup>

### b. Instructions

In prosecutions for the carrying or possession of weapons, the court should give clear and uncontradictory instructions which correctly state the law in the light of the evidence.

General rules governing instructions apply in prosecutions for the carrying or possession of weapons.<sup>11</sup> It is the province and duty of the court, either of its own motion or on request to give clear and uncontradictory instructions<sup>12</sup> which correctly state the law<sup>13</sup> in the light of the evidence,<sup>14</sup> including the law pertaining to such theories or defenses<sup>15</sup> as may be adequately presented by the evidence.<sup>16</sup> The court may properly modify

a requested instruction,<sup>17</sup> and if it does not do so, it should refuse to give instructions which do not correctly state the law as applied to the facts,<sup>18</sup> or which have a tendency to confuse or mislead,<sup>19</sup> or contain a hypothesis not conforming to the evidence.<sup>20</sup> If the evidence is conflicting or susceptible of different interpretations, it is incumbent on the court, on proper request, to charge the jury in appropriate language and in such a manner as to invoke their decision as between the conflicting facts or theories.<sup>21</sup> It has been held that under ordinary circumstances it is not necessary for the court to define the meaning of the word "concealed."<sup>22</sup>

## § 15. — Sentence and Punishment

may be within the discretion of the court, subject to the right of review for an abuse of discretion, and subject also to the limitations fixed by the statute

Under some statutes relating to punishment for the carrying or possession of weapons, the sentence imposed may be within the discretion of the court, or sometimes of the jury, subject to the right of review for an abuse of discretion,<sup>23</sup> and subject also to the limitations fixed by the statute<sup>24</sup> in force at the time of the commission of the offense<sup>25</sup> Statutes declaring in the alternative that the penalty for unlawfully carrying weapons shall be a fine or imprisonment do not authorize both a fine and imprisonment<sup>26</sup> The power which the court may have to admeasure the punishment within certain limits is a judicial rather than an arbitrary power,<sup>27</sup> and the court is not warranted in imposing an excessive sentence,<sup>28</sup> that is, a sentence which is unjust in its relation to the offense for which accused has been convicted<sup>29</sup> Although it is held in some jurisdictions that a sentence not greater than the maximum fixed by law cannot be excessive in legal contemplation,<sup>30</sup> it is also held that where the charge embodies no more than the unlawful carrying of a weapon, the maximum penalty is not justified,<sup>31</sup> especially if accused pleads guilty,<sup>32</sup> and there is nothing to aggravate the offense<sup>33</sup>

Some statutes expressly provide that designated facts, such as apprehension of attack, may be con-

sidered in mitigation of the punishment, or justification of the offense, and it is accordingly held that discretionary power exists to assess a fine or impose an authorized punishment which is less than the minimum fixed by statute<sup>34</sup> In other jurisdictions, however, in the absence of such statutes, the apprehension of danger is not a circumstance which may be considered by way of extenuation<sup>35</sup> Although it would be manifestly improper to punish accused for one offense merely because he has committed another, his general conduct may be considered in gauging the punishment<sup>36</sup> Where the evidence shows without conflict that accused is exempted from the penal provisions of the statute or has not violated the law, the court is powerless to render a judgment of conviction, and has no choice but to discharge him<sup>37</sup>

## § 16. Pointing or Exhibiting Weapons

The aiming, drawing, pointing, or exhibiting of a weapon in a certain manner is an offense under some statutes, and it is immaterial to the commission of the offense that no physical injury resulted to anyone.

Under some statutes, the aiming, drawing, pointing, presenting, or exhibiting of a weapon under certain circumstances is a distinct offense,<sup>38</sup> kindred in its nature to that of carrying weapons,<sup>39</sup> and it is immaterial to the commission of the offense that the weapon, if a firearm, could not be discharged

as considered supra § 17, or that no physical injury resulted to anyone<sup>40</sup> The commission of the crime of drawing a prohibited weapon while unlawfully armed therewith constitutes the statutory offense of committing a crime when armed.<sup>41</sup>

The word "aim," as used in some statutes, connotes intention,<sup>42</sup> and is synonymous with "draw"<sup>43</sup>

The word "draw" in this connection is judicially defined as meaning intentionally to point a weapon<sup>44</sup> It is not equivalent to "flourish"<sup>45</sup>

The word "point," although practically synonymous with "aim,"<sup>46</sup> is less specific than the latter term.<sup>47</sup> The pointing of a weapon at, or, in the language of some statutes, toward another, must necessarily be preceded by the drawing of the weapon for that purpose.<sup>48</sup>

### § 17. — Nature and Elements of Offenses, and Defenses

The very essence of the offense of pointing or exhibiting the weapon is the doing of the act, which is required by the statutes to be done intentionally, but the criminality of the act does not depend on motive. The legitimate defense of person or property constitutes a defense to a prosecution for pointing or exhibiting a weapon.

Under statutes prohibiting the pointing or exhibiting of weapons, the very essence of the offense is the doing of the criminal act,<sup>49</sup> which is expressly or impliedly required by the statutes to be done intentionally<sup>50</sup> The criminality of the act does not depend on motive,<sup>51</sup> more specifically,

malice, or an intent to injure, is not an ingredient of the offense<sup>52</sup> Moreover, neither present ability to commit an assault<sup>53</sup> nor present ability to see or harm the intended victim is an element of this offense<sup>54</sup>

*Weapons prohibited.* In determining the kind of weapons coming within the prohibition of statutes directed against the pointing or display of weapons, the construction placed on statutes forbidding the carrying of weapons may properly be considered<sup>55</sup> A pistol,<sup>56</sup> without proof that it is loaded or presently capable of committing an injury,<sup>57</sup> rifle,<sup>58</sup> or other firearm<sup>59</sup> is a deadly weapon within the purview of the statutes; a hatchet,<sup>60</sup> a club,<sup>61</sup> and even a pocketknife<sup>62</sup> may be deadly weapons. The pointing or exhibiting of a firearm in the manner prohibited by the statutes constitutes an offense even though the firearm is unloaded<sup>63</sup> or in such a condition that it cannot be discharged<sup>64</sup>

*Places prohibited.* Statutes making it unlawful to point or display weapons, instead of being applicable to places in general, may be limited in their scope to particular places; and hence to constitute an offense the accused must have pointed or displayed the weapon in a place prohibited by the statute, such as a private house,<sup>65</sup> a public place,<sup>66</sup> or a place of amusement<sup>67</sup> Under some statutes, the offense must be committed in the presence of one or more persons<sup>68</sup>

*Manner of pointing or exhibiting.* In order to constitute the offense, it is necessary that the weap-

on be pointed or exhibited in the manner denounced by the statutes,<sup>69</sup> some of which punish the offense whether committed playfully or otherwise,<sup>70</sup> or when committed in a rude, angry, or threatening manner.<sup>71</sup> The shooting of a firearm may constitute the offense of rudely displaying it,<sup>72</sup> but this is not necessarily so.<sup>73</sup> A weapon may be displayed willfully or unlawfully without being rudely displayed within the contemplation of the statute.<sup>74</sup>

**Persons exempted** Statutes forbidding the pointing or exhibition of weapons make exceptions for the benefit of designated classes of persons, such as officers<sup>75</sup> and travelers,<sup>76</sup> and no offense is committed where accused is within one of the excepted classes.

**Defenses** By express terms of the statutes or by judicial construction, the legitimate defense of person or property constitutes a defense to a prosecution for pointing or exhibiting a weapon.<sup>77</sup> The right of self-defense, however, does not necessarily justify the use of certain prohibited weapons,<sup>78</sup> and the use of insulting or abusive words does not constitute a justification.<sup>79</sup> The fact that the persons, in whose presence accused exhibited the weapon in a threatening manner, were at a certain dis-

tance is no defense where the weapon could be effectively used at such a distance.<sup>80</sup>

## § 18. — Prosecution and Punishment

- a Indictment and information
- b Evidence
- c Trial, punishment, and review

### a. Indictment and Information

Although the offense of pointing or displaying a weapon must be substantially described and no material element may be omitted, a mere formal defect or irregularity does not invalidate the accusation.

Although the offense of pointing or displaying a weapon must be substantially described and no material element may be omitted,<sup>81</sup> a mere formal defect or irregularity does not invalidate the accusation.<sup>82</sup> Under the decisions in various jurisdictions, it has been held that the state must charge that the interdicted act was committed intentionally<sup>83</sup> and unlawfully<sup>84</sup> with a prohibited firearm or other weapon<sup>85</sup> and in the prohibited manner<sup>86</sup> in the presence of the required number of persons.<sup>87</sup> It need not, however, be alleged that accused acted with malice,<sup>88</sup> or that the firearm was loaded<sup>89</sup> or was known by him to be loaded,<sup>90</sup> or was carried.<sup>91</sup>

69 Puerto Rico—People v Guzmán, supra.

70 Del—State v Donovan, 8 A 2d 878, 1 Terry 257.  
68 C J p 64 note 32.

#### Purpose of statute

The statute providing that it shall be unlawful for any person in jest or otherwise intentionally to point a firearm towards any other person was enacted for protection of human life and in recognition of manifest danger arising from careless handling of firearms.

Del—State v Donovan, supra.

71. Mo—State v Morris, 172 SW 603, 263 Mo 339.

#### Pointing not necessary element

The pointing of the weapon at complaining witness is not a necessary element of the statutory offense of exhibiting a deadly weapon in a rude, angry, or threatening manner.

Cal—Garfield v Peoples Finance & Thrift Co of Riverside, 74 P 2d 1061, 24 Cal App 2d 144.

77. Ga—Brocken v State, 46 SE 2d 738, 76 Ga App 585.  
68 C J p 64 note 42.

#### Right to kill

Within statute making it unlawful to point a gun at another except when done in "self-defense," the quoted term includes the right to kill in defense of one's child or to prevent commission of a felony.

Or—State v Nodine, 259 P 2d 1056, 198 Or 679.

#### Resisting trespassers

If one charged with feloniously exhibiting a deadly weapon takes his gun along when he goes to exclude trespassers from his premises, only to resist attack in case attack should be made on him for thus asserting his lawful rights, and he makes no demonstrations with the gun except in resistance to the approach of the trespassers on him for the purpose of assault, he is not guilty of the offense charged.

89. Ind—Graham v State, supra.  
68 C J p 65 note 55.

90. Ohio—Geiger v State, 5 Ohio Cir Ct 283, 3 Ohio Cir Dec 141.

91. Miss—Gamblin v. State, 45 Miss. 658.

in a public place or a public assemblage<sup>92</sup> Where the statute prohibits the pointing or displaying of deadly weapons, the state may<sup>93</sup> or may not<sup>94</sup> be required to allege that a particular weapon is deadly, depending on whether or not the court can say that it is a deadly weapon per se

*Language of statute or statutory forms* An accusation in substantial conformity with the language of the statute is sufficient,<sup>95</sup> even though the language is in the alternative,<sup>96</sup> and each alternative averment may be sufficient to support the charge<sup>97</sup> Where the statutory language is in the disjunctive, an allegation in the conjunctive is not objectionable as charging more than one offense, where the terms employed are synonymous<sup>98</sup>

*Issues, proof, and variance* Pursuant to general rules, material allegations of the indictment must be proved,<sup>99</sup> and while unnecessary descriptive averments do not vitiate the indictment, an averment, although unnecessary, must be proved as laid,<sup>1</sup> unless it is mere surplusage<sup>2</sup>

#### b. Evidence

The state has the burden of proving the substantial elements of the offense of pointing or exhibiting a weapon,

and the existence of all of such elements must be shown by evidence which is competent in law.

In view of the presumption of innocence, the state has the burden of proving the substantial elements of the offense of pointing or exhibiting a weapon,<sup>3</sup> and the existence of all of such elements must be shown<sup>4</sup> by evidence which is relevant and material as well as competent in law<sup>5</sup> Unless an appellate court, under the rules governing the review of criminal proceedings, can say that the evidence is sufficient, a conviction for pointing or exhibiting a weapon will not be allowed to stand.<sup>6</sup>

#### c. Trial, Punishment, and Review

In prosecutions for pointing or exhibiting weapons, the question of whether the accused is guilty or innocent of handling the weapon in a prohibited manner is a question to be determined by the jury under the evidence. The quantum of punishment imposed by the trial court is subject to review, and, if excessive, may be modified or reduced

In prosecutions for pointing or exhibiting weapons, the question of whether accused is guilty or innocent of handling the weapon in the prohibited manner is a question to be determined by the jury under the evidence,<sup>7</sup> and the requisite intent to do

the unlawful act may be inferred from the surrounding circumstances<sup>8</sup> The jury should be correctly instructed,<sup>9</sup> in language which is not misleading,<sup>10</sup> with respect to the contentions made<sup>11</sup> and to the propositions of law pertinent to the facts of the case,<sup>12</sup> and they should return a proper verdict.<sup>13</sup> Substantial evidence tending to establish a valid defense, even though coming from the accused alone,<sup>14</sup> entitles him to an instruction presenting that defense<sup>15</sup> The quantum of punishment imposed by the trial court is subject to review,<sup>16</sup> and, if erroneous or excessive, may be modified or reduced<sup>17</sup>

### § 19. Shooting Firearms

Under some statutes, the shooting of a weapon in certain places or under designated circumstances is a specific offense.

Shooting firearms, in addition to being an aggravated assault, as discussed in Assault and Battery § 76, may, under some circumstances, constitute a breach of the peace, as discussed in Breach of the Peace § 2, and, under some statutes, it is made a specific offense to discharge a weapon in certain places or under designated circumstances<sup>18</sup> Except as provided by such statutes, however, the firing of a weapon does not constitute an offense<sup>19</sup>

### § 20. — Nature and Elements of Offenses, and Defenses

- a. Nature and elements of offenses
- b. Defenses

#### a. Nature and Elements of Offenses

Statutes which declare unlawful the discharging of

firearms in certain designated places are penal statutes of general and unrestricted nature The offense is committed only where the shooting occurs at a prohibited place, but unless otherwise provided, no particular intent, motive, purpose, or knowledge is required as an element of the offense.

Statutes which declare unlawful the discharging of firearms in certain designated places are penal statutes of general and unrestricted nature<sup>20</sup>

*Another's property.* Under a statute making it an offense to discharge firearms on another's property, a person who discharges a gun on his own premises is not guilty of a violation of the statute<sup>21</sup>

*Dwelling house or schoolhouse.* Under statutes which make it an offense to shoot at, toward, or into a dwelling house or certain other houses, the offense may be committed by two or more persons conspiring together<sup>22</sup> Statutes defining this offense include only those buildings specifically mentioned,<sup>23</sup> they do not, for example, include a tent set up as a temporary shelter<sup>24</sup> The offense is committed by a person who, while standing on the porch<sup>25</sup> or inside the dwelling house,<sup>26</sup> shoots at the floor<sup>27</sup> or at, toward, or into any other part of the dwelling,<sup>28</sup> and it is immaterial that he may have been guilty in the same transaction of unlawfully shooting at another person<sup>29</sup> Under some statutes, motive is important,<sup>30</sup> malice being an essential ingredient of the offense;<sup>31</sup> but under others, no particular intent, motive, purpose, or knowledge is required as an element of the offense<sup>32</sup> The kind of firearm used in the shooting is of no consequence<sup>33</sup>

31. Mo—State v. Woolsey, 33 SW. 2d 955  
68 C J, p 67 note 14

32. La—State v. Dowdell, 31 So. 151, 106 La 645.

33. Mo—State v. Woolsey, 33 SW. 2d 955.

*Highway or other public place.* It is a penal offense to discharge willfully any species of firearms in a public place or in any place where there is any person to be endangered thereby, although no injury to any person ensues.<sup>34</sup> In order to constitute the offense, the person discharging the firearm must either be possessed of some information, or have reasonable grounds to believe, that some person is in the place where the firearm is discharged, and hence likely to be endangered thereby.<sup>35</sup> Under statutes and ordinances making it a specific offense to discharge a firearm carelessly or at random on, along, or across or within a specified distance of, a public road or highway, the courts have frequently considered and determined what is and what is not a shooting carelessly<sup>36</sup> or at random,<sup>37</sup> or along or across<sup>38</sup> or at a specified distance from<sup>39</sup> a public highway, road, or other public place, and also what constitutes a public highway, road, or public place.<sup>40</sup>

*Within limits of municipality.* The discharge of firearms or other implements on the streets or within the limits of a town or other municipal corporation is prohibited in some jurisdictions.<sup>41</sup> It is the act of shooting which prohibitory legislation of this character is designed to punish,<sup>42</sup> and consequently it is immaterial whether the shot misses or takes effect.<sup>43</sup> If the prohibition is directed against the discharge of firearms without reasonable cause, the want of reasonable cause is necessary to con-

stitute the complete offense.<sup>44</sup> The specific offense of shooting at a target within the limits of a municipal corporation consists of two elements, namely, the shooting must be at a target,<sup>45</sup> and it must be within the corporate limits.<sup>46</sup>

*Shooting at a person* has been made a specific offense by statute in some jurisdictions.<sup>47</sup> Intent to hit, injure, or kill may or may not be material in the commission of this offense, depending on the construction given to the particular statute. Since shooting at a person implies an intent to hit him, it has been held that the nature of the load in the weapon may be important in determining the intent.<sup>48</sup> Where absence of malice is, under the statute, an ingredient of the offense, a malicious shooting does not violate the statute,<sup>49</sup> but the offense has been held committed where it appeared that accused held the firearm pointed directly at a car loaded with passengers, and deliberately fired it.<sup>50</sup> Maiming is not an offense included in the specific crime of shooting with intent to kill.<sup>51</sup>

#### b. Defenses

It is a good defense, in a prosecution for shooting a firearm, to show the existence of a reasonable cause or excuse for the shooting.

It is a good defense to a prosecution for shooting a firearm to show the existence of a reasonable cause or excuse for the shooting.<sup>52</sup> The fact that the shooting was accidental,<sup>53</sup> or was done in lawful self-defense<sup>54</sup> or in the protection of life<sup>55</sup>

34. N.Y.—Gross v Goodman, 19 N.Y. S 2d 732, 173 Misc 1063

#### Peace officer

Where a peace officer while standing on federal highway at point beyond corporate limits of the village stepped upon highway and waved his arms at motorist and, after motorist failed to observe and ignored officer's signal, fired his revolver at, or in direction of, motorist's automobile was criminally liable for such discharge of a firearm upon public highway in view of fact that it did not appear that officer was in the act of arresting or pursuing a felon at time of the discharge

or property,<sup>56</sup> or in the enforcement of the law,<sup>57</sup> is a defense, under some statutes, unless done unnecessarily,<sup>58</sup> recklessly,<sup>59</sup> or negligently.<sup>60</sup> It is no defense, however, that accused believed the firearm to be unloaded, if he was negligent in not ascertaining its real condition,<sup>61</sup> nor is it any defense that he discharged the weapon on the premises of another with the latter's permission.<sup>62</sup>

## § 21. — Prosecution and Punishment

- a Indictment or information
- b Evidence
- c Trial, punishment, and review

### a. Indictment or Information

An indictment for discharging a firearm must adequately charge the commission of the offense

An indictment for shooting a firearm must adequately charge the commission of the offense,<sup>63</sup> and, if it is necessary to constitute the offense that the shooting be willful, wanton, or malicious, the indictment must so charge.<sup>64</sup> Under some statutes, it must also charge that the shooting was unlawful,<sup>65</sup> and must negative accused's ownership of the property fired on.<sup>66</sup> An indictment in the language of the statute may, in some circumstances, be insufficient.<sup>67</sup>

### b. Evidence

The accused is entitled to introduce evidence bearing on any defense he may have, while the prosecution must prove all material allegations by the necessary quantum of competent, relevant, and material evidence

In a prosecution for shooting of a firearm, accused is entitled on the one hand to introduce evidence bearing on any defense he may have,<sup>68</sup> while on the other hand the prosecution must prove all the material allegations and elements<sup>69</sup> by the necessary quantum<sup>70</sup> of competent, relevant, and material evidence,<sup>71</sup> and under some statutes the state's proof must negative the statutory exceptions and provisos.<sup>72</sup> Thus, in prosecutions for discharging a firearm on or across a public road or highway, evidence which does not show that it is a public road is insufficient to sustain a conviction,<sup>73</sup> but undisputed testimony that it is a public road, used by the public, is sufficient to show at least prima facie that it is a public road or highway.<sup>74</sup>

### c. Trial, Punishment, and Review

In prosecutions for shooting a firearm, questions of fact are to be determined by the jury, under appropriate instructions by the court, and if the accused is found guilty, he should be sentenced according to law.

In prosecutions for shooting a firearm, questions of fact are to be determined by the jury.<sup>75</sup> Hence,

Mo—State v Burney, 143 SW 2d 273, 346 Mo 859

**Evidence insufficient to take case to jury**

Evidence was insufficient to take to jury question of defendants' guilt of shooting at or into dwelling house, in view of physical facts totally disproving that gun shot by defendants outside such house was aimed at, or that load passed through window thereof

Ky—Deaton v Commonwealth, 196 SW 2d 742, 303 Ky 5.

whether there is a reasonable excuse for the shooting is a question of fact for the jury to determine under all the circumstances of each case<sup>76</sup> and under such appropriate instructions<sup>77</sup> as the evidence may warrant<sup>78</sup>. If accused is convicted or pleads guilty, he should thereupon be sentenced according to law,<sup>79</sup> but if the sentence is erroneous or if the punishment, whether consisting of a fine or imprisonment, or both, is excessive,<sup>80</sup> the judgment may be reversed or the punishment modified by an appellate court<sup>81</sup>. Where a person has been convicted for shooting a firearm in violation of an ordinance of a municipality which has been empowered by the legislature to forbid the discharge of firearms, and the record on review does not contain the ordinance in question, the court will presume that the municipality acted within its delegated power<sup>82</sup>.

## § 22. Sale, Gift, or Loan of Weapons

It is an offense under some statutes to sell, lend, or give firearms or other weapons to any unauthorized person

It is an offense in a number of jurisdictions to

sell, lend, or give firearms or other weapons to any unauthorized person, some statutes making it unlawful to engage in the business of a dealer in such weapons without a license<sup>83</sup>. Except where its sale, gift, or loan is specifically prohibited, a toy weapon is ordinarily not within the purview of the statute<sup>84</sup>. The term "minor" to whom weapons cannot be sold, given or lent, has a well defined signification<sup>85</sup>. Where the statute prohibits a sale of a weapon to any person without legal authority to carry it, whether the weapon was bought for the purpose of carrying it lawfully is a question to be determined on the facts of the particular case<sup>86</sup>. A single isolated transaction may constitute a violation of the statute<sup>87</sup>. The words "police authorities," as used in a statute providing that every person becoming the lawful possessor of a firearm capable of being concealed on the person, who shall sell, give, or transfer the firearm to any other person without first notifying the police authorities shall be guilty of a misdemeanor, mean the police officials in authority at police headquarters in the municipality where the transaction takes place<sup>88</sup>.

§ 23. Other Offenses

Particular acts involving weapons may give rise also to certain other offenses, such as employing armed men, and drilling or parading with arms

Particular acts involving weapons may give rise also to certain other offenses<sup>89</sup> As used in a statute making it unlawful to organize, maintain, and employ an armed body of men, the word "employ" is not used in its restricted sense to import the act of hiring or the existence of the relation of master and servant, but is to be understood more broadly as meaning to make use of an armed body of men as an instrument or agency to accomplish some specific purpose<sup>90</sup> In order to constitute the offense, all the members of the group need not be armed, it being sufficient if any considerable number of them are armed, and are being aided

and abetted in their unlawful purpose by the others.<sup>91</sup> If the evidence is in conflict, it is for the jury to determine the facts with respect to the alleged employment of the men by accused,<sup>92</sup> their condition of being armed or unarmed,<sup>93</sup> and the nature of their mission<sup>94</sup>

*Drilling or parading with arms* In statutes making it a criminal offense to drill or parade with firearms, the firearms contemplated by the statutes include disabled firearms, which cannot be used to discharge a missile by means of gunpowder or any other explosive, where the disability is not apparent to the ordinary observer<sup>95</sup> Whether or not the weapon in controversy is a firearm within the intent of the statutes is a question for the court.<sup>96</sup>

III. PENALTIES AND FORFEITURES

§ 24. In General

The forfeiture of weapons involved in offenses discussed in this title is considered *infra* § 25.

Examine Pocket Parts for later cases.

§ 25. Confiscation of Weapon Involved in Offense

Forfeiture of weapons involved in offenses denounced by statute may be accomplished only by compliance with statutory requirements

Although sometimes held unconstitutional,<sup>97</sup> legislation defining the offenses discussed in this title sometimes provides for the forfeiture or confiscation of the weapons involved, and it may be the legislature's intention that the mere commission of the offense shall work a forfeiture, and that a judicial proceeding establishing a violation of the law or resulting in a conviction therefor shall not be required as a condition precedent<sup>98</sup> Authority for the forfeiture or confiscation of a weapon, however, must be derived from the general law of the state;<sup>99</sup> the officials of a municipal corporation, for

example, cannot lawfully provide for the forfeiture of a weapon carried in violation of a municipal ordinance, where neither the legislature nor the constitution of the state has empowered them to affix the penalty of a forfeiture,<sup>1</sup> and similarly it is held that where an ordinance is entirely silent as to the confiscation of a weapon, a court is in error in ordering its confiscation<sup>2</sup>

Although the court has erred, a defendant feeling aggrieved by the refusal to return a weapon may proceed according to the forms of law, and take the necessary steps to have the refusal to return the weapon reviewed in the proper court<sup>3</sup> Mandamus has been held to be a proper remedy to compel the return of a weapon, where there is no question as to its ownership.<sup>4</sup> Whether or not a statute would be constitutional as against the innocent owner of a weapon if it authorized the forfeiture of the weapon found in the possession of a thief or other person who had taken it without the owner's knowledge or consent has been raised but was not decided except inferentially.<sup>5</sup> In any event, statutes authorizing the confiscation of

weapons or the labeling of forfeited property cannot be successfully invoked to justify the withholding of a weapon from the owner in the absence of a compliance with the statutory requirements.<sup>6</sup>

#### IV. CIVIL LIABILITY FOR NEGLIGENT OR ILLEGAL USE, SALE, GIFT, LOAN, OR MANUFACTURE

##### § 26. In General

The rules governing actions for injuries inflicted by negligence ordinarily govern in actions for injuries caused by the discharge of firearms.

It has been broadly stated that the rules of law governing civil actions for injuries caused by the discharge of firearms are not different from the rules governing actions for any injuries claimed to have been inflicted by negligence.<sup>7</sup>

##### § 27. Use

Liabilities for injuries resulting from use of weapons are considered *infra* § 28.

Examine Pocket Parts for later cases

##### § 28. — Liabilities

- a Negligent use
- b Illegal use

###### a. Negligent Use

Reasonable or ordinary care, commensurate with the danger, is required in the handling or use of firearms, and a person who negligently handles or uses a weapon is liable in damages for injuries to person or property proximately caused by his negligence.

With respect to the carrying or handling of firearms, the law requires reasonable<sup>8</sup> or ordinary<sup>9</sup> care, or a degree of care commensurate with the danger<sup>10</sup>. Firearms, however, are dangerous instrumentalities,<sup>11</sup> and since their possession or use is attended by extraordinary dangers,<sup>12</sup> a person having firearms in the vicinity of others is bound to exercise extraordinary care,<sup>13</sup> sometimes described as the utmost care,<sup>14</sup> or a very<sup>15</sup> high de-

#### Facts held not to show negligence

In action to recover for gunshot wounds where defendant did not see plaintiff and was about to shoot at a flying bird, his failure to announce his presence to plaintiff was not negligence

NY—Blanchard v Noteware, 32 NYS 2d 188, 263 App Div 186

#### Firing at object not clearly identifiable

Hunter who fires at object before he makes certain that it is game and not a human being is negligent  
La—Fowler v Monteleone, App, 153 So 490  
68 CJ p 73 note 23 [a] (4)

**21. US—Corpus Juris quoted in**  
Folk v U S, DCSC, 102 F Supp 736, 740, reversed on other grounds, CA, U S v Folk, 199 F2d 889  
68 CJ p 73 note 22

#### Intervening act of another

(1) Where owner of pistol, having left one cartridge in gun when he purported to unload it before handing it to customer for inspection, left gun with customer knowing that he was snapping it and as a result of such action by customer, owner's employee was accidentally shot, the intervening action of customer was not the sole proximate cause of injury and did not relieve owner of pistol from liability for such injury

Tenn—Levitan v Banniza, 236 SW 2d 90, 34 Tenn App 176

(2) Where the exposing of a loaded air rifle on a counter in defendant's store was the proximate cause of plaintiff's injury, it was held that the intervening act of plaintiff's companion in pulling the trigger while examining the rifle could not relieve defendant from liability  
NY—Gerbino v Greenhut-Siegel-Cooper Co, 152 NYS 502, 165 App Div 763, motion denied 109 NE 1075, 215 NY 645

**22. US—Corpus Juris quoted in**  
Folk v U S, DCSC, 102 F Supp 736, 740, reversed on other grounds, CA, U S v Folk, 199 F2d 889  
68 CJ p 73 note 23

Liability for wrongful death generally see Death §§ 21–26

**Shooting at targets** where there are objects from which balls may glance and endanger others is wanton and reckless, and person doing such shooting will be chargeable

civily for injury resulting to another's person

Ohio—Kuhn v Bader, 101 NE 2d 322, 89 Ohio App 203

#### No intent to hit human being

(1) If defendant without intending to hit a human being recklessly or wantonly shot where defendant had good reason to believe there were human beings, defendant was liable for injury caused to one who was struck by the bullet from defendant's gun

NY—Gross v Goodman, 19 NYS 2d 732, 173 Misc 1063

(2) Where person in charge of tavern ordered patron to leave knowing he had been boisterous on previous occasions and made no effort to obtain assistance and did not call enforcement officer, but fired pistol at floor while three to four feet from patron in effort to frighten him, person in charge was guilty of negligence

Wis—Oshogay v Schultz, 43 NW 2d 485, 257 Wis 323

#### Lawful act

Ordinarily, person accidentally wounding innocent bystander in lawful attempt to prevent commission of crime, or to apprehend felon, or when acting in self-defense, is not liable for injury to bystander, if guilty of no negligence

Okla—Cook v Hunt, 63 P 2d 693, 178 Okla 477

68 CJ p 72 note 21 [f].

#### Injury to trespasser

When one rightfully in possession of land shoots and injures a trespasser, he is not liable if he is guilty merely of ordinary negligence  
Mass—Haskins v Grybko, 17 NE 2d 146, 301 Mass. 322

#### In Louisiana

(1) It has been held that recovery of damages as result of accidental shooting by person engaged in a hunting expedition is not dependent on allegations and proof of gross negligence

La—Normand v Normand, App, 65 So 2d 914

(2) An earlier case apparently held that liability exists only where the negligence is gross

La—Siefker v Paysee, 40 So 366, 115 La 953, 4 LRA, NS, 119

(3) It has been said that this decision should not be so interpreted  
La—Normand v Normand, App, 65 So 2d 914

68 CJ p 73 note 23 [c]

ture years or judgment<sup>23</sup> These rules commonly impose liability on a person whose negligence allows another person under his authority or control to inflict injury with a weapon,<sup>24</sup> including a parent who negligently permits his minor child to have firearms or leaves them where the child may get possession of them, as discussed in Parent and Child §§ 66-69

**Liability of United States.** The United States may be liable under the Federal Tort Claims Act for injuries resulting from the negligent use or handling of weapons by a federal officer,<sup>25</sup> or a member of the armed services acting as a guard,<sup>26</sup> if a private employer would be liable therefor under the law of the place where the injury occurred<sup>27</sup>

**Injuries resulting from fright.** It has been held that damages are recoverable for physical injuries<sup>28</sup> such as illness<sup>29</sup> or a miscarriage<sup>30</sup> directly caused by fright proximately resulting from the negligent discharge of a firearm, at least where the discharge was intentional,<sup>31</sup> and particularly where it was wanton or reckless, and constitutes a willful tort, evidencing an apparent disregard of human safety<sup>32</sup> In accordance with the general rule discussed in Negligence § 114, that a negligent

act which frightens an animal is the proximate cause of injuries caused by the animal, where plaintiff himself was not frightened, but was injured by an animal frightened by the negligent firing or handling of a weapon by the defendant, it has been held that the negligent act is the proximate cause of the injury, and that defendant is therefore liable<sup>33</sup>

**Joint and several liability.** Where several persons, while engaged in a joint enterprise or acting in concert, participate in the negligent or wrongful use of weapons, resulting in injury to another, all are jointly and severally liable,<sup>34</sup> although it is impossible to determine who inflicted the particular injury<sup>35</sup> It has been held, however, that where two hunters fire their weapons negligently, they are both liable only if the injured person is struck by some shot from each of the two guns<sup>36</sup>

### b. Illegal Use

A person whose illegal use of a weapon causes injury to another is liable therefor regardless of negligence

If a person is violating the law by carrying, pointing, or shooting a weapon, he is civilly liable for any injury, even an accidental injury, inflicted by him with such weapon, the question of negli-

23. Okl.—Hart v Lewis, 103 P 2d 65, 187 Okl 394

Pa.—Mendola v Sambol, 71 A 2d 827, 166 Pa Super 351.

#### Right of control

The doctrine of joint enterprise discussed generally in Negligence § 158 which requires each person to have an equal right to control the other in order that the negligence of one may be imputed to the other is applicable only to contributory negligence and does not prevent the joint liability of two persons, engaged in shooting, for injury to a third person

Vt—Giguere v Rosselot, supra

35. Cal—Summers v Tice, 199 P 2d 1, 33 Cal 2d 80, 5 A L R 2d 91

Ohio—Kuhn v Bader, 101 NE 2d 322, 89 Ohio App 203.

68 C J p 74 note 38

36. Mo—Schoening v Claus, 249 SW 2d 361, 363 Mo 119.

gence being immaterial<sup>37</sup> The act being unlawful, the fact that the plaintiff consented to the defendant's being armed, and to the defendant's use of the weapon, is no bar to the action,<sup>38</sup> the only effect of consent being to confine the recovery to compensatory damages.<sup>39</sup> The fact that defendant's motive in discharging the weapon is laudable is immaterial where his act is illegal.<sup>40</sup> A penal statute authorizing an action for damages for injury or death of a person injured by the discharge of a firearm intentionally pointed without malice does not apply where the injury resulted from willful acts, since such acts imply malice<sup>41</sup>

## § 29. — Procedure

- a. In general
- b. Defenses
- c. Pleading
- d. Evidence
- e. Trial
- f. Damages

### a. In General

Authorities differ as to whether trespass or case is the proper form of action to recover damages for injuries caused by a weapon. Persons liable for an injury resulting from the use of weapons may be joined as parties defendant.

Rules of law governing actions for injuries caused by the discharge of firearms generally are not different from the rules governing other actions for injuries claimed to have been inflicted by the negligence of defendant.<sup>42</sup> Where the injury caused by a weapon, although immediate, is inflicted negligently, some authorities hold that notwithstanding the negligent nature of the act, tres-

pass rather than case is the proper remedy,<sup>43</sup> except under certain circumstances,<sup>44</sup> but other authorities hold that either trespass or case is maintainable at the plaintiff's election<sup>45</sup> It has been provided by statutes in some jurisdictions that whenever trespass lies, an action on the case will also lie<sup>46</sup> Even under a code of procedure abolishing the distinctions between the different common-law forms of action, a distinction has been made between an action for an unintentional but negligent injury inflicted with a firearm, and an action for assault and battery resulting from an intentional shooting<sup>47</sup>

*Parthes.* Two persons who engaged in shooting may be joined as defendants regardless of whether each had an equal right to control the conduct of the other<sup>48</sup> The parent of a child who fired the shot causing injury may be joined as defendant in an action against the child.<sup>49</sup>

### b. Defenses

Ordinarily, defenses available in other cases of negligence are available in actions for injuries from firearms

Defenses available in actions for negligence generally, as considered in Negligence § 181, are in general good defenses in an action for damages for negligently injuring another with a weapon<sup>50</sup> Thus, valid defenses which may be available to defendant are that he was free from blame,<sup>51</sup> that his negligence was not the proximate cause of the injury, as considered supra § 28, or that the proximate cause of the injury was an act of God or the like.<sup>52</sup> It may also be a defense that plaintiff's negligence caused or contributed to the injury<sup>53</sup> unless plaintiff is able successfully to in-

NY—Blanchard v. Noteware, 32 N. YS 2d 188, 263 AppDiv. 186  
68 CJ p 75 note 63.

voke the doctrine of last clear chance<sup>54</sup> The fact that two hunters were engaged in a joint enterprise in going to the place where one accidentally shot the other and that they intended to resume the relationship on returning did not show the existence of such a relationship when the accident occurred so as to impute to plaintiff the negligence of defendant<sup>55</sup> In an action for damages for negligent shooting, self-defense, defense of property, and provocation are not good defenses<sup>56</sup>

### c. Pleading

The complaint in an action for injuries caused by weapons must state a cause of action.

In an action to recover for injuries resulting from the improper handling or use of weapons, plaintiff must not only state a cause of action,<sup>57</sup> but his

declaration, petition, or complaint must show the nature thereof,<sup>58</sup> and must contain, under the codes, a plain and concise statement of the facts constituting the cause of action.<sup>59</sup> Plaintiff can recover only on the cause of action pleaded<sup>60</sup> The plea or answer must be sufficient<sup>61</sup> An answer inferentially admitting that the gun was pointed toward the plaintiff and pleading that the gun was accidentally discharged raises the issues whether the discharge was accidental or negligent,<sup>62</sup> and whether, if the gun was negligently handled, the negligence proximately caused the injury.<sup>63</sup>

### d. Evidence

The discharge of a firearm, resulting in an accidental or unintentional injury to the person or property of another, may constitute presumptive evidence of negligence, but the plaintiff has the burden of proving the cause of action alleged.

#### Duty of care

(1) Plaintiff hunting with defendant had burden to use care commensurate with the danger to avoid getting into dangerous position  
Wis—Wilfert v. Nielsen, 27 NW 2d 893, 250 Wis 646

(2) Decedent, by handing loaded rifle to defendant in front seat of automobile, did not relieve himself of duty of advising other occupants of automobile that rifle was loaded and did not thereby escape responsibility for exercising care for his own safety  
Ala—Nelson v Lee, 32 So 2d 22, 249 Ala 549

#### Facts held to show contributory negligence

(1) In general  
US—Lewis v U S, CANJ, 194 F2d 689

(2) In an action to recover for gunshot wounds, where plaintiff, hunting on a canal bank, saw defendant hunting in the bed of the canal, saw a pheasant on the ground before it took flight, and did not warn defendant of his presence, plaintiff did not exercise reasonable care  
NY—Blanchard v Noteware, 32 NY 2d 188, 263 AppDiv 186

#### Facts held not to show contributory negligence

(1) In general  
US—Tastor v U S, DCCal, 124 FSupp 548  
68 CJ p 75 note 63 [a].

(2) Where captain of hunting party had sounded horn to signal hunt was over, and several members of party left their stands in barricade, hunter was not negligent in going short distance from stand into barricaded area to pick mushrooms where he was shot by another hunter, and even if hunter was negli-

gent his negligence was not contributing cause to injury sustained when shot by another hunter who did not ascertain whether object he shot at was deer or human being  
La—Fowler v. Monteleone, App, 153 So 490

(3) Boy who was injured when gun of his hunting companion was allegedly negligently discharged at time companion was in rear as the two were approaching game in single file was not guilty of contributory negligence precluding recovery on ground that boy had deliberately placed himself in position of danger in front of companion bearing loaded gun  
La—Normand v Normand, App, 65 So 2d 914

58. Mo—McLaughlin v Marlatt, 246 SW 548, 296 Mo 656  
68 CJ p 76 note 69

59. Mo—McLaughlin v Marlatt, supra

60. Ind—Sutton v Bonnett, 16 NE 180, 114 Ind 243

#### Plea held sufficient

Ala—Nelson v Lee, 32 So 2d 22, 249 Ala. 549

62. Ohio—Huber v Collins, App, 50 NE 2d 906

63. Ohio—Huber v Collins, supra.

The discharge of a firearm, resulting in an accidental or unintentional injury to the person or property of another, may constitute presumptive evidence of negligence,<sup>64</sup> and the doctrine of *ipsa loquitur* may be applicable.<sup>65</sup> While plaintiff is not required to show the manner in which the weapon was discharged, or to exclude all other possible causes to establish the causal connection between defendant's act and the injury,<sup>66</sup> he has the burden of proving the cause of action alleged.<sup>67</sup> Defendant has the burden of establishing his defense,<sup>68</sup> and when plaintiff has made out a *prima facie* case the burden of producing evidence shifts to defendant who must show justification or freedom from fault.<sup>69</sup>

General rules apply as to the admissibility<sup>70</sup> and

sufficiency<sup>71</sup> of evidence. The facts of each case must determine the quantum of evidence necessary to make a *prima facie* case of negligence in the use of a weapon.<sup>72</sup>

### e Trial

In an action to recover for injuries from the handling or use of weapons, questions of fact are for the jury under instructions which correctly state the law and are within the issues and the evidence.

In an action for damages for an injury caused by the negligent handling of a weapon, the principles of law underlying the trial of civil actions generally, particularly actions based on negligence, are applicable.<sup>73</sup> Although sometimes established as a matter of law,<sup>74</sup> the question of the defendant's

64. Ohio—Huber v Collins, supra 68 C J p 76 note 74

#### General rule not applicable

General rule that negligence is never presumed and is not to be inferred merely from fact that an accident occurred is not applicable to a situation where an injury results from the discharge of a gun in the hands of another

#### When rule inapplicable

Where a firearm discharged in the presence of others and one of them is injured, or is fired at a place where another might be, the rule requiring defendant in order to exonerate himself to show not only the discharge was unavoidable, but also that he was utterly without fault, is applicable, but it is not applicable in a case where defendant, out fox hunting, fired at a rustle in the grass, and shot plaintiff, who had concealed himself there to frighten defendant's companions, defendant

not being liable as a matter of law merely because he intentionally fired thinking the rustling was caused by a fox

negligence, and whether such negligence was a proximate cause of the injury, are ordinarily questions of fact for the jury<sup>75</sup> It is also for the jury to determine whether plaintiff was chargeable with contributory negligence,<sup>76</sup> unless the evidence is insufficient to warrant the submission,<sup>77</sup> and the question of damages may be one for the jury<sup>78</sup> An instruction should be a correct and simple statement of pertinent law,<sup>79</sup> and should be within the issues and the evidence<sup>80</sup> Instructions should avoid a tendency to mislead the jury,<sup>81</sup> or improperly to discredit the contention of a party or the probative value of his evidence.<sup>82</sup> Findings must be in accord with the evidence<sup>83</sup>

#### f. Damages

Much discretion is left to the jury in assessing damages for injuries resulting from the handling or use of weapons.

In an action to recover damages for injuries resulting from the handling or use of weapons, much discretion is left to the jury in assessing the damages<sup>84</sup> Particular awards of damages have been held not excessive<sup>85</sup> Where the weapon was

fired with wanton and reckless indifference to the consequences, punitive damages may be awarded<sup>86</sup>

#### § 30. Sale, Gift, or Loan

Civil liability for the negligent or unlawful sale, gift, or loan of weapons, and procedure in actions to enforce such liability are considered infra §§ 31, 32

Examine Pocket Parts for later cases.

#### § 31. — Liabilities

One who negligently or illegally sells, gives, or lends a weapon may be liable for resulting injuries.

A person who, in lawfully disposing of a weapon to another, is chargeable with a negligent act or omission which is the proximate cause<sup>87</sup> of an injury that is the natural and probable consequence of the negligence, is liable therefor, subject to the rules of law applicable to negligence and contributory negligence<sup>88</sup> In an action for the negligent sale of a weapon to a minor, the question of the care or negligence of the minor in the use of the weapon is immaterial<sup>89</sup> To the general

89 RI—Bernard v. Smith, 90 A 657, 36 RI 377.

rule that the negligent seller of an article is not liable to the third person who has no contractual relation with him, there is a well recognized exception in the case of articles or instruments which are inherently and imminently dangerous, as discussed in Negligence § 100 b, and such exception is applicable in the case of weapons.<sup>90</sup> A representation by the seller that an instrument such as a toy pistol is harmless refers only to the ordinary and usual uses thereof under reasonable conditions.<sup>91</sup> It has been held that one who sells a weapon knowing that it is to be given to the purchaser's sixteen-year-old son is not negligent so as to be liable for injuries resulting from its use.<sup>92</sup>

*Violation of statute or ordinance.* Where a statute or ordinance prohibits the sale, gift, or loan of firearms or other weapons, including ammunition therefor as well as toy firearms or toy weapons to minors or others, a person who illegally sells, gives, or lends prohibited weapons or ammunition with which an injury is inflicted is liable in damages to the injured person,<sup>93</sup> subject to the principles pertaining to actionable negligence,<sup>94</sup> contributory negligence,<sup>95</sup> and proximate cause.<sup>96</sup> The plaintiff's injury must be the result of a breach of a duty owed to him and must be the sort of injury the statute was intended to prevent.<sup>97</sup> The person who thus violates the law is liable for any consequence that should reasonably have been anticipated as a natural and probable result,<sup>98</sup> but the particular

casualty need not have been anticipated.<sup>99</sup>

### § 32. — Procedure

The complaint, declaration, or petition in an action against the seller of a weapon must state a cause of action, and the burden of proof is on plaintiff to establish his case. Questions of law are for the court, and questions of fact, for the jury.

The complaint, petition, or declaration, in an action for injuries caused by negligence in the sale, gift, or loan of weapons should disclose the necessary elements of actionable negligence,<sup>1</sup> it should aver that the negligence was the proximate cause of the injury,<sup>2</sup> and show that the injury should have been anticipated.<sup>3</sup> In an action grounded on the negligent or illegal sale of a weapon to a minor who has inflicted an injury therewith, the only issues being whether accused was negligent<sup>4</sup> or the sale was illegal,<sup>5</sup> and whether the injury was the natural and probable consequence of the negligence,<sup>6</sup> plaintiff must prove only what is required by those issues,<sup>7</sup> and need not aver that the minor was of such tender years that he could not appreciate the danger of his acts,<sup>8</sup> nor is it necessary to negative the want of due care on the part of such minor.<sup>9</sup> In an action for the death of one injured, defendant must plead decedent's contributory negligence.<sup>10</sup>

*Parties.* Persons whose presence is unnecessary for the complete determination of the controversy need not be joined as parties.<sup>11</sup>

10. US—Pate v Howe, DCMc, 103 F Supp 421, affirmed, Howe v Pate, CA, 199 F2d 672

#### **11. Storekeeper's wife**

In action for death of boy shot by another boy with ammunition purchased at defendant's store, motion that defendant's wife who sold the ammunition be made party defendant on ground that full determination of case could not otherwise be made, held properly denied where it was unnecessary to protect her rights or for complete determination of controversy. Idaho—Carron v Guido, 33 P.2d 345, 54 Idaho 494.

**Evidence** In an action under a statute prohibiting sales to minors it is presumed that the legislature intended that the purchasing minor and innocent third persons should be protected against the hazard of third persons firing the weapon.<sup>12</sup> The burden of proof is on plaintiff as to essential elements of his cause of action,<sup>13</sup> and on defendant as to matters of affirmative defense.<sup>14</sup> The evidence adduced on the different issues must be sufficient for the purpose,<sup>15</sup> but the necessary degree of proof is not as great as that required to sustain a conviction for the criminal offense.<sup>16</sup> The violation of the statute is in itself evidence of negligence,<sup>17</sup> and where it is claimed that the weapon has been unlawfully placed in the hands of a minor, evidence as to the appearance of the minor,<sup>18</sup> or the nature of the clothing worn by him,<sup>19</sup> is admissible as being at least some indication of his age.

**Trial** If it is doubtful whether or not a particular weapon or device is harmless<sup>20</sup> or is within the prohibition of the law,<sup>21</sup> the question is for the jury; and it is also ordinarily within the province of the jury to determine the questions of negligence,<sup>22</sup> contributory negligence,<sup>23</sup> and proximate

cause,<sup>24</sup> although under suitable circumstances these questions may be for the court.<sup>25</sup>

### § 33. Manufacture

The manufacturer of a weapon may be liable to one injured as the result of his negligence.

A firearm, in the use for which it is intended, is a dangerous instrument within the scope of the principle that, under the ordinary rules of negligence, a manufacturer of such an instrument is liable in damages for an injury resulting from the negligent use of defective materials or from want of proper care and skill in the manufacturing process.<sup>26</sup> The most that is required, however, is the production of a weapon suitable for use under the conditions existing at the time it is put on the market,<sup>27</sup> and the manufacturer is not liable where the weapon is not used in an ordinary and reasonably foreseeable manner.<sup>28</sup> Under general rules, the complaint, declaration, or petition must be sufficient to state a cause of action,<sup>29</sup> and a want of proper care and skill in the manufacture must be alleged and proved<sup>30</sup> by sufficient evidence.<sup>31</sup> The mere bursting of a firearm does not alone suffice to make the manufacturer liable.<sup>32</sup>

#### Sufficiency of evidence for jury

In action against cartridge manufacturer for loss of eyesight resulting when particle of metal from cartridge rebounded from shooting gallery backstop, evidence was sufficient to take to jury question as to whether defendant had been guilty of negligence in manufacturing and inspecting product dangerous to human life by deviating from great degree of care required of one manufacturing an explosive article  
Cal—Warner v Santa Catalina Island Co, 282 P 2d 12, 44 Cal 2d 310

32. Conn—Welshausen v Charles Parker Co, 76 A 271, 83 Conn 231  
68 CJ p 81 note 55.

**WEAR; WORN.** The verb "to wear" in one sense means to carry or bear upon the person,<sup>1</sup> and in another sense it fully covers the idea of abrasion, erosion, and deterioration as incident to use.<sup>2</sup>

*Wear and tear* The loss by wearing, as of machinery in use, the loss or injury to which anything is subjected by use, accident, etc., loss by service, exposure, decay, or injury incident to the ordinary use of a thing.<sup>3</sup>

Ordinary wear and tear applies more naturally to the gradual deterioration which results from use, lapse of time, and the operation of the elements,<sup>4</sup> but it has been held, and apparently it is the accepted doctrine, that the term will cover a specific and substantial injury suddenly sustained as the result of a structural defect.<sup>5</sup> However, ordinary wear and tear does not mean total destruction of the material, but means reasonable wear and tear by depreciation in value of the thing or material as may arise from ordinary and reasonable use.<sup>6</sup>

Leases frequently use the phrase "wear and tear," and as used in this connection the term is construed in Landlord and Tenant § 368 d (4) (g), and for other specific references see the index to that title.

*Wear of the creek* A term which has reference to the gradual and imperceptible changes in the banks of a creek by which the soil is taken from

one side of the stream and deposited on the other, and not to a sudden and violent change in the course of the stream by floods.<sup>7</sup>

**Worn.** The past participle of "wear," and hence, an adjective. It is defined as meaning showing wear or use, weakened by age, labor, worry, illness, or the like.<sup>8</sup>

"Worn" has been compared with, or distinguished from, "carried" see 13 C J S p 1764 note 37.

**WEARING APPAREL.** The term "wearing apparel" is what is known as a "bilingual pair," "wearing" coming from the Anglo-Saxon, and "apparel" from the Latin.<sup>9</sup> It is a common term used in an inclusive sense as embracing all articles which are ordinarily worn,<sup>10</sup> vesture, garments, dress, or anything that is worn by, or appropriated to, the person,<sup>11</sup> and it is sometimes defined in its popular sense as meaning all articles of dress generally worn by persons in the calling and condition of life and in the locality of the person in question.<sup>12</sup>

The term is generally applied to articles intended and adapted to be worn on the person for personal comfort or decency, and as protection against the elements,<sup>13</sup> but it may include articles worn on the person other than hats, shoes,<sup>14</sup> and what is commonly understood by the term "clothing,"<sup>15</sup> and in

68 C J p 81 note 14.

some cases it is applied to articles serving to ornament the person,<sup>16</sup> while in other cases articles of ornamentation of the person are not considered to be wearing apparel<sup>17</sup>

The term "wearing apparel" will sometimes be considered to include those articles which are reasonably proper and customary in the community in the way of ornaments,<sup>18</sup> and it sometimes will be considered to include ornamental articles which also serve some useful purpose, as for fastening the clothing<sup>19</sup>

Either because of the common law or by reason of statutes a debtor's wearing apparel is generally exempt property, as stated in Exemptions § 52, and such property is not subject to levy and sale under an execution, as stated in Executions § 19.

The specific property which will pass under a testamentary disposition of "wearing apparel" is treated in the CJS title Wills § 787, also 69 C J p 400 note 78-p 401 note 90.

**WEBSTER'S UNABRIDGED DICTIONARY.** See 26 C J S p 1302 note 87.

**WEDGE.** As a noun, a tool held in place by hand while being struck, and used for splitting rock<sup>22</sup>

As a verb, "to wedge" conveys the conception of the progressive application of mechanical force,<sup>23</sup> and has been compared with, or distinguished from, "to clamp" see 14 C J S p 1192 note 84, and "to draw" see 28 C J S p 488 note 20.

**WEDLOCK.** The ceremony or state of marriage; the relation which is derived from marriage.<sup>24</sup> It has been held to be the equivalent of "matrimony" see 57 C J S p 453 note 10

The term is frequently employed in describing an illegitimate child as a child born "out of wedlock," and in this connection see Bastards § 1 et seq.

**WEED.** A word which may be applied to any one of those herbaceous plants which are useless and without special beauty or especially which are positively troublesome<sup>25</sup> It is also defined as meaning any plant growing in cultivated ground to the injury of the crop or desired vegetation, or to the disfigurement of the place; an unsightly, useless or injurious plant, underbrush<sup>26</sup>

**WEEK.** See Time § 11.

**WEEKDAY.** See Time § 12.

**WEEKLY.** Once a week;<sup>27</sup> coming, happening, or done once a week<sup>28</sup>

### § 1. Definitions

- a "Weight" and "measure" defined
- b Other terms defined

#### a. "Weight" and "Measure" Defined

"Weight" is defined to mean the quantity of heaviness, the quality of being heavy; and "measure," as a noun, means the extent, quantity, capacity, volume, or dimensions in general of anything, as ascertained by a certain rule or standard.

The primary and ordinary meaning of the word "weight" is the quantity of heaviness, the quality of being heavy, or the degree and extent of downward pressure under the influence of gravity, or the quantity of matter as estimated by the balance or scale.<sup>1</sup>

The word "measure," as a noun, is defined to mean the extent, quantity, capacity, volume, or

dimensions in general of anything, as ascertained by a certain rule or standard, a standard or measurement;<sup>2</sup> a quantity determined by a fixed standard,<sup>3</sup> amount<sup>4</sup> Thus the measure of a thing is the prescribed limit, not to be exceeded<sup>5</sup>

As a verb, the word "measure" means to compute or ascertain the extent, quantity, capacity, or dimensions of by applying a rule or standard; take the dimensions of; compare with a fixed standard<sup>6</sup>

#### b. Other Terms Defined

Various terms of admeasurement have been considered by the courts.

*Ampere.* As a unit of electrical volume see Electricity § 1 b.

*Arpent* or *arpen*. A measure of land of uncertain quantity, mentioned in Domesday and other old

1. U.S.—Dwight & Lloyd Sintering Co v. American Ore Reclamation Co, CCANY, 263 F 315, 316, certiorari denied 40 SCt 393, 252 US 582, 64 LEd. 727—Louisville Public Warehouse Co v Collector of Customs, Ky, 49 F. 561, 566, 1 CCA 371

"Troy weight" see *infra* subdivision b of this section.

#### Dry weight

A commercial term meaning air-dry weight.

US—U S v Perkins, NY, 66 F 50, 51, 13 CCA 324

#### 2. New Standard D

#### 3. Cal—O. T Johnson Corporation

v. Los Angeles County, 17 P.2d 792, 793, 128 Cal App 440.

4. Ga.—Atlanta, K. & N. R. Co v. Bryant, 34 SE. 350, 110 Ga 247

5. Tenn—Texas Co v McCanless, 148 SW 2d 360, 363, 177 Tenn 238.

6. New Standard D. 40 C.J. p 19 note 89.

books, by some called an acre, by others half an acre, and by others a furlong<sup>7</sup> As a French measure of land, it contains one hundred square perches of eighteen feet each, or about an acre. This unit of measure was adopted in Louisiana<sup>8</sup> The term is sometimes used to indicate a unit of lineal measure<sup>9</sup>

*Avowdupois* The name of a system of weights (sixteen ounces to the pound) used in weighing articles other than medicines, metals, and precious stones, so named in distinction from the Troy weight<sup>10</sup>

*Bale* While the word "bale" is defined in 11 CJS p 380 note 99 as meaning a package, it has also acquired a special significance, importing measurement by weight rather than by cubic feet<sup>11</sup>

*Barleycorn.* In linear measure, the third of an inch<sup>12</sup>

*Barrel* In the United States a barrel, liquid measure, is usually thirty-one and one-half gallons, the exception to the rule being a barrel of petroleum which contains forty-two gallons<sup>13</sup>

*Block* When used to express a measurement of distance, the word "block" means approximately

three hundred feet,<sup>14</sup> the length of one side of a square block,<sup>15</sup> or the distance between an existing street and navigable water<sup>16</sup> The word "block," as used to signify a city block, is defined in 11 CJS p 364 notes 50-62

*Bushel* The bushel is one of the fundamental standards; a measure of capacity, and the standard of dry measure It contains four pecks or thirty-two quarts<sup>17</sup> The bushel which is in use in the United States is the so-called Winchester bushel which was employed in England prior to the adoption of the imperial bushel by that country in 1826<sup>18</sup> A bushel may be either "heaped" or "struck," the "struck" bushel is the Winchester bushel of 2,150 42 cubic inches, the volume of a cylinder eighteen and one-half inches in internal diameter and eight inches in depth,<sup>19</sup> the "heaped" bushel, used in measuring corn in the ear, potatoes, parsnips, carrots, lime, bran, and various other substances equals a Winchester bushel, plus a cone nineteen and one-half inches in diameter and six inches high placed on top of it The heaped bushel contains 2,747 7167 cubic inches<sup>20</sup> Under statutes so providing, a specified amount by weight may constitute a bushel,<sup>21</sup>

7. Ala.—McMillan v Aiken, 88 So 135, 143, 205 Ala 35

8. Ala.—McMillan v Aiken, supra  
**Various amounts indicated**

"An arpent is a land measure varying in dimension from 84 of an acre to 14 acres and to 128 acres accordingly as the arpent meant is an arpent de Paris, an arpent commun, or an arpent d'ordonnance"

Ala.—McMillan v Aiken, supra  
Mo.—Troil v City of St Louis, 168 So 167, 171, 257 Mo 626

**Smaller than acre**

"It not unfrequently happens in our state that the word 'arpent' is used when 'acre' is meant, whereas there is a considerable difference between the two, the arpent being of 192 feet, and the acre of 209 and a fraction"

La.—Randolph v Sentilles, 34 So 587, 588, 110 La 419

9. Ala.—McMillan v Aiken, 88 So 135, 143, 205 Ala 35  
5 CJS p 372 note 6 [b]

17. US.—U S v Weber, 3 Ct Cust App 19, 22, 23

18. US.—U S v Weber, supra.

**Measure prepared by Federal government**

The standard bushel measure prepared by the United States government holds 77 6274 pounds of distilled water

US.—Ceballos v U S, NY, 146 F 380, 381, 76 CCA 652

U S v Weber, 3 Ct Cust App 19, 22

Ky.—Caldwell, Hunter & Co v Dawson, 4 Metc 121, 123

**Imperial bushel**

The imperial bushel now in use in Great Britain is larger than the Winchester bushel, containing 2,218-192 cubic inches of water

US.—U S v Weber, 3 Ct Cust App 19, 22, 23

19. US.—U S v Weber, supra.

20. US.—U S v. Weber, supra

**21. Corn**

Standard weight of corn fixed at fifty-six pounds to the bushel

Vt.—Richardson v Spafford, 13 Vt 245

**Wheat, rye, or Indian corn**

The bushel shall consist of sixty pounds of wheat, and of fifty-six pounds of rye or Indian corn

NY.—Milk v Christie, 1 Hill 102, 104

**Sweet potatoes**

The weight of sweet potatoes is fixed by law at fifty-five pounds to the bushel

Ga.—Fain & Stamps v Ennis, 62 SE 466, 4 Ga.App 716.

in which event, if the weight of the commodity sold is in conformity with the statutory definition, it is not material that it measures less than the Winchester bushel<sup>22</sup> or does not fill a measure of eight gallons<sup>23</sup>

**Carat** A measure of weight for diamonds and other precious stones, equivalent to three and one-sixth grains Troy, although divided by jewelers into four parts called "diamond grains"<sup>24</sup> As a standard of fineness of gold see 12 C J S p 1142 note 55.

**Case** As used with respect to rice, fifty pounds packed in cartons<sup>25</sup>

**Centimeter-Gram-Second System** A system of units for measurement in which the unit of length is the centimeter, the unit of mass the gram, and the unit of time one second<sup>26</sup>

**Centipoise** A unit for measuring viscosity<sup>27</sup>

**Chain** A measure used by engineers and surveyors, being twenty-two yards in length<sup>28</sup>

**Chaldron** Twelve sacks of coal, each holding three bushels, weighing about a ton and a half<sup>29</sup>

**Cord** The word "cord" is of common use and, in general, of well-known and unvarying meaning, and its meaning is of even mathematical certainty<sup>30</sup> It signifies a measurement of wood containing one hundred and twenty-eight cubic feet,<sup>31</sup> or, otherwise expressed, a pile of wood eight feet long, four feet high, and four feet wide<sup>32</sup> To constitute a cord it is not necessary that wood should be in a pile that is eight feet long, four feet high, and four feet wide, and a pile of any other dimensions is

sufficient if it contains the necessary quantity.<sup>33</sup>

**Coulomb.** As a term used in the measurement of electricity see Electricity § 1 b

**Cuerda.** A unit of land measurement employed in Puerto Rico, and equivalent to .9712 of an acre<sup>34</sup>

**Cwt** As the abbreviation for "hundredweight" see 1 C J S p 276 note 5 The term "hundredweight" is defined infra p 540 notes 54-56

**Dram** A unit of weight; in apothecaries' weight, sixty grains or one-eighth of an ounce, in avoirdupois, 27 34 grains or one-sixteenth of an ounce<sup>35</sup>

**Ell.** A measure of length, answering to the modern yard<sup>36</sup>

**Farad** Defined as the unit of electrical capacity in Electricity § 1 b

**Fathom** As a unit of lineal measure, a fathom is six feet<sup>37</sup> As a unit of land measurement, the word "fathom" is to be understood as meaning a square fathom which contains thirty-six square feet<sup>38</sup>

**Foot** A measure of length containing twelve inches or one third of a yard<sup>39</sup>

**Furlong** A measure of length derived from the furrow in an ordinary field, theoretically the side of a square containing ten acres, one eighth of a mile It is one-eighth of the statute mile, that is, forty rods or two hundred and twenty yards (201 17 meters)<sup>40</sup>

**Gallon** A liquid measure containing two hundred and thirty-one cubic inches, or four quarts,<sup>41</sup> the Winchester wine gallon of two hundred and thirty-

41. La—Corpus Juris quoted in State v Standard Oil Co of Louisiana, 178 So 601, 607, 188 La. 978 27 C J p 939 note 11

**Similarly defined**

The word "gallon" is defined as the volume of two hundred and thirty-one cubic inches (equivalent to 3-7853 liters) and is the same as the old English wine gallon

La—State v Standard Oil Co of Louisiana, 178 So 601, 607, 188 La. 978.

one inches,<sup>42</sup> the gallon of commerce, which is the wine gallon;<sup>43</sup> the standard gallon of the United States<sup>44</sup> It is this gallon which is used as a unit of liquid measure under the tariff acts, see Customs Duties § 124 b (2), and Internal Revenue § 534 b

The dry or corn gallon is the old English unit of measurement which has fallen into practical disuse.<sup>45</sup>

*Gall.* A liquid measure of one-eighth of a quart; in the United States 7 219 cubic inches<sup>46</sup>

*Gram.* In Troy weight, the twenty-fourth part of a pennyweight<sup>47</sup>

*Gramme.* The unit of weight in the metric system, the weight of a cubic centimeter of distilled water at the temperature of 4° centigrade It is equal to 15 4341 grains troy, or 5 6481 drachms avoirdupois.<sup>48</sup>

*Gross* The number of twelve dozen; twelve times twelve<sup>49</sup>

*Hogshcad* A measure of capacity containing the fourth part of a ton, or sixty-three gallons, a large cask, of indefinite content, but usually containing from one hundred to one hundred and forty gallons.<sup>50</sup>

*Horse power.* A unit which measures work done and weight carried,<sup>51</sup> and it is an arbitrary unit for the measurement of the rate at which a prime motor works<sup>52</sup> It is a unit of power capable of lifting

thirty-three thousand pounds a foot a minute.<sup>53</sup>

*Hundredweight* A weight commonly reckoned in the United States, and for many articles in England, at one hundred pounds avoirdupois<sup>54</sup> The term is commonly used in England to signify a weight of one hundred twelve pounds,<sup>55</sup> and at one time in this country the term had a common meaning as designating, not the twentieth part of a ton, but one hundred twelve pounds<sup>56</sup> The abbreviation for "hundredweight" is "Cwt" as set out in 1 C.J.S. p 276 note 5

*Inch.* The American standard of linear measure<sup>57</sup> A measure of length, containing one-twelfth part of a foot, originally supposed equal to three barleycorns<sup>58</sup> As measured by the metric system, two and fifty-four hundredth centimeters<sup>59</sup>

*Iron.* A unit of measurement of the thickness of shoe soles, equal to one forty-eighth of an inch<sup>60</sup>

*Joule* Defined see Electricity § 1 b.

*Kilderkin* A measure of eighteen gallons<sup>61</sup>

*Kilogram* The word "kilogram," the accepted abbreviation of which is "kilo" as stated in 1 C.J.S. p 276 note 5, is the designation of a unit of weight in a system not commonly used in this country, although the system is well known and understood<sup>62</sup> "Kilogram" is defined as, in the metric system, a unit of mass (or weight), originally defined as

the mass of one cubic decimeter of water at its maximum density, but now, practically, as the mass of a certain piece of platinum preserved in the archives of the International Metric Commission at Paris, equaling 220462125 pounds, or 15,432 35 grains <sup>63</sup>

**Kilovolt.** The unit of electromotive force as stated in Electricity § 1 b

**Kilowatt.** A unit of power as defined in Electricity § 1 b.

**Knot.** While the word "knot" is frequently used interchangeably with "mile" as that term is used to signify the unit of measurement of distances at sea which is variously known as the "marine mile," "sea mile," or "geographical mile," as stated infra p 542 note 79, the word "knot" is also commonly used in admiralty cases to denote rate of speed,<sup>64</sup> and thus is defined to mean a speed of a nautical mile in an hour <sup>65</sup>

**Lace.** A term widely used in Cornwall to denote a measure of land equal to one pole <sup>66</sup>

**Litre** A measure of capacity in the metric system, being a cubic decimeter, equal to 61,022 cubic inches, or 2113 American pints, or 176 English pints <sup>67</sup>

**League.** A measure of distance of great antiquity, varying in different countries from about 242 to 46 English statute miles, now used on land chiefly on the continent of Europe, in Spanish America, and in the portion of the United States acquired from Mexico <sup>68</sup> It is sometimes employed as a unit of measure of superficial area, and in Texas land grants a "league" was equal to 4,428 acres <sup>69</sup> A "marine league," in English-speaking countries, is estimated at three miles,<sup>70</sup> three geographical miles or three sea miles <sup>71</sup>

**Mark** A unit of weight, most commonly used in measuring gold and silver <sup>72</sup>

**Metre.** The unit of measure in the metric system of weights and measures. It is a measure of length, being the ten-millionth part of the distance from the equator to the north pole, and equivalent to 39 37 inches From this unit all the other denominations of measure, as well as of weight, are derived <sup>73</sup>

**Metric system** A system of measures for length, surface, weight, and capacity, founded on the metre as a unit. The system originated in France, and was adopted by law there in 1795. It has also been adopted by law in other countries, and is recommended for general use by other governments <sup>74</sup>

**Micron** A unit of measure equal to  $\frac{1}{25000}$  of an inch <sup>75</sup>

**Mile** The word "mile" is defined generally to mean a measure of distance and of surface in the United States, Great Britain, and Ireland, and in all British possessions, remotely derived from the Roman mile, which was about sixteen hundred and twenty English yards <sup>76</sup> The word has two meanings, and may signify a unit of measure on land or it may denote a unit of measure of the sea <sup>77</sup> The statute or English mile was adopted as the standard of land measurement in the 35th year of the reign of Elizabeth, 1593, and measures five thousand two hundred and eighty feet <sup>78</sup> At about the same time that the statute or English mile was adopted as the standard of land measurement, the log came into use in England for measuring distance at sea, and the unit of measurement was variously known as the "marine mile," "sea mile," "geographical mile," or "knot," measuring six thousand and eighty-six and seven-tenths

feet on the sea, on the scale of sixty geographical or sea miles to a degree <sup>79</sup>

*Minute* As a unit of angular measure, a "minute" is the sixtieth part of a degree <sup>80</sup> As a division of time see Time § 2, and in its less precise sense as indicating a small portion, or a short space of time see 58 C J S p 809 notes 51, 53

*Ohm*. Defined in Electricity § 1 b as the unit of resistance.

*Ounce* A weight of various countries and values, originally the twelfth part (uncia) of the Roman pound, in avoirdupois weight, the sixteenth part of a pound; in troy and apothecaries' weight, the twelfth part of a pound <sup>81</sup>

*Pace*. A measure of length containing two feet and a half, being the ordinary length of a step The geometrical pace is five feet long, being the length of two steps, or the whole space passed over by the same foot from one step to another <sup>82</sup>

*Pennyweight*. A Troy weight, equal to twenty-four grains, or one twentieth part of an ounce <sup>83</sup>

*Perch* As a unit of measure, the word "perch" has several different meanings As a measure of length, a perch varies locally in different countries, as in France from eighteen to twenty-two paces, but by statute in Great Britain and the United States it is equal to five and one-half yards, or sixteen and one-half feet, a rod, or pole <sup>84</sup> In square measure a perch is a square rod <sup>85</sup> In measuring

masonry or stone, a perch is usually twenty-four and three-quarters cubic feet (five and one-half yards by one foot by one and one-half feet), but by statute in several states a perch is twenty-five cubic feet, and in a few states it is sixteen and one-half cubic feet <sup>86</sup>

*Picul* A commercial weight, ordinarily one hundred and thirty-three and one-half pounds <sup>87</sup> As used in the Philippine Islands for sugar, a picul was 139 44 pounds <sup>88</sup>

*Pint*. A United States and British dry and liquid measure, equal to one-half a quart or one-eighth of a gallon in British apothecaries' measure divided into twenty fluid ounces, and in the United States into sixteen <sup>89</sup>

*Pocket* A measurement of rice in the amount of one hundred pounds <sup>90</sup>

*Pole*. A linear and surface measure; a perch or rod <sup>91</sup>

*Pound* The word "pound" is the designation of a unit of weight in the system in most common use in this country <sup>92</sup> The symbol "#" means a pound. <sup>93</sup>

*Quart* A measure of capacity both in dry and liquid measure, <sup>94</sup> the quart of dry measure containing sixty-seven and two-tenths cubic inches, <sup>95</sup> the eighth part of a peck, <sup>96</sup> the liquid quart containing fifty-seven and seventy-five hundredths cubic inches, <sup>97</sup> the fourth part of a gallon <sup>98</sup>

"Avoirdupois pound" see supra p 538 note 10

Origin

"The old or original English pound was derived from the weight of 7,680 grains of wheat, all taken from the middle of the ears and well dried hence, 'grains' form the lowest fractional parts of a pound This continued to be the standard pound from William the Conqueror to Henry VIII, in whose reign the avoirdupois pound of 7,000 grains gradually came into use, in the reign of Elizabeth this was established by law, and has continued to be the standard The avoirdupois pound of 16 ounces is employed in the United States and in England in the weigh-

ing of all ordinary commercial commodities, the troy pound of 12 ounces, 5,760 grains, or more commonly its fractions, is the measure employed for weighing bullion, jewels, etc The troy pound and ounce are used by United States pharmacists in filling medical prescriptions, while the weights used by those of Great Britain are the imperial or avoirdupois pound, ounce, and grain The standard British pound at present is a piece of platinum preserved in the office of the Exchequer, at the temperature of 62° Fahr A number of authorized duplicates of it have been made and deposited at several institutions"

**Quarter** In American land law, a quarter section of land <sup>99</sup>

**Sack** A term which is sometimes used to signify a measure of quantity,<sup>1</sup> a measure of capacity, being the quantity contained, or supposed to be contained, in a sack<sup>2</sup> In the United States the sack is not a fixed measure, but, on the average, is three bushels or a little more<sup>3</sup>

**Second** A unit of angular measure, equal to one-sixtieth of a minute of arc<sup>4</sup> As a division of time see Time § 2, and as a term used to express a short interval of time and not in the precise sense see 79 C J S p 933 note 79

**Section** It is stated *infra* p 545 note 44 that a "township" is a division of territory six miles square, containing thirty-six sections Thus a section of land, as a subdivision of a township, is one mile square, and usually contains six hundred and forty acres<sup>5</sup> Sections are commonly divided into half-sections and quarter-sections<sup>6</sup>

**Square** The word "square," as used to indicate measure or distance, is generally defined to mean a block,<sup>7</sup> a piece of land defined by streets surrounding it,<sup>8</sup> a portion of a city bounded on all sides by streets or avenues,<sup>9</sup> a portion of ground

in a town or city surrounded by streets,<sup>10</sup> or a subdivision of a city or town inclosed by streets,<sup>11</sup> whether occupied by buildings or composed of vacant lots,<sup>12</sup> a subdivision of territory bounded on all sides by principal streets,<sup>13</sup> the territory bounded by four streets<sup>14</sup>

Phrases employing the word "square" in the sense of measurement are set out in the note <sup>15</sup>

**Ton** The word "ton" may be used to express either a ton of weight or a ton of measurement, and in each instance the same word is employed, but in each instance it is used in a sense and with a meaning quite different, and there is no identity, or even similarity, between the two <sup>16</sup>

When used to express weight, a ton is a certain weight in pounds,<sup>17</sup> and the weight may be two thousand pounds,<sup>18</sup> twenty hundredweight, with the hundredweight consisting of one hundred pounds,<sup>19</sup> or it may be two thousand two hundred and forty pounds,<sup>20</sup> twenty hundredweight, with the hundredweight consisting of one hundred and twelve pounds<sup>21</sup> The ton of two thousand pounds is known as the "short" ton,<sup>22</sup> while the ton of two thousand two hundred and forty pounds is known as the "gross"<sup>23</sup> or "long" ton<sup>24</sup> If the ton is

fixed by statute at two thousand pounds it is sometimes referred to as the "statutory ton."<sup>25</sup>

In nautical terminology and in commerce the word "ton" has several meanings,<sup>26</sup> the term being commonly used to signify the weight or space by which the burden of a ship is estimated.<sup>27</sup> Thus a ton is a unit of internal capacity for ships; one hundred cubic feet (28307 cu. m),—called specifically "register ton."<sup>28</sup> The term is also used to signify a unit approximately equal to the volume of a long ton weight of sea water, used in reckoning the displacement of vessels, especially war vessels; thirty-five cubic feet; called specifically "displacement ton."<sup>29</sup> The word "ton" is also used to signify a unit of volume for freight, approximate-

ly the volume of a ton weight of the particular commodity, called specifically "shipping ton,"<sup>30</sup> and thus it has been said that in measurement a ton is forty cubic feet.<sup>31</sup>

**Tonnage** The term "tonnage" has a variety of meanings,<sup>32</sup> and it may signify the capacity of a ship or vessel<sup>33</sup> or it may mean duties paid on the tonnage of a ship or vessel,<sup>34</sup> such duties commonly being called "tonnage duties."<sup>35</sup>

"Tonnage" is a well-understood commercial term in America,<sup>36</sup> signifying the internal cubic capacity of a vessel<sup>37</sup> in tons of one hundred cubic feet each,<sup>38</sup> the cubical tons or burden of a ship in tons, or the amount of weight which one or several ships will carry,<sup>39</sup> the number of tons bur-

den the ship will carry as estimated and ascertained by the official admeasurement and computation prescribed by the public authority<sup>40</sup> Also the contents of the vessel expressed in tons, each of one hundred cubical feet<sup>41</sup> The word has long been an official term, intended originally to express the burden that a ship would carry, in order that the various dues and customs levied on shipping might be imposed according to the size of the vessel, or rather in proportion to her capability of carrying the burden<sup>42</sup> Hence the word, as applied to a ship, has become almost synonymous with that of size<sup>43</sup>

**Township** In one sense the word "township" signifies a division of territory six miles square, containing thirty-six sections<sup>44</sup> In a different sense, the term signifies a division of a county, and is defined as such in Towns § 3

**Troy** Pertaining to or designating the system of weights (troy weights) commonly used in England and the United States for gold, silver, etc., so named from Troyes in France In this system one pound is equal to twelve ounces, one ounce is equal to twenty pennyweights, and one pennyweight is equal to twenty-four grains The ounce, however, is now preferably divided decimally for weighing bullion The troy pound thus contains five thousand seven hundred sixty grains. The troy pound, or more correctly the troy ounce, is also the basis of apothecaries' weight<sup>45</sup>

**Vara** A Spanish and Portuguese measure of length and surface.<sup>46</sup> As a measure of length, the

standard vara of Mexico is approximately thirty-three inches<sup>47</sup>

**Volt.** Defined as the unit of electromotive force in Electricity § 1 b

**Watt** As a term of electrical measurement see Electricity § 1 b.

**Yard.** A measure of length equalling three feet, or thirty-six inches, the standard of English and American lineal measure<sup>48</sup> The yard is not only a unit of lineal measure; it is also used as a unit of superficial measure, and it is also a unit used to measure a solid<sup>49</sup> When applied to a surface, a "square yard" is a unit of superficial measure,<sup>50</sup> and is equivalent to nine square feet.<sup>51</sup> The term "cubic yard" is well known, and means twenty-seven cubic feet<sup>52</sup>

## § 2. Regulation

As shown infra §§ 3-4, the regulation of weights and measures generally or with respect to the sale of particular commodities is a proper subject of legislative action, and within the police power of the state

Examine Pocket Parts for later cases.

## § 3. — Of Weights and Measures

The regulation of weights and measures is a proper and necessary subject of legislative action, and a valid exercise of the police power

Experience in all ages of the world has shown that the regulation of weights and measures is a

49. Ky—Louisville v. Hyatt, 2 B. Mon 177, 182, 36 Am D 594

50. Ky—Louisville v Hyatt, supra.

### Signifying cubic measure

"When applied to a solid, it [square yard] might and generally would import solid measure or a yard every way, according to the subject of measurement, and, therefore, as an excavation of unascertained extent in depth was the subject matter of the contract in this case, the 'square yard,' though abstractly it would mean a superficial yard, may have been, and probably was, intended to mean, synonymously with cubic yard, the square yard or yard every way of the solid contents of the excavated ground"

Ky—Louisville v Hyatt, supra

51. New Standard D, sub verbo "Measure"

52 Pa—Corcoran v. Chess, 131 Pa. 356, 18 A 876, 877.

proper, and even necessary, subject of legislative action<sup>53</sup> Under the constitution of the United States, art 1, § 8, congress is given power to establish uniform weights and measures. In the absence of an exercise of this power, while there is some authority to the contrary,<sup>54</sup> it has very generally been held that the several states may, for themselves, regulate weights and measures<sup>55</sup> Under a resolution of the senate adopted May 29, 1830, standards of weights and measures were prepared for the use of the customhouses<sup>56</sup> and by joint resolution adopted June 14, 1836, the secretary of the treasury was directed to deliver to the governor of each state of the Union a complete set of these weights and measures to the end that a uniform standard of weights and measures might be established throughout the United States,<sup>57</sup> and in some of them they have been adopted and continued in force as the standards of the state<sup>58</sup> Some of the states have exercised the power of regulating weights and measures by standards established by statute<sup>59</sup> or by the common law of the state<sup>60</sup> Legislation adopting and compelling the use of a uniform system of weights and measures is in the nature of police regulation<sup>61</sup> The enactment thereof is a valid exercise of the police power,<sup>62</sup> and such statutes are not unconstitutional<sup>63</sup> So it is within the police power of the state to require a dealer to weigh his commodity in the presence of the buyer,<sup>64</sup> or to forbid the sale of a table of values to be made part of a self-computing scale to be used in retailing meat, where such table, in cases

of certain weights and prices, indicates erroneously at a too high figure the value of an article sold,<sup>65</sup> and the danger of short weight is sufficient to warrant regulation of automatic vending machines<sup>66</sup> As the statutes have for their purpose the protection of the purchasing public by the elimination of deceptive methods in the marketing of products, they are to be liberally construed<sup>67</sup>

#### § 4. — Of Sales of Particular Commodities

- a In general
- b. Weighing, measuring, or surveying by public officer
- c Sale by weight
- d. Sale in quantities of designated weights or sizes
- e Standard containers
- f Furnishing ticket or certificate showing weight

##### a. In General

Reasonable regulations for retailers of particular commodities in respect of weights and measures may be made, and labels or tags of a certain description may be required to be affixed to containers or certain commodities on a sale thereof

Reasonable regulations for retailers of particular commodities in respect of weights and measures may be made,<sup>68</sup> and labels or tags of a certain description may be required to be affixed to packages or containers of certain commodities on a sale thereof<sup>69</sup>

69. NY—People v Armour & Co., 162 NYS 621, 176 App Div 161.  
68 CJ. p 155 note 22

The provision requiring weight of coal to be shown on side of truck transporting coal, but excepting deliveries which were part of a carload delivery to a single purchaser did not apply to transportation of coal by dealer direct to his own yard, since such transaction was in the same category as a delivery of

### b. Weighing, Measuring, or Surveying by Public Officer

Under some statutes commodities therein enumerated are required to be weighed, measured, or surveyed by officers provided for that purpose, and such statutes are constitutional

Under some statutes enacted for the protection of the public in business dealings, commodities therein enumerated, such as coal, coke, cordwood, lumber, and shingles are required to be weighed, measured, or surveyed by officers provided for that purpose, and, for a violation thereof, penalties are imposed on the seller or buyer, or on both<sup>70</sup> Such provisions are constitutional,<sup>71</sup> at least as applied to sales directly to a consumer,<sup>72</sup> being a valid exercise of the police power<sup>73</sup>

### c. Sale by Weight

Under some statutes designated commodities are re-

quired to be sold by weight, and such statutes are not unconstitutional.

Under some statutes designated commodities are required to be sold by weight, and violation thereof is a criminal offense or a ground for imposing penalties<sup>74</sup> A statute requiring poultry retailers to sell table dressed poultry at a weight and price to be determined at the time of sale is not unconstitutional<sup>75</sup>

*Deduction by reason of rule of board of trade*  
It has been held that a statute providing that every sale of commodities therein designated shall be made on the basis of the actual weight thereof and making criminal any deduction by the purchaser from the actual weight, under a claim of right by reason of any custom or rule of a board of trade, is a valid exercise of the police power of the state,<sup>76</sup> and not

an entire carload sold to one purchaser

NY—Marquardt v. Castoro, 68 NYS 2d 327

#### Substantial compliance

Where 151½ pounds of rope was sold in container which was marked "154 lbs gross—3 lbs tare" and which bore tax which recited "gross weight, 154 lbs", there was substantial compliance with statute penalizing sale of a commodity in a container without indicating the net contents of the container plainly and conspicuously on the outside or top

NY—People, on Complaint of Goldsmith, v Masback Hardware Co, 22 NYS 2d 987, 175 Misc 177

#### Forfeiture proceedings

In action by state to forfeit concentrated commercial feeding stuff on the ground that it was without a registered brand and that sacks containing it had no tags or labels specifying the number of net pounds, name and address of vendor or distributor, and a guaranteed analysis of the contents, as required by statute, dismissal of the action was not an abuse of discretion under the evidence

Quantity to be delivered on sale by weight or measure see Sales § 173

#### Statutes reconciled

Statute providing for punishment of "whoever knowingly sells and delivers any coal, except at the weight and measure prescribed by law" was not repealed by subsequently enacted provision which denounces as a misdemeanor the sale of any property by a false weight, and hence short sales of coal are governed by former statute

Ala—Woodard v State, 3 So 2d 530 second case, 241 Ala 557, certiorari denied 3 So 2d 530, third case, 241 Ala 556—Woodard v State, 3 So 2d 530, third case, 241 Ala 556 certiorari denied 3 So 2d 530, second case, 241 Ala 557

75. Cal—Cresci v Brock, App, 225 P 2d 685, hearing dismissed

**Statute held not unconstitutional as against objections**

That it requires change in cus-

tomary way of conducting retail poultry business, that statute discriminates between retailer and seller of other foods, including meat products, or between retailer and wholesalers selling direct to customers, that statute prohibits sale other than by live weight, dressed weight, or table dressed weight, that it requires retailers to weigh package at time of sale, that statute permits cleaning and dismembering of table dressed poultry in absence of customer, that purpose of statute was protection of customer so that he might know exact price paid for poultry delivered to him, that legislature has not seen fit to require weight of meat and fish to be determined after removal of inedible portions, that other sections of Business and Professions Code deal with selling at false weights, and that purpose of act is to make detection of false weighing possible  
Cal—Cresci v Brock, supra

#### General welfare of public

A statute which ensures that a person may know the exact weight of the commodity he is receiving is one which comes within the legislative power to enact laws to protect public health, safety, morals, comfort, convenience or general welfare

Cal—Cresci v Brock, supra

#### Showing of prior false weighing unnecessary

Legislature can determine the possibility of providing for protection of customer against probability of false weighing and it is not necessary that there be a showing that retailers have actually engaged in any false weighing

Cal—Cresci v Brock, supra

76. US—House v Mayes, Mo, 31 S Ct 234, 219 US. 270, 55 LEd 213.

a violation of the organic law.<sup>77</sup> Such a statute, however, has no application to a deduction and withholding of payment in a settlement between a buyer and seller on a sale all the legal constituents of which were consummated in another state, although the commodity sold at no time left the state in which the statute was in force.<sup>78</sup>

*Sale by weight, dry measure, or numerical count*

A statute providing that all dry commodities, when sold in bulk or from bulk, shall be sold by weight, dry measure, or numerical count is not violated by the sale of chickens at an established price per chicken.<sup>79</sup> A statute providing that all fruits, vegetables, nuts, meats, fish, game, flour, corn meal, and chopped feed shall be sold by avoirdupois weight or numerical count, unless by agreement in writing of all contracting parties, and making any sale or offer to sell in violation of the statute a misdemeanor, is an unreasonable and burdensome obligation on persons engaged in a lawful business and is an unwarranted exercise of the police power<sup>80</sup> and in violation of a constitutional provision declaring that all men have certain inalienable rights, among which are those of enjoying and defending life and liberty, and acquiring, possessing, and protecting property.<sup>81</sup>

**d. Sale in Quantities of Designated Weights or Sizes**

Statutes or regulations may require certain commodities to be sold in quantities, the sizes or weights of which are therein prescribed, but arbitrary discrimination cannot be permitted.

Statutes or regulations may require certain commodities to be sold in quantities, the sizes or weights of which are therein prescribed,<sup>82</sup> but arbitrary discrimination not bearing a reasonable relation to the prevention of profiteering cannot be permitted.<sup>83</sup>

A statute which fixes the weight of a loaf of bread and makes it an offense to sell bread other than by the whole, half, or quarter loaf containing the full weight required unless labeled with the true weight is not unreasonable or oppressive<sup>84</sup> and is a valid exercise of the police power,<sup>85</sup> but, while the police power of the state may be exerted to protect purchasers from imposition by sale of short-weight loaves,<sup>86</sup> this power cannot be exerted in such a way as arbitrarily to interfere with private business, or prohibit lawful occupations, or impose unreasonable and unnecessary restrictions on them.<sup>87</sup> Thus, the fixing of a maximum weight

87. US—Jay Burns Baking Co v. Bryan, supra.

for each size or class of loaves of bread is not unreasonable or unconstitutional,<sup>88</sup> unless the maximum complained of is unnecessary and arbitrary,<sup>89</sup> and an act establishing a standard loaf of bread and authorizing a designated administrative officer of the state to prescribe reasonable tolerances or variations in excess of, but not under, the specified weights, and the time for which the weights shall be maintained is not invalid.<sup>90</sup> Tolerances, when established under such a statute, are made the legal tolerances of the state by force of statute and remain in force until changed or repealed by competent authority.<sup>91</sup> Where such statute provided that it does not apply to "fancy breads," but does not define the quoted term, the act is not unconstitutional although impliedly authorizing a designated officer to ascertain what is covered by the term.<sup>92</sup> Such a statute, although imposing fines for violations thereof, is not objectionable as prescribing punishment in the absence of fault.<sup>93</sup>

*Who are liable.* A corporation as well as a natural person is a "person" within the meaning of these statutes.<sup>94</sup>

#### e. Standard Containers

Congress has power to fix a standard of sizes for hampers and baskets for different uses, and a state has power to prescribe standard containers for particular commodities; but failure of a statute prescribing standard capacities for containers expressly to permit manufacture of containers of a certain capacity does not prohibit it.

Under the constitutional provision authorizing

congress to establish uniform weights and measures, congress has power to fix a standard of sizes for hampers and baskets for different uses, such as fruits and vegetables.<sup>95</sup> A state has the power to prescribe standard containers for particular commodities, such as raspberries and strawberries,<sup>96</sup> citrus fruits,<sup>97</sup> or milk,<sup>98</sup> and the legislature may itself or through a subordinate administrative body determine the necessity of providing such containers and whether they should be made mandatory.<sup>99</sup> Accordingly, such administrative body may make a valid order requiring the use of hallowcks of specified dimensions<sup>1</sup> or containers of a standard maximum capacity,<sup>2</sup> but failure of a statute prescribing standard capacities for containers expressly to permit manufacture for sale of containers of a certain capacity does not prohibit it,<sup>3</sup> and a statute declaring that bottles used for the sale of milk and cream shall be of specified capacities does not prohibit use of bottles of a different capacity when the measure is in fact true.<sup>4</sup> Words in a statute prohibiting the manufacture of hampers not complying with the statute setting out standard specifications must be given the meaning naturally attributable to them, with respect to the connection in which the words are used.<sup>5</sup>

There are no constructive offenses provided by such statute, and before a manufacturer may be punished, it must appear that his case is plainly within the statute.<sup>6</sup> An indictment charging the manufacture and sale of two-quart metal hampers for fruits and vegetables contrary to standard spec-

6. US—U S v Resnick, supra.

Acts held not punishable

Manufacture for sale and sale of two-quart metal hampers for fruits and vegetables is not punishable as a crime under statute prescribing standard capacities for containers, since statute prescribes standard capacities for no containers of capacity less than four quarts  
US—U. S. v. Resnick, supra.

ifications prescribed by statute must be construed to charge merely the manufacture and sale of hampers each of a capacity of two quarts, one-sixteenth of a bushel.<sup>7</sup> An indictment charging violation of statutes fixing the capacities of bottles used for the sale of milk by using a one-third quart bottle for the sale of milk to a named person has been held in conformity with the statutes as to form and substance.<sup>8</sup>

A libel against a quantity of hampers for fruits and vegetables alleging that the hampers are not standard containers for such commodities as provided by statute, and that they were being sold and being offered for sale, is not subject to exception because of failure to allege that they were sold or offered for sale in interstate commerce,<sup>9</sup> or as failing to show that the hampers were sold or offered for sale for use as containers for fruits and vegetables.<sup>10</sup>

#### f. Furnishing Ticket or Certificate Showing Weight

Under some statutes requiring the seller of coal to deliver a ticket or certificate showing the weight to the purchaser, a noncompliance is an offense, or a penalty is imposed. Such statutes are intended to protect purchasers, and being penal, must be strictly construed.

Under some statutes requiring the seller of coal to deliver a ticket or certificate showing the weight to the purchaser a noncompliance with this requirement is an offense<sup>11</sup> or a penalty is imposed therefor,<sup>12</sup> and under some statutes where coal of several sizes is carried in separate bins or compartments on the truck, a single weight certificate giv-

ing the gross weight of the load is not sufficient.<sup>13</sup> A statute providing that no person shall deliver, or cause to be delivered, or to be started out for delivery any solid fuel without weight certificates as therein provided does not prohibit transportation or possession of solid fuel without accompanying weight certificates, and the offense provided for in the statute cannot, therefore, occur in a county through which a coal truck merely passes after starting out for delivery and before actual delivery,<sup>14</sup> although it seems that the weight must be taken and the certificate furnished at the beginning of the act of transportation or delivery.<sup>15</sup> The conduct prohibited by the statute is the transfer of physical control over solid fuel from the seller to the buyer unless a certificate is presented, regardless of the geographical point at which the transfer occurs.<sup>16</sup> The statutes are intended to protect purchasers,<sup>17</sup> and should be construed so as to render enforcement possible and practical,<sup>18</sup> but, being penal statutes, strict construction is required.<sup>19</sup> Where the title of the statute is "An act to regulate the sale and delivery of solid fuel," it does not apply to the delivery of coal as a gift.<sup>20</sup> The statutes apply not only where the sale is made to the ultimate consumer, but also where made to a retail dealer.<sup>21</sup> Failure to deliver the ticket for the coal is a violation of the statute, although full weight was delivered.<sup>22</sup> Where the statute providing for the penalty does not prescribe the mode in which it shall be recovered, it may be recovered in an action of tort;<sup>23</sup> and it is not necessary to allege that the act was done against the form of the stat-

ute.<sup>24</sup> In a prosecution for delivering coal unaccompanied by the certificate, testimony as to the dealers' understanding of what is meant by the term "delivery" as used in the statute is irrelevant, since the meaning attached to the word by the legislature, and not by the dealers, is the lodestar of construction.<sup>25</sup>

## § 5. Inspectors or Sealers of Weights and Measures

Under some statutes provision is made for inspectors or sealers of weights and measures to protect the public by seeing that the measure in weight and bulk by which sales and purchases are made corresponds with the standard, and such statutes are controlling as to the powers and duties of the inspectors and sealers.

Under some statutes provision is made for inspectors or sealers of weights and measures to protect the public by seeing that the measure in weight and bulk by which sales and purchases are made corresponds with the standard.<sup>26</sup> Such statutes are controlling as to the powers to be exercised by the inspectors or sealers<sup>27</sup> and the duties which they are required to fulfill.<sup>28</sup> Although under some statutes inspectors and sealers are public officers,<sup>29</sup> under others they are regarded as mere employees,<sup>30</sup> and they are state or local officers or employees, as the statutes may provide.<sup>31</sup>

*Appointment, removal, revocation, and discontinuance of office* The officers or tribunals or bodies by whom the appointment shall be made is a matter of local statutory regulation.<sup>32</sup> Inspectors

or sealers may be removed peremptorily without cause by the appointing power where it is so provided by organic law,<sup>33</sup> or by the legislation not in contravention of organic law,<sup>34</sup> but the rule is otherwise where the statute provides that they shall serve continuously during good behavior and shall be removed only for good and sufficient cause after an opportunity for a hearing is given.<sup>35</sup> They may be discharged for cause in accordance with statutory provision therefor,<sup>36</sup> and where power of removal for cause is vested in the governor of the state, he is the sole judge of the existence of the cause for removal and his action of removal is final and irreversible by the courts.<sup>37</sup> The status of one duly appointed inspector by a mayor is not affected by subsequent legislation vesting the power of appointment in another in the absence of clear and unambiguous direction that prior appointments were invalidated and revoked,<sup>38</sup> and where by statute it is made optional with a mayor whether or not there shall be a sealer of weights and measures, and the term of the latter is made coextensive with the mayor appointing him, the office may be discontinued by the mayor by refusing to name a successor and by removing a holdover appointee of a previous administration,<sup>39</sup> and this is so notwithstanding the council has fixed the compensation and bond of the officer and that he has passed a noncompetitive civil service examination.<sup>40</sup>

*Compensation.* The legislature may fix the compensation or fees to be paid for the services of in-

### Purpose is to protect both seller and public

SC—Hay Cotton Co v McLeod, 193 SE 438, 185 SC 127

58. Pa—Commonwealth v. Chalfant, 40 A 2d 153, 156 Pa Super 307, affirmed 42 A 2d 587, 352 Pa. 193

59. NC—Moose v Barrett, 27 SE 2d 532, 223 NC 524.

statute providing criminal sanctions for willful and wanton failure to comply with the statute<sup>60</sup> One not elected to office as a public weigher of a city pursuant to the provisions of the statute covering that vicinity cannot claim the privileges conferred by this statute where he was elected under a statute void as being special legislation<sup>61</sup> A public weigher who uses scales which have not been tested and sealed as provided for by statute is not entitled to a fee fixed by law for weighing the commodity,<sup>62</sup> and this is so although his inability to comply with the statute was due to the default of the secretary of state and the clerk of the county court<sup>63</sup> Under a statute empowering the state to enforce regulations relating to the weighing of coal shipped in carload lots except coal shipped for one's own use or consumption, the state is not entitled to recover fees for weighing coal loaded for transportation at the dock of the shipper and unloaded at the shipper's retail yard in another city.<sup>64</sup>

**Care and skill required** Public weighers hold themselves out to the public as skilled and careful in their calling, and in assuming the task of weighing, assume a duty to weigh carefully for the benefit of all whose conduct is to be governed, and if they fail in this duty they are liable in resulting damages.<sup>65</sup> One who is not in a public position as a weighmaster, bound to weigh for all persons, but who has scales designed to weigh heavy articles, and does such weighing for fees, for those who desire it, is bound to use only reasonable diligence to know that his scales are correct and reasonable care to avoid mistakes in using them.<sup>66</sup>

**Liability for loss of commodities weighed** It has been held that a delivery of commodities to a public weigher is not a bailment either gratuitous or otherwise, and if, for his own convenience, the owner leaves the commodities on the platform where they

are weighed and they are lost the weigher is not liable to the owner for such loss<sup>67</sup> According to other authority also holding the weigher not liable, the doctrine of bailment will not be distended so as to cover the period of the bailment other than from the time the commodity was delivered for weighing and its placement, after being weighed, on the platform with other goods of the dealer.<sup>68</sup>

**Duration of term, and removal of deputy.** Where the law provides for no particular duration of the term of a deputy public weigher, his appointment is for a term coextensive with the tenure of office of the weigher who appointed him, unless the appointment is revoked or otherwise nullified,<sup>69</sup> and the power of the weigher to appoint his deputy impliedly gives him the power to remove the deputy at will.<sup>70</sup>

**Liability of weigher for acts of deputy.** Where it is so provided by statute, public weighers and their bondsmen are liable for the errors or misconduct in office of deputy weighers resulting in any injury<sup>71</sup>

#### b. Exclusiveness of Right Given Public Weigher

Although there is some authority to the contrary, it is held that the legislature may validly enact statutes providing that only public weighers shall weigh designated commodities and receive compensation therefor, and issue certificates of weights, but the authority for the prohibition or abridgement of the business of private weighing must rest in some positive, valid, and legal inhibition.

While there is some authority to the contrary,<sup>72</sup> it has been held that the legislature may validly enact statutes providing that only public weighers shall weigh designated commodities and receive compensation therefor,<sup>73</sup> and issue certificates of weights,<sup>74</sup> and make it a misdemeanor for one other than a public weigher to weigh such commodities<sup>75</sup> and issue certificates of weights.<sup>76</sup> Legislation so providing is valid,<sup>77</sup> being within the police power of the state,<sup>78</sup> and not an unreasonable or arbitrary exer-

cise of discretion,<sup>79</sup> but inasmuch as the business of private weighing is a legitimate vocation and falls within those ordinary occupations which a citizen is privileged to follow as an inalienable right subject only to valid exercise of the police power,<sup>80</sup> the authority for its prohibition or abridgment cannot be implied,<sup>81</sup> or inferred from the repeal of a statutory proviso permitting it,<sup>82</sup> but must rest in some positive and valid and legal inhibition.<sup>83</sup> It follows then that whether the right of a public weigher is exclusive is to be determined by the language and intent of the legislature.<sup>84</sup>

### c. Weights as Evidence

Statutes which attempt to make conclusive a finding of fact as to the weights by a public weighmaster are unconstitutional and void, but the legislature may give to the act of the weigher a high character as evidence and may give to official certificates of weights the force of prima facie evidence.

Statutes which attempt to make conclusive a finding of fact as to the weights by a public weighmaster are unconstitutional and void,<sup>85</sup> nevertheless, a legislature has the right to give to the act of the weigher in weighing commodities a high character as evidence,<sup>86</sup> and may give to official certificates of weights the force of prima facie evidence,<sup>87</sup> or may provide that the finding of the weighmaster can be impeached only when the party complaining was himself free from fault or negligence, and when it is demonstrated by clear, strong, and satisfactory evidence that there was, in fact, a substantial mistake in the weighing which was the result of fraud, bad faith, or negligence,<sup>88</sup> and in so doing they violate no constitutional provision.<sup>89</sup> Nevertheless, where official certificates are given the force of prima facie evidence, the owner of the commodity weighed should be given an opportunity to refute by showing weights thereof made by him before or after it was sent to, or put in, a public warehouse,<sup>90</sup> and, although a statute relating to

public weighers provides for the reweighing of any commodity when doubt or differences arise as to the correctness of the weight as shown by the weigher's certificate, the remedy so provided for correcting the error in weight is not the exclusive remedy when the party seeking a correction had no reason to doubt the correctness of the certificate in time to avail himself of such method, and like other instruments, the certificate may be attacked on the ground of fraud or mistake.<sup>91</sup>

### § 7. — Penalties and Criminal Liabilities for Violation of Statutes

Persons not public weighers, as well as public weighers, may be subject to penalties or criminally liable for violation of statutes providing for public weighers.

It has been said that although individuals are not prohibited by statute from weighing commodities for hire, if one not appointed a public weigher assumes to act officially he is intruding in the office, and renders himself liable to the penalty prescribed for doing so,<sup>92</sup> and, under the statutes so providing, a dealer, speculator, agent, or employee of any firm or corporation engaged in the sale or purchase of any commodity named in the statutes who weighs such commodity for the public and charges a fee therefor is liable to the public weigher or his deputy for a penalty<sup>93</sup> recoverable in a civil action in any court of competent jurisdiction.<sup>94</sup>

In an action by a public weigher to collect the penalty provided for by the statutes, however, it is necessary to allege and prove that the person engaged in weighing held himself out as the official public weigher or official deputy,<sup>95</sup> and that he was a dealer or speculator, agent, or employee of a firm or corporation engaged in the sale or purchase of the commodities enumerated in the statutes.<sup>96</sup> If the evidence fails to establish the foregoing facts, it is insufficient to sustain a verdict for plaintiff.<sup>97</sup>

68 C.J. p 161 note 1.

Under a statute providing that any duly elected cotton weigher shall receive certain fees for his services, and that any person other than the elected cotton weigher who shall weigh any cotton marketed in the town where the cotton weigher keeps his scales shall be guilty of a misdemeanor, an indictment alleging that a designated person was a duly elected, qualified, and acting cotton weigher for the county, and having his scales in the town for weighing cotton and that defendant knowing these facts unlawfully did weigh cotton sold in the town, sufficiently states an offense.<sup>98</sup> It is not necessary to allege further that the public cotton weigher had prepared a convenient place, easy of access to the public, for the performance of his duties, and that he had provided a pair of scales which had been tested as required by law.<sup>99</sup>

**Public weighers.** A statute providing that public weighers shall give slips either in writing or printing to every purchaser of coal when not in bags or packages showing the gross, tare, and net weight of the coal when delivered, and making a violation thereof a misdemeanor, a noncompliance with the statutory requirement by the weigher makes him punishable for a misdemeanor.<sup>1</sup> Under some statutes the weighmaster is guilty of a violation if he fails to weigh separately the coal in each compartment of a truck having several compartments.<sup>2</sup> Where the statute makes it unlawful for a weighmaster to issue a false or incorrect weight certificate, incorrectness connotes more than inaccuracy in what is stated and includes incompleteness as well,<sup>3</sup> but a conviction for violating the provision cannot be sustained where there is no evidence as to the form of the original certificate, but only as to the form of a triplicate copy kept by the weighmaster.<sup>4</sup> Furthermore, a weighmaster will not be found guilty of violating the provision because he increased the tare weight to make an allowance for the accumulation

of snow and moisture where there was no attempt to dispute the facts or show the possibility of fraud in the practice.<sup>5</sup> General rules as to the evidence apply in proceedings against licensed weighmasters for fraudulently weighing and issuing a delivery ticket for more than the actual weight.<sup>6</sup>

### § 8. Use of Unauthorized or Unsealed Weights or Measures

Statutes providing penalties for the use of other than standard weights and measures or weights and measures not stamped or sealed are enacted to prevent fraud or imposition; and such statutes, being penal, are not to be extended beyond their terms.

To prevent fraud or imposition statutes have been enacted providing penalties for the use of other than standard weights and measures<sup>7</sup> or weights and measures not stamped or sealed.<sup>8</sup> Such statutes are penal and are not to be extended beyond their terms.<sup>9</sup> By some statutes these penalties are confined to the use of weights and measures after the sealer has demanded to test them and has been refused,<sup>10</sup> or when they are found to be incorrect and stamped "condemned,"<sup>11</sup> by others, the penalties imposed are held to be enforceable, although the local authorities failed to give the notice prescribed by statute of the time when the standards were obtained by them.<sup>12</sup> Ordinarily, statutes requiring inspection, or sealing, or stamping of weights and measures apply only to those persons who use them in making sales of, or in buying, commodities,<sup>13</sup> and they do not apply to persons or corporations who keep them for their individual and private use,<sup>14</sup> or to the maker, vendor, or proprietor of weights and measures kept in stock for sale.<sup>15</sup>

**Selling or exposing for sale; what constitutes.** Where a customer of defendant picked up a box of berries and handed the cashier the price thereof and took away the box, the transaction is a sale within a statute making it an offense to use a measure not

in conformity with the statutory requirements,<sup>16</sup> and keeping turnips in boxes used as measures is an exposing for sale by measure within the meaning of a provision making it unlawful "to expose for sale" by measure not sealed<sup>17</sup>

*Weights on unsealed scales as evidence* While, as shown in Contracts § 206, sales which contravene statutes which require weights and measures to be inspected and sealed by the proper officers are void, the fact that the scales on which a shipper weighed grain for shipment to himself were not tested or sealed as provided by statute does not prevent the use of the weights in evidence on an issue between the shipper and carrier as to the quantity shipped, since one may use his own unsealed scales, for purposes of his own, without offending statutes of the character under consideration<sup>18</sup>

*Confiscation of unauthorized measures* A state may enact and enforce legislation authorizing the confiscation of measures not in conformity with the standards prescribed<sup>19</sup>

*Indictment and information* In a prosecution for violation of a statute providing that the state superintendent of weights and measures shall establish tolerances and specifications for commercial weighing and establish a net weight of any commodity and prescribe such tolerances therefor as he may in his best judgment deem necessary for the protection of the public, and that any person violating such standards or tolerances shall be guilty of a misdemeanor the information must allege that tolerances or specifications concerning the commodity sold by defendant had been established by the superintendent of weights and measures at the time the unlawful act was charged to have been committed<sup>20</sup>

## § 9. Use of False Weights or Measures

### a In general

### b Elements and requisites of offense

### c. Indictment or complaint, variance between allegations and proof

### d. Evidence

### e Trial and judgment

#### a. In General

Selling by false weights and measures was an offense at common law, and the use of false weights and measures may be made an offense under statutes, and in the latter case, the common-law offense is merged in the statutory act, and the punishment prescribed by the statute is the only one that can be inflicted.

Selling by false weights and measures was, at common law, an indictable offense,<sup>21</sup> because it was one which affected the public,<sup>22</sup> and amounted to a deception against which common care and prudence are not sufficient to guard.<sup>23</sup> The use of false weights and measures may also be an offense under statutes,<sup>24</sup> the purpose of which is to require the use of weights and measures which themselves correctly express their value so that recourse need be had only to such weights and measures in order to determine the correct quantity weighed or measured,<sup>25</sup> and to enforce honest dealing by punishing frauds<sup>26</sup> Where the use of false weights and measures is prohibited and made punishable by statute, the common-law offense is merged in the statutory act,<sup>27</sup> and the punishment prescribed by the statute is the only one that can be inflicted<sup>28</sup> Merely saying in a statute, however, that a bottle which does not comply with statutory requirements as to markings and capacity is a false measure cannot make it so, nor can declaring that one using such a bottle that is in fact a correct measure is guilty of using a false measure make one so guilty.<sup>29</sup>

A mere private imposition without the use of false weights, measures, or tokens, by which one is defrauded of his property, is a civil injury, and an indictment cannot be supported at common law as for a public offense<sup>30</sup>

*Defenses* It is not a defense to a prosecution for using incorrect scales in selling commodities that the scales got out of balance because of the pans getting mixed up after being cleaned.<sup>31</sup>

### b. Elements and Requisites of Offense

At common law and under some statutes a fraudulent intent is necessary to constitute the offense of using false weights and measures, and, depending on the language of the statute, other matters may or may not be necessary elements.

To constitute the offense of using false weights or measures at common law a fraudulent intent was necessary,<sup>32</sup> and it is also an element of the statutory offense where the statute, in describing the act made punishable, uses the words, "with intent to defraud,"<sup>33</sup> or "with knowledge,"<sup>34</sup> or "knowingly"<sup>35</sup> On the other hand, it has been held that, where the statute creating the offense does not contain these words or words of like import, fraudulent intent is not an element of the offense,<sup>36</sup> but there is authority to the contrary<sup>37</sup>

*Fraud or injury* Where the statute penalizes one who injures or defrauds another by knowingly using false weights or measures, a person does not commit the offense unless he injures or defrauds another by the corrupt act,<sup>38</sup> and a person does not injure or defraud another unless that other suffers a detriment<sup>39</sup> Detriment may, however, be suffered through acceptance of the commodity with a promise, express or implied, to pay for such commodity as well as by immediate payment on delivery<sup>40</sup>

*Giving of short weight.* Where it is provided that any person who in weighing uses any scale or balance which shall be out of order or incorrect it is not necessary to constitute the offense that short weights were in fact given, it being sufficient for a conviction that the scales were incorrect<sup>41</sup>

*Number of acts necessary* Under a statute prohibiting all uses of false weights and measures, proof of a single instance of such use is sufficient to

warrant a conviction<sup>42</sup> It is not necessary to establish customary delinquency before the penalty provided by the statute can attach<sup>43</sup>

*Benefit to defendant* It is not essential to a conviction that any benefit should have resulted to defendant from the act charged.<sup>44</sup>

### c. Indictment or Complaint; Variance between Allegations and Proof

An indictment or complaint for the use of false weights and measures must charge every material ingredient of the offense, and a material variance between the pleadings and proof is fatal to a conviction.

An indictment or complaint for the use of false weights and measures must charge every material ingredient of the offense<sup>45</sup> It must be alleged that defendant used false weights<sup>46</sup> or measures<sup>47</sup> Although knowledge and intent need not be alleged where it is not a necessary element of the state's case,<sup>48</sup> where knowledge and intent is an element of the offense, it must be alleged that defendant knew that the weights were false,<sup>49</sup> and it must be alleged that the use of the false measure was with "intent to defraud" where the statute uses these words as descriptive of the act made punishable<sup>50</sup> If the offense is made a felony by statute, it must be alleged that it was feloniously committed,<sup>51</sup> and the names of the persons to whom the sales were made must be given, it not being sufficient to charge a sale to "divers persons."<sup>52</sup> When the offense is defined by the statute, it is usually sufficient to charge its commission in the language of the statute<sup>53</sup>

*Variance between pleadings and proof.* A material variance between the pleadings and proof in prosecutions under these statutes is fatal to a conviction<sup>54</sup>

68 C J p 164 note 54.

d. Evidence

In prosecutions for using false weights and measures, relevant, material, and competent evidence is admissible, and the general rules relating to the weight and sufficiency of the evidence in criminal cases apply.

In a prosecution for using false weights a comparison with the official standard is not indispensable for the purpose of determining whether the weight is correct, although such a test would be conclusive,<sup>55</sup> but the falsity of the weight may be established by the persons who have compared it with a standard known to be correct<sup>56</sup> For the purpose of showing guilty knowledge, evidence that the scales in question were inaccurate on previous occasions is admissible,<sup>57</sup> and for this purpose it is also competent to prove that, at or about the time alleged in the complaint, defendant used, and caused to be used, in the weighing of stock and grain a loaded weight, heavier than correct weights kept by him<sup>58</sup>

Rules governing the weight and sufficiency of evidence in criminal prosecutions generally apply in prosecutions based on statutes of the character under consideration<sup>59</sup> To justify a conviction of using a false measure, there must be proof that the receptacle used was in fact a false measure<sup>60</sup>

e. Trial and Judgment

In a prosecution for using false weights, whether the weight is false is a question of fact, and the case should be submitted to the jury under proper instructions A judgment imposing a fine in excess of that permitted by the statute will be modified.

In a prosecution for using false weights, whether the weight is false is a question of fact.<sup>61</sup> The case should be submitted to the jury under proper instructions of the court,<sup>62</sup> and where the falsity of the weight is admitted, an instruction assuming its falsity is not prejudicial<sup>63</sup> A judgment imposing a fine in excess of that permitted by the statute will be modified to comply with the statute<sup>64</sup>

§ 10. Having in Possession False Weights or Measures

Statutes may make it a penal offense merely to have false weights or measures in one's possession, or authorize the forfeiture or confiscation thereof, and if fraudulent intent is an element of the offense, an indictment for the offense must allege that the act was done knowingly and willfully.

Statutes may make it a penal offense merely to have false weights or measures in one's possession,<sup>65</sup> or authorize the forfeiture or confiscation thereof<sup>66</sup> If fraudulent intent is an element of the offense of keeping a false weight for the purpose of buying or selling therewith, an indictment for the offense must allege that the act was done knowingly and willfully<sup>67</sup>

§ 11. Fraudulent Alteration of Weights or Measures

In a prosecution for fraudulently altering a weight or measure after it is officially sealed, the burden is on the prosecution to show that such alteration was made after the weight or measure was inspected and sealed.

In a prosecution under a statute making it an offense for any person, with a fraudulent intent, to alter any weight or measure after it is officially sealed, the burden is on the prosecution to show that such alteration was made after the weight or measure was inspected and sealed.<sup>68</sup> It is not a question of what might have been done by defendant, but what he actually did<sup>69</sup>

66. Ohio—Williams v. Sandles, 112 NE 206, 93 Ohio St 92, Ann Cas 1918D 154, error dismissed 38 S Ct 222, 245 US 680, 62 L Ed 544  
68 CJ p 164 note 67

67. Ky—Commonwealth v. Ramsey, 68 SW 1098, 24 Ky L 492

68. Philippine—United States v. Co. Chicuyco, 22 Philippine 336.

69. Philippine—United States v. Co. Chicuyco, supra.

which, being penal, must be strictly construed, it is an offense to sell or offer for sale designated articles or commodities in quantity less than represented.

Under some statutes it is an offense to sell or offer for sale designated articles or commodities in quantity less than represented.<sup>70</sup> Such statutes are constitutional.<sup>71</sup> They are obviously broader in their scope than those which make selling, or offering, or attempting to sell by the use of false weights and measures an offense, and cover any case where an actual misrepresentation is made, whether or not accomplished by direct and immediate use of false weights or measures.<sup>72</sup> They are not intended solely for the punishment of violators thereof,<sup>73</sup> but are also intended to protect the public from short weights and measures.<sup>74</sup> Being penal, they are subject to the rule of strict construction,<sup>75</sup> but they need not be given their narrowest meaning if the plain intention of the legislature is otherwise.<sup>76</sup>

*Attempt to sell less than the quantity represented* is an "offer to sell" within the meaning of the statutes.<sup>77</sup>

*Persons liable.* Under a statute providing that whoever, himself, or by a servant or agent, is guilty of giving false or insufficient weight or measure shall be punishable, evidence of giving short weight by defendant's servant in his absence warrants a conviction of defendant.<sup>78</sup> The act may apply to wholesalers as well as retailers,<sup>79</sup> but a wholesaler

of a product in lots made up of pound packages would be guilty of violating the statute only where he delivers a less amount or weight of the product than that which the purchaser purchased and which the wholesaler purported to deliver, regardless of the weight of the product in each package or false labeling of any package as to the weight of the product therein contained,<sup>80</sup> even though such false labeling might lead to a future violation of the law by a retailer.<sup>81</sup> A statute applicable to any person who by himself, or by his servant or agent or another person shall do the forbidden act authorizes the prosecution of the agent as well as the person for whom he was working, and includes all persons who may have had any connection with the forbidden act,<sup>82</sup> and the mere fact that the agent may have been required by his principal to perform the act does not prevent his being liable.<sup>83</sup>

*Defenses.* It is not a defense to a prosecution for selling or offering for sale a commodity weighing less than the amount marked on its label that the shortage was caused by lapse of time or other circumstances, as it must be presumed that all of this was taken into consideration in determining the standard weight after allowing for shrinkage.<sup>84</sup>

#### b. Elements of Offense

Under some statutes, but not under others, knowledge or intent is an element of the offense of selling or offering to sell less than the quantity represented, and some

70. DC—Great Atlantic & Pacific Tea Co v District of Columbia, 89 F2d 502, 67 App DC 30, certiorari denied 57 S Ct 794, 301 US 691, 81 L Ed 1347

68 CJ p 165 note 78

#### Invoice not mentioning gross weight or net weight

Where rope was customarily sold by gross weight and manufacturer's invoices and price lists all referred to gross weight, but defendant's invoice for about one hundred fifty-one pounds of rope actually delivered by defendant did not mention either gross weight or net weight, but represented that one hundred fifty-four pounds were delivered, defendant was guilty of violation of statute penalizing delivery of less of a commodity than the quantity actually represented by seller, notwithstanding container in which rope was sold was marked "154 lbs gross—3 lbs tare" and bore tag reciting "gross weight, 154 lbs" and notwithstanding lack of intent to deceive or defraud

82. Tex—Culpepper v State, 172 S W 2d 697, 146 Tex Cr 188

83. Tex—Culpepper v State, supra.

84. Puerto Rico—People v. Diaz, 26 Puerto Rico 246.

other matters may or may not, depending on the wording of the statute, be necessary elements, but generally shortage of weight and misrepresentation of quantity are necessary elements.

It is within the power of the legislature to make acts of the character under consideration an offense without regard to the intent or knowledge of the doer, and, if such legislative intention appears, the court must give it effect, although the intent of the doer may be innocent<sup>85</sup> Thus, where qualifying words such as knowingly, intentionally, or fraudulently are omitted from provisions creating the offense it is held that guilty knowledge and intent are not elements of the offense,<sup>86</sup> the view being taken that the acts denounced are mala prohibita, of which neither specific intent, fraud, or deception is an element,<sup>87</sup> and that deceit through carelessness is just as much prohibited as that which is due to clear intent<sup>88</sup> These statutes make the seller the guarantor of the weight and quantity of the commodity sold without regard to his intent or knowledge<sup>89</sup> The phraseology of some legislation creating the offense is such, however, that knowledge and wrongful intent is an indispensable element of the offense,<sup>90</sup> as where, in defining the offense, the statute uses the word "knowingly"<sup>91</sup> or "fraudulently"<sup>92</sup>

It has been held that, in order to convict one delivering less of a commodity sold than represented, it must appear that delivery was intended to be in execution of the sale to the person to whom delivery is attempted, and when it appears that a sale to one person is attempted to be completed by the delivery of another person's order resulting from an honest mistake, the statutes do not apply<sup>93</sup>

*Shortage of weight* is a necessary element of the offense<sup>94</sup>

*Misrepresentation of quantity* is the thing penalized by the statute,<sup>95</sup> and where it is agreed between the seller and the buyer, whether by express agreement or by mutual, although unexpressed, understanding, that an offer of sale includes in the weight indicated the weight of the wrappings of the commodity sold, and such commodity so sold together with its wrappings conforms in weight to the terms of the sale, the penalty of the statute does not attach<sup>96</sup>

*Injury* Under a provision making it unlawful for a seller of goods to injure or defraud another by knowingly delivering less than the quantity he represents, a person does not commit the offense unless he injures or defrauds another by the corrupt act,<sup>97</sup> and a person does not injure or defraud another unless that other suffers a detriment<sup>98</sup> Accordingly, a transaction which did not result in a consummated sale has been held not punishable under such a provision<sup>99</sup> Detriment may, however, be suffered through acceptance of the commodity with a promise, express or implied, to pay for such commodity as well as by immediate payment on delivery<sup>1</sup> On the other hand, it has been held that a consummated sale is not essential to establish a violation of a provision making it an offense "to practice deceit or fraud" in the sale of any commodity in quantities of less weight or measure than that represented by the seller<sup>2</sup>

Under a statute providing that one having charge of scales for the purpose of weighing or measuring property who knowingly represents any false weights or measures whereby any person may be defrauded or injured shall be punishable, the false report of a weight which may result in an injury is a completed offense even though injury does not

occur,<sup>3</sup> and it has been held, under a statute making it an offense for one to sell or offer or expose for sale less than the quantity he represents, that if there has been a sale or offer or exposure for sale for less than actually represented the penalty attaches regardless of whether any one has been deceived thereby<sup>4</sup>

*Payment for commodity purchased* is not essential to a conviction where the statute on which the prosecution is based omits reference to the question of terms of sale or payment<sup>5</sup>

*Delivery* Under a prosecution for knowingly delivering less of a commodity than the quantity represented, delivery of an article of merchandise by a dealer to a customer is an element of the offense,<sup>6</sup> and a mere offer to deliver less than a quantity represented does not constitute a violation of a statute penalizing delivery of less than represented.<sup>7</sup> A physical tender of possession by one person to another who accepts such possession is ordinarily sufficient to constitute a delivery,<sup>8</sup> and even a conditional delivery may be sufficient to constitute a violation of the statute<sup>9</sup>

*Control of weighing device* Under a statute making it an offense for any person to sell or offer for sale less than the quantity he represents of any commodity, or to take or attempt to take more than the quantity he represents, "when as the buyer or weigher of any commodity, he furnishes the weight, measure, or weighing or measuring device," the quoted phrase refers to the seller as well as the buyer, and it is essential, to convict the seller of the statutory offense, that he be in control of the weighing device<sup>10</sup>

### c. Indictment, Information, or Complaint

An indictment, information, or complaint will ordinarily be sufficient if it states the offense in the language

of the statute; and generally the pleading should allege the essential elements of the offense.

An indictment, information, or complaint based on statutes of the character under consideration will ordinarily be sufficient if it states the offense in the language of the statute.<sup>11</sup> If knowledge is made an element of the offense by the statute, it must be alleged that the sale forming the basis of the prosecution was by short weight with defendant's knowledge,<sup>12</sup> but where the statute makes the seller a guarantor of the quantity sold regardless of the intent or knowledge, it is not necessary to allege that the act was knowingly done.<sup>13</sup> Where a malicious intent is not an element of the offense an allegation thereof will be treated as surplusage and need not be proved.<sup>14</sup> It has been held that the indictment should allege the names of the person or persons to whom the sales or offers to sell were made and that it is not sufficient to allege that the sales were made to "divers persons."<sup>15</sup> Where such control is an essential element of the offense, an indictment which fails to allege that the weighing device involved was under the control of defendant is insufficient.<sup>16</sup> A complaint for willfully selling bread short in weight does not state an offense if the tolerance in weight authorized is not alleged therein, since, in the absence of such an allegation, the court cannot know whether the bread weighed less than the minimum weight allowed, and cannot take judicial notice of such allowance,<sup>17</sup> and where the statute limits the offense to a sale within a stated time after baking, the complaint must allege that the sale was made within that time.<sup>18</sup>

*Issues, proof, and variance* One who is indicted under these statutes cannot be convicted of another and distinct offense denounced by another statute,<sup>19</sup> and if the evidence does not establish the commission of the offense charged, defendant should be

acquitted<sup>20</sup> An immaterial variance is not fatal to a conviction<sup>21</sup>

#### d. Evidence

The burden of proof rests on the state to procure a conviction under the short weight statutes. Evidence tending to show absence of intent to defraud is properly excluded where such intent is not an element of the offense, but any competent evidence is admissible to establish the shortage of weight.

The burden of proof rests on the state to procure a conviction under the short weight statutes<sup>22</sup>. Thus, in a prosecution for knowingly delivering less of a commodity than that represented, the people must prove a delivery by a dealer to a customer of an article of merchandise,<sup>23</sup> but do not have the burden of proving that by such delivery accused succeeded in injuring or defrauding<sup>24</sup>. Where intent to defraud is not an element of the offense of selling or exposing for sale less than the quantity represented, evidence tending to show absence of such intent is properly excluded<sup>25</sup>. To establish the allegation of shortage in weight, the insufficiency of the weight need not be proved by the testimony of an official weighmaster or inspector,<sup>26</sup> but it may be established by any competent evidence<sup>27</sup>.

*Weight and sufficiency.* Rules governing the weight and sufficiency of evidence in criminal prosecutions generally apply in prosecution based on statutes of character under consideration<sup>28</sup>.

#### § 13. Falsely Packed Bales of Cotton

A statute making it a crime falsely to pack a bale of cotton prohibits false packing with intent to defraud by placing foreign substances in the bale, or doing something to it so that the reasonable result would be to defraud the person dealing therewith; and an indictment or information based on the statute should allege the particular matter constituting the act or fraud relied on.

A statute making it a crime to "falsely pack a bale of cotton" prohibits the false packing of a bale of cotton with intent to defraud by placing sand, earth, stones, or other foreign substances in the bale of cotton, or in some other way doing something to it so that the reasonable result would be to defraud the persons dealing therewith<sup>29</sup>. An indictment or information based on this statute should allege the particular matter constituting the act or fraud relied on, by charging that defendant with intent to defraud did falsely pack a bale of cotton by then and there placing certain sand, earth, stones, or other foreign substance in the bale of cotton so that the reasonable result thereof would be to defraud the persons dealing with such bale<sup>30</sup>.

#### § 14. Packing in Container Substance Foreign to Contents Thereof

Under statutes providing for the punishment of anyone who in bailing or packing in any container any commodity sold by weight includes therein any substance foreign to the contents thereof, it is no defense in a prosecution for packing bags with coal in which noncombustible substances were placed that defendants packed

20. Puerto Rico—People v Barbosa, supra

21. Held no fatal variance between allegation that container in which defendant purported to sell to named person one gallon of ice cream contained less than one gallon, and proof that state inspector furnished named person with a sum to purchase ice cream and that named person in presence of inspector purchased ice cream.

coal in bags and sold it in the same condition that it came to them, if they did it to defraud

Under statutes requiring coal to be sold by weight and providing that whoever with intent to defraud or injure in baling or packing in any container any commodity sold by weight includes therein any sub-

stance foreign to the contents thereof shall be punished, in a prosecution for packing bags with coal in which noncombustible substances were placed, the fact that defendants packed coal in bags and sold it in the same condition that it came to them is not a defense if they did it to defraud<sup>31</sup>

**WEIR, WAER, WEAR, or WER.** In one sense the word "weir" means a dam;<sup>1</sup> a dam across a river,<sup>2</sup> an obstruction placed in a stream to raise the water, divert it into a mill-race or irrigation ditches, or form a fish pond.<sup>3</sup>

The term may also be used as referring to "a contrivance for the purpose of regulating and measuring the amount of water that should pass from a feeder through different flumes."<sup>4</sup>

The word is also employed to denote a trap or device for catching fish, and is defined in this sense in Fish § 1. Statutes regulating the taking of fish by means of weirs are treated in Fish § 30.

**WELCOME.** As a noun, "welcome" is defined to mean a cordial or kindly greeting to, or reception of, a guest or newcomer<sup>5</sup>

The adjective "welcome," in ordinary and common acceptation, means free or willingly permitted, as to do, to have, or enjoy, anything.<sup>6</sup> It implies cordial and friendly permission or license, the privilege to use or enjoy the thing involved.<sup>7</sup>

**WELD.** As a noun, the state of being welded, also, a welded joint.<sup>8</sup> As a verb, to unite closely or intimately, to join closely<sup>9</sup>

*Welding.* The art, practiced immemorially, of uniting two pieces of metal in one piece by heating those portions which are to be welded to a temperature at which they become plastic and then pressing them strongly together so as to effect a union.<sup>10</sup> It

has been compared with "cementing" see 14 C.J.S. p 61 note 1.

**WELFARE.** It has been said that the word "welfare" pertains primarily to those material things of life having a relation to one's physical well-being and comfort which are dependent, under the present economic system, upon the individual's financial resources<sup>11</sup> The term is defined as meaning the state or condition of faring or doing well; state or condition in regard to well-being, especially, condition of health, happiness, prosperity, or the like,<sup>12</sup> well-doing or well-being, in any respect; prosperity; happiness<sup>13</sup> Expressed negatively, "welfare" means exemption from evil or calamity,<sup>14</sup> exemption from pain or discomfort.<sup>15</sup>

"Welfare" has been held to be almost identical with "happiness" see 39 C.J.S. p 773 note 30, and it has been compared with, or distinguished from, "comfort" see 15 C.J.S. p 244 note 34.

In determining who shall have the custody of an infant, it is generally recognized that the controlling consideration is the welfare of the infant, as stated in Infants § 7 b (1) and in Divorce § 309 a.

**WELL.** As a noun, the word "well" means a deep, narrow pit dug in the earth, and usually walled, for the purpose of obtaining a supply of water;<sup>16</sup> a hole dug in the ground in order to obtain water;<sup>17</sup> a hole or shaft sunk into the earth in order to obtain a fluid, as water, oil, brine, or natural gas, from

Mont.—Littrell v Wilcox, 27 F 394, 396, 11 Mont. 77.

a subterranean supply,<sup>18</sup> a hole sunk or drilled into the earth to such a depth as to reach a supply of water,<sup>19</sup> a pit sunk in the earth until a water-bearing stratum of the earth is reached, from which the water therein will flow into the pit, and a supply of water be thus obtained,<sup>20</sup> a place where water is reached by an orifice in the ground, and where it does not flow to the surface<sup>21</sup>

It has been stated that some of the above definitions which were set out in Corpus Juris support the concept that a hole or shaft in the ground is not a well, and cannot properly be described as such, unless it is used to produce water, oil, gas, or some like substance;<sup>22</sup> but this ignores the broader meaning of the word "well,"<sup>23</sup> and in its broader sense the term is defined as meaning any shaft or pit dug or bored in the earth,<sup>24</sup> any space enclosed, partly enclosed, or otherwise constructed or shaped, as to suggest, or be likened to, a well for water, as a vessel or space for holding lubricating oil, etc., or a deep drawer in a bureau or desk<sup>25</sup>

In engineering, the word "well" is defined as meaning a pit or hole in the ground reaching to hardpan or bedrock; hence, a hollow cylinder of reinforced concrete, steel, timber, masonry, built in such a hole as a support for a bridge or building<sup>26</sup>

It has been said that a well is not a machine, but a process, a method of obtaining a supply of water from the earth.<sup>27</sup> The term aptly designates the soil covered by and used with it, and it may refer to an artificial excavation and erection in and upon land<sup>28</sup>

"Well" has been compared with, or distinguished from, "spring" see 81 C J S. p 840 note 16.

The word "well," as used in mining parlance, is defined in Mines and Minerals § 3 h A tunnel as a horizontal well see 90 C J S. p 964 note 53.

The word "well" may be used either as an adjective or as an adverb,<sup>29</sup> and as an adjective, "well" is defined as meaning being in health, sound in body and mind; not ailing, diseased or sick, healthy<sup>30</sup> As an adverb, "well" is defined as meaning in a good and proper manner, justly, suitably to one's condition, to the occasion, or to a proposed end or use<sup>31</sup>

**WELLHOLE.** The open space in a floor, to accommodate a staircase<sup>32</sup>

**WELSHER.** One who at a race track makes bets or receives money to be bet and absconds without paying his losses or returning the money intrusted to him.<sup>33</sup>

**WELSH MORTGAGE.** See Mortgages § 3.

**WEN.** An indolent encysted tumor of the skin, especially a sebaceous cyst, something far different from the malignant swelling which indicates "Hodgkin's disease"<sup>34</sup>

**WENCH.** According to the dictionary, "wench" is an archaic, provincial, or contemptuous word meaning a damsel or young woman of lowly condition.<sup>35</sup> It is also defined as meaning a servant or maid,<sup>36</sup> and it does not necessarily carry any implication of unchastity<sup>37</sup>

**WEREGILD.** The price of homicide, or other atrocious personal offense, paid partly to the king for the loss of a subject, partly to the lord for the

Historical note

West Virginia was formed in 1861

of the western counties of Virginia, owing to their nonconcurrence in the ordinance of secession passed by the legislature of that state. A constitution was framed by a convention which met at Wheeling on Nov 26, 1861. This was submitted to the people on April 3, 1862, and ratified almost unanimously. The consent of the body, recognized by the federal government as the legislature of Virginia, was given, and congress then passed an act approved Dec 31, 1862, providing for the admission of the new state into the Union upon condition of the adoption of an amendment to the constitution providing for emancipation of slaves. This was done, and the state was admitted to the Union. The first constitution remained in force until 1872, when the present constitution was framed by a convention which met on January 16, 1872, and completed its labors on April 9 of that year. It was submitted to the people and ratified by them on August 22, 1872

### § 1. Definitions

- a. Wharf
- b. Dock
- c Dockage
- d Landing
- e. Pier

- f. Wharfage
- g Wharfinger
- h Other terms

#### a. Wharf

A wharf is a structure, on the margin of navigable waters, alongside of which vessels can be brought for the

sake of being conveniently loaded or unloaded; and the term "wharf" may indicate a locality as well as an actually existing artificial structure.

A wharf is an artificial landing-place,<sup>1</sup> built or constructed for the purpose of loading or unloading goods,<sup>2</sup> a structure, on the margin of navigable waters, alongside of which vessels can be brought for the sake of being conveniently loaded or unloaded.<sup>3</sup> It does not include a drawbridge,<sup>4</sup> or houseboats moored in a river,<sup>5</sup> or the piling, dolphins, boardwalks, piping, and the like designed to provide access to such houseboats,<sup>6</sup> but warehouses have been held to be included within the right to erect "wharves."<sup>7</sup>

A wharf is a substantial and permanent structure built out from the upland and forming an extension thereof.<sup>8</sup> It need not be of any particular design; the only necessity being that it affords a place where vessels land.<sup>9</sup> A wharf is sometimes made on the land at the water's edge, and is sometimes built in the water to the channel of a river or other part,<sup>10</sup> but in any case, water of sufficient depth to float vessels is an essential part of every wharf, a necessary incident thereof, or appurtenance thereto, without which there can be no

wharf and no wharfage.<sup>11</sup> The structure may be removed further into the water for the convenience of the operation of unloading and loading, and still be a wharf.<sup>12</sup>

The term "wharf" is not limited to an actually existing artificial structure but may indicate a locality as well,<sup>13</sup> although the mere fact of its being designated on maps as a wharf does not necessarily make it so.<sup>14</sup> Wharves have been distinguished from other structures, such as slips and basins,<sup>15</sup> and docks.<sup>16</sup>

"Private wharf," with respect to title, means one privately owned,<sup>17</sup> but with respect to use it is one which the owner or lessee reserves for his private use.<sup>18</sup>

*Public or quasi-public wharf.* A "public wharf" is one which may be used generally by the public, either with or without compensation.<sup>19</sup> Generally, it belongs to some governmental organization such as a city.<sup>20</sup> Where a wharf, the subject of private ownership, is thrown open to use by the public in general on payment of fixed wharfage rates, it becomes a quasi-public wharf, to the use of which all are entitled on payment of reasonable wharfage

rates,<sup>21</sup> although owned by an individual<sup>22</sup> It is not necessary that a wharf handle all commodities or freight indiscriminately for every branch of the public in order to make it a public wharf<sup>23</sup> A private wharf and warehouse may become a public freight station by contract, fee-simple title or lease not being necessary<sup>24</sup>

*Whether wharf is public or private* depends on the ownership of the soil, the purpose for which it was built, the authority by which it was erected, the uses to which it has been applied, and the nature and character of the structure<sup>25</sup> It is not the ownership of the property that determines its public character, but rather the use to which it is put.<sup>26</sup>

### b. Dock

A dock is an artificial basin or inclosure in connection with a harbor for the reception of vessels, also a place for building, repairing, or laying up ships It may include bulkheads, piers, slips, a waterway, surrounding waters, wharves, and the space between wharves.

A dock is an artificial basin or inclosure in connection with a harbor, for the reception of vessels,<sup>27</sup> a place for vessels, either excavated from the land, or surrounded by wharves,<sup>28</sup> the slip or water-

way extending between two piers or projecting wharves, or cut into the land for the reception of ships,<sup>29</sup> a landing,<sup>30</sup> also a place for building, repairing, or laying up ships<sup>31</sup> It may include bulkheads,<sup>32</sup> piers,<sup>33</sup> slips,<sup>34</sup> a waterway,<sup>35</sup> surrounding waters,<sup>36</sup> wharves,<sup>37</sup> the space between wharves,<sup>38</sup> and the space between two contiguous wharves.<sup>39</sup> It does not include a drawbridge<sup>40</sup>

*Dry dock* is a structure contrived for the purpose of taking ships out of the water in order to repair them,<sup>41</sup> a watertight basin which after pumping out allows examination and work on the bottom of a vessel<sup>42</sup> It is a fixed structure and cannot be termed either a ship or vessel<sup>43</sup> Used in its common, ordinary sense, the term means a dry place to work in,<sup>44</sup> and the definition has been enlarged to include modern facilities for repairing boats out of the water<sup>45</sup> A dry dock and a marine railway are used for a like purpose,<sup>46</sup> and it has been held that the term "dry dock" includes a marine railway.<sup>47</sup>

*Floating dock* is described as one which receives a vessel when the dock is submerged, after which the watertight compartments of the dock are pumped out and the buoyancy of the dock raises the

vessel<sup>48</sup> While the structure and operation of a floating dock differ somewhat from that of a dry dock and a marine railway,<sup>49</sup> the terms "dry dock," "floating dock," and "marine railway" are sometimes interchangeable.<sup>50</sup> "Floating dock" has been distinguished from "graven dock" or "graving dock"<sup>51</sup>

*Graven dock or graving dock* A graving dock is a water-tight chamber fitted with timber or iron gates, which are shut against the tide after the vessel has entered for the purpose of being inspected or repaired.<sup>52</sup> Except for details of construction, it is the same as a dry dock.<sup>53</sup> A graven dock is permanently attached to, and in that manner is, a part of the land, and therein it is distinguished from a floating dock.<sup>54</sup>

### c. Dockage

Dockage is compensation in the nature of rent, and may include the charge against vessels for the privilege of mooring to the wharves or in the slips, or the pecuniary compensation for the use of a dock while a vessel is undergoing repairs.

Dockage is compensation in the nature of rent,<sup>55</sup> and may include the charge against vessels for the privilege of mooring to the wharves or in the

slips,<sup>56</sup> or the pecuniary compensation for the use of a dock, while a vessel is undergoing repairs.<sup>57</sup> The term is used in contradistinction to "wharfage,"<sup>58</sup> although the terms have been held to be synonymous,<sup>59</sup> and are sometimes used interchangeably as meaning a charge for the use of a wharf or dock.<sup>60</sup>

"Dry dockage" means giving dockage in a dry dock.<sup>61</sup>

### d. Landing

A landing is a bank or wharf to or from which persons may go from or to some vessel in the contiguous waters, but a landing does not necessarily include a wharf.

A "landing" is variously defined as a bank or wharf to or from which persons may go from or to some vessel in the contiguous waters,<sup>62</sup> a place for going or setting on shore,<sup>63</sup> a place on a river or other navigable water for lading and unlading goods, or for the reception and delivery of passengers,<sup>64</sup> a place where vessels can be moored and loaded or discharged,<sup>65</sup> a wharfage place for crafts,<sup>66</sup> the place where any kind of a craft lands,<sup>67</sup> the terminus of a road on a river or other navigable water, for the use of travelers, and the

#### Operation

When a graven dock is to be used for purposes of repairs to a ship, gates are opened and the ship floated into the dock. The gates are then closed and the water pumped out and the ship allowed to settle on blocks at the bottom of the dock and thus made available for purposes of repair.

loading and unloading of goods;<sup>68</sup> the yard or open place which is used for deposit and the convenient communication between the land and water<sup>69</sup> The term "landing" as used in a statute requiring a license for the keeping of a landing necessarily refers to a place,<sup>70</sup> and it has been said to have the same significance as a wharf,<sup>71</sup> but a landing does not necessarily include a wharf<sup>72</sup>

*Landing place* is a place where things are collected and deposited for transportation or shipment from that place, whether it is by water or rail<sup>73</sup>

*Public landing* is a piece of ground on the bank or margin of a river, provided for the open and common use of all persons in the debarkation of themselves or their goods,<sup>74</sup> a place on a river or other navigable water for loading or unloading goods or for the reception and delivery of passengers<sup>75</sup> It is dedicated to the public use and held in trust for the public the same as a street<sup>76</sup> Public landings have been recognized both by immemorial usage and by law from the earliest existence of the state<sup>77</sup>

#### e. Pier

As the term is customarily used with respect to projections into navigable water, a "pier" is a structure extending from the solid land out into the water to afford convenient passage for persons and property to and from vessels alongside of the pier

"Pier" generically means a support, and in its precise use, the absence or presence of water surround-

ing it is immaterial,<sup>78</sup> although its customary use is with respect to projections into navigable water<sup>79</sup> As thus used, a pier is a structure extending from the solid land out into the water to afford convenient passage for persons and property to and from vessels alongside of the pier,<sup>80</sup> a projecting quay, wharf, or other landing-place,<sup>81</sup> a projecting wharf or landing-place<sup>82</sup>

*Pierhead* is the projecting end of a pier forming a wharf or landing place<sup>83</sup>

*Public pier.* A pier may be public or private,<sup>84</sup> and a public pier has been held to constitute a part of the highway.<sup>85</sup>

*Bridge pier* is a projecting wharf, a permanent structure attached to, and firmly connected with, the mainland<sup>86</sup>

#### f. Wharfage

Wharfage in its most general legal sense is the use of a wharf furnished in the ordinary course of navigation, or, in its limited sense, it is a charge or rent for the use of a wharf

In its most general legal sense, wharfage is the use of a wharf furnished in the ordinary course of navigation,<sup>87</sup> and in this sense the term is usually applied to the use of a wharf by a vessel for the loading and unloading of goods or passengers, but it also may clearly include the use of a wharf while lying alongside for protection<sup>88</sup>

*As compensation.* In its limited sense wharfage is a charge or rent for the use of a wharf<sup>89</sup> and

"Dockage" defined see supra subdivision c of this section

"Wharfage" in this sense generally see infra §§ 11-15

"shed hire,"<sup>90</sup> including dockage or moorage,<sup>91</sup> the compensation paid for loading goods on a wharf or shipping them off.<sup>92</sup> The term "wharfage" is applied to a charge for landing goods, whether on an artificial erection or a natural landing.<sup>93</sup>

*Top wharfage* is a charge levied on the owners of merchandise for the privilege of using the pier or wharf, in transferring the freight to and from vessels docking there, or of having their goods lie on the dock in the course of loading and unloading operations.<sup>94</sup>

#### g. Wharfinger

A wharfinger is one who for hire receives merchandise on his wharf either for the purpose of forwarding or for delivery to the consignee on such wharf.

A wharfinger is one who for hire receives merchandise on his wharf, either for the purpose of forwarding or for delivery to the consignee on such wharf,<sup>95</sup> one who keeps a wharf for receiving goods for hire.<sup>96</sup> Wharfingers who carry goods from their wharves for their wharf customers but not for strangers, except under special circumstances, are not common carriers.<sup>97</sup>

#### h. Other Terms

The terms "key," "marine railway," "moorage," "slip," and other terms have been defined by the courts.

Judicial decisions have defined and applied particular terms connected with the law of wharves

other than those considered supra subdivisions a-g of this section.

*Key* is a quay,<sup>98</sup> a wharf to land or ship goods or wares at.<sup>99</sup>

*Keyage* is the money or toll taken for lading or unlading wares at a key or wharf.<sup>1</sup>

*Marginal street* is a dock or wharf used in conjunction with, and in furtherance of, commerce and navigation.<sup>2</sup>

*Marine railway* is an inclined structure at the water's edge which extends below the water<sup>3</sup> and runs from some distance in the water to any desired point on dry land.<sup>4</sup> It is used to bring a boat up out of the water onto a dock.<sup>5</sup> It carries a cradle which moves on rollers or wheels.<sup>6</sup> The cradle runs below the water and receives the vessel which is then hauled out<sup>7</sup> by some power other than its own, and not connected with navigation.<sup>8</sup>

*Moorage* is a sum due by law or usage for mooring or fastening of ships to trees or posts at the shore or to a wharf.<sup>9</sup>

*Public ship* is a ship dedicated to public use.<sup>10</sup>

*Quay* is a landing place,<sup>11</sup> a place where vessels are loaded and unloaded,<sup>12</sup> a vacant space between the first row of buildings and the water's edge, used for the reception of goods and merchandise imported or to be exported,<sup>13</sup> a wharf at

which goods or wares may be landed or shipped,<sup>14</sup> a wharf, usually constructed of stone, but sometimes of wood, iron, etc., along a line of coast or a river bank, or around a harbor or dock<sup>15</sup>

*Slip* is an opening between two pieces of land or wharves,<sup>16</sup> or a small dock,<sup>17</sup> open water adjoining a wharf<sup>18</sup> In its application to structures and places for the accommodation of vessels, the word is said to be peculiar to New York,<sup>19</sup> and to be used in two senses, that is, as designating the docks which form the intermediate space<sup>20</sup> and also as designating the intermediate space formed by the docks<sup>21</sup>

*Wharfboat* is a boat, moored to or at a bank of a river, used for a wharf.<sup>22</sup>

*Wharf property* may include boathouses, wharves, and sidewalks over tidal lands<sup>23</sup>

## § 2. Right to Construct and Maintain

The basis of the right to erect a wharf is either in the ownership of the soil or the right of eminent domain, and in the absence of constitutional inhibition the state can build or aid others in building wharves for public use and in aid of trade or commerce

The basis of the right to erect a wharf is either in the ownership of the soil or the right of eminent domain<sup>24</sup> In the absence of constitutional inhibition the state can build or aid others in building wharves for public use and in aid of trade or

commerce,<sup>25</sup> and this right can be delegated to county commissioners<sup>26</sup> Where a dock is built by a city on land belonging to the United States, the dock becomes part of the government's land in the absence of special circumstances leading to a conclusion to the contrary, as where there was no specific authority shown for the erection of the dock as property of the city<sup>27</sup>

*Prescription or adverse possession.* Title to a wharf may be obtained by prescription or adverse possession,<sup>28</sup> as may also the right to occupy a dock<sup>29</sup> or to maintain a wharf,<sup>30</sup> but not so where the occupation and use thereof constitute a public nuisance<sup>31</sup> To initiate an adverse holding the possession must be hostile,<sup>32</sup> and not by one in such a relationship as landlord and tenant<sup>33</sup> There should be proof of knowledge by, or notice to, the owner of an adverse claim and enjoyment to establish title by prescription against him,<sup>34</sup> the receipt of wharfage will not of itself authorize the presumption of knowledge<sup>35</sup> Possession of a wharf, under color and with claim of title, is sufficient to put another claimant on proof of a better title, or at least of an equal right with the person in possession<sup>36</sup> Proof of a right to unload a vessel at a wharf is not proof of title to the wharf, and proof of the claim and exercise of such right is not proof of possession of the wharf, or that a tenant holds the wharf under the claim-

ant,<sup>37</sup> the right to unload at a wharf being consistent with title in another<sup>38</sup> Moreover, where the state has laid out a public street on which a wharf was subsequently constructed and the wharf became the property of the state, a lot owner who uses the wharf and street as a means of access to his lot cannot acquire any rights to the wharf by adverse possession against the state<sup>39</sup>

### § 3. — Grants, Franchises, and Privileges

- a. In general
- b. Construction

#### a. In General

The privilege of erecting wharves to project into the stream may be granted or withheld at the pleasure of the state, and the right cannot be exercised by an individual except by a grant for that purpose by the sovereign power or by prescription, but no particular, technical words are necessary to constitute a valid grant.

Since the title to the soil under navigable waters is, as shown in Navigable Waters § 89, in the sovereign, the privilege of erecting wharves to project into the stream is one which may be granted or withheld at the pleasure of the state,<sup>40</sup> and being a franchise, the right cannot be exercised by an individual, except by a grant for that purpose by the sovereign power, or by prescription<sup>41</sup> No particular, technical words are necessary to constitute a valid grant,<sup>42</sup> and a statutory requirement that a grant should specify the quantity of the land that might be used, has been held to be directory only.<sup>43</sup> A right granted by harbor commissioners to use piers for docking vessels is a mere privilege or license<sup>44</sup> A grant of wharf rights does not include the right to receive vessels at each of its sides<sup>45</sup> Where a license to extend a wharf to a point below high water mark

and accompanying plans were not recorded within one year after effective date of the license as required by statute, the license became void in the strict sense, and thereafter the structure involved was maintained on the lands of the commonwealth without right<sup>46</sup>

*Appurtenances included.* Ordinarily the grant of a wharf right includes as appurtenant thereto a right of access over adjacent lands under water<sup>47</sup> It has been held, however, that the grant of the right to maintain a pier will not confer any right of access from or over the lands which the city may at its pleasure cause to be filled in, although in such case, as long as this territory is not filled in it serves the purpose of access to the pier, constituting merely a privilege by sufferance and not a legal right,<sup>48</sup> and a dock company acquired no right to land included in a road leading to the wharf and adjoining land under water by its act of incorporation<sup>49</sup>

*Exclusive privileges* The state may grant an exclusive privilege to an individual to erect and keep a public wharf,<sup>50</sup> or to erect and maintain sheds by private persons on public piers<sup>51</sup> Exclusive riparian rights do not attach, as a matter of course, to a grant of lands under water,<sup>52</sup> and, in the absence of an express grant, and of any manifest intent to convey it, no exclusive right of wharfage passes<sup>53</sup>

*Revocability.* A legislative act may operate as a grant or as a revocable license according to the circumstances of the case,<sup>54</sup> and it is held that valid sovereign grants, once made, are inviolable,<sup>55</sup> but that licenses are revocable<sup>56</sup> if there is compliance with the statute relating to revocation<sup>57</sup>

*On termination of franchise,* the ownership of wharves may become vested in the public body<sup>58</sup>

### b. Construction

Such a rule of construction must be adopted as will render a grant effectual for some purpose, and if the purpose is not plainly expressed in the grant, the intent of the parties must be ascertained from the nature and situation of the land granted and all the surrounding circumstances.

Where the sovereign grants land under water, which cannot, in its natural state, be subjected to any of the uses to which dry land may be devoted, such a rule of construction must be adopted as will render the grant effectual for some purpose.<sup>59</sup> The purpose may be plainly expressed in the grant, but if it is not, then the intent of the parties must be ascertained from the nature and situation of the land granted, and all the circumstances surrounding the grant which may properly be considered for the purpose of ascertaining such intent.<sup>60</sup> Following these rules, many specific grants have been construed by the courts.<sup>61</sup> Thus, a grant of wharfage has been held to confer no proprietary rights in the soil.<sup>62</sup> An ordinance understood by all parties as granting the right to build and maintain a wharf was given a liberal interpretation to that effect.<sup>63</sup> A statute authorizing riparian owners to construct wharves must be construed with a statute empowering municipalities to regulate wharf construction,<sup>64</sup> and as thus construed it has been held that such owners have no right, without permission, to construct a wharf into navigable water within a city or town in such manner as unnecessarily to interfere with navigation and acquire a vested right by doing so.<sup>65</sup> A provision of a permit should not be interpreted to nullify it.<sup>66</sup>

### § 4. Transfer of Wharf Rights by Owners

A license to construct a dock on state land is assignable, subject to the right of the state to revoke the license.

A license to construct a dock on state land is

assignable, subject only to the right of the state to revoke the license.<sup>67</sup>

### § 5. — Lease

- a In general
- b Rights and liabilities of lessor
- c Rights and liabilities of lessee

#### a. In General

Wharves may be leased, but the leasing thereof is generally regulated by statute, and ordinarily public areas cannot be leased for private purposes. The lease itself is merely a letting of the franchise of wharfage, and no property in, or right to, the wharf itself passes to the lessee.

Wharves may be leased,<sup>68</sup> but the leasing thereof is generally regulated by statute, and ordinarily, public areas cannot be leased for private purposes.<sup>69</sup> Moreover, the owner of a public pier which had exclusive control thereof at the time of an accident cannot give retroactive effect to a lease between the owner and a steamship company so as to change the relationship of wharfinger and permittee existing between such parties at the time of the accident.<sup>70</sup>

The lease itself is merely a letting of the franchise of wharfage, no property in, or right to, the wharf itself passes to the lessee,<sup>71</sup> although, as shown infra subdivision c (1) of this section, the beneficial use of all the lessor's rights and privileges in the demised premises and of the easements connected therewith passes to the lessee for the term provided for. To create a lease of a wharf no particular words are necessary provided the intention of the parties is clear.<sup>72</sup>

*Construction.* In the construction of leases of wharves, the intention of the parties at the time the lease was executed and delivered as to what was included in it must govern,<sup>73</sup> and that inten-

tion must be discovered from the language employed in the instrument itself, considered in the light of surrounding circumstances<sup>74</sup>

### b. Rights and Liabilities of Lessor

A lessor may reserve the right to charge wharfage against vessels not owned or chartered by the lessee, and he does not lose the right to unobstructed access to navigable water by the lessee's permissive erection of a pier. The lease does not always warrant the condition of the wharf, and the lessor is bound by provisions of the lease relating to the purchase of machinery placed on the premises with his consent, and of ordinances relating to the installation of fire extinguishers.

A lessor may reserve the right to charge wharfage against vessels not owned or chartered by the lessee<sup>75</sup>. The wharf proprietor does not lose the right to unobstructed access to navigable water by a lessee's permissive erection of a pier,<sup>76</sup> and in such case, the lessee must bear the cost and burden of removal and restoration at the termination of the lease<sup>77</sup>. The lease does not always warrant the condition of the wharf<sup>78</sup> or that it is fit for the purpose for which it is hired,<sup>79</sup> and where the lease provides that the obligation of the landlord to keep the demised premises in repair shall not accrue until written demand stating the particular repairs to be made is given, the fact that the landlord often makes repairs without such written request does not impose on him any obligation to make repairs in the absence of a written request<sup>80</sup>. A provision that the lessor, at the expiration of the lease, should buy "machinery and apparatus" placed on the premises with his consent, included appliances and structures of a permanent character<sup>81</sup>. Under an ordinance imposing on a pier owner the duty to provide fire extinguishers, the lessor is liable for such equipment, although the lessee is compelled to install it.<sup>82</sup>

*Tenant's breach of covenant.* The measure of the landlord's damages for a tenant's breach of a covenant to put and to maintain a wharf in good condition is the difference in value at the time the tenant surrendered possession and the time he took possession,<sup>83</sup> not the cost of reconstructing the pier.<sup>84</sup> In an action for breach of an agreement in the lease to return the dock to the lessor in its original condition, the court when giving the lessor judgment against the contractor for damage to the dock properly refuses to enter judgment for the lessor against a subcontractor whose negligence was chiefly responsible for the loss, but with whom no privity of contract existed<sup>85</sup>.

*Retaking of possession.* A lessor is justified in some cases in retaking possession under a lease, for lessee's violation of its terms,<sup>86</sup> as for instance, where the lessee permits a vessel carrying explosives to lie at the pier<sup>87</sup>.

*Abandonment by lessee.* On an abandonment by the lessee, the right to the possession of the wharf, and to its earnings will revert to the owner.<sup>88</sup>

### c. Rights and Liabilities of Lessee

- (1) In general
- (2) Maintenance and repair
- (3) Rent

#### (1) In General

The rights and liabilities of the lessee depend on a proper construction of the lease. He may become entitled only to the wharfage without acquiring any exclusive right to possession, but it has been held that the beneficial use and enjoyment of all the rights and privileges possessed by the lessor in the demised premises for the term provided for pass to the lessee.

The rights and liabilities of the lessee depend on a proper construction of the lease<sup>89</sup>. He may become entitled only to the wharfage, without acquir-

#### Contract for storage of ships constructed

(1) Not to imply agreement on part of owners to raise and move sunken boat

U.S.—City of Newark v. Mills, C.C.A. N.J., 35 F.2d 110, certiorari denied 50 S.Ct. 237, 281 U.S. 722, 74 L.Ed. 1140

(2) To imply undertaking to remove boats on expiration of term

U.S.—City of Newark v. Mills, supra

ing any exclusive right to possession<sup>90</sup> He cannot interfere with the public use of the pier for purposes of navigation<sup>91</sup> A lease of a pier includes its appurtenances,<sup>92</sup> such as the right to tie vessels thereto,<sup>93</sup> and to a sufficient channel<sup>94</sup> The lessee may abandon or surrender his lease,<sup>95</sup> but a lessee's property rights are not lost because their exercise may be inexpedient or unnecessary for a time<sup>96</sup>

The beneficial use and enjoyment of all the rights and privileges possessed by the lessor in the demised premises for the term provided for pass to the lessee,<sup>97</sup> and he thereby acquires the right, not only to the use and enjoyment of the premises demised, and of all easements connected therewith,<sup>98</sup> but also the right to adapt the premises to the purpose of securing the most profitable use of them not inconsistent with the terms of the lease,<sup>99</sup> and the lessor has no right or power of interference therewith<sup>1</sup> The lessee cannot be required to pay charges required by law to be paid by the pier owner,<sup>2</sup> but he may be liable for damage to the lessee of another part of the dock, if he is responsible therefor<sup>3</sup> If, on terminating the lease, the tenant leaves rubbish on the premises, he will be liable for any damages occasioned thereby,<sup>4</sup> but such act does not amount to a continued use and occupation of the estate<sup>5</sup>

**Renewal of lease** The holding over by lessee after expiration of the lease, together with the continued payment of rent, creates a tenancy from year to year,<sup>6</sup> but is not a renewal or extension of the lease<sup>7</sup>

**Subletting.** An agreement to allow a steamboat owner to use a lessee's facilities to repair his steamboat is not a subletting in violation of the lease<sup>8</sup>

**Relief from forfeiture** Equity will not relieve against a forfeiture arising from breach of covenant, where there cannot be just compensation decreed for the breach<sup>9</sup>

**Tenant's claims as to title** A lessee, retaining rights secured by the lease, is estopped to controvert his landlord's title,<sup>10</sup> and his exercise of a wharfing-out privilege cannot ripen into adverse title<sup>11</sup>

## (2) Maintenance and Repair

A lease of a wharf may require the lessee to maintain it or keep it in repair, or to make good any damage from the occupation, and in such case the lessee's liability is not limited to repairs easily made.

A lease of a wharf may require the lessee to maintain it<sup>12</sup> or keep it in repair,<sup>13</sup> or to make good any damage from the occupation,<sup>14</sup> and in such case, the lessee's liability is not limited to repairs easily made<sup>15</sup> It has been held, however, that the lessee is under no obligation to reconstruct and re-

build levees and bulkheads destroyed by a storm of extraordinary violence<sup>16</sup>

### (3) Rent

The lessee of a wharf is liable for the rent expressly agreed to be paid, and the construction of the agreement by the parties may be considered in determining the amount due.

The lessee of a wharf is liable for the rent expressly agreed to be paid,<sup>17</sup> and the construction of the agreement by the parties may be considered in determining the amount due<sup>18</sup> It has even been held that the agreed rent must be paid although the premises were destroyed before entry under the lease,<sup>19</sup> or subsequently became useless for the purpose for which they were hired,<sup>20</sup> and a lessee in possession before execution of a rental contract requiring the lessor to furnish six feet of water has no right to refuse to pay rent or vacate the premises because of the lessor's failure to furnish such depth of water<sup>21</sup> There is no liability, however, for rent accruing after the passage of an ordinance which prevents lessees from using the leased pier<sup>22</sup> If a lessee continues to use the wharf after the termination of the lease, he remains liable for the value of such use,<sup>23</sup> and this value is determined by the rental stipulated for a like period in the lease<sup>24</sup> One who is let into possession under a contract to take a lease, but violates his agreement, must account, under an implied contract, for the wharfage received.<sup>25</sup>

*Defenses to actions for rent* Eviction is a good defense to an action on the lease to recover the rent,<sup>26</sup> and so is the failure to construct the wharf in conformity with the stipulations of the lease<sup>27</sup> Where the lessor made a deduction from the rent for the use of a part of the rented space, the lessee was

not entitled to credit for rent collected by the lessor from a third party for the use of such space<sup>28</sup>

*Ejectment for nonpayment.* The lessee of a wharf and slip may be ejected for nonpayment of rent,<sup>29</sup> and it is no defense that the lessor failed to maintain six feet of water in the slip as required by the lease contract, since such failure did not constitute an eviction<sup>30</sup>

## § 6. — Sale and Conveyance

Wharf rights may be the subject of a sale or reservation, and in the sale of a wharf the law imputes to a purchaser knowledge of all the facts appearing on the paper evidence of title which it is necessary for him to inspect to ascertain its sufficiency. The right to wharfage will pass as an incident to a pier sold on a tax sale.

Since a wharf right, as shown in Navigable Waters § 73 a, is a property right, it is the subject of sale,<sup>31</sup> and therefore it may also be the subject of reservation<sup>32</sup> In the sale of a wharf the law imputes to a purchaser knowledge of all facts appearing at the time of his purchase on the paper or record evidence of title which it is necessary for him to inspect to ascertain its sufficiency<sup>33</sup> The right to wharfage will pass as an incident to a pier sold on a tax sale<sup>34</sup>

*Construction* Where the terms of a contract for the sale of a wharf are expressed, they must control its construction<sup>35</sup> Where they are not thus expressed, however, the construction will be controlled by the use and condition of the property at the time of sale, and certain implications or presumptions of law arising thereon<sup>36</sup> Thus, flats necessary to the use of a wharf, and usually occupied with it, may pass as appurtenant to it<sup>37</sup> Such implications or presumptions, however, will only be applied in the

absence of an express contract on the subject between the parties <sup>38</sup>

## § 7. Government Regulation and Supervision

- a. In general
- b Rates

### a. In General

Wharves belong to a class of property in which the public is concerned, and as to which the government has reserved the right to regulate and control, and the government has a right of general supervision over the establishment and operation of wharves which is usually exercised by the enactment of statutes giving stipulated powers of supervision to boards or commissions

Wharves belong to a class of property in which the public is concerned,<sup>39</sup> and as to which the government has reserved the right, as between its citizens, to regulate and control <sup>40</sup> As shown in Commerce

§ 44, although wharves are related to commerce and navigation as aids and conveniences, nevertheless, being local in their nature, and requiring special regulations at particular places, the jurisdiction and control thereof, in the absence of congressional legislation on the subject, properly belong to the states in which they are situated. It has been held, however, that where no wharfage is charged the public, the legislature has no power of regulation, since no public interest is affected <sup>41</sup>

The government has a right of general supervision over the establishment of wharves<sup>42</sup> and their operation,<sup>43</sup> which is usually exercised by the enactment of statutes giving stipulated powers of supervision to boards or commissions<sup>44</sup> Among such powers may be enumerated the powers to supervise and regulate the making of wharves,<sup>45</sup> the mode in which they may be used and occupied,<sup>46</sup>

### Railroads furnishing wharfage

(1) Railroads opening their piers for a charge to truckers for carriage of cargo to or from seagoing ships are subject to regulation under Shipping Act as parties "furnishing wharfage . . . in connection with a common carrier by water" and hence are subject to orders of federal maritime board

US—Baltimore & O R Co v U S, CA 3, 201 F 2d 795

(2) The fact that such railroads may be subjected to regulation by federal maritime board in some respects and by interstate commerce commission in other respects does not render such regulation unlawful

US—Baltimore & O R Co v U S, supra

(3) Such railroads are subject to the act notwithstanding they did not receive, handle, store or deliver such truck-borne freight

US—Baltimore & O R Co v U S, CA 3, 208 F 2d 734

44. NY—In re Pier Old No 49, East River, in City of New York, 173 NYS 320, 185 App Div 539 reversed in part on other grounds and affirmed in part 124 NE 148, 227 NY 119

68 CJ p 212 note 1

### Authority limited to that given by statute

The authority of park and harbor commissioners is limited to that given them by the statute creating the commission, and under an act creating such commission to manage and control land and harbor improvements, excepting rights and privileges in lands theretofore granted, commission is unauthorized to interfere with possession of wharf property, title to which arose prior to the enactment through public sale by burgess and town council, which sale was followed by deed to predecessor of person in possession of wharf

Pa—Paasch v Wright, 177 A 795, 317 Pa 454

### Act fixing salaries of state officers and employees

(1) Held not violative of constitution as applied to employee of state docks commission

45. La—Warriner v Board of Com'rs of Port of New Orleans, 62 So 157, 132 La 1098

Pa—Kusenberg v Browne, 42 Pa 173

### Rejection of bids held lawful

Rejection by the board of harbor commissioners of all bids for the construction of a wharf was lawful where the board believed that the bids would prove to be too high for the appropriation and that such action was to the best interests of the public

Hawai—Marshall Const Co v Bigelow, 29 Hawai 641

46. La—Warriner v Board of Com'rs of Port of New Orleans, 62 So 157, 132 La 1098

Pa—Kusenberg v Browne, 42 Pa 173

### Berthing, loading, and unloading of vessels

The unrestrained berthing, loading, and unloading of vessels under the direction of one owner at one wharf is not in conformity with the purposes of the legislature in the creation of a port department, which through its commission, appointed to promote commerce for the harbor, should have the exclusive control and management of the port unhampered by those whose interests might tend to hinder the adequate and comprehensive development of the entire harbor

Cal—City of Oakland v El Dorado Terminal Co, 106 P 2d 1000, 41 Cal App 2d 320

Wharf storage facilities provided at shipside for cargo unloaded from water carriers are subject to regulation by the maritime commission, whether publicly owned or not, under

the erection of sheds,<sup>47</sup> the maintenance of a sufficient depth of water,<sup>48</sup> and the lighting and policing of wharves,<sup>49</sup> and much is sometimes left to the discretion of the board or commission.<sup>50</sup> It is the duty of commissioners, having charge and control of a public landing, to defend the rights of the public to the use of such landing.<sup>51</sup>

### b. Rates

Wharves are subject to governmental regulation in the matter of charges. By local state laws wharfage rates are generally required to be reasonable, and by those laws their reasonableness must be judged. A customary rate cannot control the statutory rate.

Wharves are subject to governmental regulation in the matter of charges,<sup>52</sup> the right being based on

the theory that the right to wharfage is in the nature of a franchise from the sovereign, and occupation is affected with public interest,<sup>53</sup> and particular boards or commissions may be authorized to fix the rates of wharfage or dockage.<sup>54</sup> The federal Shipping Act, 46 U.S.C.A. § 816, which deals with persons furnishing wharfage facilities and gives a federal board power whenever it finds that any regulation or practice is unjust or unreasonable, to determine, prescribe, and order enforced a just and reasonable regulation or practice, is comprehensive enough to give the board power over persons furnishing wharfage facilities with respect to rates, even though the words "rates" or "rate-making power" are not used in connection with the board's power over those persons.<sup>55</sup> As shown in Com-

the Shipping Act of 1916, §§ 1, 17, as amended, 46 U.S.C.A. §§ 801, 816

US—State of California v U S, Cal, 64 S Ct 352, 320 US 577, 88 L Ed 322, rehearing denied 64 S Ct 516, 321 US 802, 88 L Ed 1089, and City of Oakland v U S, 64 S Ct 516, 321 US 802, 88 L Ed 1089

### 54. Statutes construed

(1) The statute relating to the regulation and supervision of storage warehouses by the department of public service while excluding docks and wharves and definitely defining them, was intended to allow port commissioners to retain rate-fixing jurisdiction over water-borne goods only, and was not intended wholly to exclude docks and wharves from the jurisdiction of the department.

Wash—State ex rel Port of Seattle v Department of Public Service, 95 P 2d 1007, 1 Wash 2d 102

(2) Under such statute the carriage of goods via land from dock at which vessel berthed to the dock to which goods are consigned is an operation which is merely incidental to the carriage by water and does not divest goods of their water-borne character, so as to deprive commissioners of port of the right to fix rates on goods consigned to its dock but discharged at another dock and transported by land to the dock of the port

Wash—State ex rel Port of Seattle v Department of Public Service, supra

(3) Where, however, goods were consigned to consignee by way of water and arrived at a dock other than that of the port and consignee took delivery at the dock where goods were discharged from boat and subsequently selected dock of the port as the most advantageous place for storage and at his discretion goods were moved to the dock of the port by way of truck to be transshipped by land at a later date, goods lost their water-borne character upon delivery to the consignee at the dock where they were discharged from incoming vessel, and port commissioners had no power to fix warehouse rates as to such goods, but power resided in department of public service under statute

Wash—State ex rel Port of Seattle v Department of Public Service, supra

55. Pa—McNeely & Price Co v Philadelphia Piers, 196 A 846, 329 Pa 113

### Demurrage or storage charges

(1) The maritime commission, having found that terminal operators were making noncompensatory wharf demurrage or storage charges and allowing excessive free time, was not

limited to a general prohibition against further preferential and unreasonable practices, but had power to prescribe schedules of maximum free time and of minimum charges, and properly fixed charges that would reflect the actual cost of services, since noncompensatory demurrage would necessitate overcharges for other services

US—State of California v U S, Cal, 64 S Ct 352, 320 US 577, 88 L Ed 322, rehearing denied 64 S Ct 516, 321 US 802, 88 L Ed 1089, and City of Oakland v U S, 64 S Ct 516, 321 US 802, 88 L Ed 1089

(2) The determination of the proper cost basis should be left to the discretion of the commission

US—State of California v U S, D C Cal, 46 F Supp 474, affirmed 64 S Ct 352, 320 US 577, 88 L Ed 322, rehearing denied 64 S Ct 516, 321 US 802, 88 L Ed 1089, and City of Oakland v U S, 64 S Ct 516, 321 US 802, 88 L Ed 1089

(3) The withholding of rate-making power for services other than water carriage does not qualify the unlimited statutory grant to the commission of power to stop effectively all unjust and unreasonable practices in receiving, handling, storing, or delivering property

US—State of California v U S, Cal, 64 S Ct 352, 320 US 577, 88 L Ed 322, rehearing denied 64 S Ct 516, 321 US 802, 88 L Ed 1089, and City of Oakland v U S, 64 S Ct 516, 321 US 802, 88 L Ed 1089

(4) The phrase "regulation or practice" in the Act extends to discrimination resulting from noncompensatory wharf demurrage or storage charges

US—State of California v U S, Cal, 64 S Ct 352, 320 US 577, 88 L Ed 322, rehearing denied 64 S Ct 516, 321 US 802, 88 L Ed 1089, and City of Oakland v U S, 64 S Ct 516, 321 US 802, 88 L Ed 1089

merce § 136, the rates of wharfage for the use of public wharves may in the absence of federal legislation, be governed by local state laws. By such laws wharfage rates are generally required to be reasonable; and by those laws their reasonableness must be judged.<sup>56</sup> Rates may properly be fixed to promote the policy of benefiting the commerce of the port,<sup>57</sup> but a customary rate of wharfage cannot control the rates fixed by statute.<sup>58</sup>

The taking of tolls without a permit from, or regulation by, the duly constituted authorities may not be said to constitute a dedication of wharfing facilities for public use.<sup>59</sup>

*Extortionate wharfage.* Where wharfage charged is extortionate, it is for the state so to regulate it as to prevent extortion.<sup>60</sup>

## § 8. Licenses and Taxes

A license tax or occupation tax may be imposed on a wharf, and a tax for the privilege of conducting a wharfbow may be imposed.

(5) The furnishing of storage at nominal rates, on expiration of free time period amounts substantially to an extension of the free time and results in discriminatory and unreasonable practices  
US—State of California v U S, D C Cal, 46 F Supp 474, affirmed 64 S Ct 352, 320 US 577, 88 L Ed 322, rehearing denied 64 S Ct 516, 321 US 802, 88 L Ed 1089, and City of Oakland v U S, 64 S Ct 516, 321 US 802, 88 L Ed 1089

(6) Maritime commission's rate order, which did not affect the rates and practices of any terminals outside water fronts located in the state, did not conflict with provision of the federal constitution that no preference shall be given by any regulation of commerce or revenue to the ports of one state over those of another  
US—State of California v U S, D C Cal, 46 F Supp 474, affirmed 64 S Ct 352, 320 US 577, 88 L Ed 322, rehearing denied 64 S Ct 516, 321 US 802, 88 L Ed 1089, and City of Oakland v U S, 64 S Ct 516, 321 US 802, 88 L Ed 1089

### "Free time"

(1) Board has authority to make reasonable rules and regulations with respect to duration of "free time" given truckers for the removal of water-borne freight from railroad piers

US—Baltimore & O R Co v U S, C A 3, 208 F 2d 734

(2) Evidence sustained order of the board increasing the duration of "free time" given and applying the order to export freight, domestic cargo, and long-haul freight.

US—Baltimore & O R Co v U S, supra

(3) Evidence did not establish that such order was invalid on the ground that it favored the truck freight over rail freight

US—Baltimore & O R Co v U S, supra

### Public owners

The term "person," as used in the Shipping Act, includes an entity other than a technical corporation, partnership, or association if the plain purposes of the act preclude the exclusion of such entity, and hence it includes the state as well as a city operating waterfront piers and terminals

US—State of California v U S, Cal, 64 S Ct 352, 320 US 577, 88 L Ed 322, rehearing denied 64 S Ct 516, 321 US 802, 88 L Ed 1089, and City of Oakland v U S, 64 S Ct 516, 321 US 802, 88 L Ed 1089

56 US—Ouachita & Mississippi River Packet Co v Aiken, La., 7 S Ct 907, 121 US 444, 30 L Ed 976

68 C J p 211 note 93

57. US—Ulster S S Co v Board of Com'rs of Port of New Orleans, C A La., 299 F 474, certiorari denied 45 S Ct 99, 266 US 620, 69 L Ed 472

58. US—The Scow No 15, N Y, 92 F. 1008, 34 C C A 149

59. Cal—City of Oakland v El Dorado Terminal Co, 106 P 2d 1000, 41 Cal App 2d 320.

60 US—Cannon v. New Orleans, La., 20 Wall 577.

Although, under the federal Constitution, article 1 § 10, a state cannot provide for any tonnage tax, a license tax<sup>61</sup> or occupation tax<sup>62</sup> may be imposed on a wharf. So a statute may impose a tax for the privilege of conducting a wharfbow.<sup>63</sup> A corporation engaged solely and exclusively in operating machinery for removing freight from ships to railroad cars is not engaged in the business of keeping a landing within the meaning of a statute imposing a license tax.<sup>64</sup>

## § 9. Management and Use

Where a wharf is public, the owner is under obligations to concede to others the privilege of using it on payment of reasonable wharfage, but where it is private, he has the right to the exclusive use and enjoyment, or to permit such individuals to enjoy it as he sees proper.

Where a wharf is public, the owner is under obligations to concede to others the privilege of using it on payment of reasonable wharfage,<sup>65</sup> but where it is private, he has the right to the exclusive use and enjoyment, or to permit such individuals to enjoy it as he sees proper,<sup>66</sup> even though the wharf

68 C J p 212 note 17.

extends beyond low-water mark, and was erected without the consent of the state,<sup>67</sup> and even though there may be no other wharf at the place<sup>68</sup>

Where a city erects a dock on land belonging to the United States which becomes part of the federal government's land, the public of the city at best has a mere license to use the dock, and the United States has a right to terminate the use of the dock<sup>69</sup>

*Adverse right by public as against private owner.* The public cannot obtain an adverse right as against a private wharf owner by mere user<sup>70</sup> In order to obtain it there must be an intention on the part of the owner to dedicate the property to the use of the public and there must be an acceptance of such dedication on the part of some public authority, which may sometimes be implied,<sup>71</sup> and in the absence of such dedication and acceptance the use will be regarded as under a simple license,<sup>72</sup> subject to withdrawal at the pleasure of the owner by giving reasonable notice,<sup>73</sup> and, after he has given such a notice to an individual, and thereby revoked the license as to him, an entry on the latter on the wharf is a trespass for which an action will lie,<sup>74</sup> but it is otherwise before notice has been given<sup>75</sup>

## § 10. — Mode and Purpose of Use

Vessels resorting to a public wharf are subject to the general rules of law regulating the use of such property and the mooring of vessels, and the mode and purpose of use may be the subject of a special agreement between the parties.

Vessels resorting to a public wharf are subject to the general rules of law regulating the use of such property and the mooring of vessels;<sup>76</sup> and the mode and purpose of use may be the subject of a special agreement between the parties<sup>77</sup> While, as shown in Highways § 1 a, a wharf is not in any ordinary sense a highway, the keeping of a pier gives a license to draymen to enter thereon in the following of their employment,<sup>78</sup> but a wharf located on a public street is not to be made a place for keeping or storing personal property<sup>79</sup> All business done on wharves or marginal streets must be in connection with the loading and unloading of vessels at the piers, docks, and bulkheads thereof<sup>80</sup> Under some statutes sheds may be constructed on piers and a prescriptive right to maintain sheds may be acquired, not extending beyond right given by statute<sup>81</sup>

*Private rules and regulations* A wharfinger, who is required to permit the use of his wharves for the loading and unloading of vessels with a view to the welfare of the public, may make reasonable rules and regulations looking to the control and management of the business conducted on them,<sup>82</sup> but he cannot impose unreasonable restrictions.<sup>83</sup> He may prohibit the use of the wharf for unusual and unaccustomed purposes,<sup>84</sup> and may limit the use for discharging vessels as the convenience of the wharf makes reasonable because of its size, convenience, or amount of business,<sup>85</sup> but he cannot create a monopoly<sup>86</sup> In order that a rule may

be binding in such case notice thereof must be proved,<sup>87</sup> unless the rule is unreasonable, in which case it is immaterial whether the shipowner had notice of the rule or not<sup>88</sup>

*Choice of berths* The choice of berths at a public wharf may be under the control of the dockmaster, as shown in Navigable Waters § 17, or it may be regulated by the custom of the port<sup>89</sup>

*Unloading* A wharf owner who has become bound to unload a vessel at his wharf must do so within a reasonable time,<sup>90</sup> and the vessel owner does not waive his rights by allowing the vessel to be discharged at a later time<sup>91</sup>

## § 11. Wharfage

Wharfage is defined supra § 1 Matters relating to the right to wharfage, the amount thereof, and liens therefor are considered infra §§ 12-15.

Examine Pocket Parts for later cases.

## § 12. — Right to Wharfage

- a In general
- b Mode and extent of use
- c Persons entitled
- d Persons or vessels liable

### a. In General

The owner, proprietor, or keeper of a wharf is entitled to a reasonable remuneration for the use of it by others, and the right to collect wharfage is an incorporeal right incident to the use of a wharf for the mooring, loading, and unloading of vessels

The owner, proprietor, or keeper of a wharf is entitled to a reasonable remuneration for the use

of it by others<sup>92</sup> The right to collect wharfage is an incorporeal right incident to the use of a wharf for the mooring, loading, and unloading of vessels<sup>93</sup> The right to collect wharfage may exist as an incident to the ownership of land abutting on a navigable river, being a riparian right of the proprietor, and, as such, a right of property, subject of course to reasonable legislative regulation,<sup>94</sup> or it may exist as a franchise conferred by legislative grant<sup>95</sup> Compensation for wharfage may be claimed on an express or an implied contract, according to the circumstances,<sup>96</sup> and even statutory charges may be superseded by a specific bargain with a private wharf owner for a different rate<sup>97</sup> If the proprietor of wharf privileges permits a town to erect a wharf and collect tolls, he will be entitled to only a reasonable compensation for the use of the river bank, and not to the tolls<sup>98</sup>

### b. Mode and Extent of Use

Generally, every use of a wharf, even for a short period of time, will render the user liable for wharfage charges, and wharfage may be chargeable for a vessel not attached to the wharf at all, but attached only to other vessels which are so attached

No use of a wharf can be made even for a few minutes, without liability being incurred,<sup>99</sup> the idea of use of the private property of the wharfinger being at the root and of the essence of a legal wharfage charge<sup>1</sup> What constitutes a use of a wharf such as will involve liability for wharfage depends on the circumstances of the case,<sup>2</sup> unless the statutes define in what that use is to consist<sup>3</sup> As the word is ordinarily understood, wharfage may be said to accrue when a vessel makes use of a wharf for the purpose of receiving or discharging cargo

#### Use of natural landings

Where government, as owner of land constituting the Alaska railroad's terminal reserve, could if it

desued, have prevented any person from having access thereto, government could make whatever reasonable charges it saw fit for use of land, so that, where government demanded of ocean carrier wharfage charges for use of beach located on such terminal reserve for discharge of cargo, fact that tariff containing schedule of wharfage rates mentioned docks or wharfs only, without reference to use of shore land, did not prevent recovery by government of wharfage charges for use of shore land

or passengers,<sup>4</sup> or for the purpose of safety or protection,<sup>5</sup> or as a place for mooring<sup>6</sup>

Wharfage may be chargeable for a vessel not attached to the wharf at all, but attached only to other vessels which are so attached,<sup>7</sup> and it may become due, although no cargo be discharged from the vessel on the wharf, or taken from the wharf on board the vessel.<sup>8</sup> It has been held that mere anchorage at a wharf does not authorize a wharfage charge<sup>9</sup> unless the statute so provides,<sup>10</sup> and a charge for wharfage is not authorized by the fastening of a line from a vessel sunk at the wharf,<sup>11</sup> or not alongside the wharf.<sup>12</sup>

*Overlapping use* In the absence of statutory authority therefor, wharfage cannot ordinarily be charged against one whose vessel, lying in public waters, under reasonable circumstances overlaps an adjoining wharf,<sup>13</sup> particularly where the overlapping does not injure the wharf owner.<sup>14</sup> The statutes relating to this matter are not uniform, some permitting a recovery for such a use,<sup>15</sup> and others denying it.<sup>16</sup> However, while overlapping is not the ordinary use which gives rise to a claim for wharfage, yet it has been held that the occupancy of a berth in a private dock so as to overlap the adjoining wharf is such a beneficial use of the adjoining owner's property as to entitle him to compensation therefor,<sup>17</sup> especially where lines are fastened to the wharf.<sup>18</sup> One who paid compensa-

tion for years for the overlapping of another's wharf, may not deny his liability to pay for the privilege.<sup>19</sup>

### c. Persons Entitled

Generally speaking, the right to wharfage goes with the wharf, and the owner of upland to which wharfage attaches is entitled thereto as long as he retains the ownership of the soil.

Generally speaking, the right to wharfage goes with the wharf,<sup>20</sup> and such right may be conveyed by grant.<sup>21</sup> The owner of upland to which wharfage attaches is entitled thereto as long as he retains the ownership of the soil,<sup>22</sup> and while a giving to the public of a perpetual right of way over the land, without an actual grant or conveyance thereof, does not constitute a relinquishment of any of his rights incident to his ownership in the fee,<sup>23</sup> the condemnation of his land terminates his right to wharfage.<sup>24</sup> A municipality cannot deprive a private owner of his right to wharfage<sup>25</sup> except on payment of just compensation.<sup>26</sup> Under some statutes wharfage may be apportioned between owners of adjoining wharves.<sup>27</sup>

*Tenants in common* Where there are several owners of a wharf, they become tenants in common of the revenue arising from the use of it,<sup>28</sup> and this revenue or income is apportioned among them according to the extent of each party's ownership.<sup>29</sup>

29 US—The City of Hartford, DCNY, 5 FCas No 2,751, 10 Ben 150 NY—Verplanck v. New York, 2 Edw. 220.

*Lessor and lessee.* If a public wharf is leased by a municipality, the lessee becomes entitled to the wharfage,<sup>30</sup> although he cannot demand compensation from persons using such wharf as a highway.<sup>31</sup> A lessee of water front may make a charge for yard rent while a vessel is being repaired.<sup>32</sup> A lease for the use of certain vessels does not authorize the lessee, however, to charge wharfage for other vessels.<sup>33</sup> Thus, it is held that the lease of a pier to a steamship company does not deprive the owner of the right to collect wharfage for a use of the slip by other vessels.<sup>34</sup>

#### d. Persons or Vessels Liable

The owner or agent of a vessel using a wharf, the consignee of the cargo, a factor, a charterer, or the vessel itself, may be liable for wharfage charges; but a person using a public wharf as a highway or one who has acquired by deed a right of way over a wharf is not required to pay wharfage.

Under the statute or by agreement of the parties, the owner or agent of a vessel using a wharf,<sup>35</sup> the consignee of the cargo,<sup>36</sup> or a factor,<sup>37</sup> may be liable for wharfage charges. Where a vessel is chartered, the owner is not responsible for wharfage afterward incurred, but the remedy is against the vessel<sup>38</sup> or the charterer.<sup>39</sup> Persons using a public wharf as a highway are not required to pay wharfage,<sup>40</sup> nor is one who has acquired by deed a right of way over a wharf.<sup>41</sup> The owner of a warehouse and adjoining pier is under no obligation, however, to furnish free wharfage to a lighter employed by the owner of wool stored in the ware-

house, to receive and remove such wool.<sup>42</sup>

*Vessels.* Under proper circumstances, any floating structure may be subject to a charge for wharfage,<sup>43</sup> as for instance a floating dry dock,<sup>44</sup> a floating boat house,<sup>45</sup> an oyster barge,<sup>46</sup> a "dead ship," that is, one entirely withdrawn from commerce and navigation,<sup>47</sup> or a vessel so injured as not to be navigable.<sup>48</sup> Furthermore, the nature of the service or the character of the contract is not changed by the circumstances that the watercraft is without masts, or sails, or other motive power of her own.<sup>49</sup> Where a tug leaves her tow at a wharf for her own convenience, wharfage may, under some statutes, be collected of either.<sup>50</sup>

### § 13. — Amount

- a In general
- b Contracts
- c Nature, mode, and extent of use
- d Reduced rates, extra charges, and double charges

#### a. In General

Statutory provisions fixing the specific amounts to be charged as wharfage must be followed, and in the absence of a statute or contract specifically fixing the amount, the amount of wharfage charged must be reasonable. Charges may be graduated by the tonnage of the vessels using the wharf, or wharfage can be fixed at the market rate.

Statutory provisions fixing the specific amounts to be charged as wharfage are mandatory and must be followed.<sup>51</sup> In the absence of a contract or statute

Government regulation of rates generally see supra § 7

#### Indirect rebate held illegal

Wharfinger's conduct whereby wharfinger succeeded by indirection in giving rebate to certain shippers and brought about condition under which unequal and discriminatory rates were in effect constituted violation of rebate and preference sections of Public Utilities Act; wharfinger could not justify its action in permitting car loading and unloading of freight without assessing and collecting charges contained in published tariffs on ground that same discriminatory practice prevailed in certain docks which were publicly owned and therefore beyond regulatory power of commission, where there was no evi-

specifically fixing the amount, the amount of wharfage charged must be reasonable<sup>52</sup> Charges for wharfage may be graduated by the tonnage of the vessels using the wharf,<sup>53</sup> computed on a basis of registered<sup>54</sup> or of gross<sup>55</sup> tonnage Like demurrage, wharfage can be fixed at a market rate, which represents the amount of damage, loss of profits, etc<sup>56</sup> A shipowner using a wharf after notice of the scale of charges is liable in accordance with such scale<sup>57</sup>

*Free wharfage and exempt goods* Under the provisions of some statutes or special agreements certain goods may be exempted from wharfage charges under certain circumstances<sup>58</sup> Provision may also be made for free wharfage for the assembling of cargo for seven days after the assignment of a wharf to a vessel<sup>59</sup>

*Excessive or illegal charges* Where wharfage charges are excessive, the proper remedy seems to be to commence an action at law to determine the excess, and, the excess being thus established, to seek an injunction from a court of equity to restrain the collection of such excess<sup>60</sup> So, in a case where no wharfage can be legally demanded, an injunction will issue to prevent the collection thereof<sup>61</sup> An illegal wharfage charge, not voluntarily paid, may be recovered back,<sup>62</sup> but the rule is different if the payment is voluntary<sup>63</sup> Damages are sometimes expressly given by statute for extortion in exacting wharfage,<sup>64</sup> but such statutes being

highly penal, no presumptions may be indulged in against defendant in an action thereunder.<sup>65</sup>

### b. Contracts

In the absence of a regulation of prices for the use of private wharves, the parties are at liberty to make their own bargain as to compensation; in such case the rule that wharfage charges must be reasonable does not apply.

Where there is no regulation of prices for the use of private wharves, the parties are at liberty to make their own bargain as to compensation<sup>66</sup> In such case the rule that wharfage rates must be reasonable does not apply, and any rate satisfactory to the contracting parties may be charged<sup>67</sup> Where a price is agreed on for the use of the wharf, the contract furnishes the measure of compensation,<sup>68</sup> and when the wharf is used without any such agreement, the contract is implied, and the proprietor is entitled to recover what is just and reasonable for the use of his property and the benefit conferred.<sup>69</sup> A ship compelled by stress of weather to moor to a private wharf is not liable to a wharfage charge, however, where no fixed rate is in use, there being no implied contract in such case<sup>70</sup>

### c. Nature, Mode, and Extent of Use

The amount chargeable as wharfage depends in a large measure on the language of the statutes or port regulations, or on the recognized usage of the port, and may be governed by the nature, mode, and extent of the use of the wharf

The amount chargeable as wharfage depends in

dence that private car unloaders operating in such docks ever made charges less than standard rate, or that any shipper made any special profit

### Subsequent purchasers of vessel

Where libellant caused the arrest of a vessel and she was withdrawn from navigation and placed at libellant's wharf, claimants of the vessel, who were sisters of the owner and lived at the same address used by him, were chargeable with knowledge of the agreed rate of wharfage at time of transfer of vessel's title to them

US—Murray v The Meteor, DC NY, 83 F Supp 212

69. Fla—Bagdad Land & Lumber Co v Louisville & N R Co, 172 So 851, 127 Fla. 139

70. US—Heron v The Marchioness, CCA Fla, 42 F 173.

a large measure on the language of the statutes or port regulations,<sup>71</sup> or on the recognized usage of the port<sup>72</sup> Thus, full rates are usually allowed where a vessel uses or is made fast to a wharf,<sup>73</sup> and have been allowed for the use of a stage berth<sup>74</sup> or the use of a dock without the wharf,<sup>75</sup> and under some circumstances, for a use by two vessels lying abreast<sup>76</sup> Under some statutes half rates are chargeable where a vessel is made fast to another vessel lying at a wharf,<sup>77</sup> or for anchorage in the slip or basin<sup>78</sup> No wharfage may be collected, however, for the period during which a vessel lies sunk<sup>79</sup> Where a vessel lying at a wharf overlaps on the next adjoining wharf, the owner of the adjoining wharf may recover a pro rata proportion of the customary wharfage charge on such vessel<sup>80</sup> While a vessel which makes fast to two distinct wharves must pay accordingly,<sup>81</sup> only one charge can be made for a single berth,<sup>82</sup> even though the wharf is owned by several persons<sup>83</sup> A wharfage charge can be allowed only for the time the vessel actually occupied the wharf,<sup>84</sup> and, even though a price is agreed on, the entire contract price cannot be recovered where the vessel was not at the wharf the whole period<sup>85</sup>

#### d. Reduced Rates, Extra Charges, and Double Charges

Under certain circumstances, a vessel may be entitled to reduced rates of wharfage or may contract for less than the usual rate, on the other hand, a vessel may be liable to extra charges

Under certain circumstances, a vessel may be entitled to reduced rates of wharfage<sup>86</sup> or may contract for less than the usual rate<sup>87</sup> On the other hand, a vessel may in some cases be liable to extra charges<sup>88</sup> Thus, under some statutes, double wharfage may be recovered by a wharfinger from a vessel which leaves the wharf without first paying wharfage,<sup>89</sup> provided a demand has been made of the owner of the vessel or other person in charge of her,<sup>90</sup> but such statutes are not applicable to vessels otherwise provided for, such as those in the clam or oyster trade<sup>91</sup> The added amount is not a penalty, but is a wharfage rate<sup>92</sup> It is, moreover, dependent on the right to single wharfage<sup>93</sup>

### § 14. — Lien

- a In general
- b Creation, termination, and revival
- c Enforcement

#### a. In General

A maritime lien exists on vessels and other floating structures for wharfage charges, and may arise either by virtue of the common law or under a statute.

A maritime lien exists on vessels and other floating structures for wharfage charges<sup>94</sup> Thus, a contract, express or implied, for wharfage furnished a foreign vessel is a maritime contract, and the proprietor of the wharf has a maritime lien on the vessel for his wharfage fees,<sup>95</sup> and, also, wharfage

furnished to a domestic vessel held to be maritime in its nature,<sup>96</sup> and a lien arises therefor enforceable in admiralty, when the wharfage is furnished in the ordinary course of navigation<sup>97</sup> No such lien ordinarily arises, however, where the vessel has been withdrawn from navigation,<sup>98</sup> as where a vessel is kept for the purpose of storage<sup>99</sup> or sinks at the wharf<sup>1</sup> A wharfage claim is entitled to a maritime lien, whether the wharf is privately or publicly owned,<sup>2</sup> and even in a vessel's home port<sup>3</sup>

**Statutory lien** On a domestic vessel within the state to which she belongs, the state has unrestricted power to create liens, under such limitations as it may determine,<sup>4</sup> and the use of the word "lien" is not essential to its creation<sup>5</sup> The statutes creating such liens may apply to private wharves<sup>6</sup> and the liens so created may be enforced in admiralty,<sup>7</sup> if the conditions of the statute which assumes to give them are complied with<sup>8</sup>

**Waiver** A wharf proprietor may waive his lien,<sup>9</sup> either expressly or impliedly, as by failing to enforce it for an unreasonable length of time,<sup>10</sup> but no usage or custom can displace it or prevail in conflict with the law which gives it<sup>11</sup> The taking of a bond to secure payment of wharfage charge

is not a waiver of the right to a lien<sup>12</sup> The doctrine that a lien against the vessel is waived by one who looks wholly to the credit of some person is inapplicable where the lienholder was unaware of the financial difficulties of the person on whose credit he was relying<sup>13</sup>

**Priorities** A lien for wharfage is made, under the general maritime law, a lien next in rank to wages<sup>14</sup> The proceeds of a vessel arrested and sold to satisfy claims are chargeable with preferred claims for wharfage<sup>15</sup>

### b. Creation, Termination, and Revival

In order to create a lien for wharfage, it is necessary that the contract be made by some person who has authority to pledge the vessel to the performance of the contract, in addition, the services must be rendered on the credit of the ship

In order to create a lien for wharfage, it is necessary that the contract be made by some person who has authority to pledge the vessel to the performance of the contract,<sup>16</sup> as, for instance, the charterer or his agent,<sup>17</sup> when acting with such authority<sup>18</sup> Moreover, there must be in all cases, either in fact or by presumption of law, a credit of the ship,<sup>19</sup> and when such credit is negatived by the evidence, no such lien, whether maritime or statutory, will

### Notwithstanding another attachment against vessel

Where libellant caused arrest of a vessel and she was withdrawn from navigation and placed at libellant's wharf, libellant was entitled to assert, as a preferential claim, the fair and reasonable value of the vessel's occupancy of part of the pier which he operated, notwithstanding another attachment was in effect during a portion of time embraced in libellant's claim, where primary benefit of wharfage was the preservation of the vessel for its owners

be recognized<sup>20</sup> So where the contract embraces other valuable considerations, the supply of which would give no lien against the ship, and which cannot be separated from the wharfage proper, no lien will arise<sup>21</sup>

*Termination of lien* A lien for wharfage arises from day to day and has been held to cease on the arrest of the vessel,<sup>22</sup> although a lien for wharfage has been sustained as a service rendered to the ship after arrest in aid of her safekeeping which inured to the benefit of her owners<sup>23</sup>

*Revival of lien* Where a vessel is removed secretly or wrongfully from a wharf, and afterwards brought back without fraud or force, the lien of the wharfinger is revived<sup>24</sup>

### c. Enforcement

A wharfinger may enforce his lien by a proceeding in rem against the vessel or the proceeds arising from her sale by order of a court of admiralty, or he may sue the owner in personam, and when permitted by statute the lien may be enforced by distress.

A wharfinger may enforce his lien by a proceeding in rem against the vessel<sup>25</sup> or the proceeds arising from her sale by order of a court of admiralty,<sup>26</sup> or he may sue the owner in personam<sup>27</sup> A public boat, devoted to a specific public use, however, cannot be arrested to enforce such a lien<sup>28</sup> A wharfage lien is not ordinarily one which can be enforced by a detention of the vessel,<sup>29</sup> but only by an application to the court,<sup>30</sup> and that not in exclusion, but in concurrence, with other liens standing in the same

degree of privilege<sup>31</sup> The lien is good in the hands of whoever holds it<sup>32</sup> When permitted by statute a lien for wharfage may be enforced by distress.<sup>33</sup>

### § 15. — Remedies

Claims for wharfage may, in a proper case, be enforced in admiralty or by action, and general rules of procedure apply.

A court of admiralty has jurisdiction of a claim for wharfage, such claim being maritime in its nature,<sup>34</sup> and it has been held that the jurisdiction of admiralty is, except as to common-law remedies, exclusive,<sup>35</sup> and that a state statute providing for attachment and other proceedings in rem against vessels for such a claim is void.<sup>36</sup> An admiralty court has also jurisdiction of a claim for the statutory rate of double wharfage imposed in the case of a departure without payment of wharfage<sup>37</sup> Where the vessel is withdrawn from commerce and the wharfage is in the nature of storage, an admiralty court has no jurisdiction<sup>38</sup>

The common-law remedy for the collection of wharfage is by action,<sup>39</sup> but where the method is prescribed by statute, such method must be followed<sup>40</sup>

*Defenses in general* Where defendant has had the use of the wharf, and plaintiff was in possession under color of title it is no defense to a claim for wharfage that plaintiff's title is defective<sup>41</sup> Furthermore, one using a wharf cannot resist payment of wharfage on the ground that the wharf had not been well built or was out of repair.<sup>42</sup> It

Pa—Prescott v Burgess & Town Council of Duquesne, 48 Pa 118.

has also been held that plaintiff's assignment of its interest in the suit was no defense <sup>43</sup>

*Laches* The question of laches depends largely on the facts of the particular case.<sup>44</sup> Thus, under one set of facts, the defense was not available after a delay of three years,<sup>45</sup> while under another, the question was "hardly open" after two and a half years <sup>46</sup>

*Set-off and counterclaim.* The defendant may show, by way of recoupment, that the port and wharves<sup>47</sup> or other places required to be kept in repair by the wharfinger<sup>48</sup> were out of repair, whereby he sustained damage. However, a claim in favor of a third person cannot be set off <sup>49</sup>

*Parties* Remedies, whether by action or distress, must be pursued in the name of the party in interest,<sup>50</sup> and not in the name of the agent who made the contract or one who is appointed to make the collection or do both <sup>51</sup> An action to recover wharfage is not an action for the recovery of real or personal property, and persons claiming to own the wharf are not necessary parties to an action for wharfage <sup>52</sup> A wharf owner may maintain assumpsit against the owner of an adjacent wharf, rather than proceeding against overlapping vessels <sup>53</sup> Steamers are not jointly liable for lighter wharfage, and therefore not subject to be impleaded in a libel against harbor craft receiving cargo from,

or delivering it to, such steamers.<sup>54</sup>

*Evidence.* Plaintiff, in order to recover in an action for wharfage, has the burden of proof to establish his right to such wharfage,<sup>55</sup> as his right under an agreement therefor <sup>56</sup> A lessee must show a proper lease of the wharf to him.<sup>57</sup> One contracting for wharf facilities at a rate in excess of that prescribed by statute will be presumed to have waived the statute <sup>58</sup> The boat owner has the burden to prove an agreement not to charge wharfage <sup>59</sup> In an action to recover wharfage charges allegedly wrongfully exacted, plaintiff is required to show that in equity and good conscience the money defendant has is really plaintiff's, and defendant should not keep it <sup>60</sup>

Ordinarily, any relevant and material evidence, otherwise admissible, may be received in an action for wharfage <sup>61</sup> Thus, testimony pertinent to the question of the value of the use of plaintiff's property by defendant is admissible,<sup>62</sup> and where a plaintiff is entitled to the wharfage received by defendant, and the latter refuses to state the amount received, plaintiff is entitled to prove what the reasonable wharfage would have been,<sup>63</sup> but testimony relating to an item of damages that is not recoverable should not be admitted <sup>64</sup>

A fact in issue is sufficiently proved by a preponderance of evidence in an action for wharfage <sup>65</sup>

US—The Libbie Purdy, DC Mass., 32 F Supp 67.

(3) Other illustrations

US—Sociedad Armadora Aristomenis

*Trial* The question of the nature of the contract for the use of a pier<sup>66</sup> and whether there was such a use of the wharf as would involve liability for wharfage<sup>67</sup> are questions for the jury in an action for wharfage. So, whether or not the wharf was a public wharf is a question of fact,<sup>68</sup> and where the right to wharfage depends on the existence of a grant from a municipal corporation, whether or not a grant will be presumed is peculiarly the province of a jury to determine.<sup>69</sup> A nonsuit should be granted where the evidence is insufficient to support plaintiff's cause of action.<sup>70</sup>

*Damages* In an action for wharfage for the use of a wharf by the overlapping of vessels lying at defendant's wharf, damages to the plaintiff's building situated within a few inches of the line of the wharf are not recoverable.<sup>71</sup>

## § 16. Injuries to Vessels or Cargoes

A proprietor of a dock is ordinarily bound to know its condition and is liable in damages to a person who, by his invitation, express or implied, makes use of it, for an injury caused by any defect or unsafe condition of the dock which the proprietor negligently causes or permits to exist, if such person was himself in the exercise of due care.

A proprietor of a dock is ordinarily bound to

know its condition<sup>72</sup> and is liable in damages to a person who, by his invitation, express or implied, makes use of it, for an injury caused by any defect or unsafe condition of the dock which the proprietor negligently causes or permits to exist, if such person was himself in the exercise of due care.<sup>73</sup>

*Degree of care required* While there is a duty to provide a safe berth<sup>74</sup> a wharf proprietor is not an insurer of the safety of his dock.<sup>75</sup> He is, however, required to use reasonable care to keep his dock in such a state as to be reasonably safe for use by vessels which he invites to enter it, or for which he holds it out as fit and ready,<sup>76</sup> and if he fails to use such due care, if there is a defect which is known to him, or which, by the use of ordinary care or diligence, should be known to him, he is guilty of negligence and liable to the person who, using due care, is injured thereby,<sup>77</sup> but it has been held that the wharfinger sufficiently discharges his duty to use reasonable care to furnish a safe berth if he warns the vessels.<sup>78</sup>

A wharf proprietor owes no duty to a trespasser,<sup>79</sup> but this rule applies only where he does not know of the presence of the trespasser, or have

**Right to presume berth was safe**  
Invitee had right to presume that berth was safe

US—Norfolk Tidewater Terminals v Wood Towing Corp., C C A Va., 94 F 2d 164

### Mutual advantage in mooring

Where use of respondent's property by loaded barges included use, for sometimes extended periods, of piers and slip, and there was a mutual advantage in this arrangement of temporary location, barge was an invitee and respondent was bound to use ordinary care for safety of those who had occasion to use premise for purposes for which they had been appropriated

US—Valentine v Pennsylvania R Co., D C N Y., 131 F Supp 108

### Mooring without charge

A towing company which moored loaded barges at wharf, in anticipation of arrival of ship on which cargo of barges was to be loaded, was an invitee of wharfinger, to whom wharfinger owed duty to use reasonable care to furnish safe berth, notwithstanding no charge was made by wharfinger for mooring of barges, in view of fact that it was customary to handle barges without charge for convenience of steamships which used wharfinger's piers

### Not trespasser

Tug entering slip in river to assist in undocking vessel berthed on north side of pier immediately south of pier maintained by riparian owner and standing on his land was not a "trespasser"

reason to expect his advent<sup>80</sup> As to a licensee, he is only bound to refrain from injuring the ship willfully or wantonly<sup>81</sup>

*In the application of the foregoing rules, dock proprietors have been held liable<sup>82</sup> or not liable<sup>83</sup> for injury to vessels, according to the facts of the particular case under consideration Thus, they have been held liable for loss due to explosion,<sup>84</sup> fire,<sup>85</sup> ice,<sup>86</sup> or storms,<sup>87</sup> for damage due to the collapse of the wharf,<sup>88</sup> or for the moving of a boat<sup>89</sup> or its capsizing<sup>90</sup>*

On the other hand, there was no liability in other cases, and, under different circumstances, where the loss was caused by landslide,<sup>91</sup> or solely by the unusual violence of a storm,<sup>92</sup> for damage from freezing,<sup>93</sup> collision,<sup>94</sup> or ice,<sup>95</sup> and for the disappearance of a boat<sup>96</sup>

## § 17. — Concealed Defects and Obstructions, and Shallow Water

A dock owner must exercise reasonable diligence to ascertain the existence of defects, obstructions, or other hazards that would operate to make the use of the wharf unsafe or perilous to vessels, and he is liable for any damage done to any vessel by reason of the neglect of such duty.

A dock owner must exercise reasonable diligence to ascertain the existence of defects, obstructions, or other hazards that would operate to make the use of the wharf unsafe or perilous to vessels, and he is liable for any damage done to any vessel by reason of the neglect of such duty,<sup>97</sup> and this rule applies whether the owner is an individual, or a corporation, whether such corporation is private or municipal,<sup>98</sup> and regardless of whether the wharf is maintained solely for the purpose of col-

**When duty accrues**

With respect to wharfinger's responsibility for damage to cargo and barge which sunk off dock, duty of wharfinger, which did not expect barge, could not have arisen before barge docked, and its duty accrued when its president and general manager directed mooring of barge  
US—The Mascot, DCNJ, 28 F Supp 770

98. US—Tracy Towing Line v City of Jersey City, DCNJ, 105 F Supp 910

68 CJ p 227 note 87

Duty of consignee to furnish safe berth see Shipping § 105.

lecting wharfage<sup>99</sup> The wharfinger is under the duty of exercising reasonable diligence in ascertaining the condition of the berths,<sup>1</sup> and the existence, if any, of dangerous obstructions<sup>2</sup> Where there are dangerous obstructions present, it is the duty of the wharf owner to remove them,<sup>3</sup> notify vessels using the wharf of their existence and position,<sup>4</sup> or close the wharf to the public<sup>5</sup> While it may be incumbent on a wharfinger to use reasonable diligence in ascertaining whether there is water sufficient to accommodate a boat of the character assigned to the berth for unloading,<sup>6</sup> and to give notice of the insufficiency of the water,<sup>7</sup> he is not ordinarily liable for damages caused by insufficient water<sup>8</sup>

*Owner's knowledge of defect or obstruction.* In

order to show that a wharf owner was negligent it is not necessary to show that he knew of the obstruction,<sup>9</sup> it being sufficient to show that he could have discovered its existence by reasonable diligence,<sup>10</sup> but a liability will not attach to the owner or occupant of the premises, if the defect or obstacle is so hidden that its existence cannot be discovered by a reasonable examination commensurate with the use to be made of the premises<sup>11</sup>

*In the application of these rules, wharf proprietors have been held liable for injuries to vessels resulting from an uneven bottom<sup>12</sup> or from submerged obstructions<sup>13</sup> such as rock,<sup>14</sup> coal,<sup>15</sup> cinders,<sup>16</sup> a sunken ship,<sup>17</sup> or spiles<sup>18</sup> On the other hand, liability has been denied in certain cases involving dangerous access to the wharf,<sup>19</sup> and cases*

in which defendants had no notice of the defect<sup>20</sup>

### § 18. — Moorings and Fastenings

The owner of a wharf owes a duty of reasonable care in berthing and in maintaining the fastenings on a vessel, and he is liable for damage to the vessel or its cargo due to his negligence in this respect

A vessel has the right to be furnished with reasonable and ordinary mooring devices<sup>21</sup>. The owner of a wharf owes a duty of reasonable care in berthing and in maintaining the fastenings on a vessel,<sup>22</sup> including the duty of inspecting the lines securing the vessel,<sup>23</sup> and he will be liable for damage to the vessel or its cargo due to his negligence in this respect<sup>24</sup>. Where the choice of lines and devices on a wharf used to secure a ship are supervised by an employee of the ship, the ultimate responsibility for mooring the vessel is on the ship and her owners<sup>25</sup>.

Where a master whose vessel is in peril attaches it to a private pier without the consent or license of the owner, he becomes a trespasser, and if the presence of the vessel at the pier endangers the safety of the pier or threatens its destruction, the owner may cut the vessel loose, and will not be liable to the vessel for such action<sup>26</sup>. Where, however, the occupancy of the wharf is lawful, the owner cannot terminate it by setting the vessel adrift, so as to endanger her safety, until he has

put the vessel owner in fault by giving him reasonable notice to remove his vessel.<sup>27</sup> Thus, a wharf owner may be liable for removing a vessel from his wharf to an unsafe place where she was injured,<sup>28</sup> but not where the lines holding a flotilla of barges broke<sup>29</sup>.

### § 19. — Defenses in General

The fact that other boats used a berth without injury, constitutes no defense, where the known condition of the berth is such as might be expected to produce injury, but inevitable accident affords a complete exoneration of a wharf owner.

Fact that other boats used a berth without injury, constitutes no defense, where the known condition of the berth was such as might be expected to produce injury<sup>30</sup>. Inevitable accident affords a complete exoneration of a wharf owner<sup>31</sup>. An injury caused by wind<sup>32</sup> or by ice floes<sup>33</sup> cannot, however, be said to be attributable to an act of God, where the physical circumstances are not unusual.

### § 20. — Contributory Negligence

Patrons using a wharf or slip are required to use ordinary care in the operation of their vessels, and, if by the exercise of such care, they could have discovered the defect or obstruction causing the injury, they are guilty of contributory negligence, which may bar recovery

Patrons using a wharf or slip are required to exercise ordinary care<sup>34</sup> and furnish seaworthy vessels,<sup>35</sup> and, if by such exercise of care, they

35. US—The Barrenfork, DC Va, 300 F. 366, modified on other

could have discovered the defect or obstruction causing the injury, they are guilty of contributory negligence, which may bar recovery<sup>36</sup> Thus, the failure to watch the tide, has been held to be contributory negligence,<sup>37</sup> and so has the failure to ascertain the depth of the water,<sup>38</sup> the failure to moor properly,<sup>39</sup> or to take notice of approaching storms,<sup>40</sup> leaving the boat unattended during a storm,<sup>41</sup> and the refusal to use appliances furnished by the wharfinger,<sup>42</sup> and the assumption of responsibility with knowledge of the danger will defeat recovery<sup>43</sup>

On the other hand, in the absence of notice of facts calling for its own investigation, a vessel berthing under a permit from the owner of the wharf is entitled to rely on the good reputation of the wharf<sup>44</sup> One in charge of a boat has a right to rely on the directions or assurances of wharf owners or their agents<sup>45</sup> and, in various cases, alleged negligent conduct has been held not to be neg-

ligence contributing to the injury,<sup>46</sup> as, for example, where the alleged contributory negligence was failure to examine the bottom,<sup>47</sup> leaving the boat unattended,<sup>48</sup> or alleged incompetent navigation<sup>49</sup>

## § 21. — Persons Liable

In addition to the liability of the owner and lessee of a wharf for injuries to vessels or cargoes, liability has also been imposed on shipowners, and a ship itself.

In addition to the liability of the owner or lessee of a wharf for injuries to vessels or cargoes, liability has also been placed on shipowners,<sup>50</sup> and a ship itself<sup>51</sup> A principal may be held liable for the acts of his agent causing injury<sup>52</sup> or for those of an independent contractor who is under his direction<sup>53</sup> A principal is not liable for the acts of an independent contractor who agreed to be liable for all damages arising from his negligence<sup>54</sup> It has been held that a dredging company, performing work according to contract, is not liable for

damages caused by a pile carried into the dredge area by the shifting of the mud<sup>55</sup> A wharfinger is not liable for damage to a moored vessel caused by another ship over which he has no control<sup>56</sup> Persons who are not wharfingers and who do not owe the vessel or the wharf owner any duty to maintain a ship in a safe condition are not liable for damages resulting from obstructions in the ship<sup>57</sup>

**Lessor and lessee** Generally, where a wharf is in the possession and occupation of a lessee, he is responsible for any injury arising from defects or obstructions in the wharf that are known or should be known to him,<sup>58</sup> and, in the absence of any covenant from his lessor to keep it in repair, this duty, as to all defects or obstructions arising after his tenancy began, rests altogether on him, and there is no liability on the lessor,<sup>59</sup> but where the wharf is leased, and at the time of the demise and delivery of possession to the lessee it is in a defective and unsafe condition, and in consequence, thereafter, while in possession of the lessee, an injury happens to one lawfully thereon, the lessor, who is receiving a benefit by way of rent or otherwise, is liable<sup>60</sup> A lessor who covenants to keep a wharf in repair is liable for damage from obstructions,<sup>61</sup> but it has also been held that a lessor has no duty as to piles placed by the lessee until some notice of the obstruction is given<sup>62</sup> Both lessor and lessee may be liable severally for the damages,<sup>63</sup> nor is it material whether the

former or the latter is bound to repair.<sup>64</sup>

## § 22. — Actions

- a In general
- b Pleading
- c Evidence
- d Trial
- e Damages

### a. In General

An action for damages inflicted by the negligence of a dock company may be brought in admiralty or at law

An action for damages inflicted by the negligence of a dock company may be brought in admiralty<sup>65</sup> or at law<sup>66</sup> With respect to admiralty jurisdiction, a contract whereby the owner of a wharf covenanted to maintain a safe berth for a vessel was a maritime contract<sup>67</sup>

**Venue** Where the owner of a wharf negligently permitted the dock to be in an unsafe condition, and injury was sustained by a barge which was there by his invitation, and in pursuance of a contract with him, an action for damages is transitory, and not local,<sup>68</sup> but it is local where the declaration proceeds on another ground, to wit, the duty of defendant to keep the wharf in question in such good order and repair that it might be safely used as a place of loading and disembarkation<sup>69</sup>

**Laches** An action for damages incurred at a wharf may become barred by laches<sup>70</sup>

### Delay satisfactorily explained

Five weeks' delay by owner of tug before giving notice of claim for damage thereto allegedly caused by striking submerged pile near riparian owner's pier subjected claim to sus-

## b. Pleading

The plaintiff must prove that the defendant was negligent and that such negligence caused the injury, and a petition alleging damage due to a defective fire box of a locomotive crane and proof showing it was due to a defective ash pan does not present a fatal variance.

Plaintiff must prove that defendant was negligent<sup>71</sup> and that such negligence caused the injury<sup>72</sup> and, in some cases, it has been held that he must show the absence of contributory negligence<sup>73</sup>. A petition alleging damage due to a defective fire box of a locomotive crane and proof showing it was due to a defective ash pan has been held not to present a fatal variance.<sup>74</sup>

## c. Evidence

The plaintiff in an action for injury to a vessel or its cargo has the burden of proving the truth of his allegations, in order to satisfy this requirement, the allegations must be clearly proved by a fair preponderance of the evidence.

Plaintiff in an action for injury to a vessel or its cargo has the burden of proving the truth of his allegations,<sup>75</sup> including defendant's negligence,<sup>76</sup> and that it was the proximate cause of the damage<sup>77</sup>. Ordinarily, a lack of ordinary care by the wharfinger is never presumed<sup>78</sup> even though the circumstances shift the burden of producing further evidence to the wharfinger.<sup>79</sup> It has been held,

however, that the wharfinger has the burden of showing that the accident was unavoidable,<sup>80</sup> or that he had warned vessels<sup>81</sup>.

*The doctrine of res ipsa loquitur* has no application to a case where negligence of the wharf owner is obvious from all the evidence<sup>82</sup>. Under the doctrine the collapse of a wharf raises a presumption of negligence<sup>83</sup> but it does not, strictly speaking, change the burden of proof<sup>84</sup>. The unexpected sinking of a vessel in her berth, from an unexplained cause, raises a presumption of negligence by the owner of such vessel,<sup>85</sup> and unseaworthiness of the vessel<sup>86</sup>.

*Admissibility* The report of a dredging contractor, after completing his work, that the dock was free from obstructions, may be considered in determining whether the dock owner used reasonable care<sup>87</sup>. Proof of usage in other similar places has been held admissible on the issue of implied contract<sup>88</sup>. As bearing on the question of damages, it is competent, if plaintiff is able to do so by competent witnesses, to show the value of the vessel before and after the injury<sup>89</sup>.

*Weight and sufficiency.* The facts alleged in an action for damage to a ship or its cargo must be clearly proved<sup>90</sup> by a fair preponderance of the

picion, but was satisfactorily explained, where tug owner had in meantime employed diver to examine river bottom.

# d. Trial

Conflicting evidence presents a question for the jury in actions to recover for injuries to vessels or cargo, and a finding in the nature of a conclusion of law will not defeat specific findings of fact.

In determining whether a jury question is presented in an action for an injury to a vessel at a wharf the rules ordinarily applicable in other civil actions govern<sup>6</sup> Generally speaking, conflicting evidence will present a question for the jury,<sup>7</sup> and a law question is presented only when the facts are such that but one reasonable conclusion can be drawn<sup>8</sup> Thus, the questions of negligence,<sup>9</sup> contributory negligence,<sup>10</sup> and assumption of risk,<sup>11</sup> have been held to be jury questions A finding in the nature of a conclusion of law will not defeat specific findings of fact<sup>12</sup>

# e. Damages

In an action for injury to a vessel or cargo the extent of the recovery by the vessel owners is a sum sufficient fully to indemnify them for their loss

In an action for injury to a vessel or cargo the extent of the recovery by the vessel owners is a sum sufficient fully to indemnify them for their loss<sup>13</sup> If the vessel is a total loss, such sum is the reasonable value of the vessel at the time of the injury<sup>14</sup> This reasonable value has been arrived at by deducting from the original cost ten per cent each year for depreciation,<sup>15</sup> and by considering sales of similar barges<sup>16</sup> Where repairs are possible, however, the measure of damages is the cost

of repairing the vessel,<sup>17</sup> and not the difference between her value before, and her value after, the injury<sup>18</sup> The amount paid to a wrecking company, in good faith, for raising a vessel, is recoverable,<sup>19</sup> and so are overhead expenses incurred while repairing the ship in the owner's shipyard,<sup>20</sup> the wages of men which the wrecking company required the owner to furnish,<sup>21</sup> and interest on such expenditures from the time they were actually made<sup>22</sup>

*Division of damages.* If both parties were at fault the damages will be divided<sup>23</sup>

## § 23. Injuries to Persons

- a In general
- b Invitees, licensees, and trespassers
- c Persons liable and defenses

### a. In General

The owner or occupant of a pier or wharf must exercise reasonable care to keep it in a safe condition, and a person may recover for injuries sustained as a result of a defect therein.

The owner or occupant of a pier or wharf must exercise reasonable care to keep it in a safe condition, so that those having a lawful right can go on it without incurring risk of injury,<sup>24</sup> and what constitutes reasonable care depends largely on the uses to which the pier is put<sup>25</sup> Consequently, if a person, when properly on the wharf, in the exercise of reasonable care and diligence, sustains injury through a defect in the wharf, he is entitled to recover,<sup>26</sup> unless the defect was so hidden and con-

### Recoupment

- A vessel, which is required to pay full damages as result of collision with other vessels after breaking away from dock, has right of recoupment for half of damages from owner of dock, where owner of dock is jointly negligent
- US—The President Madison, CCA Wash, 91 F2d 835
- 24. US—Jones v Waterman S S Corp, CCA Pa, 155 F2d 992 Flynn v Reading Co, DCPa, 50 FSupp 218 68 CJ p 235 note 17
- 25. US—Harvey v Old Dominion S S Co, CCANY, 299 F 549 Wash—Gregg v King County, 141 P 340, 80 Wash 196, Ann Cas 1916C 135
- 26. US—Muese v Abbott, CCA Mass, 160 F2d 590—Jones v Waterman S S Corp, CCA Pa, 155 F2d 992
- Cal—Biondini v Amship Corp, 185 P2d 94, 81 Cal App 2d 751—Leenders v California Hawaiian Sugar Refining Corp, 139 P2d 987, 59 Cal App 2d 752 68 CJ p 235 note 19.

cealed that it could not be discovered by such examination and inspection as the construction, uses, and exposures of the wharf reasonably required.<sup>27</sup> Plaintiff's right of action in such a case arises from the duty which the law imposes on the owner or occupant to keep the wharf safe, and not from contract.<sup>28</sup> The question of liability is somewhat analogous to that where public streets are involved.<sup>29</sup> The compliance with a statutory provision that wharves should be insufficient unless constructed in a specified manner has been held not to be the owner's measure of duty to the public.<sup>30</sup>

In the application of these rules, it has been held that a safe gangplank must be provided,<sup>31</sup> but that the nailing of a plank over a hole did not constitute negligence.<sup>32</sup> A dock proprietor is chargeable with notice that its public dock may be used as a public street or public place by any member of the public,<sup>33</sup> including young children,<sup>34</sup> and has also been held liable for injuries to stevedores<sup>35</sup> and other labor-

ers,<sup>36</sup> car passengers,<sup>37</sup> and public officers.<sup>38</sup>

#### b. Invitees, Licensees, and Trespassers

The proprietor of a wharf is held to different degrees of care in dealing with invitees, licensees, and trespassers.

A wharf proprietor is held to different degrees of care in dealing with invitees, licensees, and trespassers.<sup>39</sup>

**Invitees.** To the invitee the wharf proprietor owes a positive duty to maintain the wharf in reasonably safe condition,<sup>40</sup> and to warn him of known dangers.<sup>41</sup> This class may include workmen,<sup>42</sup> seamen,<sup>43</sup> marine engineers,<sup>44</sup> barge captains,<sup>45</sup> cargo surveyors,<sup>46</sup> and patrons of a store kept by defendant.<sup>47</sup>

**Licensees.** As to a licensee, the proprietor owes a duty merely to refrain from willful and wanton injury<sup>48</sup> or affirmative negligence unnecessarily increasing the danger.<sup>49</sup> Licensees within this rule

#### Scope of invitation

Captain of fishing boat, from time of arrival at fishing pier with a cargo of fish for a store situated on pier until departure from ice plant also situated on pier, was engaged in transaction of business with tenants of pier and was a business visitor of such tenants with respect to liability of public corporation as proprietor of pier, but thereafter, while vessel was tied to another portion of pier for sole convenience of captain without any economic benefit to proprietor of pier, captain was a mere licensee who took premises as he found them.

49. Tex—Walters v. Southern S. S. Co., Civ. App., 113 S.W.2d 320, error dismissed.  
68 C.J. p. 236 note 42.

may include ship repairers,<sup>50</sup> barge captains,<sup>51</sup> captains of other vessels,<sup>52</sup> persons patrolling the docks,<sup>53</sup> and persons unloading vessels<sup>54</sup> or visiting them,<sup>55</sup> but not truckmen on a wharf to receive freight.<sup>56</sup> The keeping of a pier, built into or adjacent to navigable waters, for the purpose of loading and unloading vessels, gives a general license to all persons to go on and use it in the manner and for the purposes contemplated<sup>57</sup>

*Trespassers.* A trespasser ordinarily cannot recover for injuries to himself where the wharf proprietor has no notice of his presence<sup>58</sup> A child entering on a public dock has been held not to be a trespasser, however,<sup>59</sup> nor are persons who go on a dock and fasten vessels to it<sup>60</sup>

### c. Persons Liable and Defenses

The person who has exclusive control and management of a defective wharf is generally liable for injuries sustained thereon.

Or—Miles v Spokane, P & S Ry Co, 155 P 2d 938, 176 Or 118  
68 CJ p 237 note 59

66. Or—Miles v Spokane, P & S Ry Co, supra

**Under "safe place" statute,** providing that owner or lessee of real property should not construct and maintain any place of employment that is not safe, railway owner was not liable for injuries to a longshoreman resulting from violation of statute where the premises were in possession of terminal company tenant who had the duty to repair  
Or—Miles v Spokane, P & S Ry Co, supra

### Reservation of right of wharfage

Reservation in lessor of right to collect and retain wharfage accruing from vessels temporarily tying up to portion of pier leased was held not to make premises public so as to make lessor liable for injury from defective condition of premises to employee of company operating demised premises for lessee

NY—Lafredo v Bush Terminal Co, 185 NE 398, 261 NY 323, reargument denied 188 NE 48, 262 NY 522

### 67. Effect of covenant to repair as to third persons

Where lease of portion of wharf

As a general rule, one having exclusive control and management of a defective wharf is liable for injuries occasioned thereby<sup>61</sup> The owner of the land on which a wharf was built, who took possession of the wharf, has been held liable,<sup>62</sup> and so has a railroad company owning a pier<sup>63</sup> A dock owner may be liable for injuries resulting from a known danger created by a third person<sup>64</sup>

*Lessor and lessee.* Ordinarily, a lessee in possession of a wharf must keep it in repair, and is responsible for injuries from defects which are known or should be known by him,<sup>65</sup> and the lessor has been held not liable<sup>66</sup> So, in the absence of a covenant by the lessor to repair,<sup>67</sup> the lessee,<sup>68</sup> and not the lessor,<sup>69</sup> has this duty as to defects arising after the tenancy began. The lessor receiving a benefit by way of rent or otherwise is liable, however, for injuries resulting from defects existing at the time of the demise,<sup>70</sup> provided it appears that

and elevator required board of commissioners of Port of New Orleans to keep elevator and wharf in safe condition and employee of lessee was injured as result of defective condition of elevator, the employee could not base a cause or right of action against the dock board for breach of duty to maintain elevator in safe condition, since the employee was not a party to lease and there was no privity of contract between the employee and the dock board  
La—Fouchaux v Board of Com'rs of Port of New Orleans, 190 So 373, 193 La 182, certiorari denied 60 S Ct 112, 308 US 554, 84 L Ed 466

### Notice

(1) Dock owner was not liable for death of longshoreman killed when door on dock fell, for breach of covenant in lease that owner would make needed repairs to dock on notice from lessee, where no notice was given

NY—De Clara v Barber S S Lines, 139 NYS 2d 568, 285 App Div 1062, appeal granted 127 NE 2d 98, 308 NY 957.

(2) Constructive notice was insufficient to destroy dock owner's exemption from liability for breach of covenant to repair in lease

De Clara v Barber S S Lines, supra  
68 NY—Ahern v Steele, 22 NE 193, 115 NY 203, 12 Am SR 778, 5 LRA 449  
68 CJ p 237 note 60

69. NY—De Clara v Barber S S Lines, 139 NYS 2d 568, 285 App Div 1062, appeal granted 127 NE 2d 98, 308 NY 957

70. Pa—Towt v Philadelphia, 33 A 1034, 173 Pa 314.  
68 CJ p 237 note 61.

he knew when he leased the wharf that it was in an unsafe condition, or that by reasonable care and diligence he could have known of its unsafe condition<sup>71</sup> Where the lessor grants merely the wharfage, he is not relieved from liability to third persons for injuries resulting from a failure to keep the premises in repair,<sup>72</sup> even though the lease may contain a covenant to repair on the part of the lessee<sup>73</sup> The lessor and lessee may be jointly liable for the damages<sup>74</sup>

**Defenses.** No liability arises for extraordinary or inevitable accidents,<sup>75</sup> or for injuries arising from a want of judgment or prudence on part of plaintiff,<sup>76</sup> or where he is held to have assumed the risk inherent in the situation<sup>77</sup>

## § 24. — Actions

Actions for personal injuries sustained on wharves are governed by rules applicable to civil actions generally.

General rules governing other civil actions apply

71. Md—State v Boyce, 21 A 322, 73 Md 469

### Lessor held not liable

La—Miller v Board of Commissioners of Port of New Orleans, Royal Indemnity Co, Intervener, App, 1 So 2d 97, affirmed Miller, Royal Indemnity Co, Intervener v Board of Com'rs of Port of New Orleans, 7 So 2d 355, 199 La 1071

80. Fla—Cooney-Eckstein Co v King, 67 So 918, 69 Fla 246

81. US—Jones v Reading Co, D C Pa, 45 F Supp 566

### Res ipsa loquitur

(1) That truck driver knew that he was injured by the collapse of a plank in a scaffold erected by general contractor and used by subcontractor did not prevent the application of the doctrine of res ipsa loquitur as to subcontractor on the ground that driver knew as much about the cause of his injuries as subcontractor did, since driver had no way of knowing how or why the plank collapsed and subcontractor was in the superior position with respect to such knowledge  
Cal—Biondini v Amship Corp, 185 P 2d 94, 81 Cal App 2d 751

(2) Where seaman employed by steamship company which railroad had authorized to use pier was injured in fall when he stepped on

in actions for personal injuries sustained on wharves<sup>78</sup>

**Pleading.** The complaint in such an action must state facts sufficient to constitute a cause of action<sup>79</sup> A declaration alleging that defendant had exclusive control and management of a wharf was not demurrable for failing to allege that such defendant was the owner or occupant<sup>80</sup>

**Evidence.** General rules with respect to presumptions,<sup>81</sup> and burden of proof,<sup>82</sup> are applicable in such actions Plaintiff must show the negligence of defendant,<sup>83</sup> and that such negligence was the proximate cause of the injury<sup>84</sup>

Competent evidence relevant and material to the issues should be admitted<sup>85</sup> Thus, evidence of defects in a dock other than that which caused the injury is admissible,<sup>86</sup> as is evidence of previous experience with the same defect,<sup>87</sup> and evidence as to the condition of the dock shortly after the injury

loose iron pipe, mere presence of pipe on pier was insufficient to impose on railroad burden of going forward with evidence to show it exercised proper care on theory that thing causing injury was under railroad's exclusive management and accident was one not happening in ordinary course of things unless railroad was negligent

US—Flynn v Reading Co, D C Pa, 50 F Supp 218

(3) Where seaman was an invited or business guest on defendant's pier when seaman was injured by falling from edge of pier when lights on pier were suddenly extinguished, and there was a contractual relationship between seaman and defendant, and lighting system on pier was under defendant's management, rule that mere breaking of an electric wire presents no facts from which alone an inference of negligence can be drawn by jury did not apply

US—Jones v Reading Co, D C Pa, 45 F Supp 566

82. Cal—Cornell v Hearst Sunical Land & Packing Corp, 131 P 2d 404, 55 Cal App 2d 708

83. Pa—Johnston v Pennsylvania R Co, 4 A 2d 539, 135 Pa Super 45

84. Pa—Johnston v. Pennsylvania R Co, supra

85. NY—De Clara v Barber S S Lines, 139 NYS 2d 568, 285 App Div 1062, appeal granted 127 N E 2d 98, 308 NY 957

86. Wis—Propsom v Leatham, 50 NW 586, 80 Wis 608

87. NY—Newall v Bartlett, 21 N E 990, 114 NY 399

68 CJ p 238 note 73.

was sustained,<sup>88</sup> but evidence as to how a dock compared with others used for the same purposes is not admissible<sup>89</sup> Where it was alleged that a company was negligent in not providing cap logs for its pier, it has been held error to overrule an offer to show that the placing of cap logs thereon would interfere with the loading of vessels in the course of the company's business<sup>90</sup>

General rules have been applied in determining the weight and sufficiency of the evidence to support a verdict<sup>91</sup> or findings relating to various issues,<sup>92</sup> or to show negligence,<sup>93</sup> contributory negligence,<sup>94</sup> proximate cause,<sup>95</sup> status of parties,<sup>96</sup> or persons liable<sup>97</sup>

*Questions for jury* In actions for personal in-

juries on wharves, where there is conflicting evidence, the court should submit to the jury questions of fact,<sup>98</sup> including the questions of negligence,<sup>99</sup> contributory negligence,<sup>1</sup> assumption of risk,<sup>2</sup> and the status of parties<sup>3</sup> In the absence of sufficient evidence of negligence, the question is properly withdrawn from the jury<sup>4</sup>

*Instructions* Rules governing civil actions generally apply as to the giving<sup>5</sup> or refusing<sup>6</sup> of instructions in this class of cases.

- Customary practice**  
In action to recover for injuries sustained when plaintiff was disembarking from his yacht at defendant's boatyard, request to charge as to customary practice as factor for jury's consideration in determining negligence of defendant was properly refused, where request omitted any reference to conditions similar to those which jury might have found to have existed  
NY—Solomon v Dunham Shipyard & Sales Co, 142 NYS 2d 619, 286 App Div 893.

### a. In General

The proprietor of a wharf is entitled to the enjoyment of his property undisturbed by the negligent conduct of others

The proprietor of a wharf is entitled to the enjoyment of his property undisturbed by the unlawful overt or negligent acts or omissions of others,<sup>7</sup> and is not bound to anticipate such acts,<sup>8</sup> although he acquires no rights that can interfere in the use of navigable waters by the public<sup>9</sup>

**Dredging** A wharf owner not only has a right to dredge the adjoining slip to the extent necessary to make it commercially useful,<sup>10</sup> but under some statutes is under a duty to do so,<sup>11</sup> and he does not, by so doing, become liable to the owner of a neighboring wharf for the damage caused thereto by the consequent shifting of the loose soil and mud on which it rested<sup>12</sup>

**Obstructions** A mere obstruction to a public navigable stream, unaccompanied by any personal injury, may not authorize an action for damages by

a wharf owner, this being a damage common to all who use the stream<sup>13</sup> The deposit of sand or sediment rendering a wharf less accessible caused by a lawful structure erected on the shore of an adjoining proprietor likewise does not give rise to a cause of action<sup>14</sup> Any obstruction, however, that renders the waters adjacent to a wharf unnavigable deprives the owner thereof of its use, and destroys the value of his property, and if such obstructions are placed there unlawfully either by the overt act or negligence of another, the owner is entitled to compensation for the loss of his landing,<sup>15</sup> or for the expense of removing such obstruction.<sup>16</sup>

### b. Injury by Vessels

A wharf proprietor may recover damages for injury thereto caused by the negligence of a vessel, in the absence of contributory negligence or assumption of risk

Damages may be recovered from a vessel or her owners for the negligent injury of a wharf or pier,<sup>17</sup> in the absence of negligence on part of

#### Liability as affected by contract

(1) Provision in towage agreement that officer of any tug who should go on board of vessel to as-

sist her movement or handling should be the sole servant of the vessel and her owners, etc., was not binding on owner of pier who sought to hold tug companies liable for negligence in undocking of steamship and consequent damage to pier

US—Publiker Industries v Tugboat Neptune Co, C A Pa, 171 F 2d 48

NY—Robins Dry Dock & Repair Co v Navigazione Libera Triestina S A, 279 NYS 257, 154 Misc 788, affirmed 257 NYS 908, 235 App Div 841, affirmed 185 NE 698, 261 NY 455, reargument denied 188 NE 47, 262 NY 521, certiorari denied Moran Towing & Transp Co v Robins Dry Dock & Repair Co, 54 S Ct 72, 290 US 656, 78 L Ed 568, and 54 S Ct 72, 290 US 657, 78 L Ed 569

(2) In action for injuries to pier which resulted from undocking of steamship by two tugboats, where a captain of one of the tugboats directed the operation and gave all orders except for original casting off of steamship and such captain was in general charge of operation, relation between two tugboat companies to steamship and its owner was that of independent contractors, and liability of tugboat company could not be avoided on theory that such tugboat captain was loaned by the tugboat company to steamship and came under the authority of steamship captain

US—Publiker Industries v Tugboat Neptune Co, supra

(3) In action in New York by dock owner against shipowner and tow-

the wharf proprietor contributing to the injury,<sup>18</sup> or assumption of risk<sup>19</sup> There is no liability in the absence of negligence<sup>20</sup> where the boat is being handled in the customary manner,<sup>21</sup> but the doctrine of inevitable accident has no application where there is a lack of a proper exercise of nautical skill<sup>22</sup>

**Compulsory pilotage** Where a statute provides for compulsory pilotage, a shipowner is not ordinarily liable for injuries to a dock inflicted exclusively by the negligence of a pilot so employed,<sup>23</sup> although it has been held that the employment of a compulsory pilot does not relieve the master of the duty to exercise supervision of the ship or the con-

sequences of negligence injuring a wharf<sup>24</sup>

## § 26. — Remedies

- a Injunction
- b Actions for damages

### a. Injunction

The creation or continuance of an obstruction to the use of a wharf may be enjoined in a proper case

In some circumstances relief may be had by injunction to restrain the creation of obstructions to or on wharves,<sup>25</sup> or the continuance thereof,<sup>26</sup> generally on the theory of nuisance<sup>27</sup> Thus, the con-

ing company hired to undock vessel for damages to dock gate, company could not be held solely liable for pilot's negligence, despite clause in towing contract relieving company from liability, on ground that pilot did not have state license as contemplated by the clause, since tug-masters undocking vessels are not required to have state licenses under state law

US—Moran Towing & Transp Co v Navigazione Libera Triestina, S A, CCANY, 92 F2d 37, certiorari denied Navigazione Libera Triestina, S A v Moran Towing & Transp Co, 58 S Ct 145, 302 U S 744, 82 LEd 575

(4) A towing company, which was held solely liable by state courts for damages to dock gate resulting from undocking vessel, was entitled to recover amount of judgment, disbursements, and attorneys' fees from shipowner under contract providing that pilot furnished by company should be shipowner's servant and that shipowner should be liable for damages

US—Moran Towing & Transp Co v Navigazione Libera Triestina, S A, CCANY, 92 F2d 37, certiorari denied Navigazione Libera Triestina, S A v Moran Towing & Transp Co, 58 S Ct 145, 302 U S 744, 82 LEd 575

### Duty to remove pilot

Duty of ship's captain to remove from command pilot furnished by towing company for undocking operations should be exercised only in exceptional cases

NY—Robins Dry Dock & Repair Co v Navigazione Libera Triestina S A, 279 NYS 257, 154 Misc 788, affirmed 257 NYS 908, 235 App Div 841, affirmed 185 NE 698, 261 NY. 455, reargument denied 188 NE 47, 262 NY 521, certiorari denied Moran Towing & Transp Co v Robins Dry Dock & Repair Co, 54 S Ct 72, 290 US 656, 78 LEd 568 and 54 S Ct 72, 290 US 657, 78 LEd 569

18. US—Ford Motor Co. v. Brad-

ley Transp Co, DCMich, 74 F Supp 460, affirmed, CA, 174 F2d 192

68 CJ p 240 note 2

### Duty to warn master

Plaintiff's dock foreman and other employees, knowing nothing about navigation, were not bound to warn master of vessel backing out of slip at night of danger that vessel's overhang might strike machinery on dock whose presence was well known to master, since they were under no obligation to warn master unless they saw a danger of which he apparently was unaware

US—Ford Motor Co v. Bradley Transp Co, supra

### Plaintiff held not barred

### Employee held not "compulsory pilot"

NY—Robins Dry Dock & Repair Co v Navigazione Libera Triestina S A, 279 NYS 257, 154 Misc 788, affirmed 257 NYS 908, 235 App Div 841, affirmed 185 NE 698, 261 NY 455, reargument denied 188 NE 47, 262 NY 521, certiorari denied Moran Towing & Transp Co v Robins Dry Dock & Repair Co, 54 S Ct 72, 290 US 656, 78 LEd 568 and 54 S Ct 72, 290 US 657, 78 LEd 569

24. US—Charente S S Co v. U. S, CCA La, 12 F2d 412

25. Mass—Philadelphia & Reading Coal & Iron Co v Salem Terminal Corporation, 148 NE 444, 252 Mass 439

68 CJ p 240 note 12—45 CJ p 522 note 70

26. NY—Coddington v White & Money Penny, 9 NY Super 390

Interference with trade or business generally see Injunctions § 138

27. Md—Maxa v Commissioners of Harford County, 148 A 214, 158 Md 229

68 CJ p 241 note 14.

tinuous occupancy of a public landing has been enjoined<sup>28</sup> as has the obstruction of the navigation of vessels to plaintiff's wharf,<sup>29</sup> such as by filling in the surrounding water space,<sup>30</sup> and unnecessary obstructions on wharves have been removed.<sup>31</sup> The court may abate the nuisance and enjoin defendants from continuing it,<sup>32</sup> and this right exists against a city as well as against an individual.<sup>33</sup>

### b. Actions for Damages

An action for damages may be brought for an injury to, or an obstruction of, a wharf, and general rules as to evidence and trial are applicable.

An action for damages will lie for an injury to a wharf or dock,<sup>34</sup> or for an obstruction to its use.<sup>35</sup> The fact that a wharf is a public nuisance precludes an action for damages,<sup>36</sup> but the fact that a ship followed a usual, but negligent, custom is no

defense in an action for injury,<sup>37</sup> and patriotic motives will not excuse negligent action causing damage unless it be shown that the persons responsible were under some legal compulsion to act as they did.<sup>38</sup>

**Evidence** The burden of proof is on plaintiff to show the negligence of defendant,<sup>39</sup> that such negligence caused the damage,<sup>40</sup> and freedom from contributory negligence,<sup>41</sup> although there is a presumption of negligence which arises when a boat collides with stationary property.<sup>42</sup> The admission of evidence that a tug captain, who moved defendant's steamer, had another accident, and blamed ship's engines, has been held to be prejudicial.<sup>43</sup>

General rules have been applied in determining the weight and sufficiency of the evidence,<sup>44</sup> such as

68 CJ p 241 note 22

#### What law governs

Common law liability of tugboat owners for damage to pier during undocking operations was determinable in accordance with law of state where tort occurred, and in ascertaining that law trial court was entitled to make use not only of pertinent state court decisions but also to employ rulings of maritime law including those of federal courts for districts of that estate or any other maritime decisions which might seem to reflect law of the state.

Cal—General Petroleum Corp of Cal v City of Los Angeles, 109 P2d 754, 42 Cal App2d 591

#### Evidence held not inconsistent with inference

In action for damages to wharf caused by alleged negligence of pilot in docking a ship, conflicting evidence as to strength of gust of wind at time of collision, as to distance of vessel from wharf as it proceeded toward dock, and as to whether two tugs should have been used in view of weather conditions was not inconsistent with inference of negligence arising from fact that moving ship collided with wharf.

Cal—General Petroleum Corp of Cal v City of Los Angeles, *supra*

**Against whom presumption operates**  
The presumption of negligence of moving vessel colliding with stationary object, such as wharf, operates against all parties, including tugs, participating in management

of vessel at all times when negligent management thereof was a factor in causing collision.

US—Patterson Oil Terminals, Inc v The Port Covington, DCPa, 109 FSupp 953, affirmed, CA, 205 F2d 694

#### Proof of facts giving rise to inference

(1) In action by dock owner against operator of vessel for damages to dock and for loss of coal on dock, allegedly sustained when vessel collided with scow standing alongside dock, dock owner relying exclusively on *res ipsa loquitur* doctrine must, before such doctrine could be applied, prove by evidence facts from which, under the peculiar circumstances, the inference of negligence could be drawn, namely, the ramming of the dock by the vessel or the collision with the scow, with resulting damage to the dock.

Wash—Pacific Coast R Co v American Mail Line, 172 F2d 226, 25 Wash 2d 809

(2) Although *res ipsa loquitur* doctrine does not prevail in state, federal court may arrive at its own conclusion on the facts as they existed as to whether vessel was negligently navigated, legitimate inferences from established facts being proper.

US—Ford Motor Co v Bradley Transp Co, DCMich, 74 FSupp. 460, affirmed, CA, 174 F2d 192

*Future shoaling*

Damages for a future shoaling of the water in front of wharfage prop-

be made, in computing damages, for the loss of the use of a dock, where no actual loss resulted<sup>54</sup> Under a statute authorizing a suit for injury to "wharf

property used as such," only damages resulting from interference with the actual use of the wharf may be recovered<sup>55</sup>

**WHAT.** A pronominal word used as singular or plural<sup>1</sup> One of the uses of the word is as a compound relative, equivalent to "which" with an antecedent demonstrative<sup>2</sup>

**WHATEVER.** All that, no matter what, or of any kind soever that it may be<sup>3</sup>

**WHATSOEVER.** An indefinite relative, which has a very broad and comprehensive<sup>4</sup> or a distinct<sup>5</sup> meaning, and it is often defined as, all that, no matter what, or anything soever which,<sup>6</sup> anything that may be, or one thing or another<sup>7</sup>

**WHEAT.** A grain, the edible product of a cereal grass (*Triticum sativum*), the most important of the cereals, excelled by rice alone in the number of people by whom it is used as a staple food<sup>8</sup> It has been distinguished from "alfalfa" see 3 CJS p 513 note 80.

**WHEEL.** A circular rim and hub connected by spokes or rays in one structure, or a disk, solid

or perforated, made to rotate on an axis and employed to reduce friction and facilitate movement or transportation, as in vehicles, to perform rotary motion, as in machines, to modify speeds, as in the form of pulleys, etc<sup>9</sup>

**WHEELERS.** In the motor trucking industry, "wheelers" are persons employed to load freight on outgoing trucks or trailer bodies, and it is a part of their duty to report physical defects in, and the need for repairs to, such bodies<sup>10</sup>

**WHEELMAN.** In the process of loading or unloading coal, one who empties the coal into a barrow and, when the barrow is full, runs it to where it is to be dumped<sup>11</sup>

**WHEELWRIGHT.** A man whose occupation is to make or repair wheels and wheeled vehicles.<sup>12</sup>

**WHEN.** It is frequently stated that "when" is an adverb of time,<sup>13</sup> and as such it has no fixed meaning,<sup>14</sup> but, on the contrary, has a wide variety of ap-

erty based on the opinions of witnesses are too speculative

**Frequently used as referring to time**

Iowa—Hartz v Truckenmiller, 293 NW 568, 571, 228 Iowa 819

14 Mich—Toy ex rel Elliott v Voelker, 262 NW 881, 887, 273 Mich 205

**Sensible construction**

Because of the difficulty or impossibility of doing two acts at once, and since the law does not deal in split seconds of time, the word "when" is to be given a sensible con-

plications and has many meanings,<sup>15</sup> and it is variously defined.<sup>16</sup>

Ordinarily "when" means at the time of,<sup>17</sup> at the time that;<sup>18</sup> at, or during, the time that;<sup>19</sup> at that time,<sup>20</sup> at the time;<sup>21</sup> at the time it is,<sup>22</sup> at what time,<sup>23</sup> at which time,<sup>24</sup> at the moment that,<sup>25</sup> as soon as,<sup>26</sup> while<sup>27</sup>

However, the word "when" is not always used in an absolute sense,<sup>28</sup> and it does not necessarily refer to the instant of time spoken of,<sup>29</sup> it may be used in a relative sense,<sup>30</sup> referring not to the present, but to a different time,<sup>31</sup> and it may mean just at or after the time that,<sup>32</sup> or immediately after,<sup>33</sup> at or just after,<sup>34</sup> at or just after the moment that.<sup>35</sup>

The word "when" may even refer to future events,<sup>36</sup> although not to those of an unlimited future,<sup>37</sup> and in its future sense it means after,<sup>38</sup> after the time that,<sup>39</sup> afterwards,<sup>40</sup> at a time after,<sup>41</sup> immediately after,<sup>42</sup> or just after the moment<sup>43</sup>

"When" does not mean before<sup>44</sup>

Although the word "when" is primarily an adverb of time, as stated supra p 607 note 13, it may, if the context so indicates,<sup>45</sup> be used to express a contingency<sup>46</sup> or a condition,<sup>47</sup> having a hypothetical or conditional meaning,<sup>48</sup> or implying a condition precedent,<sup>49</sup> and in this sense it has been said that "when" may be employed as akin to or as having the meaning of the word "as,"<sup>50</sup> or as having the same

struction in the law, as to the time of doing the acts

50. NJ—Fisher v. Johnson, 38 NJ. Eq 46, 47.

significance as the words "at,"<sup>51</sup> or "if."<sup>52</sup> In this sense "when" is defined as meaning in the event that;<sup>53</sup> in case;<sup>54</sup> provided,<sup>55</sup> on condition that,<sup>56</sup> upon,<sup>57</sup> upon which,<sup>58</sup> whenever,<sup>59</sup> where,<sup>60</sup> wherever,<sup>61</sup> in virtue of the circumstances that;<sup>62</sup> and which are.<sup>63</sup>

The word "when" is frequently used in determining the time of the enjoyment or vesting of estates<sup>64</sup> or the time or event upon which legacies are to vest<sup>65</sup>

"When" has been held to be equivalent to, or synonymous with, "upon" and "upon which" see 67 CJS p 495 note 921. It has been held to be

equivalent to, or synonymous with, "whenever,"<sup>66</sup> and the terms have been distinguished.<sup>67</sup> "When" has also been distinguished from "while"<sup>68</sup>

**WHENEVER.** The word "whenever" is an adverb of time<sup>69</sup> rather than of place,<sup>70</sup> frequently looking to the future rather than the past,<sup>71</sup> but not the remote future<sup>72</sup>

It has been said that in its common acceptation "whenever" means,<sup>73</sup> or its natural meaning is,<sup>74</sup> as long as,<sup>75</sup> as often as;<sup>76</sup> as soon as,<sup>77</sup> at any time,<sup>78</sup> at any and all times,<sup>79</sup> at any time when,<sup>80</sup> at whatever time<sup>81</sup> It has also been held to mean

no matter when;<sup>82</sup> at whatever time it shall happen,<sup>83</sup> or at what time soever.<sup>84</sup>

The word "whenever" may be used to express condition or contingency,<sup>85</sup> and when used in this sense it is defined to mean if,<sup>86</sup> if and so long as,<sup>87</sup> in all cases;<sup>88</sup> in case;<sup>89</sup> in those cases,<sup>90</sup> in any and every instance in which;<sup>91</sup> should;<sup>92</sup> upon which,<sup>93</sup> and where.<sup>94</sup>

It has been held that "whenever" is sometimes, but not always, equivalent to "as soon as" see 6 C.J.S. p 782 note 17, p 783 note 18. "Whenever" has also been held to be equivalent to "in the event" see 42 C.J.S. p 480 note 47, and has been distinguished from "wherever."<sup>95</sup>

*Phrases* employing the word "whenever" and of which more recent adjudications have not been found see 68 C.J. p 250 note 44-p 251 note 81.

**WHENSOEVER.** At whatever time<sup>96</sup>

**WHERE.** The word "where," as an adverb,<sup>97</sup> when used to denote locality, is somewhat indefinite<sup>98</sup> It is defined as meaning a place at which,<sup>99</sup> at or in which or what place;<sup>1</sup> at the place;<sup>2</sup> in which<sup>3</sup>

"Where" may also be employed as an adverb of time,<sup>4</sup> and as such is defined as meaning when,<sup>5</sup> or when in any such case;<sup>6</sup> and in connection with estates the word is used to express the time of the enjoyment or of the vesting of interest<sup>7</sup>

Expressing condition or contingency, "where" is defined as meaning if;<sup>8</sup> under circumstances in which<sup>9</sup>

**WHEREAS.** The word "whereas" is defined as meaning the thing being so that,<sup>10</sup> the fact is,<sup>11</sup> the fact or case really being that,<sup>12</sup> that being the case,<sup>13</sup> considering that things are so,<sup>14</sup> considering that,<sup>15</sup> when in fact,<sup>16</sup> while on the contrary,<sup>17</sup>

while the contrary,<sup>18</sup> implying an admission of facts, something followed by a different statement, and sometimes by inference of something consequent,<sup>19</sup> although<sup>20</sup>

It has been said that the word "whereas" implies a recital and, generally, cannot be used in the direct and positive averment of a fact;<sup>21</sup> although, as shown by the context, what follows may be positive averment and not recital<sup>22</sup>

**WHEREBY.** The word "whereby" is defined as meaning by or through which, by the help of which; in accordance with which,<sup>23</sup> and it also means and by it.<sup>24</sup>

"Whereby" is not the equivalent of "because" see 10 J C S. p 222 note 28

**WHEREFORE.** The word "wherefore" is defined as meaning for what reason<sup>25</sup>

**WHEREIN.** In which, in which place, thing, or respect<sup>26</sup>

**WHEREUPON.** An adverb of time<sup>27</sup> or a relative conjunction,<sup>28</sup> but not a word of numbers or quantity.<sup>29</sup> While the word may not be definite as to time,<sup>30</sup> it imports subsequence,<sup>31</sup> although not im-

mediate sequence<sup>32</sup>

"Whereupon" is defined as meaning after which;<sup>33</sup> in consequence of which,<sup>34</sup> upon which.<sup>35</sup>

**WHEREVER.** At or in whatever place; wheresoever.<sup>36</sup> The word is sometimes used as a particle,<sup>37</sup> as equivalent to "as often as" see 67 C.J.S. p 487 note 28, implying a single initiative<sup>38</sup>

**WHETHER.** As an adverb, "whether" is defined as the first alternative; introducing a direct alternative question with a correlative "or;" sometimes introducing a direct simple question, the correlative being implied or lost sight of.<sup>39</sup>

As a conjunction, "whether" is defined as the first alternative; in case; if, introducing an alternative clause, followed by a correlative "or," or "or whether," sometimes also introducing a single alternative, the other, usually negative, being implied; as, tell us whether you are going (or not)<sup>40</sup>

In a legal sense,<sup>41</sup> "whether" is defined as meaning which of two or several,<sup>42</sup> which of two alternatives expressed by a sentence or the clause of a sentence, and followed by "or"<sup>43</sup> The word is used as a pronoun, and also as a particle expressing one part of a disjunctive question in opposition to the other<sup>44</sup> The word "whether," neither in com-

#### "Which" clause

It is a fundamental rule of sentence structure that a "which" clause is usually used to describe, modify, or limit the preceding subject, and is not used to indicate the time of the event

**WHIFF.** To inhale or draw in, as air or tobacco smoke, also to drink <sup>49</sup>

**WHIFFLE BOARD.** Defined see Gaming § 1 g.

**WHILE.** The word "while" may be used either as a conjunction <sup>50</sup> or as an adverb, <sup>51</sup> and as a conjunction it is often used adversatively and to imply contrast, <sup>52</sup> but it also in some constructions introduces a parenthetical clause <sup>53</sup>

As an adverb or an adverbial modifier, <sup>54</sup> "while" is a word of time and not of causation, <sup>55</sup> and it expresses duration <sup>56</sup> and implies some degree of continuance. <sup>57</sup>

Either as a conjunction or as an adverbial modifier, <sup>58</sup> "while" is defined as meaning during the time that, <sup>59</sup> at the same time, <sup>60</sup> at the same time that, <sup>61</sup> as long as, <sup>62</sup> pending; <sup>63</sup> and when. <sup>64</sup>

"While" is also defined as meaning a space of time, especially when short and marked by some action or happening<sup>65</sup>

"While" has been distinguished from "provided" see 73 C.J.S. p 267 note 4.

**WHIP.** To beat or lash<sup>66</sup>

*Whipping* A mode of punishment by the infliction of stripes, occasionally used in England and a few of the American states.<sup>67</sup> As not a cruel and unusual punishment see Criminal Law § 1978 b.

**WHIPSTOCK.** As a device used in the drilling of oil wells see Mines and Minerals § 3 h.

**WHISKEY.** Defined see Intoxicating Liquors § 13.

**WHISTLING.** Applied to a horse, a noise made in respiration while trotting or cantering.<sup>68</sup>

**WHITE.** The word "white" is defined generally as meaning of the color of pure snow, milk, or sunlight; reflecting to the eye all the rays of the spectrum combined, the opposite of black or dark<sup>69</sup>

In an ethnological sense, the word "white" denotes the members of the white or Caucasian race or people, and is used to distinguish between the white, the African, and the Mongolian races<sup>70</sup>

*White person.* A person of the Caucasian race,<sup>71</sup> persons having a light complexion, as members of

the Caucasian race; opposed to negro and also the red, yellow, and brown races<sup>72</sup> The words are of common speech and not of scientific origin,<sup>73</sup> and import a racial and not an individual test,<sup>74</sup> and have reference to race rather than to color.<sup>75</sup>

In the United States, at least, the term has acquired a well settled meaning in common speech,<sup>76</sup> indicates only a person of what is popularly known as the Caucasian race,<sup>77</sup> is used to include all persons belonging to such race in distinction from members of races sometimes referred to as the black, brown, red, and yellow races,<sup>78</sup> and, as commonly understood, includes all European races and those Caucasians belonging to the races around the Mediterranean Sea, whether they are considered as fair whites or dark whites, and although certain of the eastern and southern European races are technically classified as of Mongolian or Tartar origin.<sup>79</sup>

Taken in a strictly literal sense, the term constitutes a very indefinite description of a class of persons, where none can be said to be literally white,<sup>80</sup> and it has been said that a construction of the term to mean Europeans and persons of European descent is ambiguous<sup>81</sup>

The term "white person" has been held to include an Armenian born in Asiatic Turkey,<sup>82</sup> Arabs,<sup>83</sup> a person with but one-sixteenth part Indian blood,<sup>84</sup> and a Syrian<sup>85</sup>

The term has been held not to include Afghans,<sup>86</sup> American Indians,<sup>87</sup> Chinese,<sup>88</sup> a Filipino,<sup>89</sup> Hawai-

W Va—Clark v Commercial Casualty Ins Co., 148 S.E. 319, 320, 107 W Va. 380

13 Tex—Great Eastern Casualty Co v Smith, Civ App., 174 S.W. 687, 688.

"Whole" has been held to be synonymous with, or equivalent to, "all" see 3 CJS p 869 note 2.

**WHOLESALE.** The word "wholesale" is defined in Sales § 1 e (2). Phrases employing the word are set out in the note <sup>14</sup>

**WHOLESALER.** The word "wholesaler" is defined in Sales § 1 e (2).

**WHOLESOME.** The word is defined to mean sound, tending to promote health <sup>15</sup>

**WHOLLY.** The word "wholly" is defined as meaning in a whole or complete manner, <sup>16</sup> entirely, <sup>17</sup> completely, <sup>18</sup> fully, totally, <sup>19</sup> perfectly <sup>20</sup>

"Wholly" is also used in the sense of exclusively, <sup>21</sup> and as so used means to the exclusion of other things <sup>22</sup>

"Wholly" has been held to be equivalent to, or synonymous with, "equally" see 30 CJS p 294 note 84, "exclusively" see 33 CJS p 114 note 44, "purely" see 73 CJS p 1259 note 43, "solely" see 81 CJS p 387 note 50, and "totally" see 86 CJS p 987 note 33.

**WHOM IT MAY CONCERN.** See 15 C.J.S. p 799 notes 22-24.

**WHORE.** The word "whore" has a common and accepted meaning, <sup>23</sup> implying the practice of whoredom, <sup>24</sup> and signifies a woman who practices unlawful sexual commerce, <sup>25</sup> a woman who prostitutes her body for hire; <sup>26</sup> a woman who practices or holds unlawful sexual intercourse with men either for hire <sup>27</sup> or to gratify a depraved passion, <sup>28</sup> a prostitute, <sup>29</sup> a hoolot <sup>30</sup> The term may be employed as referring to a courtesan, a strumpet, <sup>31</sup> a lewd or incontinent woman, <sup>32</sup> a concubine, <sup>33</sup> a punk or a wench <sup>34</sup>

The term is sometimes applied to one who has admitted adultery or fornication, <sup>35</sup> but a single act of intercourse does not constitute a woman a whore <sup>36</sup>

"Whore" has been distinguished from "bitch" see 11 CJS p 351 note 98.

**WHOREDOG.** A man addicted to whoring; a man addicted to sexual intercourse with women other than his own wife <sup>37</sup>

**Applied to a single woman,** "whore" is equivalent to charging her with having been guilty of fornication Ill—Slaughter v Johnson, 181 Ill App 693, 698

**Woman not necessarily promiscuous** "The term 'whore' does not necessarily imply, in common parlance, that the woman referred to is promiscuous and mercenary in the matter of lewdness"

Ill—Claypool v. Claypool, 56 Ill App. 17, 22

36 Ind—Peterson v Murray, 41 NE 836, 837, 13 Ind App. 420 68 CJ p 262 note 15

37 NB—Currie v. Stairs, 25 NB 4, 11.

**WHOREDOM.** A comprehensive term, including every species of illicit intercourse between the sexes,<sup>38</sup> any act of sexual intercourse between a married female and a male person not her husband, or between an unmarried female and a male person.<sup>39</sup>

**WHOREHOUSE.** A bawdy house; a house of ill fame;<sup>40</sup> a house of common prostitution.<sup>41</sup>

**WHOREMASTER.** In its ordinary and usual meaning, one who practices lewdness, in its secondary meaning, one who keeps or procures whores for others; a pimp; a procurer.<sup>42</sup>

**WHORISE.** Lewd, unchaste; incontinent,<sup>43</sup> resembling a whore in character or conduct, addicted to unlawful sexual pleasures<sup>44</sup>

**WICKED.** Sinful; criminal, guilty; unjust<sup>45</sup> It has been compared with, or distinguished from, "bad" see 7 C J S. p 1317 note 8.

**WIDE.** The word "wide," from which comes "width,"<sup>46</sup> is defined as meaning of a specified measure in a direction at right angles to that of length<sup>47</sup>

**WIDEN.** A word of clear and definite meaning,<sup>48</sup> in its ordinary sense it means to increase in width, to extend<sup>49</sup>

It has been held to be equivalent to, or synonymous with, "extend" see 35 C.J.S. p 288 note 35.

**WIDOW.** The word "widow," of Sanskrit derivation,<sup>50</sup> and meaning without a husband, or lack of a husband,<sup>51</sup> is said to be as old as the language itself<sup>52</sup>

The present meaning of the term is familiar, well fixed,<sup>53</sup> certain,<sup>54</sup> and definite,<sup>55</sup> and it is defined, both popularly and legally,<sup>56</sup> to mean a woman who has lost her husband by death<sup>57</sup> and has not taken another,<sup>58</sup> the surviving lawful wife of a dece-

N Y—Corpus Juris quoted in In re

dent,<sup>59</sup> a wife who outlives her husband,<sup>60</sup> one whose husband is dead,<sup>61</sup> a surviving wife,<sup>62</sup> and it has been said that in legal writings "widow" is an addition given to a woman who is unmarried and whose husband is dead.<sup>63</sup>

The word "widow" denotes the woman who was the decedent's lawful wife at the time of his death,<sup>64</sup> and in order for a woman to become the widow of a man at the time of his death the parties must have been united by a valid marriage,<sup>65</sup> and the marriage must have continued up to the time of the husband's death.<sup>66</sup> Thus, if one of the parties was unable to enter into a lawful marriage,<sup>67</sup> or if there is a valid marriage but it is terminated by a final decree of divorce,<sup>68</sup> the woman will not be regarded as the widow of the man, but if it is merely an interlocutory decree of divorce which is granted, and the husband dies before the divorce becomes

final, the woman will be deemed to be a widow.<sup>69</sup>

Ordinarily a wife becomes a widow if the marital relation was in existence at the time of the husband's death, even though the wife may have abandoned the husband,<sup>70</sup> but the term may be used so it will not include an unfaithful wife who has abandoned her husband<sup>71</sup> or a wife who at her husband's death is living in adultery with another man.<sup>72</sup>

Immediately on the death of her husband the surviving wife becomes a widow,<sup>73</sup> but she does not become a widow until after her husband's death,<sup>74</sup> and a wife dying and leaving a husband surviving can in no sense be regarded as a widow.<sup>75</sup>

The word "widow" is frequently defined as meaning an unmarried woman whose husband is dead,<sup>76</sup> but it also is defined as meaning a married woman whose husband is dead,<sup>77</sup> and these definitions

present the question which has arisen in a number of cases whether a woman who has become a widow continues as such after her remarriage. It is generally recognized that widowhood ceases on the woman's remarriage,<sup>78</sup> and a widow who remarries cannot be a widow,<sup>79</sup> since the word "widow" is exclusively descriptive of an unmarried condition.<sup>80</sup> However, the word "widow" is frequently used to refer to the person of the surviving spouse, rather than to her marital state or condition,<sup>81</sup> that is, the term does not indicate whether she remains a widow or marries again,<sup>82</sup> and thus it has been said that in the general sense of mankind, and even in a legal sense,<sup>83</sup> although a widow remarries and becomes the wife of another she does not cease to be the widow of the deceased husband.<sup>84</sup> The question whether a wife whose husband has died is to be regarded as a widow after her remarriage commonly arises in cases involving exemptions from inheritance taxes, and is treated in Taxation § 1163 a.

"Widow" has been compared with, or distinguished from, "wife" see Husband and Wife § 3, and "widower"<sup>85</sup>

Statutes providing for a right of action in case of death may designate the widow to be the beneficiary, and the meaning of the term as used in this connection is treated in Death § 34.

The word "widow" is commonly employed in this work in relation to the right to take or inherit property upon the death of the husband, and the term is treated in this connection in Descent and Distribution §§ 48-60, and in Wills § 691.

Under many of the workmen's compensation acts, upon the death of an employee, his widow may be entitled to obtain compensation or benefits, and the meaning which has been attributed to the word "widow," as used in this connection, is treated in the C.J.S. title Workmen's Compensation § 140, also 71 C J p 536 note 36-p 541 note 21

The word "widow" is also treated in various other titles throughout this work and for specific references see the various title indexes and consult the Descriptive-Word Index. References may also be found under the heading "surviving spouse."

*As a verb* The word "widow" is defined as meaning to make a widow; to deprive of something desirable or that suggests a husband's companionship or support.<sup>86</sup>

**WIDOWER.** The word "widower" is a correlative of the word "widow,"<sup>87</sup> and in common, colloquial, and accepted use refers to a man whose wife is dead,<sup>88</sup> and is defined generally as meaning a man who has lost his wife by death<sup>89</sup> and has not re-

married,<sup>90</sup> a man whose wife is dead<sup>91</sup>

As commonly used, "widower" is not descriptive of a man who was previously a widower but has remarried,<sup>92</sup> and it has been said that it would only be used in a figurative sense with such a meaning,<sup>93</sup> since a man ceases to be a widower when he marries again<sup>94</sup> However, it has also been said that a man, although married to another woman, is still the widower of his former wife<sup>95</sup>

In a broad sense the term may include a married man who has lost his wife either by death or judicial decree<sup>96</sup>

"Widower" has been compared with "husband" see Husband and Wife § 2

**WIDOWHOOD.** The state or condition of being a widow, or, sometimes, a widower An estate is sometimes settled on a woman "during widowhood," which is expressed in Latin, "*durante viduitate*"<sup>97</sup>

9. Webster New Int D.

10. Iowa—State v Hamann, 80 N. W. 1064, 1065, 109 Iowa 646.

**WILL.**

—As a Noun. A faculty of the mind,<sup>11</sup> the faculty of conscious, and especially deliberate, action,<sup>12</sup> the governing power of the mind,<sup>13</sup> manifesting itself in choice, determination, discretion, pleasure, direction, disposition, or inclination<sup>14</sup>

The word may be used as indicating command,<sup>15</sup> consent,<sup>16</sup> desire or wish<sup>17</sup> or intent,<sup>18</sup> and of itself the term connotes purpose, intent, deliberation, volition, freedom from unreasonable restraint, voluntariness, desire, the power to choose, and discretion<sup>19</sup>

"Will" has been held to be equivalent to, or synonymous with, "desire," and the terms have also been distinguished, see 26 CJS p 1242 notes 2, 5

—As a verb. While the word "will" may be used as a principal verb, meaning to dispose of,<sup>20</sup> its more frequent use is as an auxiliary verb,<sup>21</sup> indicating a time in the future,<sup>22</sup> and executory rather than executed in its meaning<sup>23</sup> It is a word of certainty,<sup>24</sup> and commonly it has the mandatory sense of "shall" or "must,"<sup>25</sup> but it is not always used imperatively,<sup>26</sup> and may be used in a directory sense<sup>27</sup>

"Will" has been held to be equivalent to, or synonymous with, "may" see 57 CJS p 459 note

30, "must" see 64 CJS p 1080 note 41, and "shall" see 80 CJS p 135 note 70, and it has been compared with, or distinguished from, "may" see 57 CJS p 459 note 33, and "shall" see 80 CJS p 135 note 71

*Would.* The word "would" is defined as "expressing what might be expected,"<sup>28</sup> and means "necessarily will,"<sup>29</sup> indicating an element of certainty far greater than that expressed by "could"<sup>30</sup>

"Would" has been held to be synonymous with, or equivalent to, "could" see 12 CJS p 892 note 82, "did" see 26 CJS p 1302 note 92, and "should" see 80 CJS p 140 note 76.

"Would" has been compared with or distinguished from "did" see 26 CJS p 1302 note 93, and "should" see 80 CJS p 1302 note 78.

**WILLFUL; WILLFULLY.** The words "willful" and "willfully" are of familiar use in every branch of the law,<sup>31</sup> being commonly employed in averring or describing an act,<sup>32</sup> or in denoting the quality of an act,<sup>33</sup> or in describing the intent with which an act is done,<sup>34</sup> and when so used the terms imply the ability to do the act described.<sup>35</sup>

"Willful" and "willfully" have various meanings,<sup>36</sup> are susceptible of different shades of meaning

or degrees of intensity,<sup>37</sup> and are used in different senses in different connections,<sup>38</sup> and generally their signification will depend on the context in which they appear,<sup>39</sup> the nature of the subject to which they refer,<sup>40</sup> and the evident purpose of the writer.<sup>41</sup>

The words are not necessarily technical,<sup>42</sup> and in civil jurisprudence they are not considered to be words of art,<sup>43</sup> and, although it has been said that they have a well-defined signification in law,<sup>44</sup> they are elastic words,<sup>45</sup> and have acquired no peculiar meaning in law which is universally accepted.<sup>46</sup> In certain branches of the law they do have a technical<sup>47</sup> or special<sup>48</sup> meaning, and there is a difference

in meaning in common usage and as used in the field of criminal law,<sup>49</sup> and when used in penal statutes and in statutes dealing with crime they have a restricted meaning which is accepted, well-understood, and well-defined,<sup>50</sup> but even in the field of criminal law the meaning of the terms is rather flexible.<sup>51</sup> When used in penal statutes and in statutes dealing with crime the words are strong and forceful,<sup>52</sup> and of substantial meaning,<sup>53</sup> and are to be given force<sup>54</sup> and effect.<sup>55</sup>

"Willful" and "willfully" are often<sup>56</sup> and variously<sup>57</sup> defined, in both the civil and the criminal law,<sup>58</sup> and may be defined with a reasonable degree of satisfaction,<sup>59</sup> although they are not easy of ex-

**Different meanings in different contexts**

US—U S v Reid, DCMd, 110 F Supp. 253, 257.

#### Meaning indicated by context

The words should be given that meaning only which the context indicates was intended

Cal—Swall v Anderson, App, 140 P 2d 196, 199

#### Different meanings in same statute

Although the presumption is that a word is used throughout the same statute in the same sense, the meaning of the word "willful" in different sections of the same statute must be considered in the different contexts in which the word is found, and it has been recognized that differences in the nature of the penalties imposed may properly lead to differences in the construction of the word, even when used in different sections of the same statute

#### Cases relating to criminal penalties

"Innumerable definitions of the word 'willfully' may be found in the cases relating to criminal penalties"  
US—U S v Beatty, DC Iowa, 88 F Supp 646, 649

59. Del—Lobdell Car Wheel Co v Subielski, 125 A 462, 464, 32 Del 462.

act<sup>60</sup> or precise<sup>61</sup> definition.

The words "willful" and "willfully," as ordinarily employed, mean nothing more than that the person, of whose action or default the expressions are used, knows what he is doing, intends what he is doing, and is a free agent,<sup>62</sup> that is, that what has been done arises from the spontaneous action of his will.<sup>63</sup> Thus the terms imply a conscious act of the mind<sup>64</sup> and denote an attitude of the mind and

will,<sup>65</sup> but they import something more than a mere exercise of the will,<sup>66</sup> and include the idea of consciousness<sup>67</sup> or knowledge,<sup>68</sup> that is, knowledge of all the circumstances;<sup>69</sup> and, when used in connection with an act forbidden by law, the terms carry the idea that, with knowledge, the will consented to, designed, and directed the act.<sup>70</sup> Thus the terms signify an act done knowingly,<sup>71</sup> permissively,<sup>72</sup> voluntarily,<sup>73</sup> deliberately,<sup>74</sup> persistently,<sup>75</sup> perversely,<sup>76</sup> obstinately,<sup>77</sup> or even an act performed

#### Voluntary act becoming willful

Every voluntary act of a human being is intentional; but, generally speaking, a voluntary act becomes willful in law only when it involves some degree of conscious wrong or evil purpose upon the part of the actor, or at least an inexcusable carelessness on his part, whether the act be right or wrong

#### Distinguished from act done accidentally or negligently

A willful act is an act consciously and intentionally, as distinguished from accidentally or negligently, done, where the negligence is not so gross that the intention could be implied from the gross disregard of duty constituting the negligence

Fla—Love v State, 144 So 843, 844, 107 Fla 376

86. Ala—Padgett v State, 56 So 2d 116, 117, 36 Ala App 355

Del—Lobdell Car Wheel Co v Subielski, 125 A 462, 464, 32 Del 462

#### Distinguished from that which is thoughtless

Ind—Cooprider v State, 31 NE 2d 53, 56, 218 Ind. 122, 132 ALR 553.

charged<sup>87</sup> Thus the words "willful" and "willfully" suggest some power of choice,<sup>88</sup> a choice of the free will either in doing or not doing the act,<sup>89</sup> and distinguish an intentional act from an act which is involuntary.<sup>90</sup> The words signify something more than mere inadvertence,<sup>91</sup> and mean more than involuntary<sup>92</sup> or unintentional,<sup>93</sup> and more than mistake,<sup>94</sup> carelessness,<sup>95</sup> or misunderstanding<sup>96</sup> They import that the conduct was deliberate, and not merely thoughtless and on the spur of the moment, and the result of a lack of judgment,<sup>97</sup> and thus, when an act is done feloniously,<sup>98</sup> maliciously,<sup>99</sup> unlawfully,<sup>1</sup> or wantonly<sup>2</sup> it is done willfully, but an act which merely reflects thoughtlessness, and ex-

hibits only an error of judgment, with no accompanying bad or evil purpose, is not willful<sup>3</sup>

Since a willful act differs essentially from a negligent act,<sup>4</sup> the words "willful" and "willfully" are used to signify something more than ordinary<sup>5</sup> negligence,<sup>6</sup> and something more than the want of ordinary care.<sup>7</sup>

The words "willful" and "willfully" imply such elements as design, intent, and purpose,<sup>8</sup> deliberation,<sup>9</sup> determination,<sup>10</sup> and premeditation,<sup>11</sup> and they are commonly employed to denote an act which is wrongful<sup>12</sup> or prohibited by law,<sup>13</sup> and also to indicate the intentional and deliberate doing of a wrongful act;<sup>14</sup> the doing of a forbidden act pur-

68 CJ p 274 note 90

#### Similarly expressed

The intentional doing of a prohibi-

posely in violation of law<sup>15</sup>

The terms may import a specific intent to violate the law,<sup>16</sup> a specific intent to do what the law forbids,<sup>17</sup> a deliberate intent<sup>18</sup> or a purpose<sup>19</sup> to do a wrongful act; an intent to commit a wrong either through actual malice or from which malice will be imputed,<sup>20</sup> a deliberate purpose to accomplish something forbidden,<sup>21</sup> a determination to do the act although known to be forbidden,<sup>22</sup> a determination to execute one's own will in spite of defiance of the law,<sup>23</sup> a determination to do a prohibited act with a bad intent and without justifiable excuse,<sup>24</sup> a deliberate intention for which there is no reasonable excuse<sup>25</sup> The terms may, therefore, denote a conscious<sup>26</sup> or intentional<sup>27</sup> violation of law, and convey the idea of an act done with knowledge that it is unlawful,<sup>28</sup> and they are sometimes used to signify

that a person has failed to obey a statute, having knowledge of the facts<sup>29</sup>

While the words "willful" and "willfully" may denote a specific intent or a particular design,<sup>30</sup> it may be no more than an intent,<sup>31</sup> design,<sup>32</sup> purpose, or willingness<sup>33</sup> to do or commit a specific act or make the omission referred to,<sup>34</sup> a deliberate intention<sup>35</sup> or set purpose<sup>36</sup> to do or refrain from doing some act. Thus, an intent to do a wrongful act is not an essential element,<sup>37</sup> and it is not necessary that there should be an express intent or purpose,<sup>38</sup> and the terms do not of necessity imply an active desire to produce a particular impression, or to induce a particular line of conduct<sup>39</sup>

The words "willful" and "willfully" are frequently used in a sense which does not imply any malice<sup>40</sup>

ed act or the conscious omission of a prescribed act

#### Well recognized rule

"The authorities, from the earliest years of the common law, recognize the rule that there may be a willful wrong without a direct design to do harm. This principle has been applied to furious driving, to collisions between vessels, to the taking of unruly animals into crowds, to carelessly laying out of poison for rats, to want of caution toward drunken persons, and to the careless casting of logs and the like upon highways."

omitted without lawful or legal<sup>22</sup> justification,<sup>23</sup> and with no legal<sup>24</sup> or reasonable<sup>25</sup> ground for believing the act to be lawful,<sup>26</sup> and the terms are sometimes used to signify that what was done was without authority.<sup>27</sup>

While the words "willful" and "willfully" are sometimes used to signify an act committed malevolently,<sup>28</sup> or out of mere wantonness or lawlessness,<sup>29</sup> that is, wantonly, and in disregard of the rights of others,<sup>30</sup> the terms generally are not applied to conduct which necessarily amounts to wantonness,<sup>31</sup> although the conduct may approximate wantonness in a degree.<sup>32</sup> The words "willful" and "willfully" may be used to describe an act which implies an actual or conscious infraction of duty<sup>33</sup> or to signify an intentional failure to perform a plain duty,<sup>34</sup> a deliberate intention or set purpose to omit to perform a required duty,<sup>35</sup> a deliberate purpose not to discharge some duty necessary to safety,<sup>36</sup>

and thus the terms may mean contrary to duty<sup>37</sup> or contrary to a known duty,<sup>38</sup> but usually the terms signify something more than an intentional and occasional breach of duty.<sup>39</sup>

It is stated supra p 625 notes 40-43 that the words "willful" and "willfully" are frequently used in a sense that does not imply any malice or wrong, or anything necessarily blamable, or malevolent, and the words are generally used in this mild sense<sup>40</sup> in civil cases.<sup>41</sup> However, it is also stated supra p 627 notes 66-85 that the words "willful" and "willfully" may be employed to convey the idea of tort or wrong, and to denote malice, and to signify an intent which is evil, or a purpose which is bad, and this is sometimes referred to as the bad sense,<sup>42</sup> or the darker shade of meaning of the terms,<sup>43</sup> and this bad sense or darker shade of meaning may be attributed to the words in cases where intent is material,<sup>44</sup> and the terms will sometimes be construed as having this

meaning in legal<sup>45</sup> or legislative<sup>46</sup> usage. The most frequent use of the words "willful" and "willfully" in the bad sense or with the darker shade of meaning is in penal statutes<sup>47</sup> and in statutes dealing with crime,<sup>48</sup> and in such statutes the words mean more than they do in common usage,<sup>49</sup> and have a more extensive signification than merely intentional or designed.<sup>50</sup> However, the words are not used in this bad sense, or with this darker shade of meaning in all statutes dealing with crime,<sup>51</sup> in such statutes the words have many meanings,<sup>52</sup>

and generally in such statutes the meaning of the words will depend in a large measure on the nature of the criminal act and the facts of the particular case.<sup>53</sup> In statutes forbidding an act which in itself is wrong,<sup>54</sup> and in statutes dealing with offenses involving moral turpitude,<sup>55</sup> and therefore constituting felonies,<sup>56</sup> the words "willful" and "willfully" are generally considered to mean with evil or malevolent purpose or motive, criminal intent, or the like,<sup>57</sup> but in statutes forbidding or denouncing an act which in itself is not wrong,<sup>58</sup>

and in statutes dealing with offenses which do not involve moral turpitude,<sup>59</sup> the words will usually be deemed to be used without such implication,<sup>60</sup> and in such instances the words are used in the sense of intentionally or purposely,<sup>61</sup> or to denote conduct which is intentional, or knowing, or voluntary, as distinguished from conduct which is accidental, or conduct which is marked by a careless disregard of its rightfulness.<sup>62</sup> Thus, sometimes when employed in statutes dealing with crime the words "willful" and "willfully" mean no more than that the person charged with the duty knows what

he is doing, and they do not mean that, in addition, he must suppose that he is breaking the law.<sup>63</sup>

The words "willful" and "willfully" are defined generally as meaning disposed or ready,<sup>64</sup> ready,<sup>65</sup> willing,<sup>66</sup> willingly,<sup>67</sup> desirous;<sup>68</sup> wishful,<sup>69</sup> inclined or favorably disposed in mind,<sup>70</sup> prompt to do, give, grant<sup>71</sup>

The words are further defined as meaning consciously;<sup>72</sup> done consciously,<sup>73</sup> in obedience to the will,<sup>74</sup> or with free activity of the perpetrator's will;<sup>75</sup> governed by the will,<sup>76</sup> without regard to reason,<sup>77</sup> or without yielding to reason,<sup>78</sup> proceed-

inadvertence" see 42 CJS p 496 note 98, "willingly,"<sup>40</sup> and "wrongfully."<sup>41</sup>

**WILLFULNESS.** It has been said that "willfulness," which in the law of torts has a well-established meaning,<sup>42</sup> is a state<sup>43</sup> or condition<sup>44</sup> of the mind. It is the quality of being willful,<sup>45</sup> and arises from the spontaneous action of the will.<sup>46</sup>

"Willfulness" is an appropriate word to describe an act done purposely,<sup>47</sup> or one which proceeds from the will so as to make the act a purpose act,<sup>48</sup> and it implies an act done intentionally and designedly,<sup>49</sup> and necessarily involves an omission, or the performance of a deliberate or intentional act, regardless of consequences.<sup>50</sup> The word "willfulness" is sometimes employed to characterize a thing done without ground for believing it is lawful,<sup>51</sup> and

it is sometimes employed to denote conduct marked by careless disregard of whether or not one had the right so to act.<sup>52</sup>

"Willfulness" means something more than mere carelessness,<sup>53</sup> neglect,<sup>54</sup> negligence,<sup>55</sup> oversight, or even shiftlessness,<sup>56</sup> and something more than a failure to exercise ordinary care.<sup>57</sup>

Willfulness necessarily involves, or rests upon, knowledge,<sup>58</sup> and to constitute willfulness there must be the element of intent<sup>59</sup> or intention,<sup>60</sup> purpose,<sup>61</sup> or design,<sup>62</sup> and these may be either actual or constructive.<sup>63</sup> "Willfulness" also involves premeditation<sup>64</sup> and deliberation,<sup>65</sup> and includes some element of evil motive and want of justification,<sup>66</sup> and it sometimes embodies the element of malice,<sup>67</sup> either express or implied.<sup>68</sup> Willfulness signifies

the evil mind,<sup>69</sup> and involves conduct which is quasi-criminal in nature<sup>70</sup>

The exact meaning of the word "willfulness" has often been defined by the courts,<sup>71</sup> and one of the accepted definitions of the word is the intentional doing of a wrongful act.<sup>72</sup> The term denotes a wrongful act, done intentionally, without just cause,<sup>73</sup> intentional wrongdoing,<sup>74</sup> a criminal and willful intent to do wrong;<sup>75</sup> a design, intent, or purpose to do wrong<sup>76</sup> or inflict injury.<sup>77</sup> However, it is not always necessary that there be an actual intent to cause injury,<sup>78</sup> there may be merely a desire or intent to produce a certain result<sup>79</sup> or a conscious failure to observe due care,<sup>80</sup> but there must be at least a willingness to inflict injury or harm<sup>81</sup> or a conscious indifference to the perpetration of the wrong.<sup>82</sup> Thus "willfulness" may be defined as meaning a conscious disregard of conse-

quences,<sup>83</sup> disregard of,<sup>84</sup> or indifference to,<sup>85</sup> consequences; and if there is a reckless and wanton disregard of consequences, evincing a willingness to inflict injury, it will amount to willfulness although there is no direct proof of an actual intention to inflict the injury complained of.<sup>86</sup> It has frequently been held that an intentional disregard of a known duty necessary to the safety of the person or property of another, and an entire absence of care for the life, person, or property of others, such as exhibits a conscious indifference to consequences, makes a case of constructive or legal willfulness.<sup>87</sup>

In a number of cases "willfulness" has been judicially construed to characterize conduct which is intentional, knowing, voluntary, deliberate, or obstinate, as distinguished from malevolent, or specifically designed to be violative of law,<sup>88</sup> but willful-

ness may signify a conscious violation of law,<sup>89</sup> or it may mean a deliberate unwillingness to discover and obey the law,<sup>90</sup> and when the word is used to characterize an act in the realm of the criminal law,<sup>91</sup> or when it is used in statutes dealing with crime<sup>92</sup> or in penal statutes,<sup>93</sup> it means more than voluntariness,<sup>94</sup> and more is required than the mere doing of the act proscribed.<sup>95</sup> Generally, in such statutes the term implies a purposeful design to do a thing with evil or illegal design,<sup>96</sup> and it means an act done with a bad purpose,<sup>97</sup> stubbornly, obstinately, and perversely,<sup>98</sup> and without justifiable excuse,<sup>99</sup> but when it is used in a statutory prohibition involving no moral turpitude it means no more than that the person charged with the duty knows what he is doing, and it does not mean that, in addition, he must suppose that he is breaking the law.<sup>1</sup> When willfulness is a necessary element of a crime arising by failure to obey an administrative officer or directive, it means an act done without justifiable excuse or in stubborn or obstinate disregard of the plain meaning of such order.<sup>2</sup>

"Willfulness" is variously defined as meaning obstinacy; perverseness,<sup>3</sup> set purpose;<sup>4</sup> stubborn-

ness,<sup>5</sup> recklessness,<sup>6</sup> voluntariness,<sup>7</sup> wantonness.<sup>8</sup>

"Willfulness" has been held to be equivalent to, or synonymous with, "recklessness" see 76 C.J.S. p 71 note 95, and it has been compared with, or distinguished from, "carelessness" see 12 C.J.S. p 1148 note 24, "failure to observe" see 35 C.J.S. p 481 note 75, "inadvertence" see 42 C.J.S. p 496 note 97, "malice" see 54 C.J.S. p 927 note 65, "mistake" see 58 C.J.S. p 831 note 27, "negligence" see Negligence § 9, and "recklessness" see 76 C.J.S. p 71 note 97

**WILLING.** Desirous; inclined or favorably disposed in mind, ready<sup>9</sup> "Willing" has been compared with "justified" see 51 C.J.S. p 421 note 31

**WILLINGLY.** The word "willingly" relates to the will,<sup>10</sup> and it is defined to mean freely;<sup>11</sup> readily,<sup>12</sup> voluntarily;<sup>13</sup> of free choice,<sup>14</sup> with one's free choice or consent;<sup>15</sup> with a mind inclined or favorably disposed to an act;<sup>16</sup> in the manner of being ready to do an act,<sup>17</sup> without reluctance;<sup>18</sup> without legal excuse,<sup>19</sup> aggressively.<sup>20</sup>

"Willingly" has been compared with, or distinguished from, "willfully" see ante p 637 note 40, and "wittingly"<sup>21</sup>

**WILLINGNESS.** The word "willingness" signifies a mental state,<sup>22</sup> a condition or state of the mind,<sup>23</sup> and "willingness" may be evidenced by consent<sup>24</sup> The relation between "willingness" and "consent" is stated in 15 C J S p 981 note 24.

The antithesis of "willingness" is "compulsion" see 15 C.J S. p 790 note 21

**VII. REVOCATION**

**A. IN GENERAL**

- § 262 Definition
- 263. Statutory provisions generally

**B. BY ACT OF TESTATOR**

- § 264 Capacity to revoke
- 265 Delegation of power to revoke
- 266 Intention to revoke
- 267 — Conditional or dependent relative revocation
- 268 What law governs
- 269 Mode and sufficiency in general
- 270 Revocation by oral declaration
- 271 Revocation by subsequent writing
- 272 — Writing not testamentary
- 273 — By indorsement of revocation on will or codicil
- 274. — By subsequent will.
- 275. — By codicil
- 276. Revocation by mutilation, cancellation, or destruction
- 277. — Statutory provisions
- 278. — By whom act may be committed
- 279 — Partial revocation
- 280. — Act of destruction, mutilation, or cancellation
- 281. — Cancellation or destruction of one of two or more duplicate or identic wills
- 282 Revocation by alterations and additions
- 283 Revocation of will executing power
- 284 Effect of mistake, undue influence, or fraud
- 285 — Inducing revocation
- 286. — Preventing revocation

**C. BY OPERATION OF LAW**

- § 287. In general
- 288. What law governs
- 289. Particular changes in circumstances operating as revocation
- 290 — Marriage and birth of children
- 291. — Marriage
- 292 — Birth of issue
- 293 — Divorce
- 294 — Disposition of property or other alteration of estate
- 295. — Other matters operating as revocation

**D. OPERATION AND EFFECT OF REVOCATION**

- § 296 In general
- 297 Effect of revocation of either will or codicil on the other

**VIII. REVIVAL AND REPUBLICATION**

- § 298 Definitions and distinctions
- 299 Revival or republication generally
- 300 — Will revoked by operation of law
- 301. — Will revoked by subsequent will
- 302. — Effect of revival or republication
- 303. Revival or republication by codicil

**IX. WILLS AFTER EXECUTION AND BEFORE PROBATE**

- § 304. In general
- 305 Deposit or filing of will for safe-keeping
- 306. Compelling production of will

**X. PROBATE, ESTABLISHMENT, AND ANNULMENT****A PROBATE IN GENERAL**

- § 307 Definitions
- 308 Nature and purpose of probate
- 309 Statutory provisions
- 310 Necessity for probate
- 311 Duty to produce and offer will for probate
- 312 Instruments which may or must be admitted to probate
- 313 — Separate instruments or papers
- 314 Fact of death of testator
- 315 Persons entitled to probate
- 316 Mode and scope of proceedings and relief
- 317 — Questions for determination
- 318 — Probate in common and solemn form
- 319 — Partial or limited probate
- 320 — Successive applications for probate
- 321 — Abatement and revival of proceedings; abandonment
- 322 Opposition to probate in general
- 323 Who may oppose probate, estoppel
- 324 Who may or must defend
- 325 Agreements affecting right to oppose probate or contest will

**B. ACTIONS TO ESTABLISH OR DETERMINE VALIDITY IN GENERAL**

- § 326 Action to establish rejected will
- 327. Action to contest probated will
- 328 — Nature, form, scope, and right of action
- 329 — Who may contest will; abatement on death of party
- 330 — Estoppel
- 331. — Who may or must defend contest
- 332. — Effect on probate of action to contest
- 333 Action to set aside unprobated will
- 334 Action to reform will

**C. PROBATE OR ESTABLISHMENT OF LOST OR DESTROYED WILL**

- § 335. In general
- 336. Time, nature, and extent of loss or destruction
- 337 — Partial loss or destruction
- 338. Who may establish or procure probate
- 339 Opposition to probate or establishment

**D. PROBATE OR RECORD OF FOREIGN WILL AND ORIGINAL PROBATE OF WILL OF RESIDENT MADE IN FOREIGN JURISDICTION**

- § 340 "Foreign will" defined
- 341. Ancillary probate or record
- 342 — Necessity
- 343. — Mode of probate or record in general
- 344. — Probate of original will; necessity for foreign probate

---

## I. INTRODUCTORY

## § 1. Definitions

- a "Will"
- b "Codicil"
- c. "Testament" and related terms

## a. "Will"

A "will" is defined as the legal declaration of a man's intentions, which he wills to be performed after his death, or as an instrument by which a person makes a disposition of his property to take effect after his death

A "will" is the legal declaration of a man's intentions, which he wills to be performed after his

death,<sup>1</sup> touching either the disposition of his property, the guardianship of his children, or the administration of his estate,<sup>2</sup> the legal declaration of a man's mind as to the manner in which he would have his estate<sup>3</sup> or property<sup>4</sup> disposed of after his death, an instrument by which a person makes a disposition of his property to take effect after his death,<sup>5</sup> a written instrument, legally executed, by which a man makes disposition of his estate, to take effect after his death.<sup>6</sup> All definitions of a will include the idea that it is a means of disposing of property to take effect at the death of the testator<sup>7</sup>

## Words

A "will" is not a sheet of paper, nor a number of sheets or pages, but consists of the words written thereon

NY—In re Golden's Will, 300 NY S 787, 165 Misc 205, affirmed 3 NY S 2d 886, 253 App Div. 919.

7. Ohio—Holmden v. Craig, 16 Ohio Cir Ct, N S, 157, 163

Wash—In re Lidston's Estate, 202 P 2d 259, 263, 32 Wash 2d 408.

A will, *ex vi termini*, means a voluntary disposition of property to take effect after death,<sup>8</sup> and is so called because it expresses the will of the maker as to the direction which his property shall take.<sup>9</sup> The word "will" has a technical meaning, and implies an instrument executed in conformity with prescribed formalities, but subject to alteration or cancellation at the volition of the maker,<sup>10</sup> but it has been held that an instrument intended by the maker to effect the disposition of his property after his death is his "will" even though it be so defective, because not executed or attested in accordance with statute, that it is not entitled to probate.<sup>11</sup>

\* By "will" is meant the last will and testament, the final disposition of property, speaking as of the time of the testator's death,<sup>12</sup> and it includes every kind of testamentary act taking effect from the mind of a testator and manifested by an instrument in writing executed and attested in conformity with statute.<sup>13</sup> The word, used generically, includes codicils,<sup>14</sup> but the word "will" does not cover or embrace the codicil, where anything appears to show that it was not intended to do so.<sup>15</sup>

A *last will* is a lawful disposing of that which any one would have done after death.<sup>16</sup>

A *last will and testament* is the disposition of one's property to take effect after death.<sup>17</sup> It is the expression most commonly employed to designate the instrument which makes a testamentary disposition of real and personal property.<sup>18</sup>

*Mere will; more will* The term "mere will" has been held to designate a will which takes effect on the death of the testator, and is ambulatory during his lifetime.<sup>19</sup> Such term is distinguished from "more will" which refers to such a will as is a composite and superserviceable instrument, which be-

comes fixed, stationary, and irrevocable in its clause of revocation while the remainder is ambulatory.<sup>20</sup>

*Unnatural will* A will is "unnatural" when it is different from what it might be expected to have been.<sup>21</sup> The expression is usually applied in a case where a testator without apparent reason leaves his estate or a large portion of it to strangers to the exclusion of the natural objects of his bounty.<sup>22</sup> In a legal sense, a will is "unnatural," only when it is contrary to what the testator from his known views, feelings, and intentions would have been expected to make, when it is in accordance with such views it is not "unnatural," however much it may differ from the ordinary actions of men in similar circumstances.<sup>23</sup> A will is not necessarily "unnatural" because of a discrimination between heirs of the same degree, or because of the entire exclusion of a part or all of them.<sup>24</sup>

*Nonintervention or independent will* Where by statute, on the testator indicating that such is his desire, administration independent of the control of courts of probate jurisdiction is authorized, a will containing such provision is termed a "nonintervention will."<sup>25</sup> Accordingly, the term has been defined as a will which authorizes the executor or executrix to settle and distribute the estate without intervention of the court and without the giving of bonds.<sup>26</sup> The term "independent will" does not include a will appointing an executor without bond but failing to provide that no other or further action should be taken in the court having probate jurisdiction than the return of an inventory and appraisal of the property belonging to the estate.<sup>27</sup>

*"Inofficious" or "undutiful" will* In the civil law, an "inofficious" or "undutiful" will is such as substantially departs from the disposition of the estate, as it would be distributed in case of intestacy.<sup>28</sup>

An "inofficious will" is a term of the civil law to designate one in which natural affection and the claims of near relations have been disregarded<sup>29</sup>

**Officious will** A testament by which a testator leaves his property to his family<sup>30</sup>

**Parliamentary will** A term applied to the operation of the statute of distribution<sup>31</sup>

### b. "Codicil"

A "codicil" is a supplement to, or addition to or qualification of, an existing will made by the testator to alter, enlarge, or restrain the provisions of the will

A "codicil," in reality, is a will<sup>32</sup> or testamentary instrument<sup>33</sup> However, it is not a new will,<sup>34</sup> a "codicil" is a supplement to,<sup>35</sup> an addition to or qualification of,<sup>36</sup> an existing will, made by the testator,<sup>37</sup> to alter, enlarge, or restrain the provisions of the will,<sup>38</sup> to explain<sup>39</sup> or republish it,<sup>40</sup> or to revoke it<sup>41</sup> Instruments not falling within this definition are not codicils<sup>42</sup> A codicil is dependent for its life and force on the life and force of the will to which it is an adjunct<sup>43</sup> It does not supersede the will, as an after-made will would

do,<sup>44</sup> it is a part of the will;<sup>45</sup> and both the codicil<sup>46</sup> or codicils<sup>47</sup> and the will make only one will

### c. "Testament" and Related Terms

In common usage, "testament" is synonymous with "will," the essence of both being a disposition to take effect after death. A testator is one who makes or has made a testament or will.

In common usage, "testament" is synonymous with "will" and "last will and testament."<sup>48</sup> Accordingly, "testament" has been defined as a just sentence of our will touching that which we would have done after our death.<sup>49</sup> The essence of both "will" and "testament" is a disposition to take effect after death.<sup>50</sup> Strictly speaking, a "testament" is a will of personal property.<sup>51</sup> Accordingly, a "testament" is a disposition of personal property to take place after the owner's decease, according to his desire and direction.<sup>52</sup>

"*Testate*" A deceased person who died leaving a will,<sup>53</sup> the condition of a person who dies leaving a will,<sup>54</sup> or of one who leaves a valid will at his death,<sup>55</sup> the opposite of "intestate" but much less frequently used.<sup>56</sup> A "testate succession" is

one which depends at least in part on provisions of a will.<sup>57</sup>

"*Testamentum*." A Latin term,<sup>58</sup> of the civil law,<sup>59</sup> meaning a last will, a testament,<sup>60</sup> a will.<sup>61</sup>

*Testator, testatrix* A testator is one who makes or has made a testament or will,<sup>62</sup> one who dies leaving a will.<sup>63</sup> As used in statutory provisions, "testator" applies to a testatrix,<sup>64</sup> a "testatrix" is a female testator.<sup>65</sup>

## § 2. History

While the practice of allowing the owner of property to dispose of it after death is of ancient origin, there is no power at common law to devise lands, and the subject is governed by statute.

While the practice of allowing the owner of property to dispose of it after death is of ancient origin,<sup>66</sup> and in the United States such practice was recognized from the earliest colonial times,<sup>67</sup> it did not exist among certain nations.<sup>68</sup> Thus, according to Blackstone, wills were not permitted in Greece, except at Athens, and there not until the time of Solon, in Rome, wills were not permitted until the "Law of the Twelve Tables," and, according to Tacitus, they were unknown among the ancient

Germans<sup>69</sup> In England, until a comparatively recent period, the practice of allowing the owner of property to dispose of it after death was exercised under considerable restriction.<sup>70</sup> There is no power at common law to devise lands, and the subject is governed by statute.<sup>71</sup>

## II. RIGHT AND CAPACITY TO MAKE A WILL

### A. EXISTENCE OF RIGHT IN GENERAL

#### § 3. Right Dependent on Statute

The right to dispose of property by will is not a natural, inherent, or constitutional right, but is dependent solely on legislative authority; and the legislature has power to withhold the right or to make its exercise subject to such regulations and requirements as it pleases.

It has been said that, in the absence of legislative authority, no one may dispose of his property by will,<sup>72</sup> there being no common-law right to make a will,<sup>73</sup> and in a majority of jurisdictions the matter is entirely statutory.<sup>74</sup> The right to make a

#### Absolute right

A testator's right to bestow his property by will at death is as absolute as his right to convey it during his lifetime.

Tex—In re Caruthers' Estate, Civ App., 151 S W 2d 946, error dismissed, judgment correct

**A decedent's privilege** to dispose of his property may be exercised by testamentary disposition or by leaving his property to be distributed under the law

N C—Valentine v Gill, 27 SE 2d 2, 223 N C 396

#### Care and sustenance

Right of a person to make a will so as to constitute a means of providing for his care and sustenance in old age or illness is authorized

Ga—Ehlers v Rheinberger, 49 SE 2d 535, 204 Ga 226

#### Family dispute

Effectiveness of exercise of statutory right to execute a will is not de-

pendent on decision of any tribunal or governmental authority as to wherein lies the right of a family dispute

Tex—Taylor v Taylor, Civ App., 281 S W 2d 232, error refused no reversible error

#### Right not infringed

(1) A decree awarding contractual rights to manufacture machines to a certain person, which recited that such rights should pass to his heirs, executors and administrators on his death, was not erroneous as interfering with such person's right to dispose of such rights by will

Cal—Evans v Citizens National Trust & Sav Bank of Riverside, 84 P 2d 218, 29 Cal App 2d 133

(2) Statute providing that emblements of lands of person dying after March 1, which are severed before following December 31 shall be assets in hands of personal representative, does not infringe upon rights of citizen to dispose of his property by will

Ky—Miller's Ex'x v Miller, 221 S W 2d 654, 310 Ky 726

(3) Provisions of adoption statutes do not prevent anyone from disposing of his property by will

#### Property right

The right to dispose of vested interest in property by will is "property right"

Mass—Warren v Sears, 22 NE 2d 406, 303 Mass 578, 127 A L R 595

#### Close protection

The right of testamentary disposition of one's property as an incident of ownership is absolute and is a valuable right, closely protected by statute and judicial opinion

Wash—In re Martinson's Estate, 190 P 2d 96, 29 Wash 2d 912

in the settlement of the testator's just obligations<sup>92</sup> The object of the law concerning wills is to enable owners of property reasonably to control its disposition at their decease and to cause the real intentions and wishes of such owners to be expressed and preserved in order that they may be ascertained and carried into effect<sup>93</sup> The right to dispose of property by will should be carefully guarded and courts should be reluctant to undo after death what the testator sought to accomplish<sup>94</sup> The right to dispose of one's property by will will be sustained whenever possible,<sup>95</sup> and statutes restricting the right to make a will will be strictly construed<sup>96</sup>

Once the privilege of making a will has been exercised and effectuated by death, it blossoms into a right to have the testator's dispositions carried out free and clear of all subsequent legislative interference,<sup>97</sup> but it has also been held that interests established by a will may be disturbed by a statute enacted under the police power of the state where

the means employed in the statute are reasonably related to the ends sought to be achieved thereby<sup>98</sup>

#### § 4. What Law Governs

Testamentary capacity with respect to personality is controlled by the law of the testator's domicile, and with respect to realty by the law of the place where the realty is situated.

The testamentary capacity of the testator over personality is governed by the law of the domicile of the testator,<sup>99</sup> and over realty by the law of the place where the realty is situated<sup>1</sup>

#### § 5. Time at Which Capacity Must Exist

The mental competency of the testator to make a will, and his legal capacity to do so, is to be determined as of the date of the execution of the will.

The mental competency of the testator to make a will is to be determined as of the date of the execution of the will,<sup>2</sup> particularly where statutes require

68 CJ p 417 note 88.

sequent<sup>8</sup> mental condition determines the capacity, although evidence as to mental capacity at a time prior or subsequent to the execution of the will may be shown to illustrate the condition of the testator's mind at the time of executing the will, as discussed *infra* § 50. So also, in the case of a codicil, the mental capacity of the testator or testatrix to make the codicil is to be determined as of the date of the execution of the codicil.<sup>9</sup>

If there was a lack of legal capacity to make a will at the time of its execution, the subsequent passage of a statute removing such incapacity does not affect such will,<sup>10</sup> and the fact that, after the statute giving testamentary capacity takes effect, the testator retains the will, and treats it and speaks of

it as his will, does not make it a legal will.<sup>11</sup> Testamentary capacity, as prescribed by the legislature, may not be created or destroyed retroactively by events transpiring after exercise of such power,<sup>12</sup> and where legal capacity to make a will existed at the time of its execution, a supervening political or international event imposing a legal status or disability which creates lack of testamentary capacity cannot affect the will and render it invalid.<sup>13</sup> So where testator was an alien friend at the time of executing a will, and entitled under statute to devise property, his devise is valid although he afterwards became an alien enemy by reason of declaration of war between the United States and the country of his origin.<sup>14</sup>

## B. LEGAL DISABILITIES

### § 6. Aliens

Where so authorized by statute, any alien, whether friend or enemy, may make a will, but only a friendly alien may devise realty.

At common law, since the state alone could question the right of an alien to hold land, until action by the state, an alien could devise his land.<sup>15</sup> Where so authorized by state statute, any alien whether friend or enemy may make a will,<sup>16</sup> but only a friendly alien may devise realty to any person, citizen, or alien friend or enemy.<sup>17</sup> By virtue of a federal statute providing that any alien who shall thereafter hold lands in any of the territories of the United States in contravention of its provisions may nevertheless convey his title thereto any time before the institution of escheat proceedings as there-

inbefore provided, an alien may devise land.<sup>18</sup> Also at common law an alien could bequeath his personality,<sup>19</sup> and the same right exists under a treaty so providing, as discussed in Aliens § 31.

### § 7. Indians

Indians may be given authority to devise lands by statutory enactments, and they may make such testamentary dispositions as are authorized by state law with respect to property not subject to restrictions under statutes of the United States.

Among some Indian tribes no such thing as the disposition of property by will was known,<sup>20</sup> and generally Indians had no interest in tribal lands which could be devised.<sup>21</sup> Indians may, however, be given authority to devise lands by statutory enactments,<sup>22</sup> and they may make such testamentary

#### Restriction on full-blood Indian

The congressional act providing that the will of a full-blood Indian, devising realty, shall not be valid, if it disinherits the Indian's parent, wife, spouse, or children, unless acknowledged before and approved by federal judge or commissioner, permits a full-blood Indian, who complies with the act, to devise his land free from state statutes, but leaves a devise by a mixed-blood Indian of his lands subject to state stat-

dispositions as are authorized by state law with respect to property not subject to restrictions under statutes of the United States<sup>23</sup> So, an Indian, even though not a citizen of the United States, nevertheless may be a resident of the United States within the meaning of a statute permitting bona fide residents to devise lands<sup>24</sup>

*In the case of lands held by Indians as allotments*, the Indians may devise their interests therein, where permitted by statute,<sup>25</sup> but, as congress may impose restrictions on alienation by Indians of lands so held, and since alienation, within the meaning of such rule, includes disposition by will, congress may properly require that such wills be approved by designated officials,<sup>26</sup> and, under the rule that the contemporaneous construction placed on a statute by the officers or departments charged with the duty of executing it is entitled to weight,<sup>27</sup> where congress has made a clear and comprehensive grant of power to devise allotment land, subject to regulations prescribed by designated officials and approval of the will by such officials, and such regulations clearly show that a state statute is not regarded as controlling, the restriction of such state statute has no effect as to the capacity to make the devise<sup>28</sup> So Indians of the Five Civilized Tribes have power to dispose of their restricted property by will, unhampered by a state statute prohibiting disposition

by will of property which the testator could not alienate, incumber, or convey while living, since the statute is inapplicable to tribe members, because conflicting with an act of congress<sup>29</sup>

## § 8. Infants

Where the age of testamentary capacity is fixed by statute, only persons of the requisite age may dispose of their property by will

Where the particular ages at which males<sup>30</sup> and females<sup>31</sup> are capable of making a testamentary disposition of their property are fixed by statutes, persons of the requisite age, and only such persons, may dispose of their property by will Accordingly, under a statute so providing, only persons twenty-one years of age and over have testamentary capacity,<sup>32</sup> and the requirement applies to soldiers as well as others, so that an infant soldier is incapable of making a will,<sup>33</sup> but under some provisions soldiers in actual military service are exempted from the full age requirement of the statute<sup>34</sup>

It has been said that apart from statute infants have no power of testamentary disposition,<sup>35</sup> and at common law an infant cannot make any valid devise of real estate<sup>36</sup> However, at common law a male infant of fourteen years and upwards is capable of disposing of his personal estate by will,<sup>37</sup> and this is true of a female infant of twelve or up-

utes; such congressional act applies only to devise of realty, and not to a devise of personalty, and only to a devise of realty restricted by federal acts

### Disinheriting of spouse

The congressional act providing that the will of a full-blood Indian, devising realty, shall not be valid, if it disinherits the Indian's parent, wife, spouse, or children, unless acknowledged before and approved by federal judge or commissioner, authorized a full-blood Creek Indian, so far as his restricted lands were concerned, to disinherit his spouse by will executed in accordance with the act, notwithstanding state statute providing that no spouse shall bequeath away from the other so much of the estate that the other spouse would receive through succession by law, since the act would prevail over the state statute

### Exception

The statute providing that a person under 21 years of age cannot make a will except "in pursuance of a power specially given to that effect," by use of the quoted phrase, has reference to a "power of appointment", which is the execution of an express agency conferred by settlor or donor of the power who is a person possessed of testamentary capacity

wards<sup>38</sup> Such ages were fixed by the civil law, adopted by the English ecclesiastical courts having jurisdiction of the subject of wills,<sup>39</sup> but according to some authority, the age of twenty-one has been given as the proper age for testamentary capacity<sup>40</sup>

## § 9. Married Women

While it has been said that under the common law a married woman could not make a will, or devise real estate unless acting under a power of appointment, the modern statutory rule is that a married woman may dispose of her personalty by will as if sole

It has been broadly stated that under the common law, a married woman could not make a will,<sup>41</sup> and that a married woman, unless acting under a power of appointment, had no power to devise real estate,<sup>42</sup> with or without her husband's consent,<sup>43</sup> although such will would be valid if the husband was sole heir and consented<sup>44</sup> General provisions of statutes conferring authority on persons having lands to devise them have been construed as not applying to married women,<sup>45</sup> and some statutory enactments have expressly affirmed such rule,<sup>46</sup> or have prohibited a married woman from devising to her husband<sup>47</sup> A legislative act granting to a married woman, deserted by her husband, the right to dispose of her property by deed does not include a grant of a right to dispose of land by devise<sup>48</sup>

*Personalty* It has also been said that a married woman's will of her personalty is equally invalid at common law<sup>49</sup> However, even at common law such rule has been subjected to modification,<sup>50</sup> and

it has been said that a married woman always had capacity to make a will as to personalty, whether with or without her husband's consent<sup>51</sup> General provisions of statutes as to the capacity of persons to dispose of property by will apply only to the disposition of real estate, and not to personal estate,<sup>52</sup> and hence, with the consent of her husband, a married woman may dispose of her personalty by will<sup>53</sup> The husband's assent to the will of his wife amounts to no more than a waiver of his rights as his wife's administrator<sup>54</sup> The modern statutory rule in many jurisdictions is that a married woman may dispose of her personalty by will as if sole,<sup>55</sup> in some jurisdictions provided the husband consents,<sup>56</sup> but in others even in the absence of such assent,<sup>57</sup> and when authorized by designated courts on joint petition with her husband<sup>58</sup>

*Infancy* Where infants generally may not make devises, discussed supra § 8, neither at common law<sup>59</sup> nor under statutes authorizing married women to make devises<sup>60</sup> may an infant married woman make such devise However, if permitted by statutes relating to bequests by infants generally, an infant married woman may bequeath personalty in instances in which other married women may do so<sup>61</sup>

*In execution of power* A married woman's will may be valid so far as made in pursuance of a power conferred by some previous will or deed when her will is considered rather as an appointment under the previous instrument than as a will in itself<sup>62</sup>

*In representative capacity.* At common law if a married woman may appoint her successor in representative capacity, she may dispose of property which she has in representative capacity, without the consent of her husband <sup>63</sup>

## § 10. — Separate Estate

Generally, a married woman has authority to dispose of her separate estate by will, in the absence of a restrictive provision in the instrument creating the estate

Apart from statutory authority in a married woman to dispose of her separate estate by will, in the absence of a restrictive provision in the instrument creating the estate, as a general rule she may dispose of such property by will,<sup>64</sup> independently of her husband's consent <sup>65</sup> More particularly, she may dispose of land,<sup>66</sup> even without her husband's consent,<sup>67</sup> or personalty,<sup>68</sup> and a power of appointment reserved to a married woman before marriage may be exercised by her in an instrument purporting to be her last will, duly executed as such, although otherwise such instrument would have been void<sup>69</sup> or revoked by her marriage <sup>70</sup> However, in jurisdictions holding that a married woman has no powers of alienation over her separate estate except such as have been conferred on her by the instrument creating the estate, a married woman cannot dispose of her separate estate by will unless given the power by the instrument creating the estate <sup>71</sup> So in

jurisdictions limiting the powers and contractual rights which married women may exercise with respect to their statutory separate estates, she may dispose of such estate only when her husband consents<sup>72</sup> Express provision may be made in a marriage settlement empowering the wife to dispose of the property by will<sup>73</sup> In many jurisdictions, either by constitutional<sup>74</sup> or statutory<sup>75</sup> provisions, a married woman may dispose of her separate estate by will In a number of instances the status of property as separate estate within the meaning of the foregoing rules has been determined <sup>76</sup>

## § 11. — Requisites and Sufficiency of Husband's Consent

Where it is required that the husband give his consent to his wife's disposition of personalty by will, such consent may be express, or implied, and written or by parol

Where it is required that the husband consent to his wife's disposition of personalty by will, discussed supra § 9, such consent may be express,<sup>77</sup> or implied,<sup>78</sup> and written<sup>79</sup> or by parol <sup>80</sup> However, the husband's consent required by statutes for the wife's devise of land must be written <sup>81</sup> In the case of personalty, a general consent that the wife may make a will is not sufficient, and it is necessary that the husband should consent to the particular will made by the wife <sup>82</sup> His assent to such disposition

of the personalty is good only when not revoked at the time of probate as it might be revoked before<sup>83</sup> He may be estopped to withhold his assent as to a will of personalty by a nuptial agreement,<sup>84</sup> or by expressing himself as satisfied on execution of the will<sup>85</sup> Ordinarily the assent may be given after the wife's death<sup>86</sup>

## § 12. Sovereign

The sovereign at common law had no testamentary power

The sovereign at common law had no testamentary power, and statutes relating to wills apply only to subjects of the sovereign<sup>87</sup>

## § 13. Spendthrift

A person under guardianship as a spendthrift is not thereby deprived of legal capacity to make a will.

A person under guardianship as a spendthrift is not thereby incapacitated from making a will<sup>88</sup> A statute providing that all contracts, bargains, and conveyances made by any person under guardianship shall be utterly void does not apply to invalidate a will by the ward<sup>89</sup>

## § 14 Suicide

The will of a person committing suicide is not invalid on the ground of public policy

A will made by a person who is contemplating, and subsequently commits, suicide is not invalid on the ground of public policy<sup>90</sup>

# C MENTAL AND PHYSICAL DISABILITIES

## § 15. Requisites of Testamentary Capacity Generally; Standards or Tests

- a General rules
- b Appreciation of claims
- c Other elements or requirements
- d Standards or tests of capacity

### a. General Rules

Testamentary capacity consists of a mentality and memory sufficient to understand the nature and purpose of the transaction, to comprehend generally the nature, situation, or extent of the property, to recollect the testator's relationship to the objects of his bounty and to those who naturally would have some claim to his re-

membrance, and to understand the manner and effect of the desired disposition

To exercise the right to dispose of one's property by will, one must possess testamentary capacity,<sup>91</sup> and ability to make a will depends on mental competency,<sup>92</sup> a will may be avoided on the ground that the testator did not have testamentary capacity to execute it<sup>93</sup> Testamentary capacity has been defined as capacity to know and understand the business of disposing of one's property by will,<sup>94</sup> but the question as to just what constitutes mental capacity to execute a will is not easy of accurate definition<sup>95</sup> Testamentary capacity relates to

The question is, was the will the free and intelligent product of the testator's mind or not?

Or—In re Hill's Estate, 256 P 2d 735, 198 Or 307—In re Murray's Estate, 144 P 2d 1016, 173 Or 209

—In re Johnson's Estate, 91 P 2d 330, 162 Or 97—In re Riggs' Estate, 250 P. 753, 120 Or 38.

soundness of mind,<sup>96</sup> and "sound mind" is a condition precedent to making and executing a valid will,<sup>97</sup> or one of the requisites to capacity to make a will,<sup>98</sup> as are sound mind and memory,<sup>99</sup> disposing mind and memory,<sup>1</sup> or sound and disposing mind and memory.<sup>2</sup> The right to dispose of property by will is one which the law is slow to deny on the ground of lack of testamentary capacity,<sup>3</sup> if such capacity exists, the court will not undertake to measure its degree.<sup>4</sup> The question is not what may have been

the testator's mental state at the time of the testamentary act, but what it actually was.<sup>5</sup>

The quantum of mental capacity requisite to the valid execution of a will has been stated to be knowledge and understanding by the testator of the nature or consequences of his act,<sup>6</sup> or his capacity or ability to understand such nature, consequences, or effect.<sup>7</sup> This has been held to include all other essentials.<sup>8</sup> However, subject to slight variations

port the finding that he had sufficient knowledge of the testamentary act<sup>10</sup>

*"Testamentary power" and "undue influence" distinguished* Testamentary capacity pertains to the ability to execute a will<sup>11</sup> and is to be distinguished from "testamentary power"<sup>12</sup>

Testamentary capacity has no relation to undue influence,<sup>13</sup> the two terms being separate and distinct,<sup>14</sup> and its existence is not dependent on freedom from undue influence,<sup>15</sup> for testamentary incapacity implies the want of intelligent mental power,<sup>16</sup> while undue influence bespeaks in itself the existence of a mind of strength sufficient to make a valid will if unhindered by the dominant influence, and such a mind as would have produced a valid will but for

the coercion or restraint to which it was subjected<sup>17</sup>

It has been said that very little difference exists with respect to the law which applies to the principles of unsound mind and undue influence affecting the validity of a will<sup>18</sup>

*Distinction as to realty and personality* There is no distinction in the degree of mental capacity requisite for the execution of a will of real estate and that requisite for the execution of a will of personal estate<sup>19</sup>

### b. Appreciation of Claims

A testator must be able intelligently to weigh and appreciate his natural obligations, but the fact that a will disappoints reasonable expectations of prospective

#### Other statements

(1) The test of competency to make a will is that the testator know and understand what property he has, know about his relatives and others who may be the objects of his bounty, and make disposition of his property with understanding and reason Kan—In re Mead's Estate, 226 P 2d 831, 170 Kan 435—In re Ellis' Estate, 210 P 2d 417, 168 Kan 11—

In re Cross' Estate, 201 P 2d 1052, 166 Kan 318—In re Gereke's Estate, 195 P 2d 323, 165 Kan 249—Anderson v Anderson, 76 P 2d 825, 147 Kan 273

(2) Testamentary capacity exists where testator is able to, and does, have clear understanding of his estate and ability to form rational opinion as to what would be a fair, just, and reasonable division of it among his friends and relatives or others in whom he feels an especial interest Cal—In re Morey's Estate, 171 P 2d 131, 75 Cal App 2d 628

(3) There should be evidence that maker had in his mind at time the details of his business and the items of his property, and the claims of others on him for his favorable consideration, and that, in the contemplation of all these things, with a sound and disposing mind and memory, he directed how his property should be disposed of after his death Fla—In re Sharp's Estate, 183 So 470, 133 Fla 802

(4) Testamentary capacity is testator's ability to retain in memory, without prompting, the extent and condition of his property to be disposed of, comprehend to whom he is giving it, and realize debts and relations to him of those whom he includes in, or excludes from, his will Ark—Yarbrough v Moses, 267 SW 2d 289, 223 Ark 489—Werbe v Holt, 237 SW 2d 478, 218 Ark 476—Simpson v Burge, 224 SW 2d 830, 216 Ark 132—Toombs v Blankenship, 221 SW 2d 417, 215 Ark 551—Walsh v Fairhead, 219 SW 2d 941, 215 Ark 218—Blake v Simpson, 215 SW 2d 287, 214 Ark 263—Scott v Dodson, 214 SW 2d 357, 214 Ark 1—Shippen v Shippen, 211 SW 2d 433, 213 Ark 517—Parette v Ivey, 190 SW 2d 441, 209 Ark 364—Brown v Emerson, 170 SW 2d 1019, 205 Ark 735—Bollinger v Arkansas Valley Trust Co, 151 S W 2d 675, 202 Ark 525—Puryear v

19. N J—Sloan v Maxwell, 3 N J. Eq 563.

beneficiaries does not establish lack of testamentary capacity.

It is not enough that the testator recollects those who have a claim on his remembrance, but he must be able intelligently to weigh and appreciate his natural obligations,<sup>20</sup> and where some persons are excluded, he must have been able deliberately to form an intelligent purpose of excluding them,<sup>21</sup> but actual knowledge or appreciation of their deserts is not necessary<sup>22</sup>

The testator is not required to remember all next of kin or presumptive heirs at law,<sup>23</sup> or to

recollect at all times the names of intimate acquaintances<sup>24</sup>

The fact that a will disappoints reasonable expectations of prospective beneficiaries does not establish lack of testamentary capacity<sup>25</sup> So, the total exclusion of certain relatives or failure to deal with them generously is not of itself inconsistent with testamentary capacity,<sup>26</sup> regardless of the reason the testator may have for his action,<sup>27</sup> or even in the absence of any reason,<sup>28</sup> if he is not actuated by an insane delusion<sup>29</sup> or monomania<sup>30</sup>

## c. Other Elements or Requirements

Among other requirements, testamentary capacity requires ability to understand the ordinary affairs of life, to form a rational judgment as to the matters involved in the will, and to dispose of the testator's property according to some fixed or intelligible purpose or plan of his own, but he need not have perfect and complete understanding of the material facts, or make a wise disposition of his property.

Other elements or requirements, either additional

to those mentioned supra subdivisions a and b of this section or, in effect, reiterative thereof, have been stated, such as that the testator must be able to understand,<sup>31</sup> or act rationally in,<sup>32</sup> the ordinary affairs of life, to deal rationally with, or to form a rational judgment concerning, the matters involved in the will,<sup>33</sup> to make disposition of his property according to some fixed or intelligible purpose, plan, or scheme of his own, or formed in his own mind,<sup>34</sup>

68 C J p 427 note 16

Statutory provision see infra subdivision d (4) of this section

"If a testator has sufficient mental capacity to knowingly and understandingly dispose of his property and distribute it to those to whom he intends it to go, he is competent to make a will"

Ill—Wilson v Bell, 43 N E 2d 162, 166, 315 Ill App 418

Meaning of requirement

Requirement that testatrix be capable of disposing of her property in accordance with a "fixed purpose" of her own means that she must be capable of producing document which at the time represents her own will, or that her mind must be capable of producing instrument which is her own and not that of some one else

Ky—Greer's Ex'r v Bishop, 96 S W 2d 851, 265 Ky 352

Unalterable purpose not required

The fact that a will is ambulatory in its nature demonstrates that "a fixed purpose" does not mean an unalterable purpose

Ky—Greer's Ex'r v Bishop, supra

Freedom from undue influence or fraud

(1) Testamentary capacity exists only if testator had mental capacity to take a rational survey of his estate and dispose of it according to a fixed desire and purpose of his own, unimpeded by wrongful undue influence or fraud of others.

Tex—Venner v Layton, Civ App, 244 S W 2d 852, error refused no reversible error.

to collect his mind or understand and retain the necessary facts without prompting<sup>35</sup> or aid from others,<sup>36</sup> although the latter has been held not to be a rule of law,<sup>37</sup> and to retain all the necessary facts in mind long enough to have the will prepared<sup>38</sup> or prepared and executed<sup>39</sup> For a will to be valid, it is essential that no disorder of the mind shall poison the testator's affections, pervert his sense of

right, or prevent the exercise of his natural faculties<sup>40</sup>

The testator need not have perfect and complete understanding of the material facts in all their bearings,<sup>41</sup> nor need he have all material facts in mind at the same time,<sup>42</sup> capacity to know or understand, rather than the actual knowledge or understanding, is sufficient<sup>43</sup>

(2) Fraud and undue influence generally see *infra* §§ 221-261

#### Initiation of making of will

While it may not be necessary for a person to initiate the making of a will, it is necessary that the testator have sufficient strength of mind to understand, appreciate, or approve the terms and provisions thereof, in order to render it valid, regardless of who initiated the making thereof

Me.—Appeal of Martin, 179 A 655, 133 Me 422

NY.—In re Rice's Estate, 19 NYS 2d 602, 173 Misc 1038

68 C.J. p 428 note 28

#### Nature and extent of property

To establish testamentary capacity, proponent of will need not show that testator actually had in mind all details concerning his property when he made will, but only that he had capacity to know and comprehend nature and extent of such property

Ark.—Yarbrough v Moses, 267 SW 2d 289, 223 Ark 489

#### Objects of bounty

To make a valid will testator need not actually know or recall the natural objects of his bounty but he must have the capacity to know it

Ill.—George v Moorhead, 78 NE 2d 216, 399 Ill 497—Challiner v Smith, 71 NE 2d 324, 396 Ill 106

Auerbach v Continental Ill Nat Bank & Trust Co of Chicago, 91 NE 2d 144, 340 Ill App 64.

The testator must be able to understand the nature and situation of his property,<sup>44</sup> its character and value,<sup>45</sup> or the approximate amount and extent thereof,<sup>46</sup> but he need not know the exact extent or value of his property,<sup>47</sup> and even though he may be wholly mistaken, he is not necessarily incompetent,<sup>48</sup> nor need he be able to recall to mind the names of his various creditors, with the amount owed each.<sup>49</sup>

He need not make, or have capacity to make, a wise and judicious disposition of his property,<sup>50</sup> and the fact that the disposition may be regarded as foolish or unusual will not invalidate the will as

the product of an incompetent testator,<sup>51</sup> but he must be able to choose with reason and understanding between one disposition and another.<sup>52</sup>

The absence of one or more of the requisites for testamentary capacity renders the testator incompetent,<sup>53</sup> and the will invalid,<sup>54</sup> subject to being set aside, although intestacy results.<sup>55</sup>

*Law at time of execution* The matter of the testator's capacity is determinable according to the law as it exists at the time of the execution of the instrument.<sup>56</sup>

*Understanding of legal terms.* That the testator understand and comprehend the technical meaning

44. Cal—In re Llewellyn's Estate, 189 P 2d 822, 83 Cal App 2d 534, hearing denied 191 P 2d 419, 83 Cal App 2d 534—In re Russell's Estate, 182 P 2d 318, 80 Cal App 2d 711

#### **Rational survey**

To make a man competent to take a rational survey of his estate, he must be able to know its character and value

68 C J p 427 note 23

#### **Uses and meaning of property**

If a person has so lost touch with reality as to be unable to understand true uses and meaning of property, such person lacks one essential quality constituting testamentary capacity; there remains no true understanding of the extent of the estate

NM—In re Armijo's Will, 261 P 2d 833, 57 NM 649

#### **Full knowledge of estate and kindred**

Adult, who had mental developments, habits, and intellectual attainments of a child of about five years, and who, according to psychiatrist, had a general knowledge of what property he possessed and his next of kin, but not a full knowledge of his estate and kindred, did not have testamentary capacity

Pa—In re Glesenkamp's Estate, 107 A 2d 731, 378 Pa 635

#### **Inability to remember natural objects of bounty**

(1) Ability of testatrix to comprehend her property interests, determine what disposition she desires to

make of such property, and fully understand and intend to make disposition which she makes of her property is not sufficient, in absence of ability to remember who are the natural objects of her bounty

Colo—Cunningham v Stender, 255 P 2d 977, 127 Colo 293

(2) Where will made provision for testator's wife, daughter, and granddaughter, the fact that ultimate gift was to his nephews and nieces did not establish that he did not know the objects of his bounty, and thereby indicate that he did not have testamentary capacity

Kan—In re Gereke's Estate, 195 P 2d 323, 165 Kan 249

#### **Testatrix' failure to transact business**

(1) Fact that testatrix did not transact her own business would not of itself show mental incapacity, since it is quite a common occurrence for women to leave their business affairs to trusted relatives

Ky—Teegarden v Webster, 199 SW 2d 728, 304 Ky 18

(2) Capacity to transact business see infra subdivision d (3) of this section

of all legal terms used in the will is not necessary for testamentary capacity <sup>57</sup>

*Legal effect of provisions* A testator is not required to know the precise legal effect of every provision in his will <sup>58</sup>

#### d. Standards or Tests of Capacity

- (1) In general
- (2) Size of estate or complexity of will
- (3) Capacity to contract, transact business, etc
- (4) Statutory requirements

##### (1) In General

No particular degree of mentality constitutes a standard for testamentary capacity, so that its existence must be determined largely from the facts and circumstances of each case. A high order of intelligence, or an absolutely sound mind in all respects, is not required,

nor does mental weakness in itself disqualify a testator; but one may lack testamentary capacity without being insane.

It is futile to attempt to select an arbitrary test or formula of mental capacity by which to measure testamentary capacity,<sup>59</sup> there is no rule by which it may be determined with precision where capacity ends and incapacity begins.<sup>60</sup> It is not medical soundness of mind that governs, but testamentary capacity as legally defined,<sup>61</sup> and not every departure from the normal will destroy an otherwise valid testamentary act.<sup>62</sup>

Other than the requirement that the testator have mind sufficient to know and understand certain facts prescribed as essential, as discussed supra subdivisions a, b, and c of this section, there is no particular degree of mentality constituting a standard for testamentary capacity,<sup>63</sup> so that the existence

57 Mass—Dunham v Holmes, 113 NE 845, 225 Mass 68  
68 C.J. p 429 note 44

58 Me—Appeal of Martin, 179 A 655, 133 Me 422

59 Wash—In re Larsen's Estate, 71 P 2d 47, 191 Wash 257

"There is nothing approaching unanimity upon the degree of mental disorder which is required to produce testamentary incapacity"

Ky—Perkins' Guardian v Bell, 172 SW 2d 617, 622, 294 Ky 767

60 Okl—In re Thompson's Estate, 261 P 2d 577—Brummett v King, 251 P 2d 1062, 207 Okl 607—Duckwall v Lawson, 172 P 2d 615, 197 Okl 472—Slater v Phipps, 143 P 2d 133, 93 Okl 267

"It is difficult to devise a standard to measure [testamentary capacity] which will serve as a real guide to the fact trier"

Ky—Perkins' Guardian v Bell, 172 SW 2d 617, 622, 294 Ky 767

"No general rule can be devised which would be a satisfactory standard for the determination of the issue in all cases"

Idaho—In re Heazle's Estate, 257 P 2d 556, 558, 74 Idaho 72

#### Degree of soundness or unsoundness

(1) The question of soundness is one of degree

Me—Appeal of Martin, 179 A 655, 133 Me 422

(2) The law does not undertake to test the intelligence and define the exact quality of mind which a testator must possess; soundness is a matter of degree

Me—In re Loomis' Will, 174 A 38, 133 Me 81

(3) The law of wills recognizes degrees of mental unsoundness, not all of which are sufficient to destroy testamentary capacity.

Utah—In re Chongas' Estate, 202 P 2d 711, 115 Utah 95

(4) Not every degree of mental unsoundness or mental weakness will suffice to destroy testamentary capacity

Cal—In re Dunne's Estate, 278 P 2d 733, 130 Cal App 2d 216

#### Abilities not required

A testator does not have to be a literarian, a financial genius, an athlete, or an expert cook in order to qualify as possessing capacity

Wash—In re Wiltzius' Estate, 253 P 2d 954, 42 Wash 2d 149—In re Bottger's Estate, 129 P 2d 518, 523, 14 Wash 2d 676

"Absolute soundness of mind [is not] the real test of testamentary capacity"

Kan.—In re Hall's Estate, 195 P 2d 612, 615, 165 Kan 465—In re Crump's Estate, 166 P 2d 684, 687, 161 Kan 154

"Testamentary capacity does not necessarily imply a mind wholly unimpaired"

Ala.—Wilson v Payton, 37 So 2d 499, 500, 251 Ala 411—Bulger v. Ross, 12 So 803, 804, 98 Ala 267.

Unsound mind and memory to some extent

A person may be of unsound mind and memory to some extent, but still be capable of making a will

Ill.—Challiner v Smith, 71 NE 2d 324, 396 Ill 106

Wilson v Bell, 43 NE 2d 162, 315 Ill App 418

Full use of mental faculties

A person not having full use of his mental faculties may have ample mental capacity to make a will

Ky.—Nugent v Nugent's Ex'r, 135 SW 2d 877, 281 Ky 263.

broadest sense of the term<sup>72</sup> The expression "sound mind" does not mean a perfectly balanced mind.<sup>73</sup>

Mere weakness of understanding<sup>74</sup> or of mental

power,<sup>75</sup> mental unsoundness,<sup>76</sup> mental confusion,<sup>77</sup> failing mind,<sup>78</sup> impaired intellect,<sup>79</sup> lack of a keen mind,<sup>80</sup> weakening judgment,<sup>81</sup> mental or intellectual feebleness, or weakness of mind,<sup>82</sup> or distress

**Mental disease** does not in itself disqualify a testator

NJ—In re Lucas' Will, 1 A.2d 929, 124 N.J. Eq. 347

**Mental disturbance** may or may not reach the stage where one loses his capacity to make a valid will  
Ill—Logsdon v Logsdon, 104 N.E. 2d 622, 412 Ill. 19

72. Tex—Reiche v Williams, Civ App, 183 S.W.2d 587, error refused, 185 S.W.2d 420, 143 Tex. 365—McCannon v McCannon, Civ App, 2 S.W.2d 942

73. Me—Appeal of Martin, 179 A. 655, 133 Me. 422—In re Loomis' Will, 174 A. 38, 133 Me. 81

#### "Distorted mind"

The ability to make a will does not depend on whether the testator has "a distorted mind"

Miss—Wallace v Harrison, 65 So. 2d 456, 218 Miss. 153

74. Va—Ferguson v Ferguson, 192 S.E. 774, 169 Va. 77

W Va—Ritz v Kingdon, 79 S.E.2d 123—Nicholas v Kershner, 20 W. Va. 251

#### Partial mental debility

Idaho—In re Heazle's Estate, 257 P.2d 556, 74 Idaho 72.

#### Weakness with partial mental failure

Intellectual weakness with partial failure of mind and memory is not solely an indication of inability to make a will

Me—In re Loomis' Will, 174 A. 38, 133 Me. 81.

of mind<sup>83</sup> does not disqualify a person to make a will, unless it is so great as to render the testator unable to appreciate the nature or consequences of his act,<sup>84</sup> or to act intelligently and voluntarily with respect to the transaction,<sup>85</sup> and provided it appears that the testator's mind was capable of attention and exertion when aroused and was not imposed on.<sup>86</sup> As to the quantum of mentality, the weak have the same rights as the prudent and strong-minded to dispose of their property by will.<sup>87</sup> However, mental weakness is a circumstance to be considered together with all other facts surrounding the execution of a will in determining the testator's testamentary capacity.<sup>88</sup>

The mental capacity requisite for making a will is very<sup>89</sup> low,<sup>90</sup> the right of testamentary disposition may be exercised by a person of very<sup>91</sup> moderate mental capacity,<sup>92</sup> or of slight mental ca-

capacity<sup>93</sup>

Sanity is not necessarily synonymous with capacity to make a testamentary disposition,<sup>94</sup> perfect sanity is not a prerequisite of testamentary capacity,<sup>95</sup> and complete sanity, in a medical sense, is not essential, provided that the power to think rationally exists when the individual's will to act is exercised.<sup>96</sup> A person may be lacking in testamentary capacity and yet not be insane,<sup>97</sup> although it has been held that anything less than a total absence of mind does not destroy that capacity.<sup>98</sup>

In some cases, the fact that a person is *compos mentis* has been stated as an equivalent to his possession of a sound and disposing mind,<sup>99</sup> but the fact that a person is *compos mentis* would alone be misleading as a test of his capacity to make a will.<sup>1</sup>

*Correct reasoning* A will is not to be overturned because the testator has not reasoned correctly,<sup>2</sup>

**83.** Or—In re Davis' Will, 142 P 2d 143, 172 Or 354

testamentary capacity, and the validity of wills, do not depend on the testator's ability to reason logically<sup>3</sup>

*Lack of strict coherence in conversation* does not render a person incapable of executing a valid will<sup>4</sup>

## (2) Size of Estate or Complexity of Will

Authorities differ as to whether a person may have capacity to dispose of a small, but not of a large, estate, or to make a simple, but not a complicated, will

It has been held that testamentary capacity does not vary with the size of the estate or the character of the disposition,<sup>5</sup> and that if a person has testamentary capacity at all, he may make any will, however complicated,<sup>6</sup> but there is other authority that one may be competent to dispose of a small estate, although incompetent to dispose of a large estate,<sup>7</sup> and may have capacity to make a simple will, al-

though unable to make a complicated or elaborate one<sup>8</sup>

## (3) Capacity to Contract, Transact Business, Etc.

Under most authorities, less mental capacity is required for making a will than for carrying on business transactions generally, or for making a contract or deed, and one who has sufficient mental capacity to transact ordinary business is competent to make a will.

The ability to transact business is not the, or a, true test of testamentary capacity,<sup>9</sup> and the ability to transact important business,<sup>10</sup> or even ordinary business,<sup>11</sup> or to carry on difficult negotiations,<sup>12</sup> is not the legal standard of testamentary capacity. So, it is generally held that less mental capacity is required for the testator to make a will than to carry on business transactions generally,<sup>13</sup> or ordinary

general, the same as those governing testamentary capacity<sup>24</sup>

In accordance with the general rule, unless insanity of some nature affects the testamentary disposition, as discussed *infra* § 17, a person who has sufficient mental capacity to transact ordinary business, or ordinary business affairs, is regarded as competent to make a will,<sup>25</sup> but capacity to transact business is held not to constitute testamentary capacity<sup>26</sup>

#### (4) Statutory Requirements

Statutory requirements as to testamentary capacity must be complied with. In the absence of statutory definitions, the terms used in such provisions are construed in accordance with judicial decisions generally.

While a particular statute may impose only an age requirement for making a will,<sup>27</sup> the usual statutory requirements are a "sound," "sane," or "disposing" mind,<sup>28</sup> these are synonymous terms as so used<sup>29</sup>

In the absence, from such a statute, of a definition

of "sound mind," a definition of that term is to be sought in the decisions of the courts<sup>30</sup> "Sound mind," within such a statute, requires only testamentary capacity,<sup>31</sup> and "being of sound mind" means "having testamentary capacity"<sup>32</sup> "Sound mind" comprehends ability to recollect property and beneficiaries and conceive the practical effect of the will,<sup>33</sup> a mind naturally possessing power, not unduly impaired by old age, or enfeebled by illness, or tainted by morbid influence, is, in legal contemplation, a "sound mind"<sup>34</sup>

"Unsound mind," in this connection, has been held to be equivalent to "insanity"<sup>35</sup> and "non compos mentis,"<sup>36</sup> and means such a degree of mental unsoundness that the testator does not come up to the standard of competency generally recognized by law.<sup>37</sup>

A statutory provision that the amount of intellect necessary to constitute testamentary capacity to enable the party to have a decided and rational desire as to the disposition of his property has been

#### Other statements

(1) As used in the statute, the term "unsound mind" relates to the ability of the person to transact business, it is such debility or impairment of mentality as deprives the person affected of competency to manage his estate  
Me—Appeal of Eastman, 194 A. 586, 135 Me 233

(2) With respect to capacity to make a will, a person of "unsound mind" is an adult who, from infirmity of mind, including insanity, idiocy, and imbecility, is incapable of managing himself or his affairs  
Cal—In re Little's Estate, 72 P 2d 213, 23 Cal App 2d 40  
Clements v McGinn, 33 P 920, 4 Cal Unrep Cas 163

(3) The terms "unsound mind" or "of unsound mind", as they pertain to testamentary capacity, include every phase of unsound mind rendering one incapable of caring for himself or his property, and every species of unsoundness of mind, they are of such variable significance that their value in any given case depends entirely on the relation they bear to a particular person in connection with particular act under inquiry.

Or—In re Murray's Estate, 144 P 2d 1016, 173 Or 209—In re Johnson's Estate, 91 P 2d 330, 162 Or 97.

frequently applied<sup>38</sup> Within such provision, "decided" simply means a mental capacity to frame a desire that is certain, or with distinct limits,<sup>39</sup> and does not connote stubbornness,<sup>40</sup> or even mental strength,<sup>41</sup> and "rational" means that the desire must be consistent with reason,<sup>42</sup> and not that it must spring from a strong intellect<sup>43</sup> The mind of the testator could have been "bad,"<sup>44</sup> or such that he could not "transact business to his advantage,"<sup>45</sup> and still he could have possessed sufficient intelligence to enable him to have the requisite statutory decided and rational desire.

## § 16. Illiteracy

Illiteracy does not, in itself, deprive one of testamentary capacity.

Cal.—In re Finkler's Estate, 46 P 2d 149, 3 Cal 2d 584—In re Perkins' Estate, 235 P 45, 195 Cal. 699

In re Shields' Estate, 121 P 2d 795, 49 Cal App 2d 293

If the testamentary requisites exist, as discussed supra § 15, the will may be valid, although executed by one who is illiterate, when it is shown that he knows and understands the contents of the will,<sup>46</sup> illiteracy<sup>47</sup> or lack of education<sup>48</sup> has little, if any, bearing on the mental capacity to make a will.

## § 17. Insanity

In general, a will which is executed under the influence of, and whose provisions are affected by, insanity, in the legal, although not necessarily in the medical, sense, is invalid

In general, a will or codicil executed under the influence of insanity is invalid,<sup>49</sup> and this is true whether the testator is totally<sup>50</sup> or partially<sup>51</sup> in-

Pa.—In re Nelson's Estate, Orph., 66

York Leg Rec. 161

68 CJ p 432 note 86

"In order to invalidate a will it is not necessary that the intellect should be in total eclipse and oblivion, or that the testator should be generally insane There is a partial insanity, and a total insanity Such partial insanity may exist as respects particular persons, things, or subjects, while as to others the person may not be destitute of the use of reason"

NY.—In re Rice's Estate, 19 NY S 2d 602, 606, 173 Misc. 1038—In re Gannon's Will, 21 NY S 960, 962, 2 Misc. 329

### Nature of partial insanity or monomania

(1) Partial insanity or monomania exists wherever a person conceives something to exist which has no extrinsic evidence whatever, and is incapable of being permanently reasoned out of that conception

Ga.—Bowman v Bowman, 55 SE 2d 298, 205 Ga. 796

(2) The same statement has been made with respect to monomania alone

Ga.—Brumbelow v Hopkins, 29 SE 2d 42, 197 Ga. 247

(3) "Monomania" is insanity only on a particular subject and with a single delusion of mind, but it may so limit testamentary capacity as to prevent testator from bringing into mental review matters essential to validity of a will

Ga.—Yarbrough v Yarbrough, 43 S. E 2d 329, 202 Ga. 391

(4) A showing of hallucinations or insane delusions is essential to proving a monomania depriving one of testamentary capacity.

sane To set aside a will for insanity or mental derangement, the abnormalities of mind must have a direct bearing on the testamentary act,<sup>52</sup> and the evidence must establish the fact that the property was devised in a manner which, except for the claimed infirmities, would not have occurred.<sup>53</sup> So, partial insanity will invalidate a testamentary disposition only when shown to affect its provisions.<sup>54</sup>

However, not every form<sup>55</sup> or degree<sup>56</sup> of in-

sanity will destroy an otherwise valid testamentary act. It is not true that no person who is insane may make a valid will,<sup>57</sup> since a testator may be insane in the medical sense and yet have testamentary capacity,<sup>58</sup> there must be either such a complete derangement as denotes utter incapacity or a specific insane delusion or hallucination which affects the making of the will.<sup>59</sup> In other words, the rule is not that no person who is insane may make a valid

Ga.—Whitfield v Pitts, 53 S E2d 549, 205 Ga 259

(5) In describing a testatrix' testamentary capacity, terms "partial insanity" and "monomania," as implying compartment theory of mind that a person may be insane on one subject and sane on another, are objectionable, and "monomania" now means a type of insanity which is manifest only on certain subjects, though it affects the whole mind. Or.—In re Murray's Estate, 144 P 2d 1016, 1022, 173 Or 209

(6) Monomania is not mere dislike of certain person, or unreasonable conduct of a sane person. Ga.—Brumbelow v Hopkins, supra

(7) "Monomania" defined generally see Insane Persons § 2 c

(8) Insane delusions generally see infra § 18

#### Monomania and undue influence

(1) Monomania alone, or acting conjointly with undue influence, or as ancillary or contributing thereto, may paralyze testamentary capacity. Ga.—Bowman v Bowman, 55 S E2d 298, 205 Ga 796

(2) Undue influence generally see infra §§ 224-261

52 Cal.—In re Leonard's Estate, 207 P 2d 66, 92 Cal App 2d 420. Effect of insane delusion on will or testamentary disposition see infra § 18 b

53. Cal.—In re Leonard's Estate, supra

54. Iowa.—Corpus Juris cited in Walters v Heaton, 271 N.W. 310, 313, 223 Iowa 405. 68 C J p 433 note 87

#### Partial insanity or monomania

(1) One who is partially insane or a monomaniac may make a valid will, if such insanity does not enter into disposition of his estate. Mo.—Ahmann v Elmore, 211 S W 2d 480

(2) A monomaniac may make a will if it is in no way the result of, or connected with, his monomania. Ga.—Brumbelow v Hopkins, 29 S E2d 42, 197 Ga 247.

(3) For a will to be invalidated on the ground of partial insanity or

monomania, it must be the direct offspring thereof

Pa.—In re Leedom's Estate, 32 A 2d 3, 347 Pa 180—Thomas v Carter, 33 A 81, 170 Pa 272

will, but rather is that the will of no person who, by reason of insanity, is incapable of making valid testamentary disposition of his estate shall be upheld.<sup>60</sup>

On the other hand, insanity may render the testator incompetent although he may have an apparent use of his faculties in many respects,<sup>61</sup> and although he may be capable of transacting ordinary business.<sup>62</sup>

The test of capacity is the same whether the testator's insanity is attributable to dementia or to an insane delusion.<sup>63</sup>

A will is valid if mental capacity exists at the time of the execution thereof notwithstanding complete dementia of the testator before and after execution,<sup>64</sup> a person of pathologically unsound mind may possess testamentary capacity at any given time and lack it at all other times.<sup>65</sup>

A belief is not evidence of insanity because it is illogical or preposterous.<sup>66</sup>

*Likes, dislikes, and mistrusts.* Capricious and ar-

bitrary likes, dislikes, and mistrusts are not evidence of unsoundness of mind,<sup>67</sup> so, the fact that a person dislikes his relatives, with or without reason, is not necessarily proof of such unsoundness.<sup>68</sup>

## § 18. — Insane Delusions

- a In general
- b Effect on will or testamentary disposition

### a. In General

A delusion, to affect testamentary capacity, must be an insane one, that is, an idea or belief with no basis in fact or reason and adhered to by the testator against reason and evidence.

A testator may meet the tests of general testamentary capacity and nevertheless be laboring under one or more insane delusions which may have the effect of making his will a nullity,<sup>69</sup> for this result to follow, the testator must be actually possessed of a delusion.<sup>70</sup> A delusion, to deprive the testator of capacity, must be an insane delusion,<sup>71</sup> not every

#### Other definitions

(1) "An insane delusion is an unreasoning and incorrigible belief in the existence of facts which are either impossible, absolutely, or, at least, impossible under the circumstances of the individual. It is never the result of reasoning and reflection; it is not generated by them, and it cannot be dispelled by them, and hence it is not to be confounded with an opinion, however fantastic the latter may be"

Mo—Ahmann v Elmore, 211 S W 2d 480, 486—Gaume v Gaume, 102 S W 2d 636, 640, 340 Mo 758—Stevens v Meadows, 100 S W 2d 281, 287, 340 Mo 252—Conner v Skaggs, 111 S W 1132, 1135, 213 Mo 334

(2) "An insane delusion is not only one which is error, but one in favor of the truth of which there is not only no evidence, but regarding which there is the clearest evidence to the contrary. It is a delusion or conception which springs up spontaneously in the mind of a testator, and is not the result of his belief or knowledge

of any fact which would in reason or in probability furnish evidence in its support"

Cal—In re Gunther's Estate, 248 P 514, 516, 195 Cal 119  
In re Alegria's Estate, 197 P 2d 571, 577, 87 Cal App 2d 645

(3) A delusion which might incapacitate a person from making a will, is a false belief for which there is no reasonable foundation, a conception of the existence of something which does not exist, of which the mind of the person entertaining it cannot be permanently disabused, and which influences the provisions of the will

Del—In re Barnes' Will, 18 A 2d 433, 434, 2 Terry 206

(4) A "delusion" is a fixed belief in a proposition which has no foundation in evidence and which is so extravagant that a reasonable man would not adhere to it

Ala—Hornaday v First Nat Bank of Birmingham, 65 So 2d 678, 686, 259 Ala 26

Or—In re Sturtevant's Estate, 180 P 595, 92 Or 269

(5) It is a fixed belief where there is no evidence for such belief

Ala—Hornaday v First Nat Bank of Birmingham, supra

82. Del—In re Barnes' Will, 18 A 2d 433, 2 Terry 206

A mistake of fact is not an insane delusion which will permit setting aside of will, unless mistake was caused by a mental derangement

Ariz—In re Smith's Estate, 91 P 2d 254, 53 Ariz 505

Distinction between a mistake and an insane delusion is that a mistake whether of fact or law, moves from some external influence which is weighed by reason, however imperfectly whereas a delusion arises from a morbid internal impulse having no basis in reason

Kan—In re Millar's Estate, 207 P 2d 483, 167 Kan 455

#### Mistaken belief as to financial situation

Testatrix' mistaken belief that financial situation of deceased husband's mother was better than it really was was not such an insane delusion as would permit setting aside of will, even though testatrix would have executed a different will had she known the true facts

Ariz—In re Smith's Estate, 91 P 2d 254, 53 Ariz 505

83 Del—In re Barnes' Will, 18 A 2d 433, 2 Terry 206

Prejudice as affecting testamentary capacity generally see *infra* § 23

#### Prejudice or dislike for relative

A prejudice or dislike that testatrix might have for a relative is not ground for setting aside a will unless such prejudice cannot be explained on any other grounds than that of an insane delusion

Ill—Jackman v North, 75 NE 2d 324, 398 Ill 90, 175 ALR 868

Tex—In re Lockhart's Estate, Civ App., 258 SW 2d 877, reversed on other grounds, Sup., Knight v Edwards, 264 SW 2d 692

84. Wis—In re Bickner's Estate, 49 NW 2d 404, 259 Wis 425

"Prejudices, dislikes, and antipathies, however ill-founded or strongly entertained, cannot be classed as insane delusions"

Cal—In re Kendrick's Estate, 62 P 605, 607, 130 Cal 360

In re Alegria's Estate, 197 P 2d 571, 87 Cal App 2d 615—In re Selb's Estate, 190 P 2d 277, 84 Cal App 2d 46

"Wills cannot be annulled on the theory of insane delusions because they reflect loves, hates, partialities, or caprices of testatrix"

Mo—Higgins v Smith, App., 150 S. W 2d 539, 544.

be in error in his reasoning, undue or unnatural prejudice or aversion, if based on any kind of reasoning, is not an insane delusion,<sup>85</sup> to prove it such it must appear that there was no basis for it and that attempts were made by reasoning to dispel it,<sup>86</sup> if there is no basis for it, it is an insane delusion<sup>87</sup>

One may have a delusion which does not imply or show unsoundness of mind,<sup>88</sup> being merely evidence of insanity<sup>89</sup>

*The justice or injustice of the will* does not determine whether or not it is the result of an insane delusion<sup>90</sup>

*Obsession.* In order for an obsession to invalidate a will, it must be established that it was really an insane delusion<sup>91</sup>

*Erroneous views of the law* are not "delusions" such as to void wills<sup>92</sup>

*A religious belief* having a factual basis, especially where based on a conclusion, whether correct or incorrect, peculiar or eccentric, if reached in a not altogether illogical manner, is not an insane delusion<sup>93</sup>

*Belief in spiritualism* does not ipso facto constitute an insane delusion,<sup>94</sup> but such a belief may be indulged in to such an extent as to indicate insane delusions<sup>95</sup>

*Violent temper.* A person may have a violent temper, and under its influence say and do wrong and unnatural things, and still not labor under an insane delusion as to objects of his hostility<sup>96</sup>

*Other particular matters considered* In determining whether a testator was a victim of delusions which affected his ability to make a valid will, blood relationship<sup>97</sup> and the attention bestowed on the testator by his sister<sup>98</sup> are matters of important, but not controlling, consideration in determining the issues before the court

Statements made in a will, or when the will is made, at variance with alleged prior or subsequent oral statements, cannot be made evidence of mental incapacity by calling them delusions<sup>99</sup>

*Time when effective* Insane delusions, to affect the validity of a will must have existed at the time of the execution of the will<sup>1</sup>

85. Ky—Prichard v. Kitchen, 242 S W 2d 988

Time at which capacity must exist generally see *supra* § 5.

any delusion<sup>38</sup> A lucid interval is not merely a cessation of the violent symptoms of an insane disorder, but a restoration of the mind sufficiently to have a sound and disposing mind<sup>39</sup>

A statute requiring a certification of lucidity by two physicians to enable a demented person to make a will does not apply when the testator has not been legally declared demented<sup>40</sup>

## § 20. — Adjudication as to Insanity or Incompetency; Guardianship or Commitment

In general, a person does not lack testamentary ca-

capacity because he has been adjudicated insane or incapable of handling his affairs, or has been confined in an institution for the insane, or because a guardian has been appointed for him.

A person is not incompetent to make a will because he has been adjudicated to be of unsound mind,<sup>41</sup> or insane,<sup>42</sup> or has been confined in an institution for the insane<sup>43</sup>

This is true where a person has been adjudicated to be incapable of managing his property, or handling his affairs,<sup>44</sup> whether the adjudication of incompetency precedes or follows the execution of the

### Other statement

A lucid interval is not merely a cooler moment, and abandonment of pain or violence or of higher state of torture, a mind relieved from excessive pressure, but an interval in which the mind, having thrown off the disease, has recovered from its general habit, it is not the mere absence of the subject of the delusion from the mind or a concealment of delusions, but their total absence, their nonexistence in all circumstances, and a recovery from the disease and subsequent relapse

Tenn—Melody v Hablin, 115 SW 2d 237, 21 Tenn App 687

Conclusiveness and effect of adjudication generally see Insane Persons § 32

### Statute held inapplicable

The statute prohibiting persons judicially determined to be of unsound mind from making conveyance or contract or delegating any power or waiving any right was intended to cover the making of contracts and conveyances, and not to control on the matter of testamentary capacity

Cal—In re Worrall's Estate, 127 P 2d 593, 53 Cal App 2d 243

42. NM—In re Armijo's Will, 261 P 2d 833, 57 NM 649

Adjudication as lunatic from alcoholic dementia see infra § 25

Presumption from adjudication of insanity see infra § 37

"Mental capacity to execute a will may factually exist and be shown though testator has been adjudged insane A party may have been ad-

judged insane yet to make a valid will the law only requires that at the time of composing and executing it, he be factually so far free of his affliction that the ordinary legal consequences of his insanity do not apply to what he is then doing"

Va—Western State Hospital of Staunton v Winger, 83 SE 2d 446, 453, 196 Va 300—Tate v Chumbley, 57 SE 2d 151, 158, 190 Va 480

### Testamentary capacity not in issue; estoppel

Testatrix' testamentary capacity was not an issue in proceedings to have her adjudged insane and a committee appointed for her, and judgment in lunacy proceedings did not estop beneficiary of will to offer it for probate

Va—Tate v Chumbley, supra

"A person may indeed be incapable of managing and conserving a large estate and yet be perfectly able to understand the nature of a will, to comprehend the extent of his property, and to recall the natural objects of his bounty"

Wash—In re Bottger's Estate, 129 P 2d 518, 527, 14 Wash 2d 676

### Judgment of incompetency in guardianship proceedings

Cal—Jensen v Jensen, 192 P 2d 55, 84 Cal App 2d 754

### Age

(1) Adjudication that ward was mentally incompetent to have care, control, and custody of his property because of age would not render him mentally incompetent in other matters and he might be sufficiently competent to make a will

Mich—In re Johnson's Estate, 281 NW 597, 286 Mich 213

(2) Old age generally see infra § 27

### Interdiction

Fact that testator was under interdiction by judgment of court prior to execution of will would not, ipso facto, incapacitate him from making a will, but would only be evidence of incapacity, to be considered with all other evidence

La—Succession of Schmidt, 53 So 2d 834, 219 La 675—Succession of Lanata, 18 So 2d 500, 205 La 915

### Participation in proceedings as not estoppel

The issues in a proceeding to appoint a committee for aged woman who was incapable of taking proper care of her property were not the same as the issues in a suit to determine her testamentary capacity, therefore, fact that legatee, named in will executed by her on same day that her committee was appointed, participated in proceeding for ap-

will<sup>45</sup> It is also true where a guardian or conservator of one's person or estate has been appointed,<sup>46</sup> in the absence of a controlling statute,<sup>47</sup> and unless the order appointing the guardian is based on an express finding of some mental defect inconsistent with the possession of the capacity required for the execution of a will,<sup>48</sup> and in the particular circumstances the order appointing a guardian may in no sense be an adjudication that the ward is mentally incompetent to handle his own affairs<sup>49</sup>

Conversely, a judgment declaring a person to be of sound mind is not conclusive as to his competency,<sup>50</sup> and a person's restoration to capacity to transact his business in one year does not establish his testamentary capacity in a subsequent year.<sup>51</sup> However, a judicial finding, in a proceeding for the appointment of a guardian, that the testator was competent to handle his own affairs has been

held certainly equivalent to a finding that he was then competent to make a will<sup>52</sup>

## § 21. Imbecility

### Imbecility may establish testamentary incapacity

Imbecility may be sufficient to establish testamentary incapacity,<sup>53</sup> unless the testator possesses an understanding of the essential matters<sup>54</sup>

Resolutions of psychological and education associations requiring expert examination before a person may be classified as a moron are not binding on courts where they have not been given statutory effect by the legislature<sup>55</sup>

## § 22. Eccentricity, Personal Habits and Conduct

Eccentricities or undesirable personal habits or characteristics do not of themselves render a person incompetent to make a will

pointment of committee did not estop the legatee to assert in the suit that she possessed testamentary capacity

Va.—*Gilmer v Brown*, 44 S E 2d 16, 186 Va 630

Decree adjudging person to be weakminded and appointing guardian for his estate operates prospectively only and cannot nullify his prior will, though executed on day on which guardianship proceedings were begun

Pa.—In re Taylor's Estate, 175 A 540, 316 Pa 557

In re Ryman, 11 A 2d 677, 139 Pa Super 212

### Statute held inapplicable

In will contest on ground of incapacity of testatrix who had been declared incompetent and for whom a guardian had been appointed, statute prohibiting person judicially determined to be of unsound mind from making conveyance or contract, delegating any power, or waiving any right, not being intended to control on testamentary capacity, was inapplicable, and did not prevent an inquiry into the question whether testatrix was of sound and disposing mind and memory at the time of execution of will

68 C J p 437 note 29

Adjudication as to insanity and guardianship as evidence see *infra* §§ 45, 64

### Execution of will after verdict of competency

Where testator purportedly executed will ten days after jury's verdict of competency in incompetency proceeding, but before court had entered order confirming the verdict, the order was not conclusive on issue of testamentary capacity in subsequent proceeding for probate, but under rule of *res judicata* question of mental capacity was to be limited to period from date of verdict to time will was executed
